Blood Borne Pathogens - Safety Practices81

Comprehensive School Safety Plan Purpose

Effective January 1, 2019, Assembly Bill 1747 (Rodriguez), School Safety Plans, became law. This bill requires that during the writing and development of the comprehensive school safety plan (CSSP), the school site council or safety committee consult with a fire department and other first responder entities in addition to currently required entities. It requires the CSSP and any updates made to the plan to be shared with the law enforcement agency, the fire department, and the other first responder entities.

The California Education Code (sections 32280-32288) outlines the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school.

In 2004, the Legislature and Governor recast and renumbered the Comprehensive School Safety Plan provisions in SB 719 and AB 115. It is the intent of the Legislature in enacting the provisions to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process, that include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses.

The historical requirement of the Comprehensive School Safety Plan was presented in Senate Bill 187, which was approved by the Governor and chaptered in 1997. This legislation contained a sunset clause that stated that this legislation would remain in effect only until January 1, 2000. Senate Bill 334 was approved and chaptered in 1999 and perpetuated this legislation under the requirement of the initial legislation.

Comprehensive School Safety Plans are required under SB 719 & AB 115 and contains the following elements:

Assessment of school crime committed on school campuses and at school-related functions

- Child abuse reporting procedures
- Disaster procedures
- Suspension and expulsion policies
- Procedures to notify teachers of dangerous pupils
- Discrimination and harassment policies
- School wide dress code policies
- Procedures for safe ingress and egress
- Policies enacted to maintain a safe and orderly environment
- Rules and procedures on school discipline
- Hate crime reporting procedures

The Comprehensive School Safety Plan will be reviewed and updated by March 1st every year. In July of every year, the school will report on the status of its school safety plan including a description of its key elements in the annual school accountability report card.

A copy of the Comprehensive School Safety Plan is available for review at Arroyo Verde Elementary Office.

(A) Child Abuse Reporting Procedures (EC 35294.2 [a] [2]; PC 11166)

Policy 5141.4: Child Abuse Prevention and Reporting

The Governing Board recognizes that the district has a responsibility to facilitate the prompt reporting of incidents of child abuse and neglect. The Superintendent or designee shall ensure that parents/guardians have access to procedures whereby they can report suspected child abuse at a school site to appropriate child protective agencies

The Superintendent or designee shall develop and implement regulations for use by employees in identifying and reporting child abuse

District employees shall report known or suspected incidents of child abuse in accordance with district regulations and state law. Employees shall cooperate with the child protective agencies responsible for reporting, investigating and prosecuting cases of child abuse.

(cf. 4112.9 - Signed Statements/Child Abuse Reporting Statements)

The Superintendent or designee shall provide training in child abuse identification and reporting for all certificated and classified personnel. (Penal Code 11165.7)

All employees trained in child abuse identification and reporting shall be given, as a part of that training, written notice of the child abuse reporting requirements and the employees' confidentiality rights. (Penal Code 11165.7)

In order to reduce or eliminate unfounded child abuse accusations directed at school employees, child abuse in service training shall include guidance in disciplining students and maintaining ethical relationships with them.

(cf. 3514 - Safety)

(cf. 5142 - Safety)

Duty to Report

Certificated employees and classified employees trained in child abuse identification and reporting shall report known or suspected child abuse to a child protective agency by telephone immediately or as soon as practically possible and in writing within 36 hours. The reporting duties are individual and cannot be delegated to another individual except under circumstances set forth in Penal Code 11166.

Definitions

Child Abuse includes the following:

1. A physical injury inflicted by other than accidental means on a child by another person.
2. Willful cruelty or unjustifiable punishment of a child, or willfully inflicting unjustifiable physical pain or mental suffering, or failure to safeguard a child from these injuries when the child is under a person's care or custody
3. Sexual abuse of a child
4. Neglect of a child or abuse in out-of-home care
5. Unlawful corporal punishment or injury resulting in a traumatic condition

Mandated Reporters are those people defined by law as child care custodians, health practitioners, child visitation monitors and employees of a child protective agency. Mandated reporters include virtually all school employees. The following school personnel are required to report:

Teachers, administrators, supervisors of child welfare and attendance, certificated student personnel employees, employees of care institutions, Headstart teachers, school psychologists, licensed nurses, counselors, presenters of child abuse prevention programs and those instructional aides or other classified employees trained in child abuse reporting.

Child Protective Agencies are those law enforcement and child protective services responsible for investigating child abuse reports, including the local police or sheriff department, county welfare or juvenile probation department and child protective services.

Reasonable Suspicion means that it is objectively reasonable for a person to entertain such a suspicion, based upon facts that could cause a reasonable person in a like position, drawing when appropriate on his/her training and experience, to suspect child abuse. (Penal Code 11166)

Reporting Procedures

To report known or suspects child abuse, any employee (as defined above) shall report by telephone to the local child protective agency immediately. (Child Protective Services 921 County Center, 3 Court, Modesto, CA phone # 525- 6641)

The following information shall be given:

1. The name of the person making the report
2. The name of the child
3. The present location of the child
4. The nature and extent of any injury

Any other information requested by the child protective agency, including the information that led the mandated reporter to suspect child abuse.

When the verbal report is made, the mandated reporter shall note the name of the official contacted, the date and time contacted, and any instructions or advice received.

Within 36 hours of making the telephone report, the mandated reporter shall complete and mail to the local child protective agency a written report which includes a completed Department of Justice form (DOJ SS 8572).

Mandated reports may obtain copies of the above form either from the district or local child protective agency.

Instructions are included on the form, and reporters may ask the site administrator for help in completing and mailing it; however, the mandated reporter is personally responsible for ensuring that the written report is correctly filed.

Employees reporting child abuse to a child protective agency are encouraged, but not required, to notify the site administrator or designee as soon as possible after the initial verbal report by telephone. When so notified, the site administrator shall inform the Superintendent or designee.

Administrators so notified shall provide the mandated reporter any assistance necessary to ensure that reporting procedures are carried out in accordance with law and district regulations. At the mandated reporter's request, the principal may assist in completing and filing the form.

If the mandated reporter does not disclose his/her identity to a district administrator, he/she shall at least provide or mail a copy of the written report to the site administrator and the district without his/her signature or name.

Legal Responsibility and Liability

Mandated reporters have absolute immunity. School employees required to report are not civilly or criminally liable for filing a required or authorized report of known or suspected child abuse.

A mandated reporter who fails to report an instance of child abuse, which he/she knows to exist or reasonably should know to exist, is guilty of a misdemeanor and is punishable by confinement in jail for a term not to exceed six months or by a fine of not more than \$1,000 or both. The mandated reporter may also be held civilly liable for damages for any injury to the child after a failure to report

When two or more persons who are required to report have joint knowledge of suspected instance of child abuse, and when they so agree, the telephone report may be made by either of them and a single report made and signed by that person.

However, if any person who knows or should know that the person designated failed to make the report, that person then has a duty to make the report.

The duty to report child abuse is an individual duty and no supervisor or administrator may impede or inhibit such reporting duties. Furthermore, no person making such a report shall be subject to any sanction.

Victim Interview

Upon request, a child protective agency representative may upon request interview a suspected victim of child abuse during school hours, on school premises, concerning a report of suspected child abuse that occurred within the child's home. The child shall be given the choice of being interviewed in private or in the presence of any adult school employee or volunteer aide selected by the child. (Penal Code 11174.3)

A staff member or volunteer aide selected by a child may decline to be present at the interview. If the selected person accepts, the principal or designee shall inform him/her, before the interview takes place, of the following legal requirements:

1. The purpose of the selected person's presence at the interview is to lend support to the child and enable him/her to be as comfortable as possible.
2. The selected person shall not participate in the interview.
3. The selected person shall not discuss the facts or circumstances of the case with the child.
4. The selected person is subject to the confidentiality requirements of the Child Abuse and Reporting Act, a violation of which is punishable as specified by Penal Code 11167.5.
5. If a staff member agrees to be present, the interview shall be held at a time during school hours when it does not involve an expense to the school. (Penal Code 11174.3)

Release of Child to Peace Officer or Child Protective Services Agent

When a child is released to a peace officer or child protective agency and taken into custody as a victim of suspected child abuse, the Superintendent and/or principal shall not notify the parent/guardian as required in other instances of removal of a child from school, but rather shall provide the protective agency with the address and telephone number of the child's parent/guardian. It is the responsibility of the peace officer or agent to notify the parent/guardian of the situation. (Education Code 48906)

Peace officer and child protective services agents will be asked to sign an appropriate release or acceptance of responsibility form.

(cf. 5145.11 - Questioning and Apprehension)

When School Employees are Accused of Child Abuse

Regardless of who child abusers may be, the major responsibilities of mandated reports are to 1) identify incidents of suspected child abuse, and 2) comply with laws requiring the reporting of suspected abuse to proper authorities. Determining whether or not the suspected abuse actually occurred is not the responsibility of the school employee. Such determination and follow-up investigation will be made by a child protective agency.

Pending outcome of an investigation by a child protective agency and before formal charges are filed, the employee may be subject to reassignment or a paid leave of absence.

Upon filing formal charges or upon conviction, the district may take disciplinary action in accordance with law, district policies, regulations and/or collective bargaining agreements. The Superintendent or designee shall seek legal counsel in connection with either the suspension or dismissal of the employee.

Earthquake drills are practiced four times a year and Lock Down drills are practiced yearly.

Public Agency Use of School Buildings for Emergency Shelters

(C) School Suspension, Expulsion and Mandatory Expulsion Guidelines

Policy 5144.1: Suspension And Expulsion/Due Process

Suspension and Expulsion

The Governing Board recognizes that maintaining an environment which promotes learning and protects the health, safety, and welfare of all students may require the suspension or expulsion of a student from regular classroom instruction. District policies and school site rules shall clearly identify district behavior standards

(cf. 5144 - Discipline)

Except in cases where suspension for a first time offense is warranted in accordance with law, suspension shall be imposed only when other means of correction fail to bring about proper conduct. (Education Code 48900.5)

Expulsion is an action taken by the Board for severe or prolonged breaches of discipline by a student. Except for single acts of a grave nature, expulsion is usually used only when there is a history of misconduct, when other forms of discipline, including suspension, have failed to bring about proper conduct, or when the student's presence causes a continuing danger to other students. (Education Code 48915)

The grounds for suspension and expulsion and the procedures for considering, recommending and/or implementing suspension and expulsion shall be specified in Administrative Regulation.

Each principal shall annually inform all students and parents/guardians of the school's discipline rules and procedures and of the availability of all district policies and regulations dealing with student discipline, suspension and expulsion. (Education Code 35291, 35291.5)

(cf. 5145.6 - Parental Notifications)

Suspended or expelled students shall be excluded from all school-related extracurricular activities during the suspension or expulsion.

cf. 6145 - Extracurricular and Cocurricular Activities)

Zero Tolerance

The Board supports a zero tolerance approach to serious offenses in accordance with state and federal law. This approach makes the removal of potentially dangerous students from the classroom a top priority and ensures the standardized treatment of all students. Staff shall immediately report to the Superintendent/ designee any incidence of offenses specified in law, Board policy, and administrative regulation as cause for suspension or expulsion.

Student Due Process

The Board shall provide for the fair treatment of students facing suspension and expulsion by affording them their due process rights under the law. The administration and staff shall comply with procedures for notices and appeals as specified in regulation. Procedures governing student due process shall conform in all aspects to provisions in law. (Education Codes 48911, 48915 and 48915.5)

Whenever a student is suspended, school officials may (but are not required to) meet with the parent/guardian to discuss the causes and duration of the suspension, the school policy involved, and any other pertinent matters. (Education Code 48914)

cf. 5119 - Students Expelled from Other Districts

(cf. 5144.2 - Suspension and Expulsion/Due Process - Individuals with Exceptional Needs)

Rights of Complaining Witness

An expulsion hearing involving allegations of sexual assault or sexual battery may be postponed for one school day in order to accommodate the special physical, mental or emotional needs of a student who is the complaining witness. (Education Code 48918.5)

Whenever the Superintendent or designee recommends an expulsion hearing that addresses allegations of sexual assault or sexual battery, he/she shall give the complaining witness a copy of the district's suspension and expulsion policy and regulation and shall advise the witness of his/her right to: (Educational Code 48918.5)

1. Receive five days' notice of his/her scheduled testimony at the hearing
2. Have up to two adult support persons of his/her choosing present in the hearing at the time he/she testifies
3. Have a closed hearing during the time he/she testifies

Whenever any allegation of sexual assault or sexual battery is made, the Superintendent or designee shall immediately advise complaining witnesses and accused students to refrain from personal or telephone contact with each other during the time when an expulsion process is pending. (Education Code 48918.5)

On-Campus Suspension Program

The Board recognizes that students who are suspended from school frequently have no supervision or guidance during the school hours when they are off campus. The Board believes that in many cases, instead of sending the student off campus, it would be better to address the student's misconduct by keeping the student at school and providing him/her with supervision that is separated from the regular classroom.

The Superintendent or designee shall examine alternatives to off-campus suspension and may establish a suspension program which involves progressive discipline during the school day on campus; using conferences between staff, parents/guardians and students; detention; student study teams or other assessment-related teams; and/or referral to school support services staff.

Required Parental Attendance

The Board believes that parental involvement plays an important role in the resolution of classroom behavior problems. The Board expects that teachers will communicate with parents/guardians when behavior problems arise

Whenever a student is suspended from a class because he/she committed an obscene act, engaged in habitual profanity or vulgarity, disrupted school activities or otherwise willfully defied valid staff authority, the teacher of the class from which the student was suspended may require the student's parent/guardian to attend a portion of a school day in that class. After completing the classroom visit and before leaving school premises, the parent/guardian also shall meet with the principal or designee. (Education Code 48900.1)

The Board encourages teachers, before requiring parental attendance, to make reasonable efforts to have the parent/guardian visit the class voluntarily. The teacher also may consider informing the parent/guardian about available resources which may provide help in the development of parenting skills. Teachers should reserve the option of required parental attendance for cases in which they have determined that it is the best strategy to promote positive interaction between the student and the parent/guardian and to improve classroom behavior.

Parental attendance may be required on the day the student returns to class or within one week thereafter. The principal or designee shall contact any parents/guardians who do not respond to the request to attend school. The Board recognizes that parental compliance with this policy may be delayed, modified or prevented by serious illness/injury/disability, absence from town, or inability to get certain release time from work.

The teacher shall apply this policy uniformly to all students within the classroom. This policy shall apply only to a parent/guardian who actually lives with the student. (Education Code 48900.1)

District regulations and school-site rules for student discipline shall include procedures for implementing parental attendance requirements.

Parents/guardians shall be notified of this policy before it is implemented and at the beginning of each subsequent school year. (Education Code 48900.1, 35291, 48980)

Decision Not to Enforce Expulsion Order

In cases where expulsion is mandatory pursuant to Education Code 48915(c), the enforcement of an expulsion order shall not be suspended by the Board. In all other cases of expulsion, the order for expulsion may be suspended by the Board, on a case-by-case basis, pursuant to the requirements of law.

Definitions

18. Made terrorist threats against school officials and/or school property. (Education Code 48900.7)

(cf. 5145.3 -Nondiscrimination/Harassment)

A student may be suspended or expelled for any of the acts listed above if the act is related to school activity or school attendance occurring at any district school under the jurisdiction of the Superintendent/principal or within any other school district, including but not limited to the following circumstances:

1. While on school grounds.
2. While going to or coming from school.
3. During the lunch period, whether on or off the school campus.

cf. 5138 -Conflict Resolution/Peer Mediation)

Alternatives to suspension or expulsion will be used against students who are truant, tardy, or otherwise absent from assigned school activities.

(cf. 5113 -Absences and Excuses)

(cf. 5113.1 - Truancy)

Suspension from Class by a Teacher/Parental Attendance

A teacher may suspend any student from the teacher's class for any of the acts listed under "Grounds for Suspension and Expulsion" above for the day of the suspension and the day following. (Education Code 48910)

Suspension from class means the removal of a student from class by a teacher for the day of the suspension and the next day. A teacher may suspend a student from class and may also refer a student for consideration of suspension from school for any act listed in "Grounds for Suspension and Expulsion" above. (Education Code 48910)

When suspending a student from his/her class, the teacher shall immediately report this action to the principal and send the student to the principal for appropriate action. The student shall be appropriately supervised during the class periods from which he/she has been suspended.

As soon as possible, the teacher shall ask the student's parent/guardian to attend a parent-teacher conference regarding the suspension. A counselor or psychologist should attend the conference if it is practicable, and a school administrator may attend if either the parent/guardian or teacher so request.

A suspended student shall not be returned to class during the period of suspension without the approval of the teacher of the class and the principal. (Education Code 48910)

A student suspended from class shall not be placed in another regular class during the period of suspension. However, if a student is assigned to more than one class per day, he/she may be placed in any other regular classes except those held at the same time as the class from which the student was suspended. (Education Code 48910)

The teacher of any class from which a student is suspended may require the suspended student to complete any assignments and tests missed during the suspension. (Education Code 48913)

When a teacher requires a parent/guardian to attend school in accordance with Board Policy, the principal shall send the parent/guardian a written notice that the parent/guardian's attendance is required pursuant to law. (Education Code 48900.1)

1. This notice shall also tell the parent/guardian when his/her presence is expected and by what means he/she may arrange any necessary change.
2. The notice shall describe the protections afforded to the parent/guardian as an employee by Labor Code 230.7.
3. The notice shall state that if the parent/guardian does not have a means of transportation to school, he/she may ride the school bus with the student.

The teacher shall remind the parent/guardian to meet with the principal or designee after completing the classroom visit and before leaving school premises.

Suspension By Superintendent, Principal Or Principal's Designee

A Superintendent, principal, or principal's designee may suspend a student from a school for any of the acts listed under "Grounds for Suspension and Expulsion" above for not more than five consecutive school days unless the suspension is extended pending expulsion. (Education Code 48911)

The Superintendent or designee shall immediately suspend any student found at school or at a school activity to be: (Education Code 48915)

1. Possessing, as verified by a district employee, or selling or otherwise furnishing a firearm, unless the student had obtained prior written permission to possess the item from a certificated school employee, with the principal or designee's concurrence.
2. Brandishing a knife, as defined in Education Code 48915(g), at another person.

3. Unlawfully selling a controlled substance listed in Health and Safety Code 11053-11058.

4. Committing or attempting to commit a sexual assault or committing a sexual battery as defined in item 414 under "Grounds for Suspension and Expulsion" above.

5. Possession of an explosive as defined in 18 USC 921.

Suspension may be imposed upon a first offense if the Superintendent, principal or designee determines the student violated items (i) - (v) listed in "Grounds For Suspension and Expulsion" above or if the student's presence causes a danger to persons or property or threatens to disrupt the instructional process. (Education Code 48900.5)

A student may be suspended from school for not more than 20 school days in any school year, unless for purposes of adjustment a student enrolls in or is transferred to another regular school, an opportunity school, or continuation school or class, in which case suspension shall not exceed 30 days in any school year. However, this restriction on the number of days of suspension does not apply when the suspension is extended pending an expulsion. (Education Code 48903 and 48912)

Suspension Procedures

1. Informal Conference: Suspension shall be preceded by an informal conference conducted by the principal or designee or the Superintendent or designee between the student, and whenever practicable, the teacher, supervisor or school employee who referred the student to the principal. At the conference, the student shall be informed of the reason for the disciplinary action and the evidence against him/her and shall be given the opportunity to present his/her version and evidence in support of his/her defense. (Education Code 48911(b))

This conference may be omitted if the principal, designee or the Superintendent or designee determines that an emergency situation exists. An "emergency situation" involves a clear and present danger to the lives, safety or health of students or school personnel. If the pre-suspension conference is not held, both the parent/guardian and student shall be notified of the student's right to return to school for the purpose of a conference. The conference shall be held within two school days, unless the student waives his/her right to it or is physically unable to attend for any reason. In such case, the conference will be held as soon as the student is physically able to return to school. (Education Code 48911(c))

2. Administrative Actions: All requests for student suspension are to be processed by the principal or designee of the school in which the student is enrolled at the time of the misbehavior

A school employee shall report the suspension, including the name of the student and the cause for the suspension, to the Superintendent or designee, who in turn will inform the Board.

3. Notice to Parents/Guardians: At the time of the suspension, a school employee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension. (Education Code 48911)

This notice shall state the specific offense committed by the student. (Education Code 48900.8)

In addition, the notice may also state the date and time when the student may return to school.

Should school officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may also add that state law requires the parent/guardian to respond to such request without delay.

4. Parent/Guardian Conference: Whenever a student is suspended, school officials may meet with the parent/guardian to discuss the causes and duration of the suspension, the school policy involved, and any other pertinent matters. (Education Code 48914)

While the parent/guardian is required to respond without delay to a request for a conference about a student's behavior, no penalties may be imposed on the student for the failure of the parent/guardian to attend such conference. The student may not be denied readmission solely because the parent/guardian failed to attend. (Education Code 48911)

5. Extension of Suspension: If the expulsion of a suspended student is being considered by the Board, the Superintendent or designee may, in writing, extend the suspension until such time as the Board has made a decision. (Education Code 48911(g))

Any extension of the original period of suspension shall be preceded by notice of such extension with an offer to hold a conference concerning the extension, giving the student an opportunity to be heard. This conference may be held in conjunction with a meeting requested by the student or parent/guardian to challenge the original suspension. Extension of the suspension may be made only if the Superintendent or designee determines, following a meeting in which the student and the student's parent/guardian were invited to participate, that the student's presence at the school or at an alternative school would endanger persons or property or threaten to disrupt the instructional process. (Education Code 48911(g))

Suspension by the Board

The Board may suspend a student for any of the acts listed in "Grounds for Suspension and Expulsion" above and within the limits specified in "Suspension by Superintendent, Principal or Principal's Designee" above. (Education Code 48912)

The Board may suspend a student enrolled in a continuation school or class for a period not longer than the remainder of the semester if any of the acts listed in "Grounds for Suspension and Expulsion" occurred. The suspension shall meet the requirements of Education Code 48915. (Education Code 48912.5)

When the Board is considering a suspension, disciplinary action, or any other action (except expulsion) against any student, it may hold closed sessions if a public hearing would lead to disclosure of information which would violate a student's right to privacy under Education Code 49073-49079.

(cf. 9321 -Closed Session Purposes and Agendas)

The Board shall provide the student with written notice of the closed session by registered or certified mail. Upon receiving this notice the student may request a public meeting, and this request shall be granted if made in writing (within 48 hours after receipt of the Board's notice). However, any discussion that conflicts with any other student's right to privacy shall be in closed session. (Education Codes 48912)

Authority to Expel

A student may be expelled only by the Board. The Board shall expel, as required by law, any student found to have committed certain offenses listed below under "Mandatory Recommendation and Mandatory Expulsion."

The Board may also order a student expelled for any of the acts listed above under "Grounds for Suspension and Expulsion" upon recommendation by the principal, Superintendent, hearing officer or administrative panel, based on finding either or both of the following: (Education Code 48915(b) and (e))

1. That other means of correction are not feasible
2. That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others

Mandatory Recommendation For Expulsion

The principal, Superintendent or designee shall recommend a student's expulsion for any of the following acts, unless the principal or Superintendent or designee finds, and reports in writing to the Board, that expulsion is inappropriate due to particular circumstances which shall be set out in the report of the incident:

1. Causing serious physical injury to another person, except in self-defense.
2. Possession of any knife as defined in Education Code 48915(g), explosive or other dangerous object of no reasonable use to the student.

3. Unlawful possession of any controlled substance, as listed in Health and Safety Code 11053-11058, except for the first offense for the possession of not more than one ounce of marijuana, other than concentrated cannabis.
4. Robbery or extortion.
5. Assault or battery, as defined in Penal Code 240 and 242, upon any school employee.

Mandatory Recommendation And Mandatory Expulsion

The principal, Superintendent or designee shall recommend that the Board expel any student found at school or at a school activity off school grounds to be: (Education Code 48915(c))

1. Possessing, as verified by a district employee, or selling or otherwise furnishing a firearm, unless the student had obtained prior written permission to possess the item from a certificated school employee, with the principal or designee's concurrence. (Education Code 48915(c).1)
2. Brandishing a knife as defined in Education Code 48915(g) at another person. (Education Code 48915(c).2)
3. Unlawfully selling a controlled substance listed in Health and Safety Code 11053-11058. (Education Code 48915(c).3)
4. Committing or attempting to commit a sexual assault or committing a sexual battery as defined in item #14 under "Grounds for Suspension and Expulsion" above. (Education Code 48915(c).4)
5. Possessing an explosive as defined in 18 USC 921.

Upon finding that the student committed any of the above acts, the Board shall expel the student. (Education Code 48915)

Student's Right to Expulsion Hearing

The student is entitled to a hearing to determine whether the student should be expelled. The hearing shall be held within 30 school days after the principal or Superintendent or designee determines that one of the acts listed under "Grounds for Suspension and Expulsion" has occurred. (Education Code 48918(a))

The student is entitled to one postponement of an expulsion hearing for a period of not more than 30 calendar days. The request for postponement shall be in writing. Any subsequent postponement may be granted at the district's discretion. (Education Code 48918(a))

If the district finds it impracticable to comply with these time requirements for conducting an expulsion hearing, the Superintendent or designee may, for good cause, extend the time period by an additional five school days. Reasons for the extension shall be included as a part of the record when the expulsion hearing is held. (Education Code 48918(a))

Once the hearing starts, all matters shall be pursued with reasonable diligence and concluded without unnecessary delay. (Education Code 48918(a))

Rights of Complaining Witness

An expulsion hearing involving allegations of sexual assault or sexual battery may be postponed for one school day in order to accommodate the special physical, mental or emotional needs of a student who is the complaining witness. (Education Code 48915.5)

Whenever the Superintendent or designee recommends an expulsion hearing that addresses allegations of sexual assault or sexual battery, he/she shall give the complaining witness a copy of the district's suspension and expulsion policy and regulation and shall advise the witness of his/her right to: (Education Code 48915.5)

1. Receive five days' notice of his/her scheduled testimony at the hearing.

2. Have up to two adult support persons of his/her choosing present in the hearing at the time he/she testifies.
3. Have a closed hearing during the time he/she testifies

Whenever any allegation of sexual assault or sexual battery is made, the Superintendent or designee shall immediately advise complaining witnesses and accused students to refrain from personal or telephone contact with each other during the time when an expulsion process is pending. (Education Code 48915.5)

Written Notice of the Expulsion Hearing

Written notice of the hearing shall be forwarded to the student and the student's parent/guardian at least ten calendar days before the date of the hearing. The notice shall include: (Education Code 48900.8, 48918(b))

1. The date and place of the hearing.
2. A statement of the specific facts, charges and offense upon which the proposed expulsion is based.
3. A copy of district disciplinary rules which relate to the alleged violation. 4. A parent/guardian of a student expelled for acts described in paragraphs through 4 of Education Code 48915(a), seeks enrollment in another district they must inform the new district of the students status with the expelling district, pursuant to Education Code 48915.1.

(cf. 5119 -Students Expelled from Other Districts)

5. The opportunity for the student or the student's parent/guardian to appear in person or to employ and be represented by counsel.
6. The right to inspect and obtain copies of all documents to be used at the hearing.
7. The opportunity to confront and question all witnesses who testify at the hearing.
8. The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf, including witnesses.

Conduct of Expulsion Hearing

1. Closed Session: Notwithstanding the provisions of Government Code 54953 and Education Code 35145, the Board shall conduct the hearing or arrange for an alternative hearing to consider the expulsion of the student in a session closed to the public unless the student requests in writing at least five days prior to the hearing that the hearing be a public meeting. If such request is made, the meeting shall be public

Whether the expulsion hearing is held in closed or public session, the Board may meet in closed session to deliberate and determine if the student should be expelled. If the Board admits any other person to the closed session, the parent/guardian, the student, counsel of the student and counsel of the parent/guardian shall also be allowed to attend the closed session. (Education Code 48918(c))

If a hearing that involves a charge of sexual assault or sexual battery is to be conducted in public, a complaining witness shall have the right to have his/her testimony heard in closed session when testifying in public would threaten serious psychological harm to the witness and when there are no alternative procedures to avoid the threatened harm, including but not limited to videotaped deposition or contemporaneous examination in another place communicated to the hearing room by closed-circuit television. (Education Code 48918(c))

2. Record of Hearing: A record of the hearing shall be made and may be maintained by any means, including electronic recording, so long as a reasonably accurate written and complete transcription of the proceedings can be made. (Education Code 48918(g))

3. Presentation of Evidence: While technical rules of evidence do not apply to such hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. The decision of the Board to expel must be supported by substantial evidence that the student committed any of the above acts listed under "Grounds for Suspension and Expulsion" above. Findings of fact shall be based solely on the evidence at the hearing.

While no evidence shall be based solely on hearsay, sworn declarations may be admitted as testimony from witnesses whose disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm. (Education Code 48918 (f) and

In cases where a search of a student's person or property has occurred, evidence describing the reasonableness of the search shall be included in the hearing record.

4. Testimony by Complaining Witness: The following procedures shall be observed when hearings involve allegations of sexual assault or sexual battery by a student: (Education Code 48918)

- a. Any complaining witness shall be given five days' notice before being called to testify.
- b. Any complaining witness shall be entitled to have up to two adult support persons, including but not limited to a parent/guardian or legal counsel, present during his/her testimony.
- c. Before a complaining witness testifies, support persons shall be admonished that the hearing is confidential.
- d. The person presiding over the hearing may remove a support person whom he/she finds is disrupting the hearing.
- e. If one or both support persons are also witnesses, the hearing shall be conducted according to Penal Code 868.5.
- f. Evidence of specific instances of prior sexual conduct of a complaining witness shall be presumed inadmissible and shall not be heard unless the person conducting the hearing determines that extraordinary circumstances require the evidence to be heard.

Before such a determination is made, the complaining witness shall be given notice and an opportunity to oppose the introduction of this evidence. In the hearing on the admissibility of this evidence, the complaining witness shall be entitled to be represented by a parent/guardian, legal counsel or other support person. Reputation or opinion evidence regarding the sexual behavior of a complaining witness shall not be admissible for any purpose.

g. In order to facilitate a free and accurate statement of the experiences of the complaining witness and to prevent discouragement of complaints, the district shall provide a nonthreatening environment.

(1) The district shall provide a room separate from the hearing room for the use of the complaining witness before and during breaks in testimony.

(2) At the discretion of the person conducting the hearing, the complaining witness shall be allowed reasonable periods of relief from examination and cross-examination during which he/she may leave the hearing room.

(3) The person conducting the hearing may:

- (a) Arrange the seating within the hearing room so as to facilitate a less intimidating environment for the complaining witness.
- (b) Limit the time for taking the testimony of a complaining witness to the hours he/she is normally in school, if there is no good cause to take the testimony during other hours.
- (c) Permit one of the support persons to accompany the complaining witness to the witness stand.

6. Decision Within Ten Days: The Board's decision on whether to expel a student shall be made within ten school days after the conclusion of the hearing, unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

7. Decision Within 40 Days: If the Board does not meet on a weekly basis, its decision on whether to expel a student shall be made within 40 school days after the student is removed from his/her school of attendance, unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

Alternative Hearing: Hearing Officer or Administrative Panel

Instead of conducting an expulsion hearing itself, the Board may contract with the county hearing officer or with the Office of Administrative Hearings of the State of California for a hearing officer. Alternatively, the Board may appoint an impartial administrative panel composed of three or more certificated personnel, none of whom shall be members of the Board or on the staff of the school in which the student is enrolled. (Education Code 48918(d))

A hearing conducted by the hearing officer or administrative panel shall conform to the same procedures as apply to a hearing conducted by the Board as specified in "Conduct of Expulsion Hearing" above.

The hearing officer or administrative panel shall, within three school days after the hearing, determine whether to recommend expulsion of the student to the Board. If expulsion is not recommended, the student shall be immediately reinstated. (See "Reinstatement" below.) The Superintendent or designee shall place the student in a classroom instructional program, any other instructional program, a rehabilitation program, or any combination of these programs after consulting with district staff, including the student's teachers and with the student's parent/guardian. (Education Code 48918(e))

If expulsion is recommended, findings of fact in support of the recommendation shall be prepared and submitted to the Board. All findings of fact and recommendations shall be based solely on the evidence presented at the hearing. The Board may accept the recommendation based either upon a review of the findings of fact and recommendations submitted or upon the results of any supplementary hearing the Board may order. (Education Code 48918(f))

The hearing officer or administrative panel may recommend that the Board suspend the expulsion for a period of one year. (See "Suspension of Expulsion" below.)

The Board shall make its decision about the student's expulsion within 40 school days after the date of the student's removal from school unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

Stipulated Expulsions

It is the policy of the Redlands Unified School District that, where approved by the Superintendent or designee, parents/guardians may agree to the expulsion of their pupil by stipulation without necessity of a hearing. This process will expedite the pupil's school placement and may expedite the rehabilitation process.

A stipulated expulsion must be purely voluntary. No district administrator or staff member may coerce a pupil, parent or guardian into entering into such a stipulation. Parents/guardians will be given three calendar days to decide on a stipulated expulsion agreement.

If the parent/guardian requests a stipulated expulsion, the Superintendent or designee will promulgate the stipulated agreement. If at any time the parent/guardian decides not to pursue a stipulated agreement, the expulsion proceedings and timelines, extended by the length of the period for consideration of the stipulation, will be reinstated. The stipulated agreement will be presented to the Board for final consideration.

The stipulated agreement will include the terms and conditions of the expulsion order, including alternative placement and a rehabilitation plan to be completed before the student can be re-admitted to the district.

Final Action by the Board

Whether the expulsion hearing is conducted in closed or public session by the Board, a hearing officer, or an administrative panel, the final action to expel must be taken by the Board at a public meeting. (Education Code 48918(f)) The Board shall maintain a record of each expulsion, including its cause. Expulsion records shall be non-privileged, disclosable public records.

(cf. 9321.1 - Closed Session Actions and Reports)

If the Board conducts the hearing and reaches a decision not to expel, this decision shall be final and the student shall be reinstated immediately.

Upon ordering the expulsion, the Board shall set a date when the student shall be reviewed for readmission to a school within the district. For a student expelled for an act listed under "Mandatory Recommendation and Mandatory Expulsion" above, this date shall be one year from the date the expulsion occurred, except that the Board may set an earlier date on a case-by-case basis. For a student expelled for other acts, this date shall be no later than the last day of the semester following the semester in which the expulsion occurred. (Education Code 48916)

At the time of the expulsion order, the Board shall recommend a plan for the student's rehabilitation, which may include: (Education Code 48916)

1. Periodic review as well as assessment of the student at the time of review for readmission.
2. Recommendations for improved academic performance, tutoring, special education assessments, job training, counseling, employment, community service and other rehabilitative programs.
3. Such other recommendations as the Board approves.

With parental consent, students who have been expelled for reasons relating to controlled substances or alcohol may be required to enroll in a county-sponsored drug rehabilitation program before returning to school. (Education Code 48916.5)

Upon expulsion, a copy of readmission procedures will be made available to the student and his/her parent/guardian.

Written Notice to Expel

The Superintendent or designee shall send written notice of the decision to expel to the student or parent/guardian. The notice shall include the following:

1. The specific offense committed by the student for any of the causes for suspension or expulsion listed in Education Code 48900(a)-(o), Education Code 48900.2-48900.4 and Education Code 48915(c). (Education Code 48900.8)
2. The fact that a description of readmission procedures will be made available to the student and his/her parent/guardian. (Education Code 48916)
3. Notice of the right to appeal such expulsion to the County Board of Education. (Education Code 48918)
4. Notice of the alternative educational placement to be provided to the student during the time of expulsion. (Education Code 48918)
5. The notice also shall inform the student or parent/guardian of his/her obligation to inform any new district in which the student seeks to enroll of the student's status with the expelling district, pursuant to Education Code 48915.1. (Education Code 48918)

Suspension of Expulsion

The Board, upon voting to expel a student, may suspend the enforcement of the expulsion order for not more than one calendar year. When deciding whether to suspend an expulsion, the Board shall take into account the following criteria:

1. The student's previous behavior.
2. The seriousness of the misconduct.
3. The student's attitude toward the misconduct and his/her willingness to follow a rehabilitation program.

The suspension of the enforcement of an expulsion shall be governed by the following: (Education Code 48917)

1. The Board may, as a condition of the suspension of enforcement, assign the student to a school, class or program appropriate for the student's rehabilitation. This rehabilitation program may provide for the involvement of the student's parent/guardian in the student's education. However, a parent/guardian's refusal to participate in the rehabilitation program shall not be considered in the Board's determination as to whether the student has satisfactorily completed the rehabilitation program.
2. During the period when enforcement of the expulsion order is suspended, the student shall be on probationary status.
3. The suspension of expulsion order may be revoked by the Board if the student commits any of the acts listed under "Grounds for Suspension and Expulsion" above or violates any of the district's rules and regulations governing student conduct.
4. When suspension of expulsion order is revoked, a student may be expelled under the terms of the original expulsion order
5. Upon satisfactory completion of the rehabilitation assignment, the Board shall reinstate the student in a district school. Upon reinstatement, the Board may order the expungement of any or all records of the expulsion proceedings.
6. Suspension of an expulsion order shall not affect the time period and requirements for the filing of an appeal of the expulsion order with the County Board of Education.
7. The Superintendent or designee shall send written notice of any decision to suspend the enforcement of an expulsion order during a period of probation to the student or parent/guardian. The notice shall also inform the parent/guardian of the right to appeal the expulsion to the County Board of Education. (Education Code 48918(i))

Right to Appeal

The student or parent/guardian is entitled to file an appeal of the Board's decision to the County Board of Education.

The appeal must be filed within 30 days of the Board's decision to expel, even if the expulsion action is suspended and the student is placed on probation. (Education Code 48919)

Post-Expulsion Placements

The Board shall refer expelled students to a program of study that is: (Education Code 48915, 48915.01)

1. Appropriately prepared to accommodate students who exhibit discipline problems.
2. Not provided at a comprehensive middle, junior or senior high school or at any elementary school, unless the program is offered at a community day school established at such a site.
3. Not housed at the school site attended by the student at the time of suspension.

(cf. 6185 - Community Day School)

When the placement described above is not available, and when the County Superintendent of Schools so certifies, students expelled for acts described in items #6 through # 13 and # 17 through # 19 under "Grounds for Suspension and Expulsion" above may be instead referred to a program of study that is provided at another comprehensive middle, junior, or senior high school, or at an elementary school.

The program for a student expelled from any of grades K-6 shall not be combined or merged with programs offered to students in any of grades 7-12. (Education Code 48916.1)

Reinstatement

When the Board accepts a recommendation against expulsion or makes its own decision after the hearing not to expel, the decision is final and the student shall be reinstated immediately. The Superintendent or designee shall place the student in any classroom program, other instructional program, rehabilitation program, or any combination of such programs following consultation with district personnel, including the teacher involved, and with the student's parent/guardian. (Education Code 48918(e))

Readmission

An expulsion order shall remain in effect until the Board may order the readmission of the student.

Readmission procedures shall be as follows:

1. A written request for review of expulsion action and request for readmission shall be submitted by the parent/guardian to the Superintendent or designee.
2. The Superintendent or designee will hold a conference with the parent/guardian and the student.
3. At the conference the conditions for readmission will be reviewed. The Superintendent or designee shall verify that the rehabilitation plan has been met.
4. School regulations will be reviewed and the student and parent/guardian will be asked to indicate in writing their willingness to comply with these regulations.
5. The Superintendent or designee will transmit the request for readmission to the Board, along with his/her recommendation. The Board shall consider the request in closed session if the information would be disclosed in violation of Education Code 49073-49079. If a written request for open session is received from the parent/guardian or adult student, it will be honored.
6. The Superintendent or designee will notify the student or parent/guardian, by registered mail, of the district's decision regarding readmission.
7. The Board may deny readmission only if it finds that the student has not satisfied the conditions of the rehabilitation plan or that the student continues to pose a danger to campus safety or to other district students or employees. (Education Code 48916)
8. If the Board denies the readmission of a student, the Board shall determine either to continue the student's placement in the alternative educational program initially selected or to place the student in another program that serves expelled students, including placement in a county community school. (Education Code 48916)
9. The Board shall provide written notice to the expelled student and parent/guardian describing the reasons for denying readmittance into the regular program. This notice shall indicate the Board's determination of the educational program which the Board has chosen. The student shall enroll in that program unless the parent/guardian chooses to enroll the student in another school district. (Education Code 48916)

Maintenance of Records

The Board will maintain a record of each expulsion, including the specific cause of the expulsion. The expulsion record shall be maintained in the student's mandatory interim record and sent to any school in which the student subsequently enrolls, within five days of a written request by the admitting school. (Education Code 48900.8, 48918(k))

The Superintendent or designee shall, within five working days, honor any other district's request for information about an expulsion from this district. (Education Code 48915.1)

cf. 5119 - Students Expelled from Other Districts)

(cf. 5125 - Student Records)

Notifications and Reports

Within one school day after a student's suspension or expulsion, the principal or designee shall notify appropriate city or county law enforcement authorities, by telephone or other appropriate means, of any student acts which may violate Education Code 48900(c) or (d), relating to the possession, use, offering or sale of controlled substances, alcohol, or intoxicants of any kind.

Prior to the suspension or expulsion of any student, the principal or designee shall notify appropriate city or county law enforcement authorities of any student acts of assault which may have violated Penal Code 245. (Education Code 48902)

The principal or designee also shall notify appropriate city or county law enforcement authorities of any student acts which may involve the possession or sale of narcotics or of a controlled substance or possession of weapons or firearms in violation of Penal Code 626.9 and 626.10. (Education Code 48902)

1. The number of students recommended for expulsion.
2. The specific grounds for each recommended expulsion.
3. Whether the student was subsequently expelled.
4. Whether the expulsion order was suspended.
5. The type of referral made after the expulsion.
6. The disposition of the student after the end of the expulsion period.

17. Committed sexual harassment as defined in Education Code 212.5. (Education Code 48900.2)

Pursuant to Education Code 48900.2 the conduct constitutes harassment when considered from the perspective of a reasonable person of the same gender as the victim to be sufficiently severe or pervasive as to have a negative impact upon the victim's academic performance or to create an intimidating, hostile or offensive educational environment.

(cf. 5145.3 - Nondiscrimination/Harassment)

A student may be suspended or expelled for any of the acts listed above if the act is related to school activity or school attendance occurring at any district school under the jurisdiction of the Superintendent or principal or within any other school district, including but not limited to the following circumstances: (Education Code 48900)

Alternatives to suspension or expulsion will be used with students who are truant, tardy, or otherwise absent from assigned school activities.

(cf. 5113 - Absences and Excuses)

(cf. 5113.1 - Truancy)

Removal from Class by a Teacher/Parental Attendance

A teacher may suspend any student from his/her class for the remainder of the day and the following day for any act listed in "Grounds for Suspension and Expulsion" above. (Education Code 48910)

A teacher also may refer a student to the principal or designee for consideration of suspension from school. (Education Code 48910)

When removing a student from his/her class, the teacher shall immediately report this action to the principal and send the student to the principal for appropriate action. The student shall be appropriately supervised during the class periods from which he/she has been removed.

As soon as possible, the teacher shall ask the student's parent/guardian to attend a parent-teacher conference regarding the removal. A counselor or psychologist should attend the conference if it is practicable, and a school administrator may attend if either the parent/guardian or teacher so requests.

A student removed from class shall not be returned to class during the period of removal without the approval of the teacher of the class and the principal. (Education Code 48910)

A student removed from class shall not be placed in another regular class during the period of removal. However, if a student is assigned to more than one class per day, he/she may be placed in any other regular classes except those held at the same time as the class from which the student was removed. (Education Code 48910)

The teacher of any class from which a student is removed may require the student to complete any assignments and tests missed during the removal. (Education Code 48913)

Pursuant to Board policy, a teacher may provide that the parent/guardian of a student whom the teacher has removed attend a portion of a school day in his/her child's classroom. When a teacher makes this request, the principal shall send the parent/guardian a written notice that the parent/guardian's attendance is requested pursuant to law. (Education Code 48900.1)

This notice shall also:

1. Inform the parent/guardian when his/her presence is expected and by what means he/she may arrange an alternate date.
2. Describe the legal protections afforded to the parent/guardian as an employee under Labor Code 230.7.
3. State that if the parent/guardian does not have a means of transportation to school, he/she may ride the school bus with the student.
4. Ask the parent/guardian to meet with the principal after the visit and before leaving school, as required by Education Code 48900.1.

Suspension by Superintendent, Principal or Principal's Designee

The Superintendent, principal or principal's designee may suspend a student from a school for not more than five consecutive school days unless the suspension is extended pending expulsion. (Education Code 48911)

The Superintendent or designee shall immediately suspend any student found at school or at a school activity to be: (Education Code 48915)

1. Possessing, as verified by a district employee, or selling or otherwise furnishing a firearm, unless the student had obtained prior written permission to possess the item from a certificated school employee, with the principal or designee's concurrence.
2. Brandishing a knife, as defined in Education Code 48915(g), at another person.
3. Unlawfully selling a controlled substance listed in Health and Safety Code 11053-11058.
4. Committing or attempting to commit a sexual assault or committing a sexual battery as defined in item #14 under "Grounds for Suspension and Expulsion".
5. Possession of an explosive as defined in 18 USC 921.

Suspension also may be imposed upon a first offense if the Superintendent, principal or designee determines the student violated items #1-5 listed in "Grounds for Suspension and Expulsion" above or if the student's presence causes a danger to persons or property or threatens to disrupt the instructional process. (Education Code 48900.5)

A student may be suspended from school for not more than 20 school days in any school year, unless for purposes of adjustment a student enrolls in or is transferred to another regular school, an opportunity school, or continuation school or class, in which case suspension shall not exceed 30 days in any school year. However, this restriction on the number of days of suspension does not apply when the suspension is extended pending an expulsion. (Education Code 48903, 48912)

The Superintendent or designee may count suspensions that occur while a student is enrolled in another school district toward the maximum number of days for which a student may be suspended in any school year. (Education Code 48903)

Suspensions shall be initiated according to the following procedures:

1. Informal Conference: Suspension shall be preceded by an informal conference conducted by the principal, designee or the Superintendent with the student and whenever practicable, the teacher, supervisor or school employee who referred the student to the principal. At the conference, the student shall be informed of the reason for the disciplinary action and the evidence against him/her; the student shall be given the opportunity to present his/her version and evidence in support of his/her defense. (Education Code 48911(b))

This conference may be omitted if the principal, designee or the Superintendent determines that an emergency situation exists. An "emergency situation" involves a clear and present danger to the lives, safety or health of students or school personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student's right to return to school for the purpose of a conference. The conference shall be held within two school days, unless the student waives his/her right to it or is physically unable to attend for any reason. In such case, the conference will be held as soon as the student is physically able to return to school. (Education Code 48911(c))

2. Administrative Actions: All requests for student suspension are to be processed by the principal or designee of the school in which the student is enrolled at the time of the misbehavior. A school employee shall report the suspension, including the name of the student and the cause for the suspension, to the Superintendent or designee.

3. Notice to Parents/Guardians: At the time of the suspension, a school employee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension. (Education Code 48911)

This notice shall state the specific offense committed by the student. (Education Code 48900.8).

In addition, the notice may also state the date and time when the student may return to school. If school officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may add that state law requires the parent/guardian to respond to such requests without delay.

4. Parent/Guardian Conference: Whenever a student is suspended, school officials may meet with the parent/guardian to discuss the causes and duration of the suspension, the school policy involved, and any other pertinent matters. (Education Code 48914)

While the parent/guardian is required to respond without delay to a request for a conference about a student's behavior, no penalties may be imposed on the student for the failure of the parent/guardian to attend such conference. The student may not be denied readmission solely because the parent/guardian failed to attend. (Education Code 48911)

5. Extension of Suspension: If the Board is considering the expulsion of a suspended student from any school or the suspension of a student for the balance of the semester from continuation school, the Superintendent or designee may, in writing, extend the suspension until such time as the Board has made a decision. (Education Code 48911(g))

Any extension of the original period of suspension shall be preceded by notice of such extension with an offer to hold a conference concerning the extension, giving the student an opportunity to be heard. This conference may be held in conjunction with a meeting requested by the student or parent/guardian to challenge the original suspension. Extension of the suspension may be made only if the Superintendent or designee determines, following a meeting in which the student and the student's parent/guardian were invited to participate, that the student's presence at the school or at an alternative school would endanger persons or property or threaten to disrupt the instructional process. (Education Code 48911)

Suspension by the Board

The Board may suspend a student for any of the acts listed in "Grounds for Suspension and Expulsion" above and within the limits specified in "Suspension by Superintendent, Principal or Principal's Designee" above. (Education Code 48912)

The Board may suspend a student enrolled in a continuation school or class for a period not longer than the remainder of the semester if any of the acts listed in “Grounds for Suspension and Expulsion” occurred. The suspension shall meet the requirements of Education Code 48915. (Education Code 48912.5)

When the Board is considering a suspension, disciplinary action, or any other action (except expulsion) against any student, it shall hold closed sessions if a public hearing would lead to disclosure of information violating a student’s right privacy under Education Code 49073-49079.

(cf. 9321 - Closed Session Purposes and Agendas)

The Board shall provide the student and his/her parent/guardian with written notice of the closed session by or certified mail. Upon receiving this notice, the student or parent/guardian may request a public meeting, and this request shall be granted if made in writing within 48 hours after receipt of the Board's notice. However, any discussion that conflicts with any other student's right to privacy still shall be held in closed session. (Education Codes 35146, 48912)

On-Campus Suspension Program

Students for whom an expulsion action has not been initiated and who pose no imminent danger or threat to the school may be assigned to a separate, supervised suspension classroom for the entire period of suspension. The following conditions shall apply: (Education Code 48911.1)

1. The supervised suspension classroom shall be staffed in accordance with law.
2. The student shall have access to appropriate counseling services.
3. The supervised suspension classroom shall promote completion of schoolwork and tests missed by the student during the suspension.
4. Each student shall be responsible for contacting his/her teacher(s) to receive assignments to be completed in the supervised suspension classroom. The teacher shall provide all assignments and tests that the student will miss while suspended. If no such work is assigned, the person supervising the suspension classroom shall assign schoolwork.

At the time a student is assigned to a supervised suspension classroom, the principal or designee shall notify the student’s parent/guardian in person or by telephone. When the assignment is for longer than one class period, this notification shall be made in writing. (Education Code 48911.1)

Authority to Expel

A student may be expelled only by the Board. The Board shall expel, as required by law, any student found to have committed certain offenses listed below under “Mandatory Recommendation and Mandatory Expulsion.”

The Board also may order a student expelled for any of the acts listed under “Grounds for Suspension and Expulsion” upon recommendation by the principal, Superintendent, hearing officer or administrative panel, based on finding either or both of the following: (Education Code 48915 (b) and (e))

1. That other means of correction are not feasible or have repeatedly failed to bring about proper conduct.
2. That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others.

Mandatory Recommendation for Expulsion

Unless the principal, Superintendent or designee finds that expulsion is inappropriate due to particular circumstances, the principal, Superintendent or designee shall recommend a student’s expulsion for any of the following acts: (Education Code 48915 (a))

1. Causing serious physical injury to another person, except in self-defense.
2. Possession of any knife as defined in Education Code 48915(g), explosive or other dangerous object of no reasonable use to the student.
3. Unlawful possession of any controlled substance, as listed in the Health and Safety Code 11053-11058, except for the first offense for the possession of not more than one ounce of marijuana, other than concentrated cannabis.
4. Robbery or extortion.
5. Assault or battery, as defined in Penal Code 240 and 242, upon any school employee.

Mandatory Recommendation and Mandatory Expulsion

Note: The Attorney General has determined, in 80 Ops.Cal. Atty. Gen. 347 (1997), that a district may not adopt a zero tolerance policy mandating expulsion of a student for a first offense of possession of a controlled substance or alcohol.

The principal, Superintendent or designee shall recommend that the Board expel any student found at school or at a school activity to be: (Education Code 48915(c))

1. Possessing, as verified by a district employee, or selling or otherwise furnishing a firearm, unless the student had obtained prior written permission to possess the item from a certificated school employee, with the principal or designee's concurrence.
2. Brandishing a knife as defined in Education Code 48915(g) at another person.
3. Unlawfully selling a controlled substance listed in Health and Safety Code 11053-11058
4. Committing or attempting to commit a sexual assault or committing a sexual battery as defined in item #14 under "Grounds for Suspension and Expulsion" above.
5. Possessing an explosive as defined in 18 USC 921.

Upon finding that the student committed any of the above acts, the Board shall expel the student. (Education Code 48915)

The initial recommendation for consideration of expulsion is that of the school principal or the Superintendent. Designees may not make this type of recommendation.

The recommendation for consideration of expulsion shall be submitted to the Director, Office of Student Services, who will review the material and recommend:

1. Reassignment to appropriate regular education program.
2. Refer student to Alternative Program; i.e., Community School, Independent Study, Continuation or Opportunity School, or other district programs.
3. Refer the matter to the Discipline Review Panel for further consideration.

When a case is referred to the discipline Review Panel, the panel shall question school personnel who have information on the incident and the behavior record of the student charged and weighs the evidence presented.

The panel shall, in the case of an expulsion consideration, weigh information presented to determine:

- a. Is the evidence sufficient to support consideration by the expulsion panel?
- b. Has the district, through the schools involved, considered or utilized alternatives to expulsion when possible?
- c. Have due process procedures been adhered to?

The recommendation shall be either to proceed with the expulsion or to utilize an existing practical alternative in lieu of expulsion.

If the district (school) has not adhered to due process requirements, the student shall be returned to school immediately.

If the Discipline Review Panel meets to consider a matter other than an expulsion, it shall provide its best judgment as to an effective alternative program or plan to action.

The recommendation of the Discipline Review Panel shall be forwarded to the Director, Office of Student Services, who shall then review the facts, concur, veto or modify the recommendation.

4. That an expulsion panel be convened.

At the time a recommendation for expulsion is submitted, a hearing shall be scheduled by the Superintendent or designee to determine whether the suspension shall be extended. If the decision is to extend the suspension, the period of time shall be until the Board has rendered a decision or until the expulsion process is otherwise terminated.

The extension of suspension shall be based upon determination by the Superintendent or designee that the presence of the student at the school or in an alternative school placement would cause a danger to persons or property or a threat of disrupting the instructional process. This extension shall be imposed only after the student and the parent/guardian have been given the opportunity to be present at a hearing conducted by the Superintendent or designee. At this time, the student and parent/guardian shall be given the opportunity to be heard and present any information that might bear upon the decision.

Materials which support the decision of the person recommending the expulsion shall be prepared and submitted to the Office of Student Services. The departments of Attendance, Guidance, Special Education and/or Health may be requested to assist in the preparation of this material.

Student's Right to Expulsion Hearing

The student is entitled to a hearing to determine whether the student should be expelled. The hearing shall be held within 30 school days after the principal or Superintendent or designee determines that one of the acts listed under "Grounds for Suspension and Expulsion" has occurred. (Education Code 48918 (a))

The student is entitled to one postponement of an expulsion hearing for a period of not more than 30 calendar days. The request for postponement shall be in writing. Any subsequent postponement may be granted at the Board's discretion. (Education Code 48918(a))

If the Board finds it impractical during the school year to comply with these time requirements for conducting an expulsion hearing, the Superintendent or designee may, for good cause, extend the time period by an additional five school days. Reasons for the extension shall be included as a part of the record when the expulsion hearing is held. (Education Code 48918(a))

If the Board finds it impractical to comply with the time requirements of the expulsion hearing due to summer recess of Board meetings of more than two weeks, the days during the recess shall not be counted as school days. The days not counted during the recess may not exceed 20 school days as defined in Education Code 48925. Unless the student requests in writing that the expulsion hearing be postponed, the hearing shall be held no later than 20 calendar days prior to the first day of the next school year. (Education Code 48918(a))

Once the hearing starts, all matters shall be pursued with reasonable diligence and concluded without unnecessary delay. (Education Code 48918(a))

Waiver of Hearing (Default Proceedings)

If the parent/guardian agrees that their son/daughter behaved essentially in the manner stated in the principals letter recommending expulsion and that such behavior constitutes a violation of the California Education Code, Section 48900, 48900.2, 48900.3, 48900.4, 48900.7 and/or 48915 a suspendable/expellable offense, the parent/guardian may request to waive the Administrative Hearing Panel.

When the parent/guardian agrees to waive the Administrative Hearing Panel, they also waive all notification and timelines related to the expulsion hearing process, along with their rights to appeal the determination of the Board.

The signed affidavit and findings of fact will be submitted to the Board for their approval. The Board has the discretionary power to accept, reject, or modify all recommendations.

Rights of Complaining Witness

An expulsion hearing involving allegations of sexual assault or sexual battery may be postponed for one school day in order to accommodate the special physical, mental or emotional needs of a student who is the complaining witness. (Education Code 48918.5)

Whenever the Superintendent or designee recommends an expulsion hearing that addresses allegations of sexual assault or sexual battery, he/she shall give the complaining witness a copy of the district's suspension and expulsion policy and regulation and shall advise the witness of his/her right to all the following: (Education Code 48918.5)

1. Receive five days' notice of his/her scheduled testimony at the hearing.
2. Have up to two adult support persons of his/her choosing present in the hearing at the time he/she testifies.
3. Have a closed hearing during the time he/she testifies.

Whenever any allegation of sexual assault or sexual battery is made, the Superintendent or designee shall immediately advise complaining witnesses and accused students to refrain from personal or telephone contact with each other during the time when an expulsion process is pending. (Education Code 48918.5)

Written Notice of the Expulsion Hearing (Education Code 48918(b))

Written notice of the hearing shall be forwarded to the student and the student's parent/guardian at least 10 calendar days before the date of the hearing. The notice shall include: (Education Code 48900.8, 48918 (b))

1. The date and place of the hearing.
2. A statement of the specific facts, charges and offense upon which the proposed expulsion is based.
3. A copy of district disciplinary rules which relate to the alleged violation.
4. Notification of the student's or parent/guardian's obligation, pursuant to Education Code 48915.1, to provide information about the student's status in the district to any other district in which the student seeks enrollment. This obligation applies when a student is expelled for acts other than those described in Education Code 48915 (a) or (c).
(cf. 5119 - Students Expelled from other Districts)

5. The opportunity for the student or the student's parent/guardian to appear in person and/or be represented by legal counsel or by a non-attorney advisor.

Legal counsel means an attorney or lawyer who is admitted to the practice of law in California and is an active member of the State Bar of California.

Non-attorney advisor means an individual who is not an attorney or lawyer, but who is familiar with the facts of the case, and has been selected by the student or student's parent/guardian to provide assistance at the hearing.

6. The right to inspect and obtain copies of all documents to be used at the hearing.
7. The opportunity to confront and question all witnesses who testify at the hearing.
8. The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf, including witnesses.

Conduct of Expulsion Hearing

1. Closed Session: Notwithstanding the provisions of Government Code 54953 and Education Code 35145, the Board shall conduct a hearing to consider the expulsion of the student in a session closed to the public unless the student requests in writing at least five days prior to the hearing that the hearing be a public meeting. If such request is made, the meeting shall be public, unless another student's privacy rights would be violated.

Whether the expulsion hearing is held in closed or public session, the Board may meet in closed session to determine if the student should be expelled. If the Board admits any other person to the closed session, the parent/guardian, the student, and the counsel of the student, shall also be allowed to attend the closed session. (Education Code 48918(c))

If a hearing that involves a charge of sexual assault or sexual battery is to be conducted in public, a complaining witness shall have the right to have his/her testimony heard in closed session when testifying in public would threaten serious psychological harm to the witness and when there are no alternative procedures to avoid the threatened harm, including but not limited to videotaped deposition or contemporaneous examination in another place communicated to the hearing room by closed-circuit television. (Education Code 48918(c))

2. Record of Hearing: A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate written and complete transcription of the proceedings can be made. (Education Code 48918(g))

3. Subpoenas: Before commencing a student expulsion hearing, the Board may issue subpoenas, at the request of either the student or the Superintendent or designee, for the personal appearance at the hearing of any person who actually witnessed the action that gave rise to the recommendation for expulsion. After the hearing has commenced, the Board or the hearing officer or administrative panel may issue such subpoenas at the request of the student or the County Superintendent of Schools or designee. All subpoenas shall be issued in accordance with the Code of Civil Procedure 1985-1985.2 and enforced in accordance with Government Code 11455.20, formerly 11525. (Education Code 48918(i))

Any objection raised by the student or the Superintendent or designee to the issuance of subpoenas may be considered by the Board in closed session, or in open session if so requested by the student, before the meeting. The Board's decision in response to such an objection shall be final and binding. (Education Code 48918(i))

If the Board determines, or if the hearing officer or administrative panel finds and submits to the Board, that a witness would be subject to unreasonable risk of harm by testifying at the hearing, a subpoena shall not be issued to compel the personal attendance of that witness at the hearing. However, that witness may be compelled to testify by means of a sworn declaration as described in item #4 below. (Education Code 48918(i))

4. Presentation of Evidence: While technical rules of evidence do not apply to expulsion hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. The decision of the Board to expel must be supported by substantial evidence that the student committed any of the acts listed in "Grounds for Suspension and Expulsion" above.

Findings of fact shall be based solely on the evidence at the hearing. While no evidence shall be based solely on hearsay, sworn declarations may be admitted as testimony from witnesses whose disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm. (Education Code 48918 (f) and (h))

In cases where a search of a student's person or property has occurred, evidence describing the reasonableness of the search shall be included in the hearing record.

5. Testimony by Complaining Witnesses: The following procedures shall be observed when hearings involve allegations of sexual assault or sexual battery by a student: (Education Code 48918)

- a. Any complaining witness shall be given five days' notice before being called to testify.
- b. Any complaining witness shall be entitled to have up to two adult support persons, including but not limited to a parent/guardian or legal counsel, present during his/her testimony.
- c. Before a complaining witness testifies, support persons shall be admonished that the hearing is confidential.
- d. The person presiding over the hearing may remove a support person whom he/she finds is disrupting the hearing.
- e. If one or both support persons are also witnesses, the hearing shall be conducted according to Penal Code 868.5.
- f. Evidence of specific instances of prior sexual conduct of a complaining witness shall be presumed inadmissible and shall not be heard unless the person conducting the hearing determines that extraordinary circumstances require the evidence to be heard. Before such a determination is made, the complaining witness shall be given notice and an opportunity to oppose the introduction of this evidence. In the hearing on the admissibility of this evidence, the complaining witness shall be entitled to be represented by a parent/guardian, legal counsel or other support person. Reputation or opinion evidence regarding the sexual behavior of a complaining witness shall not be admissible for any purpose.
- g. In order to facilitate a free and accurate statement of the experiences of the complaining witness and to prevent discouragement of complaints, the district shall provide a nonthreatening environment.
 - (1) The district shall provide a room separate from the hearing room for the use of the complaining witness before and during breaks in testimony.
 - (2) At the discretion of the person conducting the hearing, the complaining witness shall be allowed reasonable periods of relief from examination and cross-examination during which he/she may leave the hearing room.
 - (3) The person conducting the hearing may:
 - (a) Arrange the seating within the hearing room so as to facilitate a less intimidating environment for the complaining witness.
 - (b) Limit the time for taking the testimony of a complaining witness to the hours he/she is normally in school, if there is no good cause to take the testimony during other hours.
 - (c) Permit one of the support persons to accompany the complaining witness to the witness stand.

6. Decision Within 10 Days: The Board's decision on whether to expel a student shall be made within 10 school days after the conclusion of the hearing, unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

7. Decision Within 40 Days: If the Board does not meet on a weekly basis, its decision on whether to expel a student shall be made within 40 school days after the student is removed from his/her school of attendance, unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

Alternative Expulsion Hearing: Hearing Officer or Administrative Panel

Instead of conducting an expulsion hearing itself, the Board may contract with the county hearing officer or with the Office of Administrative Hearings of the State of California for a hearing officer. Alternatively, the Board may appoint an impartial administrative panel composed of three or more certificated personnel, none of whom shall be members of the Board or on the staff of the school in which the student is enrolled. (Education Code 48918(d))

A hearing conducted by the hearing officer or administrative panel shall conform to the same procedures as apply to a hearing conducted by the Board as specified in "Conduct of Expulsion Hearing."

The hearing officer or administrative panel shall, within three school days after the hearing, determine whether to recommend expulsion of the student to the Board. If expulsion is not recommended, the student shall be immediately reinstated. (See "Reinstatement.") The Superintendent or designee shall place the student in a classroom instructional program, any other instructional program, a rehabilitation program, or any combination of these programs after consulting with district staff, including the student's teachers, and with the student's parent/guardian. (Education Code 48918(e))

If expulsion is recommended, findings of fact in support of the recommendation shall be prepared and submitted to the Board. All findings of fact and recommendations shall be based solely on the evidence presented at the hearing. The Board may accept the recommendation based either upon a review of the findings of fact and recommendations submitted or upon the results of any supplementary hearing the Board may order. (Education Code 48918(f))

In accordance with Board policy, the hearing officer or administrative panel may recommend that the Board suspend the enforcement of the expulsion for a period of one year. (See "Decision Not to Enforce Expulsion Order" below.)

The Board shall make its decision about the student's expulsion within 40 school days after the date of the student's removal from school unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

The Discipline Review Panel

The Discipline Review Panel will consist of elementary educators when a review is being made of an elementary student and of secondary educators when a review is being made of secondary student.

1. The Discipline Review Panel shall hear the following types of disciplinary cases:
 - a. Requests for expulsion from site principals or the Superintendent.
 - b. School site administrative requests for assistance (non-expulsion situations).
2. Each discipline review panel shall consist of three certificated persons plus a chairperson and shall consist of elementary educators when a review is being made of an elementary student and of secondary educators when a review is being made of a secondary student. A panelist may not serve on any panel involving a student who is currently attending the school in which he/she is assigned. A representative from Student Services shall be a nonvoting member of each panel.

A chairperson and assistant chairperson, to serve when the chairperson is unable to serve, shall be appointed by the Superintendent or designee and shall serve at his/her pleasure. Neither shall be a member of the Student Services staff.

A pool of panelists shall be established which shall be composed of personnel who have served or are currently serving as members of administrative expulsion panels. The committee chairman shall select members to serve on individual panels.

The meetings of the discipline review panel are open to school district personnel only.

The duties of the Discipline Review Panel are as follows:

1. The chairperson shall call a meeting of the panel as soon as possible, but no later than 10 school days after the receipt of notice of a pending case.
2. A recommendation must be forwarded to the Director, Office of Student Services, within three days of the review hearing.
3. In the event a member of the committee cannot be present at a meeting, the Director, Office of Student Services, will appoint an alternate from the pool to attend.

Final Action by the Board

Whether the expulsion hearing is conducted in closed or public session by the Board, a hearing officer, or an administrative panel, the final action to expel shall be taken by the Board at a public meeting. (Education Code 48918(j))

(cf. 9321.1 - Closed Session Actions and Reports)

If the Board conducts the hearing and reaches a decision not to expel, this decision shall be final and the student shall be reinstated immediately.

Upon ordering an expulsion, the Board shall set a date when the student shall be reviewed for readmission to a school within the district. For a student expelled for an act listed under “Mandatory Recommendation and Mandatory Expulsion” above, this date shall be one year from the date the expulsion occurred, except that the Board may set an earlier date on a case-by-case basis. For a student expelled for other acts, this date shall be no later than the last day of the semester following the semester in which the expulsion occurred. (Education Code 48916)

At the time of the expulsion order, the Board shall recommend a plan for the student’s rehabilitation, which may include: (Education Code 48916)

1. Periodic review as well as assessment of the student at the time of review for readmission.
2. Recommendations for improved academic performance, tutoring, special education assessments, job training, counseling, employment, community service and other rehabilitative programs.

With parental consent, students who have been expelled for reasons relating to controlled substances or alcohol may be required to enroll in a county-sponsored drug rehabilitation program before returning to school. (Education Code 48916.5)

Written Notice to Expel

The Superintendent or designee shall send written notice of the decision to expel the student or parent/guardian. This notice shall include the following:

1. The specific offense committed by the student for any of the causes for suspension or expulsion listed in Education Code 48900 (a)-(o), Education Code 48900.2-48900.4, Education Code 48915 (c) and (Education Code 48900.8).
2. The fact that a description of readmission procedures will be made available to the student and his/her parent/guardian. (Education Code 48916)
3. Notice of the right to appeal the expulsion to the County Governing Board. (Education Code 48918)
4. Notice of the alternative educational placements to be provided to the student during the time of expulsion. (Education Code 48918)
5. Notice of the student’s or parent/guardian’s obligation to inform any new district in which the student seeks to enroll of the student’s status with the expelling district, pursuant to Education Code 48915.1 (Education Code 48918).

Decision Not to Enforce Expulsion Order

In accordance with Board policy, when deciding whether to suspend the enforcement of an expulsion, the Board shall take into account the following criteria:

1. The student’s pattern of behavior.
2. The seriousness of the misconduct.
3. The student’s attitude toward the misconduct and his/her willingness to follow a rehabilitation program.

The suspension of the enforcement of an expulsion shall be governed by the following: (Education Code 48917)

1. The Board may, as a condition of the suspension of enforcement, assign the student to a school, class or program appropriate for the student’s rehabilitation. This rehabilitation program may provide for the involvement of the student’s parent/guardian in the student’s education. However, a parent/guardian’s refusal to participate in the rehabilitation program shall not be considered in the Board’s determination as to whether the student has satisfactorily completed the rehabilitation program.
2. During the period when enforcement of the expulsion order is suspended, the student shall be on probationary status.
3. The suspension of the enforcement of an expulsion order may be revoked by the Board if the student commits any of the acts listed under “Grounds for Suspension and Expulsion” above or violates any of the district’s rules and regulations governing student conduct.
4. When the suspension of the enforcement of an expulsion order is revoked, a student may be expelled under the terms of the original expulsion order.
5. Upon satisfactory completion of the rehabilitation assignment, the Board shall reinstate the student in a district school. Upon reinstatement, the Board may order the expunging of any or all records of the expulsion proceedings.
6. Suspension of the enforcement of an expulsion order shall not affect the time period and requirements for the filing of an appeal of the expulsion order with County Board of Education.

7. The Superintendent or designee shall send written notice of any decision to suspend the enforcement of an expulsion order during a period of probation to the student or parent/guardian. The notice shall also inform the parent/guardian of the right to appeal the expulsion to the County Board of Education. (Education Code 48918 (j))

Right to Appeal

The student or parent/guardian is entitled to file an appeal of the Board's decision to the County Board of Education. The appeal must be filed within 30 days of the Board's decision to expel, even if the expulsion action is suspended and the student is placed on probation. (Education Code 48919)

Post-Expulsion Placements

The Board shall refer expelled students to a program of study that is: (Education Code 48915, 48915.01)

1. Appropriately prepared to accommodate students who exhibit discipline problems.
2. Not provided at a comprehensive middle, junior or senior high school or at any elementary school, unless the program is offered at a community day school established at such a site.
3. Not housed at the school site attended by the student at the time of suspension.

(cf. 6185 - Community Day School)

When the placement described above is not available, and when the County Superintendent of Schools so certifies, students expelled for acts described in items #6 through #13 and #17 through #19 under "Grounds for Suspension and Expulsion" may be instead referred to a program of study that is provided at another comprehensive middle, junior, or senior high school, or at an elementary school. (Education Code 48915)

The program for a student expelled from any of grades K-6 shall not be combined or merged with programs offered to students in any of grades 7-12. (Education Code 48916.1)

Readmission After Expulsion

Readmission procedures shall be as follows:

1. On the date set by the Board when it ordered the expulsion, the district shall consider readmission of the student. (Education Code 48916)
2. The Superintendent or designee shall hold a conference with the parent/guardian and the student. At the conference the student's rehabilitation plan shall be reviewed and the Superintendent or designee shall verify that the provisions of this plan have been met. School regulations shall be reviewed and the student and parent/guardian shall be asked to indicate in writing their willingness to comply with these regulations.
3. The Superintendent or designee shall transmit to the Board his/her recommendation regarding readmission. The Board shall consider this recommendation in closed session if information would be disclosed in violation of Education Code 49073-49079. If a written request for open session is received from the parent/guardian or adult student, it shall be honored.
4. If the readmission is granted, the Superintendent or designee shall notify the student and parent/guardian, by registered mail, of the Board's decision regarding readmission.
5. The Board may deny readmission only if it finds that the student has not satisfied the conditions of the rehabilitation plan or that the student continues to pose a danger to campus safety or to other district students or employees. (Education Code 48916)
6. If the Board denies the readmission of a student, the Board shall determine either to continue the student's placement in the alternative educational program initially selected or to place the student in another program that serves expelled students, including placement in a county community school. (Education Code 48916)
7. The Board shall provide written notice to the expelled student and parent/guardian describing the reasons for denying readmittance into the regular program. This notice shall indicate the Board's determination of the educational program which the Board has chosen. The student shall enroll in that program unless the parent/guardian chooses to enroll the student in another school district. (Education Code 48916)

Maintenance of Records

The Board shall maintain a record of each expulsion, including the specific cause of the expulsion. The expulsion record shall be maintained in the student's mandatory interim record and sent to any school in which the student subsequently enrolls, within five days of a written request by the admitting school. (Education Code 48900.8, 48918(k))

The Superintendent or designee shall, within five working days, honor any other district's request for information about an expulsion from this district. (Education Code 48915.1)

(cf. 5119 - Students Expelled from Other Districts)

(cf. 5125 - Student Records)

Notifications to Law Enforcement Authorities

Prior to the suspension or expulsion of any student, the principal or designee shall notify appropriate city or county law enforcement authorities of any student acts of assault which may have violated Penal Code 245. (Education Code 48902)

The principal or designee also shall notify appropriate city or county law enforcement authorities of any student acts which may involve the possession or sale of narcotics or of a controlled substance or possession of weapons or firearms in violation of Penal Code 626.9 and 626.10. (Education Code 48902)

Within one school day after a student's suspension or expulsion, the principal or designee shall notify appropriate city or county law enforcement authorities, by telephone or other appropriate means, of any student acts which may violate Education Code 48900(c) or (d), relating to the possession, use, offering or sale of controlled substances, alcohol, or intoxicants of any kind. (Education Code 48902)

Ouome Data

The Superintendent or designee shall maintain the following data and report such data annually to the California Department of Education, using forms supplied by the California Department of Education: (Education Code 48900.8, 48916.1)

1. The number of students recommended for expulsion.
2. The grounds for each recommended expulsion.
3. Whether the student was subsequently expelled.
4. Whether the expulsion order was suspended.
5. The type of referral made after the expulsion.
6. The disposition of the student after the end of the expulsion period.

Regulation: REDLANDS UNIFIED SCHOOL DISTRICT

Approved: June 27, 1995, Redlands, California

(D) Procedures to Notify Teachers of Dangerous Pupils (EC 49079)

(a) A school district shall inform the teacher of each pupil who has engaged in, or is reasonably suspected to have engaged in, any of the acts described in any of the subdivisions, except subdivision (h), of Section 48900 or in Section 48900.2, 48900.3, 48900.4, or 48900.7 that the pupil engaged in, or is reasonably suspected to have engaged in, those acts. The district shall provide the information to the teacher based upon any records that the district maintains in its ordinary course of business, or receives from a law enforcement agency, regarding a pupil described in this section.

(b) A school district, or school district officer or employee, is not civilly or criminally liable for providing information under this section unless it is proven that the information was false and that the district or district officer or employee knew or should have known that the information was false, or the information was provided with a reckless disregard for its truth or falsity.

(c) An officer or employee of a school district who knowingly fails to provide information about a pupil who has engaged in, or who is reasonably suspected to have engaged in, the acts referred to in subdivision (a) is guilty of a misdemeanor, which is punishable by confinement in the county jail for a period not to exceed six months, or by a fine not to exceed one thousand dollars (\$1,000), or both.

(d) For the 1994-95 school year, the information provided shall be from the previous two school years. For the 1996-97 school year and each school year thereafter, the information provided shall be from the previous three school years.

(e) Any information received by a teacher pursuant to this section shall be received in confidence for the limited purpose for which it was provided and shall not be further disseminated by the teacher.

(E) Sexual Harassment Policies (EC 212.6 [b])

Policy 4119.11: Sex Discrimination and Sex-Based Harassment

The Governing Board is committed to providing a safe work environment that is free of harassment and intimidation. The Board prohibits sexual harassment against district employees by anyone, in any manner, and prohibits retaliatory action or behavior against any persons who complains, testifies, or otherwise participates in the complaint process established pursuant to this policy and accompanying administrative regulation. This policy shall apply to all district employees, interns, volunteers, contractors, job applicants, and other persons with an employment relationship with the district.

(cf. 0410 - Nondiscrimination in District Programs and Activities) (cf. 4030 - Nondiscrimination in Employment)

Sexual harassment includes, but is not limited to, harassment that is based on the sex, gender, gender identity, gender expression, or sexual orientation of the victim and harassment based on pregnancy, childbirth, or related medical conditions.

The Superintendent or designee shall take all actions necessary to ensure the prevention, investigation, and correction of sexual harassment, including but not limited to:

1. Providing training to all staff in accordance with law and administrative regulation.
2. Publicizing and disseminating the district's sexual harassment policy to staff.
3. Ensuring prompt, thorough, equitable, and fair investigation of complaints
4. Taking timely and appropriate corrective/remedial actions which may require interim separation of the complainant and the alleged harasser and subsequent monitoring of developments.

The Superintendent or designee shall periodically evaluate the effectiveness of the district's strategies to prevent and address harassment. Such evaluation may involve conducting regular anonymous employee surveys to assess whether harassment is occurring or is perceived to be tolerated, partnering with researchers or other agencies with the needed expertise to evaluate the district's prevention strategies, and using any other effective tool for receiving feedback on systems and/or processes. As necessary, changes shall be made to the harassment policy, complaint procedures, or training.

Sexual Harassment Reports and Complaints

Any district employee who feels that he/she has been sexually harassed in the performance of their district responsibilities or who has knowledge of any incident of sexual harassment by or against another employee shall immediately report the incident to his/her supervisor, the principal, other district administrator, or the district's Title IX Coordinator. However, an employee may bypass his/her supervisor in filing a complaint if the supervisor is the subject of the complaint. A supervisor, principal, or district administrator who receives a harassment complaint shall promptly notify the Title IX Coordinator.

Once notified, the Title IX Coordinator shall ensure the complaint or allegation is addressed through AR 4119.12/4219.12/4319.12 – Title IX Sexual Harassment Complaint Procedures or AR 4030- Nondiscrimination in Employment, as applicable. Because a complaint or allegation that is dismissed or denied under the Title IX complaint procedure may still be subject to consideration under state law, the Title IX Coordinator shall ensure that any implementation of AR 4119.12/4219.12/4319.12 concurrently meets the requirements of AR 4030.

Notwithstanding the above, BP/AR 4119.12/4219.12/4319.12 and 4030 shall under no circumstances be used to resolve complaints brought by, on behalf of, or against students. All complaints brought by, on behalf of, or against students that allege “sexual harassment” as that term is defined in the federal regulations implementing Title IX of the Education Amendments of 1972 (see 34 C.F.R. § 106, et seq.) shall be investigated and resolved under BP/AR 5145.71. All complaints brought by, on behalf of, or against students that do not meet the definition of “sexual harassment” as set forth in the Title IX implementing regulations shall be investigated and resolved under BP/AR 1312.3.

(cf. 4119.12/4219.12/4319.12 - Title IX Sexual Harassment Complaints)

The Title IX Coordinator shall offer supportive measures to the complainant and respondent, as deemed appropriate under the circumstances.

Upon investigation of a sexual harassment complaint, any district employee who engages, or participates in sexual harassment, or who aids, abets, incites, compels, or coerces another to commit sexual harassment in violation of this policy is subject to disciplinary action, up to and including dismissal, in accordance with law and the applicable collective bargaining agreement.

(cf. 4117.7/4317.7 - Employment Status Reports) (cf. 4118 - Dismissal/Suspension/Disciplinary Action) (cf. 4218 -

Dismissal/Suspension/Disciplinary Action)

Regulation 4119.12: Title IX Sex Discrimination and Sex-Based Harassment Complaint Procedures

The complaint procedures described in this administrative regulation shall be used to address any complaint governed by Title IX of the Education Amendments of 1972 alleging that a district employee, while in an education program or activity in which a district school exercises substantial control over the context and respondent, was subjected to one or more of the following forms of sexual harassment: (34 CFR 106.30, 106.44)

1. A district employee conditioning the provision of a district aid, benefit, or service on a person's participation in unwelcome sexual conduct
2. Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the district's education program or activity
3. Sexual assault, dating violence, domestic violence, or stalking as defined in 20 USC 1092 or 34 USC 12291 (cf. 4119.11/4219.11/4319.11 - Sexual Harassment)

All other sexual harassment complaints or allegations shall be investigated and resolved in accordance with AR 4030

- Nondiscrimination in Employment. The determination of whether the allegations meet the definition of sexual harassment under Title IX shall be made by the district's Title IX Coordinator.

(cf. 4030 - Nondiscrimination in Employment)

Because the complainant has a right to pursue a complaint under AR 4030 for any allegation that is dismissed or denied under the Title IX complaint procedure, the Title IX Coordinator shall ensure that all requirements and timelines for AR 4030 are concurrently met while implementing the Title IX procedure.

Reporting Allegations/Filing a Formal Complaint

An employee who is the alleged victim of sexual harassment may submit a report of sexual harassment to the district's Title IX Coordinator using the contact information listed in AR 4119.11/4219.11/4319.11 - Sexual Harassment or to the employee's direct supervisor or other district administrator, who shall forward the report to the Title IX Coordinator within one day of receiving the report. Upon receiving such a report, the Title IX Coordinator shall inform the complainant of the right to file a formal complaint and the process for filing a formal complaint.

A formal complaint, with the complainant's physical or digital signature, may be filed with the Title IX Coordinator in person, by mail, by email, or by any other method authorized by the district. (34 CFR 106.30)

Even if the alleged victim chooses not to file a formal complaint, the Title IX Coordinator shall file a formal complaint in situations when a safety threat exists. In addition, the Title IX Coordinator may file a formal complaint in other situations as permitted under the Title IX regulations, including as part of the district's obligation to not be deliberately indifferent to known allegations of sexual harassment. In such cases, the Title IX Coordinator shall provide the alleged victim notices as required by the Title IX regulations at specific points in the complaint process.

The Title IX Coordinator, investigator, decision-maker, or a facilitator of an informal resolution process shall not have a conflict of interest or bias for or against complainants or respondents generally or an individual complainant or respondent. Such persons shall receive training in accordance with 34 CFR 106.45. (34 CFR 106.45)

Supportive Measures

Upon receipt of a report of Title IX sexual harassment, the Title IX Coordinator shall promptly contact the complainant to discuss the availability of supportive measures and shall consider the complainant's wishes with respect to the supportive measures implemented. Supportive measures shall be offered as appropriate, as reasonably available, and without charge to the complainant or the respondent before or after the filing of a formal complaint or where no formal complaint has been filed. Such measures shall be nondisciplinary, nonpunitive, and not unreasonably burden the other party, including measures designed to protect the safety of all parties or the district's educational environment or to deter sexual harassment. Supportive measures may include, but are not limited to, counseling, extensions of deadlines, modifications of work schedules, mutual restrictions on contact, changes in work locations, leaves of absence, increased security, and monitoring of certain areas of the campus. (34 CFR 106.30, 106.44)

The district shall maintain as confidential any supportive measures provided to the complainant or respondent, to the extent that maintaining such confidentiality would not impair the district's ability to provide the supportive measures. (34 CFR 106.30)

Emergency Removal

If a district employee is the respondent, the employee may be placed on administrative leave during the pendency of the formal complaint process. (34 CFR 106.44)

If the respondent is a student, the district may, on an emergency basis, remove the student from the district's education program or activity, provided that the district conducts an individualized safety and risk analysis, determines that removal is justified due to an immediate threat to the physical health or safety of any student or other individual arising from the allegations, and provides the student with notice and an opportunity to challenge the decision immediately following the removal. This authority to remove a student does not modify a student's rights under the Individuals with Disabilities Education Act or Section 504 of the Rehabilitation Act of 1973. (34 CFR 106.44)

Dismissal of Complaint

The Title IX Coordinator shall dismiss a formal complaint if the alleged conduct would not constitute sexual harassment as defined in

34 CFR 106.30 even if proved. The Title IX Coordinator shall also dismiss any complaint in which the alleged conduct did not occur in the district's education program or activity or did not occur against a person in the United States, and may dismiss a formal complaint if the complainant notifies the district in writing that the complainant would like to withdraw the complaint or any allegations in the complaint, the respondent is no longer employed by the district, or sufficient circumstances prevent the district from gathering evidence sufficient to reach a determination with regard to the complaint. (34 CFR 106.45)

Upon dismissal, the Title IX Coordinator shall promptly send written notice of the dismissal and the reasons for the dismissal simultaneously to the parties and shall inform them of their right to appeal the dismissal of a formal complaint or any allegation in the complaint in accordance with the appeal procedures described in the section "Appeals" below. (34 CFR 106.45)

If a complaint is dismissed, the conduct may still be addressed pursuant to AR 4030 - Nondiscrimination in Employment as applicable.

Informal Resolution Process

When a formal complaint of sexual harassment is filed, the district may offer an informal resolution process, such as mediation, at any time prior to reaching a determination regarding responsibility. The district shall not require a party to participate in the informal resolution process or to waive the right to an investigation and adjudication of a formal complaint. (34 CFR 106.45)

The district may facilitate an informal resolution process provided that the district: (34 CFR 106.45)

1. Provides the parties with written notice disclosing the allegations, the requirements of the informal resolution process, the right to withdraw from the informal process and resume the formal complaint process, and any consequences resulting from participating in the informal resolution process, including that records will be maintained or could be shared.
2. Obtains the parties' voluntary, written consent to the informal resolution process

Written Notice

If a formal complaint is filed, the Title IX Coordinator shall provide the known parties with written notice of the following: (34 CFR 106.45)

1. The district's complaint process, including any informal resolution process
2. The allegations potentially constituting sexual harassment with sufficient details known at the time, including the identity of parties involved in the incident if known, the conduct allegedly constituting sexual harassment, and the date and location of the alleged incident if known. Such notice shall be provided with sufficient time for the parties to prepare a response before any initial interview. If, during the course of the investigation, new Title IX allegations arise about the complainant or respondent that are not included in the initial notice, the Title IX Coordinator shall provide notice of the additional allegations to the parties.
3. A statement that the respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility is made at the conclusion of the complaint process
4. The opportunity for the parties to have an advisor of their choice who may be, but is not required to be, an attorney, and the ability to inspect and review evidence
5. The prohibition against knowingly making false statements or knowingly submitting false information during the complaint process

The above notice shall also include the name of the investigator, facilitator of an informal process, and decision-maker and shall inform the parties that, if at any time a party has concerns regarding conflict of interest or bias regarding any of these persons, the party should immediately notify the Title IX Coordinator.

Investigation Procedures

During the investigation process, the district's designated investigator shall: (34 CFR 106.45)

1. Provide an equal opportunity for the parties to present witnesses, including fact and expert witnesses, and other inculpatory and

exculpatory evidence

2. Not restrict the ability of either party to discuss the allegations under investigation or to gather and present relevant evidence
3. Provide the parties with the same opportunities to have others present during any grievance proceeding, including the opportunity to be accompanied to any related meeting or proceeding by the advisor of their choice, who may be, but is not required to be, an attorney
4. Not limit the choice or presence of an advisor for either the complainant or respondent in any meeting or grievance proceeding, although the district may establish restrictions regarding the extent to which the advisor may participate in the proceedings as long as the restrictions apply equally to both parties
5. Provide, to a party whose participation is invited or expected, written notice of the date, time, location, participants, and purpose of all investigative interviews or other meetings, with sufficient time for the party to prepare to participate
6. Send in an electronic format or hard copy to both parties and their advisors, if any, the evidence obtained as part of the investigation that is directly related to the allegations raised in the complaint, and provide the parties at least 10 days to submit a written response for the investigator to consider prior to the completion of the investigative report
7. Objectively evaluate all relevant evidence, including both inculpatory and exculpatory evidence, and determine credibility in a manner that is not based on a person's status as a complainant, respondent, or witness
8. Create an investigative report that fairly summarizes relevant evidence and, at least 10 days prior to the determination of responsibility, send to the parties and their advisors, if any, the investigative report in an electronic format or a hard copy, for their review and written response

Questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant, unless such questions and evidence are offered to prove that someone other than the respondent committed the conduct alleged by the complainant or if the questions and evidence concern specific incidents of the complainant's prior sexual behavior with respect to the respondent and are offered to prove consent. (34 CFR 106.45)

Privacy rights of all parties to the complaint shall be maintained in accordance with applicable state and federal laws.

If the complaint is against an employee, rights conferred under an applicable collective bargaining agreement shall be applied to the extent they do not conflict with the Title IX requirements.

Written Decision

The Superintendent shall designate an employee as the decision-maker to determine responsibility for the alleged conduct, who shall not be the Title IX Coordinator or a person involved in the investigation of the matter. (34 CFR 106.45)

After the investigative report has been sent to the parties but before reaching a determination regarding responsibility, the decision-maker shall afford each party the opportunity to submit written, relevant questions that the party wants asked of any party or witness, provide each party with the answers, and allow for additional, limited follow-up questions from each party.

The decision-maker shall issue, and simultaneously provide to both parties, a written decision as to whether the respondent is responsible for the alleged conduct. (34 CFR 106.45)

The written decision shall be issued within 60 calendar days of the receipt of the complaint.

The timeline may be temporarily extended for good cause with written notice to the complainant and respondent of the extension and the reasons for the action. (34 CFR 106.45)

In making this determination, the decision-maker shall use the "preponderance of the evidence" standard for all formal complaints of sexual harassment. (34 CFR 106.45)

The written decision shall include the following: (34 CFR 106.45)

1. Identification of the allegations potentially constituting sexual harassment as defined in 34 CFR 106.30

2. A description of the procedural steps taken from receipt of the formal complaint through the written decision, including any notifications to the parties, interviews with parties and witnesses, site visits, methods used to gather other evidence, and hearings held if the district includes hearings as part of the grievance process
3. Findings of fact supporting the determination
4. Conclusions regarding the application of the district's code of conduct or policies to the facts
5. A statement of, and rationale for, the result as to each allegation, including a decision regarding responsibility, any disciplinary sanctions the district imposes on the respondent, and whether remedies designed to restore or preserve equal access to the district's educational program or activity will be provided by the district to the complainant
6. The district's procedures and permissible bases for the complainant and respondent to appeal

Appeals

Either party may appeal the district's decision or dismissal of a formal complaint or any allegation in the complaint, if the party believes that a procedural irregularity affected the outcome, new evidence is available that could affect the outcome, or a conflict of interest or bias by the Title IX Coordinator, investigator(s), or decision-maker(s) affected the outcome. If an appeal is filed, the district shall: (34 CFR 106.45)

1. Notify the other party in writing when an appeal is filed and implement appeal procedures equally for both parties
2. Ensure that the decision-maker(s) for the appeal is trained in accordance with 34 CFR 106.45 and is not the same decision-maker(s) who reached the determination regarding responsibility or dismissal, the investigator(s), or the Title IX Coordinator
3. Give both parties a reasonable, equal opportunity to submit a written statement in support of, or challenging, the outcome
4. Issue a written decision describing the result of the appeal and the rationale for the result
5. Provide the written decision simultaneously to both parties

An appeal must be filed in writing within 10 calendar days of receiving the notice of the decision or dismissal, stating the grounds for the appeal and including any relevant documentation in support of the appeal. Appeals submitted after this deadline are not timely and shall not be considered.

A written decision shall be provided to the parties within 20 calendar days from the receipt of the appeal.

Either party has the right to file a complaint with the U.S. Department of Education's Office for Civil Rights within 180 days of the date of the most recently alleged misconduct.

The complainant shall be advised of any civil law remedies, including, but not limited to, injunctions, restraining orders, or other remedies or orders that may be available under state or federal antidiscrimination laws, if applicable.

Remedies

When a determination of responsibility for sexual harassment has been made against the respondent, the district shall provide remedies to the complainant. Such remedies may include the same individualized services described above in the section "Supportive Measures," but need not be nondisciplinary or nonpunitive and need not avoid burdening the respondent. (34 CFR 106.45)

Disciplinary Actions

The district shall not impose any disciplinary sanctions or other actions against a respondent, other than supportive measures as described above in the section "Supportive Measures," until the complaint procedure has been completed and a determination of responsibility has been made. (34 CFR 106.44)

When an employee is found to have committed sexual harassment or retaliation, the district shall take appropriate disciplinary action, up to and including dismissal, in accordance with applicable law and collective bargaining agreement.

2. A record of any actions, including supportive measures, taken in response to a report or formal complaint of sexual harassment, including the district's basis for its conclusion that its response was not deliberately indifferent, the measures taken that were designed to restore or preserve equal access to the education program or activity, and, if no supportive measures were provided to the complainant, the reasons that such a response was not unreasonable in light of the known circumstances.
3. All materials used to train the Title IX Coordinator, investigator(s), decision-maker(s), and any person who facilitates an informal resolution process. The district shall make such training materials publicly available on its web site, or if the district does not maintain a web site, available upon request by members of the public.

(F) School-wide Dress Code Relating to Gang-Related Apparel (EC 35183)

Policy 5132.16: Student Dress Guidelines

The Governing Board believes that appropriate dress and grooming contribute to a productive learning environment. The Board expects students to give proper attention to personal cleanliness and to wear clothes that are suitable for the school activities in which they participate. Students' clothing must not present a health or safety hazard or a distraction which would interfere with the educational process.

Students and parents/guardians shall be informed about dress and grooming standards at the beginning of the school year and whenever these standards are revised. A student who violates these standards shall be subject to appropriate disciplinary action.

Gang-Related Apparel

The principal, staff and parents/guardians at a school may establish a reasonable dress code that prohibits students from wearing gang-related apparel when there is evidence of a gang presence that disrupts or threatens to disrupt the school's activities. Such a dress code may be included as part of the school safety plan and must be presented to the Board for approval. The Board shall approve the plan upon determining that it is necessary to protect the health and safety of the school's students.

Uniforms

The Board recognizes that, in order to promote student safety and discourage peer rivalry and/or gang activity, the principal, staff and parent/guardian at a school site may wish to establish a reasonable dress code, which may include voluntary school uniforms.

Dress codes, which include voluntary school uniforms, may be included as part of the school safety plan submitted as required.

The Superintendent or designee shall establish procedures that schools, parents and guardians will follow if they decide to participate with the voluntary school uniform policy. Students shall not be penalized academically, otherwise discriminated against or denied attendance to school if their parents/guardian decide not to participate.

The Governing Board feels that there is nothing inherently wrong with dress or color of dress, but when student's dress serves to intimidate or impede the rights of other students it will be determined that dress is in violation of this policy. A student may not remain at school dressed in a manner which (1) creates a safety hazard for said student or for other students at school, and/or (2) when the dress constitutes a serious and unnecessary distraction to the learning process or tends to disrupt campus order

When the site administrator/designee determines that a student's attire is in violation of this policy, the student will be required to modify his/her clothing and/or apparel in such a manner that it no longer violates this policy. If necessary, the student may be taken or sent home with parental permission to modify unacceptable dress and return to school. Refusal to take steps as described in this policy shall be cause for disciplinary action against the student. Any such disciplinary action shall be handled pursuant to existing student disciplinary policy

Parents/guardians have primary responsibility to see that students are properly attired for school. School district personnel have the responsibility for maintaining proper and appropriate conditions conducive to learning. Hence, the following guidelines will be implemented in all district schools.

1. Shoes will be worn at all times. A substantial sole is required and enclosed toe and heel footwear are highly encouraged.
2. Extremely brief garments that are distracting to the educational environment are not appropriate. Clothing shall be sufficient to conceal undergarments at all times.
3. Clothing or accessories shall be free of writing, pictures or any other insignia which are crude, violent, obscene or sexually suggestive or which advocate racial, ethnic or religious prejudice or the use of tobacco, drugs or alcohol.
4. Earrings, jewelry, or accessories which present a safety hazard to the wearer or others are not suitable for school wear.
5. Only prescription sunglasses may be worn in class. Other types of sunglasses may be worn on campus outside of class.
6. Identified gang attire such as bandannas, haircuts or hair rollers, or any gang paraphernalia are prohibited.

Students are allowed to wear sun protective clothing, including hats, while outdoors during the school day. Each school site will develop a policy indicating the type of sun protective hats that are permitted.

No grade of a student participating in a physical education class shall be adversely affected if the student does not wear standardized physical education apparel because of circumstances beyond the student's control. (Education Code 49066) All clothing worn during physical education shall meet reasonable safety standards.

The purpose of adopting these Student Dress Guidelines is not to infringe on any individual student's rights to freedom of expression, but rather to encourage students to dress appropriately and come to school properly prepared for participating in the educational process.

Gang-Related Apparel

Because gang-related symbols are constantly changing, definitions of gang-related apparel shall be reviewed as needed and updated as necessary.

Uniforms

In schools where a majority of parents respond and indicate on a survey that they desire to establish a voluntary school-wide uniform dress code, the principal, staff and the parents/guardians of the individual school site shall:

1. Jointly select the specific uniform to be worn. (Education Code 35183)
2. Describe the uniform parts and identify local vendors who sell those pieces of clothing. A description of the implementation of the voluntary uniform dress code will be submitted to the superintendent's designee including:
 - a. The process for parent notification
 - b. Positive procedures that will be used to encourage students to participate with the voluntary uniform dress code
3. A description of the uniform and a list of costs for each competitively priced item of clothing as provided by a variety of vendors will be sent to parents.
4. Parents will be notified that this is a voluntary uniform dress code and that students not participating shall not be penalized academically, otherwise discriminated against or denied attendance to school if their parents/guardians so decide.

Parent Notification

The principal shall give parents/guardian at least six months notice before a school site implements a voluntary school uniform dress code. (Education Code 35183)

(G) Procedure for Safe Ingress and Egress of Pupils, Parents, and Staff to and from School (EC 35294.2)

Drop Off/Pick Up Procedures

Safe Walking to School

Students and parents must follow all traffic laws and safety rules when walking and bicycling to and from school. We encourage you to use the crosswalks to cross the street rather than in the middle of a block.

Bicycles & Skateboards

Children in the 3rd – 5th grades may ride their bicycles, scooters, or skateboards to school with written parent permission. They must follow all safety and traffic laws while riding to and from school, and they must wear a helmet according to California state law. Students and/or visitors are not permitted to ride their bicycles on the school grounds, nor may they ride two persons on a bike. Bicycles are to be parked and locked in the storage area by the South gate on the blacktop. Students must secure their bikes with their own locks. Students may not lock their bicycles together – only one bike per lock. The school is not responsible for stolen or damaged bikes.

Skateboards and scooters may be ridden to and from school under the following circumstances: (1) Skateboards and scooters may never be ridden on school grounds; (2) The student must carry them to and from the classroom; and (3) the classroom teacher agrees to house them in the classroom during the school day.

Transportation

Arroyo Verde is considered a “walking school.” Transportation is provided for some students in special education. For those parents who prefer to drive their children to and from school, please plan to drop your children off and pick them up in the North and South parking lots.

Parking Lot Drop Off & Pick Up

Cars heading North on Church St. will be directed to turn right into the designated parking lots. When exiting the lower parking lot, we are asking cars to make a right turn only and continue North on Church St. Please note that there will be a “No Left Turn” available when heading south on Church St. sign by the upper lot for traffic heading south on Church St. Cars heading South on Church St. will NOT be permitted to make a left turn into the parking lot. Please plan your route out in advance. Additionally, the San Bernardino Sheriff’s Department will be patrolling the area to support our safety efforts. Thank you all for your continued cooperation and support as we improve our drop-off and dismissal process.

Love Street will still be open for left turns. This only impacts left turns into the upper and lower parking lots.

Directions:

- Enter the parking lot from Church St.
- Pull into the parking lot and stay to the right (closest to the sidewalk). Remain in your vehicle the entire time.
- Please remember to pull all the way forward to the designated yellow zone drop-off and pick-up area before your student enters your vehicle.
- Your student will enter/exit on the passenger side of the vehicle only. This is to ensure their safety at all times.
- Slowly exit the parking lot turning right onto Church St.

Upper Parking Lot:

- Students should be picked up on the grass area at the brick wall near the kindergarten rooms.
- Students should stand with feet half on grass & half on concrete while watching for cars.
- Students will be reminded to walk up along the yellow curb toward the hill as cars pull up, so that the flow of traffic does not stop.
- NO students are to stand by the crosswalk under the tree to be picked up. They need to go to an area that is supervised.

Lower Parking Lot:

- No students should wait near the rocks or brick wall.
- Parents need to come to the curb and cross their child in the crosswalk. Please do not call to your child and tell them to cross the street where there is no crosswalk. This is extremely dangerous!
- Come into the parking lot to pick up your child. Please do not pick your child up on Church Street.
- Please do not park at the shopping center.

Vehicle entry is limited in the school parking lot during morning arrival time or afternoon dismissal time, due to space constraints. Buses, vehicles with handicapped signs, and RUSD personnel will be given preferential parking during these times. Double parking in the aisles along the marked spaces or parking in fire lanes is strictly prohibited.

Please follow all traffic and safety rules when coming to and from school. We encourage you to use the sidewalks and crosswalks. Be safe at all times – do not jaywalk or jump over fences. If you need to park your vehicle, please park in unmarked/unreserved parking spots in the North and South parking lots. Do not double-park in the parking lot or on the street. Highland Police Department will enforce traffic and parking laws on the street and in the parking lot.

The Village at East Highlands Ranch Stater Bros Shopping Center

The management company at the shopping center located next to the school has requested that parents not park in their lot for pick up/drop off and school events. As a community partner we ask that you respect this request and park in the neighborhood streets and not at the shopping center.

Animals on Campus

Arroyo Verde acknowledges the important role that pets, dogs in particular, play in our community and the positive impact dogs can have on family life. However, the safety of our students is our first priority. Dogs on campus have the potential to increase the risk of injury to children caused by dogs (e.g. bites and scratches) and through dogs reacting adversely to unexpected noise and/or movement of children. As a reminder our district approved policy is as follows. BP 1330.2 Community Relations

It shall be the policy of the district to prohibit the bringing of animals and pets on district property by employees and students of the district, or the general public, with the following exceptions: (This includes holding your pets in your arms.)

1. Animals or pets may be permitted on school property for specific educational purposes, as determined by the principal or site manager.

2. Guide dogs for blind persons shall not be prohibited from entering district property.

Persons bringing animals or pets onto district property shall assume resulting liability.

Policy REDLANDS UNIFIED SCHOOL DISTRICT

(I) School Discipline Rules and Consequences (EC 35291 and EC 35291.5)

Arroyo Verde Elementary School Student Conduct Code

Procedures to Ensure a Safe and Orderly Environment

Rules and Procedures on School Discipline

Philosophy of Discipline

- Behavior expectations and the consequences for not meeting expectations must be clearly communicated to all students and their parents (in writing as well as verbally).
- The severity of consequences for violating behavior expectations increases with each incident of inappropriate behavior.
- The consequences for violating behavior expectations should be severe enough to discourage students from making poor behavior decisions.
- Expectations and consequences should permit students an opportunity to eliminate inappropriate behavior.

Additionally, the school staff recognizes that the middle school years are a transition time from adolescence to young adulthood. As a part of this transition, the student is given greater opportunities to be responsible and demonstrate independence and good judgment. The structure of our behavior expectations (in the classroom as well as school wide) is meant to encourage students to be responsible. The first step in many instances of inappropriate behavior (those considered to be "minor") is a simple warning ("Your behavior is unacceptable. Please stop such behavior"). It is only when a student ignores such warnings and continues to choose to act irresponsibly (like a child rather than an emerging adult) that we involve parents and implement consequences.

Elements of a Good Discipline Program

1. The program is focused upon making the entire campus, especially the classroom, a safe, supportive and orderly environment for learning for students and staff.
2. Classroom authority is retained by the classroom teacher. (Administration's role is to support, not to replace.)
3. Rules and procedures are clearly understood by staff and students.
4. All staff members will acknowledge and take appropriate action on any minor or major infraction of the school rules.
5. Rules and procedures comply with State Law and District policies.
6. The program recognizes the responsibilities and the rights of students and staff.
7. Program is structured to keep students in class and engaged in the educational process.
8. Rules are enforced:
 - A. by all staff members at all times.
 - B. strictly, but not rigidly (beware of "automatics").
 - C. in substantial part by adult modeling.
 - D. using techniques that promote the growth of positive self-esteem.
 - E. as close to the source as is possible.
 - F. by keeping parents informed.
9. The discipline program is understood, endorsed, and supported by staff, parents, and students.

PRINCIPAL'S STATEMENT TO EDMS STAFF

Expectations in Developing & Maintaining Discipline

As Principal of our school, I will expect;

Each teacher to have a defined system of classroom management. A written description of this system, including representative examples of the progressive interventions you intend to employ, will be approved and filed by me. Whenever possible and appropriate, teachers are encouraged to use standards and systems that are consistent with other village/department members.

You can expect

Each administrator to assist and support you in every reasonable way in developing, implementing, and refining that system as needed.

I will expect

That when you refer a student for discipline:

1. The student has been made fully aware of classroom and school rules and knows what rules he/she has violated.
2. Teachers within a village will discuss any continuing behavior problems and schedule a team conference with the student and parents when appropriate.
3. That information will be provided on the referral regarding previous actions you have taken regarding this specific issue.
4. You have exhausted the interventions at your disposal (i.e., you have done everything you can do) and you have followed the guidelines established by the administration and staff on what constitutes an appropriate behavior referral.
5. The behavior was so serious or so blatant as to make immediate removal from the classroom necessary.
6. The written referral will be explicit in stating the offense(s).
7. You will send the student out of class with a referral only if his/her continued presence in the class would disrupt or prevent teaching and/or learning.
8. If necessary, the referral will be delivered to the office at a time convenient to the staff member so that the issue may be handled most efficiently, causing a minimum of lost class time.

You can expect

1. Each administrator to support your position in every reasonable way.
2. A response time on your referral of one, or at most, two days.

3. The availability of an administrator to discuss unresolved referrals after school on any given day.
4. That the administrator will exercise independent judgment regarding disposition of referrals.

I will expect

1. That each teacher will go to the doorway of his/her classroom after each class period as often as possible and assume control of student behavior in the corridor.
2. That each staff member will hold students accountable for their behavior on the school grounds at all times.

You can expect

1. Administrator support, investigation, and follow-through as indicated.
2. A response to referrals from incidents outside the classroom to be the same as to those within.

Principal

WHAT TO DO WHEN PROBLEMS APPEAR

Both behavioral and academic problems are present in some of our students. Teachers often ask for guidelines for dealing with these problems. Here they are:

1. Talk to the administrator assigned to your grade level.
2. Call parents at first sign of concern. Inform the parents of your observations, ask for their ideas, assistance, and support in serving the student. Keep a log of your calls.
3. If possible, talk privately to the student about your concerns.
4. Behavior concerns—look through students' CUM file. Any official suspensions will be in file, also look for teacher comments on report cards. Look for patterns of behavior. We use In-House Suspension whenever possible, as it is preferable to having students at home unattended—and it saves the district money. Serious infractions (fighting, threats, etc.) do result in official suspension. Unresponsive students can be moved to other schools or expelled.
5. Referrals—please remember if you write a student referral, you are required to call the parents. You are writing the referral and can answer the parents' questions firsthand. Administrators will also call parents, but we can only give secondhand information on the incident.
6. Academic Concerns—again, look through student CUM. This will contain test scores, report cards, and a student history. You may want to ask the grade level administrator to schedule a Student Study Team (SST). This will involve a meeting with the student, parents, administrators, students' teachers, and perhaps the psychologist

The notice shall also inform all students and parents/guardians that, to the extent possible, the district will address any individual student's interests and concerns in private.
(cf. 5145.6 - Parental Notifications)

Process for Initiating and Responding to Complaints

Any student who feels that he/she has been subjected to unlawful discrimination described above or in district policy is strongly encouraged to immediately contact the Compliance Officer, the principal, or any other staff member. In addition, any student who observes any such incident is strongly encouraged to report the incident to the Compliance Officer or principal, whether or not the alleged victim files a complaint.

Any school employee who witnesses an incident of unlawful discrimination, including discriminatory harassment, intimidation, retaliation, or bullying, shall immediately intervene to stop the incident when it is safe to do so. (Education Code 234.1)

When a report of unlawful discrimination, including discriminatory harassment, intimidation, retaliation, or bullying, is made to or received by the principal or compliance officer, the principal or compliance officer shall notify the student or parent/guardian of the right to file a formal complaint in accordance with AR 1312.3 - Uniform Complaint Procedures, or, for complaints of sexual harassment that meet the federal Title IX definition, AR 5145.71 - Title IX Sexual Harassment Complaint Procedures. Once notified verbally or in writing, the principal or compliance officer shall begin the investigation and shall implement immediate measures necessary to stop the discrimination and ensure that all students have access to the educational program and a safe school environment. Any interim measures adopted to address unlawful discrimination shall, to the extent possible, not disadvantage the complainant or a student who is the victim of the alleged unlawful discrimination.

Any report or complaint alleging unlawful discrimination by the principal, compliance officer, or any other person to whom a report would ordinarily be made or complaint filed shall instead be made to or filed with the Superintendent or designee who shall determine how the complaint will be investigated.

(cf. 5141.4 - Child Abuse Prevention and Reporting)

Transgender and Gender-Nonconforming Students

Gender identity of a student means the student's gender-related identity, appearance, or behavior, as determined from the student's internal sense whether or not that gender-related identity, appearance, or behavior is different from that traditionally associated with the student's physiology or assigned sex at birth.

Gender expression means a student's gender-related appearance and behavior, whether or not stereotypically associated with the student's assigned sex at birth. (Education Code 210.7)

Gender transition refers to the process in which a student changes from living and identifying as the sex assigned to the student at birth to living and identifying as the sex that corresponds to the student's gender identity.

Transgender student means a student whose gender identity is different from the gender assigned at birth.

Gender-nonconforming student means a student whose gender expression differs from stereotypical expectations.

The district prohibits acts of verbal, nonverbal, or physical aggression, intimidation, or hostility that are based on sex, gender identity, or gender expression, or that have the purpose or effect of producing a negative impact on the student's academic performance or of creating an intimidating, hostile, or offensive educational environment regardless of whether the acts are sexual in nature. Examples of the types of conduct which are prohibited in the district and which may constitute gender-based harassment include, but are not limited to:

1. Refusing to address a student by a name and the pronouns consistent with the student's gender identity

2. Disciplining or disparaging a student or excluding the student from participating in activities for behavior or appearance that is consistent with the student's gender identity or that does not conform to stereotypical notions of masculinity or femininity, as applicable
3. Blocking a student's entry to the restroom that corresponds to the student's gender identity
4. Taunting a student because the student participates in an athletic activity more typically favored by a student of the other sex
5. Revealing a student's transgender status to individuals who do not have a legitimate need for the information, without the student's consent
6. Using gender-specific slurs
7. Physically assaulting a student motivated by hostility toward the student because of the student's gender, gender identity, or gender expression

The district's uniform complaint procedures (AR 1312.3), or Title IX sexual harassment procedures (AR 5145.71), as applicable, shall be used to report and resolve complaints alleging discrimination against transgender and gender-nonconforming students.

Examples of bases for complaints include, but are not limited to, the above list, as well as improper rejection by the district of a student's asserted gender identity, denial of access to facilities that correspond with a student's gender identity, improper disclosure of a student's transgender status, discriminatory enforcement of a dress code, and other instances of gender-based harassment. To ensure that transgender and gender-nonconforming students are afforded the same rights, benefits, and protections provided to all students by law and Board policy, the district shall address each situation on a case-by-case basis, in accordance with the following guidelines:

1. **Right to privacy:** A student's transgender or gender-nonconforming status is the student's private information and the district will only disclose the information to others with the student's prior written consent, except when the disclosure is otherwise required by law or when the district has compelling evidence that disclosure is necessary to preserve the student's physical or mental well-being. In any case, the district shall only allow disclosure of a student's personally identifiable information to employees with a legitimate educational interest as determined by the district pursuant to 34 CFR 99.31. Any district employee to whom a student's transgender or gender-nonconforming status is disclosed shall keep the student's information confidential. When disclosure of a student's gender identity is made to a district employee by a student, the employee shall seek the student's permission to notify the compliance officer. If the student refuses to give permission, the employee shall keep the student's information confidential, unless he/she is required to disclose or report the student's information pursuant to this administrative regulation, and shall inform the student that honoring the student's request may limit the district's ability to meet the student's needs related to the student's status as a transgender or gender-nonconforming student. If the student permits the employee to notify the Compliance Officer, the employee shall do so within three school days.

As appropriate, given the student's need for support, the compliance officer may discuss with the student any need to disclose the student's transgender or gender-nonconformity status or gender identity or gender expression to the student's parents/guardians and/or others, including other students, teacher(s), or other adults on campus. The district shall offer support services, such as counseling, to students who wish to inform their parents/guardians of their status and desire assistance in doing so.

(cf. 1340 - Access to District Records)

(cf. 3580 - District Records)

2. **Determining a Student's Gender Identity:** The Compliance Officer shall accept the student's assertion of gender identity and begin to treat the student consistent with that gender identity unless district personnel present a credible and supportable basis for believing that the student's assertion is for an improper purpose

3. Addressing a Student's Transition Needs: The Compliance Officer shall arrange a meeting with the student and, if appropriate, the student's parents/guardians to identify and develop strategies for ensuring that the student's access to educational programs and activities is maintained. The meeting shall discuss the transgender or gender-nonconforming student's rights and how those rights may affect and be affected by the rights of other students and shall address specific subjects related to the student's access to facilities and to academic or educational support programs, services, or activities, including, but not limited to, sports and other competitive endeavors. In addition, the Compliance Officer shall identify specific school site employee(s) to whom the student may report any problem related to the student's status as a transgender or gender-nonconforming individual, so that prompt action can be taken to address it. Alternatively, if appropriate and desired by the student, the school may form a support team for the student that will meet periodically to assess whether the arrangements for the student are meeting their educational needs and providing equal access to programs and activities, educate appropriate staff about the student's transition, and serve as a resource to the student to better protect the student from gender-based discrimination.

4. Accessibility to Sex-segregated Facilities, Programs, and Activities: When the district maintains sex-segregated facilities, such as restrooms and locker rooms, or offers sex-segregated programs and activities, such as physical education classes, intermural sports, and interscholastic athletic programs, students shall be permitted to access facilities and participate in programs and activities consistent with their gender identity. To address any student's privacy concerns in using sex-segregated facilities, the district shall offer available options such as a gender-neutral or single-use restroom or changing area, a bathroom stall with a door, an area in the locker room separated by a curtain or screen, or use of the locker room before or after the other students. However, the district shall not require a student to utilize these options because the student is transgender or gender-nonconforming. In addition, a student shall be permitted to participate in accordance with the student's gender identity in other circumstances where students are separated by gender, such as for class discussions, yearbook pictures, and field trips. A student's right to participate in a sex-segregated activity in accordance with the student's gender identity shall not render invalid or inapplicable any other eligibility rule established for participation in the activity.

(cf. 6145 - Extracurricular and Co-curricular Activities)

(cf. 6145.2 - Athletic Competition)

(cf. 6153 - School-Sponsored Trips)

(cf. 7110 - Facilities Master Plan)

5. Student Records: A student's legal name or gender as entered on the mandatory student record required pursuant to 5 CCR 432 shall only be changed with proper documentation. When a student presents government-issued documentation of a name and/or gender change or submits a request for a name and/or gender change through the process specified in Education Code 49070, the district shall update the student's records. (Education Code 49062.5, 49070)

(cf. 5125 - Student Records)

(cf. 5125.1 - Release of Directory Information)

(cf. 5125.3 - Challenging Student Records)

6. Names and Pronouns: If a student so chooses, district personnel shall be required to address the student by a name and the pronouns consistent with the student's gender identity, without the necessity of a court order or a change to the student's official district record. However, inadvertent slips or honest mistakes by district personnel in the use of the student's name and/or consistent pronouns will, in general, not constitute a violation of this administrative regulation or the accompanying district policy.

7. Uniforms/Dress Code: A student has the right to dress in a manner consistent with the student's gender identity, subject to any dress code adopted on a school site.

(J) Procedures to Prepare for Active Shooters

Lock Down Drills are practiced each year. These drills prepare staff on the three levels of safety in a crisis. Each type of drill is practiced with students.

3 LEVELS OF STUDENT SAFETY IN A CRISIS

Safe and Secure Mode is a security procedure used to reduce student and staff movement outside school buildings. This may be due to a medical emergency, area disturbance, isolated site disturbance, etc. It is designed to allow for school to carry forward but have the ability to move to Lockdown quickly if needed. During the Safe and Secure mode, there is heightened vigilance on campus by all school staff. Generally, recesses and outdoor activities are reduced. Parents/guardians can have access to their student(s) and may check them out of school if they see fit to do so.

Teachers should continue teaching as normal

Allow students restroom use with clear administrator/ teacher direction

Increased available staff presence during passing periods and student dismissal

Lunch/activities monitored more closely for movement outside of lunch area, unless site admin decides otherwise

Standard inclement weather schedule/routine in place, unless site administrator/designee decides otherwise

Perimeter gates, where applicable, will be locked and monitored by available staff, allowing for central access points

PE classes will be monitored more closely for movement outside of PE area; classes may be moved off all fields into more secure locations (e.g., gym, class, & MPR)

Lock Down is called when a law enforcement event is happening in the vicinity of a school or on campus. With the support of law enforcement, a school site will call a Lock Down as a precautionary measure. This means all students and staff must stay inside behind locked doors; however, it does not mean that there is an active threat occurring on campus.

Take a look outside your classroom and gather up any stray students in the hallways

Ensure that your door is locked

Project a calm demeanor to help students remain calm; reassure students that they are safe

Do not allow anyone to leave the classroom

Staff and parents/guardians frequently check their emails for updates from their site administrators

If students are out on the playground or athletic fields, quickly move them to a secure classroom, locker room, or multi-purpose room

Teachers continue to keep students engaged in learning

Critical Alert is called when a significant, threatening event is happening on campus or adjacent to campus that creates a potential danger to students and staff. While this may be communicated to the school by law enforcement, it may also be determined by school officials on the scene. Critical Alert assumes that everyone is prepared for a potential significant threat/event on campus.

Turn off or reduce lighting, so it will appear that the room is vacant

Keep all students sitting on the floor, away from the door or windows

Do not look out the windows

Advise the students that there is a serious situation; project a calm demeanor and reassure students that you are taking steps to keep them safe

Ensure that everyone in the room turns the ringer off on their cell phones

Do not allow students to talk on their cell phones (keep room as quiet as possible)

Limit calls to the school office; phones are being used to communicate with parents/guardians and first responders

Quietly take roll and make a list of missing students and any extra students that are in your room. Email this list to your administrators and school site secretaries

When staff determines, they will direct the evacuation of students they oversee to the designated area; each staff will make this determination based on their specific situation

Do not open the door, even if someone knocks and claims to be a staff member (administrator/custodian will have a master key)

If students are out on the PE field, do not return them to the locker room. Move them to a safe place (this may be the farthest part of the campus or off campus); Staff must remain with students until reunification

School Lockdown/Critical Alert Procedure Checklist

Instruct staff to follow procedures outlined in 3 Levels of Student Safety In a Crisis

Contact substitutes and any non-school site RUSD staff on campus

Additional Steps for All Staff

In Lockdown, Campus Safety and Staff do sweep – only if there is no immediate threat to the school site. If outside, in hallways, and in restrooms, move students to nearest secure room

Follow all instructions from law enforcement

Do not use cell phones unless it's an emergency; messaging through Raptor is preferable

Be prepared to implement evacuation procedures when needed

Be prepared to implement reunification procedures when needed

Post-Lockdown/Critical Alert Actions

Communicate with parents/guardians through ParentSquare Smart Alerts and staff about the incident and next steps

Provide immediate support for any individuals in distress; work with first responders and

RCSS as needed

Debrief with staff and students as appropriate

Review and evaluate lockdown procedure effectiveness

Notify after school programs when needed

Additional Considerations

Provide assistance and messaging for Special Education students

Communicate with Transportation on field trips

Principal should be at the Command Post with Incident Commander

Parents/guardians and students should be in an area away from Incident Command Post

Have waters on hand to provide if needed; notify Superintendent's Office if they need waters

Staff and Admin need to routinely review their site-specific Emergency Operation Plan

Armed Assault on Campus

An Armed Assault on Campus involves one or more individuals who attempt to take hostages or cause physical harm to students and staff. Such an incident may involve individuals who possess a gun, a knife or other harmful device.

3. The School Administrator will call "911" and San Bernardino Sheriff, the school's local law enforcement agency, at 909-425-9793, and provide the exact location and nature of the incident. The School Administrator should designate a person to remain online with Police if safe to do so. If there is an assigned officer on campus, they shall be notified.
4. Staff should take steps to calm and control students, and if safe to do so, attempt to maintain separation between students and the perpetrator.

10. All media inquiries will be referred to the designated Public Information Officer.
11. The School Administrator will debrief staff and campus and local police officers.

Procedures for Preventing Acts of Bullying and Cyber-bullying

District Bullying Policy

The Redlands USD Governing Board recognizes the harmful effects of bullying on student well-being, student learning and school attendance and desires to provide a safe school environment that protects students from physical and emotional harm. No individual or group shall, through physical, written, verbal, or other means, harass, sexually harass, threaten, intimidate, cyberbully, cause bodily injury to, or commit hate violence against any other student or school personnel, or retaliate against them for filing a complaint or participating in the complaint resolution process.

The Superintendent or designee shall develop strategies for addressing bullying in district schools with the involvement of students, parents/guardians, and staff. As appropriate, the Superintendent or designee may also collaborate with social services, mental health services, law enforcement, courts, and other agencies and community organizations in the development and implementation of effective strategies to promote safety in schools and the community.

Such strategies shall be incorporated into the comprehensive safety plan and, to the extent possible, into the local control and accountability plan and other applicable district and school plans.

Any complaint of bullying shall be investigated and, if determined to be discriminating, resolved in accordance with law and the district's uniform complaint procedures specified in AR 1312.3 - Uniform Complaint Procedures. If, during the investigation, it is determined that a complaint is about nondiscriminatory bullying, the principal or designee shall inform the complainant and shall take all necessary actions to resolve the complaint.

Any employee who permits or engages in bullying or retaliation related to bullying shall be subject to disciplinary action, up to and including dismissal.

Any person that has been a victim of, or witnessed bullying or harassment on school grounds, during school activities, or going to and coming from school is highly encouraged to report the incident immediately to a counselor, administrator, or other adult personnel on campus. Students have an option of reporting the incident anonymously through Sprigeo online Sprigeo - Report School Safety Threats and Bullying on the school and district's websites.

Definition of Bullying

The district and school are compliant with Assembly Bill AB86 and Education Code 48900 (r) which states that bullying is "one or more acts by a pupil or group of pupils directed against another pupil that constitutes sexual harassment, hate violence, or severe or pervasive intentional harassment, threats, or intimidation that is disruptive, causes disorder, and invades the rights of others by creating an intimidating or hostile educational environment, and includes acts that are committed personally or by means of an electronic act." School officials have the authority to suspend a pupil or recommend a pupil for expulsion for bullying, including but not limited to bullying by an electronic act.

Harassment or bullying of students or staff is an extremely serious violation. The District will not tolerate unlawful bullying and harassment on school grounds, or when traveling to and from school or a school sponsored activity, and during lunch period, whether on or off campus, or sending insulting or threatening messages by phone, e-mail, websites, or any other electronic or written communication. The physical location or time of access of a computer-related incident cannot be raised as a defense in any disciplinary action initiated pursuant to this policy.

"Bullying" is defined as any severe or pervasive physical or verbal act or conduct, including communications made in writing or by means of an electronic act, and including one or more acts committed by a pupil or group of pupils directed toward one or more pupils that has or can be reasonably predicted to have the effect of causing a reasonable pupil to experience a substantially detrimental effect on the pupil's physical or mental health, academic performance, or ability to participate in school activities.

"Cyberbullying," includes the transmission of harassing communications, direct threats, or other harmful texts, sounds, or images on the Internet, social media, or other technologies using a telephone, computer, or any wireless communication device. Cyberbullying also includes breaking into another person's electronic account and assuming that person's identity in order to damage that person's reputation. When the circumstances involve cyberbullying, individuals with information about the activity shall be encouraged to save and print any electronic or digital messages that they feel constitute cyberbullying and to notify a teacher, the principal, or other employee so that the matter may be investigated. When a student uses a social networking site or service to bully or harass another student, the Superintendent or designee shall file a request with the networking site or service to suspend the privileges of the student and to have the material removed.

Safety Plan Review, Evaluation and Amendment Procedures

Emergency Response Guidelines

Step One: Identify the Type of Emergency

The first step in responding to an emergency is to determine the type of emergency that has occurred. Emergency procedures for the 18 different types of emergencies listed below are provided in Section 5.0.

- Aircraft Crash
- Animal Disturbance
- Armed Assault on Campus
- Biological or Chemical Release
- Bomb Threat
- Bus Disaster
- Disorderly Conduct
- Earthquake
- Explosion/Risk of Explosion
- Fire in Surrounding Area
- Fire on School Grounds
- Flooding
- Loss or Failure of Utilities
- Motor Vehicle Crash
- Psychological Trauma
- Suspected Contamination of Food or Water
- Threat of Violence
- Unlawful Demonstration/Walkout

Step Two: Identify the Level of Emergency

The second step in responding to an emergency is to determine the level of the emergency. For schools, emergency situations can range from a small fire to a major earthquake. To assist schools in classifying emergency situations, a three-tiered rating system is described below.

Level 1 Emergency: A minor emergency that is handled by school personnel without assistance from outside agencies, e.g., a temporary power outage, a minor earthquake, or a minor injury in the play yard.

Level 2 Emergency: A moderate emergency that requires assistance from outside agencies, such as a fire or a moderate earthquake, or a suspected act of terrorism involving the dispersion of a potentially hazardous material, e.g., “unknown white powder”.

Level 3 Emergency: A major emergency event that requires assistance from outside agencies such as a major earthquake, civil disturbance or a large-scale act of terrorism. For Level 3 emergencies, it is important to remember that the response time of outside agencies may be seriously delayed.

Step Three: Determine the Immediate Response Action

Once the type and extent of an emergency have been identified, school personnel can determine if an immediate response action is required. The most common immediate response actions initiated during school emergencies are:

- Duck and Cover
- Shelter-In-Place
- Lock Down
- Evacuate Building
- Off-Site Evacuation
- All Clear

Step Four: Communicate the Appropriate Response Action

Duck and Cover

This action is taken to protect students and staff from flying or falling debris.

Description of Action

1. The Principal will make the following announcement on the PA system. If the PA system is not available, the Principal will use other means of communication, i.e., sending messengers to deliver instructions. The Principal should be calm, convey reassuring comments that the situation is under control and give clear directions.

“YOUR ATTENTION PLEASE. AS YOU ARE AWARE, WE ARE EXPERIENCING SOME SEISMIC ACTIVITY. FOR EVERYONE’S PROTECTION, ALL STUDENTS SHOULD FOLLOW STAFF DUCK AND COVER PROCEDURES, WHICH MEAN YOU SHOULD BE IN A PROTECTED POSITION UNDER A TABLE OR DESK, AWAY FROM WINDOWS AND ANYTHING THAT COULD FALL AND HURT YOU. HOLD THIS POSITION UNTIL THE SHAKE STOPS OR GIVEN FURTHER INSTRUCTIONS.”

2. If inside, teachers will instruct students to duck under their desks and cover their heads with their arms and hands.

3. If outside, teachers will instruct students to drop to the ground, place their heads between their knees, and cover their heads with their arms and hands.

4. Teachers and students should move away from windows.

Shelter-in-Place

This action is taken to place and/or keep students indoors in order to provide a greater level of protection from airborne contaminants in outside air. Shelter-in-Place is implemented when there is a need to isolate students and staff from the outdoor environment, and includes the shut down of classroom and/or building HVAC systems. During Shelter-in-Place, no one should be exposed to the outside air.

The difference between Shelter-in-Place and Lock Down is that the former involves shut down of the HVAC systems, and allows for the free movement of students within the building. However, classes in bungalows and buildings with exterior passageways will have to remain in the classroom.

Description of Action

1. The Principal will make the following announcement on the PA system. If the PA system is not available, the Principal will use other means of communication, i.e., sending messengers to deliver instructions. The Principal should be calm, convey reassuring comments that the situation is under control and give clear directions.

“YOUR ATTENTION PLEASE. BECAUSE WE HAVE RECEIVED INFORMATION REGARDING A HAZARD IN THE COMMUNITY, WE ARE INSTITUTING SHELTER-IN-PLACE PROCEDURES. REMEMBER, THIS MEANS STUDENTS AND STAFF ARE TO REMAIN INSIDE THE BUILDING AWAY FROM OUTSIDE AIR WITH WINDOWS AND DOORS SECURELY CLOSED AND AIR CONDITIONING UNITS TURNED OFF. ALL STUDENTS AND STAFF THAT ARE OUTSIDE ARE TO IMMEDIATELY MOVE TO THE PROTECTION OF AN INSIDE ROOM. AS SOON AS WE HAVE FURTHER INFORMATION, WE WILL SHARE IT WITH YOU.”

2. If inside, teachers will keep students in the classroom until further instructions are given.

3. If outside, students will proceed to their classrooms if it is safe to do so. If not, teachers or staff will direct students into nearby classrooms or school buildings (e.g., auditorium, library, cafeteria, and gymnasium). Teachers should consider the location and proximity of the identified hazard and, if necessary, proceed to an alternative indoor location.

4. Teachers are responsible to secure individual classrooms whereas the Security/Utilities Team will assist in completing the procedures as needed: shut down the classroom/building(s) HVAC system; turn off local fans in the area; close and lock doors and windows; seal gaps under doors and windows with wet towels or duct tape; seal vents with aluminum foil or plastic wrap, if available; and turn off sources of ignition, such as pilot lights.

Lock Down

This action is taken when the threat of violence or gunfire is identified or directed by law enforcement and it is necessary to prevent the perpetrator(s) from entering occupied areas. During Lock Down, students are to remain in the classrooms or designated locations at all time.

The difference between Shelter-in-Place and Lock Down is that the former involves shut down of the HVAC systems, and allows for the free movement of students within the building.

Description of Action

1. The Principal will make the following announcement on the PA system. If the PA system is not available, the Principal will use other means of communication, i.e., sending messengers to deliver instructions. The Principal should be calm, convey reassuring comments that the situation is under control and give clear directions.

“YOUR ATTENTION PLEASE. WE HAVE AN EMERGENCY SITUATION AND NEED TO IMPLEMENT LOCK DOWN PROCEDURES. TEACHERS ARE TO LOCK CLASSROOM DOORS AND KEEP ALL STUDENTS INSIDE THE CLASSROOM UNTIL FURTHER NOTICE. DO NOT OPEN THE DOOR UNTIL NOTIFIED BY AN ADMINISTRATOR OR LAW ENFORCEMENT. IF OUTSIDE, STUDENTS AND STAFF ARE TO PROCEED INSIDE THE NEAREST BUILDING OR CLASSROOM.”

If inside, teachers will instruct students to lie on the floor, lock the doors, and close any shades or blinds if it appears safe to do so.

2. If outside, students will proceed to their classrooms if it is safe to do so. If not, teachers or staff will direct students into nearby classrooms or school buildings (e.g., auditorium, library, cafeteria, and gymnasium).
3. Teachers and students will remain in the classroom or secured area until further instructions are given by the Principal or law enforcement.
4. The front entrance is to be locked and no visitors other than appropriate law enforcement or emergency personnel, have to be allowed on campus.

Evacuate Building

This action is taken after the decision is made that it is unsafe to remain in the building.

Description of Action

1. The Principal will make the following announcement on the PA system. If the PA system is not available, the Principle will use other means of communication, i.e., sending messengers to deliver instructions. The Principal should be calm, convey reassuring comments that the situation is under control and give clear directions.

“YOUR ATTENTION PLEASE. WE NEED TO INSTITUTE AN EVACUATION OF ALL BUILDINGS. TEACHERS ARE TO TAKE THEIR STUDENTS TO THE ASSEMBLY AREA AND REPORT TO THEIR DESIGNATED AREA. STUDENTS ARE TO REMAIN WITH THEIR TEACHER. TEACHERS NEED TO TAKE THEIR ROLLBOOK AND LOCK THE CLASSROOM WHEN ALL STUDENTS HAVE EXITED THE CLASSROOM.”

2. The Principal will initiate a fire alarm.
3. Teachers will instruct students to evacuate the building, using designated routes, and assemble in their assigned Assembly Area.
4. Teachers will take the student roster when leaving the building and take attendance once the class is assembled in a safe location.
5. Once assembled, teachers and students will stay in place until further instructions are given.

Off-Site Evacuation

This action is taken after a decision is made that it is unsafe to remain on the campus, and evacuation to an off-site assembly area is required.

Description of Action

1. The Principal will make the following announcement on the PA system. If the PA system is not available, the Principle will use other means of communication, i.e., sending messengers to deliver instructions. The Principal should be calm, convey reassuring comments that the situation is under control and give clear directions.

“YOUR ATTENTION PLEASE. WE NEED TO INSTITUTE AN OFF-SITE EVACUATION. TEACHERS ARE TO TAKE THEIR STUDENTS TO THE OFF-SITE ASSEMBLY AREA AND REPORT TO THEIR DESIGNATED AREA. STUDENTS ARE TO REMAIN WITH THEIR TEACHER. TEACHERS NEED TO TAKE THEIR ROLLBOOK AND LOCK THE CLASSROOM WHEN ALL STUDENTS HAVE EXITED THE CLASSROOM.”

2. The Principal will determine the safest method for evacuating the campus. This may include the use of school buses or simply walking to the designated off-site location. The off-site assembly areas are indicated on the Vicinity Map in Appendix C.

3. Teachers will secure the student roster when leaving the building and take attendance once the class is assembled in a pre-designated safe location.

4. Once assembled off-site, teachers and students will stay in place until further instructions are given.

5. In the event clearance is received from appropriate agencies, the Principal may authorize students and staff to return to the classrooms.

All Clear

This action is taken to notify teachers that normal school operations can resume.

Description of Action

1. The Principal will make the following announcement on the PA system. If the PA system is not available, the Principal will use other means of communication, i.e., sending messengers to deliver instructions.

“YOUR ATTENTION PLEASE. IT IS NOW OK TOO RETURN TO YOUR CLASSROOM AND RESUME NORMAL OPERATIONS. I WOULD LIKE TO THANK AND COMMEND STUDENTS AND STAFF FOR THEIR COOPERATION.”

2. This action signifies the emergency is over.

3. If appropriate, teachers should immediately begin discussions and activities to address students’ fears, anxieties, and other concerns.

Types of Emergencies & Specific Procedures

Earthquake

Earthquake

Earthquakes generally occur without warning and may cause minor to serious ground shaking, damage to buildings, and injuries. It is important to note that even a mild tremor can create a potentially hazardous situation and the following procedures should be implemented in response to all earthquakes regardless of magnitude.

Procedure

Note: Keep calm and remain where you are. Assess the situation, and then act. Remember, most injuries or deaths are the direct cause of falling or flying debris.

1. Upon the first indication of an earthquake, teachers should direct students to DUCK AND COVER as described in Section 4.0.

2. Move away from windows and overhead hazards to avoid glass and falling objects.

3. When the shaking stops, the School Administrator will initiate the EVACUATE BUILDING action as described in Section 4.0. Staff and students will evacuate the buildings using prescribed routes or other safe routes to the Assembly Area.
4. In the event of an evacuation, Teachers will bring their student roster and take attendance at the Assembly Area to account for students. Teachers will notify the Assembly Area Team of missing students.
5. The School Administrator will direct the Security/Utilities Team to post guards a safe distance away from building entrances to prevent access.
6. The Security/Utilities Team will notify school personnel of fallen electrical wires and instruct them to avoid touching the fallen wires.
7. The First Aid/Medical Team will check for injuries and provide appropriate first aid.
8. The School Administrator will direct the Security/Utilities Team to notify the appropriate utility company of damages (e.g., gas, power, water, or sewer).
9. If the area appears safe, the Search and Rescue Team will make an initial inspection of school buildings to identify any injured or trapped students or staff.
10. The School Administrator will contact the Local District Superintendent to determine additional actions that may be necessary. In turn, the actions will be communicated to the District's Office of Communications.
11. The School Administrator will contact the Local District Facilities Director to ensure buildings are safe for re-occupancy. When safe to do so, the Fire Suppression and HazMat Team will conduct an inspection of school buildings. The Fire Suppression and HazMat Team will maintain a log of their findings, by building, and provide a periodic report to the Incident Commander.
12. Any affected areas will not be reopened until the Local District Facilities provides clearance and the School Administrator gives authorization to do so.
13. The School Administrator will initiate an OFF-SITE EVACUATION, as described in Section 4.0, if warranted by changes in conditions at the school.

In the event an earthquake occurs during non- school hours:

1. The School Administrator and the Plant Manager will assess damages to determine any necessary corrective actions. The School Administrator may direct the Fire Suppression and HazMat Team to participate in the assessment.
2. The School Administrator should confer with the Local District Superintendent on identified damages to determine if the school should be closed.
3. If the school must be closed, the School Administrator will activate Parent Alert System and School Personnel Alert System as referenced in Section 5.0.

Fire in Surrounding Area

Fire In Surrounding Area

This procedure addresses the situation where a fire is discovered in an area adjoining the school. The initiated response actions should take into consideration the location and size of the fire, its proximity to the school and the likelihood that the fire may affect the school.

Procedure

1. The School Administrator will initiate the appropriate Immediate Response Actions, which may include SHELTER-IN-PLACE, LOCK DOWN, EVACUATE BUILDING or OFF-SITE EVACUATION as described in Section 4.0.
2. The School Administrator will notify "911" and San Bernardino Sheriff, the school's local law enforcement agency, at 909-425-9793 and Redlands Fire Department [909-798-7600] and will provide the location and nature of emergency.

3. The School Administrator will instruct the Security/Utilities Team to prevent students from approaching the fire and keep routes open for emergency vehicles.
4. The Agency Liaison will contact the local fire department and will work with the fire department to determine if school grounds are threatened by the fire, smoke, or other hazardous conditions.
5. If the School Administrator issues the EVACUATE BUILDING action, staff and student will evacuate the affected building(s) using prescribed routes or other safe routes to the Assembly Area.
6. In the event of an evacuation, Teachers will bring their student roster and take attendance at the Assembly Area to account for students. Teachers will notify the Assembly Area Team of missing students.
7. The School Administrator will keep a battery-powered radio tuned to a local radio station for emergency information.
8. As appropriate, the School Administrator will activate Parent Alert System.
9. The School Administrator will notify the Local District Superintendent of the emergency situation. A member of this group will call the Office of Communications with information of this situation.
10. If needed, the School Administrator will notify Bus Dispatch to request busses for staff and student evacuation.
11. The School Administrator will initiate an OFF-SITE EVACUATION, as described in Section 4.0 if warranted by changes in conditions.

Fire on School Grounds

Fire On School Grounds

This procedure addresses situations where a fire is discovered on school grounds. A quick response to this situation is very important to prevent injuries and further property damage.

Procedure

1. Upon discovery of a fire, Teachers or staff will direct all occupants out of the building, signal the fire alarm, and report the fire to the School Administrator.
2. The School Administrator will immediately initiate the EVACUATE BUILDING action as described in Section 4.0. Staff and students will evacuate buildings using the prescribed routes or other safe routes to the Assembly Area.
3. In the event of an evacuation, Teachers will bring their student roster and take attendance at the Assembly Area to account for students. Teachers will notify the Assembly Area Team of missing students.
4. The School Administrator will call "911" and San Bernardino Sheriff, the school's local law enforcement agency, at 909-425-9793 and Redlands Fire Department [909-798-7600] and will provide the exact location (e.g., building, room, area) of the fire.
5. The Fire Suppression and HazMat Team will suppress fires and initiate rescue procedures until the local fire department arrives.
6. The Security/Utilities Team will secure the area to prevent unauthorized entry and keep access roads clear for emergency vehicles.
7. The Agency Liaison will direct the fire department to the fire and brief fire department official on the situation.
8. The Security/Utilities Team will notify the appropriate utility company of damages.
9. The School Administrator will notify the Local District Superintendent of the fire. A member of this group will call the Office of Communications with information on this situation.
10. If needed, the School Administrator will notify Bus Dispatch to request busses for staff and student evacuation.

11. Any affected areas will not be reopened until the Redlands City Fire Department or appropriate agency provides clearance and the School Administrator issues authorization to do so.
12. For fires during non-school hours, the School Administrator and the Local District Superintendent will determine if the school will open the following day.
13. All fires, regardless of their size, which are extinguished by school personnel, require a call to the Fire Department to indicate "fire is out."

Pandemic

Blood Borne Pathogen Incident Reporting Form and Exposure Control Plan

Policy 5141.22: Infectious Diseases

The Governing Board desires to protect students from risks posed by exposure to infectious diseases while providing an appropriate education for all students.

The Superintendent or designee shall determine whether to admit a student with an infectious disease, and shall exclude students only in accordance with law. In making this determination, he/she shall consult the student's parents/guardians, the student's physician and/or the county health department, in accordance with law and consistent with confidentiality provisions. Because bloodborne pathogens such as hepatitis B virus, hepatitis C virus and human immunodeficiency virus (HIV) are not casually transmitted, the sole presence of bloodborne pathogens is not sufficient reason to exclude students from attending school.

(cf. 5141.26 - Tuberculosis Testing)
(cf. 5141.3 - Health Examinations)
(cf. 6158 - Independent Study)
(cf. 6159 - Individualized Education Program)
(cf. 6183 - Home/Hospital Instruction)

Parents/guardians are encouraged to inform the Superintendent or designee if their child has an infectious disease so that school staff may work cooperatively with the student's parents/guardians to minimize the child's exposure to other diseases in the school setting. The Superintendent or designee shall ensure that student confidentiality rights are strictly observed in accordance with law. No district employee shall release medical information, including knowledge of a bloodborne pathogen infection, without written consent from the parent/guardian or adult student. Such information shall be shared only with those persons specifically named in the written permission.

(cf. 5125 - Student Records)
(cf. 5022 - Student and Family Privacy Rights)

The Board requires students and staff to routinely observe universal precautions to prevent exposure to bloodborne pathogens and to prevent the spread of all infectious disease.

(cf. 4119.43/4219.43/4319.43 - Universal Precautions)
(cf. 5141.23 - Infectious Disease Prevention)

The Superintendent or designee shall ensure that the district's health education program provides information about the nature of bloodborne pathogens and their transmission.

Procedures and Regulations

1. General

1.1 While recognizing that both students and employees diagnosed with an infectious blood borne disease are entitled to a confidential relationship between themselves, the medical community and/or other agencies, the Board of School Trustees encourages these individuals to meet with the School Principal and/or Superintendent of Schools to discuss their disease and immediate and future needs.

1.2 Assessment

2. Students:

2.1. The Superintendent (or designate) will be informed, by the school principal as soon as is known, of any student infected with an infectious blood borne disease.

2.2. A Risk Assessment will be conducted using a team approach including the personal physician, public health personnel, the parent or guardian, and school district personnel as appropriate and will make recommendations about the type of educational and care setting based on the following:

- a. Behavior, neurological development and physical condition of the child;
- b. Type of interaction expected with others.
- c. What the potential is for exposure
- d. Areas for potential for exposure
- e. How exposure may happen
- f. Who needs to know?
- g. What will happen if there is a risk of exposure?

2.3. The team will consider the risk to others in the workplace, whether or not the individual is healthy enough to continue to attend school, and what precautions should be taken to ensure the safety and health of others.

a. The identity of infected students will remain confidential and restricted to those who need to know or are required to be informed.

2.4. Decisions on attendance at school are dependent on the circumstances of each individual case. Regular evaluation of the appropriateness of attendance will be conducted.

2.5. The Board will be notified immediately when the team considers the health condition of a student to be a danger to the immediate health and welfare of a school, its students or employees of the Board.

a. Upon being notified of the team's concern, the Board will refer the matter to the Medical Health Officer in accordance with the procedures outlined in the School Act.

3. Employees

3.1. The Superintendent will be informed, by district staff as soon as is known, of any employee infected with an infectious blood borne disease.

3.2. Employees with an infectious blood borne disease, who are able to carry out the essential duties of their jobs in a satisfactory manner without posing a health or safety risk to themselves or others, will be entitled to continue their work.

3.3. Decisions regarding potential health or safety hazards will be made on a case-by-case basis in consultation with the employee, the personal physician and district personnel as appropriate.

3.4. The identity of infected employees will remain confidential and restricted to those who need to know or are required to be informed.

3.5. The Board will be notified immediately if the Superintendent considers the health condition of an employee to be a danger to the immediate health and welfare of a school, its students or other employees of the Board.

a. Upon being notified of the Superintendent's concern, the Board will refer the matter to the Medical Health Officer in accordance with the procedures outlined in the School Act.

4. Hygienic Safety Practices

4.1. All employees will follow "Universal Infection Control Precautions" by assuming that blood and other body fluids from all individuals are potentially infectious. These precautions include:

- a. Routinely using gloves when anticipating contact with blood
- b. Immediately washing hands and other skin surfaces after removal of gloves and/or contact with blood

4.2. Schools will be provided with appropriate protective equipment including disposable waterproof gloves (natural rubber latex, neoprene, nitrile, or vinyl), tongs or pliers and proper sharps containers.

4.3. Schools' medical room mattresses will be either vinyl-coated beds or cloth mattress with a protective vinyl (plastic) covering so that they can be cleaned as needed with a bleach solution.

4.4. Blankets can be cleaned as needed by forwarding them, in a clearly labeled plastic bag, to the Assistant Supervisor Operations at the Facilities Office.

5. Universal Precautions

5.1. Universal Precautions to prevent transmission of blood-borne disease will be followed. Universal Precautions is the term for infection control measures endorsed by the Canadian Centre for Occupational Health and Safety for workers who might come into contact with blood and other body fluids. In summary they include:

- a. Wash hands for 30 seconds after contact with blood and other body fluids contaminated with blood.
- b. Wear disposable latex gloves when you encounter blood, body fluids, or when cleaning cuts, scrapes or wounds. Wash your hands as soon as you remove your gloves. Dispose gloves in a plastic bag.
- c. Use disposable absorbent material like paper towels to stop bleeding.
- d. Discard bloodstained material in a sealed plastic bag and deposit in the garbage. Label as containing blood-tainted material.
- e. Cover cuts or scrapes with a bandage until healed.
- f. Immediately protect staff and students from coming in contact with blood-soiled surfaces. The area must be disinfected with a fresh solution of one part bleach and nine-parts water (10% bleach solution).

Mops or brushes used for cleaning should be soaked in a bleach solution for 20 minutes.

(Note: The custodial department will provide each school with the product for dissolving in water to provide the bleach solution.)

6. Identification of Risks of Occupational Exposure

6.1. In accordance with the Occupational Health and Safety Regulations (section 6.35), the district's Health & Safety Coordinator will develop and maintain a list of positions and/or tasks and procedures where there is a potential for occupational exposure to a blood borne pathogen.

6.2. Employees who have, or may have, occupational exposure to the hepatitis B virus, will upon request, receive a hepatitis B vaccination (section 6.39, OH&S Regs).

6.3. Employees who may have been exposed to a blood borne pathogen in an exposure incident will be advised to immediately seek medical attention

Blood Borne Pathogen Incident Reporting Form and Exposure Control Plan66

Blood Borne Pathogens - Safety Practices67

Comprehensive School Safety Plan Purpose

Effective January 1, 2019, Assembly Bill 1747 (Rodriguez), School Safety Plans, became law. This bill requires that during the writing and development of the comprehensive school safety plan (CSSP), the school site council or safety committee consult with a fire department and other first responder entities in addition to currently required entities. It requires the CSSP and any updates made to the plan to be shared with the law enforcement agency, the fire department, and the other first responder entities.

The California Education Code (sections 32280-32288) outlines the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school.

In 2004, the Legislature and Governor recast and renumbered the Comprehensive School Safety Plan provisions in SB 719 and AB 115. It is the intent of the Legislature in enacting the provisions to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process, that include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses.

The historical requirement of the Comprehensive School Safety Plan was presented in Senate Bill 187, which was approved by the Governor and chaptered in 1997. This legislation contained a sunset clause that stated that this legislation would remain in effect only until January 1, 2000. Senate Bill 334 was approved and chaptered in 1999 and perpetuated this legislation under the requirement of the initial legislation.

Comprehensive School Safety Plans are required under SB 719 & AB 115 and contains the following elements:

Assessment of school crime committed on school campuses and at school-related functions

- Child abuse reporting procedures
- Disaster procedures
- Suspension and expulsion policies
- Procedures to notify teachers of dangerous pupils
- Discrimination and harassment policies
- School wide dress code policies
- Procedures for safe ingress and egress
- Policies enacted to maintain a safe and orderly environment
- Rules and procedures on school discipline
- Hate crime reporting procedures

The Comprehensive School Safety Plan will be reviewed and updated by March 1st every year. In July of every year, the school will report on the status of its school safety plan including a description of its key elements in the annual school accountability report card.

A copy of the Comprehensive School Safety Plan is available for review at Bryn Mawr Elementary.

Safety Plan Vision

Bryn Mawr Elementary School will provide a safe, orderly, and secure environment conducive to learning. Bryn Mawr Elementary School will create a school in which pupils will attend regularly and be safe from both physical and social-psychological harm. Bryn Mawr Elementary School will work collaboratively with the district office and school board to identify, establish and use strategies and programs to comply with school safety laws. Bryn Mawr Elementary School will develop a plan to work cooperatively and collaboratively with parents, pupils, teachers, administrators, counselors and community agencies to provide a safe and orderly school and neighborhood. Bryn Mawr Elementary School will develop an academic program that will focus on high expectations of pupil performance and behavior in all aspects of the school experience. Bryn Mawr Elementary School will work collaboratively with other elementary, middle schools and high schools to assist in a smooth transition from one school level to another. Bryn Mawr Elementary School will solicit the participation, views, and advice of teachers, parents, school administrators, and community members and use this information to promote the safety of our pupils, staff and community.

Components of the Comprehensive School Safety Plan (EC 32281)

Bryn Mawr Elementary School Safety Committee

Assessment of School Safety

Bryn Mawr Elementary School has not had any crime reported during the past year. Incidents of crime are fairly rare. Crimes committed in the past have involved minor damage to school property. When crimes do happen, they are reported to school district and law enforcement as appropriate.

Strategies and Programs to Provide and Maintain a High Level of Safety (EC 32281(a)1, items A-J)

Introduction - School Profile

Bryn Mawr Elementary School is one of twenty-four schools in the Redlands Unified School District with traditions dating back to 1993. Bryn Mawr Elementary School has a diverse student body and is served by a dedicated certificated and classified staff.

As with many schools, Bryn Mawr Elementary School faces challenges in maintaining a safe environment for staff and students. This section of the Comprehensive School Safety Plan will describe programs in place at Bryn Mawr Elementary, as well as strategies to provide a safe and orderly school environment conducive to learning.

School Crime Status and Reporting

Bryn Mawr Elementary School has not had any crime reported during the past year. Incidents of crime are fairly rare. When crimes do happen, they are reported to school district and law enforcement as appropriate.

Personal Characteristics of Pupil & Staff

(Additional Health and Welfare Data available from ICOE aggregated DAT surveys)

Bryn Mawr Elementary School has an enrollment of 627 pupils in grades TK-5. Pupils from this school come from families with average family mobility. Approximately 70% of the pupils are in families receiving Aid to Families with Dependent Children that are eligible for free/reduce lunches. The ethnic makeup of the pupil population is 46.5% Hispanic, 8.8 % Black, 11.5% Caucasian, 6.9% Filipino, 14.3% Asian, and 10.1% two or more races. Our pupils have a variety of life experiences and varied socioeconomic status.

Curriculum and Educational Activities

The course of study includes the basic core curriculum, physical education and enrichment classes such as art, choir, theatre band and orchestra.

Pupils have the opportunity to participate in free after school programs such as Exploration Experience Program (ASES/ELOP), which provides them with opportunities to participate in STEAM, Art, sports and other activities. The afterschool program prioritizes enrollment based on low socioeconomic status, foster and homeless designation.

Bryn Mawr Elementary is a Leader in Me school, therefore opportunities and additional activities are open to pupils in the areas of leadership (i.e. Kindness quad and student leadership)

(A) Child Abuse Reporting Procedures (EC 35294.2 [a] [2]; PC 11166)

Policy 5141.4: Child Abuse Prevention and Reporting

The Governing Board recognizes that the district has a responsibility to facilitate the prompt reporting of incidents of child abuse and neglect. The Superintendent or designee shall ensure that parents/guardians have access to procedures whereby they can report suspected child abuse at a school site to appropriate child protective agencies

The Superintendent or designee shall develop and implement regulations for use by employees in identifying and reporting child abuse

District employees shall report known or suspected incidents of child abuse in accordance with district regulations and state law. Employees shall cooperate with the child protective agencies responsible for reporting, investigating and prosecuting cases of child abuse.

(cf. 4112.9 - Signed Statements/Child Abuse Reporting Statements)

The Superintendent or designee shall provide training in child abuse identification and reporting for all certificated and classified personnel. (Penal Code 11165.7)

All employees trained in child abuse identification and reporting shall be given, as a part of that training, written notice of the child abuse reporting requirements and the employees' confidentiality rights. (Penal Code 11165.7)

In order to reduce or eliminate unfounded child abuse accusations directed at school employees, child abuse in service training shall include guidance in disciplining students and maintaining ethical relationships with them.

(cf. 3514 - Safety)

(cf. 5142 - Safety)

Duty to Report

Certificated employees and classified employees trained in child abuse identification and reporting shall report known or suspected child abuse to a child protective agency by telephone immediately or as soon as practically possible and in writing within 36 hours. The reporting duties are individual and cannot be delegated to another individual except under circumstances set forth in Penal Code 11166.

Definitions

Child Abuse includes the following:

1. A physical injury inflicted by other than accidental means on a child by another person.
2. Willful cruelty or unjustifiable punishment of a child, or willfully inflicting unjustifiable physical pain or mental suffering, or failure to safeguard a child from these injuries when the child is under a person's care or custody
3. Sexual abuse of a child
4. Neglect of a child or abuse in out-of-home care
5. Unlawful corporal punishment or injury resulting in a traumatic condition

Mandated Reporters are those people defined by law as child care custodians, health practitioners, child visitation monitors and employees of a child protective agency. Mandated reporters include virtually all school employees. The following school personnel are required to report:

Teachers, administrators, supervisors of child welfare and attendance, certificated student personnel employees, employees of care institutions, Headstart teachers, school psychologists, licensed nurses, counselors, presenters of child abuse prevention programs and those instructional aides or other classified employees trained in child abuse reporting.

Child Protective Agencies are those law enforcement and child protective services responsible for investigating child abuse reports, including the local police or sheriff department, county welfare or juvenile probation department and child protective services.

Reasonable Suspicion means that it is objectively reasonable for a person to entertain such a suspicion, based upon facts that could cause a reasonable person in a like position, drawing when appropriate on his/her training and experience, to suspect child abuse. (Penal Code 11166)

Reporting Procedures

To report known or suspects child abuse, any employee (as defined above) shall report by telephone to the local child protective agency immediately. (Child Protective Services 921 County Center, 3 Court, Modesto, CA phone # 525- 6641)

The following information shall be given:

1. The name of the person making the report
2. The name of the child
3. The present location of the child
4. The nature and extent of any injury

Any other information requested by the child protective agency, including the information that led the mandated reporter to suspect child abuse.

When the verbal report is made, the mandated reporter shall note the name of the official contacted, the date and time contacted, and any instructions or advice received.

Within 36 hours of making the telephone report, the mandated reporter shall complete and mail to the local child protective agency a written report which includes a completed Department of Justice form (DOJ SS 8572).

Mandated reports may obtain copies of the above form either from the district or local child protective agency.

Instructions are included on the form, and reporters may ask the site administrator for help in completing and mailing it; however, the mandated reporter is personally responsible for ensuring that the written report is correctly filed.

Employees reporting child abuse to a child protective agency are encouraged, but not required, to notify the site administrator or designee as soon as possible after the initial verbal report by telephone. When so notified, the site administrator shall inform the Superintendent or designee.

Administrators so notified shall provide the mandated reporter any assistance necessary to ensure that reporting procedures are carried out in accordance with law and district regulations. At the mandated reporter's request, the principal may assist in completing and filing the form.

If the mandated reporter does not disclose his/her identity to a district administrator, he/she shall at least provide or mail a copy of the written report to the site administrator and the district without his/her signature or name.

Legal Responsibility and Liability

Mandated reporters have absolute immunity. School employees required to report are not civilly or criminally liable for filing a required or authorized report of known or suspected child abuse.

A mandated reporter who fails to report an instance of child abuse, which he/she knows to exist or reasonably should know to exist, is guilty of a misdemeanor and is punishable by confinement in jail for a term not to exceed six months or by a fine of not more than \$1,000 or both. The mandated reporter may also be held civilly liable for damages for any injury to the child after a failure to report

When two or more persons who are required to report have joint knowledge of suspected instance of child abuse, and when they so agree, the telephone report may be made by either of them and a single report made and signed by that person.

However, if any person who knows or should know that the person designated failed to make the report, that person then has a duty to make the report.

The duty to report child abuse is an individual duty and no supervisor or administrator may impede or inhibit such reporting duties. Furthermore, no person making such a report shall be subject to any sanction.

Victim Interview

Upon request, a child protective agency representative may upon request interview a suspected victim of child abuse during school hours, on school premises, concerning a report of suspected child abuse that occurred within the child's home. The child shall be given the choice of being interviewed in private or in the presence of any adult school employee or volunteer aide selected by the child. (Penal Code 11174.3)

A staff member or volunteer aide selected by a child may decline to be present at the interview. If the selected person accepts, the principal or designee shall inform him/her, before the interview takes place, of the following legal requirements:

1. The purpose of the selected person's presence at the interview is to lend support to the child and enable him/her to be as comfortable as possible.
2. The selected person shall not participate in the interview.
3. The selected person shall not discuss the facts or circumstances of the case with the child.
4. The selected person is subject to the confidentiality requirements of the Child Abuse and Reporting Act, a violation of which is punishable as specified by Penal Code 11167.5.
5. If a staff member agrees to be present, the interview shall be held at a time during school hours when it does not involve an expense to the school. (Penal Code 11174.3)

Release of Child to Peace Officer or Child Protective Services Agent

When a child is released to a peace officer or child protective agency and taken into custody as a victim of suspected child abuse, the Superintendent and/or principal shall not notify the parent/guardian as required in other instances of removal of a child from school, but rather shall provide the protective agency with the address and telephone number of the child's parent/guardian. It is the responsibility of the peace officer or agent to notify the parent/guardian of the situation. (Education Code 48906)

Peace officer and child protective services agents will be asked to sign an appropriate release or acceptance of responsibility form.

(cf. 5145.11 - Questioning and Apprehension)

When School Employees are Accused of Child Abuse

Regardless of who child abusers may be, the major responsibilities of mandated reports are to 1) identify incidents of suspected child abuse, and 2) comply with laws requiring the reporting of suspected abuse to proper authorities. Determining whether or not the suspected abuse actually occurred is not the responsibility of the school employee. Such determination and follow-up investigation will be made by a child protective agency.

Pending outcome of an investigation by a child protective agency and before formal charges are filed, the employee may be subject to reassignment or a paid leave of absence.

Upon filing formal charges or upon conviction, the district may take disciplinary action in accordance with law, district policies, regulations and/or collective bargaining agreements. The Superintendent or designee shall seek legal counsel in connection with either the suspension or dismissal of the employee.

Public Agency Use of School Buildings for Emergency Shelters

(C) School Suspension, Expulsion and Mandatory Expulsion Guidelines

Policy 5144.1: Suspension And Expulsion/Due Process

Suspension and Expulsion

The Governing Board recognizes that maintaining an environment which promotes learning and protects the health, safety, and welfare of all students may require the suspension or expulsion of a student from regular classroom instruction. District policies and school site rules shall clearly identify district behavior standards

(cf. 5144 - Discipline)

Except in cases where suspension for a first time offense is warranted in accordance with law, suspension shall be imposed only when other means of correction fail to bring about proper conduct. (Education Code 48900.5)

Expulsion is an action taken by the Board for severe or prolonged breaches of discipline by a student. Except for single acts of a grave nature, expulsion is usually used only when there is a history of misconduct, when other forms of discipline, including suspension, have failed to bring about proper conduct, or when the student's presence causes a continuing danger to other students. (Education Code 48915)

The grounds for suspension and expulsion and the procedures for considering, recommending and/or implementing suspension and expulsion shall be specified in Administrative Regulation.

Each principal shall annually inform all students and parents/guardians of the school's discipline rules and procedures and of the availability of all district policies and regulations dealing with student discipline, suspension and expulsion. (Education Code 35291, 35291.5)

(cf. 5145.6 - Parental Notifications)

Suspended or expelled students shall be excluded from all school-related extracurricular activities during the suspension or expulsion.

cf. 6145 - Extracurricular and Cocurricular Activities)

Zero Tolerance

The Board supports a zero tolerance approach to serious offenses in accordance with state and federal law. This approach makes the removal of potentially dangerous students from the classroom a top priority and ensures the standardized treatment of all students. Staff shall immediately report to the Superintendent/ designee any incidence of offenses specified in law, Board policy, and administrative regulation as cause for suspension or expulsion.

Student Due Process

The Board shall provide for the fair treatment of students facing suspension and expulsion by affording them their due process rights under the law. The administration and staff shall comply with procedures for notices and appeals as specified in regulation.

Procedures governing student due process shall conform in all aspects to provisions in law. (Education Codes 48911, 48915 and 48915.5)

Comprehensive School Safety Plan 12 of 74 10/14/24

Whenever a student is suspended, school officials may (but are not required to) meet with the parent/guardian to discuss the causes and duration of the suspension, the school policy involved, and any other pertinent matters. (Education Code 48914)

cf. 5119 - Students Expelled from Other Districts

(cf. 5144.2 - Suspension and Expulsion/Due Process - Individuals with Exceptional Needs)

Rights of Complaining Witness

An expulsion hearing involving allegations of sexual assault or sexual battery may be postponed for one school day in order to accommodate the special physical, mental or emotional needs of a student who is the complaining witness. (Education Code 48918.5)

Whenever the Superintendent or designee recommends an expulsion hearing that addresses allegations of sexual assault or sexual battery, he/she shall give the complaining witness a copy of the district's suspension and expulsion policy and regulation and shall advise the witness of his/her right to: (Educational Code 48918.5)

1. Receive five days' notice of his/her scheduled testimony at the hearing
2. Have up to two adult support persons of his/her choosing present in the hearing at the time he/she testifies
3. Have a closed hearing during the time he/she testifies

Whenever any allegation of sexual assault or sexual battery is made, the Superintendent or designee shall immediately advise complaining witnesses and accused students to refrain from personal or telephone contact with each other during the time when an expulsion process is pending. (Education Code 48918.5)

On-Campus Suspension Program

The Board recognizes that students who are suspended from school frequently have no supervision or guidance during the school hours when they are off campus. The Board believes that in many cases, instead of sending the student off campus, it would be better to address the student's misconduct by keeping the student at school and providing him/her with supervision that is separated from the regular classroom.

The Superintendent or designee shall examine alternatives to off-campus suspension and may establish a suspension program which involves progressive discipline during the school day on campus; using conferences between staff, parents/guardians and students; detention; student study teams or other assessment-related teams; and/or referral to school support services staff.

Required Parental Attendance

The Board believes that parental involvement plays an important role in the resolution of classroom behavior problems. The Board expects that teachers will communicate with parents/guardians when behavior problems arise

Whenever a student is suspended from a class because he/she committed an obscene act, engaged in habitual profanity or vulgarity, disrupted school activities or otherwise willfully defied valid staff authority, the teacher of the class from which the student was suspended may require the student's parent/guardian to attend a portion of a school day in that class. After completing the classroom visit and before leaving school premises, the parent/guardian also shall meet with the principal or designee. (Education Code 48900.1)

The Board encourages teachers, before requiring parental attendance, to make reasonable efforts to have the parent/guardian visit the class voluntarily. The teacher also may consider informing the parent/guardian about available resources which may provide help in the development of parenting skills. Teachers should reserve the option of required parental attendance for cases in which they have determined that it is the best strategy to promote positive interaction between the student and the parent/guardian and to improve classroom behavior.

Comprehensive School Safety Plan 13 of 74 10/14/24

Parental attendance may be required on the day the student returns to class or within one week thereafter. The principal or designee shall contact any parents/guardians who do not respond to the request to attend school. The Board recognizes that parental compliance with this policy may be delayed, modified or prevented by serious illness/injury/disability, absence from town, or inability to get certain release time from work.

The teacher shall apply this policy uniformly to all students within the classroom. This policy shall apply only to a parent/guardian who actually lives with the student. (Education Code 48900.1)

District regulations and school-site rules for student discipline shall include procedures for implementing parental attendance requirements.

Parents/guardians shall be notified of this policy before it is implemented and at the beginning of each subsequent school year. (Education Code 48900.1, 35291, 48980)

Decision Not to Enforce Expulsion Order

In cases where expulsion is mandatory pursuant to Education Code 48915(c), the enforcement of an expulsion order shall not be suspended by the Board. In all other cases of expulsion, the order for expulsion may be suspended by the Board, on a case-by-case basis, pursuant to the requirements of law.

Definitions

Suspension from Class by a Teacher/Parental Attendance

A teacher may suspend any student from the teacher's class for any of the acts listed under "Grounds for Suspension and Expulsion" above for the day of the suspension and the day following. (Education Code 48910)

Suspension from class means the removal of a student from class by a teacher for the day of the suspension and the next day. A teacher may suspend a student from class and may also refer a student for consideration of suspension from school for any act listed in "Grounds for Suspension and Expulsion" above. (Education Code 48910)

When suspending a student from his/her class, the teacher shall immediately report this action to the principal and send the student to the principal for appropriate action. The student shall be appropriately supervised during the class periods from which he/she has been suspended.

As soon as possible, the teacher shall ask the student's parent/guardian to attend a parent-teacher conference regarding the suspension. A counselor or psychologist should attend the conference if it is practicable, and a school administrator may attend if either the parent/guardian or teacher so request.

A suspended student shall not be returned to class during the period of suspension without the approval of the teacher of the class and the principal. (Education Code 48910)

A student suspended from class shall not be placed in another regular class during the period of suspension. However, if a student is assigned to more than one class per day, he/she may be placed in any other regular classes except those held at the same time as the class from which the student was suspended. (Education Code 48910)

Suspension By Superintendent, Principal Or Principal's Designee

A Superintendent, principal, or principal's designee may suspend a student from a school for any of the acts listed under "Grounds for Suspension and Expulsion" above for not more than five consecutive school days unless the suspension is extended pending expulsion. (Education Code 48911)

The Superintendent or designee shall immediately suspend any student found at school or at a school activity to be: (Education Code 48915)

4. Committing or attempting to commit a sexual assault or committing a sexual battery as defined in item 414 under "Grounds for Suspension and Expulsion" above.
5. Possession of an explosive as defined in 18 USC 921.

(Education Code 48900.5)

A student may be suspended from school for not more than 20 school days in any school year, unless for purposes of adjustment a student enrolls in or is transferred to another regular school, an opportunity school, or continuation school or class, in which case suspension shall not exceed 30 days in any school year. However, this restriction on the number of days of suspension does not apply when the suspension is extended pending an expulsion. (Education Code 48903 and 48912)

Suspension Procedures

1. Informal Conference: Suspension shall be preceded by an informal conference conducted by the principal or designee or the Superintendent or designee between the student, and whenever practicable, the teacher, supervisor or school employee who referred the student to the principal. At the conference, the student shall be informed of the reason for the disciplinary action and the evidence against him/her and shall be given the opportunity to present his/her version and evidence in support of his/her defense. (Education Code 48911(b))

This conference may be omitted if the principal, designee or the Superintendent or designee determines that an emergency situation exists. An "emergency situation" involves a clear and present danger to the lives, safety or health of students or school personnel. If the pre-suspension conference is not held, both the parent/guardian and student shall be notified of the student's right to return to school for the purpose of a conference. The conference shall be held within two school days, unless the student waives his/her right to it or is physically unable to attend for any reason. In such case, the conference will be held as soon as the student is physically able to return to school. (Education Code 48911(c))

2. Administrative Actions: All requests for student suspension are to be processed by the principal or designee of the school in which the student is enrolled at the time of the misbehavior

A school employee shall report the suspension, including the name of the student and the cause for the suspension, to the Superintendent or designee, who in turn will inform the Board.

3. Notice to Parents/Guardians: At the time of the suspension, a school employee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension. (Education Code 48911)

This notice shall state the specific offense committed by the student. (Education Code 48900.8)

In addition, the notice may also state the date and time when the student may return to school.

Should school officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may also add that state law requires the parent/guardian to respond to such request without delay.

4. Parent/Guardian Conference: Whenever a student is suspended, school officials may meet with the parent/guardian to discuss the causes and duration of the suspension, the school policy involved, and any other pertinent matters. (Education Code 48914)
- While the parent/guardian is required to respond without delay to a request for a conference about a student's behavior, no penalties may be imposed on the student for the failure of the parent/guardian to attend such conference. The student may not be denied readmission solely because the parent/guardian failed to attend. (Education Code 48911)

Comprehensive School Safety Plan 18 of 74 10/14/24

5. Extension of Suspension: If the expulsion of a suspended student is being considered by the Board, the Superintendent or designee may, in writing, extend the suspension until such time as the Board has made a decision. (Education Code 48911(g))

Any extension of the original period of suspension shall be preceded by notice of such extension with an offer to hold a conference concerning the extension, giving the student an opportunity to be heard. This conference may be held in conjunction with a meeting requested by the student or parent/guardian to challenge the original suspension. Extension of the suspension may be made only if

the Superintendent or designee determines, following a meeting in which the student and the student's parent/guardian were invited to participate, that the student's presence at the school or at an alternative school would endanger persons or property or threaten to disrupt the instructional process. (Education Code 48911(g))

Suspension by the Board

The Board may suspend a student for any of the acts listed in "Grounds for Suspension and Expulsion" above and within the limits specified in "Suspension by Superintendent, Principal or Principal's Designee" above. (Education Code 48912)

The Board may suspend a student enrolled in a continuation school or class for a period not longer than the remainder of the semester if any of the acts listed in "Grounds for Suspension and Expulsion" occurred. The suspension shall meet the requirements of Education Code 48915. (Education Code 48912.5)

When the Board is considering a suspension, disciplinary action, or any other action (except expulsion) against any student, it may hold closed sessions if a public hearing would lead to disclosure of information which would violate a student's right to privacy under Education Code 49073-49079.

(cf. 9321 -Closed Session Purposes and Agendas)

The Board shall provide the student with written notice of the closed session by registered or certified mail. Upon receiving this notice the student may request a public meeting, and this request shall be granted if made in writing (within 48 hours after receipt of the Board's notice). However, any discussion that conflicts with any other student's right to privacy shall be in closed session.

(Education Codes 48912)

Authority to Expel

A student may be expelled only by the Board. The Board shall expel, as required by law, any student found to have committed certain offenses listed below under "Mandatory Recommendation and Mandatory Expulsion."

The Board may also order a student expelled for any of the acts listed above under "Grounds for Suspension and Expulsion" upon recommendation by the principal, Superintendent, hearing officer or administrative panel, based on finding either or both of the following: (Education Code 48915(b) and (e))

1. That other means of correction are not feasible
2. That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others

Mandatory Recommendation For Expulsion

The principal, Superintendent or designee shall recommend a student's expulsion for any of the following acts, unless the principal or Superintendent or designee finds, and reports in writing to the Board, that expulsion is inappropriate due to particular circumstances which shall be set out in the report of the incident:

1. Causing serious physical injury to another person, except in self-defense.
2. Possession of any knife as defined in Education Code 48915(g), explosive or other dangerous object of no reasonable use to the student.

1. Possessing, as verified by a district employee, or selling or otherwise furnishing a firearm, unless the student had obtained prior written permission to possess the item from a certificated school employee, with the principal or designee's concurrence. (Education Code 48915(c).1)

Student's Right to Expulsion Hearing

The student is entitled to a hearing to determine whether the student should be expelled. The hearing shall be held within 30 school days after the principal or Superintendent or designee determines that one of the acts listed under "Grounds for Suspension and Expulsion" has occurred. (Education Code 48918(a))

The student is entitled to one postponement of an expulsion hearing for a period of not more than 30 calendar days. The request for postponement shall be in writing. Any subsequent postponement may be granted at the district's discretion. (Education Code

48918(a))

If the district finds it impracticable to comply with these time requirements for conducting an expulsion hearing, the Superintendent or designee may, for good cause, extend the time period by an additional five school days. Reasons for the extension shall be included as a part of the record when the expulsion hearing is held. (Education Code 48918(a))

Once the hearing starts, all matters shall be pursued with reasonable diligence and concluded without unnecessary delay. (Education Code 48918(a))

Whenever the Superintendent or designee recommends an expulsion hearing that addresses allegations of sexual assault or sexual battery, he/she shall give the complaining witness a copy of the district's suspension and expulsion policy and regulation and shall advise the witness of his/her right to: (Education Code 48915.5)

If such request is made, the meeting shall be public

Whether the expulsion hearing is held in closed or public session, the Board may meet in closed session to deliberate and determine if the student should be expelled. Comprehensive School Safety Plan 21 of 74 10/14/24

3. Presentation of Evidence: While technical rules of evidence do not apply to such hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. The decision of the Board to expel must be supported by substantial evidence that the student committed any of the above acts listed under "Grounds

for Suspension and Expulsion" above. Findings of fact shall be based solely on the evidence at the hearing.

While no evidence shall be based solely on hearsay, sworn declarations may be admitted as testimony from witnesses whose disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm. (Education Code 48918 (f) and

(Education Code 48918(a))

Alternative Hearing: Hearing Officer or Administrative Panel

Instead of conducting an expulsion hearing itself, the Board may contract with the county hearing officer or with the Office of Administrative Hearings of the State of California for a hearing officer. Alternatively, the Board may appoint an impartial administrative panel composed of three or more certificated personnel, none of whom shall be members of the Board or on the staff of the school in which the student is enrolled. (Education Code 48918(d))

A hearing conducted by the hearing officer or administrative panel shall conform to the same procedures as apply to a hearing conducted by the Board as specified in "Conduct of Expulsion Hearing" above.

The hearing officer or administrative panel shall, within three school days after the hearing, determine whether to recommend expulsion of the student to the Board. If expulsion is not recommended, the student shall be immediately reinstated. (See "Reinstatement" below.) The Superintendent or designee shall place the student in a classroom instructional program, any other instructional program, a rehabilitation program, or any combination of these programs after consulting with district staff, including the student's teachers and with the student's parent/guardian. (Education Code 48918(e))

If expulsion is recommended, findings of fact in support of the recommendation shall be prepared and submitted to the Board. All findings of fact and recommendations shall be based solely on the evidence presented at the hearing. The Board may accept the recommendation based either upon a review of the findings of fact and recommendations submitted or upon the results of any supplementary hearing the Board may order. (Education Code 48918(f))

The hearing officer or administrative panel may recommend that the Board suspend the expulsion for a period of one year. (See "Suspension of Expulsion" below.)

The Board shall make its decision about the student's expulsion within 40 school days after the date of the student's removal from

school unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

Stipulated Expulsions

It is the policy of the Redlands Unified School District that, where approved by the Superintendent or designee, parents/guardians may agree to the expulsion of their pupil by stipulation without necessity of a hearing. This process will expedite the pupil's school placement and may expedite the rehabilitation process.

A stipulated expulsion must be purely voluntary. No district administrator or staff member may coerce a pupil, parent or guardian into entering into such a stipulation. Parents/guardians will be given three calendar days to decide on a stipulated expulsion agreement.

If the parent/guardian requests a stipulated expulsion, the Superintendent or designee will promulgate the stipulated agreement. If at any time the parent/guardian decides not to pursue a stipulated agreement, the expulsion proceedings and timelines, extended by the length of the period for consideration of the stipulation, will be reinstated. The stipulated agreement will be presented to the Board for final consideration.

The stipulated agreement will include the terms and conditions of the expulsion order, including alternative placement and a rehabilitation plan to be completed before the student can be re-admitted to the district.

Final Action by the Board

Whether the expulsion hearing is conducted in closed or public session by the Board, a hearing officer, or an administrative panel, the final action to expel must be taken by the Board at a public meeting. (Education Code 489180)) The Board shall maintain a record of each expulsion, including its cause. Expulsion records shall be non- privileged, disclosable public records.

(cf. 9321.1 - Closed Session Actions and Reports)

Comprehensive School Safety Plan 23 of 74 10/14/24

If the Board conducts the hearing and reaches a decision not to expel, this decision shall be final and the student shall be reinstated immediately.

Upon ordering the expulsion, the Board shall set a date when the student shall be reviewed for readmission to a school within the district. For a student expelled for an act listed under "Mandatory Recommendation and Mandatory Expulsion" above, this date shall be one year from the date the expulsion occurred, except that the Board may set an earlier date on a case-by-case basis. For a student expelled for other acts, this date shall be no later than the last day of the semester following the semester in which the expulsion occurred. (Education Code 48916)

At the time of the expulsion order, the Board shall recommend a plan for the student's rehabilitation, which may include: (Education Code 48916)

1. Periodic review as well as assessment of the student at the time of review for readmission.

2. Recommendations for improved academic performance, tutoring, special education assessments, job training, counseling, employment, community service and other rehabilitative programs.

3. Such other recommendations as the Board approves.

With parental consent, students who have been expelled for reasons relating to controlled substances or alcohol may be required to enroll in a county-sponsored drug rehabilitation program before returning to school. (Education Code 48916.5)

Upon expulsion, a copy of readmission procedures will be made available to the student and his/her parent/guardian.

Written Notice to Expel

The Superintendent or designee shall send written notice of the decision to expel to the student or parent/guardian. The notice shall include the following:

1. The specific offense committed by the student for any of the causes for suspension or expulsion listed in Education Code 48900(a)-(o), Education Code 48900.2-48900.4 and Education Code 48915(c). (Education Code 48900.8)

2. The fact that a description of readmission procedures will be made available to the student and his/her parent/guardian. (Education Code 48916)

3. Notice of the right to appeal such expulsion to the County Board of Education. (Education Code 48918)

4. Notice of the alternative educational placement to be provided to the student during the time of expulsion. (Education Code 48918)

5. The notice also shall inform the student or parent/guardian of his/her obligation to inform any new district in which the student seeks to enroll of the student's status with the expelling district, pursuant to Education Code 48915.1. (Education Code 48918)

Suspension of Expulsion

The Board, upon voting to expel a student, may suspend the enforcement of the expulsion order for not more than one calendar year. When deciding whether to suspend an expulsion, the Board shall take into account the following criteria:

1. The student's previous behavior.

2. The seriousness of the misconduct.

3. The student's attitude toward the misconduct and his/her willingness to follow a rehabilitation program.

The suspension of the enforcement of an expulsion shall be governed by the following: (Education Code 48917)

Comprehensive School Safety Plan 24 of 74 10/14/24

1. The Board may, as a condition of the suspension of enforcement, assign the student to a school, class or program appropriate for the student's rehabilitation. This rehabilitation program may provide for the involvement of the student's parent/guardian in the student's education. However, a parent/guardian's refusal to participate in the rehabilitation program shall not be considered in the Board's determination as to whether the student has satisfactorily completed the rehabilitation program.
2. During the period when enforcement of the expulsion order is suspended, the student shall be on probationary status.
3. The suspension of expulsion order may be revoked by the Board if the student commits any of the acts listed under "Grounds for Suspension and Expulsion" above or violates any of the district's rules and regulations governing student conduct.
4. When suspension of expulsion order is revoked, a student may be expelled under the terms of the original expulsion order
5. Upon satisfactory completion of the rehabilitation assignment, the Board shall reinstate the student in a district school. Upon reinstatement, the Board may order the expungement of any or all records of the expulsion proceedings.
6. Suspension of an expulsion order shall not affect the time period and requirements for the filing of an appeal of the expulsion order with the County Board of Education.
7. The Superintendent or designee shall send written notice of any decision to suspend the enforcement of an expulsion order during a period of probation to the student or parent/guardian. The notice shall also inform the parent/guardian of the right to appeal the expulsion to the County Board of Education. (Education Code 48918(i))

Right to Appeal

The student or parent/guardian is entitled to file an appeal of the Board's decision to the County Board of Education.

The appeal must be filed within 30 days of the Board's decision to expel, even if the expulsion action is suspended and the student is placed on probation. (Education Code 48919)

Post-Expulsion Placements

2. Not provided at a comprehensive middle, junior or senior high school or at any elementary school, unless the program is offered at a community day school established at such a site.
3. Not housed at the school site attended by the student at the time of suspension.

(cf. 6185 - Community Day School)

When the placement described above is not available, and when the County Superintendent of Schools so certifies, students expelled for acts described in items #6 through # 13 and # 17 through # 19 under "Grounds for Suspension and Expulsion" above may be instead referred to a program of study that is provided at another comprehensive middle, junior, or senior high school, or at an elementary school.

The program for a student expelled from any of grades K-6 shall not be combined or merged with programs offered to students in any of grades 7-12. (Education Code 48916.1)

Reinstatement

When the Board accepts a recommendation against expulsion or makes its own decision after the hearing not to expel, the decision is final and the student shall be reinstated immediately. The Superintendent or designee shall place the student in any classroom program, other instructional program, rehabilitation program, or any combination of such programs following consultation with district personnel, including the teacher involved, and with the student's parent/guardian. Readmission

An expulsion order shall remain in effect until the Board may order the readmission of the student.

Readmission procedures shall be as follows:

1. A written request for review of expulsion action and request for readmission shall be submitted by the parent/guardian to the Superintendent or designee.
2. The Superintendent or designee will hold a conference with the parent/guardian and the student.
3. At the conference the conditions for readmission will be reviewed. The Superintendent or designee shall verify that the rehabilitation plan has been met.
4. School regulations will be reviewed and the student and parent/guardian will be asked to indicate in writing their willingness to comply with these regulations.

If a written request for open session is received from the parent/guardian or adult student, it will be honored.
6. The Superintendent or designee will notify the student or parent/guardian, by registered mail, of the district's decision regarding readmission.
7. The Board may deny readmission only if it finds that the student has not satisfied the conditions of the rehabilitation plan or that the student continues to pose a danger to campus safety or to other district students or employees. (Education Code 48916)
8. If the Board denies the readmission of a student, the Board shall determine either to continue the student's placement in the

alternative educational program initially selected or to place the student in another program that serves expelled students, including placement in a county community school. (Education Code 48916)

9. The Board shall provide written notice to the expelled student and parent/guardian describing the reasons for denying readmittance into the regular program. This notice shall indicate the Board's determination of the educational program which the Board has chosen. The student shall enroll in that program unless the parent/guardian chooses to enroll the student in another school district. (Education Code 48916)

Maintenance of Records

The Board will maintain a record of each expulsion, including the specific cause of the expulsion. The expulsion record shall be maintained in the student's mandatory interim record and sent to any school in which the student subsequently enrolls, within five days of a written request by the admitting school. (Education Code 48900.8, 48918(k))

The Superintendent or designee shall, within five working days, honor any other district's request for information about an expulsion from this district. (Education Code 48915.1)

cf. 5119 - Students Expelled from Other Districts)

(cf. 5125 - Student Records)

Notifications and Reports

Comprehensive School Safety Plan 26 of 74 10/14/24

Prior to the suspension or expulsion of any student, the principal or designee shall notify appropriate city or county law enforcement authorities of any student acts of assault which may have violated Penal Code 245. (Education Code 48902)

The principal or designee also shall notify appropriate city or county law enforcement authorities of any student acts which may involve the possession or sale of narcotics or of a controlled substance or possession of weapons or firearms in violation of Penal Code 626.9 and 626.10. (Education Code 48902)

1. The number of students recommended for expulsion.
2. The specific grounds for each recommended expulsion.
3. Whether the student was subsequently expelled.
4. Whether the expulsion order was suspended.

Alternatives to suspension or expulsion will be used with students who are truant, tardy, or otherwise absent from assigned school activities.

(cf. 5113 - Absences and Excuses)

(cf. 5113.1 - Truancy)

Removal from Class by a Teacher/Parental Attendance

A teacher may suspend any student from his/her class for the remainder of the day and the following day for any act listed in "Grounds for Suspension and Expulsion" above. (Education Code 48910)

Comprehensive School Safety Plan 29 of 74 10/14/24

A teacher also may refer a student to the principal or designee for consideration of suspension from school. (Education Code 48910)

When removing a student from his/her class, the teacher shall immediately report this action to the principal and send the student to the principal for appropriate action. The student shall be appropriately supervised during the class periods from which he/she has been removed.

As soon as possible, the teacher shall ask the student's parent/guardian to attend a parent-teacher conference regarding the removal. A counselor or psychologist should attend the conference if it is practicable, and a school administrator may attend if either the parent/guardian or teacher so requests.

A student removed from class shall not be returned to class during the period of removal without the approval of the teacher of the class and the principal. (Education Code 48910)

A student removed from class shall not be placed in another regular class during the period of removal. However, if a student is assigned to more than one class per day, he/she may be placed in any other regular classes except those held at the same time as the class from which the student was removed. (Education Code 48910)

The teacher of any class from which a student is removed may require the student to complete any assignments and tests missed during the removal. (Education Code 48913)

Pursuant to Board policy, a teacher may provide that the parent/guardian of a student whom the teacher has removed attend a portion of a school day in his/her child's classroom. When a teacher makes this request, the principal shall send the parent/guardian a written notice that the parent/guardian's attendance is requested pursuant to law. (Education Code 48900.1)

This notice shall also:

1. Inform the parent/guardian when his/her presence is expected and by what means he/she may arrange an alternate date.
2. Describe the legal protections afforded to the parent/guardian as an employee under Labor Code 230.7.
3. State that if the parent/guardian does not have a means of transportation to school, he/she may ride the school bus with the student.
4. Ask the parent/guardian to meet with the principal after the visit and before leaving school, as required by Education Code

48900.1.

Suspension by Superintendent, Principal or Principal's Designee

The Superintendent, principal or principal's designee may suspend a student from a school for not more than five consecutive school days unless the suspension is extended pending expulsion. (Education Code 48911)

The Superintendent or designee shall immediately suspend any student found at school or at a school activity to be: (Education Code 48915)

1. Possessing, as verified by a district employee, or selling or otherwise furnishing a firearm, unless the student had obtained prior written permission to possess the item from a certificated school employee, with the principal or designee's concurrence.
2. Brandishing a knife, as defined in Education Code 48915(g), at another person.
3. Unlawfully selling a controlled substance listed in Health and Safety Code 11053-11058.
4. Committing or attempting to commit a sexual assault or committing a sexual battery as defined in item #14 under "Grounds for Suspension and Expulsion".
5. Possession of an explosive as defined in 18 USC 921.

Suspension also may be imposed upon a first offense if the Superintendent, principal or designee determines the student violated items #1-5 listed in "Grounds for Suspension and Expulsion" above or if the student's presence causes a danger to persons or property or threatens to disrupt the instructional process. (Education Code 48900.5)

A student may be suspended from school for not more than 20 school days in any school year, unless for purposes of adjustment a student enrolls in or is transferred to another regular school, an opportunity school, or continuation school or class, in which case suspension shall not exceed 30 days in any school year. However, this restriction on the number of days of suspension does not apply when the suspension is extended pending an expulsion. (Education Code 48903, 48912)

Comprehensive School Safety Plan 30 of 74 10/14/24

The Superintendent or designee may count suspensions that occur while a student is enrolled in another school district toward the maximum number of days for which a student may be suspended in any school year. (Education Code 48903)

Suspensions shall be initiated according to the following procedures:

1. Informal Conference: Suspension shall be preceded by an informal conference conducted by the principal, designee or the Superintendent with the student and whenever practicable, the teacher, supervisor or school employee who referred the student to the principal. At the conference, the student shall be informed of the reason for the disciplinary action and the evidence against him/her; the student shall be given the opportunity to present his/her version and evidence in support of his/her defense. (Education Code 48911(b))

This conference may be omitted if the principal, designee or the Superintendent determines that an emergency situation exists. An "emergency situation" involves a clear and present danger to the lives, safety or health of students or school personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student's right to return to school for the purpose of a conference. The conference shall be held within two school days, unless the student waives his/her right to it or is physically unable to attend for any reason. In such case, the conference will be held as soon as the student is physically able to return to school. (Education Code 48911(c))

2. Administrative Actions: All requests for student suspension are to be processed by the principal or designee of the school in which the student is enrolled at the time of the misbehavior. A school employee shall report the suspension, including the name of the student and the cause for the suspension, to the Superintendent or designee.

3. Notice to Parents/Guardians: At the time of the suspension, a school employee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension. (Education Code 48911)

This notice shall state the specific offense committed by the student. (Education Code 48900.8).

In addition, the notice may also state the date and time when the student may return to school. If school officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may add that state law requires the parent/guardian to respond to such requests without delay.

4. Parent/Guardian Conference: Whenever a student is suspended, school officials may meet with the parent/guardian to discuss the causes and duration of the suspension, the school policy involved, and any other pertinent matters. (Education Code 48914) While the parent/guardian is required to respond without delay to a request for a conference about a student's behavior, no penalties may be imposed on the student for the failure of the parent/guardian to attend such conference. The student may not be denied readmission solely because the parent/guardian failed to attend. (Education Code 48911)

5. Extension of Suspension: If the Board is considering the expulsion of a suspended student from any school or the suspension of a student for the balance of the semester from continuation school, the Superintendent or designee may, in writing, extend the suspension until such time as the Board has made a decision. (Education Code 48911(g))

Any extension of the original period of suspension shall be preceded by notice of such extension with an offer to hold a conference concerning the extension, giving the student an opportunity to be heard. This conference may be held in conjunction with a meeting requested by the student or parent/guardian to challenge the original suspension. Extension of the suspension may be made only if

the Superintendent or designee determines, following a meeting in which the student and the student's parent/guardian were invited to participate, that the student's presence at the school or at an alternative school would endanger persons or property or threaten to disrupt the instructional process. (Education Code 48911)

Suspension by the Board

The Board may suspend a student for any of the acts listed in "Grounds for Suspension and Expulsion" above and within the limits specified in "Suspension by Superintendent, Principal or Principal's Designee" above. (Education Code 48912)

Comprehensive School Safety Plan 31 of 74 10/14/24

The Board may suspend a student enrolled in a continuation school or class for a period not longer than the remainder of the semester if any of the acts listed in "Grounds for Suspension and Expulsion" occurred. The suspension shall meet the requirements of Education Code 48915. (Education Code 48912.5)

When the Board is considering a suspension, disciplinary action, or any other action (except expulsion) against any student, it shall hold closed sessions if a public hearing would lead to disclosure of information violating a student's right privacy under Education Code 49073-49079.

(cf. 9321 - Closed Session Purposes and Agendas)

The Board shall provide the student and his/her parent/guardian with written notice of the closed session by or certified mail. Upon receiving this notice, the student or parent/guardian may request a public meeting, and this request shall be granted if made in writing within 48 hours after receipt of the Board's notice. However, any discussion that conflicts with any other student's right to privacy still shall be held in closed session. (Education Codes 35146, 48912)

On-Campus Suspension Program

Students for whom an expulsion action has not been initiated and who pose no imminent danger or threat to the school may be assigned to a separate, supervised suspension classroom for the entire period of suspension. The following conditions shall apply: (Education Code 48911.1)

1. The supervised suspension classroom shall be staffed in accordance with law.
2. The student shall have access to appropriate counseling services.
3. The supervised suspension classroom shall promote completion of schoolwork and tests missed by the student during the suspension.
4. Each student shall be responsible for contacting his/her teacher(s) to receive assignments to be completed in the supervised suspension classroom. The teacher shall provide all assignments and tests that the student will miss while suspended. If no such work is assigned, the person supervising the suspension classroom shall assign schoolwork.

At the time a student is assigned to a supervised suspension classroom, the principal or designee shall notify the student's parent/guardian in person or by telephone. When the assignment is for longer than one class period, this notification shall be made in writing. (Education Code 48911.1)

Authority to Expel

A student may be expelled only by the Board. The Board shall expel, as required by law, any student found to have committed certain offenses listed below under "Mandatory Recommendation and Mandatory Expulsion."

The Board also may order a student expelled for any of the acts listed under "Grounds for Suspension and Expulsion" upon recommendation by the principal, Superintendent, hearing officer or administrative panel, based on finding either or both of the following: (Education Code 48915 (b) and (e))

1. That other means of correction are not feasible or have repeatedly failed to bring about proper conduct.
2. That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others.

Mandatory Recommendation for Expulsion

Unless the principal, Superintendent or designee finds that expulsion is inappropriate due to particular circumstances, the principal, Superintendent or designee shall recommend a student's expulsion for any of the following acts: (Education Code 48915 (a))

1. Causing serious physical injury to another person, except in self-defense.
2. Possession of any knife as defined in Education Code 48915(g), explosive or other dangerous object of no reasonable use to the student.
3. Unlawful possession of any controlled substance, as listed in the Health and Safety Code 11053-11058, except for the first offense for the possession of not more than one ounce of marijuana, other than concentrated cannabis.
4. Robbery or extortion.
5. Assault or battery, as defined in Penal Code 240 and 242, upon any school employee.

Mandatory Recommendation and Mandatory Expulsion

Comprehensive School Safety Plan 32 of 74 10/14/24

Note: The Attorney General has determined, in 80 Ops.Cal. Atty. Gen. 347 (1997), that a district may not adopt a zero tolerance policy mandating expulsion of a student for a first offense of possession of a controlled substance or alcohol.

The principal, Superintendent or designee shall recommend that the Board expel any student found at school or at a school activity

to be: (Education Code 48915(c))

1. Possessing, as verified by a district employee, or selling or otherwise furnishing a firearm, unless the student had obtained prior written permission to possess the item from a certificated school employee, with the principal or designee's concurrence.
2. Brandishing a knife as defined in Education Code 48915(g) at another person.
3. Unlawfully selling a controlled substance listed in Health and Safety Code 11053-11058
4. Committing or attempting to commit a sexual assault or committing a sexual battery as defined in item #14 under "Grounds for Suspension and Expulsion" above.
5. Possessing an explosive as defined in 18 USC 921.

Upon finding that the student committed any of the above acts, the Board shall expel the student. (Education Code 48915)

The initial recommendation for consideration of expulsion is that of the school principal or the Superintendent. Designees may not make this type of recommendation.

The recommendation for consideration of expulsion shall be submitted to the Director, Office of Student Services, who will review the material and recommend:

1. Reassignment to appropriate regular education program.
2. Refer student to Alternative Program; i.e., Community School, Independent Study, Continuation or Opportunity School, or other district programs.
3. Refer the matter to the Discipline Review Panel for further consideration.

When a case is referred to the discipline Review Panel, the panel shall question school personnel who have information on the incident and the behavior record of the student charged and weighs the evidence presented.

The panel shall, in the case of an expulsion consideration, weigh information presented to determine:

- a. Is the evidence sufficient to support consideration by the expulsion panel?
- b. Has the district, through the schools involved, considered or utilized alternatives to expulsion when possible?
- c. Have due process procedures been adhered to?

The recommendation shall be either to proceed with the expulsion or to utilize an existing practical alternative in lieu of expulsion. If the district (school) has not adhered to due process requirements, the student shall be returned to school immediately.

If the Discipline Review Panel meets to consider a matter other than an expulsion, it shall provide its best judgment as to an effective alternative program or plan to action.

The recommendation of the Discipline Review Panel shall be forwarded to the Director, Office of Student Services, who shall then review the facts, concur, veto or modify the recommendation.

4. That an expulsion panel be convened.

At the time a recommendation for expulsion is submitted, a hearing shall be scheduled by the Superintendent or designee to determine whether the suspension shall be extended. If the decision is to extend the suspension, the period of time shall be until the Board has rendered a decision or until the expulsion process is otherwise terminated.

The extension of suspension shall be based upon determination by the Superintendent or designee that the presence of the student at the school or in an alternative school placement would cause a danger to persons or property or a threat of disrupting the instructional process. This extension shall be imposed only after the student and the parent/guardian have been given the opportunity to be present at a hearing conducted by the Superintendent or designee. At this time, the student and parent/guardian shall be given the opportunity to be heard and present any information that might bear upon the decision.

Comprehensive School Safety Plan 33 of 74 10/14/24

Materials which support the decision of the person recommending the expulsion shall be prepared and submitted to the Office of Student Services. The departments of Attendance, Guidance, Special Education and/or Health may be requested to assist in the preparation of this material.

Student's Right to Expulsion Hearing

The student is entitled to a hearing to determine whether the student should be expelled. The hearing shall be held within 30 school days after the principal or Superintendent or designee determines that one of the acts listed under "Grounds for Suspension and Expulsion" has occurred. (Education Code 48918 (a))

The student is entitled to one postponement of an expulsion hearing for a period of not more than 30 calendar days. The request for postponement shall be in writing. Any subsequent postponement may be granted at the Board's discretion. (Education Code 48918(a))

If the Board finds it impractical during the school year to comply with these time requirements for conducting an expulsion hearing, the Superintendent or designee may, for good cause, extend the time period by an additional five school days. Reasons for the extension shall be included as a part of the record when the expulsion hearing is held. (Education Code 48918(a))

If the Board finds it impractical to comply with the time requirements of the expulsion hearing due to summer recess of Board meetings of more than two weeks, the days during the recess shall not be counted as school days. The days not counted during the recess may not exceed 20 school days as defined in Education Code 48925. Unless the student requests in writing that the expulsion hearing be postponed, the hearing shall be held no later than 20 calendar days prior to the first day of the next school year.

(Education Code 48918(a))

Once the hearing starts, all matters shall be pursued with reasonable diligence and concluded without unnecessary delay. (Education Code 48918(a))

Waiver of Hearing (Default Proceedings)

If the parent/guardian agrees that their son/daughter behaved essentially in the manner stated in the principals letter recommending expulsion and that such behavior constitutes a violation of the California Education Code, Section 48900, 48900.2, 48900.3, 48900.4, 48900.7 and/or 48915 a suspendable/expellable offense, the parent/guardian may request to waive the Administrative Hearing Panel.

When the parent/guardian agrees to waive the Administrative Hearing Panel, they also waive all notification and timelines related to the expulsion hearing process, along with their rights to appeal the determination of the Board.

The signed affidavit and findings of fact will be submitted to the Board for their approval. The Board has the discretionary power to accept, reject, or modify all recommendations.

Rights of Complaining Witness

An expulsion hearing involving allegations of sexual assault or sexual battery may be postponed for one school day in order to accommodate the special physical, mental or emotional needs of a student who is the complaining witness. (Education Code 48918.5)

Whenever the Superintendent or designee recommends an expulsion hearing that addresses allegations of sexual assault or sexual battery, he/she shall give the complaining witness a copy of the district's suspension and expulsion policy and regulation and shall advise the witness of his/her right to all the following: (Education Code 48918.5)

1. Receive five days' notice of his/her scheduled testimony at the hearing.
2. Have up to two adult support persons of his/her choosing present in the hearing at the time he/she testifies.
3. Have a closed hearing during the time he/she testifies.

Whenever any allegation of sexual assault or sexual battery is made, the Superintendent or designee shall immediately advise complaining witnesses and accused students to refrain from personal or telephone contact with each other during the time when an expulsion process is pending. (Education Code 48918.5)

Comprehensive School Safety Plan 34 of 74 10/14/24

Written Notice of the Expulsion Hearing (Education Code 48918(b))

Written notice of the hearing shall be forwarded to the student and the student's parent/guardian at least 10 calendar days before the date of the hearing. The notice shall include: (Education Code 48900.8, 48918 (b))

1. The date and place of the hearing.
2. A statement of the specific facts, charges and offense upon which the proposed expulsion is based.
3. A copy of district disciplinary rules which relate to the alleged violation.
4. Notification of the student's or parent/guardian's obligation, pursuant to Education Code 48915.1, to provide information about the student's status in the district to any other district in which the student seeks enrollment. This obligation applies when a student is expelled for acts other than those described in Education Code 48915 (a) or (c).
(cf. 5119 - Students Expelled from other Districts)

5. The opportunity for the student or the student's parent/guardian to appear in person and/or be represented by legal counsel or by a non-attorney advisor.

Legal counsel means an attorney or lawyer who is admitted to the practice of law in California and is an active member of the State Bar of California.

Non-attorney advisor means an individual who is not an attorney or lawyer, but who is familiar with the facts of the case, and has been selected by the student or student's parent/guardian to provide assistance at the hearing.

6. The right to inspect and obtain copies of all documents to be used at the hearing.
7. The opportunity to confront and question all witnesses who testify at the hearing.
8. The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf, including witnesses.

Conduct of Expulsion Hearing

1. Closed Session: Notwithstanding the provisions of Government Code 54953 and Education Code 35145, the Board shall conduct a hearing to consider the expulsion of the student in a session closed to the public unless the student requests in writing at least five days prior to the hearing that the hearing be a public meeting. If such request is made, the meeting shall be public, unless another student's privacy rights would be violated.

Whether the expulsion hearing is held in closed or public session, the Board may meet in closed session to determine if the student should be expelled. If the Board admits any other person to the closed session, the parent/guardian, the student, and the counsel of the student, shall also be allowed to attend the closed session. (Education Code 48918(c))

If a hearing that involves a charge of sexual assault or sexual battery is to be conducted in public, a complaining witness shall have the right to have his/her testimony heard in closed session when testifying in public would threaten serious psychological harm to

the witness and when there are no alternative procedures to avoid the threatened harm, including but not limited to videotaped deposition or contemporaneous examination in another place communicated to the hearing room by closed-circuit television. (Education Code 48918(c))

2. Record of Hearing: A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate written and complete transcription of the proceedings can be made. (Education Code 48918(g))

3. Subpoenas: Before commencing a student expulsion hearing, the Board may issue subpoenas, at the request of either the student or the Superintendent or designee, for the personal appearance at the hearing of any person who actually witnessed the action that gave rise to the recommendation for expulsion. After the hearing has commenced, the Board or the hearing officer or administrative panel may issue such subpoenas at the request of the student or the County Superintendent of Schools or designee. All subpoenas shall be issued in accordance with the Code of Civil Procedure 1985-1985.2 and enforced in accordance with Government Code 11455.20, formerly 11525. (Education Code 48918(i))

Comprehensive School Safety Plan 35 of 74 10/14/24

Any objection raised by the student or the Superintendent or designee to the issuance of subpoenas may be considered by the Board in closed session, or in open session if so requested by the student, before the meeting. The Board's decision in response to such an objection shall be final and binding. (Education Code 48918(i))

If the Board determines, or if the hearing officer or administrative panel finds and submits to the Board, that a witness would be subject to unreasonable risk of harm by testifying at the hearing, a subpoena shall not be issued to compel the personal attendance of that witness at the hearing. However, that witness may be compelled to testify by means of a sworn declaration as described in item #4 below. (Education Code 48918(i))

4. Presentation of Evidence: While technical rules of evidence do not apply to expulsion hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. The decision of the Board to expel must be supported by substantial evidence that the student committed any of the acts listed in "Grounds for Suspension and Expulsion" above.

Findings of fact shall be based solely on the evidence at the hearing. While no evidence shall be based solely on hearsay, sworn declarations may be admitted as testimony from witnesses whose disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm. (Education Code 48918 (f) and (h))

In cases where a search of a student's person or property has occurred, evidence describing the reasonableness of the search shall be included in the hearing record.

5. Testimony by Complaining Witnesses: The following procedures shall be observed when hearings involve allegations of sexual assault or sexual battery by a student: (Education Code 48918)

a. Any complaining witness shall be given five days' notice before being called to testify.

b. Any complaining witness shall be entitled to have up to two adult support persons, including but not limited to a parent/guardian or legal counsel, present during his/her testimony.

c. Before a complaining witness testifies, support persons shall be admonished that the hearing is confidential.

d. The person presiding over the hearing may remove a support person whom he/she finds is disrupting the hearing.

e. If one or both support persons are also witnesses, the hearing shall be conducted according to Penal Code 868.5.

f. Evidence of specific instances of prior sexual conduct of a complaining witness shall be presumed inadmissible and shall not be heard unless the person conducting the hearing determines that extraordinary circumstances require the evidence to be heard. Before such a determination is made, the complaining witness shall be given notice and an opportunity to oppose the introduction of this evidence. In the hearing on the admissibility of this evidence, the complaining witness shall be entitled to be represented by a parent/guardian, legal counsel or other support person. Reputation or opinion evidence regarding the sexual behavior of a complaining witness shall not be admissible for any purpose.

g. In order to facilitate a free and accurate statement of the experiences of the complaining witness and to prevent discouragement of complaints, the district shall provide a nonthreatening environment.

(1) The district shall provide a room separate from the hearing room for the use of the complaining witness before and during breaks in testimony.

(2) At the discretion of the person conducting the hearing, the complaining witness shall be allowed reasonable periods of relief from examination and cross-examination during which he/she may leave the hearing room.

(3) The person conducting the hearing may:

(a) Arrange the seating within the hearing room so as to facilitate a less intimidating environment for the complaining witness.

(b) Limit the time for taking the testimony of a complaining witness to the hours he/she is normally in school, if there is no good cause to take the testimony during other hours.

(c) Permit one of the support persons to accompany the complaining witness to the witness stand.

6. Decision Within 10 Days: The Board's decision on whether to expel a student shall be made within 10 school days after the conclusion of the hearing, unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

7. Decision Within 40 Days: If the Board does not meet on a weekly basis, its decision on whether to expel a student shall be made

within 40 school days after the student is removed from his/her school of attendance, unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

Alternative Expulsion Hearing: Hearing Officer or Administrative Panel

Comprehensive School Safety Plan 36 of 74 10/14/24

Instead of conducting an expulsion hearing itself, the Board may contract with the county hearing officer or with the Office of Administrative Hearings of the State of California for a hearing officer. Alternatively, the Board may appoint an impartial administrative panel composed of three or more certificated personnel, none of whom shall be members of the Board or on the staff of the school in which the student is enrolled. (Education Code 48918(d))

A hearing conducted by the hearing officer or administrative panel shall conform to the same procedures as apply to a hearing conducted by the Board as specified in "Conduct of Expulsion Hearing."

The hearing officer or administrative panel shall, within three school days after the hearing, determine whether to recommend expulsion of the student to the Board. If expulsion is not recommended, the student shall be immediately reinstated. (See "Reinstatement.") The Superintendent or designee shall place the student in a classroom instructional program, any other instructional program, a rehabilitation program, or any combination of these programs after consulting with district staff, including the student's teachers, and with the student's parent/guardian. (Education Code 48918(e))

If expulsion is recommended, findings of fact in support of the recommendation shall be prepared and submitted to the Board. All findings of fact and recommendations shall be based solely on the evidence presented at the hearing. The Board may accept the recommendation based either upon a review of the findings of fact and recommendations submitted or upon the results of any supplementary hearing the Board may order. (Education Code 48918(f))

In accordance with Board policy, the hearing officer or administrative panel may recommend that the Board suspend the enforcement of the expulsion for a period of one year. (See "Decision Not to Enforce Expulsion Order" below.)

The Board shall make its decision about the student's expulsion within 40 school days after the date of the student's removal from school unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

The Discipline Review Panel

The Discipline Review Panel will consist of elementary educators when a review is being made of an elementary student and of secondary educators when a review is being made of secondary student.

1. The Discipline Review Panel shall hear the following types of disciplinary cases:

a. Requests for expulsion from site principals or the Superintendent.

b. School site administrative requests for assistance (non-expulsion situations).

2. Each discipline review panel shall consist of three certificated persons plus a chairperson and shall consist of elementary educators when a review is being made of an elementary student and of secondary educators when a review is being made of a secondary student. A panelist may not serve on any panel involving a student who is currently attending the school in which he/she is assigned. A representative from Student Services shall be a nonvoting member of each panel.

A chairperson and assistant chairperson, to serve when the chairperson is unable to serve, shall be appointed by the Superintendent or designee and shall serve at his/her pleasure. Neither shall be a member of the Student Services staff.

A pool of panelists shall be established which shall be composed of personnel who have served or are currently serving as members of administrative expulsion panels. The committee chairman shall select members to serve on individual panels.

The meetings of the discipline review panel are open to school district personnel only.

The duties of the Discipline Review Panel are as follows:

1. The chairperson shall call a meeting of the panel as soon as possible, but no later than 10 school days after the receipt of notice of a pending case.

2. A recommendation must be forwarded to the Director, Office of Student Services, within three days of the review hearing.

3. In the event a member of the committee cannot be present at a meeting, the Director, Office of Student Services, will appoint an alternate from the pool to attend.

Final Action by the Board

Whether the expulsion hearing is conducted in closed or public session by the Board, a hearing officer, or an administrative panel, the final action to expel shall be taken by the Board at a public meeting. (Education Code 48918(j))

Comprehensive School Safety Plan 37 of 74 10/14/24

(cf. 9321.1 - Closed Session Actions and Reports)

If the Board conducts the hearing and reaches a decision not to expel, this decision shall be final and the student shall be reinstated immediately.

Upon ordering an expulsion, the Board shall set a date when the student shall be reviewed for readmission to a school within the district. For a student expelled for an act listed under "Mandatory Recommendation and Mandatory Expulsion" above, this date shall be one year from the date the expulsion occurred, except that the Board may set an earlier date on a case-by-case basis. For a student expelled for other acts, this date shall be no later than the last day of the semester following the semester in which the expulsion occurred. (Education Code 48916)

At the time of the expulsion order, the Board shall recommend a plan for the student's rehabilitation, which may include: (Education Code 48916)

1. Periodic review as well as assessment of the student at the time of review for readmission.
2. Recommendations for improved academic performance, tutoring, special education assessments, job training, counseling, employment, community service and other rehabilitative programs.

With parental consent, students who have been expelled for reasons relating to controlled substances or alcohol may be required to enroll in a county-sponsored drug rehabilitation program before returning to school. (Education Code 48916.5)

Written Notice to Expel

The Superintendent or designee shall send written notice of the decision to expel the student or parent/guardian. This notice shall include the following:

1. The specific offense committed by the student for any of the causes for suspension or expulsion listed in Education Code 48900 (a)-(o), Education Code 48900.2-48900.4, Education Code 48915 (c) and (Education Code 48900.8).
2. The fact that a description of readmission procedures will be made available to the student and his/her parent/guardian. (Education Code 48916)
3. Notice of the right to appeal the expulsion to the County Governing Board. (Education Code 48918)
4. Notice of the alternative educational placements to be provided to the student during the time of expulsion. (Education Code 48918)
5. Notice of the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with the expelling district, pursuant to Education Code 48915.1 (Education Code 48918).

Decision Not to Enforce Expulsion Order

In accordance with Board policy, when deciding whether to suspend the enforcement of an expulsion, the Board shall take into account the following criteria:

1. The student's pattern of behavior.
2. The seriousness of the misconduct.
3. The student's attitude toward the misconduct and his/her willingness to follow a rehabilitation program.

The suspension of the enforcement of an expulsion shall be governed by the following: (Education Code 48917)

1. The Board may, as a condition of the suspension of enforcement, assign the student to a school, class or program appropriate for the student's rehabilitation. This rehabilitation program may provide for the involvement of the student's parent/guardian in the student's education. However, a parent/guardian's refusal to participate in the rehabilitation program shall not be considered in the Board's determination as to whether the student has satisfactorily completed the rehabilitation program.
2. During the period when enforcement of the expulsion order is suspended, the student shall be on probationary status.
3. The suspension of the enforcement of an expulsion order may be revoked by the Board if the student commits any of the acts listed under "Grounds for Suspension and Expulsion" above or violates any of the district's rules and regulations governing student conduct.
4. When the suspension of the enforcement of an expulsion order is revoked, a student may be expelled under the terms of the original expulsion order.
5. Upon satisfactory completion of the rehabilitation assignment, the Board shall reinstate the student in a district school. Upon reinstatement, the Board may order the expunging of any or all records of the expulsion proceedings.
6. Suspension of the enforcement of an expulsion order shall not affect the time period and requirements for the filing of an appeal of the expulsion order with County Board of Education.

Comprehensive School Safety Plan 38 of 74 10/14/24

7. The Superintendent or designee shall send written notice of any decision to suspend the enforcement of an expulsion order during a period of probation to the student or parent/guardian. The notice shall also inform the parent/guardian of the right to appeal the expulsion to the County Board of Education. (Education Code 48918 (j))

Right to Appeal

The student or parent/guardian is entitled to file an appeal of the Board's decision to the County Board of Education. The appeal must be filed within 30 days of the Board's decision to expel, even if the expulsion action is suspended and the student is placed on probation. (Education Code 48919)

Post-Expulsion Placements

The Board shall refer expelled students to a program of study that is: (Education Code 48915, 48915.01)

1. Appropriately prepared to accommodate students who exhibit discipline problems.
 2. Not provided at a comprehensive middle, junior or senior high school or at any elementary school, unless the program is offered at a community day school established at such a site.
 3. Not housed at the school site attended by the student at the time of suspension.
- (cf. 6185 - Community Day School)

When the placement described above is not available, and when the County Superintendent of Schools so certifies, students

expelled for acts described in items #6 through #13 and #17 through #19 under “Grounds for Suspension and Expulsion” may be instead referred to a program of study that is provided at another comprehensive middle, junior, or senior high school, or at an elementary school. (Education Code 48915)

The program for a student expelled from any of grades K-6 shall not be combined or merged with programs offered to students in any of grades 7-12. (Education Code 48916.1)

Readmission After Expulsion

Readmission procedures shall be as follows:

1. On the date set by the Board when it ordered the expulsion, the district shall consider readmission of the student. (Education Code 48916)

2. The Superintendent or designee shall hold a conference with the parent/guardian and the student. At the conference the student’s rehabilitation plan shall be reviewed and the Superintendent or designee shall verify that the provisions of this plan have been met. School regulations shall be reviewed and the student and parent/guardian shall be asked to indicate in writing their willingness to comply with these regulations.

3. The Superintendent or designee shall transmit to the Board his/her recommendation regarding readmission. The Board shall consider this recommendation in closed session if information would be disclosed in violation of Education Code 49073-49079. If a written request for open session is received from the parent/guardian or adult student, it shall be honored.

4. If the readmission is granted, the Superintendent or designee shall notify the student and parent/guardian, by registered mail, of the Board’s decision regarding readmission.

5. The Board may deny readmission only if it finds that the student has not satisfied the conditions of the rehabilitation plan or that the student continues to pose a danger to campus safety or to other district students or employees. (Education Code 48916)

6. If the Board denies the readmission of a student, the Board shall determine either to continue the student’s placement in the alternative educational program initially selected or to place the student in another program that serves expelled students, including placement in a county community school. (Education Code 48916)

7. The Board shall provide written notice to the expelled student and parent/guardian describing the reasons for denying readmittance into the regular program. This notice shall indicate the Board’s determination of the educational program which the Board has chosen. The student shall enroll in that program unless the parent/guardian chooses to enroll the student in another school district. (Education Code 48916)

Maintenance of Records

The Board shall maintain a record of each expulsion, including the specific cause of the expulsion. The expulsion record shall be maintained in the student’s mandatory interim record and sent to any school in which the student subsequently enrolls, within five days of a written request by the admitting school. (Education Code 48900.8, 48918(k))

Comprehensive School Safety Plan 39 of 74 10/14/24

The Superintendent or designee shall, within five working days, honor any other district’s request for information about an expulsion from this district. (Education Code 48915.1)

(cf. 5119 - Students Expelled from Other Districts)

(cf. 5125 - Student Records)

Notifications to Law Enforcement Authorities

Prior to the suspension or expulsion of any student, the principal or designee shall notify appropriate city or county law enforcement authorities of any student acts of assault which may have violated Penal Code 245. (Education Code 48902)

The principal or designee also shall notify appropriate city or county law enforcement authorities of any student acts which may involve the possession or sale of narcotics or of a controlled substance or possession of weapons or firearms in violation of Penal Code 626.9 and 626.10. (Education Code 48902)

Within one school day after a student’s suspension or expulsion, the principal or designee shall notify appropriate city or county law enforcement authorities, by telephone or other appropriate means, of any student acts which may violate Education Code 48900(c) or (d), relating to the possession, use, offering or sale of controlled substances, alcohol, or intoxicants of any kind. (Education Code 48902)

Outcome Data

The Superintendent or designee shall maintain the following data and report such data annually to the California Department of Education, using forms supplied by the California Department of Education: (Education Code 48900.8, 48916.1)

1. The number of students recommended for expulsion.
2. The grounds for each recommended expulsion.
3. Whether the student was subsequently expelled.
4. Whether the expulsion order was suspended.
5. The type of referral made after the expulsion.
6. The disposition of the student after the end of the expulsion period.

Regulation: REDLANDS UNIFIED SCHOOL DISTRICT

Approved: June 27, 1995, Redlands, California

(D) Procedures to Notify Teachers of Dangerous Pupils (EC 49079)

Teachers are notified at the beginning of each school year if they have a child in their new class roster that was suspended the previous school year. Teachers are given the opportunity to request to view those records

(E) Sexual Harassment Policies (EC 212.6 [b])

Policy 4119.11: Sex Discrimination and Sex-Based Harassment

The Governing Board is committed to providing a safe work environment that is free of harassment and intimidation. The Board prohibits sexual harassment against district employees by anyone, in any manner, and prohibits retaliatory action or behavior against any persons who complains, testifies, or otherwise participates in the complaint process established pursuant to this policy and accompanying administrative regulation. This policy shall apply to all district employees, interns, volunteers, contractors, job applicants, and other persons with an employment relationship with the district.

(cf. 0410 - Nondiscrimination in District Programs and Activities) (cf. 4030 - Nondiscrimination in Employment)

Sexual harassment includes, but is not limited to, harassment that is based on the sex, gender, gender identity, gender expression, or sexual orientation of the victim and harassment based on pregnancy, childbirth, or related medical conditions.

The Superintendent or designee shall take all actions necessary to ensure the prevention, investigation, and correction of sexual harassment, including but not limited to:

1. Providing training to all staff in accordance with law and administrative regulation.
2. Publicizing and disseminating the district's sexual harassment policy to staff.
3. Ensuring prompt, thorough, equitable, and fair investigation of complaints
4. Taking timely and appropriate corrective/remedial actions which may require interim separation of the complainant and the alleged harasser and subsequent monitoring of developments.

The Superintendent or designee shall periodically evaluate the effectiveness of the district's strategies to prevent and address harassment. Such evaluation may involve conducting regular anonymous employee surveys to assess whether harassment is occurring or is perceived to be tolerated, partnering with researchers or other agencies with the needed expertise to evaluate the district's prevention strategies, and using any other effective tool for receiving feedback on systems and/or processes. As necessary, changes shall be made to the harassment policy, complaint procedures, or training.

Sexual Harassment Reports and Complaints

Any district employee who feels that he/she has been sexually harassed in the performance of their district responsibilities or who has knowledge of any incident of sexual harassment by or against another employee shall immediately report the incident to his/her supervisor, the principal, other district administrator, or the district's Title IX Coordinator. However, an employee may bypass his/her supervisor in filing a complaint if the supervisor is the subject of the complaint. A supervisor, principal, or district administrator who receives a harassment complaint shall promptly notify the Title IX Coordinator.

Once notified, the Title IX Coordinator shall ensure the complaint or allegation is addressed through AR 4119.12/4219.12/4319.12 – Title IX Sexual Harassment Complaint Procedures or AR 4030- Nondiscrimination in Employment, as applicable. Because a complaint or allegation that is dismissed or denied under the Title IX complaint procedure may still be subject to consideration under state law, the Title IX Coordinator shall ensure that any implementation of AR 4119.12/4219.12/4319.12 concurrently meets the requirements of AR 4030.

Notwithstanding the above, BP/AR 4119.12/4219.12/4319.12 and 4030 shall under no circumstances be used to resolve complaints brought by, on behalf of, or against students. All complaints brought by, on behalf of, or against students that allege “sexual harassment” as that term is defined in the federal regulations implementing Title IX of the Education Amendments of 1972 (see 34 C.F.R. § 106, et seq.) shall be investigated and resolved under BP/AR 5145.71. All complaints brought by, on behalf of, or against students that do not meet the definition of “sexual harassment” as set forth in the Title IX implementing regulations shall be investigated and resolved under BP/AR 1312.3.

(cf. 4119.12/4219.12/4319.12 - Title IX Sexual Harassment Complaints)

The Title IX Coordinator shall offer supportive measures to the complainant and respondent, as deemed appropriate under the circumstances.

Upon investigation of a sexual harassment complaint, any district employee who engages, or participates in sexual harassment, or who aids, abets, incites, compels, or coerces another to commit sexual harassment in violation of this policy is subject to disciplinary action, up to and including dismissal, in accordance with law and the applicable collective bargaining agreement.

(cf. 4117.7/4317.7 - Employment Status Reports) (cf. 4118 - Dismissal/Suspension/Disciplinary Action) (cf. 4218 -

Dismissal/Suspension/Disciplinary Action)

Regulation 4119.12: Title IX Sex Discrimination and Sex-Based Harassment Complaint Procedures

The complaint procedures described in this administrative regulation shall be used to address any complaint governed by Title IX of the Education Amendments of 1972 alleging that a district employee, while in an education program or activity in which a district school exercises substantial control over the context and respondent, was subjected to one or more of the following forms of sexual harassment: (34 CFR 106.30, 106.44)

1. A district employee conditioning the provision of a district aid, benefit, or service on a person's participation in unwelcome sexual conduct
2. Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the district's education program or activity
3. Sexual assault, dating violence, domestic violence, or stalking as defined in 20 USC 1092 or 34 USC 12291 (cf. 4119.11/4219.11/4319.11 - Sexual Harassment)

All other sexual harassment complaints or allegations shall be investigated and resolved in accordance with AR 4030

- Nondiscrimination in Employment. The determination of whether the allegations meet the definition of sexual harassment under Title IX shall be made by the district's Title IX Coordinator.

(cf. 4030 - Nondiscrimination in Employment)

Because the complainant has a right to pursue a complaint under AR 4030 for any allegation that is dismissed or denied under the Title IX complaint procedure, the Title IX Coordinator shall ensure that all requirements and timelines for AR 4030 are concurrently met while implementing the Title IX procedure.

Reporting Allegations/Filing a Formal Complaint

An employee who is the alleged victim of sexual harassment may submit a report of sexual harassment to the district's Title IX Coordinator using the contact information listed in AR 4119.11/4219.11/4319.11 - Sexual Harassment or to the employee's direct supervisor or other district administrator, who shall forward the report to the Title IX Coordinator within one day of receiving the report. Upon receiving such a report, the Title IX Coordinator shall inform the complainant of the right to file a formal complaint and the process for filing a formal complaint.

A formal complaint, with the complainant's physical or digital signature, may be filed with the Title IX Coordinator in person, by mail, by email, or by any other method authorized by the district. (34 CFR 106.30)

Even if the alleged victim chooses not to file a formal complaint, the Title IX Coordinator shall file a formal complaint in situations when a safety threat exists. In addition, the Title IX Coordinator may file a formal complaint in other situations as permitted under the Title IX regulations, including as part of the district's obligation to not be deliberately indifferent to known allegations of sexual harassment. In such cases, the Title IX Coordinator shall provide the alleged victim notices as required by the Title IX regulations at specific points in the complaint process.

The Title IX Coordinator, investigator, decision-maker, or a facilitator of an informal resolution process shall not have a conflict of interest or bias for or against complainants or respondents generally or an individual complainant or respondent. Such persons shall receive training in accordance with 34 CFR 106.45. (34 CFR 106.45)

Supportive Measures

Upon receipt of a report of Title IX sexual harassment, the Title IX Coordinator shall promptly contact the complainant to discuss the availability of supportive measures and shall consider the complainant's wishes with respect to the supportive measures implemented. Supportive measures shall be offered as appropriate, as reasonably available, and without charge to the complainant or the respondent before or after the filing of a formal complaint or where no formal complaint has been filed. Such measures shall be nondisciplinary, nonpunitive, and not unreasonably burden the other party, including measures designed to protect the safety of all parties or the district's educational environment or to deter sexual harassment. Supportive measures may include, but are not limited to, counseling, extensions of deadlines, modifications of work schedules, mutual restrictions on contact, changes in work locations, leaves of absence, increased security, and monitoring of certain areas of the campus. (34 CFR 106.30, 106.44)

The district shall maintain as confidential any supportive measures provided to the complainant or respondent, to the extent that maintaining such confidentiality would not impair the district's ability to provide the supportive measures. (34 CFR 106.30)

Emergency Removal

If a district employee is the respondent, the employee may be placed on administrative leave during the pendency of the formal complaint process. (34 CFR 106.44)

If the respondent is a student, the district may, on an emergency basis, remove the student from the district's education program or activity, provided that the district conducts an individualized safety and risk analysis, determines that removal is justified due to an immediate threat to the physical health or safety of any student or other individual arising from the allegations, and provides the student with notice and an opportunity to challenge the decision immediately following the removal. This authority to remove a student does not modify a student's rights under the Individuals with Disabilities Education Act or Section 504 of the Rehabilitation Act of 1973. (34 CFR 106.44)

Dismissal of Complaint

The Title IX Coordinator shall dismiss a formal complaint if the alleged conduct would not constitute sexual harassment as defined in

34 CFR 106.30 even if proved. The Title IX Coordinator shall also dismiss any complaint in which the alleged conduct did not occur in the district's education program or activity or did not occur against a person in the United States, and may dismiss a formal complaint if the complainant notifies the district in writing that the complainant would like to withdraw the complaint or any allegations in the complaint, the respondent is no longer employed by the district, or sufficient circumstances prevent the district from gathering evidence sufficient to reach a determination with regard to the complaint. (34 CFR 106.45)

Upon dismissal, the Title IX Coordinator shall promptly send written notice of the dismissal and the reasons for the dismissal simultaneously to the parties and shall inform them of their right to appeal the dismissal of a formal complaint or any allegation in the complaint in accordance with the appeal procedures described in the section "Appeals" below. (34 CFR 106.45)

If a complaint is dismissed, the conduct may still be addressed pursuant to AR 4030 - Nondiscrimination in Employment as applicable.

Informal Resolution Process

When a formal complaint of sexual harassment is filed, the district may offer an informal resolution process, such as mediation, at any time prior to reaching a determination regarding responsibility. The district shall not require a party to participate in the informal resolution process or to waive the right to an investigation and adjudication of a formal complaint. (34 CFR 106.45)

The district may facilitate an informal resolution process provided that the district: (34 CFR 106.45)

1. Provides the parties with written notice disclosing the allegations, the requirements of the informal resolution process, the right to withdraw from the informal process and resume the formal complaint process, and any consequences resulting from participating in the informal resolution process, including that records will be maintained or could be shared.
2. Obtains the parties' voluntary, written consent to the informal resolution process

Written Notice

If a formal complaint is filed, the Title IX Coordinator shall provide the known parties with written notice of the following: (34 CFR 106.45)

1. The district's complaint process, including any informal resolution process
2. The allegations potentially constituting sexual harassment with sufficient details known at the time, including the identity of parties involved in the incident if known, the conduct allegedly constituting sexual harassment, and the date and location of the alleged incident if known. Such notice shall be provided with sufficient time for the parties to prepare a response before any initial interview. If, during the course of the investigation, new Title IX allegations arise about the complainant or respondent that are not included in the initial notice, the Title IX Coordinator shall provide notice of the additional allegations to the parties.
3. A statement that the respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility is made at the conclusion of the complaint process
4. The opportunity for the parties to have an advisor of their choice who may be, but is not required to be, an attorney, and the ability to inspect and review evidence
5. The prohibition against knowingly making false statements or knowingly submitting false information during the complaint process

The above notice shall also include the name of the investigator, facilitator of an informal process, and decision-maker and shall inform the parties that, if at any time a party has concerns regarding conflict of interest or bias regarding any of these persons, the party should immediately notify the Title IX Coordinator.

Investigation Procedures

During the investigation process, the district's designated investigator shall: (34 CFR 106.45)

1. Provide an equal opportunity for the parties to present witnesses, including fact and expert witnesses, and other inculpatory and

exculpatory evidence

2. Not restrict the ability of either party to discuss the allegations under investigation or to gather and present relevant evidence
3. Provide the parties with the same opportunities to have others present during any grievance proceeding, including the opportunity to be accompanied to any related meeting or proceeding by the advisor of their choice, who may be, but is not required to be, an attorney
4. Not limit the choice or presence of an advisor for either the complainant or respondent in any meeting or grievance proceeding, although the district may establish restrictions regarding the extent to which the advisor may participate in the proceedings as long as the restrictions apply equally to both parties
5. Provide, to a party whose participation is invited or expected, written notice of the date, time, location, participants, and purpose of all investigative interviews or other meetings, with sufficient time for the party to prepare to participate
6. Send in an electronic format or hard copy to both parties and their advisors, if any, the evidence obtained as part of the investigation that is directly related to the allegations raised in the complaint, and provide the parties at least 10 days to submit a written response for the investigator to consider prior to the completion of the investigative report
7. Objectively evaluate all relevant evidence, including both inculpatory and exculpatory evidence, and determine credibility in a manner that is not based on a person's status as a complainant, respondent, or witness
8. Create an investigative report that fairly summarizes relevant evidence and, at least 10 days prior to the determination of responsibility, send to the parties and their advisors, if any, the investigative report in an electronic format or a hard copy, for their review and written response

Questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant, unless such questions and evidence are offered to prove that someone other than the respondent committed the conduct alleged by the complainant or if the questions and evidence concern specific incidents of the complainant's prior sexual behavior with respect to the respondent and are offered to prove consent. (34 CFR 106.45)

Privacy rights of all parties to the complaint shall be maintained in accordance with applicable state and federal laws.

If the complaint is against an employee, rights conferred under an applicable collective bargaining agreement shall be applied to the extent they do not conflict with the Title IX requirements.

Written Decision

The Superintendent shall designate an employee as the decision-maker to determine responsibility for the alleged conduct, who shall not be the Title IX Coordinator or a person involved in the investigation of the matter. (34 CFR 106.45)

After the investigative report has been sent to the parties but before reaching a determination regarding responsibility, the decision-maker shall afford each party the opportunity to submit written, relevant questions that the party wants asked of any party or witness, provide each party with the answers, and allow for additional, limited follow-up questions from each party.

The decision-maker shall issue, and simultaneously provide to both parties, a written decision as to whether the respondent is responsible for the alleged conduct. (34 CFR 106.45)

The written decision shall be issued within 60 calendar days of the receipt of the complaint.

The timeline may be temporarily extended for good cause with written notice to the complainant and respondent of the extension and the reasons for the action. (34 CFR 106.45)

In making this determination, the decision-maker shall use the "preponderance of the evidence" standard for all formal complaints of sexual harassment. (34 CFR 106.45)

The written decision shall include the following: (34 CFR 106.45)

1. Identification of the allegations potentially constituting sexual harassment as defined in 34 CFR 106.30

2. A description of the procedural steps taken from receipt of the formal complaint through the written decision, including any notifications to the parties, interviews with parties and witnesses, site visits, methods used to gather other evidence, and hearings held if the district includes hearings as part of the grievance process
3. Findings of fact supporting the determination
4. Conclusions regarding the application of the district's code of conduct or policies to the facts
5. A statement of, and rationale for, the result as to each allegation, including a decision regarding responsibility, any disciplinary sanctions the district imposes on the respondent, and whether remedies designed to restore or preserve equal access to the district's educational program or activity will be provided by the district to the complainant
6. The district's procedures and permissible bases for the complainant and respondent to appeal

Appeals

Either party may appeal the district's decision or dismissal of a formal complaint or any allegation in the complaint, if the party believes that a procedural irregularity affected the outcome, new evidence is available that could affect the outcome, or a conflict of interest or bias by the Title IX Coordinator, investigator(s), or decision-maker(s) affected the outcome. If an appeal is filed, the district shall: (34 CFR 106.45)

1. Notify the other party in writing when an appeal is filed and implement appeal procedures equally for both parties
2. Ensure that the decision-maker(s) for the appeal is trained in accordance with 34 CFR 106.45 and is not the same decision-maker(s) who reached the determination regarding responsibility or dismissal, the investigator(s), or the Title IX Coordinator
3. Give both parties a reasonable, equal opportunity to submit a written statement in support of, or challenging, the outcome
4. Issue a written decision describing the result of the appeal and the rationale for the result
5. Provide the written decision simultaneously to both parties

An appeal must be filed in writing within 10 calendar days of receiving the notice of the decision or dismissal, stating the grounds for the appeal and including any relevant documentation in support of the appeal. Appeals submitted after this deadline are not timely and shall not be considered.

A written decision shall be provided to the parties within 20 calendar days from the receipt of the appeal.

Either party has the right to file a complaint with the U.S. Department of Education's Office for Civil Rights within 180 days of the date of the most recently alleged misconduct.

The complainant shall be advised of any civil law remedies, including, but not limited to, injunctions, restraining orders, or other remedies or orders that may be available under state or federal antidiscrimination laws, if applicable.

Remedies

When a determination of responsibility for sexual harassment has been made against the respondent, the district shall provide remedies to the complainant. Such remedies may include the same individualized services described above in the section "Supportive Measures," but need not be nondisciplinary or nonpunitive and need not avoid burdening the respondent. (34 CFR 106.45)

Disciplinary Actions

The district shall not impose any disciplinary sanctions or other actions against a respondent, other than supportive measures as described above in the section "Supportive Measures," until the complaint procedure has been completed and a determination of responsibility has been made. (34 CFR 106.44)

When an employee is found to have committed sexual harassment or retaliation, the district shall take appropriate disciplinary action, up to and including dismissal, in accordance with applicable law and collective bargaining agreement.
(cf. 4117.7/4317.7 - Employment Status Report)
(cf. 4118 - Dismissal/Suspension/Disciplinary Action) (cf. 4119.11/4219.11/4319.11 - Sexual Harassment) (cf. 4218 - Dismissal/Suspension/Disciplinary Action)

Record-Keeping

The Superintendent or designee shall maintain, for a period of seven years: (34 CFR 106.45)

1. A record of all reported cases and Title IX investigations of sexual harassment, any determinations of responsibility, any audio or audiovisual recording and transcript if applicable, any disciplinary sanctions imposed, any remedies provided to the complainant, and any appeal or informal resolution and the results therefrom.
2. A record of any actions, including supportive measures, taken in response to a report or formal complaint of sexual harassment, including the district's basis for its conclusion that its response was not deliberately indifferent, the measures taken that were designed to restore or preserve equal access to the education program or activity, and, if no supportive measures were provided to the complainant, the reasons that such a response was not unreasonable in light of the known circumstances.
3. All materials used to train the Title IX Coordinator, investigator(s), decision-maker(s), and any person who facilitates an informal resolution process. The district shall make such training materials publicly available on its web site, or if the district does not maintain a web site, available upon request by members of the public.

(F) School-wide Dress Code Relating to Gang-Related Apparel (EC 35183)

Policy 5132.16: Student Dress Guidelines

The Governing Board believes that appropriate dress and grooming contribute to a productive learning environment. The Board expects students to give proper attention to personal cleanliness and to wear clothes that are suitable for the school activities in which they participate. Students' clothing must not present a health or safety hazard or a distraction which would interfere with the educational process.

Students and parents/guardians shall be informed about dress and grooming standards at the beginning of the school year and whenever these standards are revised. A student who violates these standards shall be subject to appropriate disciplinary action.

Gang-Related Apparel

The principal, staff and parents/guardians at a school may establish a reasonable dress code that prohibits students from wearing gang-related apparel when there is evidence of a gang presence that disrupts or threatens to disrupt the school's activities. Such a dress code may be included as part of the school safety plan and must be presented to the Board for approval. The Board shall approve the plan upon determining that it is necessary to protect the health and safety of the school's students.

Uniforms

The Board recognizes that, in order to promote student safety and discourage peer rivalry and/or gang activity, the principal, staff and parent/guardian at a school site may wish to establish a reasonable dress code, which may include voluntary school uniforms.

Dress codes, which include voluntary school uniforms, may be included as part of the school safety plan submitted as required.

The Superintendent or designee shall establish procedures that schools, parents and guardians will follow if they decide to participate with the voluntary school uniform policy. Students shall not be penalized academically, otherwise discriminated against or denied attendance to school if their parents/guardian decide not to participate.

The Governing Board feels that there is nothing inherently wrong with dress or color of dress, but when student's dress serves to intimidate or impede the rights of other students it will be determined that dress is in violation of this policy. A student may not remain at school dressed in a manner which (1) creates a safety hazard for said student or for other students at school, and/or (2) when the dress constitutes a serious and unnecessary distraction to the learning process or tends to disrupt campus order

When the site administrator/designee determines that a student's attire is in violation of this policy, the student will be required to modify his/her clothing and/or apparel in such a manner that it no longer violates this policy. If necessary, the student may be taken or sent home with parental permission to modify unacceptable dress and return to school. Refusal to take steps as described in this policy shall be cause for disciplinary action against the student. Any such disciplinary action shall be handled pursuant to existing student disciplinary policy

Parents/guardians have primary responsibility to see that students are properly attired for school. School district personnel have the responsibility for maintaining proper and appropriate conditions conducive to learning. Hence, the following guidelines will be implemented in all district schools.

1. Shoes will be worn at all times. A substantial sole is required and enclosed toe and heel footwear are highly encouraged.
2. Extremely brief garments that are distracting to the educational environment are not appropriate. Clothing shall be sufficient to conceal undergarments at all times.
3. Clothing or accessories shall be free of writing, pictures or any other insignia which are crude, violent, obscene or sexually suggestive or which advocate racial, ethnic or religious prejudice or the use of tobacco, drugs or alcohol.
4. Earrings, jewelry, or accessories which present a safety hazard to the wearer or others are not suitable for school wear.
5. Only prescription sunglasses may be worn in class. Other types of sunglasses may be worn on campus outside of class.
6. Identified gang attire such as bandannas, haircuts or hair rollers, or any gang paraphernalia are prohibited.

Students are allowed to wear sun protective clothing, including hats, while outdoors during the school day. Each school site will develop a policy indicating the type of sun protective hats that are permitted.

No grade of a student participating in a physical education class shall be adversely affected if the student does not wear standardized physical education apparel because of circumstances beyond the student's control. (Education Code 49066) All clothing worn during physical education shall meet reasonable safety standards.

The purpose of adopting these Student Dress Guidelines is not to infringe on any individual student's rights to freedom of expression, but rather to encourage students to dress appropriately and come to school properly prepared for participating in the educational process.

Gang-Related Apparel

Because gang-related symbols are constantly changing, definitions of gang-related apparel shall be reviewed as needed and updated as necessary.

Uniforms

In schools where a majority of parents respond and indicate on a survey that they desire to establish a voluntary school-wide uniform dress code, the principal, staff and the parents/guardians of the individual school site shall:

1. Jointly select the specific uniform to be worn. (Education Code 35183)
2. Describe the uniform parts and identify local vendors who sell those pieces of clothing. A description of the implementation of the voluntary uniform dress code will be submitted to the superintendent's designee including:
 - a. The process for parent notification
 - b. Positive procedures that will be used to encourage students to participate with the voluntary uniform dress code
3. A description of the uniform and a list of costs for each competitively priced item of clothing as provided by a variety of vendors will be sent to parents.
4. Parents will be notified that this is a voluntary uniform dress code and that students not participating shall not be penalized academically, otherwise discriminated against or denied attendance to school if their parents/guardians so decide.

Parent Notification

The principal shall give parents/guardian at least six months notice before a school site implements a voluntary school uniform dress code. (Education Code 35183)

(G) Procedure for Safe Ingress and Egress of Pupils, Parents, and Staff to and from School (EC 35294.2)

School gates open at 7:45 AM for arrival, and the same gates open again at 1:50 PM for dismissal (and 12:15 PM for early release days). During arrival and dismissal there are three points of entry. Each point of entry has a staff member and/or a school administrator. Adults who do not have an official district ID visible on their person, will be directed to check in at the office. Once the final bell rings, the gates are locked. If a student is late, they must then go through the single point of entry in the office.

During the school day Bryn Mawr has a single point of entry through the office which includes checking in with office staff and providing government ID to be scanned through the Raptor system. Adults must have a scheduled purpose to be on campus and must go directly to the activity/classroom and return to the office when finished. Adult visitors wear a Visitor badge that clearly shows all staff members that they have been cleared through the office.

After school, the students in the Exploratory Experience Program (ASES/ELOP) gather at the cafeteria tables and check in with a teacher or a teacher lead. There are scheduled pick up times for parents/guardians (3:30, 4:45, and 5:45) and the adult must sign their child out. The gates are locked and the students must exit through the office, which is the single point of entry/exit.

(H) A Safe and Orderly School Environment Conducive to Learning (EC 35294.2)

Component:

Physical Environment

The Schools' Location and Physical Environment

Bryn Mawr Elementary School is located in the Loma Linda area of San Bernardino County that has a crime rate lower than the California and National average. 9.1% of the population in Loma Linda live in poverty. The immediate area around the school includes both single family and multi-family residential housing. Present safety hazards include two crosswalks, one on Whittier Avenue, and another at the corner of Whittier Avenue and George Street.

Description of School Grounds

The school site encompasses 5 acres. The grounds consist of a large grass field and baseball diamond, concrete walkways and an asphalt play area, which includes a basketball court. There are several wings and/or clusters of classrooms including 23 classrooms 11 re-locatable classrooms. Other ancillary structures include a multi-purpose building, library, STEAM lab, and the administration building.

During the school day, staff members and administrators shall provide campus supervision. Identified problem areas receive increased supervision to reduce discipline, crime, or other school safety concerns.

It shall be the practice of Bryn Mawr Elementary School to remove all graffiti from school property before pupils arrive to begin their school day. Other acts of vandalism are promptly addressed.

Maintenance of School Buildings/Classrooms

The school's physical facility is well maintained and generally looks neat and clean. The school was most recently painted in 2017. Administrators complete daily safety walks, which are recorded in the Progress Adviser app. They examine the school's physical facility, report any issues to be repaired and help eliminate obstacles to school safety. Additionally, health and fire department inspectors contribute to school safety.

Maintenance is ongoing and as needed.

Internal Security Procedures

Bryn Mawr Elementary School has established procedures in the following areas: California Safe School Assessment (CSSA) reporting procedures, suspension and expulsion procedures, inventory system, and monitored student ingress and egress points, single point of entry once school starts through dismissal, and visitor admission onto campus through the RAPTOR visitor management system,.

Bryn Mawr Elementary School crime statistics reflect a total of 0 crimes reported during the 2023-2024 school year.

Keeping reportable crimes at a minimum requires constant vigilance. The following strategies will be utilized in achieving this goal site facility checks done daily, character education programs (Second Step), school counselor program, as well as school-wide implementation of the Leader in Me system to develop the 7 Habits of highly successful people (Franklin-Covey), and campus monitors to provide supervision and surveillance during the school day. The campus lighting is also key in making sure crime is kept at a minimum.

Bryn Mawr Elementary School maintains a copy of the district's sexual harassment policy in the main office and in the staff room. The policy is available upon request. The District's Sexual Harassment Policy contains dissemination plans, applicable definitions, reporting requirements, investigation procedures, enforcement regulations, and information related to suspension and/or expulsion for sexual harassment of or by pupils. Additionally, a notice summarizing this sexual harassment policy appears in the Parent & Student Handbook, The parent student handbook can be found in the Aeries Parent Portal and parents are required to electronically confirm receiving the information for each pupil at the beginning of each school year.

To ensure the safety of pupils and staff, all adult visitors to the campus, shall sign in to Raptor immediately upon entering any school building or grounds when school. All employees shall wear appropriate identification badges while on campus conducting business.

Discipline procedures shall focus on finding the cause of problems and working with all concerned to reach the proper, restorative solutions. The school's discipline plan begins at the classroom level. Teachers shall use a visible classroom management plan to communicate classroom rules, promote positive pupil conduct, and reduce unacceptable conduct. Appropriate consequences are administered based on a progressive discipline model.

Pupil conduct standards and consequences for Bryn Mawr Elementary School are specifically described in this Comprehensive Schools Safety Plan including: (a) the adopted school discipline rules and procedures, (b) District Disciplinary Guidelines.

Pupils may be suspended, transferred to another school, or recommended for expulsion or specific violations of Ed code. When appropriate, restorative conferences will be the first step, with suspension being an option after all other means of correction have been exhausted. For specific Ed code violations, a mandatory expulsion recommendation shall be submitted by the administration of Bryn Mawr Elementary School in partnership and guidance from Student Services. .

Site administrators contribute to a positive school climate, promote positive pupil behavior, and help reduce inappropriate conduct. The principal and assistant principal use available district and other appropriate records to inform teachers of each pupil identified under E.C. 49079.

San Bernardino County Sheriff is contacted and consulted to help maintain and to promote a safe and orderly school environment. Bryn Mawr Elementary School employees comply with all legal mandates, regulations, and reporting requirements for all instances of suspected child abuse.

If appropriate, additional internal security procedures affecting the integrity of the school facility include: security fencing (closed campus), window blinds and locked classrooms.

Community involvement is encouraged to help increase school safety.
The School Site Safety Committee meets regularly, as does ELAC and PTA.

Inventory System - Engraved ID, Security Storage

Most school-site equipment has a metal ID tag or a bar cod sticker adhered to its surface. These items are inventoried annually and there is an established accountability system. Office and classroom supplies are secured.

(I) School Discipline Rules and Consequences (EC 35291 and EC 35291.5)

Bryn Mawr Elementary School Student Conduct Code

Procedures to Ensure a Safe and Orderly Environment

Rules and Procedures on School Discipline

Philosophy of Discipline

Behavior expectations and the consequences for not meeting expectations will be clearly communicated to all students and their parents (in writing as well as verbally).

When appropriate, restorative conferences with the counselor is the first step for the student to take responsibility and repair harm.

The Bryn Mawr staff will use a progressive discipline model when providing consequences to students.

The consequences for violating behavior expectations will vary depending on age and frequency of behavior violations.

Expectations and consequences should permit students an opportunity to grow and develop the desired behavior.

The structure of our behavior expectations (in the classroom as well as school wide) is meant to encourage students to be responsible, respectful and kind. The first step in many instances of inappropriate behavior (those considered to be "minor") is a simple warning and an opportunity to reinforce our 7 Habits. It is only when a student doesn't respond to prior warnings and that we involve parents and implement consequences.

Elements of a Good Discipline Program

1. The program is focused upon making the entire campus, especially the classroom, a safe, supportive and orderly environment for learning for students and staff.
2. Classroom authority is retained by the classroom teacher. (Administration's role is to support, not to replace.)
3. Rules and procedures are clearly understood by staff and students.
4. All staff members will acknowledge and take appropriate action on any minor or major infraction of the school rules.
5. Rules and procedures comply with State Law and District policies.
6. The program recognizes the responsibilities and the rights of students and staff.
7. Program is structured to keep students in class and engaged in the educational process.
8. Rules are enforced:
 - A. by all staff members at all times.
 - B. strictly, but not rigidly (beware of "automatics").
 - C. in substantial part by adult modeling.
 - D. using techniques that promote the growth of positive self-esteem.
 - E. as close to the source as is possible.
 - F. by keeping parents informed.
9. The discipline program is understood, endorsed, and supported by staff, parents, and students.

PRINCIPAL'S STATEMENT TO EDMS STAFF

Expectations in Developing & Maintaining Discipline

As Principal of our school, I will expect;

Each teacher to have a defined system of classroom management. A written description of this system, including representative examples of the progressive interventions you intend to employ, will be approved and filed by me. Whenever possible and appropriate, teachers are encouraged to use standards and systems that are consistent with other village/department members.

You can expect

Each administrator to assist and support you in every reasonable way in developing, implementing, and refining that system as needed.

I will expect

That when you refer a student for discipline:

1. The student has been made fully aware of classroom and school rules and knows what rules he/she has violated.
2. Teachers within a village will discuss any continuing behavior problems and schedule a team conference with the student and parents when appropriate.
3. That information will be provided on the referral regarding previous actions you have taken regarding this specific issue.
4. You have exhausted the interventions at your disposal (i.e., you have done everything you can do) and you have followed the guidelines established by the administration and staff on what constitutes an appropriate behavior referral.
5. The behavior was so serious or so blatant as to make immediate removal from the classroom necessary.
6. The written referral will be explicit in stating the offense(s).
7. You will send the student out of class with a referral only if his/her continued presence in the class would disrupt or prevent teaching and/or learning.
8. If necessary, the referral will be delivered to the office at a time convenient to the staff member so that the issue may be handled most efficiently, causing a minimum of lost class time.

You can expect

1. Each administrator to support your position in every reasonable way.
2. A response time on your referral of one, or at most, two days.
3. The availability of an administrator to discuss unresolved referrals after school on any given day.
4. That the administrator will exercise independent judgment regarding disposition of referrals.

I will expect

1. That each teacher will go to the doorway of his/her classroom after each class period as often as possible and assume control of student behavior in the corridor.
2. That each staff member will hold students accountable for their behavior on the school grounds at all times.

You can expect

1. Administrator support, investigation, and follow-through as indicated.
2. A response to referrals from incidents outside the classroom to be the same as to those within.

WHAT TO DO WHEN PROBLEMS APPEAR

Both behavioral and academic problems are present in some of our students. Teachers often ask for guidelines for dealing with these problems. Here they are:

1. Have collaborative conversations with the administrators, school counselors or colleagues.
2. Call parents at the first sign of concern. Inform the parents of your observations, ask for their ideas, assistance, and support in serving the student. Keep a log of your calls.
3. If possible, talk privately to the student about your concerns and ask how you can help them.
4. Behavior concerns: After talking to parents, implement positive strategies that encourage the desired behavior (token cards, leadership roles, preferential seating ...). Contract the school counselors, site administrators, or RCSS for support if you have exhausted your resources.
5. Referrals are written for tier II behaviors, such as physical contact or repeated behaviors that have not responded to tier I interventions.
6. Academic Concerns can initially be addressed with tier I supports in the classroom. Targeted small group interventions in the classroom is the first step. If the student is not showing growth, reach out to the IST team to schedule and IST.
7. 2-3 ISTs must be held with documented interventions and results prior to psychoeducational testing.

(K) Hate Crime Reporting Procedures and Policies

Policy 5145.3: Nondiscrimination/Harassment

The Governing Board desires to provide a safe school environment that allows all students equal access to and opportunities in the district's academic, extracurricular, and other educational support programs, services, and activities. The Board prohibits unlawful discrimination in any education program or activity, at or on the way to and from any district school or school activity, related to school activity or school attendance occurring within a district school, and which occurs off campus or outside of school-related or school-sponsored activities, but which may have an impact or create a hostile environment at school. Unlawful discrimination includes discriminatory harassment, intimidation, and bullying targeted at any student, by anyone, based on the student's actual or perceived race, color, ancestry, nationality, national origin, immigration status, ethnic group identification, ethnicity, age, religion, marital or parental status, pregnancy, physical or mental disability, medical condition, sex, sexual orientation, gender, gender identity, gender expression or genetic information; or association with a person or group with one or more of these actual or perceived characteristics.

Title IX of the Education Amendments of 1972 is a source of the obligation not to discriminate on the basis of sex, including gender, pregnancy and related conditions, sex stereotypes, gender identity, transgender status, sexual orientation, and parental status. Complaints alleging unlawful discrimination on the basis of race, color, national origin, sex, age, or disability or for retaliation for the purpose of interfering with any right or privilege protected by the laws enforced by the Office for Civil Rights can be filed directly with the Assistant Secretary for the Office for Civil Rights at OCR@ed.gov or <https://ocrcas.ed.gov>.

(cf. 5146 - Married/Pregnant/Parenting Students)

(cf. 6164.6 - Identification and Education Under Section 504)

This policy shall apply to all acts constituting unlawful discrimination or harassment related to school activity or to school attendance occurring within a district school, and to acts which occur off campus or outside of school-related or school-sponsored activities, but which may have an impact or create a hostile environment at school.

Unlawful discrimination, including discriminatory harassment, intimidation, or bullying, may result from physical, verbal, nonverbal, or written conduct based on one of the categories listed above. Unlawful discrimination also occurs when prohibited conduct is so severe, persistent, or pervasive that it affects a student's ability to participate in or benefit from an educational program or activity; creates an intimidating, threatening, hostile, or offensive educational environment; has the effect or purpose of substantially or unreasonably interfering with a student's academic performance; or otherwise adversely or negatively affects a student's educational opportunities, or academic performance.

Unlawful discrimination also includes disparate treatment of students based on one of the categories above with respect to the provision of opportunities to participate in school programs or activities or the provision or receipt of educational benefits or services.

The Board also prohibits any form of retaliation against any individual who reports or participates in the reporting of unlawful discrimination, files or participates in the filing of a complaint, or investigates or participates in the investigation of a complaint or report alleging unlawful discrimination. Retaliation complaints shall be investigated and resolved in the same manner as a discrimination complaint.

The Superintendent or designee shall facilitate students' access to the educational program by publicizing the district's nondiscrimination policy and related complaint procedures to students, parents/guardians, and employees. In addition, the Superintendent or designee shall post the district's policies prohibiting discrimination, harassment, intimidation, and bullying and other required information on the district's web site in a manner that is easily accessible to parents/guardians and students, in accordance with law and the accompanying administrative regulation.

The Superintendent or designee shall provide training and/or information on the scope and use of the policy and complaint procedures and take other measures designed to increase the school community's understanding of the requirements of law related to discrimination. The Superintendent or designee shall regularly review the implementation of the district's nondiscrimination policies and practices and, as necessary, shall take action to remove any identified barrier to student access to or participation in the district's educational program. The Superintendent or designee shall report the findings and recommendations to the Board after each review.

Students who engage in unlawful discrimination, including discriminatory harassment, intimidation, bullying, or retaliation, in violation of law, Board policy, or administrative regulation, shall be subject to appropriate consequence or discipline, which may

include suspension or expulsion when the behavior is severe or pervasive as defined in Education Code 48900.4. Record-Keeping

The Superintendent or designee shall maintain a record of all reported cases of unlawful discrimination, including discriminatory harassment, intimidation, or bullying, to enable the district to monitor, address, and prevent repetitive prohibited behavior in district schools. The record shall be maintained for a minimum of ten years.

The record shall be maintained in a centralized, electronic tracking and response system (centralized system) for all oral and written complaints of sex discrimination, and sexual harassment, assault, intimidation, bullying or abuse, and any retaliation related to the submission of such reports and complaints, including those submitted anonymously.

The centralized system shall contain all documents provided or generated during an investigation, resolution, or appeal.

Such resources shall be posted in a prominent location on the district's web site in a manner that is easily accessible to parents/guardians and students. (Education Code 234.5, 234.6)
6. Provide to students a handbook that contains age-appropriate information that clearly describes the district's nondiscrimination policy, procedures for filing a complaint, and resources available to students who feel that they have been the victim of any such behavior.

Comprehensive School Safety Plan 60 of 74 10/14/24

7. Annually notify all students and parents/guardians of the district's nondiscrimination policy, including its responsibility to provide a safe, nondiscriminatory school environment for all students, including transgender and gender-nonconforming students. The notice shall inform students and parents/guardians that they may request to meet with the Assistant Superintendent of Compliance to determine how best to accommodate or resolve concerns that may arise from the district's implementation of its nondiscrimination policies. The notice shall also inform all students and parents/guardians that, to the extent possible, the district will address any individual student's interests and concerns in private.

(cf. 5145.6 - Parental Notifications)

8. Ensure that students and parents/guardians, including those with limited English proficiency, are notified of how to access the relevant information provided in the district's nondiscrimination policy and related complaint procedures, notices, and forms in a language they can understand.

If 15 percent or more of students enrolled in a particular district school speak a single primary language other than English, the district's policy, regulation, forms, and notices concerning nondiscrimination shall be translated into that language in accordance with Education Code 234.1 and 48985. In all other instances, the district shall ensure meaningful access to all relevant information for parents/guardians with limited English proficiency.

9. Provide to students, employees, volunteers, and parents/guardians age-appropriate training and/or information regarding the district's nondiscrimination policy; what constitutes prohibited discrimination, including discriminatory harassment, intimidation, retaliation, or bullying; how and to whom a report of an incident should be made; and how to guard against segregating or stereotyping students when providing instruction, guidance, supervision, or other services to them. Such training and information shall include details of guidelines the district may use to provide a discrimination-free environment for all district students, including transgender and gender-nonconforming students.

(cf. 1240 - Volunteer Assistance)

(cf. 4131/4231/4331 - Staff Development)

10. At the beginning of each school year, inform school employees that any employee who witnesses any act of unlawful discrimination, including discriminatory harassment, intimidation, or bullying, against a student is required to intervene if it is safe to do so. (Education Code 234.1)

Process for Initiating and Responding to Complaints

Any student who feels that he/she has been subjected to unlawful discrimination described above or in district policy is strongly encouraged to immediately contact the Assistant Superintendent of Compliance, the principal, or any other staff member. In addition, any student who observes any such incident is strongly encouraged to report the incident to the Assistant Superintendent of Compliance or principal, whether or not the alleged victim files a complaint.

Any school employee who observes an incident of unlawful discrimination, including discriminatory harassment, intimidation, retaliation, or bullying, or to whom such an incident is reported, shall report the incident to the Assistant Superintendent of Compliance and the principal, within one school day, whether or not the alleged victim files a complaint.

Any school employee who witnesses an incident of unlawful discrimination, including discriminatory harassment, intimidation, retaliation, or bullying, shall immediately intervene to stop the incident when it is safe to do so. (Education Code 234.1)

When a report of unlawful discrimination, including discriminatory harassment, intimidation, retaliation, or bullying, is made to or received by the principal or Assistant Superintendent of Compliance, the principal or Assistant Superintendent of Compliance shall notify the student or parent/guardian of the right to file a formal complaint in accordance with AR 1312.3 - Uniform Complaint Procedures, or, for complaints of sexual harassment that meet the federal Title IX definition, AR 5145.71 - Title IX Sexual Harassment Complaint Procedures. Once notified verbally or in writing, the Assistant Superintendent of Compliance shall begin the investigation and shall implement immediate measures necessary to stop the discrimination and ensure that all students have access to the educational program and a safe school environment. Any interim measures adopted to address unlawful discrimination shall, to the extent possible, not disadvantage the complainant or a student who is the victim of the alleged unlawful discrimination.

Any report or complaint alleging unlawful discrimination by the principal, Assistant Superintendent of Compliance, or any other person to whom a report would ordinarily be made or complaint filed shall instead be made to or filed with the Superintendent or designee who shall determine how the complaint will be investigated.

(cf. 5141.4 - Child Abuse Prevention and Reporting) Transgender and Gender-Nonconforming Students

Gender identity of a student means the student's gender-related identity, appearance, or behavior, as determined from the student's internal sense whether or not that gender-related identity, appearance, or behavior is different from that traditionally associated with the student's physiology or assigned sex at birth.

Gender expression means a student's gender-related appearance and behavior, whether or not stereotypically associated with the student's assigned sex at birth. (Education Code 210.7)

Gender transition refers to the process in which a student changes from living and identifying as the sex assigned to the student at birth to living and identifying as the sex that corresponds to the student's gender identity.

Transgender student means a student whose gender identity is different from the gender assigned at birth.

Gender-nonconforming student means a student whose gender expression differs from stereotypical expectations.

The district prohibits acts of verbal, nonverbal, or physical aggression, intimidation, or hostility that are based on sex, gender identity, or gender expression, or that have the purpose or effect of producing a negative impact on the student's academic performance or of creating an intimidating, hostile, or offensive educational environment regardless of whether the acts are sexual in nature. Examples of the types of conduct which are prohibited in the district and which may constitute gender-based harassment include, but are not limited to:

1. Refusing to address a student by a name and the pronouns consistent with the student's gender identity

Comprehensive School Safety Plan 62 of 74 10/14/24

2. Disciplining or disparaging a student or excluding the student from participating in activities for behavior or appearance that is consistent with the student's gender identity or that does not conform to stereotypical notions of masculinity or femininity, as applicable

3. Blocking a student's entry to the restroom that corresponds to the student's gender identity

4. Taunting a student because the student participates in an athletic activity more typically favored by a student of the other sex

5. Revealing a student's transgender status to individuals who do not have a legitimate need for the information, without the student's consent or when doing so would place the student at risk of physical, emotional, or psychological harm

6. Using gender-specific slurs

7. Physically assaulting a student motivated by hostility toward the student because of the student's gender, gender identity, or gender expression

The district's uniform complaint procedures (AR 1312.3), or Title IX sexual harassment procedures (AR 5145.71), as applicable, shall be used to report and resolve complaints alleging discrimination against transgender and gender-nonconforming students.

Examples of bases for complaints include, but are not limited to, the above list, as well as improper rejection by the district of a student's asserted gender identity, denial of access to facilities that correspond with a student's gender identity, improper disclosure of a student's transgender status, discriminatory enforcement of a dress code, and other instances of gender-based harassment.

To ensure that transgender and gender-nonconforming students are afforded the same rights, benefits, and protections provided to all students by law and Board policy, the district shall address each situation on a case-by-case basis, in accordance with the following guidelines:

1. Right to privacy: A student's transgender or gender-nonconforming status is the student's private information and the district will only disclose the information to others with the student's prior written consent, except when the disclosure is otherwise required by law or when the district has compelling evidence that disclosure is necessary to preserve the student's physical or mental well-being. In any case, the district shall only allow disclosure of a student's personally identifiable information to employees with a legitimate educational interest as determined by the district pursuant to 34 CFR 99.31. Any district employee to whom a student's transgender or gender-nonconforming status is disclosed shall keep the student's information confidential. When disclosure of a student's gender identity is made to a district employee by a student, the employee shall seek the student's permission to notify the Assistant Superintendent of Compliance. If the student refuses to give permission, the employee shall keep the student's information confidential, unless he/she is required to disclose or report the student's information pursuant to this administrative regulation, and shall inform the student that honoring the student's request may limit the district's ability to meet the student's needs related to the student's status as a transgender or gender-nonconforming student. If the student permits the employee to notify the Assistant Superintendent of Compliance, the employee shall do so within three school days.

As appropriate, given the student's need for support, the Assistant Superintendent of Compliance may discuss with the student any need to disclose the student's transgender or gender-nonconformity status or gender identity or gender expression to the student's parents/guardians and/or others, including other students, teacher(s), or other adults on campus.

The district shall offer support services, such as counseling, to students who wish to inform their parents/guardians of their status and desire assistance in doing so.

(cf. 1340 - Access to District Records) (cf. 3580 - District Records)

2. Determining a Student's Gender Identity: The Assistant Superintendent of Compliance shall accept the student's assertion of gender identity and begin to treat the student consistent with that gender identity unless district personnel present a credible and supportable basis for believing that the student's assertion is for an improper purpose

3. Addressing a Student's Transition Needs: The Assistant Superintendent of Compliance shall arrange a meeting with the student and, if appropriate, the student's parents/guardians to identify and develop strategies for ensuring that the student's access to Comprehensive School Safety Plan 63 of 74 10/14/24

educational programs and activities is maintained. The meeting shall discuss the transgender or gender-nonconforming student's rights and how those rights may affect and be affected by the rights of other students and shall address specific subjects related to the student's access to facilities and to academic or educational support programs, services, or activities, including, but not limited to, sports and other competitive endeavors. In addition, the Assistant Superintendent of Compliance shall identify specific school site employee(s) to whom the student may report any problem related to the student's status as a transgender or gender-nonconforming individual, so that prompt action can be taken to address it. Alternatively, if appropriate and desired by the student,

the school may form a support team for the student that will meet periodically to assess whether the arrangements for the student are meeting his/her educational needs and providing equal access to programs and activities, educate appropriate staff about the student's transition, and serve as a resource to the student to better protect the student from gender-based discrimination.

4. Accessibility to Sex-segregated Facilities, Programs, and Activities: When the district maintains sex-segregated facilities, such as restrooms and locker rooms, or offers sex-segregated programs and activities, such as physical education classes, intramural sports, and interscholastic athletic programs, students shall be permitted to access facilities and participate in programs and activities consistent with their gender identity. To address any student's privacy concerns in using sex-segregated facilities, the district shall offer available options such as a gender-neutral or single-use restroom or changing area, a bathroom stall with a door, an area in the locker room separated by a curtain or screen, or use of the locker room before or after the other students. However, the district shall not require a student to utilize these options because the student is transgender or gender-nonconforming. In addition, a student shall be permitted to participate in accordance with the student's gender identity in other circumstances where students are separated by gender, such as for class discussions, yearbook pictures, and field trips. A student's right to participate in a sex-segregated activity in accordance with the student's gender identity shall not render invalid or inapplicable any other eligibility rule

established for participation in the activity.

(cf. 6145 - Extracurricular and Co-curricular Activities) (cf. 6145.2 - Athletic Competition) (cf. 6153 - School-Sponsored Trips)
(cf. 7110 - Facilities Master Plan)

5. Student Records: A student's legal name or gender as entered on the mandatory student record required pursuant to 5 CCR 432 shall only be changed with proper documentation. When a student presents government- issued documentation of a name and/or gender change or submits a request for a name and/or gender change through the process specified in Education Code 49070, the district shall update the student's records. (Education Code 49062.5, 49070)

(cf. 5125 - Student Records)

(cf. 5125.1 - Release of Directory Information) (cf. 5125.3 - Challenging Student Records)

6. Names and Pronouns: If a student so chooses, district personnel shall be required to address the student by a name and the pronouns consistent with the student's gender identity, without the necessity of a court order or a change to the student's official district record. However, inadvertent slips or honest mistakes by district personnel in the use of the student's name and/or consistent pronouns will, in general, not constitute a violation of this administrative regulation or the accompanying district policy.

7. Uniforms/Dress Code: A student has the right to dress in a manner consistent with the student's gender identity, subject to any dress code adopted on a school site.

(cf. 5132 – Student Dress Guidelines)

(J) Procedures to Prepare for Active Shooters

Bryn Mawr takes preparation for active shooters seriously, and will regularly practice lockdown drills.

Our school the district protocol 3 LEVELS OF STUDENTS IN CRISIS:

1) Safe and Secure Mode: Limit outside movement

Safe and Secure Mode is a security procedure used to reduce student and staff movement outside school buildings. This may be due to a medical emergency, area disturbance, isolated site disturbance, etc. It is designed to allow for school to carry forward but have the ability to move to Lockdown quickly if needed. During the Safe and Secure mode, there is heightened vigilance on campus by all school staff.

Generally, recesses and outdoor activities are reduced. Parents/guardians can have access to their student(s) and may check them out of school if they see fit to do so.

Teachers should continue teaching as normal

Allow students restroom use with clear administrator/ teacher direction

Increased available staff presence during passing periods and student dismissal

Lunch/activities monitored more closely for movement outside of lunch area, unless site admin decides otherwise

Standard inclement weather schedule/routine in place, unless site administrator/designee decides otherwise

Perimeter gates, where applicable, will be locked and monitored by available staff, allowing for central access points

PE classes will be monitored more closely for movement outside of PE area; classes may be moved off all fields into more secure locations (e.g., gym, class, & MPR)

2) Lockdown: Prevent all outside movement

Lock Down is called when a law enforcement event is happening in the vicinity of a school or on campus. With the support of law enforcement, a school site will call a Lock Down as a precautionary measure. This means all students and staff must stay inside behind locked doors; however, it does not mean that there is an active threat occurring on campus.

Take a look outside your classroom and gather up any stray students in the hallways

Ensure that your door is locked

Project a calm demeanor to help students remain calm; reassure students that they are safe

Do not allow anyone to leave the classroom

Staff and parents/guardians frequently check their emails for updates from their site administrators

If students are out on the playground or athletic fields, quickly move them to a secure classroom, locker room, or multi-purpose room

Teachers continue to keep students engaged in learning

3) Critical Alert: Locks, Lights, Out of Sight

Critical Alert is called when a significant, threatening event is happening on campus or adjacent to campus that creates a potential danger to students and staff. While this may be communicated to the school by law enforcement, it may also be determined by school officials on the scene. Critical Alert assumes that everyone is prepared for a potential significant threat/event on campus.

Turn off or reduce lighting, so it will appear that the room is vacant

Keep all students sitting on the floor, away from the door or windows

Do not look out the windows

Advise the students that there is a serious situation; project a calm demeanor and reassure students that you are taking steps to keep them safe

Ensure that everyone in the room turns the ringer off on their cell phones

Do not allow students to talk on their cell phones (keep room as quiet as possible)

Limit calls to the school office; phones are being used to communicate with parents/guardians and first responders

Quietly take roll and make a list of missing students and any extra students that are in your room. Email this list to your administrators and school site secretaries

When staff determines, they will direct the evacuation of students they oversee to the designated area; each staff will make this determination based on their specific situation

Do not open the door, even if someone knocks and claims to be a staff member (administrator/custodian will have a master key)

If students are out on the PE field, do not return them to the locker room. Move them to a safe place (this may be the farthest part of the campus or off campus); Staff must remain with students until reunification

Procedures for Preventing Acts of Bullying and Cyber-bullying

Definitions

Bullying is an unwanted, aggressive behavior that involves a real or perceived imbalance of power between individuals with the intent to cause emotional or physical harm. Bullying can be physically, verbally, or socially/relationally harmful and involves repetition or potential repetition of a deliberate act. Bullying can involve intimidation and coercion.

Cyberbullying includes the electronic creation or transmission of harassing communications, direct threats, or other harmful texts, sounds, or images. Cyberbullying also includes breaking into another person's electronic account or assuming that person's online identity in order to damage that person's reputation. Cyberbullying can be harmful to the online reputations of everyone involved, including the person who is cyberbullying and those participating in it.

Examples of the types of conduct that may constitute bullying and are prohibited by the district include, but are not limited to:

1. Physical bullying that inflicts harm upon a person's body or possessions, such as hitting, kicking, pinching, spitting, tripping, pushing, taking or breaking someone's possessions, or making cruel or rude hand gestures
2. Verbal bullying that includes saying or writing hurtful things, such as teasing, name-calling, inappropriate sexual comments, taunting, or threats to cause harm
3. Social/relational bullying that harms a person's reputation or relationships, such as leaving a person out of an activity on purpose, influencing others not to be friends with someone, spreading rumors, or embarrassing someone in public
4. Cyberbullying, such as sending demeaning or hateful text messages or emails, sending or spreading online rumors by email or by posting them on social networking sites or apps, posting embarrassing or explicit photos or videos online or on apps, or creating fake profiles can also be considered cyberbullying.

Measures to Prevent Bullying

The Superintendent or designee shall implement measures to prevent bullying in district schools, including, but not limited to, the following:

1. Ensuring that each school establishes clear rules for student conduct and implements strategies to promote a positive, collaborative school climate

Comprehensive School Safety Plan 65 of 74 10/14/24

2. Providing to students, through student handbooks and other age-appropriate means, information about district and school rules related to bullying, mechanisms available for reporting incidents or threats, and the consequences for engaging in bullying
3. Encouraging students to notify school staff when they are being bullied or when they suspect that another student is being bullied, and providing means by which students may report threats or incidents confidentially and anonymously

4. Annually notifying district employees that, pursuant to Education Code 234.1, any school staff who witnesses an act of bullying against a student has a responsibility to immediately intervene to stop the incident when it is safe to do so

Staff Development

The Superintendent or designee shall make the California Department of Education's online training module on the dynamics of bullying and cyberbullying, which includes the identification of bullying and cyberbullying and the implementation of strategies to address bullying, available annually to all certificated staff and to other employees who have regular interaction with students. (Education Code 32283.5)

The Superintendent or designee shall provide training to teachers and other school staff to raise their awareness about the legal obligation of the district and its employees to prevent discrimination, harassment, intimidation, and bullying of district students. Such training shall be designed to provide staff with the skills to:

1. Discuss the diversity of the student body and school community, including their varying immigration experiences
2. Discuss bullying prevention strategies with students, and teach students to recognize the behavior and characteristics of bullying perpetrators and victims
3. Identify the signs of bullying or harassing behavior
4. Take immediate corrective action when bullying is observed
5. Report incidents to the appropriate authorities, including law enforcement in instances of criminal behavior

Student Instruction

As appropriate, the district shall provide students with instruction, in the classroom or other educational settings, that promotes social-emotional learning, effective communication and conflict resolution skills, character/values education, respect for cultural and individual differences, self-esteem development, assertiveness skills, and appropriate online behavior.

The district shall also educate students about the negative impact of bullying, discrimination, intimidation, and harassment based on actual or perceived immigration status, religious beliefs and customs, or any other individual bias or prejudice.

Students should be taught the difference between appropriate and inappropriate behaviors, how to advocate for themselves, how to help another student who is being bullied, and when to seek assistance from a trusted adult. As role models for students, staff shall be expected to demonstrate effective problem-solving and anger management skills.

To discourage cyberbullying, teachers may advise students to be cautious about sharing passwords, personal data, or private photos online and to consider the consequences of making negative comments about others online.

Reporting and Filing of Complaints

Any student, parent/guardian, or other individual who believes that a student has been subjected to bullying or who has witnessed bullying may report the incident to a teacher, the principal, a compliance officer, or any other available school employee.

When a report of bullying is submitted, the principal or a district compliance officer shall inform the student or parent/guardian of the right to file a formal written complaint in accordance with AR 1312.3 - Uniform Complaint Procedures. The student who is the alleged victim of the bullying shall be given an opportunity to describe the incident, identify witnesses who may have relevant information, and provide other evidence of bullying.

Comprehensive School Safety Plan 66 of 74 10/14/24

Within one business day of receiving such a report, a staff member shall notify the principal of the report, whether or not a uniform complaint is filed. In addition, any school employee who observes an incident of bullying involving a student shall, within one business day, report such observation to the principal or a district compliance officer, whether or not the alleged victim files a complaint.

Within two business days of receiving a report of bullying, the principal or designee shall notify the district compliance officer identified in AR 1312.3.

When the circumstances involve cyberbullying, individuals with information about the activity shall be encouraged to save and print any electronic or digital messages that they feel constitute cyberbullying and to notify a teacher, the principal, or other employee so that the matter may be investigated. When a student uses a social networking site or service to bully or harass another student, the Superintendent or designee may file a request with the networking site or service to suspend the privileges of the student and to have the material removed.

Discipline/Corrective Actions

Corrective actions for a student who commits an act of bullying of any type may include counseling, behavioral intervention and education, and, if the behavior is severe or pervasive as defined in Education Code 48900, may include suspension or expulsion in accordance with district policies and regulations.

When appropriate based on the severity or pervasiveness of the bullying, the Superintendent or designee shall notify the parents/guardians of victims and perpetrators and may contact law enforcement.

The Superintendent, principal, or principal's designee may refer a victim, witness, perpetrator, or other student affected by an act of bullying to a school counselor, school psychologist, social worker, child welfare attendance personnel, school nurse, or other school support service personnel for case management, counseling, and/or participation in a restorative justice program as appropriate.

(Education Code 48900.9)

If any student involved in bullying exhibits warning signs of suicidal thought or intention or of intent to harm another person, the Superintendent or designee shall, as appropriate, implement district intervention protocols which may include, but are not limited to, referral to district or community mental health services, other health professionals, and/or law enforcement

Safety Plan Review, Evaluation and Amendment Procedures

A draft of the Safety Plan is presented to the School Site Council for review. Meetings with the school Safety Committee are held several times during the year where safety issues are discussed, and adjustments/amendments to the CSSP are recommended.

Earthquake

Schools are required to employ earthquake drills each school year that typically consist of some signal followed by students practicing the duck, cover and hold drill. In the event of an actual earthquake, the shaking will be the signal! The following will be accomplished:

Duck- or drop down to the floor.

Cover- take cover under a sturdy desk, table or other furniture. If that is not possible, seek cover against an interior wall and protect your head and neck with your arms. Avoid danger spots near windows, hanging objects, mirrors or tall furniture.

Hold- If you take cover under a sturdy piece of furniture, hold onto it and prepare to move with it. Hold this position until the ground stops shaking and it is safe to move.

Evacuation could be signaled at this time depending on the severity of the earthquake.

Students who are outside at the time of the earthquake should stay clear of any buildings or other tall objects which could fall on them.

After an earthquake evacuation, search and rescue teams will go back out to campus to evacuate, assist and rescue students left behind.

Fire in Surrounding Area

Administration will follow the guidelines directed from the superintendent of the Redlands Unified School District in regard to air quality and surrounding fires.

Fire on School Grounds

Fire drills are conducted at every month at Bryn Mawr. In the event of an actual fire in your classroom, the following should be accomplished:

1. If possible, notify the office and report the emergency.
2. Evacuate the classroom (concurrently with reporting if possible).
3. Small fires can be put out with the fire extinguisher. Use the PASS method.

Pull the pin to activate the extinguisher

Aim at the base of the fire

Squeeze the trigger to discharge

Sweep the extinguisher from side to side

4. If the fire continues to grow despite your efforts---- GET OUT!

5. Pull the fire alarm in your building and institute an evacuation

Listen for further instruction by the Raptor app or school PA system

Blood Borne Pathogen Incident Reporting Form and Exposure Control Plan

Policy 5141.22: Infectious Diseases

The Governing Board desires to protect students from risks posed by exposure to infectious diseases while providing an appropriate education for all students.

The Superintendent or designee shall determine whether to admit a student with an infectious disease, and shall exclude students only in accordance with law. In making this determination, he/she shall consult the student's parents/guardians, the student's physician and/or the county health department, in accordance with law and consistent with confidentiality provisions. Because bloodborne pathogens such as hepatitis B virus, hepatitis C virus and human immunodeficiency virus (HIV) are not casually transmitted, the sole presence of bloodborne pathogens is not sufficient reason to exclude students from attending school.

(cf. 5141.26 - Tuberculosis Testing)

(cf. 5141.3 - Health Examinations)

(cf. 6158 - Independent Study)

(cf. 6159 -Individualized Education Program)

(cf. 6183 - Home/Hospital Instruction)

Parents/guardians are encouraged to inform the Superintendent or designee if their child has an infectious disease so that school staff may work cooperatively with the student's parents/guardians to minimize the child's exposure to other diseases in the school setting. The Superintendent or designee shall ensure that student confidentiality rights are strictly observed in accordance with law. No district employee shall release medical information, including knowledge of a bloodborne pathogen infection, without written consent from the parent/guardian or adult student. Such information shall be shared only with those persons specifically named in the written permission.

(cf. 5125 - Student Records)

(cf. 5022 -Student and Family Privacy Rights)

The Board requires students and staff to routinely observe universal precautions to prevent exposure to bloodborne pathogens and to prevent the spread of all infectious disease.

Procedures and Regulations

1. General

1.1 While recognizing that both students and employees diagnosed with an infectious blood borne disease are entitled to a confidential relationship between themselves, the medical community and/or other agencies, the Board of School Trustees encourages these individuals to meet with the School Principal and/or Superintendent of Schools to discuss their disease and immediate and future needs.

1.2 Assessment

2. Students:

2.1. The Superintendent (or designate) will be informed, by the school principal as soon as is known, of any student infected with an infectious blood borne disease.

2.2. A Risk Assessment will be conducted using a team approach including the personal physician, public health personnel, the parent or guardian, and school district personnel as appropriate and will make recommendations about the type of educational and care setting based on the following:

- a. Behavior, neurological development and physical condition of the child;
- b. Type of interaction expected with others.
- c. What the potential is for exposure
- d. Areas for potential for exposure
- e. How exposure may happen
- f. Who needs to know?
- g. What will happen if there is a risk of exposure?

2.3. The team will consider the risk to others in the workplace, whether or not the individual is healthy enough to continue to attend school, and what precautions should be taken to ensure the safety and health of others.

a. The identity of infected students will remain confidential and restricted to those who need to know or are required to be informed.

2.4. Decisions on attendance at school are dependent on the circumstances of each individual case. Regular evaluation of the appropriateness of attendance will be conducted.

2.5. The Board will be notified immediately when the team considers the health condition of a student to be a danger to the immediate health and welfare of a school, its students or employees of the Board.

a. Upon being notified of the team's concern, the Board will refer the matter to the Medical Health Officer in accordance with the procedures outlined in the School Act.

3. Employees

3.1. The Superintendent will be informed, by district staff as soon as is known, of any employee infected with an infectious blood borne disease.

3.2. Employees with an infectious blood borne disease, who are able to carry out the essential duties of their jobs in a satisfactory manner without posing a health or safety risk to themselves or others, will be entitled to continue their work.

3.3. Decisions regarding potential health or safety hazards will be made on a case-by-case basis in consultation with the employee, the personal physician and district personnel as appropriate.

3.4. The identity of infected employees will remain confidential and restricted to those who need to know or are required to be informed.

3.5. The Board will be notified immediately if the Superintendent considers the health condition of an employee to be a danger to the immediate health and welfare of a school, its students or other employees of the Board.

a. Upon being notified of the Superintendent's concern, the Board will refer the matter to the Medical Health Officer in accordance with the procedures outlined in the School Act.

4. Hygienic Safety Practices

4.1. All employees will follow “Universal Infection Control Precautions” by assuming that blood and other body fluids from all individuals are potentially infectious. These precautions include:

- a. Routinely using gloves when anticipating contact with blood
- b. Immediately washing hands and other skin surfaces after removal of gloves and/or contact with blood

4.2. Schools will be provided with appropriate protective equipment including disposable waterproof gloves (natural rubber latex, neoprene, nitrile, or vinyl), tongs or pliers and proper sharps containers.

4.3. Schools’ medical room mattresses will be either vinyl-coated beds or cloth mattress with a protective vinyl (plastic) covering so that they can be cleaned as needed with a bleach solution.

4.4. Blankets can be cleaned as needed by forwarding them, in a clearly labeled plastic bag, to the Assistant Supervisor Operations at the Facilities Office.

5. Universal Precautions

5.1. Universal Precautions to prevent transmission of blood-borne disease will be followed. Universal Precautions is the term for infection control measures endorsed by the Canadian Centre for Occupational Health and Safety for workers who might come into contact with blood and other body fluids. In summary they include:

- a. Wash hands for 30 seconds after contact with blood and other body fluids contaminated with blood.
- b. Wear disposable latex gloves when you encounter blood, body fluids, or when cleaning cuts, scrapes or wounds. Wash your hands as soon as you remove your gloves. Dispose gloves in a plastic bag.
- c. Use disposable absorbent material like paper towels to stop bleeding.
- d. Discard bloodstained material in a sealed plastic bag and deposit in the garbage. Label as containing blood-tainted material.
- e. Cover cuts or scrapes with a bandage until healed.
- f. Immediately protect staff and students from coming in contact with blood-soiled surfaces. The area must be disinfected with a fresh solution of one part bleach and nine-parts water (10% bleach solution).

Mops or brushes used for cleaning should be soaked in a bleach solution for 20 minutes.

(Note: The custodial department will provide each school with the product for dissolving in water to provide the bleach solution.)

6. Identification of Risks of Occupational Exposure

6.1. In accordance with the Occupational Health and Safety Regulations (section 6.35), the district’s Health & Safety Coordinator will develop and maintain a list of positions and/or tasks and procedures where there is a potential for occupational exposure to a blood borne pathogen.

6.2. Employees who have, or may have, occupational exposure to the hepatitis B virus, will upon request, receive a hepatitis B vaccination (section 6.39, OH&S Regs).

6.3. Employees who may have been exposed to a blood borne pathogen in an exposure incident will be advised to immediately seek medical attention

Blood Borne Pathogen Incident Reporting Form and Exposure Control Plan63

Blood Borne Pathogens - Safety Practices64

Comprehensive School Safety Plan Purpose

Effective January 1, 2019, Assembly Bill 1747 (Rodriguez), School Safety Plans, became law. This bill requires that during the writing and development of the comprehensive school safety plan (CSSP), the school site council or safety committee consult with a fire department and other first responder entities in addition to currently required entities. It requires the CSSP and any updates made to the plan to be shared with the law enforcement agency, the fire department, and the other first responder entities.

The California Education Code (sections 32280-32288) outlines the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school.

In 2004, the Legislature and Governor recast and renumbered the Comprehensive School Safety Plan provisions in SB 719 and AB 115. It is the intent of the Legislature in enacting the provisions to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process, that include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses.

The historical requirement of the Comprehensive School Safety Plan was presented in Senate Bill 187, which was approved by the Governor and chaptered in 1997. This legislation contained a sunset clause that stated that this legislation would remain in effect only until January 1, 2000. Senate Bill 334 was approved and chaptered in 1999 and perpetuated this legislation under the requirement of the initial legislation.

Comprehensive School Safety Plans are required under SB 719 & AB 115 and contains the following elements:

Assessment of school crime committed on school campuses and at school-related functions

- Child abuse reporting procedures
- Disaster procedures
- Suspension and expulsion policies
- Procedures to notify teachers of dangerous pupils
- Discrimination and harassment policies
- School wide dress code policies
- Procedures for safe ingress and egress
- Policies enacted to maintain a safe and orderly environment
- Rules and procedures on school discipline
- Hate crime reporting procedures

The Comprehensive School Safety Plan will be reviewed and updated by March 1st every year. In July of every year, the school will report on the status of its school safety plan including a description of its key elements in the annual school accountability report card.

A copy of the Comprehensive School Safety Plan is available for review at Crafton School; 311 N. Wabash Ave, Redlands 92373.

Safety Plan Vision

Crafton Elementary School will provide a safe, orderly, and secure environment conducive to learning. Crafton Elementary School will create a school in which pupils will attend regularly and be safe from both physical and social-psychological harm. Crafton Elementary School will work collaboratively with the district office and school board to identify, establish and use strategies and programs to comply with school safety laws. Crafton Elementary School will develop a plan to work cooperatively and collaboratively with parents, pupils, teachers, administrators, counselors and community agencies, including law enforcement, to provide a safe and orderly school and neighborhood. Crafton Elementary School will develop an academic program that will focus on high expectations of pupil performance and behavior in all aspects of the school experience. Crafton Elementary School will work collaboratively with other elementary schools, middle schools and high schools to assist in a smooth transition from one school level to another. Crafton Elementary School will solicit the participation, views, and advice of teachers, parents, school administrators, and community members and use this information to promote the safety of our pupils, staff and community.

Assessment of School Safety

Crafton had only one incident to report in 2023-24, and this incident had a quick response and was handled within a timely manner.

Strategies and Programs to Provide and Maintain a High Level of Safety (EC 32281(a)1, items A-J)

Introduction - School Profile

Crafton Elementary is one of twenty-four schools in the Redlands Unified School District with traditions dating back to 1888. Crafton Elementary has a diverse pupil student body and is served by a dedicated staff. Both staff and parents comment on the positive changes that are ongoing in our school.

Crafton Elementary faces challenges in maintaining a safe school. Policy 5141.4: Child Abuse Prevention and Reporting

The Governing Board recognizes that the district has a responsibility to facilitate the prompt reporting of incidents of child abuse and neglect. The Superintendent or designee shall ensure that parents/guardians have access to procedures whereby they can report suspected child abuse at a school site to appropriate child protective agencies

The Superintendent or designee shall develop and implement regulations for use by employees in identifying and reporting child abuse

District employees shall report known or suspected incidents of child abuse in accordance with district regulations and state law. Employees shall cooperate with the child protective agencies responsible for reporting, investigating and prosecuting cases of child abuse.

(cf. 4112.9 - Signed Statements/Child Abuse Reporting Statements)

The Superintendent or designee shall provide training in child abuse identification and reporting for all certificated and classified personnel. (Penal Code 11165.7)

All employees trained in child abuse identification and reporting shall be given, as a part of that training, written notice of the child abuse reporting requirements and the employees' confidentiality rights. (Penal Code 11165.7)

In order to reduce or eliminate unfounded child abuse accusations directed at school employees, child abuse in service training shall include guidance in disciplining students and maintaining ethical relationships with them.

(cf. 3514 - Safety)

(cf. 5142 - Safety)

Duty to Report

Certificated employees and classified employees trained in child abuse identification and reporting shall report known or suspected child abuse to a child protective agency by telephone immediately or as soon as practically possible and in writing within 36 hours. The reporting duties are individual and cannot be delegated to another individual except under circumstances set forth in Penal Code 11166.

Definitions

Child Abuse includes the following:

1. A physical injury inflicted by other than accidental means on a child by another person.
2. Willful cruelty or unjustifiable punishment of a child, or willfully inflicting unjustifiable physical pain or mental suffering, or failure to safeguard a child from these injuries when the child is under a person's care or custody
3. Sexual abuse of a child
4. Neglect of a child or abuse in out-of-home care
5. Unlawful corporal punishment or injury resulting in a traumatic condition

Mandated Reporters are those people defined by law as child care custodians, health practitioners, child visitation monitors and employees of a child protective agency. Mandated reporters include virtually all school employees. The following school personnel are required to report:

Teachers, administrators, supervisors of child welfare and attendance, certificated student personnel employees, employees of care institutions, Headstart teachers, school psychologists, licensed nurses, counselors, presenters of child abuse prevention programs and those instructional aides or other classified employees trained in child abuse reporting.

Child Protective Agencies are those law enforcement and child protective services responsible for investigating child abuse reports, including the local police or sheriff department, county welfare or juvenile probation department and child protective services.

Reasonable Suspicion means that it is objectively reasonable for a person to entertain such a suspicion, based upon facts that could cause a reasonable person in a like position, drawing when appropriate on his/her training and experience, to suspect child abuse. (Penal Code 11166)

Reporting Procedures

To report known or suspects child abuse, any employee (as defined above) shall report by telephone to the local child protective agency immediately. (Child Protective Services 921 County Center, 3 Court, Modesto, CA phone # 525- 6641)

The following information shall be given:

1. The name of the person making the report
2. The name of the child
3. The present location of the child
4. The nature and extent of any injury

Any other information requested by the child protective agency, including the information that led the mandated reporter to suspect child abuse.

When the verbal report is made, the mandated reporter shall note the name of the official contacted, the date and time contacted, and any instructions or advice received.

Within 36 hours of making the telephone report, the mandated reporter shall complete and mail to the local child protective agency a written report which includes a completed Department of Justice form (DOJ SS 8572).

Mandated reports may obtain copies of the above form either from the district or local child protective agency.

Instructions are included on the form, and reporters may ask the site administrator for help in completing and mailing it; however, the mandated reporter is personally responsible for ensuring that the written report is correctly filed.

Employees reporting child abuse to a child protective agency are encouraged, but not required, to notify the site administrator or designee as soon as possible after the initial verbal report by telephone. When so notified, the site administrator shall inform the Superintendent or designee.

Administrators so notified shall provide the mandated reporter any assistance necessary to ensure that reporting procedures are carried out in accordance with law and district regulations. At the mandated reporter's request, the principal may assist in completing and filing the form.

If the mandated reporter does not disclose his/her identity to a district administrator, he/she shall at least provide or mail a copy of the written report to the site administrator and the district without his/her signature or name.

Legal Responsibility and Liability

Mandated reporters have absolute immunity. School employees required to report are not civilly or criminally liable for filing a required or authorized report of known or suspected child abuse.

A mandated reporter who fails to report an instance of child abuse, which he/she knows to exist or reasonably should know to exist, is guilty of a misdemeanor and is punishable by confinement in jail for a term not to exceed six months or by a fine of not more than \$1,000 or both. The mandated reporter may also be held civilly liable for damages for any injury to the child after a failure to report

When two or more persons who are required to report have joint knowledge of suspected instance of child abuse, and when they so agree, the telephone report may be made by either of them and a single report made and signed by that person.

However, if any person who knows or should know that the person designated failed to make the report, that person then has a duty to make the report.

The duty to report child abuse is an individual duty and no supervisor or administrator may impede or inhibit such reporting duties. Furthermore, no person making such a report shall be subject to any sanction.

Victim Interview

Upon request, a child protective agency representative may upon request interview a suspected victim of child abuse during school hours, on school premises, concerning a report of suspected child abuse that occurred within the child's home. The child shall be given the choice of being interviewed in private or in the presence of any adult school employee or volunteer aide selected by the child. (Penal Code 11174.3)

A staff member or volunteer aide selected by a child may decline to be present at the interview. If the selected person accepts, the principal or designee shall inform him/her, before the interview takes place, of the following legal requirements:

1. The purpose of the selected person's presence at the interview is to lend support to the child and enable him/her to be as comfortable as possible.
2. The selected person shall not participate in the interview.
3. The selected person shall not discuss the facts or circumstances of the case with the child.
4. The selected person is subject to the confidentiality requirements of the Child Abuse and Reporting Act, a violation of which is punishable as specified by Penal Code 11167.5.
5. If a staff member agrees to be present, the interview shall be held at a time during school hours when it does not involve an expense to the school. (Penal Code 11174.3)

Release of Child to Peace Officer or Child Protective Services Agent

When a child is released to a peace officer or child protective agency and taken into custody as a victim of suspected child abuse, the Superintendent and/or principal shall not notify the parent/guardian as required in other instances of removal of a child from school, but rather shall provide the protective agency with the address and telephone number of the child's parent/guardian. It is the responsibility of the peace officer or agent to notify the parent/guardian of the situation. (Education Code 48906)

Peace officer and child protective services agents will be asked to sign an appropriate release or acceptance of responsibility form.

(cf. 5145.11 - Questioning and Apprehension)

When School Employees are Accused of Child Abuse

Regardless of who child abusers may be, the major responsibilities of mandated reports are to 1) identify incidents of suspected child abuse, and 2) comply with laws requiring the reporting of suspected abuse to proper authorities. Determining whether or not the suspected abuse actually occurred is not the responsibility of the school employee. Such determination and follow-up investigation will be made by a child protective agency.

Pending outcome of an investigation by a child protective agency and before formal charges are filed, the employee may be subject to reassignment or a paid leave of absence.

Upon filing formal charges or upon conviction, the district may take disciplinary action in accordance with law, district policies, regulations and/or collective bargaining agreements. The Superintendent or designee shall seek legal counsel in connection with either the suspension or dismissal of the employee.

(C) School Suspension, Expulsion and Mandatory Expulsion Guidelines

Policy 5144.1: Suspension And Expulsion/Due Process

SUSPENSION AND EXPULSION

The Governing Board recognizes that maintaining an environment which promotes learning and protects the health, safety, and welfare of all students may require the suspension or expulsion of a student from regular classroom instruction. District policies and school site rules shall clearly identify district behavior standards

(cf. 5144 - Discipline)

Except in cases where suspension for a first time offense is warranted in accordance with law, suspension shall be imposed only when other means of correction fail to bring about proper conduct. (Education Code 48900.5)

Expulsion is an action taken by the Board for severe or prolonged breaches of discipline by a student. Except for single acts of a grave nature, expulsion is usually used only when there is a history of misconduct, when other forms of discipline, including suspension, have failed to bring about proper conduct, or when the student's presence causes a continuing danger to other students. (Education Code 48915)

The grounds for suspension and expulsion and the procedures for considering, recommending and/or implementing suspension and expulsion shall be specified in Administrative Regulation.

Each principal shall annually inform all students and parents/guardians of the school's discipline rules and procedures and of the availability of all district policies and regulations dealing with student discipline, suspension and expulsion. (Education Code 35291, 35291.5)

(cf. 5145.6 - Parental Notifications)

Suspended or expelled students shall be excluded from all school-related extracurricular activities during the suspension or expulsion.

cf. 6145 - Extracurricular and Cocurricular Activities)

ZERO TOLERANCE

The Board supports a zero tolerance approach to serious offenses in accordance with state and federal law. This approach makes the removal of potentially dangerous students from the classroom a top priority and ensures the standardized treatment of all students. Staff shall immediately report to the Superintendent/ designee any incidence of offenses specified in law, Board policy, and administrative regulation as cause for suspension or expulsion.

STUDENT DUE PROCESS

The Board shall provide for the fair treatment of students facing suspension and expulsion by affording them their due process rights under the law. The administration and staff shall comply with procedures for notices and appeals as specified in regulation.

Procedures governing student due process shall conform in all aspects to provisions in law. (Education Codes 48911, 48915 and 48915.5)

Whenever a student is suspended, school officials may (but are not required to) meet with the parent/guardian to discuss the causes and duration of the suspension, the school policy involved, and any other pertinent matters. (Education Code 48914)

cf. 5119 - Students Expelled from Other Districts

(cf. 5144.2 - Suspension and Expulsion/Due Process - Individuals with Exceptional Needs)

RIGHTS OF COMPLAINING WITNESS

An expulsion hearing involving allegations of sexual assault or sexual battery may be postponed for one school day in order to accommodate the special physical, mental or emotional needs of a student who is the complaining witness. (Education Code 48918.5)

Whenever the Superintendent or designee recommends an expulsion hearing that addresses allegations of sexual assault or sexual battery, he/she shall give the complaining witness a copy of the district's suspension and expulsion policy and regulation and shall advise the witness of his/her right to: (Educational Code 48918.5)

1. Receive five days' notice of his/her scheduled testimony at the hearing
2. Have up to two adult support persons of his/her choosing present in the hearing at the time he/she testifies
3. Have a closed hearing during the time he/she testifies

Whenever any allegation of sexual assault or sexual battery is made, the Superintendent or designee shall immediately advise complaining witnesses and accused students to refrain from personal or telephone contact with each other during the time when an expulsion process is pending. (Education Code 48918.5)

ON-CAMPUS SUSPENSION PROGRAM

The Board recognizes that students who are suspended from school frequently have no supervision or guidance during the school hours when they are off campus. The Board believes that in many cases, instead of sending the student off campus, it would be better to address the student's misconduct by keeping the student at school and providing him/her with supervision that is separated from the regular classroom.

The Superintendent or designee shall examine alternatives to off-campus suspension and may establish a suspension program which involves progressive discipline during the school day on campus; using conferences between staff, parents/guardians and students; detention; student study teams or other assessment-related teams; and/or referral to school support services staff.

REQUIRED PARENTAL ATTENDANCE

The Board believes that parental involvement plays an important role in the resolution of classroom behavior problems. The Board expects that teachers will communicate with parents/guardians when behavior problems arise

Whenever a student is suspended from a class because he/she committed an obscene act, engaged in habitual profanity or vulgarity, disrupted school activities or otherwise willfully defied valid staff authority, the teacher of the class from which the student was suspended may require the student's parent/guardian to attend a portion of a school day in that class. After completing the classroom visit and before leaving school premises, the parent/guardian also shall meet with the principal or designee. (Education Code 48900.1)

The Board encourages teachers, before requiring parental attendance, to make reasonable efforts to have the parent/guardian visit the class voluntarily. The teacher also may consider informing the parent/guardian about available resources which may provide help in the development of parenting skills. Teachers should reserve the option of required parental attendance for cases in which they have determined that it is the best strategy to promote positive interaction between the student and the parent/guardian and to improve classroom behavior.

Parental attendance may be required on the day the student returns to class or within one week thereafter. The principal or designee shall contact any parents/guardians who do not respond to the request to attend school. The Board recognizes that parental compliance with this policy may be delayed, modified or prevented by serious illness/injury/disability, absence from town, or inability to get certain release time from work.

The teacher shall apply this policy uniformly to all students within the classroom. This policy shall apply only to a parent/guardian who actually lives with the student. (Education Code 48900.1)

District regulations and school-site rules for student discipline shall include procedures for implementing parental attendance requirements.

Parents/guardians shall be notified of this policy before it is implemented and at the beginning of each subsequent school year. (Education Code 48900.1, 35291, 48980)

DECISION NOT TO ENFORCE EXPLUSION ORDER

In cases where expulsion is mandatory pursuant to Education Code 48915(c), the enforcement of an expulsion order shall not be suspended by the Board. In all other cases of expulsion, the order for expulsion may be suspended by the Board, on a case-by-case basis, pursuant to the requirements of law.

However, this restriction on the number of days of suspension does not apply when the suspension is extended pending an expulsion. (Education Code 48903 and 48912)

SUSPENSION PROCEDURES

1. Informal Conference: Suspension shall be preceded by an informal conference conducted by the principal or designee or the Superintendent or designee between the student, and whenever practicable, the teacher, supervisor or school employee who referred the student to the principal. At the conference, the student shall be informed of the reason for the disciplinary action and the evidence against him/her and shall be given the opportunity to present his/her version and evidence in support of his/her defense. (Education Code 48911(b))

This conference may be omitted if the principal, designee or the Superintendent or designee determines that an emergency situation exists. An "emergency situation" involves a clear and present danger to the lives, safety or health of students or school personnel. If the pre-suspension conference is not held, both the parent/guardian and student shall be notified of the student's right to return to school for the purpose of a conference. The conference shall be held within two school days, unless the student waives his/her right to it or is physically unable to attend for any reason. In such case, the conference will be held as soon as the student is physically able to return to school. (Education Code 48911(c))

2. Administrative Actions: All requests for student suspension are to be processed by the principal or designee of the school in which the student is enrolled at the time of the misbehavior

A school employee shall report the suspension, including the name of the student and the cause for the suspension, to the Superintendent or designee, who in turn will inform the Board.

3. Notice to Parents/Guardians: At the time of the suspension, a school employee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension. (Education Code 48911)

This notice shall state the specific offense committed by the student. (Education Code 48900.8)

In addition, the notice may also state the date and time when the student may return to school.

Should school officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may also add that state law requires the parent/guardian to respond to such request without delay.

4. Parent/Guardian Conference: Whenever a student is suspended, school officials may meet with the parent/guardian to discuss the causes and duration of the suspension, the school policy involved, and any other pertinent matters. (Education Code 48914)

While the parent/guardian is required to respond without delay to a request for a conference about a student's behavior, no penalties may be imposed on the student for the failure of the parent/guardian to attend such conference. The student may not be denied readmission solely because the parent/guardian failed to attend. (Education Code 48911)

5. Extension of Suspension: If the expulsion of a suspended student is being considered by the Board, the Superintendent or designee may, in writing, extend the suspension until such time as the Board has made a decision. (Education Code 48911(g))

Any extension of the original period of suspension shall be preceded by notice of such extension with an offer to hold a conference concerning the extension, giving the student an opportunity to be heard. This conference may be held in conjunction with a meeting requested by the student or parent/guardian to challenge the original suspension. Extension of the suspension may be made only if the Superintendent or designee determines, following a meeting in which the student and the student's parent/guardian were invited to participate, that the student's presence at the school or at an alternative school would endanger persons or property or threaten to disrupt the instructional process. (Education Code 48911(g))

SUSPENSION BY THE BOARD

The Board may suspend a student for any of the acts listed in "Grounds for Suspension and Expulsion" above and within the limits specified in "Suspension by Superintendent, Principal or Principal's Designee" above. (Education Code 48912)

The Board may suspend a student enrolled in a continuation school or class for a period not longer than the remainder of the semester if any of the acts listed in "Grounds for Suspension and Expulsion" occurred. The suspension shall meet the requirements of Education Code 48915. (Education Code 48912.5)

When the Board is considering a suspension, disciplinary action, or any other action (except expulsion) against any student, it may hold closed sessions if a public hearing would lead to disclosure of information which would violate a student's right to privacy under Education Code 49073-49079.

(cf. 9321 -Closed Session Purposes and Agendas)

The Board shall provide the student with written notice of the closed session by registered or certified mail. Upon receiving this notice the student may request a public meeting, and this request shall be granted if made in writing (within 48 hours after receipt of the Board's notice). However, any discussion that conflicts with any other student's right to privacy shall be in closed session. (Education Codes 48912)

AUTHORITY TO EXPEL

A student may be expelled only by the Board. The Board shall expel, as required by law, any student found to have committed certain offenses listed below under "Mandatory Recommendation and Mandatory Expulsion."

The Board may also order a student expelled for any of the acts listed above under "Grounds for Suspension and Expulsion" upon recommendation by the principal, Superintendent, hearing officer or administrative panel, based on finding either or both of the following: (Education Code 48915(b) and (e))

1. That other means of correction are not feasible
2. That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others

MANDATORY RECOMMENDATION FOR EXPULSION

The principal, Superintendent or designee shall recommend a student's expulsion for any of the following acts, unless the principal or Superintendent or designee finds, and reports in writing to the Board, that expulsion is inappropriate due to particular circumstances which shall be set out in the report of the incident:

1. Causing serious physical injury to another person, except in self-defense.
2. Possession of any knife as defined in Education Code 48915(g), explosive or other dangerous object of no reasonable use to the student.

3. Unlawful possession of any controlled substance, as listed in Health and Safety Code 11053-11058, except for the first offense for the possession of not more than one ounce of marijuana, other than concentrated cannabis.
4. Robbery or extortion.
5. Assault or battery, as defined in Penal Code 240 and 242, upon any school employee.

MANDATORY RECOMMENDATION AND MANDATORY EXPULSION

The principal, Superintendent or designee shall recommend that the Board expel any student found at school or at a school activity off school grounds to be: (Education Code 48915(c))

1. Possessing, as verified by a district employee, or selling or otherwise furnishing a firearm, unless the student had obtained prior written permission to possess the item from a certificated school employee, with the principal or designee's concurrence. (Education Code 48915(c).1)
2. Brandishing a knife as defined in Education Code 48915(g) at another person. (Education Code 48915(c).2)
3. Unlawfully selling a controlled substance listed in Health and Safety Code 11053-11058. (Education Code 48915(c).3)

5. Possessing an explosive as defined in 18 USC 921.

Upon finding that the student committed any of the above acts, the Board shall expel the student. (Education Code 48915)

STUDENT'S RIGHT TO AN EXPULSION HEARING

The student is entitled to a hearing to determine whether the student should be expelled. The hearing shall be held within 30 school days after the principal or Superintendent or designee determines that one of the acts listed under "Grounds for Suspension and Expulsion" has occurred. (Education Code 48918(a))

The student is entitled to one postponement of an expulsion hearing for a period of not more than 30 calendar days. The request for postponement shall be in writing. Any subsequent postponement may be granted at the district's discretion. (Education Code 48918(a))

If the district finds it impracticable to comply with these time requirements for conducting an expulsion hearing, the Superintendent or designee may, for good cause, extend the time period by an additional five school days. Reasons for the extension shall be included as a part of the record when the expulsion hearing is held. (Education Code 48918(a))

Once the hearing starts, all matters shall be pursued with reasonable diligence and concluded without unnecessary delay. (Education Code 48918(a))

RIGHTS OF COMPLAINING WITNESS

An expulsion hearing involving allegations of sexual assault or sexual battery may be postponed for one school day in order to accommodate the special physical, mental or emotional needs of a student who is the complaining witness. (Education Code 48915.5)

Whenever the Superintendent or designee recommends an expulsion hearing that addresses allegations of sexual assault or sexual battery, he/she shall give the complaining witness a copy of the district's suspension and expulsion policy and regulation and shall advise the witness of his/her right to: (Education Code 48915.5)

1. Receive five days' notice of his/her scheduled testimony at the hearing.
2. Have up to two adult support persons of his/her choosing present in the hearing at the time he/she testifies.

WRITTEN NOTICE OF THE EXPULSION

Written notice of the hearing shall be forwarded to the student and the student's parent/guardian at least ten calendar days before the date of the hearing. The notice shall include: (Education Code 48900.8, 48918(b))

1. The date and place of the hearing.

Conduct of Expulsion Hearing

1. Closed Session: Notwithstanding the provisions of Government Code 54953 and Education Code 35145, the Board shall conduct the hearing or arrange for an alternative hearing to consider the expulsion of the student in a session closed to the public unless the student requests in writing at least five days prior to the hearing that the hearing be a public meeting. If such request is made, the meeting shall be public

Whether the expulsion hearing is held in closed or public session, the Board may meet in closed session to deliberate and determine if the student should be expelled. If the Board admits any other person to the closed session, the parent/guardian, the student, counsel of the student and counsel of the parent/guardian shall also be allowed to attend the closed session. (Education Code 48918(c))

If a hearing that involves a charge of sexual assault or sexual battery is to be conducted in public, a complaining witness shall have the right to have his/her testimony heard in closed session when testifying in public would threaten serious psychological harm to the witness and when there are no alternative procedures to avoid the threatened harm, including but not limited to videotaped deposition or contemporaneous examination in another place communicated to the hearing room by closed-circuit television. (Education Code 48918(c))

2. Record of Hearing: A record of the hearing shall be made and may be maintained by any means, including electronic recording, so long as a reasonably accurate written and complete transcription of the proceedings can be made. (Education Code 48918(g))

3. Presentation of Evidence: While technical rules of evidence do not apply to such hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. The decision of the Board to expel must be supported by substantial evidence that the student committed any of the above acts listed under "Grounds for Suspension and Expulsion" above. Findings of fact shall be based solely on the evidence at the hearing.

While no evidence shall be based solely on hearsay, sworn declarations may be admitted as testimony from witnesses whose disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm. (Education Code 48918 (f) and

In cases where a search of a student's person or property has occurred, evidence describing the reasonableness of the search shall be included in the hearing record.

4. Testimony by Complaining Witness: The following procedures shall be observed when hearings involve allegations of sexual assault or sexual battery by a student: (Education Code 48918)

Before such a determination is made, the complaining witness shall be given notice and an opportunity to oppose the introduction of this evidence. In the hearing on the admissibility of this evidence, the complaining witness shall be entitled to be represented by a parent/guardian, legal counsel or other support person. Reputation or opinion evidence regarding the sexual behavior of a complaining witness shall not be admissible for any purpose.

g. In order to facilitate a free and accurate statement of the experiences of the complaining witness and to prevent discouragement of complaints, the district shall provide a nonthreatening environment.

7. Decision Within 40 Days: If the Board does not meet on a weekly basis, its decision on whether to expel a student shall be made within 40 school days after the student is removed from his/her school of attendance, unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

ALTERNATIVE HEARING: Hearing Officer or Administrative Panel

Instead of conducting an expulsion hearing itself, the Board may contract with the county hearing officer or with the Office of Administrative Hearings of the State of California for a hearing officer. Alternatively, the Board may appoint an impartial administrative panel composed of three or more certificated personnel, none of whom shall be members of the Board or on the staff of the school in which the student is enrolled. (Education Code 48918(d))

A hearing conducted by the hearing officer or administrative panel shall conform to the same procedures as apply to a hearing conducted by the Board as specified in "Conduct of Expulsion Hearing" above.

The hearing officer or administrative panel shall, within three school days after the hearing, determine whether to recommend expulsion of the student to the Board. If expulsion is not recommended, the student shall be immediately reinstated. (See "Reinstatement" below.) The Superintendent or designee shall place the student in a classroom instructional program, any other instructional program, a rehabilitation program, or any combination of these programs after consulting with district staff, including the student's teachers and with the student's parent/guardian. (Education Code 48918(e))

If expulsion is recommended, findings of fact in support of the recommendation shall be prepared and submitted to the Board. All findings of fact and recommendations shall be based solely on the evidence presented at the hearing. The Board may accept the recommendation based either upon a review of the findings of fact and recommendations submitted or upon the results of any supplementary hearing the Board may order. (Education Code 48918(f))

The hearing officer or administrative panel may recommend that the Board suspend the expulsion for a period of one year. (See "Suspension of Expulsion" below.)

The Board shall make its decision about the student's expulsion within 40 school days after the date of the student's removal from school unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

STIPULATED EXPULSIONS

It is the policy of the Redlands Unified School District that, where approved by the Superintendent or designee, parents/guardians may agree to the expulsion of their pupil by stipulation without necessity of a hearing. This process will expedite the pupil's school placement and may expedite the rehabilitation process.

A stipulated expulsion must be purely voluntary. No district administrator or staff member may coerce a pupil, parent or guardian into entering into such a stipulation. Parents/guardians will be given three calendar days to decide on a stipulated expulsion agreement.

If the parent/guardian requests a stipulated expulsion, the Superintendent or designee will promulgate the stipulated agreement. If at any time the parent/guardian decides not to pursue a stipulated agreement, the expulsion proceedings and timelines, extended by the length of the period for consideration of the stipulation, will be reinstated. The stipulated agreement will be presented to the Board for final consideration.

The stipulated agreement will include the terms and conditions of the expulsion order, including alternative placement and a rehabilitation plan to be completed before the student can be re-admitted to the district.

FINAL ACTION BY THE BOARD

Whether the expulsion hearing is conducted in closed or public session by the Board, a hearing officer, or an administrative panel, the final action to expel must be taken by the Board at a public meeting. (Education Code 48918(f)) The Board shall maintain a record of each expulsion, including its cause. Expulsion records shall be non-privileged, disclosable public records.

(cf. 9321.1 - Closed Session Actions and Reports)

If the Board conducts the hearing and reaches a decision not to expel, this decision shall be final and the student shall be reinstated immediately.

Upon ordering the expulsion, the Board shall set a date when the student shall be reviewed for readmission to a school within the district. For a student expelled for an act listed under "Mandatory Recommendation and Mandatory Expulsion" above, this date shall be one year from the date the expulsion occurred, except that the Board may set an earlier date on a case-by-case basis. For a student expelled for other acts, this date shall be no later than the last day of the semester following the semester in which the expulsion occurred. (Education Code 48916)

At the time of the expulsion order, the Board shall recommend a plan for the student's rehabilitation, which may include: (Education Code 48916)

1. Periodic review as well as assessment of the student at the time of review for readmission.
2. Recommendations for improved academic performance, tutoring, special education assessments, job training, counseling, employment, community service and other rehabilitative programs.
3. Such other recommendations as the Board approves.

With parental consent, students who have been expelled for reasons relating to controlled substances or alcohol may be required to enroll in a county-sponsored drug rehabilitation program before returning to school. (Education Code 48916.5)

Upon expulsion, a copy of readmission procedures will be made available to the student and his/her parent/guardian.

WRITTEN NOTICE TO EXPEL

The Superintendent or designee shall send written notice of the decision to expel to the student or parent/guardian. The notice shall include the following:

1. The specific offense committed by the student for any of the causes for suspension or expulsion listed in Education Code 48900(a)-(o), Education Code 48900.2-48900.4 and Education Code 48915(c). (Education Code 48900.8)
2. The fact that a description of readmission procedures will be made available to the student and his/her parent/guardian. (Education Code 48916)
3. Notice of the right to appeal such expulsion to the County Board of Education. (Education Code 48918)
4. Notice of the alternative educational placement to be provided to the student during the time of expulsion. (Education Code 48918)
5. The notice also shall inform the student or parent/guardian of his/her obligation to inform any new district in which the student seeks to enroll of the student's status with the expelling district, pursuant to Education Code 48915.1. (Education Code 48918)

SUSPENSION OF EXPULSION

The Board, upon voting to expel a student, may suspend the enforcement of the expulsion order for not more than one calendar year. When deciding whether to suspend an expulsion, the Board shall take into account the following criteria:

1. The student's previous behavior.
2. The seriousness of the misconduct.
3. The student's attitude toward the misconduct and his/her willingness to follow a rehabilitation program.

The suspension of the enforcement of an expulsion shall be governed by the following: (Education Code 48917)

1. The Board may, as a condition of the suspension of enforcement, assign the student to a school, class or program appropriate for the student's rehabilitation. This rehabilitation program may provide for the involvement of the student's parent/guardian in the student's education. However, a parent/guardian's refusal to participate in the rehabilitation program shall not be considered in the Board's determination as to whether the student has satisfactorily completed the rehabilitation program.
2. During the period when enforcement of the expulsion order is suspended, the student shall be on probationary status.
3. The suspension of expulsion order may be revoked by the Board if the student commits any of the acts listed under "Grounds for Suspension and Expulsion" above or violates any of the district's rules and regulations governing student conduct.
4. When suspension of expulsion order is revoked, a student may be expelled under the terms of the original expulsion order
5. Upon satisfactory completion of the rehabilitation assignment, the Board shall reinstate the student in a district school. Upon reinstatement, the Board may order the expungement of any or all records of the expulsion proceedings.
6. Suspension of an expulsion order shall not affect the time period and requirements for the filing of an appeal of the expulsion order with the County Board of Education.
7. The Superintendent or designee shall send written notice of any decision to suspend the enforcement of an expulsion order during a period of probation to the student or parent/guardian. The notice shall also inform the parent/guardian of the right to appeal the expulsion to the County Board of Education. (Education Code 48918(i))

RIGHT TO APPEAL

The student or parent/guardian is entitled to file an appeal of the Board's decision to the County Board of Education.

The appeal must be filed within 30 days of the Board's decision to expel, even if the expulsion action is suspended and the student is placed on probation. (Education Code 48919)

Post-Expulsion Placements

The Board shall refer expelled students to a program of study that is: (Education Code 48915, 48915.01)

1. Appropriately prepared to accommodate students who exhibit discipline problems.
2. Not provided at a comprehensive middle, junior or senior high school or at any elementary school, unless the program is offered at a community day school established at such a site.
3. Not housed at the school site attended by the student at the time of suspension.

(cf. 6185 - Community Day School)

When the placement described above is not available, and when the County Superintendent of Schools so certifies, students expelled for acts described in items #6 through # 13 and # 17 through # 19 under "Grounds for Suspension and Expulsion" above may be instead referred to a program of study that is provided at another comprehensive middle, junior, or senior high school, or at an elementary school.

The program for a student expelled from any of grades K-6 shall not be combined or merged with programs offered to students in any of grades 7-12. (Education Code 48916.1)

REINSTATEMENT

When the Board accepts a recommendation against expulsion or makes its own decision after the hearing not to expel, the decision is final and the student shall be reinstated immediately. The Superintendent or designee shall place the student in any classroom program, other instructional program, rehabilitation program, or any combination of such programs following consultation with district personnel, including the teacher involved, and with the student's parent/guardian. (Education Code 48918(e))

READMISSION

An expulsion order shall remain in effect until the Board may order the readmission of the student.

Readmission procedures shall be as follows:

1. A written request for review of expulsion action and request for readmission shall be submitted by the parent/guardian to the Superintendent or designee.
2. The Superintendent or designee will hold a conference with the parent/guardian and the student.
3. At the conference the conditions for readmission will be reviewed. The Superintendent or designee shall verify that the rehabilitation plan has been met.
4. School regulations will be reviewed and the student and parent/guardian will be asked to indicate in writing their willingness to comply with these regulations.
5. The Superintendent or designee will transmit the request for readmission to the Board, along with his/her recommendation. The Board shall consider the request in closed session if the information would be disclosed in violation of Education Code 49073-49079. If a written request for open session is received from the parent/guardian or adult student, it will be honored.
6. The Superintendent or designee will notify the student or parent/guardian, by registered mail, of the district's decision regarding readmission.
7. The Board may deny readmission only if it finds that the student has not satisfied the conditions of the rehabilitation plan or that the student continues to pose a danger to campus safety or to other district students or employees. (Education Code 48916)
8. If the Board denies the readmission of a student, the Board shall determine either to continue the student's placement in the alternative educational program initially selected or to place the student in another program that serves expelled students, including placement in a county community school. (Education Code 48916)
9. The Board shall provide written notice to the expelled student and parent/guardian describing the reasons for denying readmittance into the regular program. This notice shall indicate the Board's determination of the educational program which the Board has chosen. The student shall enroll in that program unless the parent/guardian chooses to enroll the student in another school district. (Education Code 48916)

MAINTENANCE OF RECORDS

The Board will maintain a record of each expulsion, including the specific cause of the expulsion. The expulsion record shall be maintained in the student's mandatory interim record and sent to any school in which the student subsequently enrolls, within five days of a written request by the admitting school. (Education Code 48900.8, 48918(k))

The Superintendent or designee shall, within five working days, honor any other district's request for information about an expulsion from this district. (Education Code 48915.1)

cf. 5119 - Students Expelled from Other Districts)

(cf. 5125 - Student Records)

NOTIFICATIONS AND REPORTS

Within one school day after a student's suspension or expulsion, the principal or designee shall notify appropriate city or county law enforcement authorities, by telephone or other appropriate means, of any student acts which may violate Education Code 48900(c) or (d), relating to the possession, use, offering or sale of controlled substances, alcohol, or intoxicants of any kind.

Prior to the suspension or expulsion of any student, the principal or designee shall notify appropriate city or county law enforcement authorities of any student acts of assault which may have violated Penal Code 245. (Education Code 48902)

The principal or designee also shall notify appropriate city or county law enforcement authorities of any student acts which may involve the possession or sale of narcotics or of a controlled substance or possession of weapons or firearms in violation of Penal Code 626.9 and 626.10. (Education Code 48902)

The Superintendent or designee shall maintain the following data and report such data annually to the California Department of Education, using forms supplied by the California Department of Education: (Education Code 48900.8, 48916.1)

1. The number of students recommended for expulsion.
2. The specific grounds for each recommended expulsion.
3. Whether the student was subsequently expelled.
4. Whether the expulsion order was suspended.
5. The type of referral made after the expulsion.
6. The disposition of the student after the end of the expulsion period.

Pursuant to Education Code 48900.7, the making of a terrorist threat includes any written or oral statement by a person who willfully threatens to commit a crime which will result in death, great bodily injury to another person or property damage in excess of \$1,000.00, with the specific intent that the statement is to be taken as a threat, even if there is no intent of actually carrying it out.

A student in grades 4 through 12 is also subject to suspension or recommendation for expulsion when it is determined that he/she:

17. Committed sexual harassment as defined in Education Code 212.5. (Education Code 48900.2)

Pursuant to Education Code 48900.2 the conduct constitutes harassment when considered from the perspective of a reasonable person of the same gender as the victim to be sufficiently severe or pervasive as to have a negative impact upon the victim's academic performance or to create an intimidating, hostile or offensive educational environment.

(cf. 5145.7 - Sexual Harassment)

18. Caused, attempted to cause, threatened to cause, or participated in an act of hate violence as defined in Education Code 233. (Education Code 48900.3)

(cf. 5145.9 - Hate-Motivated Behavior)

Such acts include injuring or intimidating another person, interfering with the exercise of a person's civil rights, or damaging a person's property because of the person's race, color, religion, ancestry, national origin, disability, gender or sexual orientation.

19. Intentionally harassed, threatened or intimidated a student or group of students to the extent of having the actual and reasonably expected effect of materially disrupting class work, creating substantial disorder, and invading student rights by creating an intimidating or hostile educational environment. (Education Code 48900.4)

(cf. 5145.3 - Nondiscrimination/Harassment)

A student may be suspended or expelled for any of the acts listed above if the act is related to school activity or school attendance occurring at any district school under the jurisdiction of the Superintendent or principal or within any other school district, including but not limited to the following circumstances: (Education Code 48900)

1. While on school grounds.
2. While going to or coming from school.
3. During the lunch period, whether on or off the school campus.
4. During, going to, or coming from a school-sponsored activity.

The Superintendent or principal may use his/her discretion to provide alternative to suspension or expulsion for a student subject to discipline under this administrative regulation, including, but not limited to, counseling and an anger management program. (Education Code 48900(r))

Alternatives to suspension or expulsion will be used with students who are truant, tardy, or otherwise absent from assigned school activities.

(cf. 5113 - Absences and Excuses)

(cf. 5113.1 - Truancy)

Removal from Class by a Teacher/Parental Attendance

A teacher may suspend any student from his/her class for the remainder of the day and the following day for any act listed in "Grounds for Suspension and Expulsion" above. (Education Code 48910)

A teacher also may refer a student to the principal or designee for consideration of suspension from school. (Education Code 48910)

When removing a student from his/her class, the teacher shall immediately report this action to the principal and send the student to the principal for appropriate action. The student shall be appropriately supervised during the class periods from which he/she has been removed.

As soon as possible, the teacher shall ask the student's parent/guardian to attend a parent-teacher conference regarding the removal. A counselor or psychologist should attend the conference if it is practicable, and a school administrator may attend if either the parent/guardian or teacher so requests.

A student removed from class shall not be returned to class during the period of removal without the approval of the teacher of the class and the principal. (Education Code 48910)

A student removed from class shall not be placed in another regular class during the period of removal. However, if a student is assigned to more than one class per day, he/she may be placed in any other regular classes except those held at the same time as the class from which the student was removed. (Education Code 48910)

The teacher of any class from which a student is removed may require the student to complete any assignments and tests missed during the removal. (Education Code 48913)

Pursuant to Board policy, a teacher may provide that the parent/guardian of a student whom the teacher has removed attend a portion of a school day in his/her child's classroom. When a teacher makes this request, the principal shall send the parent/guardian a written notice that the parent/guardian's attendance is requested pursuant to law. (Education Code 48900.1)

This notice shall also:

1. Inform the parent/guardian when his/her presence is expected and by what means he/she may arrange an alternate date.
2. Describe the legal protections afforded to the parent/guardian as an employee under Labor Code 230.7.
3. State that if the parent/guardian does not have a means of transportation to school, he/she may ride the school bus with the student.
4. Ask the parent/guardian to meet with the principal after the visit and before leaving school, as required by Education Code 48900.1.

Suspension by Superintendent, Principal or Principal's Designee

The Superintendent, principal or principal's designee may suspend a student from a school for not more than five consecutive school days unless the suspension is extended pending expulsion. (Education Code 48911)

The Superintendent or designee shall immediately suspend any student found at school or at a school activity to be: (Education Code 48915)

1. Possessing, as verified by a district employee, or selling or otherwise furnishing a firearm, unless the student had obtained prior written permission to possess the item from a certificated school employee, with the principal or designee's concurrence.
2. Brandishing a knife, as defined in Education Code 48915(g), at another person.
3. Unlawfully selling a controlled substance listed in Health and Safety Code 11053-11058.
4. Committing or attempting to commit a sexual assault or committing a sexual battery as defined in item #14 under "Grounds for Suspension and Expulsion".
5. Possession of an explosive as defined in 18 USC 921.

Suspension also may be imposed upon a first offense if the Superintendent, principal or designee determines the student violated items #1-5 listed in "Grounds for Suspension and Expulsion" above or if the student's presence causes a danger to persons or property or threatens to disrupt the instructional process. (Education Code 48900.5)

A student may be suspended from school for not more than 20 school days in any school year, unless for purposes of adjustment a student enrolls in or is transferred to another regular school, an opportunity school, or continuation school or class, in which case suspension shall not exceed 30 days in any school year. However, this restriction on the number of days of suspension does not apply when the suspension is extended pending an expulsion. (Education Code 48903, 48912)

The Superintendent or designee may count suspensions that occur while a student is enrolled in another school district toward the maximum number of days for which a student may be suspended in any school year. (Education Code 48903)

Suspensions shall be initiated according to the following procedures:

1. Informal Conference: Suspension shall be preceded by an informal conference conducted by the principal, designee or the Superintendent with the student and whenever practicable, the teacher, supervisor or school employee who referred the student to the principal. At the conference, the student shall be informed of the reason for the disciplinary action and the evidence against him/her; the student shall be given the opportunity to present his/her version and evidence in support of his/her defense. (Education Code 48911(b))

This conference may be omitted if the principal, designee or the Superintendent determines that an emergency situation exists. An "emergency situation" involves a clear and present danger to the lives, safety or health of students or school personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student's right to return to school for the purpose of a conference. The conference shall be held within two school days, unless the student waives his/her right to it or is physically unable to attend for any reason. In such case, the conference will be held as soon as the student is physically able to return to school. (Education Code 48911(c))

2. Administrative Actions: All requests for student suspension are to be processed by the principal or designee of the school in which the student is enrolled at the time of the misbehavior. A school employee shall report the suspension, including the name of the student and the cause for the suspension, to the Superintendent or designee.

3. Notice to Parents/Guardians: At the time of the suspension, a school employee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension. (Education Code 48911)

This notice shall state the specific offense committed by the student. (Education Code 48900.8).

In addition, the notice may also state the date and time when the student may return to school. If school officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may add that state law requires the parent/guardian to respond to such requests without delay.

4. Parent/Guardian Conference: Whenever a student is suspended, school officials may meet with the parent/guardian to discuss the causes and duration of the suspension, the school policy involved, and any other pertinent matters. (Education Code 48914)

While the parent/guardian is required to respond without delay to a request for a conference about a student's behavior, no penalties may be imposed on the student for the failure of the parent/guardian to attend such conference. The student may not be denied readmission solely because the parent/guardian failed to attend. (Education Code 48911)

5. Extension of Suspension: If the Board is considering the expulsion of a suspended student from any school or the suspension of a student for the balance of the semester from continuation school, the Superintendent or designee may, in writing, extend the suspension until such time as the Board has made a decision. (Education Code 48911(g))

Any extension of the original period of suspension shall be preceded by notice of such extension with an offer to hold a conference concerning the extension, giving the student an opportunity to be heard. This conference may be held in conjunction with a meeting requested by the student or parent/guardian to challenge the original suspension. Extension of the suspension may be made only if the Superintendent or designee determines, following a meeting in which the student and the student's parent/guardian were invited to participate, that the student's presence at the school or at an alternative school would endanger persons or property or threaten to disrupt the instructional process. (Education Code 48911)

Suspension by the Board

The Board may suspend a student for any of the acts listed in "Grounds for Suspension and Expulsion" above and within the limits specified in "Suspension by Superintendent, Principal or Principal's Designee" above. (Education Code 48912)

The Board may suspend a student enrolled in a continuation school or class for a period not longer than the remainder of the semester if any of the acts listed in "Grounds for Suspension and Expulsion" occurred. The suspension shall meet the requirements of Education Code 48915. (Education Code 48912.5)

When the Board is considering a suspension, disciplinary action, or any other action (except expulsion) against any student, it shall hold closed sessions if a public hearing would lead to disclosure of information violating a student's right privacy under Education Code 49073-49079.

(cf. 9321 - Closed Session Purposes and Agendas)

The Board shall provide the student and his/her parent/guardian with written notice of the closed session by or certified mail. Upon receiving this notice, the student or parent/guardian may request a public meeting, and this request shall be granted if made in writing within 48 hours after receipt of the Board's notice. However, any discussion that conflicts with any other student's right to privacy still shall be held in closed session. (Education Codes 35146, 48912)

On-Campus Suspension Program

Students for whom an expulsion action has not been initiated and who pose no imminent danger or threat to the school may be assigned to a separate, supervised suspension classroom for the entire period of suspension. The following conditions shall apply: (Education Code 48911.1)

1. The supervised suspension classroom shall be staffed in accordance with law.
2. The student shall have access to appropriate counseling services.
3. The supervised suspension classroom shall promote completion of schoolwork and tests missed by the student during the suspension.
4. Each student shall be responsible for contacting his/her teacher(s) to receive assignments to be completed in the supervised suspension classroom. The teacher shall provide all assignments and tests that the student will miss while suspended. If no such work is assigned, the person supervising the suspension classroom shall assign schoolwork.

At the time a student is assigned to a supervised suspension classroom, the principal or designee shall notify the student's parent/guardian in person or by telephone. When the assignment is for longer than one class period, this notification shall be made in writing. (Education Code 48911.1)

Mandatory Recommendation for Expulsion

Unless the principal, Superintendent or designee finds that expulsion is inappropriate due to particular circumstances, the principal, Superintendent or designee shall recommend a student's expulsion for any of the following acts: (Education Code 48915 (a))

1. Causing serious physical injury to another person, except in self-defense.
2. Possession of any knife as defined in Education Code 48915(g), explosive or other dangerous object of no reasonable use to the student.
3. Unlawful possession of any controlled substance, as listed in the Health and Safety Code 11053-11058, except for the first offense for the possession of not more than one ounce of marijuana, other than concentrated cannabis.
4. Robbery or extortion.
5. Assault or battery, as defined in Penal Code 240 and 242, upon any school employee.

Mandatory Recommendation and Mandatory Expulsion

Note: The Attorney General has determined, in 80 Ops.Cal. Atty. Gen. 347 (1997), that a district may not adopt a zero tolerance policy mandating expulsion of a student for a first offense of possession of a controlled substance or alcohol.

The principal, Superintendent or designee shall recommend that the Board expel any student found at school or at a school activity to be: (Education Code 48915(c))

1. Possessing, as verified by a district employee, or selling or otherwise furnishing a firearm, unless the student had obtained prior written permission to possess the item from a certificated school employee, with the principal or designee's concurrence.
2. Brandishing a knife as defined in Education Code 48915(g) at another person.
3. Unlawfully selling a controlled substance listed in Health and Safety Code 11053-11058
4. Committing or attempting to commit a sexual assault or committing a sexual battery as defined in item #14 under "Grounds for Suspension and Expulsion" above.
5. Possessing an explosive as defined in 18 USC 921.

Upon finding that the student committed any of the above acts, the Board shall expel the student. (Education Code 48915)

The initial recommendation for consideration of expulsion is that of the school principal or the Superintendent. Designees may not make this type of recommendation.

The recommendation for consideration of expulsion shall be submitted to the Director, Office of Student Services, who will review the material and recommend:

1. Reassignment to appropriate regular education program.
2. Refer student to Alternative Program; i.e., Community School, Independent Study, Continuation or Opportunity School, or other district programs.
3. Refer the matter to the Discipline Review Panel for further consideration.

When a case is referred to the discipline Review Panel, the panel shall question school personnel who have information on the incident and the behavior record of the student charged and weighs the evidence presented.

The panel shall, in the case of an expulsion consideration, weigh information presented to determine:

- a. Is the evidence sufficient to support consideration by the expulsion panel?
- b. Has the district, through the schools involved, considered or utilized alternatives to expulsion when possible?
- c. Have due process procedures been adhered to?

The recommendation shall be either to proceed with the expulsion or to utilize an existing practical alternative in lieu of expulsion.

If the district (school) has not adhered to due process requirements, the student shall be returned to school immediately.

If the Discipline Review Panel meets to consider a matter other than an expulsion, it shall provide its best judgment as to an effective alternative program or plan to action.

The recommendation of the Discipline Review Panel shall be forwarded to the Director, Office of Student Services, who shall then review the facts, concur, veto or modify the recommendation.

4. That an expulsion panel be convened.

At the time a recommendation for expulsion is submitted, a hearing shall be scheduled by the Superintendent or designee to determine whether the suspension shall be extended. If the decision is to extend the suspension, the period of time shall be until the Board has rendered a decision or until the expulsion process is otherwise terminated.

The extension of suspension shall be based upon determination by the Superintendent or designee that the presence of the student at the school or in an alternative school placement would cause a danger to persons or property or a threat of disrupting the instructional process. This extension shall be imposed only after the student and the parent/guardian have been given the opportunity to be present at a hearing conducted by the Superintendent or designee. At this time, the student and parent/guardian shall be given the opportunity to be heard and present any information that might bear upon the decision.

Materials which support the decision of the person recommending the expulsion shall be prepared and submitted to the Office of Student Services. The departments of Attendance, Guidance, Special Education and/or Health may be requested to assist in the preparation of this material.

Student's Right to Expulsion Hearing

The student is entitled to a hearing to determine whether the student should be expelled. The hearing shall be held within 30 school days after the principal or Superintendent or designee determines that one of the acts listed under "Grounds for Suspension and Expulsion" has occurred. (Education Code 48918 (a))

The student is entitled to one postponement of an expulsion hearing for a period of not more than 30 calendar days. The request for postponement shall be in writing. Any subsequent postponement may be granted at the Board's discretion. (Education Code 48918(a))

If the Board finds it impractical during the school year to comply with these time requirements for conducting an expulsion hearing, the Superintendent or designee may, for good cause, extend the time period by an additional five school days. Reasons for the extension shall be included as a part of the record when the expulsion hearing is held. (Education Code 48918(a))

If the Board finds it impractical to comply with the time requirements of the expulsion hearing due to summer recess of Board meetings of more than two weeks, the days during the recess shall not be counted as school days. The days not counted during the recess may not exceed 20 school days as defined in Education Code 48925. Unless the student requests in writing that the expulsion hearing be postponed, the hearing shall be held no later than 20 calendar days prior to the first day of the next school year. (Education Code 48918(a))

Once the hearing starts, all matters shall be pursued with reasonable diligence and concluded without unnecessary delay. (Education Code 48918(a))

Waiver of Hearing (Default Proceedings)

If the parent/guardian agrees that their son/daughter behaved essentially in the manner stated in the principals letter recommending expulsion and that such behavior constitutes a violation of the California Education Code, Section 48900, 48900.2, 48900.3, 48900.4, 48900.7 and/or 48915 a suspendable/expellable offense, the parent/guardian may request to waive the Administrative Hearing Panel.

When the parent/guardian agrees to waive the Administrative Hearing Panel, they also waive all notification and timelines related to the expulsion hearing process, along with their rights to appeal the determination of the Board.

The signed affidavit and findings of fact will be submitted to the Board for their approval. The Board has the discretionary power to accept, reject, or modify all recommendations.

Rights of Complaining Witness

An expulsion hearing involving allegations of sexual assault or sexual battery may be postponed for one school day in order to accommodate the special physical, mental or emotional needs of a student who is the complaining witness. (Education Code 48918.5)

Whenever the Superintendent or designee recommends an expulsion hearing that addresses allegations of sexual assault or sexual battery, he/she shall give the complaining witness a copy of the district's suspension and expulsion policy and regulation and shall advise the witness of his/her right to all the following: (Education Code 48918.5)

1. Receive five days' notice of his/her scheduled testimony at the hearing.
2. Have up to two adult support persons of his/her choosing present in the hearing at the time he/she testifies.
3. Have a closed hearing during the time he/she testifies.

Whenever any allegation of sexual assault or sexual battery is made, the Superintendent or designee shall immediately advise complaining witnesses and accused students to refrain from personal or telephone contact with each other during the time when an expulsion process is pending. (Education Code 48918.5)

Written Notice of the Expulsion Hearing (Education Code 48918(b))

Written notice of the hearing shall be forwarded to the student and the student's parent/guardian at least 10 calendar days before the date of the hearing. The notice shall include: (Education Code 48900.8, 48918 (b))

1. The date and place of the hearing.
2. A statement of the specific facts, charges and offense upon which the proposed expulsion is based.
3. A copy of district disciplinary rules which relate to the alleged violation.
4. Notification of the student's or parent/guardian's obligation, pursuant to Education Code 48915.1, to provide information about the student's status in the district to any other district in which the student seeks enrollment. This obligation applies when a student is expelled for acts other than those described in Education Code 48915 (a) or (c).
(cf. 5119 - Students Expelled from other Districts)

5. The opportunity for the student or the student's parent/guardian to appear in person and/or be represented by legal counsel or by a non-attorney advisor.

Legal counsel means an attorney or lawyer who is admitted to the practice of law in California and is an active member of the State Bar of California.

Non-attorney advisor means an individual who is not an attorney or lawyer, but who is familiar with the facts of the case, and has been selected by the student or student's parent/guardian to provide assistance at the hearing.

6. The right to inspect and obtain copies of all documents to be used at the hearing.

7. The opportunity to confront and question all witnesses who testify at the hearing.

8. The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf, including witnesses.

CONDUCT OF EXPULSION HEARING

1. Closed Session: Notwithstanding the provisions of Government Code 54953 and Education Code 35145, the Board shall conduct a hearing to consider the expulsion of the student in a session closed to the public unless the student requests in writing at least five days prior to the hearing that the hearing be a public meeting. If such request is made, the meeting shall be public, unless another student's privacy rights would be violated.

Whether the expulsion hearing is held in closed or public session, the Board may meet in closed session to determine if the student should be expelled. If the Board admits any other person to the closed session, the parent/guardian, the student, and the counsel of the student, shall also be allowed to attend the closed session. (Education Code 48918(c))

If a hearing that involves a charge of sexual assault or sexual battery is to be conducted in public, a complaining witness shall have the right to have his/her testimony heard in closed session when testifying in public would threaten serious psychological harm to the witness and when there are no alternative procedures to avoid the threatened harm, including but not limited to videotaped deposition or contemporaneous examination in another place communicated to the hearing room by closed-circuit television. (Education Code 48918(c))

2. Record of Hearing: A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate written and complete transcription of the proceedings can be made. (Education Code 48918(g))

3. Subpoenas: Before commencing a student expulsion hearing, the Board may issue subpoenas, at the request of either the student or the Superintendent or designee, for the personal appearance at the hearing of any person who actually witnessed the action that gave rise to the recommendation for expulsion. After the hearing has commenced, the Board or the hearing officer or administrative panel may issue such subpoenas at the request of the student or the County Superintendent of Schools or designee. All subpoenas shall be issued in accordance with the Code of Civil Procedure 1985-1985.2 and enforced in accordance with Government Code 11455.20, formerly 11525. (Education Code 48918(i))

Any objection raised by the student or the Superintendent or designee to the issuance of subpoenas may be considered by the Board in closed session, or in open session if so requested by the student, before the meeting. The Board's decision in response to such an objection shall be final and binding. (Education Code 48918(i))

If the Board determines, or if the hearing officer or administrative panel finds and submits to the Board, that a witness would be subject to unreasonable risk of harm by testifying at the hearing, a subpoena shall not be issued to compel the personal attendance of that witness at the hearing. However, that witness may be compelled to testify by means of a sworn declaration as described in item #4 below. (Education Code 48918(i))

4. Presentation of Evidence: While technical rules of evidence do not apply to expulsion hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. The decision of the Board to expel must be supported by substantial evidence that the student committed any of the acts listed in "Grounds for Suspension and Expulsion" above.

Findings of fact shall be based solely on the evidence at the hearing. While no evidence shall be based solely on hearsay, sworn declarations may be admitted as testimony from witnesses whose disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm. (Education Code 48918 (f) and (h))

In cases where a search of a student's person or property has occurred, evidence describing the reasonableness of the search shall be included in the hearing record.

5. Testimony by Complaining Witnesses: The following procedures shall be observed when hearings involve allegations of sexual assault or sexual battery by a student: (Education Code 48918)

- a. Any complaining witness shall be given five days' notice before being called to testify.
 - b. Any complaining witness shall be entitled to have up to two adult support persons, including but not limited to a parent/guardian or legal counsel, present during his/her testimony.
 - c. Before a complaining witness testifies, support persons shall be admonished that the hearing is confidential.
 - d. The person presiding over the hearing may remove a support person whom he/she finds is disrupting the hearing.
 - e. If one or both support persons are also witnesses, the hearing shall be conducted according to Penal Code 868.5.
 - f. Evidence of specific instances of prior sexual conduct of a complaining witness shall be presumed inadmissible and shall not be heard unless the person conducting the hearing determines that extraordinary circumstances require the evidence to be heard. Before such a determination is made, the complaining witness shall be given notice and an opportunity to oppose the introduction of this evidence. In the hearing on the admissibility of this evidence, the complaining witness shall be entitled to be represented by a parent/guardian, legal counsel or other support person. Reputation or opinion evidence regarding the sexual behavior of a complaining witness shall not be admissible for any purpose.
 - g. In order to facilitate a free and accurate statement of the experiences of the complaining witness and to prevent discouragement of complaints, the district shall provide a nonthreatening environment.
 - (1) The district shall provide a room separate from the hearing room for the use of the complaining witness before and during breaks in testimony.
 - (2) At the discretion of the person conducting the hearing, the complaining witness shall be allowed reasonable periods of relief from examination and cross-examination during which he/she may leave the hearing room.
 - (3) The person conducting the hearing may:
 - (a) Arrange the seating within the hearing room so as to facilitate a less intimidating environment for the complaining witness.
 - (b) Limit the time for taking the testimony of a complaining witness to the hours he/she is normally in school, if there is no good cause to take the testimony during other hours.
 - (c) Permit one of the support persons to accompany the complaining witness to the witness stand.
6. Decision Within 10 Days: The Board's decision on whether to expel a student shall be made within 10 school days after the conclusion of the hearing, unless the student requests in writing that the decision be postponed. (Education Code 48918(a))
7. Decision Within 40 Days: If the Board does not meet on a weekly basis, its decision on whether to expel a student shall be made within 40 school days after the student is removed from his/her school of attendance, unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

ALTERNATIVE EXPULSION HEARING: Hearing Officer or Administrative Panel

Instead of conducting an expulsion hearing itself, the Board may contract with the county hearing officer or with the Office of Administrative Hearings of the State of California for a hearing officer. Alternatively, the Board may appoint an impartial administrative panel composed of three or more certificated personnel, none of whom shall be members of the Board or on the staff of the school in which the student is enrolled. (Education Code 48918(d))

A hearing conducted by the hearing officer or administrative panel shall conform to the same procedures as apply to a hearing conducted by the Board as specified in "Conduct of Expulsion Hearing."

The hearing officer or administrative panel shall, within three school days after the hearing, determine whether to recommend expulsion of the student to the Board. If expulsion is not recommended, the student shall be immediately reinstated. (See "Reinstatement.") The Superintendent or designee shall place the student in a classroom instructional program, any other instructional program, a rehabilitation program, or any combination of these programs after consulting with district staff, including the student's teachers, and with the student's parent/guardian. (Education Code 48918(e))

If expulsion is recommended, findings of fact in support of the recommendation shall be prepared and submitted to the Board. All findings of fact and recommendations shall be based solely on the evidence presented at the hearing. The Board may accept the recommendation based either upon a review of the findings of fact and recommendations submitted or upon the results of any supplementary hearing the Board may order. (Education Code 48918(f))

In accordance with Board policy, the hearing officer or administrative panel may recommend that the Board suspend the enforcement of the expulsion for a period of one year. (See "Decision Not to Enforce Expulsion Order" below.)

The Board shall make its decision about the student's expulsion within 40 school days after the date of the student's removal from school unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

The Discipline Review Panel

The Discipline Review Panel will consist of elementary educators when a review is being made of an elementary student and of secondary educators when a review is being made of secondary student.

1. The Discipline Review Panel shall hear the following types of disciplinary cases:
 - a. Requests for expulsion from site principals or the Superintendent.
 - b. School site administrative requests for assistance (non-expulsion situations).
2. Each discipline review panel shall consist of three certificated persons plus a chairperson and shall consist of elementary educators when a review is being made of an elementary student and of secondary educators when a review is being made of a secondary student. A panelist may not serve on any panel involving a student who is currently attending the school in which he/she is assigned. A representative from Student Services shall be a nonvoting member of each panel.

A chairperson and assistant chairperson, to serve when the chairperson is unable to serve, shall be appointed by the Superintendent or designee and shall serve at his/her pleasure. Neither shall be a member of the Student Services staff.

A pool of panelists shall be established which shall be composed of personnel who have served or are currently serving as members of administrative expulsion panels. The committee chairman shall select members to serve on individual panels.

The meetings of the discipline review panel are open to school district personnel only.

The duties of the Discipline Review Panel are as follows:

1. The chairperson shall call a meeting of the panel as soon as possible, but no later than 10 school days after the receipt of notice of a pending case.
2. A recommendation must be forwarded to the Director, Office of Student Services, within three days of the review hearing.
3. In the event a member of the committee cannot be present at a meeting, the Director, Office of Student Services, will appoint an alternate from the pool to attend.

Post-Expulsion Placements

The Board shall refer expelled students to a program of study that is: (Education Code 48915, 48915.01)

1. Appropriately prepared to accommodate students who exhibit discipline problems.
2. Not provided at a comprehensive middle, junior or senior high school or at any elementary school, unless the program is offered at a community day school established at such a site.
3. Not housed at the school site attended by the student at the time of suspension.

(cf. 6185 - Community Day School)

When the placement described above is not available, and when the County Superintendent of Schools so certifies, students expelled for acts described in items #6 through #13 and #17 through #19 under "Grounds for Suspension and Expulsion" may be instead referred to a program of study that is provided at another comprehensive middle, junior, or senior high school, or at an elementary school. (Education Code 48915)

The program for a student expelled from any of grades K-6 shall not be combined or merged with programs offered to students in any of grades 7-12. (Education Code 48916.1)

Maintenance of Records

The Board shall maintain a record of each expulsion, including the specific cause of the expulsion. The expulsion record shall be maintained in the student's mandatory interim record and sent to any school in which the student subsequently enrolls, within five days of a written request by the admitting school. (Education Code 48900.8, 48918(k))

The Superintendent or designee shall, within five working days, honor any other district's request for information about an expulsion from this district. (Education Code 48915.1)

(cf. 5119 - Students Expelled from Other Districts)

(cf. 5125 - Student Records)

NOTIFICATIONS TO LAW ENFORCEMENT AUTHORITIES

Prior to the suspension or expulsion of any student, the principal or designee shall notify appropriate city or county law enforcement authorities of any student acts of assault which may have violated Penal Code 245. (Education Code 48902)

The principal or designee also shall notify appropriate city or county law enforcement authorities of any student acts which may involve the possession or sale of narcotics or of a controlled substance or possession of weapons or firearms in violation of Penal Code 626.9 and 626.10. (Education Code 48902)

Within one school day after a student's suspension or expulsion, the principal or designee shall notify appropriate city or county law enforcement authorities, by telephone or other appropriate means, of any student acts which may violate Education Code 48900(c) or (d), relating to the possession, use, offering or sale of controlled substances, alcohol, or intoxicants of any kind. (Education Code 48

OUTCOME DATA

The Superintendent or designee shall maintain the following data and report such data annually to the California Department of Education, using forms supplied by the California Department of Education: (Education Code 48900.8, 48916.1)

1. The number of students recommended for expulsion.
2. The grounds for each recommended expulsion.
3. Whether the student was subsequently expelled.
4. Whether the expulsion order was suspended.
5. The type of referral made after the expulsion.
6. The disposition of the student after the end of the expulsion period.

Regulation: REDLANDS UNIFIED SCHOOL DISTRICT

Approved: June 27, 1995, Redlands, California

(D) Procedures to Notify Teachers of Dangerous Pupils (EC 49079)

Pursuant to Ed Code 49079, the district provides teachers information about previously suspended or expelled students for three years after the incident. This includes notification and access (upon request) to paperwork and information about prior incidents that are on file, in the cumulative record.

(E) Sexual Harassment Policies (EC 212.6 [b])

Policy 4119.11: Sex Discrimination and Sex-Based Harassment

The Governing Board is committed to providing a safe work environment that is free of harassment and intimidation. The Board prohibits sexual harassment against district employees by anyone, in any manner, and prohibits retaliatory action or behavior against any persons who complains, testifies, or otherwise participates in the complaint process established pursuant to this policy and accompanying administrative regulation. This policy shall apply to all district employees, interns, volunteers, contractors, job applicants, and other persons with an employment relationship with the district.

(cf. 0410 - Nondiscrimination in District Programs and Activities) (cf. 4030 - Nondiscrimination in Employment)

Sexual harassment includes, but is not limited to, harassment that is based on the sex, gender, gender identity, gender expression, or sexual orientation of the victim and harassment based on pregnancy, childbirth, or related medical conditions.

The Superintendent or designee shall take all actions necessary to ensure the prevention, investigation, and correction of sexual harassment, including but not limited to:

1. Providing training to all staff in accordance with law and administrative regulation.
2. Publicizing and disseminating the district's sexual harassment policy to staff.
3. Ensuring prompt, thorough, equitable, and fair investigation of complaints
4. Taking timely and appropriate corrective/remedial actions which may require interim separation of the complainant and the alleged harasser and subsequent monitoring of developments.

The Superintendent or designee shall periodically evaluate the effectiveness of the district's strategies to prevent and address harassment. Such evaluation may involve conducting regular anonymous employee surveys to assess whether harassment is occurring or is perceived to be tolerated, partnering with researchers or other agencies with the needed expertise to evaluate the district's prevention strategies, and using any other effective tool for receiving feedback on systems and/or processes. As necessary, changes shall be made to the harassment policy, complaint procedures, or training.

Sexual Harassment Reports and Complaints

Any district employee who feels that he/she has been sexually harassed in the performance of their district responsibilities or who has knowledge of any incident of sexual harassment by or against another employee shall immediately report the incident to his/her supervisor, the principal, other district administrator, or the district's Title IX Coordinator. However, an employee may bypass his/her supervisor in filing a complaint if the supervisor is the subject of the complaint. A supervisor, principal, or district administrator who receives a harassment complaint shall promptly notify the Title IX Coordinator.

Once notified, the Title IX Coordinator shall ensure the complaint or allegation is addressed through AR 4119.12/4219.12/4319.12 – Title IX Sexual Harassment Complaint Procedures or AR 4030- Nondiscrimination in Employment, as applicable. Because a complaint or allegation that is dismissed or denied under the Title IX complaint procedure may still be subject to consideration under state law, the Title IX Coordinator shall ensure that any implementation of AR 4119.12/4219.12/4319.12 concurrently meets the requirements of AR 4030.

Notwithstanding the above, BP/AR 4119.12/4219.12/4319.12 and 4030 shall under no circumstances be used to resolve complaints brought by, on behalf of, or against students. All complaints brought by, on behalf of, or against students that allege “sexual harassment” as that term is defined in the federal regulations implementing Title IX of the Education Amendments of 1972 (see 34 C.F.R. § 106, et seq.) shall be investigated and resolved under BP/AR 5145.71. All complaints brought by, on behalf of, or against students that do not meet the definition of “sexual harassment” as set forth in the Title IX implementing regulations shall be investigated and resolved under BP/AR 1312.3.

(cf. 4119.12/4219.12/4319.12 - Title IX Sexual Harassment Complaints)

The Title IX Coordinator shall offer supportive measures to the complainant and respondent, as deemed appropriate under the circumstances.

Upon investigation of a sexual harassment complaint, any district employee who engages, or participates in sexual harassment, or who aids, abets, incites, compels, or coerces another to commit sexual harassment in violation of this policy is subject to disciplinary action, up to and including dismissal, in accordance with law and the applicable collective bargaining agreement.

(cf. 4117.7/4317.7 - Employment Status Reports) (cf. 4118 - Dismissal/Suspension/Disciplinary Action) (cf. 4218 -

Dismissal/Suspension/Disciplinary Action)

Regulation 4119.12: Title IX Sex Discrimination and Sex-Based Harassment Complaint Procedures

The complaint procedures described in this administrative regulation shall be used to address any complaint governed by Title IX of the Education Amendments of 1972 alleging that a district employee, while in an education program or activity in which a district school exercises substantial control over the context and respondent, was subjected to one or more of the following forms of sexual harassment: (34 CFR 106.30, 106.44)

1. A district employee conditioning the provision of a district aid, benefit, or service on a person's participation in unwelcome sexual conduct
2. Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the district's education program or activity
3. Sexual assault, dating violence, domestic violence, or stalking as defined in 20 USC 1092 or 34 USC 12291 (cf. 4119.11/4219.11/4319.11 - Sexual Harassment)

All other sexual harassment complaints or allegations shall be investigated and resolved in accordance with AR 4030

- Nondiscrimination in Employment. The determination of whether the allegations meet the definition of sexual harassment under Title IX shall be made by the district's Title IX Coordinator.

(cf. 4030 - Nondiscrimination in Employment)

Because the complainant has a right to pursue a complaint under AR 4030 for any allegation that is dismissed or denied under the Title IX complaint procedure, the Title IX Coordinator shall ensure that all requirements and timelines for AR 4030 are concurrently met while implementing the Title IX procedure.

Reporting Allegations/Filing a Formal Complaint

An employee who is the alleged victim of sexual harassment may submit a report of sexual harassment to the district's Title IX Coordinator using the contact information listed in AR 4119.11/4219.11/4319.11 - Sexual Harassment or to the employee's direct supervisor or other district administrator, who shall forward the report to the Title IX Coordinator within one day of receiving the report. Upon receiving such a report, the Title IX Coordinator shall inform the complainant of the right to file a formal complaint and the process for filing a formal complaint.

A formal complaint, with the complainant's physical or digital signature, may be filed with the Title IX Coordinator in person, by mail, by email, or by any other method authorized by the district. (34 CFR 106.30)

Even if the alleged victim chooses not to file a formal complaint, the Title IX Coordinator shall file a formal complaint in situations when a safety threat exists. In addition, the Title IX Coordinator may file a formal complaint in other situations as permitted under the Title IX regulations, including as part of the district's obligation to not be deliberately indifferent to known allegations of sexual harassment. In such cases, the Title IX Coordinator shall provide the alleged victim notices as required by the Title IX regulations at specific points in the complaint process.

The Title IX Coordinator, investigator, decision-maker, or a facilitator of an informal resolution process shall not have a conflict of interest or bias for or against complainants or respondents generally or an individual complainant or respondent. Such persons shall receive training in accordance with 34 CFR 106.45. (34 CFR 106.45)

Supportive Measures

Upon receipt of a report of Title IX sexual harassment, the Title IX Coordinator shall promptly contact the complainant to discuss the availability of supportive measures and shall consider the complainant's wishes with respect to the supportive measures implemented. Supportive measures shall be offered as appropriate, as reasonably available, and without charge to the complainant or the respondent before or after the filing of a formal complaint or where no formal complaint has been filed. Such measures shall be nondisciplinary, nonpunitive, and not unreasonably burden the other party, including measures designed to protect the safety of all parties or the district's educational environment or to deter sexual harassment. Supportive measures may include, but are not limited to, counseling, extensions of deadlines, modifications of work schedules, mutual restrictions on contact, changes in work locations, leaves of absence, increased security, and monitoring of certain areas of the campus. (34 CFR 106.30, 106.44)

The district shall maintain as confidential any supportive measures provided to the complainant or respondent, to the extent that maintaining such confidentiality would not impair the district's ability to provide the supportive measures. (34 CFR 106.30)

Emergency Removal

If a district employee is the respondent, the employee may be placed on administrative leave during the pendency of the formal complaint process. (34 CFR 106.44)

If the respondent is a student, the district may, on an emergency basis, remove the student from the district's education program or activity, provided that the district conducts an individualized safety and risk analysis, determines that removal is justified due to an immediate threat to the physical health or safety of any student or other individual arising from the allegations, and provides the student with notice and an opportunity to challenge the decision immediately following the removal. This authority to remove a student does not modify a student's rights under the Individuals with Disabilities Education Act or Section 504 of the Rehabilitation Act of 1973. (34 CFR 106.44)

Dismissal of Complaint

The Title IX Coordinator shall dismiss a formal complaint if the alleged conduct would not constitute sexual harassment as defined in

34 CFR 106.30 even if proved. The Title IX Coordinator shall also dismiss any complaint in which the alleged conduct did not occur in the district's education program or activity or did not occur against a person in the United States, and may dismiss a formal complaint if the complainant notifies the district in writing that the complainant would like to withdraw the complaint or any allegations in the complaint, the respondent is no longer employed by the district, or sufficient circumstances prevent the district from gathering evidence sufficient to reach a determination with regard to the complaint. (34 CFR 106.45)

Upon dismissal, the Title IX Coordinator shall promptly send written notice of the dismissal and the reasons for the dismissal simultaneously to the parties and shall inform them of their right to appeal the dismissal of a formal complaint or any allegation in the complaint in accordance with the appeal procedures described in the section "Appeals" below. (34 CFR 106.45)

If a complaint is dismissed, the conduct may still be addressed pursuant to AR 4030 - Nondiscrimination in Employment as applicable.

Informal Resolution Process

When a formal complaint of sexual harassment is filed, the district may offer an informal resolution process, such as mediation, at any time prior to reaching a determination regarding responsibility. The district shall not require a party to participate in the informal resolution process or to waive the right to an investigation and adjudication of a formal complaint. (34 CFR 106.45)

The district may facilitate an informal resolution process provided that the district: (34 CFR 106.45)

1. Provides the parties with written notice disclosing the allegations, the requirements of the informal resolution process, the right to withdraw from the informal process and resume the formal complaint process, and any consequences resulting from participating in the informal resolution process, including that records will be maintained or could be shared.
2. Obtains the parties' voluntary, written consent to the informal resolution process

Written Notice

If a formal complaint is filed, the Title IX Coordinator shall provide the known parties with written notice of the following: (34 CFR 106.45)

1. The district's complaint process, including any informal resolution process
2. The allegations potentially constituting sexual harassment with sufficient details known at the time, including the identity of parties involved in the incident if known, the conduct allegedly constituting sexual harassment, and the date and location of the alleged incident if known. Such notice shall be provided with sufficient time for the parties to prepare a response before any initial interview. If, during the course of the investigation, new Title IX allegations arise about the complainant or respondent that are not included in the initial notice, the Title IX Coordinator shall provide notice of the additional allegations to the parties.
3. A statement that the respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility is made at the conclusion of the complaint process
4. The opportunity for the parties to have an advisor of their choice who may be, but is not required to be, an attorney, and the ability to inspect and review evidence
5. The prohibition against knowingly making false statements or knowingly submitting false information during the complaint process

The above notice shall also include the name of the investigator, facilitator of an informal process, and decision-maker and shall inform the parties that, if at any time a party has concerns regarding conflict of interest or bias regarding any of these persons, the party should immediately notify the Title IX Coordinator.

Investigation Procedures

During the investigation process, the district's designated investigator shall: (34 CFR 106.45)

1. Provide an equal opportunity for the parties to present witnesses, including fact and expert witnesses, and other inculpatory and

exculpatory evidence

2. Not restrict the ability of either party to discuss the allegations under investigation or to gather and present relevant evidence
3. Provide the parties with the same opportunities to have others present during any grievance proceeding, including the opportunity to be accompanied to any related meeting or proceeding by the advisor of their choice, who may be, but is not required to be, an attorney
4. Not limit the choice or presence of an advisor for either the complainant or respondent in any meeting or grievance proceeding, although the district may establish restrictions regarding the extent to which the advisor may participate in the proceedings as long as the restrictions apply equally to both parties
5. Provide, to a party whose participation is invited or expected, written notice of the date, time, location, participants, and purpose of all investigative interviews or other meetings, with sufficient time for the party to prepare to participate
6. Send in an electronic format or hard copy to both parties and their advisors, if any, the evidence obtained as part of the investigation that is directly related to the allegations raised in the complaint, and provide the parties at least 10 days to submit a written response for the investigator to consider prior to the completion of the investigative report
7. Objectively evaluate all relevant evidence, including both inculpatory and exculpatory evidence, and determine credibility in a manner that is not based on a person's status as a complainant, respondent, or witness
8. Create an investigative report that fairly summarizes relevant evidence and, at least 10 days prior to the determination of responsibility, send to the parties and their advisors, if any, the investigative report in an electronic format or a hard copy, for their review and written response

Questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant, unless such questions and evidence are offered to prove that someone other than the respondent committed the conduct alleged by the complainant or if the questions and evidence concern specific incidents of the complainant's prior sexual behavior with respect to the respondent and are offered to prove consent. (34 CFR 106.45)

Privacy rights of all parties to the complaint shall be maintained in accordance with applicable state and federal laws.

If the complaint is against an employee, rights conferred under an applicable collective bargaining agreement shall be applied to the extent they do not conflict with the Title IX requirements.

Written Decision

The Superintendent shall designate an employee as the decision-maker to determine responsibility for the alleged conduct, who shall not be the Title IX Coordinator or a person involved in the investigation of the matter. (34 CFR 106.45)

After the investigative report has been sent to the parties but before reaching a determination regarding responsibility, the decision-maker shall afford each party the opportunity to submit written, relevant questions that the party wants asked of any party or witness, provide each party with the answers, and allow for additional, limited follow-up questions from each party.

The decision-maker shall issue, and simultaneously provide to both parties, a written decision as to whether the respondent is responsible for the alleged conduct. (34 CFR 106.45)

The written decision shall be issued within 60 calendar days of the receipt of the complaint.

The timeline may be temporarily extended for good cause with written notice to the complainant and respondent of the extension and the reasons for the action. (34 CFR 106.45)

In making this determination, the decision-maker shall use the "preponderance of the evidence" standard for all formal complaints of sexual harassment. (34 CFR 106.45)

The written decision shall include the following: (34 CFR 106.45)

1. Identification of the allegations potentially constituting sexual harassment as defined in 34 CFR 106.30

2. A description of the procedural steps taken from receipt of the formal complaint through the written decision, including any notifications to the parties, interviews with parties and witnesses, site visits, methods used to gather other evidence, and hearings held if the district includes hearings as part of the grievance process
3. Findings of fact supporting the determination
4. Conclusions regarding the application of the district's code of conduct or policies to the facts
5. A statement of, and rationale for, the result as to each allegation, including a decision regarding responsibility, any disciplinary sanctions the district imposes on the respondent, and whether remedies designed to restore or preserve equal access to the district's educational program or activity will be provided by the district to the complainant
6. The district's procedures and permissible bases for the complainant and respondent to appeal

Appeals

Either party may appeal the district's decision or dismissal of a formal complaint or any allegation in the complaint, if the party believes that a procedural irregularity affected the outcome, new evidence is available that could affect the outcome, or a conflict of interest or bias by the Title IX Coordinator, investigator(s), or decision-maker(s) affected the outcome. If an appeal is filed, the district shall: (34 CFR 106.45)

1. Notify the other party in writing when an appeal is filed and implement appeal procedures equally for both parties
2. Ensure that the decision-maker(s) for the appeal is trained in accordance with 34 CFR 106.45 and is not the same decision-maker(s) who reached the determination regarding responsibility or dismissal, the investigator(s), or the Title IX Coordinator
3. Give both parties a reasonable, equal opportunity to submit a written statement in support of, or challenging, the outcome
4. Issue a written decision describing the result of the appeal and the rationale for the result
5. Provide the written decision simultaneously to both parties

An appeal must be filed in writing within 10 calendar days of receiving the notice of the decision or dismissal, stating the grounds for the appeal and including any relevant documentation in support of the appeal. Appeals submitted after this deadline are not timely and shall not be considered.

A written decision shall be provided to the parties within 20 calendar days from the receipt of the appeal.

Either party has the right to file a complaint with the U.S. Department of Education's Office for Civil Rights within 180 days of the date of the most recently alleged misconduct.

The complainant shall be advised of any civil law remedies, including, but not limited to, injunctions, restraining orders, or other remedies or orders that may be available under state or federal antidiscrimination laws, if applicable.

Remedies

When a determination of responsibility for sexual harassment has been made against the respondent, the district shall provide remedies to the complainant. Such remedies may include the same individualized services described above in the section "Supportive Measures," but need not be nondisciplinary or nonpunitive and need not avoid burdening the respondent. (34 CFR 106.45)

Disciplinary Actions

The district shall not impose any disciplinary sanctions or other actions against a respondent, other than supportive measures as described above in the section "Supportive Measures," until the complaint procedure has been completed and a determination of responsibility has been made. (34 CFR 106.44)

When an employee is found to have committed sexual harassment or retaliation, the district shall take appropriate disciplinary action, up to and including dismissal, in accordance with applicable law and collective bargaining agreement.

(cf. 4117.7/4317.7 - Employment Status Report)

(cf. 4118 - Dismissal/Suspension/Disciplinary Action) (cf. 4119.11/4219.11/4319.11 - Sexual Harassment) (cf. 4218 - Dismissal/Suspension/Disciplinary Action)

Record-Keeping

The Superintendent or designee shall maintain, for a period of seven years: (34 CFR 106.45)

1. A record of all reported cases and Title IX investigations of sexual harassment, any determinations of responsibility, any audio or audiovisual recording and transcript if applicable, any disciplinary sanctions imposed, any remedies provided to the complainant, and any appeal or informal resolution and the results therefrom.
2. A record of any actions, including supportive measures, taken in response to a report or formal complaint of sexual harassment, including the district's basis for its conclusion that its response was not deliberately indifferent, the measures taken that were designed to restore or preserve equal access to the education program or activity, and, if no supportive measures were provided to the complainant, the reasons that such a response was not unreasonable in light of the known circumstances.
3. All materials used to train the Title IX Coordinator, investigator(s), decision-maker(s), and any person who facilitates an informal resolution process. The district shall make such training materials publicly available on its web site, or if the district does not maintain a web site, available upon request by members of the public.

(F) School-wide Dress Code Relating to Gang-Related Apparel (EC 35183)

Policy 5132.16: Student Dress Guidelines

The Governing Board believes that appropriate dress and grooming contribute to a productive learning environment. The Board expects students to give proper attention to personal cleanliness and to wear clothes that are suitable for the school activities in which they participate. Students' clothing must not present a health or safety hazard or a distraction which would interfere with the educational process.

Students and parents/guardians shall be informed about dress and grooming standards at the beginning of the school year and whenever these standards are revised. A student who violates these standards shall be subject to appropriate disciplinary action.

Gang-Related Apparel

The principal, staff and parents/guardians at a school may establish a reasonable dress code that prohibits students from wearing gang-related apparel when there is evidence of a gang presence that disrupts or threatens to disrupt the school's activities. Such a dress code may be included as part of the school safety plan and must be presented to the Board for approval. The Board shall approve the plan upon determining that it is necessary to protect the health and safety of the school's students.

Uniforms

The Board recognizes that, in order to promote student safety and discourage peer rivalry and/or gang activity, the principal, staff and parent/guardian at a school site may wish to establish a reasonable dress code, which may include voluntary school uniforms.

Dress codes, which include voluntary school uniforms, may be included as part of the school safety plan submitted as required.

The Superintendent or designee shall establish procedures that schools, parents and guardians will follow if they decide to participate with the voluntary school uniform policy. Students shall not be penalized academically, otherwise discriminated against or denied attendance to school if their parents/guardian decide not to participate.

The Governing Board feels that there is nothing inherently wrong with dress or color of dress, but when student's dress serves to intimidate or impede the rights of other students it will be determined that dress is in violation of this policy. A student may not remain at school dressed in a manner which (1) creates a safety hazard for said student or for other students at school, and/or (2) when the dress constitutes a serious and unnecessary distraction to the learning process or tends to disrupt campus order

When the site administrator/designee determines that a student's attire is in violation of this policy, the student will be required to modify his/her clothing and/or apparel in such a manner that it no longer violates this policy. If necessary, the student may be taken or sent home with parental permission to modify unacceptable dress and return to school. Refusal to take steps as described in this policy shall be cause for disciplinary action against the student. Any such disciplinary action shall be handled pursuant to existing student disciplinary policy

Parents/guardians have primary responsibility to see that students are properly attired for school. School district personnel have the responsibility for maintaining proper and appropriate conditions conducive to learning. Hence, the following guidelines will be implemented in all district schools.

1. Shoes will be worn at all times. A substantial sole is required and enclosed toe and heel footwear are highly encouraged.
2. Extremely brief garments that are distracting to the educational environment are not appropriate. Clothing shall be sufficient to conceal undergarments at all times.
3. Clothing or accessories shall be free of writing, pictures or any other insignia which are crude, violent, obscene or sexually suggestive or which advocate racial, ethnic or religious prejudice or the use of tobacco, drugs or alcohol.
4. Earrings, jewelry, or accessories which present a safety hazard to the wearer or others are not suitable for school wear.
5. Only prescription sunglasses may be worn in class. Other types of sunglasses may be worn on campus outside of class.
6. Identified gang attire such as bandannas, haircuts or hair rollers, or any gang paraphernalia are prohibited.

Students are allowed to wear sun protective clothing, including hats, while outdoors during the school day. Each school site will develop a policy indicating the type of sun protective hats that are permitted.

No grade of a student participating in a physical education class shall be adversely affected if the student does not wear standardized physical education apparel because of circumstances beyond the student's control. (Education Code 49066) All clothing worn during physical education shall meet reasonable safety standards.

The purpose of adopting these Student Dress Guidelines is not to infringe on any individual student's rights to freedom of expression, but rather to encourage students to dress appropriately and come to school properly prepared for participating in the educational process.

Gang-Related Apparel

Because gang-related symbols are constantly changing, definitions of gang-related apparel shall be reviewed as needed and updated as necessary.

Uniforms

In schools where a majority of parents respond and indicate on a survey that they desire to establish a voluntary school-wide uniform dress code, the principal, staff and the parents/guardians of the individual school site shall:

1. Jointly select the specific uniform to be worn. (Education Code 35183)
2. Describe the uniform parts and identify local vendors who sell those pieces of clothing. A description of the implementation of the voluntary uniform dress code will be submitted to the superintendent's designee including:
 - a. The process for parent notification
 - b. Positive procedures that will be used to encourage students to participate with the voluntary uniform dress code
3. A description of the uniform and a list of costs for each competitively priced item of clothing as provided by a variety of vendors will be sent to parents.
4. Parents will be notified that this is a voluntary uniform dress code and that students not participating shall not be penalized academically, otherwise discriminated against or denied attendance to school if their parents/guardians so decide.

Parent Notification

The principal shall give parents/guardian at least six months notice before a school site implements a voluntary school uniform dress code. (Education Code 35183)

(G) Procedure for Safe Ingress and Egress of Pupils, Parents, and Staff to and from School (EC 35294.2)

Crafton has a single point of entry during the active school day. All students, parents and staff entering our school during the school day must come through the office. Locked fencing encircles our property and ensures these paths of ingress and egress are in place. Staff members sign-in daily with RAPTOR. Parents entering campus sign-in via RAPTOR. Parent volunteers must be approved by the school board, including being fingerprinted. For 15 minutes before and after school, gates on the North and East campus are opened and monitored by multiple staff members to ensure only students enter campus and that students exit campus into the care of their parent or guardian.

(H) A Safe and Orderly School Environment Conducive to Learning (EC 35294.2)

Component:

Physical Environment

The Schools' Location and Physical Environment

Crafton Elementary is located in the Redlands Police Department area of San Bernardino County that has an average crime rate and average/above average poverty level. The immediate area around the school includes single-family dwellings, one of the largest collective groups of apartments within the city boundaries, two mobile home parks, as well as three retail complexes and a number of small businesses. Present safety hazards include students who live within the boundaries of Crafton Elementary School but are in need of transportation; Many of these students have access to district transportation but choose to walk or ride their bicycles/scooters to school; Crafton Elementary is located on a very busy 4-lane street with vehicular traffic often exceeding safe and prudent speeds; The city of Redlands provides crossing guards for pedestrian traffic coming to/from school.

Description of School Grounds

The school site encompasses 14.01 acres. The grounds are grass, concrete and asphalt and includes basketball courts, baseball diamonds and a lined track. There are several wings and/or clusters of classrooms including 30 classrooms, 10 of which are relocatable classrooms. Other ancillary structures include relocatable classroom buildings used for Innovation Lab. There are additional areas on campus that are used for intervention purposes, special education meetings and group counseling. The campus also includes an Multiple Purpose Room, Staff Room, Library, Innovation Lab, and an Office/Administrative Building.

During the school day, staff members and administrators shall provide campus supervision. Identified problem areas receive increased supervision to reduce discipline, crime, or other school safety concerns.

It shall be the practice of Crafton Elementary to remove all graffiti from school property before pupils arrive to begin their school day. Other acts of vandalism are promptly addressed.

Maintenance of School Buildings/Classrooms

The school's physical facility is well maintained and generally looks neat and clean. The school was most recently painted summer of 2022 renovated during the 2021-2022 year. District personnel periodically examine the school's physical facility and help eliminate obstacles to school safety. Additionally, health and fire department inspectors contribute to school safety.

In addition, repairs and upgrades are done through the online work order system.

Internal Security Procedures

Crafton Elementary has established procedures in the following areas: California Safe School Assessment (CSSA) reporting procedures, suspension and expulsion procedures, inventory system, and RAPTOR visitor check in system with an I.D. check through Megan's Law. Once volunteers have gone through the RAPTOR visitor check-in they are given a sticker to alert all staff on campus that they have been approved by the board of education and RAPTOR, and can be on campus. All staff also participates in the RAPTOR staff check in system daily. Crafton Elementary holds monthly fire drills along with 2 lockdown drills and 4 earthquake drills, along with monthly disaster planning checks.

Crafton Elementary crime statistics reflect a total of 1 crimes reported during the 2023-2024 year.

Keeping reportable crimes at a minimum requires constant vigilance. The following strategies will be utilized in achieving this goal Implementation of progressive discipline plans in each and every classroom, campus monitoring at recess times by hourly employees, a firm and consistent discipline policy enforced by school administration. Crafton Elementary also follows the RAPTOR safety protocols for both staff, community, and volunteers. The campus has video cameras put in place, Redlands Police Department campus checks, all gates are locked at the start of the school day, classroom doors are to remain locked during the day, See something, Say Something, Hear Something reporting signs located in all classrooms and meeting areas, along with all DOJ-approved postings. The signs also share CSF hotline info and Sprigeo hotline information. Crafton Elementary is a single point of entry school.

Crafton Elementary maintains a copy of the district's sexual harassment policy in the main office/principal's office and the policy is available on request. The District's Sexual Harassment Policy contains dissemination plans, applicable definitions, reporting requirements, investigation procedures, enforcement regulations, and information related to suspension and/or expulsion for sexual harassment of or by pupils. Additionally, a notice summarizing this sexual harassment policy appears in the Parent & Student Handbook, The parent student handbook is distributed at the beginning of each school year to all parents and pupils.

To ensure the safety of pupils and staff, all visitors to the campus, except pupils of the school and staff members, shall register immediately upon entering any school building or grounds when school is in session. District employees, not assigned to Crafton Elementary shall wear appropriate identification badges while on campus conducting business.

Discipline procedures shall focus on finding the cause of problems and working with all concerned to reach the proper, lawful solutions. The school's discipline plan begins at the classroom level. Teachers shall use a visible classroom management plan to communicate classroom rules, promote positive pupil conduct, and reduce unacceptable conduct. Appropriate consequences are administered based on the seriousness of the pupil's misbehavior.

Pupil conduct standards and consequences for Crafton Elementary are specifically described in this Comprehensive Schools Safety Plan including: (a) the adopted school discipline rules and procedures, (b) District Disciplinary Guidelines, and (c) the adopted school-wide dress code.

Pupils may be suspended, transferred to another school, or recommended for expulsion for certain acts. For specific student violations, a mandatory expulsion recommendation shall be submitted by the administration of Crafton Elementary.

Site administrators contribute to a positive school climate, promote positive pupil behavior, and help reduce inappropriate conduct. The principal/designee uses available district and other appropriate records to inform teachers of each pupil identified under E.C. 49079.

Law enforcement is contacted and consulted to help maintain and to promote a safe and orderly school environment. Crafton Elementary employees comply with all legal mandates, regulations, and reporting requirements for all instances of suspected child abuse.

If appropriate, additional internal security procedures affecting the integrity of the school facility include: updating cameras for monitoring the campus. Security officers also perform site visits routinely. Crafton Elementary provides counseling services, along with IEP, IST, BSP meetings, and Aeries documentation and communication to the school community.

Community involvement is encouraged to help increase school safety.

A Safety Committee comprised of parents, staff, and students meets twice yearly. The campus has video cameras put in place, Redlands Police Department campus checks, all gates are locked at the start of the school day, classroom doors are remain locked during the day, See something, Say Something, Hear Something reporting signs located in all classrooms. The signs also share CSF hotline info and Spriggio hotline information. Crafton Elementary is a single point of entry school.

Inventory System - Engraved ID, Security Storage

Most school-site equipment has a metal ID tag or a bar cod sticker adhered to its surface. These items are inventoried annually and there is an established accountability system. Office and classroom supplies are secured.

Component:

CULTURE OF RECOGNITION

Crafton School believes that student success should be intentionally recognized and frequently celebrated. In addition, the components that frame our definition of success should be broadly determined to include as many types of success as we have students.

This identification and recognition are a part of our culture; staff seek to identify and celebrate student strengths and to support identified areas of need with resources and encouragement when progress is made. Students are recognized in PBIS Assemblies monthly and Monthly Flag ceremonies.

(I) School Discipline Rules and Consequences (EC 35291 and EC 35291.5)

Crafton Elementary Student Conduct Code

Procedures to Ensure a Safe and Orderly Environment

Rules and Procedures on School Discipline

Philosophy of Discipline

- Behavior expectations and the consequences for not meeting expectations must be clearly communicated to all students and their parents (in writing as well as verbally).

- The severity of consequences for violating behavior expectations increases with each incident of inappropriate behavior.
- The consequences for violating behavior expectations should be severe enough to discourage students from making poor behavior decisions.
- Expectations and consequences should permit students an opportunity to eliminate inappropriate behavior.

Additionally, the school staff recognizes that the middle school years are a transition time from adolescence to young adulthood. As a part of this transition, the student is given greater opportunities to be responsible and demonstrate independence and good judgment. The structure of our behavior expectations (in the classroom as well as school wide) is meant to encourage students to be responsible. The first step in many instances of inappropriate behavior (those considered to be "minor") is a simple warning ("Your behavior is unacceptable. Please stop such behavior"). It is only when a student ignores such warnings and continues to choose to act irresponsibly (like a child rather than an emerging adult) that we involve parents and implement consequences.

Elements of a Good Discipline Program

1. The program is focused upon making the entire campus, especially the classroom, a safe, supportive and orderly environment for learning for students and staff.
2. Classroom authority is retained by the classroom teacher. (Administration's role is to support, not to replace.)
3. Rules and procedures are clearly understood by staff and students.
4. All staff members will acknowledge and take appropriate action on any minor or major infraction of the school rules.
5. Rules and procedures comply with State Law and District policies.
6. The program recognizes the responsibilities and the rights of students and staff.
7. Program is structured to keep students in class and engaged in the educational process.
8. Rules are enforced:
 - A. by all staff members at all times.
 - B. strictly, but not rigidly (beware of "automatics").
 - C. in substantial part by adult modeling.
 - D. using techniques that promote the growth of positive self-esteem.
 - E. as close to the source as is possible.
 - F. by keeping parents informed.
9. The discipline program is understood, endorsed, and supported by staff, parents, and students.

PRINCIPAL'S STATEMENT TO CRAFTON STAFF

Expectations in Developing & Maintaining Discipline

As Principal of our school, I will expect;

Each teacher to have a defined system of classroom management. A written description of this system, including representative examples of the progressive interventions you intend to employ, will be approved and filed by me. Whenever possible and appropriate, teachers are encouraged to use standards and systems that are consistent across their grade levels and are in alignment with site PBIS expectations.

You can expect:

Each administrator to assist and support you in every reasonable way in developing, implementing, and refining that system as needed.

I will expect:

That when you refer a student for discipline:

1. The student has been made fully aware of classroom and school rules and knows what rules he/she has violated.
2. Teachers within a village will discuss any continuing behavior problems and schedule a team conference with the student and parents when appropriate.
3. That information will be provided on the referral regarding previous actions you have taken regarding this specific issue.
4. You have exhausted the interventions at your disposal (i.e., you have done everything you can do) and you have followed the guidelines established by the administration and staff on what constitutes an appropriate behavior referral.
5. The behavior was so serious or so blatant as to make immediate removal from the classroom necessary.
6. The written referral will be explicit in stating the offense(s).
7. You will send the student out of class with a referral only if his/her continued presence in the class would disrupt or prevent teaching and/or learning.
8. If necessary, the referral will be delivered to the office at a time convenient to the staff member so that the issue may be handled most efficiently, causing a minimum of lost class time.

You can expect:

1. Each administrator to support your position in every reasonable way.

2. A response time on your referral of one, or at most, two days.
3. The availability of an administrator to discuss unresolved referrals after school on any given day.
4. That the administrator will exercise independent judgment regarding disposition of referrals.

I will expect:

1. That each teacher will go to the doorway of his/her classroom after each class period as often as possible and assume control of student behavior in the corridor.
2. That each staff member will hold students accountable for their behavior on the school grounds at all times.

You can expect:

1. Administrator support, investigation, and follow-through as indicated.
2. A response to referrals from incidents outside the classroom to be the same as to those within.

Conduct Code Procedures

WHAT TO DO WHEN PROBLEMS APPEAR

Both behavioral and academic problems are present in some of our students. Teachers often ask for guidelines for dealing with these problems. Here they are:

1. Call parents at first sign of concern. Inform the parents of your observations, ask for their ideas, assistance, and support in serving the student. Keep a log of your calls.
2. If possible, talk privately to the student about your concerns.
3. Behavior concerns—look through students' CUM file. Any official suspensions will be in file, also look for teacher comments on report cards. Look for patterns of behavior. We use In-House Suspension whenever possible, as it is preferable to having students at home unattended—and it saves the district money. Serious infractions (fighting, threats, etc.) do result in official suspension. Unresponsive students can be moved to other schools or expelled.
4. Referrals—please remember if you write a student referral, you are required to call the parents. You are writing the referral and can answer the parents' questions firsthand. Administrators will also call parents, but we can only give secondhand information on the incident.
5. Academic Concerns—again, look through student CUM. This will contain test scores, report cards, and a student history. You may want to ask the grade level administrator to schedule a Student Study Team (SST). This will involve a meeting with the student, parents, administrators, students' teachers, and perhaps the psychologist
6. Talk to the administrator.

(K) Hate Crime Reporting Procedures and Policies

Redlands USD encourages students, parents and staff to report crimes, including hate crimes, in one or more of the following venues:

- (a) We TIP - anonymous crime hotline at 1-800-782-7463
- (b) Redlands Police Department at (909) 798-7681
- (c) Sprigeo - anonymous safety threat reporting at (909) 703-8736, and
- (d) contact site principal and/or assistant principal at (909) 794-8600.

(J) Procedures to Prepare for Active Shooters

Intruder on campus (Critical Lockdown) drills are held twice annually as part of our safety drills. Lockdown procedures are posted inside every classroom. We have district radios to immediately contact district and local law enforcement support. District safety teams organize annual lockdown policy reviews for staff to rehearse best practices in lockdown scenarios.

Procedures for Preventing Acts of Bullying and Cyber-bullying

Our school counselors provide grade-level appropriate anti-bullying lessons to all students annually. Conflicts are resolved using restorative practices. Multi-tiered PBIS strategies reinforce (and consistently reward) positive interaction among students. Our PBIS team meets monthly to review behavior referrals and trend that might indicate the presence of bullying behavior, and, if discovered, take steps to address the issue. Annual review each AUGUST with students of RUSD's Acceptable Use Policy ensures a common understanding of what actions are--and are NOT--accepted while using digital media. Cyber-bullying is defined and proper steps to report such bullying are reviewed. Our website has a bullying reporting form available to student and parents, which directly notifies administration when submitted. These reports are investigated with the highest priority.

Safety Plan Review, Evaluation and Amendment Procedures

The safety plan is reviewed twice annually. In the fall, the plan is updated and approved by School Site Council. In the spring, as we prepare to develop the next year's plan, feedback is collected and incorporated in the upcoming year's plan. School Site Council can amend the plan at any time.

Safety Plan Review, Evaluation and Amendment Procedures

Activity Description (i.e. review steps, meetings conducted, approvals, etc)	Date and Time	Attached Document (description and location)
Administration reviews and updates prior year's plan, including suggestions from stakeholders gathered from surveys and data review.	August / September annually	
School Site Council meets to amend and approve all components of the year's Safety Plan.	October annually	
Plan is reviewed by staff and school site council for possible amendments based on the year's events	March / April annually	

Emergency Response Guidelines

Step One: Identify the Type of Emergency

Determining the type of emergency will assist the administrator in making the appropriate decisions to keep the campus safe. The response to a fire is drastically different than responding to an active shooter. The type of emergency may lead to evacuation, shelter-in-place, or lockdown, as well as which agency to contact.

Step Two: Identify the Level of Emergency

Determining the size and immediacy of the emergency will determine the level. The site leader will determine if it is a classroom only, building only, area only (i.e. playground), whole school, neighborhood, or city-wide emergency.

Step Three: Determine the Immediate Response Action

With safety of students, staff, and visitors at the forefront, site administration will determine immediate response based on site protocols. Please reference sections about specific emergencies.

Step Four: Communicate the Appropriate Response Action

Administration will communicate with the necessary emergency responders via phone. Administrators will utilize a variety of communication tools to notify staff and emergency participants such as: Bell system, phone intercom system, emails, and the emergency radio, located in the office. Lastly, a community communication plan will be created to notify families of incident, pick-up procedures, or next steps through one or several methods: Parent Square, postings on website, and all social media accounts.

Types of Emergencies & Specific Procedures

Earthquake

Classrooms initiate duck, cover, hold procedure (as rehearsed) - then evacuate to pre-determined area once shaking has completely stopped. Staff uses the Raptor App to report names and location of all students under their care at the time of the incident, as well as any missing students from their roster. Paper back-up reporting methods are available in each room's safety backpack.

Fire in Surrounding Area

Classrooms evacuate to pre-determined area. Staff uses the Raptor App to report location of all students under their care at the time of the incident. Paper back-up reporting methods are available in each room's safety backpack.

Fire on School Grounds

Classrooms evacuate to pre-determined area. Alternative evacuation locations are ready if needed. Staff uses the Raptor App to report location of all students under their care at the time of the incident. Paper back-up reporting methods are available in each room's safety backpack.

Pandemic

Blood Borne Pathogen Incident Reporting Form and Exposure Control Plan

Policy 5141.22: Infectious Diseases

The Governing Board desires to protect students from risks posed by exposure to infectious diseases while providing an appropriate education for all students.

The Superintendent or designee shall determine whether to admit a student with an infectious disease, and shall exclude students only in accordance with law. In making this determination, he/she shall consult the student's parents/guardians, the student's physician and/or the county health department, in accordance with law and consistent with confidentiality provisions. Because bloodborne pathogens such as hepatitis B virus, hepatitis C virus and human immunodeficiency virus (HIV) are not casually transmitted, the sole presence of bloodborne pathogens is not sufficient reason to exclude students from attending school.

(cf. 5141.26 - Tuberculosis Testing)
(cf. 5141.3 - Health Examinations)
(cf. 6158 - Independent Study)
(cf. 6159 - Individualized Education Program)
(cf. 6183 - Home/Hospital Instruction)

Parents/guardians are encouraged to inform the Superintendent or designee if their child has an infectious disease so that school staff may work cooperatively with the student's parents/guardians to minimize the child's exposure to other diseases in the school setting. The Superintendent or designee shall ensure that student confidentiality rights are strictly observed in accordance with law. No district employee shall release medical information, including knowledge of a bloodborne pathogen infection, without written consent from the parent/guardian or adult student. Such information shall be shared only with those persons specifically named in the written permission.

(cf. 5125 - Student Records)
(cf. 5022 - Student and Family Privacy Rights)

The Board requires students and staff to routinely observe universal precautions to prevent exposure to bloodborne pathogens and to prevent the spread of all infectious disease.

(cf. 4119.43/4219.43/4319.43 - Universal Precautions)
(cf. 5141.23 - Infectious Disease Prevention)

The Superintendent or designee shall ensure that the district's health education program provides information about the nature of bloodborne pathogens and their transmission.

(cf. 5141.6 - Student Health and Social Services)
(cf. 6142.2 - Sexual Health and HIV/AIDS Prevention Instruction)

- b. Immediately washing hands and other skin surfaces after removal of gloves and/or contact with blood

4.2. Schools will be provided with appropriate protective equipment including disposable waterproof gloves (natural rubber latex, neoprene, nitrile, or vinyl), tongs or pliers and proper sharps containers.

4.3. Schools' medical room mattresses will be either vinyl-coated beds or cloth mattress with a protective vinyl (plastic) covering so that they can be cleaned as needed with a bleach solution.

4.4. Blankets can be cleaned as needed by forwarding them, in a clearly labeled plastic bag, to the Assistant Supervisor Operations at the Facilities Office.

5. Universal Precautions

5.1. Universal Precautions to prevent transmission of blood-borne disease will be followed. Universal Precautions is the term for infection control measures endorsed by the Canadian Centre for Occupational Health and Safety for workers who might come into contact with blood and other body fluids. In summary they include:

- a. Wash hands for 30 seconds after contact with blood and other body fluids contaminated with blood.
- b. Wear disposable latex gloves when you encounter blood, body fluids, or when cleaning cuts, scrapes or wounds. Wash your hands as soon as you remove your gloves. Dispose gloves in a plastic bag.
- c. Use disposable absorbent material like paper towels to stop bleeding.
- d. Discard bloodstained material in a sealed plastic bag and deposit in the garbage. Label as containing blood-tainted material.
- e. Cover cuts or scrapes with a bandage until healed.
- f. Immediately protect staff and students from coming in contact with blood-soiled surfaces. The area must be disinfected with a fresh solution of one part bleach and nine-parts water (10% bleach solution).

Mops or brushes used for cleaning should be soaked in a bleach solution for 20 minutes.

(Note: The custodial department will provide each school with the product for dissolving in water to provide the bleach solution.)

6. Identification of Risks of Occupational Exposure

6.1. In accordance with the Occupational Health and Safety Regulations (section 6.35), the district's Health & Safety Coordinator will develop and maintain a list of positions and/or tasks and procedures where there is a potential for occupational exposure to a blood borne pathogen.

6.2. Employees who have, or may have, occupational exposure to the hepatitis B virus, will upon request, receive a hepatitis B vaccination (section 6.39, OH&S Regs).

6.3. Employees who may have been exposed to a blood borne pathogen in an exposure incident will be advised to immediately seek medical attention

Blood Borne Pathogen Incident Reporting Form and Exposure Control Plan

Policy 5141.22: Infectious Diseases

The Governing Board desires to protect students from risks posed by exposure to infectious diseases while providing an appropriate education for all students.

The Superintendent or designee shall determine whether to admit a student with an infectious disease, and shall exclude students only in accordance with law. In making this determination, he/she shall consult the student's parents/guardians, the student's physician and/or the county health department, in accordance with law and consistent with confidentiality provisions. Because bloodborne pathogens such as hepatitis B virus, hepatitis C virus and human immunodeficiency virus (HIV) are not casually transmitted, the sole presence of bloodborne pathogens is not sufficient reason to exclude students from attending school.

(cf. 5112.2 - Exclusions from Attendance)
(cf. 5141.26 - Tuberculosis Testing)
(cf. 5141.3 - Health Examinations)
(cf. 6158 - Independent Study)
(cf. 6159 - Individualized Education Program)
(cf. 6183 - Home/Hospital Instruction)

Parents/guardians are encouraged to inform the Superintendent or designee if their child has an infectious disease so that school staff may work cooperatively with the student's parents/guardians to minimize the child's exposure to other diseases in the school setting. The Superintendent or designee shall ensure that student confidentiality rights are strictly observed in accordance with law. No district employee shall release medical information, including knowledge of a bloodborne pathogen infection, without written consent from the parent/guardian or adult student. Such information shall be shared only with those persons specifically named in the written permission.

(cf. 5125 - Student Records)
(cf. 5022 - Student and Family Privacy Rights)

The Board requires students and staff to routinely observe universal precautions to prevent exposure to bloodborne pathogens and to prevent the spread of all infectious disease.

(cf. 4119.42/4219.42/4319.42 - Exposure Control Plan for Bloodborne Pathogens)
(cf. 4119.43/4219.43/4319.43 - Universal Precautions)
(cf. 5141.23 - Infectious Disease Prevention)

The Superintendent or designee shall ensure that the district's health education program provides information about the nature of bloodborne pathogens and their transmission.

(cf. 5141.6 - Student Health and Social Services)
(cf. 6142.2 - Sexual Health and HIV/AIDS Prevention Instruction)

Blood Borne Pathogen Incident Reporting Form and Exposure Control Plan67

Blood Borne Pathogens - Safety Practices68

Comprehensive School Safety Plan Purpose

Effective January 1, 2019, Assembly Bill 1747 (Rodriguez), School Safety Plans, became law. This bill requires that during the writing and development of the comprehensive school safety plan (CSSP), the school site council or safety committee consult with a fire department and other first responder entities in addition to currently required entities. It requires the CSSP and any updates made to the plan to be shared with the law enforcement agency, the fire department, and the other first responder entities.

The California Education Code (sections 32280-32288) outlines the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school.

In 2004, the Legislature and Governor recast and renumbered the Comprehensive School Safety Plan provisions in SB 719 and AB 115. It is the intent of the Legislature in enacting the provisions to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process, that include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses.

The historical requirement of the Comprehensive School Safety Plan was presented in Senate Bill 187, which was approved by the Governor and chaptered in 1997. This legislation contained a sunset clause that stated that this legislation would remain in effect only until January 1, 2000. Senate Bill 334 was approved and chaptered in 1999 and perpetuated this legislation under the requirement of the initial legislation.

Comprehensive School Safety Plans are required under SB 719 & AB 115 and contains the following elements:

Assessment of school crime committed on school campuses and at school-related functions

- Child abuse reporting procedures
- Disaster procedures
- Suspension and expulsion policies
- Procedures to notify teachers of dangerous pupils
- Discrimination and harassment policies
- School wide dress code policies
- Procedures for safe ingress and egress
- Policies enacted to maintain a safe and orderly environment
- Rules and procedures on school discipline
- Hate crime reporting procedures

The Comprehensive School Safety Plan will be reviewed and updated by March 1st every year. In July of every year, the school will report on the status of its school safety plan including a description of its key elements in the annual school accountability report card.

A copy of the Comprehensive School Safety Plan is available for review at Cram Elementary School - Front Office.

Safety Plan Vision

Cram Elementary School will:

- provide a safe, orderly, and secure environment conducive to learning.
- create a school culture in which students will attend regularly and remain safe from physical and social-psychological harm.
- work collaboratively with the district office and school board to identify, establish, and implement strategies, supports, and programs to comply with school safety laws.
- develop and implement a plan with all stakeholders, community agencies, and law enforcement to provide a safe and orderly school campus.
- develop an academic program that will include high expectations for students academics and behavior.
- work collaboratively with middle school and high school staff to support students as they transition to middle and high school.
- solicit the participation, opinions, and the support of teachers, parents, school administrators, community members, and community agencies to promote and ensure a safe school environment.

Assessment of School Safety

School crime is reported annually to the State of California. Cram ES works closely with Student Services and the San Bernardino County Sheriff to ensure compliance with all reporting, laws and penal codes. 1 student was suspended for the 2023-2024 school year.

Strategies and Programs to Provide and Maintain a High Level of Safety (EC 32281(a)1, items A-J)

Introduction - School Profile

Cram Elementary School is one of twenty-four schools in the Redlands Unified School District with traditions dating back to 1869. Cram Elementary School has a diverse pupil student body and is served by a dedicated staff. Both staff and parents comment on the positive changes that are ongoing in our school.

Cram Elementary School faces challenges in maintaining a safe school. This section of the Comprehensive School Safety Plan will describe programs in place at our school as well as strategies and programs of our school site council for continued improvement in providing a safe, orderly, school environment conducive to learning.

School Crime Status and Reporting

School crime is reported annually to the State of California. Cram ES works closely with Student Services and the San Bernardino County Sheriff to ensure compliance with all reporting, laws and penal codes. 80 students were chronically absent and 1 student was suspended for the 2023-2024 school year.

Personal Characteristics of Pupil & Staff

(Additional Health and Welfare Data available from ICOE aggregated DAT surveys)

Cram Elementary School has an enrollment of 507 pupils in TK-5. Pupils from this school come from families with minimum family mobility. Approximately 42% of the pupils are in families receiving Aid to Families with Dependent Children that are eligible for free/reduce lunches. The ethnic makeup of the pupil population is 52.8% Hispanic, 3.10% African American, 26.30% Caucasian and Asian 8.40%. Our pupils have a variety of life experiences. Some pupils have recently arrived from foreign countries while others have never left their neighborhood.

Curriculum and Educational Activities

The course of study includes the basic core curriculum, physical education and enrichment classes such as art, music, orchestra, band, and STEAM Lab.

Pupils have the opportunity to participate in noon and after-school activities. These include Cardinal Club, Student Government, Book Club, and Choir.

Staff provides opportunities and additional activities open to pupils in the areas of technology, visual and performing arts, and leadership.

(A) Child Abuse Reporting Procedures (EC 35294.2 [a] [2]; PC 11166)

Policy 5141.4: Child Abuse Prevention and Reporting

The Governing Board recognizes that the district has a responsibility to facilitate the prompt reporting of incidents of child abuse and neglect. The Superintendent or designee shall ensure that parents/guardians have access to procedures whereby they can report suspected child abuse at a school site to appropriate child protective agencies

The Superintendent or designee shall develop and implement regulations for use by employees in identifying and reporting child abuse

District employees shall report known or suspected incidents of child abuse in accordance with district regulations and state law. Employees shall cooperate with the child protective agencies responsible for reporting, investigating and prosecuting cases of child abuse.

(cf. 4112.9 - Signed Statements/Child Abuse Reporting Statements)

The Superintendent or designee shall provide training in child abuse identification and reporting for all certificated and classified personnel. (Penal Code 11165.7)

All employees trained in child abuse identification and reporting shall be given, as a part of that training, written notice of the child abuse reporting requirements and the employees' confidentiality rights. (Penal Code 11165.7)

In order to reduce or eliminate unfounded child abuse accusations directed at school employees, child abuse in service training shall include guidance in disciplining students and maintaining ethical relationships with them.

(cf. 3514 - Safety)

(cf. 5142 - Safety)

Duty to Report

Certificated employees and classified employees trained in child abuse identification and reporting shall report known or suspected child abuse to a child protective agency by telephone immediately or as soon as practically possible and in writing within 36 hours. The reporting duties are individual and cannot be delegated to another individual except under circumstances set forth in Penal Code 11166.

Definitions

Child Abuse includes the following:

1. A physical injury inflicted by other than accidental means on a child by another person.
2. Willful cruelty or unjustifiable punishment of a child, or willfully inflicting unjustifiable physical pain or mental suffering, or failure to safeguard a child from these injuries when the child is under a person's care or custody
3. Sexual abuse of a child
4. Neglect of a child or abuse in out-of-home care
5. Unlawful corporal punishment or injury resulting in a traumatic condition

Mandated Reporters are those people defined by law as child care custodians, health practitioners, child visitation monitors and employees of a child protective agency. Mandated reporters include virtually all school employees. The following school personnel are required to report:

Teachers, administrators, supervisors of child welfare and attendance, certificated student personnel employees, employees of care institutions, Headstart teachers, school psychologists, licensed nurses, counselors, presenters of child abuse prevention programs and those instructional aides or other classified employees trained in child abuse reporting.

Child Protective Agencies are those law enforcement and child protective services responsible for investigating child abuse reports, including the local police or sheriff department, county welfare or juvenile probation department and child protective services.

Reasonable Suspicion means that it is objectively reasonable for a person to entertain such a suspicion, based upon facts that could cause a reasonable person in a like position, drawing when appropriate on his/her training and experience, to suspect child abuse. (Penal Code 11166)

Reporting Procedures

To report known or suspects child abuse, any employee (as defined above) shall report by telephone to the local child protective agency immediately. (Child Protective Services 921 County Center, 3 Court, Modesto, CA phone # 525- 6641)

The following information shall be given:

1. The name of the person making the report
2. The name of the child
3. The present location of the child
4. The nature and extent of any injury

Any other information requested by the child protective agency, including the information that led the mandated reporter to suspect child abuse.

When the verbal report is made, the mandated reporter shall note the name of the official contacted, the date and time contacted, and any instructions or advice received.

Within 36 hours of making the telephone report, the mandated reporter shall complete and mail to the local child protective agency a written report which includes a completed Department of Justice form (DOJ SS 8572).

Mandated reports may obtain copies of the above form either from the district or local child protective agency.

Instructions are included on the form, and reporters may ask the site administrator for help in completing and mailing it; however, the mandated reporter is personally responsible for ensuring that the written report is correctly filed.

Employees reporting child abuse to a child protective agency are encouraged, but not required, to notify the site administrator or designee as soon as possible after the initial verbal report by telephone. When so notified, the site administrator shall inform the Superintendent or designee.

Administrators so notified shall provide the mandated reporter any assistance necessary to ensure that reporting procedures are carried out in accordance with law and district regulations. At the mandated reporter's request, the principal may assist in completing and filing the form.

If the mandated reporter does not disclose his/her identity to a district administrator, he/she shall at least provide or mail a copy of the written report to the site administrator and the district without his/her signature or name.

Legal Responsibility and Liability

Mandated reporters have absolute immunity. School employees required to report are not civilly or criminally liable for filing a required or authorized report of known or suspected child abuse.

A mandated reporter who fails to report an instance of child abuse, which he/she knows to exist or reasonably should know to exist, is guilty of a misdemeanor and is punishable by confinement in jail for a term not to exceed six months or by a fine of not more than \$1,000 or both. The mandated reporter may also be held civilly liable for damages for any injury to the child after a failure to report

When two or more persons who are required to report have joint knowledge of suspected instance of child abuse, and when they so agree, the telephone report may be made by either of them and a single report made and signed by that person.

However, if any person who knows or should know that the person designated failed to make the report, that person then has a duty to make the report.

The duty to report child abuse is an individual duty and no supervisor or administrator may impede or inhibit such reporting duties. Furthermore, no person making such a report shall be subject to any sanction.

Victim Interview

Upon request, a child protective agency representative may upon request interview a suspected victim of child abuse during school hours, on school premises, concerning a report of suspected child abuse that occurred within the child's home. The child shall be given the choice of being interviewed in private or in the presence of any adult school employee or volunteer aide selected by the child. (Penal Code 11174.3)

A staff member or volunteer aide selected by a child may decline to be present at the interview. If the selected person accepts, the principal or designee shall inform him/her, before the interview takes place, of the following legal requirements:

1. The purpose of the selected person's presence at the interview is to lend support to the child and enable him/her to be as comfortable as possible.
2. The selected person shall not participate in the interview.
3. The selected person shall not discuss the facts or circumstances of the case with the child.
4. The selected person is subject to the confidentiality requirements of the Child Abuse and Reporting Act, a violation of which is punishable as specified by Penal Code 11167.5.
5. If a staff member agrees to be present, the interview shall be held at a time during school hours when it does not involve an expense to the school. (Penal Code 11174.3)

Release of Child to Peace Officer or Child Protective Services Agent

When a child is released to a peace officer or child protective agency and taken into custody as a victim of suspected child abuse, the Superintendent and/or principal shall not notify the parent/guardian as required in other instances of removal of a child from school, but rather shall provide the protective agency with the address and telephone number of the child's parent/guardian. It is the responsibility of the peace officer or agent to notify the parent/guardian of the situation. (Education Code 48906)

Peace officer and child protective services agents will be asked to sign an appropriate release or acceptance of responsibility form.

(cf. 5145.11 - Questioning and Apprehension)

When School Employees are Accused of Child Abuse

Regardless of who child abusers may be, the major responsibilities of mandated reports are to 1) identify incidents of suspected child abuse, and 2) comply with laws requiring the reporting of suspected abuse to proper authorities. Determining whether or not the suspected abuse actually occurred is not the responsibility of the school employee. Such determination and follow-up investigation will be made by a child protective agency.

Pending outcome of an investigation by a child protective agency and before formal charges are filed, the employee may be subject to reassignment or a paid leave of absence.

Upon filing formal charges or upon conviction, the district may take disciplinary action in accordance with law, district policies, regulations and/or collective bargaining agreements. The Superintendent or designee shall seek legal counsel in connection with either the suspension or dismissal of the employee.

(cf. 4117.4 - Dismissal)

(B) Disaster Procedures (EC 35295-35297; GC 8607 and 3100)

Disaster Plan (See Appendix C-F)

Each classroom, office, library and room on campus has a posting of the emergency procedures near the exit door. Fire Drills are practiced a minimum of each month of the school year. Earthquake drills are practiced a minimum of four times a year and Lock Down drills are practiced a minimum of once yearly.

The Standardized Emergency Management System (SEMS) provides the model for all levels of emergency operations—local, regional and statewide. During a disaster the SEMS serves as an "incident command system" (ICS) with a Site Command post to coordinate leaders in each of six areas—food/water distribution, utilities, first aid, search and rescue, sanitation, and student supervision—through a definite chain of command. The ICS is set up in an Emergency Operations Center, where the leaders of each unit can be present at a single site in order to quickly facilitate communication and coordinate the response. The NSLA disaster preparedness plan shall be available to staff, students and the public in the Cram office. Cram's principal is authorized and directed to implement plans as described herein; or take such other action as may, in their judgment, be necessary to save lives and mitigate the effects of disasters. A principal may implement one or more of these emergency actions in coping with a disaster. Maintenance personnel are assigned as liaisons between Incident Command and the school in the event phones are inoperative. The District has furnished Cram with Site Emergency Radios in the case that standard communications are cutoff. During an emergency, children may only be released to the parent, guardian, designee of parent, or other adult legally responsible for their care. There shall be NO EXCEPTIONS to this policy. The dismissal of children from the school shall be governed by emergency procedures. However, this procedure does not preclude the exercise of professional judgment by an administrator when the circumstances of the situation indicate dismissal to be in the best interest of the child.

Public Agency Use of School Buildings for Emergency Shelters

Public agencies, such as the American Red Cross, may use school buildings, grounds, and equipment for mass care and welfare shelters during disasters or other emergencies affecting the public health and welfare. The District or County office shall cooperate with the public agency in furnishing and maintaining the services as the District or County Office may deem necessary to meet the needs of the community

(C) School Suspension, Expulsion and Mandatory Expulsion Guidelines

Policy 5144.1: Suspension And Expulsion/Due Process

Suspension and Expulsion

The Governing Board recognizes that maintaining an environment which promotes learning and protects the health, safety, and welfare of all students may require the suspension or expulsion of a student from regular classroom instruction. District policies and school site rules shall clearly identify district behavior standards

(cf. 5144 - Discipline)

Except in cases where suspension for a first time offense is warranted in accordance with law, suspension shall be imposed only when other means of correction fail to bring about proper conduct. (Education Code 48900.5)

Expulsion is an action taken by the Board for severe or prolonged breaches of discipline by a student. Except for single acts of a grave nature, expulsion is usually used only when there is a history of misconduct, when other forms of discipline, including suspension, have failed to bring about proper conduct, or when the student's presence causes a continuing danger to other students. (Education Code 48915)

The grounds for suspension and expulsion and the procedures for considering, recommending and/or implementing suspension and expulsion shall be specified in Administrative Regulation.

Each principal shall annually inform all students and parents/guardians of the school's discipline rules and procedures and of the availability of all district policies and regulations dealing with student discipline, suspension and expulsion. (Education Code 35291, 35291.5)

(cf. 5145.6 - Parental Notifications)

Suspended or expelled students shall be excluded from all school-related extracurricular activities during the suspension or expulsion.

cf. 6145 - Extracurricular and Cocurricular Activities)

Zero Tolerance

The Board supports a zero tolerance approach to serious offenses in accordance with state and federal law. This approach makes the removal of potentially dangerous students from the classroom a top priority and ensures the standardized treatment of all students. Staff shall immediately report to the Superintendent/ designee any incidence of offenses specified in law, Board policy, and administrative regulation as cause for suspension or expulsion.

Student Due Process

The Board shall provide for the fair treatment of students facing suspension and expulsion by affording them their due process rights under the law. The administration and staff shall comply with procedures for notices and appeals as specified in regulation. Procedures governing student due process shall conform in all aspects to provisions in law. (Education Codes 48911, 48915 and 48915.5)

Whenever a student is suspended, school officials may (but are not required to) meet with the parent/guardian to discuss the causes and duration of the suspension, the school policy involved, and any other pertinent matters. (Education Code 48914)

cf. 5119 - Students Expelled from Other Districts

(cf. 5144.2 - Suspension and Expulsion/Due Process - Individuals with Exceptional Needs)

Rights of Complaining Witness

An expulsion hearing involving allegations of sexual assault or sexual battery may be postponed for one school day in order to accommodate the special physical, mental or emotional needs of a student who is the complaining witness. (Education Code 48918.5)

Whenever the Superintendent or designee recommends an expulsion hearing that addresses allegations of sexual assault or sexual battery, he/she shall give the complaining witness a copy of the district's suspension and expulsion policy and regulation and shall advise the witness of his/her right to: (Educational Code 48918.5)

1. Receive five days' notice of his/her scheduled testimony at the hearing
2. Have up to two adult support persons of his/her choosing present in the hearing at the time he/she testifies
3. Have a closed hearing during the time he/she testifies

Whenever any allegation of sexual assault or sexual battery is made, the Superintendent or designee shall immediately advise complaining witnesses and accused students to refrain from personal or telephone contact with each other during the time when an expulsion process is pending. (Education Code 48918.5)

On-Campus Suspension Program

The Board recognizes that students who are suspended from school frequently have no supervision or guidance during the school hours when they are off campus. The Board believes that in many cases, instead of sending the student off campus, it would be better to address the student's misconduct by keeping the student at school and providing him/her with supervision that is separated from the regular classroom.

The Superintendent or designee shall examine alternatives to off-campus suspension and may establish a suspension program which involves progressive discipline during the school day on campus; using conferences between staff, parents/guardians and students; detention; student study teams or other assessment-related teams; and/or referral to school support services staff.

Required Parental Attendance

The Board believes that parental involvement plays an important role in the resolution of classroom behavior problems. The Board expects that teachers will communicate with parents/guardians when behavior problems arise

Whenever a student is suspended from a class because he/she committed an obscene act, engaged in habitual profanity or vulgarity, disrupted school activities or otherwise willfully defied valid staff authority, the teacher of the class from which the student was suspended may require the student's parent/guardian to attend a portion of a school day in that class. After completing the classroom visit and before leaving school premises, the parent/guardian also shall meet with the principal or designee. (Education Code 48900.1)

The Board encourages teachers, before requiring parental attendance, to make reasonable efforts to have the parent/guardian visit the class voluntarily. The teacher also may consider informing the parent/guardian about available resources which may provide help in the development of parenting skills. Teachers should reserve the option of required parental attendance for cases in which they have determined that it is the best strategy to promote positive interaction between the student and the parent/guardian and to improve classroom behavior.

Parental attendance may be required on the day the student returns to class or within one week thereafter. The principal or designee shall contact any parents/guardians who do not respond to the request to attend school. The Board recognizes that parental compliance with this policy may be delayed, modified or prevented by serious illness/injury/disability, absence from town, or inability to get certain release time from work.

The teacher shall apply this policy uniformly to all students within the classroom. This policy shall apply only to a parent/guardian who actually lives with the student. (Education Code 48900.1)

District regulations and school-site rules for student discipline shall include procedures for implementing parental attendance requirements.

Parents/guardians shall be notified of this policy before it is implemented and at the beginning of each subsequent school year. (Education Code 48900.1, 35291, 48980)

Decision Not to Enforce Expulsion Order

In cases where expulsion is mandatory pursuant to Education Code 48915(c), the enforcement of an expulsion order shall not be suspended by the Board. In all other cases of expulsion, the order for expulsion may be suspended by the Board, on a case-by-case basis, pursuant to the requirements of law.

Suspension from Class by a Teacher/Parental Attendance

A teacher may suspend any student from the teacher's class for any of the acts listed under "Grounds for Suspension and Expulsion" above for the day of the suspension and the day following. (Education Code 48910)

Suspension from class means the removal of a student from class by a teacher for the day of the suspension and the next day. A teacher may suspend a student from class and may also refer a student for consideration of suspension from school for any act listed in "Grounds for Suspension and Expulsion" above. (Education Code 48910)

When suspending a student from his/her class, the teacher shall immediately report this action to the principal and send the student to the principal for appropriate action. The student shall be appropriately supervised during the class periods from which he/she has been suspended.

As soon as possible, the teacher shall ask the student's parent/guardian to attend a parent-teacher conference regarding the suspension. A counselor or psychologist should attend the conference if it is practicable, and a school administrator may attend if either the parent/guardian or teacher so request.

A suspended student shall not be returned to class during the period of suspension without the approval of the teacher of the class and the principal. (Education Code 48910)

A student suspended from class shall not be placed in another regular class during the period of suspension. However, if a student is assigned to more than one class per day, he/she may be placed in any other regular classes except those held at the same time as the class from which the student was suspended. (Education Code 48910)

The teacher of any class from which a student is suspended may require the suspended student to complete any assignments and tests missed during the suspension. (Education Code 48913)

When a teacher requires a parent/guardian to attend school in accordance with Board Policy, the principal shall send the parent/guardian a written notice that the parent/guardian's attendance is required pursuant to law. (Education Code 48900.1)

Suspension By Superintendent, Principal Or Principal's Designee

A Superintendent, principal, or principal's designee may suspend a student from a school for any of the acts listed under "Grounds for Suspension and Expulsion" above for not more than five consecutive school days unless the suspension is extended pending expulsion. (Education Code 48911)

The Superintendent or designee shall immediately suspend any student found at school or at a school activity to be: (Education Code 48915)

3. Unlawfully selling a controlled substance listed in Health and Safety Code 11053-11058.
4. Committing or attempting to commit a sexual assault or committing a sexual battery as defined in item 414 under "Grounds for Suspension and Expulsion" above.
5. Possession of an explosive as defined in 18 USC 921.

Suspension may be imposed upon a first offense if the Superintendent, principal or designee determines the student violated items (i) - (v) listed in "Grounds For Suspension and Expulsion" above or if the student's presence causes a danger to persons or property or threatens to disrupt the instructional process. (Education Code 48900.5)

A student may be suspended from school for not more than 20 school days in any school year, unless for purposes of adjustment a student enrolls in or is transferred to another regular school, an opportunity school, or continuation school or class, in which case suspension shall not exceed 30 days in any school year. However, this restriction on the number of days of suspension does not apply when the suspension is extended pending an expulsion. (Education Code 48903 and 48912)

Suspension Procedures

1. Informal Conference: Suspension shall be preceded by an informal conference conducted by the principal or designee or the Superintendent or designee between the student, and whenever practicable, the teacher, supervisor or school employee who referred the student to the principal. At the conference, the student shall be informed of the reason for the disciplinary action and the evidence against him/her and shall be given the opportunity to present his/her version and evidence in support of his/her defense. (Education Code 48911(b))

This conference may be omitted if the principal, designee or the Superintendent or designee determines that an emergency situation exists. An "emergency situation" involves a clear and present danger to the lives, safety or health of students or school personnel. If the pre-suspension conference is not held, both the parent/guardian and student shall be notified of the student's right to return to school for the purpose of a conference. The conference shall be held within two school days, unless the student waives his/her right to it or is physically unable to attend for any reason. In such case, the conference will be held as soon as the student is physically able to return to school. (Education Code 48911(c))

2. Administrative Actions: All requests for student suspension are to be processed by the principal or designee of the school in which the student is enrolled at the time of the misbehavior

A school employee shall report the suspension, including the name of the student and the cause for the suspension, to the Superintendent or designee, who in turn will inform the Board.

3. Notice to Parents/Guardians: At the time of the suspension, a school employee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension. (Education Code 48911)

This notice shall state the specific offense committed by the student. (Education Code 48900.8)

In addition, the notice may also state the date and time when the student may return to school.

Should school officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may also add that state law requires the parent/guardian to respond to such request without delay.

4. Parent/Guardian Conference: Whenever a student is suspended, school officials may meet with the parent/guardian to discuss the causes and duration of the suspension, the school policy involved, and any other pertinent matters. (Education Code 48914)

While the parent/guardian is required to respond without delay to a request for a conference about a student's behavior, no penalties may be imposed on the student for the failure of the parent/guardian to attend such conference. The student may not be denied readmission solely because the parent/guardian failed to attend. (Education Code 48911)

5. Extension of Suspension: If the expulsion of a suspended student is being considered by the Board, the Superintendent or designee may, in writing, extend the suspension until such time as the Board has made a decision. (Education Code 48911(g))

Any extension of the original period of suspension shall be preceded by notice of such extension with an offer to hold a conference concerning the extension, giving the student an opportunity to be heard. This conference may be held in conjunction with a meeting requested by the student or parent/guardian to challenge the original suspension. Extension of the suspension may be made only if the Superintendent or designee determines, following a meeting in which the student and the student's parent/guardian were invited to participate, that the student's presence at the school or at an alternative school would endanger persons or property or threaten to disrupt the instructional process. (Education Code 48911(g))

Suspension by the Board

The Board may suspend a student for any of the acts listed in "Grounds for Suspension and Expulsion" above and within the limits specified in "Suspension by Superintendent, Principal or Principal's Designee" above. (Education Code 48912)

The Board may suspend a student enrolled in a continuation school or class for a period not longer than the remainder of the semester if any of the acts listed in "Grounds for Suspension and Expulsion" occurred. The suspension shall meet the requirements of Education Code 48915. (Education Code 48912.5)

When the Board is considering a suspension, disciplinary action, or any other action (except expulsion) against any student, it may hold closed sessions if a public hearing would lead to disclosure of information which would violate a student's right to privacy under Education Code 49073-49079.

(cf. 9321 -Closed Session Purposes and Agendas)

The Board shall provide the student with written notice of the closed session by registered or certified mail. Upon receiving this notice the student may request a public meeting, and this request shall be granted if made in writing (within 48 hours after receipt of the Board's notice). However, any discussion that conflicts with any other student's right to privacy shall be in closed session. (Education Codes 48912)

Authority to Expel

A student may be expelled only by the Board. The Board shall expel, as required by law, any student found to have committed certain offenses listed below under "Mandatory Recommendation and Mandatory Expulsion."

The Board may also order a student expelled for any of the acts listed above under "Grounds for Suspension and Expulsion" upon recommendation by the principal, Superintendent, hearing officer or administrative panel, based on finding either or both of the following: (Education Code 48915(b) and (e))

1. That other means of correction are not feasible
2. That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others

Mandatory Recommendation For Expulsion

The principal, Superintendent or designee shall recommend a student's expulsion for any of the following acts, unless the principal or Superintendent or designee finds, and reports in writing to the Board, that expulsion is inappropriate due to particular circumstances which shall be set out in the report of the incident:

2. Possession of any knife as defined in Education Code 48915(g), explosive or other dangerous object of no reasonable use to the student.

1. Possessing, as verified by a district employee, or selling or otherwise furnishing a firearm, unless the student had obtained prior written permission to possess the item from a certificated school employee, with the principal or designee's concurrence. (Education Code 48915(c).1)
2. Brandishing a knife as defined in Education Code 48915(g) at another person. (Education Code 48915(c).2)

(Education Code 48918(a))

The student is entitled to one postponement of an expulsion hearing for a period of not more than 30 calendar days. The request for postponement shall be in writing. Any subsequent postponement may be granted at the district's discretion. (Education Code 48918(a))

If the district finds it impracticable to comply with these time requirements for conducting an expulsion hearing, the Superintendent or designee may, for good cause, extend the time period by an additional five school days. Reasons for the extension shall be included as a part of the record when the expulsion hearing is held. (Education Code 48918(a))

Once the hearing starts, all matters shall be pursued with reasonable diligence and concluded without unnecessary delay. (Education Code 48918(a))

Rights of Complaining Witness

An expulsion hearing involving allegations of sexual assault or sexual battery may be postponed for one school day in order to accommodate the special physical, mental or emotional needs of a student who is the complaining witness. (Education Code 48915.5)

Whenever the Superintendent or designee recommends an expulsion hearing that addresses allegations of sexual assault or sexual battery, he/she shall give the complaining witness a copy of the district's suspension and expulsion policy and regulation and shall advise the witness of his/her right to: (Education Code 48915.5)

If such request is made, the meeting shall be public

Whether the expulsion hearing is held in closed or public session, the Board may meet in closed session to deliberate and determine if the student should be expelled. In the hearing on the admissibility of this evidence, the complaining witness shall be entitled to be represented by a parent/guardian, legal counsel or other support person. Reputation or opinion evidence regarding the sexual behavior of a complaining witness shall not be admissible for any purpose.

g. In order to facilitate a free and accurate statement of the experiences of the complaining witness and to prevent discouragement of complaints, the district shall provide a nonthreatening environment.

(1) The district shall provide a room separate from the hearing room for the use of the complaining witness before and during breaks in testimony.

(2) At the discretion of the person conducting the hearing, the complaining witness shall be allowed reasonable periods of relief from examination and cross-examination during which he/she may leave the hearing room.

(3) The person conducting the hearing may:

(a) Arrange the seating within the hearing room so as to facilitate a less intimidating environment for the complaining witness.

(b) Limit the time for taking the testimony of a complaining witness to the hours he/she is normally in school, if there is no good cause to take the testimony during other hours.

(c) Permit one of the support persons to accompany the complaining witness to the witness stand.

6. Decision Within Ten Days: The Board's decision on whether to expel a student shall be made within ten school days after the conclusion of the hearing, unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

7. Decision Within 40 Days: If the Board does not meet on a weekly basis, its decision on whether to expel a student shall be made within 40 school days after the student is removed from his/her school of attendance, unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

Alternative Hearing: Hearing Officer or Administrative Panel

Instead of conducting an expulsion hearing itself, the Board may contract with the county hearing officer or with the Office of Administrative Hearings of the State of California for a hearing officer. Alternatively, the Board may appoint an impartial administrative panel composed of three or more certificated personnel, none of whom shall be members of the Board or on the staff of the school in which the student is enrolled. (Education Code 48918(d))

A hearing conducted by the hearing officer or administrative panel shall conform to the same procedures as apply to a hearing conducted by the Board as specified in "Conduct of Expulsion Hearing" above.

The hearing officer or administrative panel shall, within three school days after the hearing, determine whether to recommend expulsion of the student to the Board. If expulsion is not recommended, the student shall be immediately reinstated. (See "Reinstatement" below.) The Superintendent or designee shall place the student in a classroom instructional program, any other instructional program, a rehabilitation program, or any combination of these programs after consulting with district staff, including the student's teachers and with the student's parent/guardian. (Education Code 48918(e))

If expulsion is recommended, findings of fact in support of the recommendation shall be prepared and submitted to the Board. All findings of fact and recommendations shall be based solely on the evidence presented at the hearing. The Board may accept the recommendation based either upon a review of the findings of fact and recommendations submitted or upon the results of any supplementary hearing the Board may order. (Education Code 48918(f))

The hearing officer or administrative panel may recommend that the Board suspend the expulsion for a period of one year. (See "Suspension of Expulsion" below.)

The Board shall make its decision about the student's expulsion within 40 school days after the date of the student's removal from school unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

Stipulated Expulsions

It is the policy of the Redlands Unified School District that, where approved by the Superintendent or designee, parents/guardians may agree to the expulsion of their pupil by stipulation without necessity of a hearing. This process will expedite the pupil's school placement and may expedite the rehabilitation process.

A stipulated expulsion must be purely voluntary. No district administrator or staff member may coerce a pupil, parent or guardian into entering into such a stipulation. Parents/guardians will be given three calendar days to decide on a stipulated expulsion agreement.

If the parent/guardian requests a stipulated expulsion, the Superintendent or designee will promulgate the stipulated agreement. If at any time the parent/guardian decides not to pursue a stipulated agreement, the expulsion proceedings and timelines, extended by the length of the period for consideration of the stipulation, will be reinstated. The stipulated agreement will be presented to the Board for final consideration.

The stipulated agreement will include the terms and conditions of the expulsion order, including alternative placement and a rehabilitation plan to be completed before the student can be re-admitted to the district.

Final Action by the Board

Whether the expulsion hearing is conducted in closed or public session by the Board, a hearing officer, or an administrative panel, the final action to expel must be taken by the Board at a public meeting. (Education Code 489180)) The Board shall maintain a record of each expulsion, including its cause. Expulsion records shall be non- privileged, disclosable public records.

(cf. 9321.1 - Closed Session Actions and Reports)

If the Board conducts the hearing and reaches a decision not to expel, this decision shall be final and the student shall be reinstated immediately.

Upon ordering the expulsion, the Board shall set a date when the student shall be reviewed for readmission to a school within the district. For a student expelled for an act listed under "Mandatory Recommendation and Mandatory Expulsion" above, this date shall be one year from the date the expulsion occurred, except that the Board may set an earlier date on a case-by-case basis. For a student expelled for other acts, this date shall be no later than the last day of the semester following the semester in which the expulsion occurred. (Education Code 48916)

At the time of the expulsion order, the Board shall recommend a plan for the student's rehabilitation, which may include: (Education Code 48916)

1. Periodic review as well as assessment of the student at the time of review for readmission.
2. Recommendations for improved academic performance, tutoring, special education assessments, job training, counseling, employment, community service and other rehabilitative programs.
3. Such other recommendations as the Board approves.

With parental consent, students who have been expelled for reasons relating to controlled substances or alcohol may be required to enroll in a county-sponsored drug rehabilitation program before returning to school. (Education Code 48916.5)

Upon expulsion, a copy of readmission procedures will be made available to the student and his/her parent/guardian.

Written Notice to Expel

The Superintendent or designee shall send written notice of the decision to expel to the student or parent/guardian. The notice shall include the following:

1. The specific offense committed by the student for any of the causes for suspension or expulsion listed in Education Code 48900(a)-(o), Education Code 48900.2-48900.4 and Education Code 48915(c). (Education Code 48900.8)
2. The fact that a description of readmission procedures will be made available to the student and his/her parent/guardian. (Education Code 48916)
3. Notice of the right to appeal such expulsion to the County Board of Education. (Education Code 48918)

4. Notice of the alternative educational placement to be provided to the student during the time of expulsion. (Education Code 48918)

5. The notice also shall inform the student or parent/guardian of his/her obligation to inform any new district in which the student seeks to enroll of the student's status with the expelling district, pursuant to Education Code 48915.1. (Education Code 48918)

Suspension of Expulsion

The Board, upon voting to expel a student, may suspend the enforcement of the expulsion order for not more than one calendar year. When deciding whether to suspend an expulsion, the Board shall take into account the following criteria:

1. The student's previous behavior.
2. The seriousness of the misconduct.
3. The student's attitude toward the misconduct and his/her willingness to follow a rehabilitation program.

The suspension of the enforcement of an expulsion shall be governed by the following: (Education Code 48917)

1. The Board may, as a condition of the suspension of enforcement, assign the student to a school, class or program appropriate for the student's rehabilitation. This rehabilitation program may provide for the involvement of the student's parent/guardian in the student's education. However, a parent/guardian's refusal to participate in the rehabilitation program shall not be considered in the Board's determination as to whether the student has satisfactorily completed the rehabilitation program.
2. During the period when enforcement of the expulsion order is suspended, the student shall be on probationary status.
3. The suspension of expulsion order may be revoked by the Board if the student commits any of the acts listed under "Grounds for Suspension and Expulsion" above or violates any of the district's rules and regulations governing student conduct.
4. When suspension of expulsion order is revoked, a student may be expelled under the terms of the original expulsion order
5. Upon satisfactory completion of the rehabilitation assignment, the Board shall reinstate the student in a district school. Upon reinstatement, the Board may order the expungement of any or all records of the expulsion proceedings.
6. Suspension of an expulsion order shall not affect the time period and requirements for the filing of an appeal of the expulsion order with the County Board of Education.
7. The Superintendent or designee shall send written notice of any decision to suspend the enforcement of an expulsion order during a period of probation to the student or parent/guardian. The notice shall also inform the parent/guardian of the right to appeal the expulsion to the County Board of Education. (Education Code 48918(i))

Right to Appeal

The student or parent/guardian is entitled to file an appeal of the Board's decision to the County Board of Education.

The appeal must be filed within 30 days of the Board's decision to expel, even if the expulsion action is suspended and the student is placed on probation. (Education Code 48919)

Post-Expulsion Placements

The Board shall refer expelled students to a program of study that is: (Education Code 48915, 48915.01)

1. Appropriately prepared to accommodate students who exhibit discipline problems.

2. Not provided at a comprehensive middle, junior or senior high school or at any elementary school, unless the program is offered at a community day school established at such a site.

3. Not housed at the school site attended by the student at the time of suspension.

(cf. 6185 - Community Day School)

When the placement described above is not available, and when the County Superintendent of Schools so certifies, students expelled for acts described in items #6 through # 13 and # 17 through # 19 under "Grounds for Suspension and Expulsion" above may be instead referred to a program of study that is provided at another comprehensive middle, junior, or senior high school, or at an elementary school.

The program for a student expelled from any of grades K-6 shall not be combined or merged with programs offered to students in any of grades 7-12. (Education Code 48916.1)

Reinstatement

When the Board accepts a recommendation against expulsion or makes its own decision after the hearing not to expel, the decision is final and the student shall be reinstated immediately. The Superintendent or designee shall place the student in any classroom program, other instructional program, rehabilitation program, or any combination of such programs following consultation with district personnel, including the teacher involved, and with the student's parent/guardian. (Education Code 48918(e))

Readmission

An expulsion order shall remain in effect until the Board may order the readmission of the student.

Readmission procedures shall be as follows:

1. A written request for review of expulsion action and request for readmission shall be submitted by the parent/guardian to the Superintendent or designee.
2. The Superintendent or designee will hold a conference with the parent/guardian and the student.
3. At the conference the conditions for readmission will be reviewed. The Superintendent or designee shall verify that the rehabilitation plan has been met.
4. School regulations will be reviewed and the student and parent/guardian will be asked to indicate in writing their willingness to comply with these regulations.
5. The Superintendent or designee will transmit the request for readmission to the Board, along with his/her recommendation. The Board shall consider the request in closed session if the information would be disclosed in violation of Education Code 49073-49079. If a written request for open session is received from the parent/guardian or adult student, it will be honored.
6. The Superintendent or designee will notify the student or parent/guardian, by registered mail, of the district's decision regarding readmission.
7. The Board may deny readmission only if it finds that the student has not satisfied the conditions of the rehabilitation plan or that the student continues to pose a danger to campus safety or to other district students or employees. (Education Code 48916)
8. If the Board denies the readmission of a student, the Board shall determine either to continue the student's placement in the alternative educational program initially selected or to place the student in another program that serves expelled students, including placement in a county community school. (Education Code 48916)
9. The Board shall provide written notice to the expelled student and parent/guardian describing the reasons for denying readmittance into the regular program. This notice shall indicate the Board's determination of the educational program which the Board has chosen. The student shall enroll in that program unless the parent/guardian chooses to enroll the student in another school district. (Education Code 48916)

Maintenance of Records

The Board will maintain a record of each expulsion, including the specific cause of the expulsion. The expulsion record shall be maintained in the student's mandatory interim record and sent to any school in which the student subsequently enrolls, within five days of a written request by the admitting school. (Education Code 48900.8, 48918(k))

The Superintendent or designee shall, within five working days, honor any other district's request for information about an expulsion from this district. (Education Code 48915.1)

cf. 5119 - Students Expelled from Other Districts)

(cf. 5125 - Student Records)

Notifications and Reports

Within one school day after a student's suspension or expulsion, the principal or designee shall notify appropriate city or county law enforcement authorities, by telephone or other appropriate means, of any student acts which may violate Education Code 48900(c) or (d), relating to the possession, use, offering or sale of controlled substances, alcohol, or intoxicants of any kind.

Prior to the suspension or expulsion of any student, the principal or designee shall notify appropriate city or county law enforcement authorities of any student acts of assault which may have violated Penal Code 245. (Education Code 48902)

The principal or designee also shall notify appropriate city or county law enforcement authorities of any student acts which may involve the possession or sale of narcotics or of a controlled substance or possession of weapons or firearms in violation of Penal Code 626.9 and 626.10. (Education Code 48902)

Outcome Data

The Superintendent or designee shall maintain the following data and report such data annually to the California Department of Education, using forms supplied by the California Department of Education: (Education Code 48900.8, 48916.1)

1. The number of students recommended for expulsion.
2. The specific grounds for each recommended expulsion.
3. Whether the student was subsequently expelled.
4. Whether the expulsion order was suspended.
5. The type of referral made after the expulsion.
6. The disposition of the student after the end of the expulsion period.

Alternatives to suspension or expulsion will be used with students who are truant, tardy, or otherwise absent from assigned school activities.

(cf. 5113 - Absences and Excuses)

(cf. 5113.1 - Truancy)

Removal from Class by a Teacher/Parental Attendance

A teacher may suspend any student from his/her class for the remainder of the day and the following day for any act listed in "Grounds for Suspension and Expulsion" above. (Education Code 48910)

A teacher also may refer a student to the principal or designee for consideration of suspension from school. (Education Code 48910)

When removing a student from his/her class, the teacher shall immediately report this action to the principal and send the student to the principal for appropriate action. The student shall be appropriately supervised during the class periods from which he/she has been removed.

As soon as possible, the teacher shall ask the student's parent/guardian to attend a parent-teacher conference regarding the removal. A counselor or psychologist should attend the conference if it is practicable, and a school administrator may attend if either the parent/guardian or teacher so requests.

A student removed from class shall not be returned to class during the period of removal without the approval of the teacher of the class and the principal. (Education Code 48910)

A student removed from class shall not be placed in another regular class during the period of removal. However, if a student is assigned to more than one class per day, he/she may be placed in any other regular classes except those held at the same time as the class from which the student was removed. (Education Code 48910)

The teacher of any class from which a student is removed may require the student to complete any assignments and tests missed during the removal. (Education Code 48913)

Pursuant to Board policy, a teacher may provide that the parent/guardian of a student whom the teacher has removed attend a portion of a school day in his/her child's classroom. When a teacher makes this request, the principal shall send the parent/guardian a written notice that the parent/guardian's attendance is requested pursuant to law. (Education Code 48900.1)

This notice shall also:

1. Inform the parent/guardian when his/her presence is expected and by what means he/she may arrange an alternate date.
2. Describe the legal protections afforded to the parent/guardian as an employee under Labor Code 230.7.
3. State that if the parent/guardian does not have a means of transportation to school, he/she may ride the school bus with the student.
4. Ask the parent/guardian to meet with the principal after the visit and before leaving school, as required by Education Code 48900.1.

Suspension by Superintendent, Principal or Principal's Designee

The Superintendent, principal or principal's designee may suspend a student from a school for not more than five consecutive school days unless the suspension is extended pending expulsion. (Education Code 48911)

The Superintendent or designee shall immediately suspend any student found at school or at a school activity to be: (Education Code 48915)

1. Possessing, as verified by a district employee, or selling or otherwise furnishing a firearm, unless the student had obtained prior written permission to possess the item from a certificated school employee, with the principal or designee's concurrence.
2. Brandishing a knife, as defined in Education Code 48915(g), at another person.
3. Unlawfully selling a controlled substance listed in Health and Safety Code 11053-11058.
4. Committing or attempting to commit a sexual assault or committing a sexual battery as defined in item #14 under "Grounds for Suspension and Expulsion".
5. Possession of an explosive as defined in 18 USC 921.

Suspension also may be imposed upon a first offense if the Superintendent, principal or designee determines the student violated items #1-5 listed in "Grounds for Suspension and Expulsion" above or if the student's presence causes a danger to persons or property or threatens to disrupt the instructional process. (Education Code 48900.5)

A student may be suspended from school for not more than 20 school days in any school year, unless for purposes of adjustment a student enrolls in or is transferred to another regular school, an opportunity school, or continuation school or class, in which case suspension shall not exceed 30 days in any school year. However, this restriction on the number of days of suspension does not apply when the suspension is extended pending an expulsion. (Education Code 48903, 48912)

The Superintendent or designee may count suspensions that occur while a student is enrolled in another school district toward the maximum number of days for which a student may be suspended in any school year. (Education Code 48903)

Suspensions shall be initiated according to the following procedures:

1. Informal Conference: Suspension shall be preceded by an informal conference conducted by the principal, designee or the Superintendent with the student and whenever practicable, the teacher, supervisor or school employee who referred the student to the principal. At the conference, the student shall be informed of the reason for the disciplinary action and the evidence against him/her; the student shall be given the opportunity to present his/her version and evidence in support of his/her defense. (Education Code 48911(b))

This conference may be omitted if the principal, designee or the Superintendent determines that an emergency situation exists. An "emergency situation" involves a clear and present danger to the lives, safety or health of students or school personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student's right to return to school for the purpose of a conference. The conference shall be held within two school days, unless the student waives his/her right to it or is physically unable to attend for any reason. In such case, the conference will be held as soon as the student is physically able to return to school. (Education Code 48911(c))

2. Administrative Actions: All requests for student suspension are to be processed by the principal or designee of the school in which the student is enrolled at the time of the misbehavior. A school employee shall report the suspension, including the name of the student and the cause for the suspension, to the Superintendent or designee.

3. Notice to Parents/Guardians: At the time of the suspension, a school employee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension. (Education Code 48911)

This notice shall state the specific offense committed by the student. (Education Code 48900.8).

In addition, the notice may also state the date and time when the student may return to school. If school officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may add that state law requires the parent/guardian to respond to such requests without delay.

4. Parent/Guardian Conference: Whenever a student is suspended, school officials may meet with the parent/guardian to discuss the causes and duration of the suspension, the school policy involved, and any other pertinent matters. (Education Code 48914)

While the parent/guardian is required to respond without delay to a request for a conference about a student's behavior, no penalties may be imposed on the student for the failure of the parent/guardian to attend such conference. The student may not be denied readmission solely because the parent/guardian failed to attend. (Education Code 48911)

5. Extension of Suspension: If the Board is considering the expulsion of a suspended student from any school or the suspension of a student for the balance of the semester from continuation school, the Superintendent or designee may, in writing, extend the suspension until such time as the Board has made a decision. (Education Code 48911(g))

Any extension of the original period of suspension shall be preceded by notice of such extension with an offer to hold a conference concerning the extension, giving the student an opportunity to be heard. This conference may be held in conjunction with a meeting requested by the student or parent/guardian to challenge the original suspension. Extension of the suspension may be made only if the Superintendent or designee determines, following a meeting in which the student and the student's parent/guardian were invited to participate, that the student's presence at the school or at an alternative school would endanger persons or property or threaten to disrupt the instructional process. (Education Code 48911)

Suspension by the Board

The Board may suspend a student for any of the acts listed in "Grounds for Suspension and Expulsion" above and within the limits specified in "Suspension by Superintendent, Principal or Principal's Designee" above. (Education Code 48912)

The Board may suspend a student enrolled in a continuation school or class for a period not longer than the remainder of the semester if any of the acts listed in "Grounds for Suspension and Expulsion" occurred. The suspension shall meet the requirements of Education Code 48915. (Education Code 48912.5)

When the Board is considering a suspension, disciplinary action, or any other action (except expulsion) against any student, it shall hold closed sessions if a public hearing would lead to disclosure of information violating a student's right privacy under Education Code 49073-49079.

(cf. 9321 - Closed Session Purposes and Agendas)

The Board shall provide the student and his/her parent/guardian with written notice of the closed session by or certified mail. Upon receiving this notice, the student or parent/guardian may request a public meeting, and this request shall be granted if made in writing within 48 hours after receipt of the Board's notice. However, any discussion that conflicts with any other student's right to privacy still shall be held in closed session. (Education Codes 35146, 48912)

On-Campus Suspension Program

Students for whom an expulsion action has not been initiated and who pose no imminent danger or threat to the school may be assigned to a separate, supervised suspension classroom for the entire period of suspension. The following conditions shall apply: (Education Code 48911.1)

1. The supervised suspension classroom shall be staffed in accordance with law.
2. The student shall have access to appropriate counseling services.
3. The supervised suspension classroom shall promote completion of schoolwork and tests missed by the student during the suspension.
4. Each student shall be responsible for contacting his/her teacher(s) to receive assignments to be completed in the supervised suspension classroom. The teacher shall provide all assignments and tests that the student will miss while suspended. If no such work is assigned, the person supervising the suspension classroom shall assign schoolwork.

At the time a student is assigned to a supervised suspension classroom, the principal or designee shall notify the student's parent/guardian in person or by telephone. When the assignment is for longer than one class period, this notification shall be made in writing. (Education Code 48911.1)

Authority to Expel

A student may be expelled only by the Board. The Board shall expel, as required by law, any student found to have committed certain offenses listed below under "Mandatory Recommendation and Mandatory Expulsion."

The Board also may order a student expelled for any of the acts listed under “Grounds for Suspension and Expulsion” upon recommendation by the principal, Superintendent, hearing officer or administrative panel, based on finding either or both of the following: (Education Code 48915 (b) and (e))

1. That other means of correction are not feasible or have repeatedly failed to bring about proper conduct.
2. That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others.

Mandatory Recommendation for Expulsion

Unless the principal, Superintendent or designee finds that expulsion is inappropriate due to particular circumstances, the principal, Superintendent or designee shall recommend a student’s expulsion for any of the following acts: (Education Code 48915 (a))

1. Causing serious physical injury to another person, except in self-defense.
2. Possession of any knife as defined in Education Code 48915(g), explosive or other dangerous object of no reasonable use to the student.
3. Unlawful possession of any controlled substance, as listed in the Health and Safety Code 11053-11058, except for the first offense for the possession of not more than one ounce of marijuana, other than concentrated cannabis.
4. Robbery or extortion.
5. Assault or battery, as defined in Penal Code 240 and 242, upon any school employee.

Mandatory Recommendation and Mandatory Expulsion

Note: The Attorney General has determined, in 80 Ops.Cal. Atty. Gen. 347 (1997), that a district may not adopt a zero tolerance policy mandating expulsion of a student for a first offense of possession of a controlled substance or alcohol.

The principal, Superintendent or designee shall recommend that the Board expel any student found at school or at a school activity to be: (Education Code 48915(c))

1. Possessing, as verified by a district employee, or selling or otherwise furnishing a firearm, unless the student had obtained prior written permission to possess the item from a certificated school employee, with the principal or designee’s concurrence.
2. Brandishing a knife as defined in Education Code 48915(g) at another person.
3. Unlawfully selling a controlled substance listed in Health and Safety Code 11053-11058
4. Committing or attempting to commit a sexual assault or committing a sexual battery as defined in item #14 under “Grounds for Suspension and Expulsion” above.
5. Possessing an explosive as defined in 18 USC 921.

Upon finding that the student committed any of the above acts, the Board shall expel the student. (Education Code 48915)

The initial recommendation for consideration of expulsion is that of the school principal or the Superintendent. Designees may not make this type of recommendation.

The recommendation for consideration of expulsion shall be submitted to the Director, Office of Student Services, who will review the material and recommend:

1. Reassignment to appropriate regular education program.
2. Refer student to Alternative Program; i.e., Community School, Independent Study, Continuation or Opportunity School, or other district programs.
3. Refer the matter to the Discipline Review Panel for further consideration.

When a case is referred to the discipline Review Panel, the panel shall question school personnel who have information on the incident and the behavior record of the student charged and weighs the evidence presented.

The panel shall, in the case of an expulsion consideration, weigh information presented to determine:

- a. Is the evidence sufficient to support consideration by the expulsion panel?
- b. Has the district, through the schools involved, considered or utilized alternatives to expulsion when possible?
- c. Have due process procedures been adhered to?

The recommendation shall be either to proceed with the expulsion or to utilize an existing practical alternative in lieu of expulsion.

If the district (school) has not adhered to due process requirements, the student shall be returned to school immediately.

If the Discipline Review Panel meets to consider a matter other than an expulsion, it shall provide its best judgment as to an effective alternative program or plan to action.

The recommendation of the Discipline Review Panel shall be forwarded to the Director, Office of Student Services, who shall then review the facts, concur, veto or modify the recommendation.

4. That an expulsion panel be convened.

At the time a recommendation for expulsion is submitted, a hearing shall be scheduled by the Superintendent or designee to determine whether the suspension shall be extended. If the decision is to extend the suspension, the period of time shall be until the Board has rendered a decision or until the expulsion process is otherwise terminated.

The extension of suspension shall be based upon determination by the Superintendent or designee that the presence of the student at the school or in an alternative school placement would cause a danger to persons or property or a threat of disrupting the instructional process. This extension shall be imposed only after the student and the parent/guardian have been given the opportunity to be present at a hearing conducted by the Superintendent or designee. At this time, the student and parent/guardian shall be given the opportunity to be heard and present any information that might bear upon the decision.

Materials which support the decision of the person recommending the expulsion shall be prepared and submitted to the Office of Student Services. The departments of Attendance, Guidance, Special Education and/or Health may be requested to assist in the preparation of this material.

Student's Right to Expulsion Hearing

The student is entitled to a hearing to determine whether the student should be expelled. The hearing shall be held within 30 school days after the principal or Superintendent or designee determines that one of the acts listed under "Grounds for Suspension and Expulsion" has occurred. (Education Code 48918 (a))

The student is entitled to one postponement of an expulsion hearing for a period of not more than 30 calendar days. The request for postponement shall be in writing. Any subsequent postponement may be granted at the Board's discretion. (Education Code 48918(a))

If the Board finds it impractical during the school year to comply with these time requirements for conducting an expulsion hearing, the Superintendent or designee may, for good cause, extend the time period by an additional five school days. Reasons for the extension shall be included as a part of the record when the expulsion hearing is held. (Education Code 48918(a))

If the Board finds it impractical to comply with the time requirements of the expulsion hearing due to summer recess of Board meetings of more than two weeks, the days during the recess shall not be counted as school days. The days not counted during the recess may not exceed 20 school days as defined in Education Code 48925. Unless the student requests in writing that the expulsion hearing be postponed, the hearing shall be held no later than 20 calendar days prior to the first day of the next school year. (Education Code 48918(a))

Once the hearing starts, all matters shall be pursued with reasonable diligence and concluded without unnecessary delay. (Education Code 48918(a))

Waiver of Hearing (Default Proceedings)

If the parent/guardian agrees that their son/daughter behaved essentially in the manner stated in the principals letter recommending expulsion and that such behavior constitutes a violation of the California Education Code, Section 48900, 48900.2, 48900.3, 48900.4, 48900.7 and/or 48915 a suspendable/expellable offense, the parent/guardian may request to waive the Administrative Hearing Panel.

When the parent/guardian agrees to waive the Administrative Hearing Panel, they also waive all notification and timelines related to the expulsion hearing process, along with their rights to appeal the determination of the Board.

The signed affidavit and findings of fact will be submitted to the Board for their approval. The Board has the discretionary power to accept, reject, or modify all recommendations.

Rights of Complaining Witness

An expulsion hearing involving allegations of sexual assault or sexual battery may be postponed for one school day in order to accommodate the special physical, mental or emotional needs of a student who is the complaining witness. (Education Code 48918.5)

Whenever the Superintendent or designee recommends an expulsion hearing that addresses allegations of sexual assault or sexual battery, he/she shall give the complaining witness a copy of the district's suspension and expulsion policy and regulation and shall advise the witness of his/her right to all the following: (Education Code 48918.5)

1. Receive five days' notice of his/her scheduled testimony at the hearing.
2. Have up to two adult support persons of his/her choosing present in the hearing at the time he/she testifies.
3. Have a closed hearing during the time he/she testifies.

Whenever any allegation of sexual assault or sexual battery is made, the Superintendent or designee shall immediately advise complaining witnesses and accused students to refrain from personal or telephone contact with each other during the time when an expulsion process is pending. (Education Code 48918.5)

Written Notice of the Expulsion Hearing (Education Code 48918(b))

Written notice of the hearing shall be forwarded to the student and the student's parent/guardian at least 10 calendar days before the date of the hearing. The notice shall include: (Education Code 48900.8, 48918 (b))

1. The date and place of the hearing.
2. A statement of the specific facts, charges and offense upon which the proposed expulsion is based.
3. A copy of district disciplinary rules which relate to the alleged violation.
4. Notification of the student's or parent/guardian's obligation, pursuant to Education Code 48915.1, to provide information about the student's status in the district to any other district in which the student seeks enrollment. This obligation applies when a student is expelled for acts other than those described in Education Code 48915 (a) or (c).
(cf. 5119 - Students Expelled from other Districts)

5. The opportunity for the student or the student's parent/guardian to appear in person and/or be represented by legal counsel or by a non-attorney advisor.

Legal counsel means an attorney or lawyer who is admitted to the practice of law in California and is an active member of the State Bar of California.

Non-attorney advisor means an individual who is not an attorney or lawyer, but who is familiar with the facts of the case, and has been selected by the student or student's parent/guardian to provide assistance at the hearing.

6. The right to inspect and obtain copies of all documents to be used at the hearing.
7. The opportunity to confront and question all witnesses who testify at the hearing.
8. The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf, including witnesses.

Conduct of Expulsion Hearing

1. Closed Session: Notwithstanding the provisions of Government Code 54953 and Education Code 35145, the Board shall conduct a hearing to consider the expulsion of the student in a session closed to the public unless the student requests in writing at least five days prior to the hearing that the hearing be a public meeting. If such request is made, the meeting shall be public, unless another student's privacy rights would be violated.

Whether the expulsion hearing is held in closed or public session, the Board may meet in closed session to determine if the student should be expelled. If the Board admits any other person to the closed session, the parent/guardian, the student, and the counsel of the student, shall also be allowed to attend the closed session. (Education Code 48918(c))

If a hearing that involves a charge of sexual assault or sexual battery is to be conducted in public, a complaining witness shall have the right to have his/her testimony heard in closed session when testifying in public would threaten serious psychological harm to the witness and when there are no alternative procedures to avoid the threatened harm, including but not limited to videotaped deposition or contemporaneous examination in another place communicated to the hearing room by closed-circuit television. (Education Code 48918(c))

2. Record of Hearing: A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate written and complete transcription of the proceedings can be made. (Education Code 48918(g))

3. Subpoenas: Before commencing a student expulsion hearing, the Board may issue subpoenas, at the request of either the student or the Superintendent or designee, for the personal appearance at the hearing of any person who actually witnessed the action that gave rise to the recommendation for expulsion. After the hearing has commenced, the Board or the hearing officer or administrative panel may issue such subpoenas at the request of the student or the County Superintendent of Schools or designee. All subpoenas shall be issued in accordance with the Code of Civil Procedure 1985-1985.2 and enforced in accordance with Government Code 11455.20, formerly 11525. (Education Code 48918(i))

Any objection raised by the student or the Superintendent or designee to the issuance of subpoenas may be considered by the Board in closed session, or in open session if so requested by the student, before the meeting. The Board's decision in response to such an objection shall be final and binding. (Education Code 48918(i))

If the Board determines, or if the hearing officer or administrative panel finds and submits to the Board, that a witness would be subject to unreasonable risk of harm by testifying at the hearing, a subpoena shall not be issued to compel the personal attendance of that witness at the hearing. However, that witness may be compelled to testify by means of a sworn declaration as described in item #4 below. (Education Code 48918(i))

4. Presentation of Evidence: While technical rules of evidence do not apply to expulsion hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. The decision of the Board to expel must be supported by substantial evidence that the student committed any of the acts listed in "Grounds for Suspension and Expulsion" above.

Findings of fact shall be based solely on the evidence at the hearing. While no evidence shall be based solely on hearsay, sworn declarations may be admitted as testimony from witnesses whose disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm. (Education Code 48918 (f) and (h))

In cases where a search of a student's person or property has occurred, evidence describing the reasonableness of the search shall be included in the hearing record.

5. Testimony by Complaining Witnesses: The following procedures shall be observed when hearings involve allegations of sexual assault or sexual battery by a student: (Education Code 48918)

- a. Any complaining witness shall be given five days' notice before being called to testify.
- b. Any complaining witness shall be entitled to have up to two adult support persons, including but not limited to a parent/guardian or legal counsel, present during his/her testimony.
- c. Before a complaining witness testifies, support persons shall be admonished that the hearing is confidential.
- d. The person presiding over the hearing may remove a support person whom he/she finds is disrupting the hearing.
- e. If one or both support persons are also witnesses, the hearing shall be conducted according to Penal Code 868.5.
- f. Evidence of specific instances of prior sexual conduct of a complaining witness shall be presumed inadmissible and shall not be heard unless the person conducting the hearing determines that extraordinary circumstances require the evidence to be heard. Before such a determination is made, the complaining witness shall be given notice and an opportunity to oppose the introduction of this evidence. In the hearing on the admissibility of this evidence, the complaining witness shall be entitled to be represented by a parent/guardian, legal counsel or other support person. Reputation or opinion evidence regarding the sexual behavior of a complaining witness shall not be admissible for any purpose.

g. In order to facilitate a free and accurate statement of the experiences of the complaining witness and to prevent discouragement of complaints, the district shall provide a nonthreatening environment.

(1) The district shall provide a room separate from the hearing room for the use of the complaining witness before and during breaks in testimony.

(2) At the discretion of the person conducting the hearing, the complaining witness shall be allowed reasonable periods of relief from examination and cross-examination during which he/she may leave the hearing room.

(3) The person conducting the hearing may:

(a) Arrange the seating within the hearing room so as to facilitate a less intimidating environment for the complaining witness.

(b) Limit the time for taking the testimony of a complaining witness to the hours he/she is normally in school, if there is no good cause to take the testimony during other hours.

(c) Permit one of the support persons to accompany the complaining witness to the witness stand.

6. Decision Within 10 Days: The Board's decision on whether to expel a student shall be made within 10 school days after the conclusion of the hearing, unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

7. Decision Within 40 Days: If the Board does not meet on a weekly basis, its decision on whether to expel a student shall be made within 40 school days after the student is removed from his/her school of attendance, unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

Alternative Expulsion Hearing: Hearing Officer or Administrative Panel

Instead of conducting an expulsion hearing itself, the Board may contract with the county hearing officer or with the Office of Administrative Hearings of the State of California for a hearing officer. Alternatively, the Board may appoint an impartial administrative panel composed of three or more certificated personnel, none of whom shall be members of the Board or on the staff of the school in which the student is enrolled. (Education Code 48918(d))

A hearing conducted by the hearing officer or administrative panel shall conform to the same procedures as apply to a hearing conducted by the Board as specified in "Conduct of Expulsion Hearing."

The hearing officer or administrative panel shall, within three school days after the hearing, determine whether to recommend expulsion of the student to the Board. If expulsion is not recommended, the student shall be immediately reinstated. (See "Reinstatement.") The Superintendent or designee shall place the student in a classroom instructional program, any other instructional program, a rehabilitation program, or any combination of these programs after consulting with district staff, including the student's teachers, and with the student's parent/guardian. (Education Code 48918(e))

If expulsion is recommended, findings of fact in support of the recommendation shall be prepared and submitted to the Board. All findings of fact and recommendations shall be based solely on the evidence presented at the hearing. The Board may accept the recommendation based either upon a review of the findings of fact and recommendations submitted or upon the results of any supplementary hearing the Board may order. (Education Code 48918(f))

In accordance with Board policy, the hearing officer or administrative panel may recommend that the Board suspend the enforcement of the expulsion for a period of one year. (See "Decision Not to Enforce Expulsion Order" below.)

The Board shall make its decision about the student's expulsion within 40 school days after the date of the student's removal from school unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

The Discipline Review Panel

The Discipline Review Panel will consist of elementary educators when a review is being made of an elementary student and of secondary educators when a review is being made of secondary student.

1. The Discipline Review Panel shall hear the following types of disciplinary cases:

a. Requests for expulsion from site principals or the Superintendent.

b. School site administrative requests for assistance (non-expulsion situations).

2. Each discipline review panel shall consist of three certificated persons plus a chairperson and shall consist of elementary educators when a review is being made of an elementary student and of secondary educators when a review is being made of a secondary student. A panelist may not serve on any panel involving a student who is currently attending the school in which he/she is assigned. A representative from Student Services shall be a nonvoting member of each panel.

A chairperson and assistant chairperson, to serve when the chairperson is unable to serve, shall be appointed by the Superintendent or designee and shall serve at his/her pleasure. Neither shall be a member of the Student Services staff.

A pool of panelists shall be established which shall be composed of personnel who have served or are currently serving as members of administrative expulsion panels. The committee chairman shall select members to serve on individual panels.

The meetings of the discipline review panel are open to school district personnel only.

The duties of the Discipline Review Panel are as follows:

1. The chairperson shall call a meeting of the panel as soon as possible, but no later than 10 school days after the receipt of notice of a pending case.
2. A recommendation must be forwarded to the Director, Office of Student Services, within three days of the review hearing.
3. In the event a member of the committee cannot be present at a meeting, the Director, Office of Student Services, will appoint an alternate from the pool to attend.

Final Action by the Board

Whether the expulsion hearing is conducted in closed or public session by the Board, a hearing officer, or an administrative panel, the final action to expel shall be taken by the Board at a public meeting. (Education Code 48918(j))

(cf. 9321.1 - Closed Session Actions and Reports)

If the Board conducts the hearing and reaches a decision not to expel, this decision shall be final and the student shall be reinstated immediately.

Upon ordering an expulsion, the Board shall set a date when the student shall be reviewed for readmission to a school within the district. For a student expelled for an act listed under "Mandatory Recommendation and Mandatory Expulsion" above, this date shall be one year from the date the expulsion occurred, except that the Board may set an earlier date on a case-by-case basis. For a student expelled for other acts, this date shall be no later than the last day of the semester following the semester in which the expulsion occurred. (Education Code 48916)

At the time of the expulsion order, the Board shall recommend a plan for the student's rehabilitation, which may include: (Education Code 48916)

1. Periodic review as well as assessment of the student at the time of review for readmission.
2. Recommendations for improved academic performance, tutoring, special education assessments, job training, counseling, employment, community service and other rehabilitative programs.

With parental consent, students who have been expelled for reasons relating to controlled substances or alcohol may be required to enroll in a county-sponsored drug rehabilitation program before returning to school. (Education Code 48916.5)

Written Notice to Expel

The Superintendent or designee shall send written notice of the decision to expel the student or parent/guardian. This notice shall include the following:

1. The specific offense committed by the student for any of the causes for suspension or expulsion listed in Education Code 48900 (a)-(o), Education Code 48900.2-48900.4, Education Code 48915 (c) and (Education Code 48900.8).
2. The fact that a description of readmission procedures will be made available to the student and his/her parent/guardian. (Education Code 48916)
3. Notice of the right to appeal the expulsion to the County Governing Board. (Education Code 48918)
4. Notice of the alternative educational placements to be provided to the student during the time of expulsion. (Education Code 48918)
5. Notice of the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with the expelling district, pursuant to Education Code 48915.1 (Education Code 48918).

Decision Not to Enforce Expulsion Order

In accordance with Board policy, when deciding whether to suspend the enforcement of an expulsion, the Board shall take into account the following criteria:

1. The student's pattern of behavior.
2. The seriousness of the misconduct.
3. The student's attitude toward the misconduct and his/her willingness to follow a rehabilitation program.

The suspension of the enforcement of an expulsion shall be governed by the following: (Education Code 48917)

1. The Board may, as a condition of the suspension of enforcement, assign the student to a school, class or program appropriate for the student's rehabilitation. This rehabilitation program may provide for the involvement of the student's parent/guardian in the student's education. However, a parent/guardian's refusal to participate in the rehabilitation program shall not be considered in the Board's determination as to whether the student has satisfactorily completed the rehabilitation program.
2. During the period when enforcement of the expulsion order is suspended, the student shall be on probationary status.
3. The suspension of the enforcement of an expulsion order may be revoked by the Board if the student commits any of the acts listed under "Grounds for Suspension and Expulsion" above or violates any of the district's rules and regulations governing student conduct.
4. When the suspension of the enforcement of an expulsion order is revoked, a student may be expelled under the terms of the original expulsion order.
5. Upon satisfactory completion of the rehabilitation assignment, the Board shall reinstate the student in a district school. Upon reinstatement, the Board may order the expunging of any or all records of the expulsion proceedings.
6. Suspension of the enforcement of an expulsion order shall not affect the time period and requirements for the filing of an appeal of the expulsion order with County Board of Education.
7. The Superintendent or designee shall send written notice of any decision to suspend the enforcement of an expulsion order during a period of probation to the student or parent/guardian. The notice shall also inform the parent/guardian of the right to appeal the expulsion to the County Board of Education. (Education Code 48918 (j))

Right to Appeal

The student or parent/guardian is entitled to file an appeal of the Board's decision to the County Board of Education. The appeal must be filed within 30 days of the Board's decision to expel, even if the expulsion action is suspended and the student is placed on probation. (Education Code 48919)

Post-Expulsion Placements

The Board shall refer expelled students to a program of study that is: (Education Code 48915, 48915.01)

1. Appropriately prepared to accommodate students who exhibit discipline problems.
2. Not provided at a comprehensive middle, junior or senior high school or at any elementary school, unless the program is offered at a community day school established at such a site.
3. Not housed at the school site attended by the student at the time of suspension.

(cf. 6185 - Community Day School)

When the placement described above is not available, and when the County Superintendent of Schools so certifies, students expelled for acts described in items #6 through #13 and #17 through #19 under "Grounds for Suspension and Expulsion" may be instead referred to a program of study that is provided at another comprehensive middle, junior, or senior high school, or at an elementary school. (Education Code 48915)

The program for a student expelled from any of grades K-6 shall not be combined or merged with programs offered to students in any of grades 7-12. (Education Code 48916.1)

Readmission After Expulsion

Readmission procedures shall be as follows:

1. On the date set by the Board when it ordered the expulsion, the district shall consider readmission of the student. (Education Code 48916)
2. The Superintendent or designee shall hold a conference with the parent/guardian and the student. At the conference the student's rehabilitation plan shall be reviewed and the Superintendent or designee shall verify that the provisions of this plan have been met. School regulations shall be reviewed and the student and parent/guardian shall be asked to indicate in writing their willingness to comply with these regulations.

3. The Superintendent or designee shall transmit to the Board his/her recommendation regarding readmission. The Board shall consider this recommendation in closed session if information would be disclosed in violation of Education Code 49073-49079. If a written request for open session is received from the parent/guardian or adult student, it shall be honored.
4. If the readmission is granted, the Superintendent or designee shall notify the student and parent/guardian, by registered mail, of the Board's decision regarding readmission.
5. The Board may deny readmission only if it finds that the student has not satisfied the conditions of the rehabilitation plan or that the student continues to pose a danger to campus safety or to other district students or employees. (Education Code 48916)
6. If the Board denies the readmission of a student, the Board shall determine either to continue the student's placement in the alternative educational program initially selected or to place the student in another program that serves expelled students, including placement in a county community school. (Education Code 48916)
7. The Board shall provide written notice to the expelled student and parent/guardian describing the reasons for denying readmittance into the regular program. This notice shall indicate the Board's determination of the educational program which the Board has chosen. The student shall enroll in that program unless the parent/guardian chooses to enroll the student in another school district. (Education Code 48916)

Maintenance of Records

The Board shall maintain a record of each expulsion, including the specific cause of the expulsion. The expulsion record shall be maintained in the student's mandatory interim record and sent to any school in which the student subsequently enrolls, within five days of a written request by the admitting school. (Education Code 48900.8, 48918(k))

The Superintendent or designee shall, within five working days, honor any other district's request for information about an expulsion from this district. (Education Code 48915.1)

(cf. 5119 - Students Expelled from Other Districts)

(cf. 5125 - Student Records)

Notifications to Law Enforcement Authorities

Prior to the suspension or expulsion of any student, the principal or designee shall notify appropriate city or county law enforcement authorities of any student acts of assault which may have violated Penal Code 245. (Education Code 48902)

The principal or designee also shall notify appropriate city or county law enforcement authorities of any student acts which may involve the possession or sale of narcotics or of a controlled substance or possession of weapons or firearms in violation of Penal Code 626.9 and 626.10. (Education Code 48902)

Within one school day after a student's suspension or expulsion, the principal or designee shall notify appropriate city or county law enforcement authorities, by telephone or other appropriate means, of any student acts which may violate Education Code 48900(c) or (d), relating to the possession, use, offering or sale of controlled substances, alcohol, or intoxicants of any kind. (Education Code 48902)

Ouome Data

The Superintendent or designee shall maintain the following data and report such data annually to the California Department of Education, using forms supplied by the California Department of Education: (Education Code 48900.8, 48916.1)

1. The number of students recommended for expulsion.
2. The grounds for each recommended expulsion.
3. Whether the student was subsequently expelled.
4. Whether the expulsion order was suspended.
5. The type of referral made after the expulsion.
6. The disposition of the student after the end of the expulsion period.

Regulation: REDLANDS UNIFIED SCHOOL DISTRICT

Approved: June 27, 1995, Redlands, California

(D) Procedures to Notify Teachers of Dangerous Pupils (EC 49079)

Site administrators contribute to a positive school climate, promote positive pupil behavior, and help reduce inappropriate conduct. The principal/designee uses available district and other appropriate records to inform teachers of each pupil identified under E.C. 49079.

(E) Sexual Harassment Policies (EC 212.6 [b])

Policy 4119.11: Sex Discrimination and Sex-Based Harassment

The Governing Board is committed to providing a safe work environment that is free of harassment and intimidation. The Board prohibits sexual harassment against district employees by anyone, in any manner, and prohibits retaliatory action or behavior against any persons who complains, testifies, or otherwise participates in the complaint process established pursuant to this policy and accompanying administrative regulation. This policy shall apply to all district employees, interns, volunteers, contractors, job applicants, and other persons with an employment relationship with the district.

(cf. 0410 - Nondiscrimination in District Programs and Activities) (cf. 4030 - Nondiscrimination in Employment)

Sexual harassment includes, but is not limited to, harassment that is based on the sex, gender, gender identity, gender expression, or sexual orientation of the victim and harassment based on pregnancy, childbirth, or related medical conditions.

The Superintendent or designee shall take all actions necessary to ensure the prevention, investigation, and correction of sexual harassment, including but not limited to:

1. Providing training to all staff in accordance with law and administrative regulation.
2. Publicizing and disseminating the district's sexual harassment policy to staff.
3. Ensuring prompt, thorough, equitable, and fair investigation of complaints
4. Taking timely and appropriate corrective/remedial actions which may require interim separation of the complainant and the alleged harasser and subsequent monitoring of developments.

The Superintendent or designee shall periodically evaluate the effectiveness of the district's strategies to prevent and address harassment. Such evaluation may involve conducting regular anonymous employee surveys to assess whether harassment is occurring or is perceived to be tolerated, partnering with researchers or other agencies with the needed expertise to evaluate the district's prevention strategies, and using any other effective tool for receiving feedback on systems and/or processes. As necessary, changes shall be made to the harassment policy, complaint procedures, or training.

Sexual Harassment Reports and Complaints

Any district employee who feels that he/she has been sexually harassed in the performance of their district responsibilities or who has knowledge of any incident of sexual harassment by or against another employee shall immediately report the incident to his/her supervisor, the principal, other district administrator, or the district's Title IX Coordinator. However, an employee may bypass his/her supervisor in filing a complaint if the supervisor is the subject of the complaint. A supervisor, principal, or district administrator who receives a harassment complaint shall promptly notify the Title IX Coordinator.

Once notified, the Title IX Coordinator shall ensure the complaint or allegation is addressed through AR 4119.12/4219.12/4319.12 – Title IX Sexual Harassment Complaint Procedures or AR 4030- Nondiscrimination in Employment, as applicable. Because a complaint or allegation that is dismissed or denied under the Title IX complaint procedure may still be subject to consideration under state law, the Title IX Coordinator shall ensure that any implementation of AR 4119.12/4219.12/4319.12 concurrently meets the requirements of AR 4030.

Notwithstanding the above, BP/AR 4119.12/4219.12/4319.12 and 4030 shall under no circumstances be used to resolve complaints brought by, on behalf of, or against students. All complaints brought by, on behalf of, or against students that allege “sexual harassment” as that term is defined in the federal regulations implementing Title IX of the Education Amendments of 1972 (see 34 C.F.R. § 106, et seq.) shall be investigated and resolved under BP/AR 5145.71. All complaints brought by, on behalf of, or against students that do not meet the definition of “sexual harassment” as set forth in the Title IX implementing regulations shall be investigated and resolved under BP/AR 1312.3.

(cf. 4119.12/4219.12/4319.12 - Title IX Sexual Harassment Complaints)

The Title IX Coordinator shall offer supportive measures to the complainant and respondent, as deemed appropriate under the circumstances.

Upon investigation of a sexual harassment complaint, any district employee who engages, or participates in sexual harassment, or who aids, abets, incites, compels, or coerces another to commit sexual harassment in violation of this policy is subject to disciplinary action, up to and including dismissal, in accordance with law and the applicable collective bargaining agreement.

(cf. 4117.7/4317.7 - Employment Status Reports) (cf. 4118 - Dismissal/Suspension/Disciplinary Action) (cf. 4218 -

Dismissal/Suspension/Disciplinary Action)

Regulation 4119.12: Title IX Sex Discrimination and Sex-Based Harassment Complaint Procedures

The complaint procedures described in this administrative regulation shall be used to address any complaint governed by Title IX of the Education Amendments of 1972 alleging that a district employee, while in an education program or activity in which a district school exercises substantial control over the context and respondent, was subjected to one or more of the following forms of sexual harassment: (34 CFR 106.30, 106.44)

1. A district employee conditioning the provision of a district aid, benefit, or service on a person's participation in unwelcome sexual conduct
2. Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the district's education program or activity
3. Sexual assault, dating violence, domestic violence, or stalking as defined in 20 USC 1092 or 34 USC 12291 (cf. 4119.11/4219.11/4319.11 - Sexual Harassment)

All other sexual harassment complaints or allegations shall be investigated and resolved in accordance with AR 4030

- Nondiscrimination in Employment. The determination of whether the allegations meet the definition of sexual harassment under Title IX shall be made by the district's Title IX Coordinator.

(cf. 4030 - Nondiscrimination in Employment)

Because the complainant has a right to pursue a complaint under AR 4030 for any allegation that is dismissed or denied under the Title IX complaint procedure, the Title IX Coordinator shall ensure that all requirements and timelines for AR 4030 are concurrently met while implementing the Title IX procedure.

Reporting Allegations/Filing a Formal Complaint

An employee who is the alleged victim of sexual harassment may submit a report of sexual harassment to the district's Title IX Coordinator using the contact information listed in AR 4119.11/4219.11/4319.11 - Sexual Harassment or to the employee's direct supervisor or other district administrator, who shall forward the report to the Title IX Coordinator within one day of receiving the report. Upon receiving such a report, the Title IX Coordinator shall inform the complainant of the right to file a formal complaint and the process for filing a formal complaint.

A formal complaint, with the complainant's physical or digital signature, may be filed with the Title IX Coordinator in person, by mail, by email, or by any other method authorized by the district. (34 CFR 106.30)

Even if the alleged victim chooses not to file a formal complaint, the Title IX Coordinator shall file a formal complaint in situations when a safety threat exists. In addition, the Title IX Coordinator may file a formal complaint in other situations as permitted under the Title IX regulations, including as part of the district's obligation to not be deliberately indifferent to known allegations of sexual harassment. In such cases, the Title IX Coordinator shall provide the alleged victim notices as required by the Title IX regulations at specific points in the complaint process.

The Title IX Coordinator, investigator, decision-maker, or a facilitator of an informal resolution process shall not have a conflict of interest or bias for or against complainants or respondents generally or an individual complainant or respondent. Such persons shall receive training in accordance with 34 CFR 106.45. (34 CFR 106.45)

Supportive Measures

Upon receipt of a report of Title IX sexual harassment, the Title IX Coordinator shall promptly contact the complainant to discuss the availability of supportive measures and shall consider the complainant's wishes with respect to the supportive measures implemented. Supportive measures shall be offered as appropriate, as reasonably available, and without charge to the complainant or the respondent before or after the filing of a formal complaint or where no formal complaint has been filed. Such measures shall be nondisciplinary, nonpunitive, and not unreasonably burden the other party, including measures designed to protect the safety of all parties or the district's educational environment or to deter sexual harassment. Supportive measures may include, but are not limited to, counseling, extensions of deadlines, modifications of work schedules, mutual restrictions on contact, changes in work locations, leaves of absence, increased security, and monitoring of certain areas of the campus. (34 CFR 106.30, 106.44)

The district shall maintain as confidential any supportive measures provided to the complainant or respondent, to the extent that maintaining such confidentiality would not impair the district's ability to provide the supportive measures. (34 CFR 106.30)

Emergency Removal

If a district employee is the respondent, the employee may be placed on administrative leave during the pendency of the formal complaint process. (34 CFR 106.44)

If the respondent is a student, the district may, on an emergency basis, remove the student from the district's education program or activity, provided that the district conducts an individualized safety and risk analysis, determines that removal is justified due to an immediate threat to the physical health or safety of any student or other individual arising from the allegations, and provides the student with notice and an opportunity to challenge the decision immediately following the removal. This authority to remove a student does not modify a student's rights under the Individuals with Disabilities Education Act or Section 504 of the Rehabilitation Act of 1973. (34 CFR 106.44)

Dismissal of Complaint

The Title IX Coordinator shall dismiss a formal complaint if the alleged conduct would not constitute sexual harassment as defined in

34 CFR 106.30 even if proved. The Title IX Coordinator shall also dismiss any complaint in which the alleged conduct did not occur in the district's education program or activity or did not occur against a person in the United States, and may dismiss a formal complaint if the complainant notifies the district in writing that the complainant would like to withdraw the complaint or any allegations in the complaint, the respondent is no longer employed by the district, or sufficient circumstances prevent the district from gathering evidence sufficient to reach a determination with regard to the complaint. (34 CFR 106.45)

Upon dismissal, the Title IX Coordinator shall promptly send written notice of the dismissal and the reasons for the dismissal simultaneously to the parties and shall inform them of their right to appeal the dismissal of a formal complaint or any allegation in the complaint in accordance with the appeal procedures described in the section "Appeals" below. (34 CFR 106.45)

If a complaint is dismissed, the conduct may still be addressed pursuant to AR 4030 - Nondiscrimination in Employment as applicable.

Informal Resolution Process

When a formal complaint of sexual harassment is filed, the district may offer an informal resolution process, such as mediation, at any time prior to reaching a determination regarding responsibility. The district shall not require a party to participate in the informal resolution process or to waive the right to an investigation and adjudication of a formal complaint. (34 CFR 106.45)

The district may facilitate an informal resolution process provided that the district: (34 CFR 106.45)

1. Provides the parties with written notice disclosing the allegations, the requirements of the informal resolution process, the right to withdraw from the informal process and resume the formal complaint process, and any consequences resulting from participating in the informal resolution process, including that records will be maintained or could be shared.
2. Obtains the parties' voluntary, written consent to the informal resolution process

Written Notice

If a formal complaint is filed, the Title IX Coordinator shall provide the known parties with written notice of the following: (34 CFR 106.45)

1. The district's complaint process, including any informal resolution process
2. The allegations potentially constituting sexual harassment with sufficient details known at the time, including the identity of parties involved in the incident if known, the conduct allegedly constituting sexual harassment, and the date and location of the alleged incident if known. Such notice shall be provided with sufficient time for the parties to prepare a response before any initial interview. If, during the course of the investigation, new Title IX allegations arise about the complainant or respondent that are not included in the initial notice, the Title IX Coordinator shall provide notice of the additional allegations to the parties.
3. A statement that the respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility is made at the conclusion of the complaint process
4. The opportunity for the parties to have an advisor of their choice who may be, but is not required to be, an attorney, and the ability to inspect and review evidence
5. The prohibition against knowingly making false statements or knowingly submitting false information during the complaint process

The above notice shall also include the name of the investigator, facilitator of an informal process, and decision-maker and shall inform the parties that, if at any time a party has concerns regarding conflict of interest or bias regarding any of these persons, the party should immediately notify the Title IX Coordinator.

Investigation Procedures

During the investigation process, the district's designated investigator shall: (34 CFR 106.45)

1. Provide an equal opportunity for the parties to present witnesses, including fact and expert witnesses, and other inculpatory and

exculpatory evidence

2. Not restrict the ability of either party to discuss the allegations under investigation or to gather and present relevant evidence
3. Provide the parties with the same opportunities to have others present during any grievance proceeding, including the opportunity to be accompanied to any related meeting or proceeding by the advisor of their choice, who may be, but is not required to be, an attorney
4. Not limit the choice or presence of an advisor for either the complainant or respondent in any meeting or grievance proceeding, although the district may establish restrictions regarding the extent to which the advisor may participate in the proceedings as long as the restrictions apply equally to both parties
5. Provide, to a party whose participation is invited or expected, written notice of the date, time, location, participants, and purpose of all investigative interviews or other meetings, with sufficient time for the party to prepare to participate
6. Send in an electronic format or hard copy to both parties and their advisors, if any, the evidence obtained as part of the investigation that is directly related to the allegations raised in the complaint, and provide the parties at least 10 days to submit a written response for the investigator to consider prior to the completion of the investigative report
7. Objectively evaluate all relevant evidence, including both inculpatory and exculpatory evidence, and determine credibility in a manner that is not based on a person's status as a complainant, respondent, or witness
8. Create an investigative report that fairly summarizes relevant evidence and, at least 10 days prior to the determination of responsibility, send to the parties and their advisors, if any, the investigative report in an electronic format or a hard copy, for their review and written response

Questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant, unless such questions and evidence are offered to prove that someone other than the respondent committed the conduct alleged by the complainant or if the questions and evidence concern specific incidents of the complainant's prior sexual behavior with respect to the respondent and are offered to prove consent. (34 CFR 106.45)

Privacy rights of all parties to the complaint shall be maintained in accordance with applicable state and federal laws.

If the complaint is against an employee, rights conferred under an applicable collective bargaining agreement shall be applied to the extent they do not conflict with the Title IX requirements.

Written Decision

The Superintendent shall designate an employee as the decision-maker to determine responsibility for the alleged conduct, who shall not be the Title IX Coordinator or a person involved in the investigation of the matter. (34 CFR 106.45)

After the investigative report has been sent to the parties but before reaching a determination regarding responsibility, the decision-maker shall afford each party the opportunity to submit written, relevant questions that the party wants asked of any party or witness, provide each party with the answers, and allow for additional, limited follow-up questions from each party.

The decision-maker shall issue, and simultaneously provide to both parties, a written decision as to whether the respondent is responsible for the alleged conduct. (34 CFR 106.45)

The written decision shall be issued within 60 calendar days of the receipt of the complaint.

The timeline may be temporarily extended for good cause with written notice to the complainant and respondent of the extension and the reasons for the action. (34 CFR 106.45)

In making this determination, the decision-maker shall use the "preponderance of the evidence" standard for all formal complaints of sexual harassment. (34 CFR 106.45)

The written decision shall include the following: (34 CFR 106.45)

1. Identification of the allegations potentially constituting sexual harassment as defined in 34 CFR 106.30

2. A description of the procedural steps taken from receipt of the formal complaint through the written decision, including any notifications to the parties, interviews with parties and witnesses, site visits, methods used to gather other evidence, and hearings held if the district includes hearings as part of the grievance process
3. Findings of fact supporting the determination
4. Conclusions regarding the application of the district's code of conduct or policies to the facts
5. A statement of, and rationale for, the result as to each allegation, including a decision regarding responsibility, any disciplinary sanctions the district imposes on the respondent, and whether remedies designed to restore or preserve equal access to the district's educational program or activity will be provided by the district to the complainant
6. The district's procedures and permissible bases for the complainant and respondent to appeal

Appeals

Either party may appeal the district's decision or dismissal of a formal complaint or any allegation in the complaint, if the party believes that a procedural irregularity affected the outcome, new evidence is available that could affect the outcome, or a conflict of interest or bias by the Title IX Coordinator, investigator(s), or decision-maker(s) affected the outcome. If an appeal is filed, the district shall: (34 CFR 106.45)

1. Notify the other party in writing when an appeal is filed and implement appeal procedures equally for both parties
2. Ensure that the decision-maker(s) for the appeal is trained in accordance with 34 CFR 106.45 and is not the same decision-maker(s) who reached the determination regarding responsibility or dismissal, the investigator(s), or the Title IX Coordinator
3. Give both parties a reasonable, equal opportunity to submit a written statement in support of, or challenging, the outcome
4. Issue a written decision describing the result of the appeal and the rationale for the result
5. Provide the written decision simultaneously to both parties

An appeal must be filed in writing within 10 calendar days of receiving the notice of the decision or dismissal, stating the grounds for the appeal and including any relevant documentation in support of the appeal. Appeals submitted after this deadline are not timely and shall not be considered.

A written decision shall be provided to the parties within 20 calendar days from the receipt of the appeal.

Either party has the right to file a complaint with the U.S. Department of Education's Office for Civil Rights within 180 days of the date of the most recently alleged misconduct.

The complainant shall be advised of any civil law remedies, including, but not limited to, injunctions, restraining orders, or other remedies or orders that may be available under state or federal antidiscrimination laws, if applicable.

Remedies

When a determination of responsibility for sexual harassment has been made against the respondent, the district shall provide remedies to the complainant. Such remedies may include the same individualized services described above in the section "Supportive Measures," but need not be nondisciplinary or nonpunitive and need not avoid burdening the respondent. (34 CFR 106.45)

Disciplinary Actions

The district shall not impose any disciplinary sanctions or other actions against a respondent, other than supportive measures as described above in the section "Supportive Measures," until the complaint procedure has been completed and a determination of responsibility has been made. (34 CFR 106.44)

When an employee is found to have committed sexual harassment or retaliation, the district shall take appropriate disciplinary action, up to and including dismissal, in accordance with applicable law and collective bargaining agreement.

(cf. 4118 - Dismissal/Suspension/Disciplinary Action) (cf. 4119.11/4219.11/4319.11 - Sexual Harassment) (cf. 4218 - Dismissal/Suspension/Disciplinary Action)

Record-Keeping

The Superintendent or designee shall maintain, for a period of seven years: (34 CFR 106.45)

1. A record of all reported cases and Title IX investigations of sexual harassment, any determinations of responsibility, any audio or audiovisual recording and transcript if applicable, any disciplinary sanctions imposed, any remedies provided to the complainant, and any appeal or informal resolution and the results therefrom.
2. A record of any actions, including supportive measures, taken in response to a report or formal complaint of sexual harassment, including the district's basis for its conclusion that its response was not deliberately indifferent, the measures taken that were designed to restore or preserve equal access to the education program or activity, and, if no supportive measures were provided to the complainant, the reasons that such a response was not unreasonable in light of the known circumstances.
3. All materials used to train the Title IX Coordinator, investigator(s), decision-maker(s), and any person who facilitates an informal resolution process. The district shall make such training materials publicly available on its web site, or if the district does not maintain a web site, available upon request by members of the public.

(F) School-wide Dress Code Relating to Gang-Related Apparel (EC 35183)

Policy 5132.16: Student Dress Guidelines

The Governing Board believes that appropriate dress and grooming contribute to a productive learning environment. The Board expects students to give proper attention to personal cleanliness and to wear clothes that are suitable for the school activities in which they participate. Students' clothing must not present a health or safety hazard or a distraction which would interfere with the educational process.

Students and parents/guardians shall be informed about dress and grooming standards at the beginning of the school year and whenever these standards are revised. A student who violates these standards shall be subject to appropriate disciplinary action.

Gang-Related Apparel

The principal, staff and parents/guardians at a school may establish a reasonable dress code that prohibits students from wearing gang-related apparel when there is evidence of a gang presence that disrupts or threatens to disrupt the school's activities. Such a dress code may be included as part of the school safety plan and must be presented to the Board for approval. The Board shall approve the plan upon determining that it is necessary to protect the health and safety of the school's students.

Uniforms

The Board recognizes that, in order to promote student safety and discourage peer rivalry and/or gang activity, the principal, staff and parent/guardian at a school site may wish to establish a reasonable dress code, which may include voluntary school uniforms.

Dress codes, which include voluntary school uniforms, may be included as part of the school safety plan submitted as required.

The Superintendent or designee shall establish procedures that schools, parents and guardians will follow if they decide to participate with the voluntary school uniform policy. Students shall not be penalized academically, otherwise discriminated against or denied attendance to school if their parents/guardian decide not to participate.

The Governing Board feels that there is nothing inherently wrong with dress or color of dress, but when student's dress serves to intimidate or impede the rights of other students it will be determined that dress is in violation of this policy. A student may not remain at school dressed in a manner which (1) creates a safety hazard for said student or for other students at school, and/or (2) when the dress constitutes a serious and unnecessary distraction to the learning process or tends to disrupt campus order

When the site administrator/designee determines that a student's attire is in violation of this policy, the student will be required to modify his/her clothing and/or apparel in such a manner that it no longer violates this policy. If necessary, the student may be taken or sent home with parental permission to modify unacceptable dress and return to school. Refusal to take steps as described in this policy shall be cause for disciplinary action against the student. Any such disciplinary action shall be handled pursuant to existing student disciplinary policy

Parents/guardians have primary responsibility to see that students are properly attired for school. School district personnel have the responsibility for maintaining proper and appropriate conditions conducive to learning. Hence, the following guidelines will be implemented in all district schools.

1. Shoes will be worn at all times. A substantial sole is required and enclosed toe and heel footwear are highly encouraged.
2. Extremely brief garments that are distracting to the educational environment are not appropriate. Clothing shall be sufficient to conceal undergarments at all times.
3. Clothing or accessories shall be free of writing, pictures or any other insignia which are crude, violent, obscene or sexually suggestive or which advocate racial, ethnic or religious prejudice or the use of tobacco, drugs or alcohol.
4. Earrings, jewelry, or accessories which present a safety hazard to the wearer or others are not suitable for school wear.
5. Only prescription sunglasses may be worn in class. Other types of sunglasses may be worn on campus outside of class.
6. Identified gang attire such as bandannas, haircuts or hair rollers, or any gang paraphernalia are prohibited.

Students are allowed to wear sun protective clothing, including hats, while outdoors during the school day. Each school site will develop a policy indicating the type of sun protective hats that are permitted.

No grade of a student participating in a physical education class shall be adversely affected if the student does not wear standardized physical education apparel because of circumstances beyond the student's control. (Education Code 49066) All clothing worn during physical education shall meet reasonable safety standards.

The purpose of adopting these Student Dress Guidelines is not to infringe on any individual student's rights to freedom of expression, but rather to encourage students to dress appropriately and come to school properly prepared for participating in the educational process.

Gang-Related Apparel

Because gang-related symbols are constantly changing, definitions of gang-related apparel shall be reviewed as needed and updated as necessary.

Uniforms

In schools where a majority of parents respond and indicate on a survey that they desire to establish a voluntary school-wide uniform dress code, the principal, staff and the parents/guardians of the individual school site shall:

1. Jointly select the specific uniform to be worn. (Education Code 35183)
2. Describe the uniform parts and identify local vendors who sell those pieces of clothing. A description of the implementation of the voluntary uniform dress code will be submitted to the superintendent's designee including:
 - a. The process for parent notification
 - b. Positive procedures that will be used to encourage students to participate with the voluntary uniform dress code
3. A description of the uniform and a list of costs for each competitively priced item of clothing as provided by a variety of vendors will be sent to parents.
4. Parents will be notified that this is a voluntary uniform dress code and that students not participating shall not be penalized academically, otherwise discriminated against or denied attendance to school if their parents/guardians so decide.

Parent Notification

The principal shall give parents/guardian at least six months notice before a school site implements a voluntary school uniform dress code. (Education Code 35183)

(G) Procedure for Safe Ingress and Egress of Pupils, Parents, and Staff to and from School (EC 35294.2)

The woodchips were replaced on the playground in August 2022 and the school is received upgraded playground equipment in December of 2023.

Internal Security Procedures

Cram Elementary School has established procedures in the following areas: California Safe School Assessment (CSSA) reporting procedures, suspension and expulsion procedures, inventory system, and school access procedures that include single point of entry, and the use of the Raptor Technologies to verify school visitors. The school grounds are fenced and kept locked during the school day and all support staff outside of the classroom have radios to communicate when needed. Throughout the year monthly drills are practiced with the students so students are prepared in case of an emergency such as a fire, earthquake, or lockdown. In addition, there is a procedure in place for student discipline, bully prevention and reporting, as well as school wide expectations. The staff has been trained in Safety and Mandated Reporting. Community involvement is encouraged to help increase school safety.

Our community is encouraged to reach out with any and all concerns regarding student safety. Campus visitors and volunteers must adhere to the district policies and approval procedure. Cram staff, including the after-school program staff have access to local law enforcement phone numbers, Child Protective Services Hotline, and the See Something, Say Something Hotline.

Inventory System - Engraved ID, Security Storage

Most school-site equipment has a metal ID tag or a bar cod sticker adhered to its surface. These items are inventoried annually and there is an established accountability system. Office and classroom supplies are secured.

Cram Elementary School Student Conduct Code

PBIS/NEU

Conduct Code Procedures

Cram Elementary participates in Positive Behavioral Interventions and Supports (PBIS), which is a way for schools to encourage and teach good behavior. PBIS is an approach that schools can use to improve school safety and promote positive behavior. It's also a way for schools to decide how to respond to a child who misbehaves. Our goal is to set high expectations for positive behavior and utilize social skills lessons to support students. In addition, School-Wide Expectations are provided in all areas throughout campus. The goal of PBIS and NEU is to provide a safe and caring environment focused on college and career readiness. NEU provides additional lessons in characteristics that students will need in their future endeavors. More detailed expectations can be found in Cram's Parent and Student Handbook

(K) Hate Crime Reporting Procedures and Policies

Policy 5145.3: Nondiscrimination/Harassment

This policy shall apply to all acts constituting unlawful discrimination or harassment related to school activity or to school attendance occurring within a district school, and to acts which occur off campus or outside of school-related or school-sponsored activities, but which may have an impact or create a hostile environment at school.

Unlawful discrimination, including discriminatory harassment, intimidation, or bullying, may result from physical, verbal, nonverbal, or written conduct based on one of the categories listed above. Unlawful discrimination also occurs when prohibited conduct is so severe, persistent, or pervasive that it affects a student's ability to participate in or benefit from an educational program or activity; creates an intimidating, threatening, hostile, or offensive educational environment; has the effect of substantially or unreasonably interfering with a student's academic performance; or otherwise adversely affects a student's educational opportunities.

Unlawful discrimination also includes disparate treatment of students based on one of the categories above with respect to the provision of opportunities to participate in school programs or activities or the provision or receipt of educational benefits or services.

The Board also prohibits any form of retaliation against any individual who reports or participates in the reporting of unlawful discrimination, files or participates in the filing of a complaint, or investigates or participates in the investigation of a complaint or report alleging unlawful discrimination. Retaliation complaints shall be investigated and resolved in the same manner as a discrimination complaint.

The Superintendent or designee shall facilitate students' access to the educational program by publicizing the district's nondiscrimination policy and related complaint procedures to students, parents/guardians, and employees. In addition, the Superintendent or designee shall post the district's policies prohibiting discrimination, harassment, intimidation, and bullying and other required information on the district's web site in a manner that is easily accessible to parents/guardians and students, in accordance with law and the accompanying administrative regulation.

The Superintendent or designee shall provide training and/or information on the scope and use of the policy and complaint procedures and take other measures designed to increase the school community's understanding of the requirements of law related to discrimination. (J) Procedures to Prepare for Active Shooters

Cram Elementary utilizes a Safe & Secure Mode is a security procedure used to reduce student and staff movement outside school buildings. This may be due to a medical emergency, area disturbance, active shooter etc. It is designed to allow for school to carry forward but have the ability to move to Lockdown quickly if needed. During the Safe & Secure mode, there is heightened vigilance on campus by all school staff. Generally, recesses and outdoor activities are reduced. Parents/guardians can have access to their

student(s) and may check them out of school if they see fit to do so.

- o Teachers should continue teaching as normal
- o Allow students restroom use with clear administrator/ teacher direction
- o Increased available staff presence during passing periods and student dismissal
- o Lunch/activities in more secure area, unless site admin decides otherwise
- o Standard inclement weather schedule/routine in place, unless site administrator/designee decides otherwise
- o Perimeter gates, where applicable, will be locked and monitored by available staff, allowing for central access points
- o PE classes will be moved off all fields into more secure locations (e.g., gym, class, & MPR)

Lock Down is called when a law enforcement event is happening in the vicinity of a school. The law enforcement agency generally, but not always, contacts the school/district to encourage the school site to Lock Down as a precautionary measure. All Administrators are expected to place their school in Lock Down in this scenario.

- o Take a look outside your classroom and gather up any stray students in the hallways
- o Ensure that your door is locked
- o If windows are open, close them
- o Project a calm demeanor to help students remain calm. Reassure students that they are safe
- o Do not allow anyone to leave the classroom
- o Frequently check your emails for possible updates from your site administrators
- o If students are out on the playground or athletic fields, quickly move them to a secure classroom, locker room, or multi-purpose room

Critical Alert is called when a significant, threatening event is happening on campus or adjacent to campus that creates a potential danger to students and staff. While this may be communicated to the school by law enforcement, it may also be determined by school officials on the scene. Critical Alert assumes that everyone is prepared for a potential significant threat/event on campus.

- o Implement all items from Lock Down list above
- o Turn off or reduce lighting, so it will appear that the room is vacant
- o Keep all students sitting on the floor, away from the door or windows
- o Do not look out the windows
- o Cover window on the door (if one exists)
- o Advise the students that there is a serious situation, but you don't know what it is. Project a calm demeanor to help students remain calm. Reassure students that they are safe
- o Ensure that everyone in the room turns the ringer off on their cell phones
- o Do not allow students to talk on their cell phones (keep room as quiet as possible)
- o Do not call the office. They are in the midst of a problem and will not be able to answer all the calls which may tie up the phone system
- o Quietly take roll and make a list of missing students and any extra students that are in your room. Email this list to your administrators and school site secretaries
- o Do not evacuate students until you are told to, even if the fire bells go off. If, in fact, there is a need for a fire evacuation, you will be notified via the PA system, email, or phone call
- o Do not open the door, even if someone knocks and claims to be a staff member (Administrator/custodian will have a master key)
- o If students are out on the PE field, do not return them to the locker room. Move them to a safe place (the farthest part of the campus)

Safety Plan Review, Evaluation and Amendment Procedures

A Safety Committee is created each school year. The purpose of the committee is to review the Safety Plan and procedures on a continual basis. The committee meets a minimum of three times per year and is made up of school staff and parent/community members. The Safety Committee recommendations are brought to the attention of the staff and presented to School Site Council for approval.

Emergency Response Guidelines

Step One: Identify the Type of Emergency

Determining the type of emergency will assist the commander/administrator in making the appropriate decisions to keep the campus safe. The response to a fire is drastically different than responding to an active shooter. The type of emergency may lead to evacuation, shelter-in-place, or lockdown as well as which agency to contact.

Step Two: Identify the Level of Emergency

Determining the size and immediacy of the emergency will determine the level. The site leader will determine if it is a classroom only, building only, area only (i.e. playground), whole school, neighborhood, or city-wide emergency.

Step Three: Determine the Immediate Response Action

With safety of students, staff and visitors at the forefront, site administrators/commander will determine immediate response based on site protocols. Please reference sections about specific emergencies.

Step Four: Communicate the Appropriate Response Action

Administrators/Commander will communicate to the necessary emergency responders via phone. Administrators/Commander will utilize a variety of communication tools to notify staff and emergency participants such as: Bell system, phone intercom system, emails. In addition, the Administrator/Commander will communicate with the District Office via emergency radio. Lastly, a community communication plan will be created to notify families of incident, pick-up procedures, or next steps through one or several methods: Parent Square, postings on website and all social media accounts.

Types of Emergencies & Specific Procedures

Earthquake

At the first sign of an earthquake, staff will give a verbal command, "Drop, cover, and hold."

1. Classes Inside:

Stay inside. Get under a desk or table facing away from windows. ALL personnel must assume "drop, cover, and hold" position. Adult safety is important for the guidance and safety of the children.

Duck – Take cover under a nearby desk or table, positioning as much of the body as possible under cover.

Cover eyes and head by leaning the face and head against your arm.

Hold on to the table legs or side of the desk. Remain in the position until the ground stops shaking, objects stop falling, or the teacher indicates that this phase of the drill has ended.

2. If there is no table or desk nearby, but there are chairs (such as an auditorium-style chair):

Duck, cover, and hold: take cover under the chairs, if possible, and/or between the rows of chairs, by dropping to the floor, holding on, and protecting eyes with arms.

3. If there are no tables or chairs nearby (or not enough)

Duck, cover, and hold: take cover by dropping to the floor, against an interior wall, if possible. The "drop" position is preferred: on the floor, on knees, leaning over to rest on elbows, hands clasped behind the neck, face down for protection.

4. You must stay in the duck-cover-hold position for a minimum of 5 minutes. If this is a drill it is a 2-minute hold.

5. Classes Outside:

Stay outside.

Get in an open area, away from the building, trees, power lines, etc.

Assume a "drop, cover, and hold" position.

6. Next, proceed to the Evacuation Plan.

Fire in Surrounding Area

Fire in Surrounding Area INITIAL RESPONSE: 1. If necessary, sound the school alarm and evacuate building. 2. Notify the fire department by dialing 911. 3. Assemble at the pre-designated areas at safe distance from the fire/fire-fighting equipment. 4. Assist disabled persons during the evacuation. 5. Render first aid as necessary. 6. Check all bathrooms and training rooms for staff and students. 7. If it is possible for adults to fight small fires (no bigger than a desk) without endangering life and/or causing injury, do so. 8. Close, but do not lock all doors leading to the fire area to isolate the area and prevent the spread of the fire. 9. Keep access roads open for emergency vehicles. 10. Teachers should take roll and report missing students to the office. No one should leave the area until instructed to do so. 11. Notify the Superintendent. 12. The principal will recommend to the Superintendent whether further action such as the EVACUATION OF SCHOOL should be implemented. 13. Notify utility companies of a break or suspected break in their lines. 14. After a serious fire, fire department officials and maintenance personnel should determine whether the building is safe before student and staff return.

3.2. Employees with an infectious blood borne disease, who are able to carry out the essential duties of their jobs in a satisfactory manner without posing a health or safety risk to themselves or others, will be entitled to continue their work.

3.3. Decisions regarding potential health or safety hazards will be made on a case-by-case basis in consultation with the employee, the personal physician and district personnel as appropriate.

3.4. The identity of infected employees will remain confidential and restricted to those who need to know or are required to be informed.

- 3.5. The Board will be notified immediately if the Superintendent considers the health condition of an employee to be a danger to the immediate health and welfare of a school, its students or other employees of the Board.
- a. Upon being notified of the Superintendent's concern, the Board will refer the matter to the Medical Health Officer in accordance with the procedures outlined in the School Act.

4. Hygienic Safety Practices

- 4.1. All employees will follow "Universal Infection Control Precautions" by assuming that blood and other body fluids from all individuals are potentially infectious. These precautions include:
- a. Routinely using gloves when anticipating contact with blood
 - b. Immediately washing hands and other skin surfaces after removal of gloves and/or contact with blood
- 4.2. Schools will be provided with appropriate protective equipment including disposable waterproof gloves (natural rubber latex, neoprene, nitrile, or vinyl), tongs or pliers and proper sharps containers.

In summary they include:
- a. Wash hands for 30 seconds after contact with blood and other body fluids contaminated with blood.

 - d. Discard bloodstained material in a sealed plastic bag and deposit in the garbage. Label as containing blood-tainted material.
 - e. Cover cuts or scrapes with a bandage until healed.
 - f. Immediately protect staff and students from coming in contact with blood-soiled surfaces. The area must be disinfected with a fresh solution of one part bleach and nine-parts water (10% bleach solution).

Mops or brushes used for cleaning should be soaked in a bleach solution for 20 minutes.

(Note: The custodial department will provide each school with the product for dissolving in water to provide the bleach solution.)

6. Identification of Risks of Occupational Exposure

- 6.1. In accordance with the Occupational Health and Safety Regulations (section 6.35), the district's Health & Safety Coordinator will develop and maintain a list of positions and/or tasks and procedures where there is a potential for occupational exposure to a blood borne pathogen.

Blood Borne Pathogen Incident Reporting Form and Exposure Control Plan58

Blood Borne Pathogens - Safety Practices59

Comprehensive School Safety Plan Purpose

Effective January 1, 2019, Assembly Bill 1747 (Rodriguez), School Safety Plans, became law. This bill requires that during the writing and development of the comprehensive school safety plan (CSSP), the school site council or safety committee consult with a fire department and other first responder entities in addition to currently required entities. It requires the CSSP and any updates made to the plan to be shared with the law enforcement agency, the fire department, and the other first responder entities.

The California Education Code (sections 32280-32288) outlines the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school.

In 2004, the Legislature and Governor recast and renumbered the Comprehensive School Safety Plan provisions in SB 719 and AB 115. It is the intent of the Legislature in enacting the provisions to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process, that include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses.

The historical requirement of the Comprehensive School Safety Plan was presented in Senate Bill 187, which was approved by the Governor and chaptered in 1997. This legislation contained a sunset clause that stated that this legislation would remain in effect only until January 1, 2000. Senate Bill 334 was approved and chaptered in 1999 and perpetuated this legislation under the requirement of the initial legislation.

Comprehensive School Safety Plans are required under SB 719 & AB 115 and contains the following elements:

Assessment of school crime committed on school campuses and at school-related functions

- Child abuse reporting procedures
- Disaster procedures
- Suspension and expulsion policies
- Procedures to notify teachers of dangerous pupils
- Discrimination and harassment policies
- School wide dress code policies
- Procedures for safe ingress and egress
- Policies enacted to maintain a safe and orderly environment
- Rules and procedures on school discipline
- Hate crime reporting procedures

The Comprehensive School Safety Plan will be reviewed and updated by March 1st every year. In July of every year, the school will report on the status of its school safety plan including a description of its key elements in the annual school accountability report card.

A copy of the Comprehensive School Safety Plan is available for review at the school office..

Assessment of School Safety

School crime is monitored internally via documentation and queries in Aeries. The P.B.I.S. team has developed a data collection process via Google Forms and Google sheets to strategically address specific safety issues on campus.

Strategies and Programs to Provide and Maintain a High Level of Safety (EC 32281(a)1, items A-J)

A mandated reporter who reports a known or suspected instance of child abuse or neglect shall not be held civilly or criminally liable for making a report and this immunity shall apply even if the mandated reporter acquired the knowledge or reasonable suspicion of child abuse or neglect outside of the mandated reporter's professional capacity or outside the scope of employment. Any other person making a report shall not incur civil or criminal liability unless it can be proven that the person knowingly made a false report or made a report with reckless disregard of the truth or falsity of the report. (Penal Code 11172)

If a mandated reporter fails to timely report an incident of known or reasonably suspected child abuse or neglect, the mandated reporter may be guilty of a crime punishable by imprisonment or a fine. (Penal Code 11166) No employee shall be subject to any sanction by the district for making a report unless it can be shown that the employee knowingly made a false report or made a report with reckless disregard of the truth or falsity of the report. A teacher may suspend a student from class for the remainder of the day and the following day for any of the acts specified in Education Code 48900 and listed as items #1-18 under "Grounds for Suspension and Expulsion: Grades K-12" above or for disruption or willful defiance at any grade level, including grades K-8. (Education Code 48910)

When suspending a student from class, the teacher shall immediately report this action to the principal or designee and send the student to the principal or designee for appropriate action. If that action requires the continuing presence of the student at school, the student shall be appropriately supervised during the class periods from which the student has been suspended. (Education Code 48910)

As soon as possible after the teacher decides to suspend the student, the teacher shall ask the student's parent/guardian to attend a parent-teacher conference regarding the suspension. A counselor or psychologist may attend the conference if it is practicable, and a school administrator shall attend if either the parent/guardian or teacher so requests. (Education Code 48910)

A student suspended from class shall not be returned to class during the period of the suspension without the approval of the teacher of the class and the principal or designee. (Education Code 48910)

A student suspended from class shall not be placed in another regular class during the period of suspension. However, a student assigned to more than one class per day, may continue to attend other regular classes except those held at the same time as the class from which the student was suspended. (Education Code 48910)

The teacher of any class from which a student is suspended may require the student to complete any assignments and tests missed during the removal. (Education Code 48913)

Suspension By Superintendent, Principal Or Principal's Designee

To implement disciplinary procedures at a school site, the principal may, in writing, designate as the principal's designee another administrator or, if the principal is the only administrator at the school site, a certificated employee. As necessary, the principal may, in writing, also designate another administrator or certificated employee as the secondary designee to assist with disciplinary procedures when the principal and the principal's primary designee are absent from the school site.

The Superintendent or designee shall immediately suspend any student found at school or at a school activity to have committed any of the acts listed in the Board policy under "Authority to Expel" for which a recommendation of expulsion is required. (Education Code 48915(c))

The Superintendent, principal, or designee may impose a suspension for a first offense if it is determined that the student violated any of items #1-5 listed under "Grounds For Suspension and Expulsion: Grades K-12" above or if the student's presence causes a danger to persons. (Education Code 48900.5)

For all other offenses, a student may be suspended only when the Superintendent or principal has determined that other means of correction have failed to bring about proper conduct. (Education Code 48900.5)

When other means of correction are implemented prior to imposing suspension or supervised suspension upon a student, the Superintendent, principal, or designee shall document the other means of correction used and retain the documentation in the student's record. (Education Code 48900.5)

(cf. 5125 - Student Records)

Length of Suspension

The Superintendent, principal, or designee may suspend a student from school for not more than five consecutive school days. (Education Code 48911)

A student may be suspended from school for not more than 20 school days in any school year. However, if a student enrolls in or is transferred to another regular school, an opportunity school, or continuation school or class for the purpose of adjustment, the student may be suspended for not more than 30 days in a school year. The district may count suspensions that occur while a student is enrolled in another school district toward the maximum number of days for which the student may be suspended in any school year. (Education Code 48903, 48911, 48912)

(cf. 6184 - Continuation Education)

These restrictions on the number of days of suspension shall not apply when the suspension is extended pending an expulsion. (Education Code 48911)

Due Process Procedures for Suspension

Suspensions shall be imposed in accordance with the following procedures:

1. Informal Conference: Suspension shall be preceded by an informal conference conducted by the principal, Superintendent or designee with the student, and whenever practicable, the teacher, supervisor or school employee who referred the student to the principal. At the conference, the student shall be informed of the reason for the disciplinary action, including the other means of correction that were attempted before the suspension as required pursuant to Education Code 48900.5, and the evidence against the student, and shall be given the opportunity to present the student's version and evidence. (Education Code 48911(b))

This conference may be omitted if the principal, designee or the Superintendent or designee determines that an emergency situation exists. An "emergency situation" involves a clear and present danger to the lives, safety or health of students or school personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student's right to return to school for the purpose of the conference. The conference shall be held within two school days, unless the student waives his/her right to it or is physically unable to attend for any reason. In such case, the conference shall be held as soon as the student is physically able to return to school. (Education Code 48911)

2. Administrative Actions: All requests for student suspension are to be processed by the principal or designee.

A school employee shall report the suspension, including the name of the student and the cause for the suspension, to the Superintendent or designee. (Education Code 48911)

3. Notice to Parents/Guardians: At the time of the suspension, a school employee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall also be notified in writing of the suspension. (Education Code 48911)

This notice shall state the specific offense committed by the student. (Education Code 48900.8)

In addition, the notice may also state the date and time when the student may return to school.

4. Parent/Guardian Conference: Whenever a student is suspended, school officials may request a meeting with the parent/guardian to discuss the cause(s) and duration of the suspension, the school policy involved, and any other pertinent matters. (Education Code 48914)

Should school officials request to meet with the parent/guardian, the notice may state that the law requires the parent/guardian to respond to such requests without delay. However, no penalties may be imposed on the student for the failure of the parent/guardian to attend such a conference. The student may not be denied reinstatement solely because the parent/guardian failed to attend the conference. (Education Code 48911)

5. Extension of Suspension: If the Board is considering the expulsion of a suspended student from any school or the suspension of a student for the balance of the semester from continuation school, the Superintendent or designee may, in writing, extend the suspension until such time as the Board has made a decision provided the following requirements are followed: (Education Code 48911)

The extension of the original period of suspension is preceded by notice of such extension with an offer to hold a conference concerning the extension, giving the student an opportunity to be heard. This conference may be held in conjunction with a meeting requested by the student or parent/guardian to challenge the original suspension

The Superintendent or designee determines, following a meeting in which the student and the student's parent/guardian were invited to participate, that the student's presence at the school or at an alternative school would endanger persons or property or threaten to disrupt the instructional process. (Education Code 48911)

If the student involved is a foster youth, the Superintendent or designee shall notify the district liaison for foster youth of the need to invite the student's attorney and a representative of the appropriate county child welfare agency to attend the meeting. (Education Code 48853.5, 48911, 48918.1)

(cf. 6173.1 - Education for Foster Youth)

d. If the student involved is a homeless child or youth, the Superintendent or designee shall notify the district liaison for homeless students. (Education Code 48918.1)

(cf. 6173 - Education for Homeless Children)

In lieu of or in addition to suspending a student, the Superintendent, principal, or designee may provide services or require the student to participate in an alternative disciplinary program designed to correct the behavior and keep the student in school.

Suspension by the Board

The Board may suspend a student for any of the acts listed under "Grounds for Suspension and Expulsion: Grades K-12," "Additional Grounds for Suspension and Expulsion: Grades 4-12," and "Additional Grounds for Suspension and Expulsion: Grades 9-12" above and within the limits specified under "Suspension by Superintendent, Principal or Designee" above. (Education Code 48912)

The Board may suspend a student enrolled in a continuation school or class for a period not longer than the remainder of the semester. The suspension shall meet the requirements of Education Code 48915. (Education Code 48912.5)

When the Board is considering a suspension, disciplinary action, or any other action (except expulsion) against any student, it may hold a closed session if a public hearing would lead to disclosure of information which would violate a student's right to privacy under Education Code 49073-49079. (Education Code 35146, 48912)

(cf. 9321 Closed Session)

The Board shall provide the student and parent/guardian with written notice of the closed session by registered or certified mail or personal service. Upon receiving this notice, the student or parent/guardian may request a public meeting, and this request shall be granted if made in writing within 48 hours after receipt of the Board's notice. However, any discussion that conflicts with any other student's right to privacy still shall be held in closed session. (Education Codes 35146, 48912)

Superintendent or Principal's Authority to Recommend Expulsion

Unless the principal or Superintendent determines that expulsion should not be recommended under the circumstances or that an alternative means of correction would address the conduct, the Superintendent or principal shall recommend a student's expulsion for any of the following acts: (Education Code 48915)

1. Causing serious physical injury to another person, except in self-defense.
2. Possession of any knife or other dangerous object of no reasonable use to the student.
3. Unlawful possession of any controlled substance, as listed in Health and Safety Code 11053-11058, except for (a) the first offense for the possession of not more than one ounce of marijuana, other than concentrated cannabis, or (b) the student's possession of over-the-counter medication or other medication prescribed by a physician.
4. Robbery or extortion.
5. Assault or battery, as defined in Penal Code 240 and 242, upon any school employee.

In determining whether or not to recommend the expulsion of a student, the Superintendent, principal, or designee shall act as quickly as possible to ensure that the student does not lose instructional time. (Education Code 48915)

Student's Right to Expulsion Hearing

Any student recommended for expulsion shall be entitled to a hearing to determine whether the student should be expelled. The hearing shall be held within 30 school days after the principal or Superintendent or designee determines that the student has committed the act(s) that form the basis for the expulsion recommendation. (Education Code 48918(a))

The student is entitled to at least one postponement of an expulsion hearing for a period of not more than 30 calendar days. The request for postponement shall be in writing. Any subsequent postponement may be granted at the Board's discretion. (Education Code 48918(a))

If the Board finds it impracticable during the regular school year to comply with these time requirements for conducting an expulsion hearing, the Superintendent or designee may, for good cause, extend the time period by an additional five school days. Reasons for the extension shall be included as a part of the record when the expulsion hearing is held. (Education Code 48918(a))

If the Board finds it impractical to comply with the time requirements of the expulsion hearing due to a summer recess of Board meetings of more than two weeks, the days during the recess shall not be counted as school days. The days not counted during the recess may not exceed 20 school days, as defined in Education Code 48925. Unless the student requests in writing that the expulsion hearing be postponed, the hearing shall be held not later than 20 calendar days prior to the first day of the next school year. (Education Code 48918(a))

Once the hearing starts, all matters shall be pursued with reasonable diligence and concluded without unnecessary delay. (Education Code 48918(a))

Stipulated Expulsions

After a determination that a student has committed an expellable offense, the Superintendent, principal, or designee shall offer the student and parent/guardian the option to waive a hearing and stipulate to the expulsion or to a suspension of the expulsion under certain conditions. The offer shall be made only after the student or parent/guardian has been given written notice of the expulsion hearing pursuant to Education Code 48918.

The stipulation agreement shall be in writing and shall be signed by the student and parent/guardian. The stipulation agreement shall include notice of all the rights that the student is waiving, including the waiving of the right to have a full hearing, to appeal the expulsion to the County Board of Education, and to consult legal counsel.

A stipulated expulsion agreed to by the student and parent/guardian shall be effective upon approval by the Board.

Rights of Complaining Witness

An expulsion hearing involving allegations of sexual assault or sexual battery may be postponed for one school day in order to accommodate the special physical, mental or emotional needs of a student who is the complaining witness. (Education Code 48915.5)

Whenever the Superintendent or designee recommends an expulsion hearing that addresses allegations of sexual assault or sexual battery, the Superintendent or designee shall give the complaining witness a copy of the district's suspension and expulsion policy and regulation and shall advise the witness of his/her right to: (Education Code 48915.5)

1. Receive five days' notice of his/her scheduled testimony at the hearing.
2. Have up to two adult support persons of his/her choosing present at the hearing at the time he/she testifies.
3. Have a closed hearing during the time he/she testifies.

Whenever any allegation of sexual assault or sexual battery is made, the Superintendent or designee shall immediately advise complaining witnesses and accused students to refrain from personal or telephone contact with each other during the time when an expulsion process is pending. (Education Code 48915.5)

Written Notice of the Expulsion Hearing

Written notice of the expulsion hearing shall be forwarded to the student and the student's parent/guardian at least ten (10) calendar days before the date of the hearing. The notice shall include: (Education Code 48900.8, 48918(b))

1. The date and place of the hearing.
2. A statement of the specific facts, charges and offense upon which the proposed expulsion is based.
3. A copy of district disciplinary rules which relate to the alleged violation.
4. Notification of the student's parent/guardian's obligation pursuant to Education Code 48915.1, to provide information about the student's status in the district to any other district in which the student seeks enrollment.

This obligation applies when a student is expelled for acts other than those described in Education Code 48915(a) or (c).

(cf. 5119 -Students Expelled from Other Districts)

5. The opportunity for the student or the student's parent/guardian to appear in person or be represented by legal counsel or by a non-attorney adviser.

Legal counsel means an attorney or lawyer who is admitted to the practice of law in California and is an active member of the State Bar of California.

Non-attorney adviser means an individual who is not an attorney or lawyer, but who is familiar with the facts of the case and has been selected by the student or student's parent/guardian to provide assistance at the hearing.

6. The right to inspect and obtain copies of all documents to be used at the hearing.

7. The opportunity to confront and question all witnesses who testify at the hearing.

8. The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf, including witnesses.

Additional Notice of Expulsion Hearing for Foster Youth and Homeless Students

If the student facing expulsion is a foster student, the Superintendent or designee shall also send notice of the hearing to the student's attorney and a representative of an appropriate child welfare agency at least 10 days prior to the hearing. (Education Code 48918.1)

If the student facing expulsion is a homeless student, the Superintendent or designee shall also send notice of the hearing to the district liaison for homeless students at least 10 days prior to the hearing. (Education Code 48918.1)

Any notice for these purposes may be provided by the most cost-effective method possible, including by email or a telephone call. (Education Code 48918.1)

Conduct of Expulsion Hearing

1. Closed Session: Notwithstanding Education Code 35145, the Board shall conduct a hearing to consider the expulsion of the student in a session closed to the public unless the student requests in writing at least five days prior to the hearing that the hearing be a public meeting. If such request is made, the meeting shall be public to the extent that privacy rights of other students are not violated. (Education Code 48918)

Whether the expulsion hearing is held in closed or public session, the Board may meet in closed session to deliberate and determine if the student should be expelled. If the Board admits any other person to the closed session, the parent/guardian, the student, and the counsel of the student shall also be allowed to attend the closed session. (Education Code 48918(c))

If a hearing that involves a charge of sexual assault or sexual battery is to be conducted in public, a complaining witness shall have the right to testify in closed session when testifying in public would threaten serious psychological harm to the witness and when there are no alternative procedures to avoid the threatened harm, including, but not limited to, a videotaped deposition or contemporaneous examination in another place communicated to the hearing room by closed-circuit television. (Education Code 48918(c))

2. Record of Hearing: A record of the hearing shall be made and may be maintained by any means, including electronic recording, so long as a reasonably accurate written and complete written transcription of the proceedings can be made. (Education Code 48918(g))

3. Subpoenas: Before commencing a student expulsion hearing, the Board may issue subpoenas, at the request of either the student or the Superintendent or designee, for the personal appearance at the hearing of any person who actually witnessed the action that gave rise to the recommendation for expulsion. After the hearing has commenced, the Board or the hearing officer or administrative panel may issue such subpoenas at the request of the student or the County Superintendent of Schools or designee. All subpoenas shall be issued in accordance with Code of Civil Procedure 1985-1985.2 and enforced in accordance with Government Code 11455.20. (Education Code 48918(i))

Any objection raised by the student or the Superintendent or designee to the issuance of subpoenas may be considered by the Board in closed session, or in open session if so requested by the student, before the meeting. The Board's decision in response to such an objection shall be final and binding. (Education Code 48918(i))

If the Board determines, or if the hearing officer or administrative panel finds and submits to the Board, that a witness would be subject to unreasonable risk of harm by testifying at the hearing, a subpoena shall not be issued to compel the personal attendance of that witness at the hearing. However, that witness may be compelled to testify by means of a sworn declaration as described in item #4 below. (Education Code 48918(i))

4. Presentation of Evidence: Technical rules of evidence shall not apply to the expulsion hearings, but relevant evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. The decision of the Board to expel shall be supported by substantial evidence that the student committed any of the acts pursuant to Education Code 48900 and listed in "Grounds for Suspension and Expulsion: Grades K-12," "Additional Grounds for Suspension and Expulsion: Grades 4-12," and "Additional Grounds for Suspension and Expulsion: Grades 9-12" above. (Education Code 48918(h))

Findings of fact shall be based solely on the evidence at the hearing. Although no finding shall be based solely on hearsay, sworn declarations may be admitted as testimony from witnesses whose disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm. (Education Code 48918 (f))

In cases where a search of a student's person or property has occurred, evidence describing the reasonableness of the search shall be included in the hearing record.

5. Testimony By Complaining Witness: The following procedures shall be observed when a hearing involves allegations of sexual assault or sexual battery by a student: (Education Code 48918, 48918.5)

- a. Any complaining witness shall be given five days' notice before being called to testify.
- b. Any complaining witness shall be entitled to have up to two adult support persons, including, but not limited to, a parent/guardian or legal counsel, present during the testimony.
- c. Before a complaining witness testifies, support persons shall be admonished that the hearing is confidential.
- d. The person presiding over the hearing may remove a support person who is disrupting the hearing.
- e. If one or both support persons are also witnesses, the hearing shall be conducted in accordance with Penal Code 868.5.
- f. Evidence of specific instances of prior sexual conduct of a complaining witness shall be presumed inadmissible and shall not be heard unless the person conducting the hearing determines that extraordinary circumstances require the evidence to be heard. Before such a determination is made, the complaining witness shall be given notice and an opportunity to oppose the introduction of this evidence. In the hearing on the admissibility of this evidence, the complaining witness shall be entitled to be represented by a parent/guardian, legal counsel or other support person. Reputation or opinion evidence regarding the sexual behavior of a complaining witness shall not be admissible for any purpose.
- g. In order to facilitate a free and accurate statement of the experiences of the complaining witness and to prevent discouragement of complaints, the district shall provide a nonthreatening environment.

(1) The district shall provide a room separate from the hearing room for the use of the complaining witness before and during breaks in testimony.

(2) At the discretion of the person conducting the hearing, the complaining witness shall be allowed reasonable periods of relief from examination and cross-examination during which the complaining witness may leave the hearing room.

(3) The person conducting the hearing may:

(a) Arrange the seating within the hearing room so as to facilitate a less intimidating environment for the complaining witness.

(b) Limit the time for taking the testimony of a complaining witness to normal school hours, if there is no good cause to take the testimony during other hours.

(c) Permit one of the support persons to accompany the complaining witness to the witness stand.

6. Decision: The Board's decision on whether to expel a student shall be made within 40 school days after the student is removed from school, unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

Alternative Expulsion Hearing: Hearing Officer or Administrative Panel

Instead of conducting an expulsion hearing itself, the Board may contract with the county hearing officer or with the Office of Administrative Hearings of the State of California for a hearing officer. Alternatively, the Board may appoint an impartial administrative panel composed of three or more certificated personnel, none of whom shall be members of the Board or on the staff of the school in which the student is enrolled. (Education Code 48918(d))

A hearing conducted by the hearing officer or administrative panel shall conform to the same procedures as apply to a hearing conducted by the Board as specified in "Conduct of Expulsion Hearing" above, including the requirement to issue a decision within 40 school days of the student's removal from school, unless the student requests that the decision be postponed. (Education Code 48918(a) and (d))

The hearing officer or administrative panel shall, within three school days after the hearing, determine whether to recommend expulsion of the student to the Board. If expulsion is not recommended, the expulsion proceeding shall be terminated and the student shall be immediately reinstated and permitted to return to the classroom instructional program from which the referral was made, unless another placement is requested in writing by the student's parent/guardian. Before the student's placement decision is made by the student's parent/guardian, the Superintendent or designee shall consult with the parent/guardian and district staff, including the student's teachers, regarding other placement options for the student in addition to the option to return to the classroom instructional program from which the student's expulsion referral was made. The decision to not recommend expulsion shall be final. (Education Code 48918(e))

If expulsion is recommended, findings of fact in support of the recommendation shall be prepared and submitted to the Board. All findings of fact and recommendations shall be based solely on the evidence presented at the hearing. The Board may accept the recommendation based either upon a review of the findings of fact and recommendations submitted or upon the results of any supplementary hearing the Board may order. (Education Code 48918(f))

In accordance with Board policy, the hearing officer or administrative panel may recommend that the Board suspend the enforcement of the expulsion. If the hearing officer or administrative panel recommends that the Board expel a student but suspend the enforcement of the expulsion, the student shall not be reinstated and permitted to return to the classroom instructional program from which the referral was made until the Board has ruled on the recommendation. (Education Code 48917, 48918)

Final Action by the Board

Whether the expulsion hearing is conducted in closed or open session by the Board, a hearing officer, or an administrative panel, or is waived through the signing of a stipulated expulsion agreement, the final action to expel shall be taken by the Board at a public meeting. (Education Code 48918(j))

The Board's decision is final. If the decision is not to expel, the student shall be reinstated immediately. If the decision is to suspend the enforcement of the expulsion, the student shall be reinstated under the conditions of the suspended expulsion.

Upon ordering an expulsion, the Board shall set a date when the student shall be reviewed for readmission to a school within the district. For a student expelled for an act listed under "Mandatory Recommendation and Mandatory Expulsion" listed in the section "Authority to Expel" in the accompanying Board policy, this date shall be one year from the date the expulsion occurred, except that the Board may set an earlier date on a case-by-case basis. For a student expelled for other acts, this date shall be no later than the last day of the semester following the semester in which the expulsion occurred. If an expulsion is ordered during summer session or the intersession period of a year-round program, the Board shall set a date when the student shall be reviewed for readmission not later than the last day of the semester following the summer session or intersession period in which the expulsion occurred. (Education Code 48916)

At the time of the expulsion order, the Board shall recommend a plan for the student's rehabilitation, which may include: (Education Code 48916)

1. Periodic review as well as assessment at the time of review, for readmission.
2. Recommendations for improved academic performance, tutoring, special education assessments, job training, counseling, employment, community service, or other rehabilitative programs.

With parent/guardian consent, students who have been expelled for reasons relating to controlled substances or alcohol may be required to enroll in a county-sponsored drug rehabilitation program before returning to school. (Education Code 48916.5)

Written Notice to Expel

The Superintendent or designee shall send written notice of the decision to expel to the student or parent/guardian. The notice shall include the following:

1. The specific offense committed by the student for any of the causes for suspension or expulsion listed above under "Grounds for Suspension and Expulsion: Grades K-12," "Additional Grounds for Suspension and Expulsion: Grades 4-12," or "Additional Grounds for Suspension and Expulsion: Grades 9-12". (Education Code 48900.8)
2. The fact that a description of readmission procedures will be made available to the student and his/her parent/guardian. (Education Code 48916)
3. Notice of the right to appeal the expulsion to the County Board of Education. (Education Code 48918)
4. Notice of the alternative educational placement to be provided to the student during the time of expulsion. (Education Code 48918)
5. Notice of the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with the expelling district, pursuant to Education Code 48915.1. (Education Code 48918)

Decision to Suspend Expulsion Order

In accordance with Board policy, when deciding whether to suspend the enforcement of an expulsion order, the Board shall take into account the following criteria:

1. The student's pattern of behavior.
2. The seriousness of the misconduct.
3. The student's attitude toward the misconduct and his/her willingness to follow a rehabilitation program.

The suspension of the enforcement of an expulsion shall be governed by the following:

1. The Board may, as a condition of the suspension of enforcement, assign the student to a school, class or program appropriate for the student's rehabilitation. This rehabilitation program may provide for the involvement of the student's parent/guardian in the student's education. However, a parent/guardian's refusal to participate in the rehabilitation program shall not be considered in the Board's determination as to whether the student has satisfactorily completed the rehabilitation program. (Education Code 48917)
2. During the period when enforcement of the expulsion order is suspended, the student shall be on probationary status. (Education Code 48917)
3. The suspension of the enforcement of an expulsion order may be revoked by the Board if the student commits any of the acts listed under "Grounds for Suspension and Expulsion: Grades K-12," "Additional Grounds for Suspension and Expulsion: Grades 4-12," or "Additional Grounds for Suspension and Expulsion: Grades 9-12" above or violates any of the district's rules and regulations governing student conduct. (Education Code 48917)
4. When suspension of enforcement of an expulsion order is revoked, a student may be expelled under the terms of the original expulsion order. (Education Code 48917)
5. Upon satisfactory completion of the rehabilitation assignment, the Board shall reinstate the student in a district school. Upon reinstatement, the Board may order the expunging of any or all records of the expulsion proceedings. (Education Code 48917)
6. Suspension of the enforcement of an expulsion order shall not affect the time period and requirements for the filing of an appeal of the expulsion order with the County Board of Education. (Education Code 48917)
7. The Superintendent or designee shall send written notice of any decision to suspend the enforcement of an expulsion order during a period of probation to the student or parent/guardian. The notice shall also inform the parent/guardian of the right to appeal the expulsion to the County Board of Education, the alternative educational placement to be provided to the student during the period of expulsion, and the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with the expelling district, pursuant to Education Code 48915.1(b). (Education Code 48918(ij))

Appeal

The student or parent/guardian is entitled to file an appeal of the Board's decision with the County Board of Education. The appeal must be filed within 30 days of the Board's decision to expel, even if the expulsion order is suspended and the student is placed on probation. (Education Code 48919)

If the student submits a written request for a copy of the written transcripts and supporting documents from the district simultaneously with the filing of the notice of appeal with the County Board, the district shall provide the student with these documents within 10 school days following the student's written request. (Education Code 48919)

Notifications To Law Enforcement Authorities

Prior to the suspension or expulsion of any student, the principal or designee shall notify appropriate city or county law enforcement authorities of any student acts of assault which may have violated Penal Code 245. (Education Code 48902)

The principal or designee also shall notify appropriate city or county law enforcement authorities of any student acts which may involve the possession or sale of narcotics or of a controlled substance, or of any student acts involving the possession, sale, or furnishing of firearms, explosives, or other dangerous weapons in violation of Education Code 48915(c)(1) or (5) or Penal Code 626.9 and 626.10. (Education Code 48902)

Within one school day after a student's suspension or expulsion, the principal or designee shall notify appropriate district or county law enforcement authorities, by telephone or other appropriate means, of any student acts which may violate Education Code 48900(c) or (d), relating to the possession, use, offering or sale of controlled substances, alcohol, or intoxicants of any kind. (Education Code 48902)

Placement During Expulsion

The Board shall refer expelled students to a program of study that is: (Education Code 48915, 48915.01)

1. Appropriately prepared to accommodate students who exhibit discipline problems.
2. Not provided at a comprehensive middle, junior or senior high school or at any elementary school, unless the program is offered at a community day school established at any of these.
3. Not housed at the school site attended by the student at the time of suspension.

(cf. 6158 - Independent Study)

(cf. 6185 - Community Day School)

When the placement described above is not available, and when the County Superintendent of Schools so certifies, students expelled for only acts described in items #6 through #12 under "Grounds for Suspension and Expulsion: Grades K-12" and items #1-3 under "Additional Grounds for Suspension and Expulsion: Grades 4-12" above may be referred to a program of study that is provided at another comprehensive middle, junior, or senior high school, or at an elementary school. (Education Code 48915)

The program for a student expelled from any of grades K-6 shall not be combined or merged with programs offered to students in any of grades 7-12. (Education Code 48916.1)

Readmission After Expulsion

Prior to the date set by the Board for the student's readmission:

1. The Superintendent or designee shall hold a conference with the parent/guardian and the student. At the conference the student's rehabilitation plan shall be reviewed and the Superintendent or designee shall verify that the provisions of this plan have been met. School regulations shall be reviewed and the student and parent/guardian shall be asked to indicate in writing their willingness to comply with these regulations.
2. The Superintendent or designee shall transmit to the Board a request for recommendation regarding readmission. The Board shall consider this recommendation in closed session. If a written request for open session is received from the parent/guardian or adult student, it shall be honored to the extent that privacy rights of other students are not violated.
3. If the readmission is granted, the Superintendent or designee shall notify the student and parent/guardian, by registered mail, of the Board's decision regarding readmission.
4. The Board may deny readmission only if it finds that the student has not satisfied the conditions of the rehabilitation plan or that the student continues to pose a danger to campus safety or to other district students or employees. (Education Code 48916)
5. If the Board denies the readmission of a student, the Board shall determine either to continue the student's placement in the alternative educational program initially selected or to place the student in another program that serves expelled students, including placement in a county community school.
6. The Board shall provide written notice to the expelled student and parent/guardian describing the reasons for denying readmittance into the regular program. This notice shall indicate the Board's determination of the educational program which the Board has chosen. The student shall enroll in that program unless the parent/guardian chooses to enroll the student in another school district. (Education Code 48916)

No student shall be denied readmission into the district based solely on the student's arrest, adjudication by a juvenile court, formal or informal supervision by a probation officer, detention in a juvenile facility, enrollment in a juvenile court school, or other such contact with the juvenile justice system. (Education Code 48645.5)

Maintenance of Records

The district shall maintain a record of each suspension and expulsion, including its specific cause(s). (Education Code 48900.8)

Expulsion records of any student shall be maintained in the student's mandatory interim record and sent to any school in which the student subsequently enrolls upon written request by that school. (Education Code 48918(k))

The Superintendent or designee shall, within five working days, honor any other district's request for information about an expulsion from this district. (Education Code 48915.1)

(cf. 5119 - Students Expelled from Other Districts)

(D) Procedures to Notify Teachers of Dangerous Pupils (EC 49079)

A school administrator meets with the teacher in person about the dangerous student. Teachers called to this meeting are given a letter notifying them they have the right to view the suspension/expulsion/probation information in the cumulative file. They are to sign the letter acknowledging they have been notified.

(E) Sexual Harassment Policies (EC 212.6 [b])

Policy 4119.11: Sex Discrimination and Sex-Based Harassment

The Governing Board is committed to providing a safe work environment that is free of harassment and intimidation. The Board prohibits sexual harassment against district employees by anyone, in any manner, and prohibits retaliatory action or behavior against any persons who complains, testifies, or otherwise participates in the complaint process established pursuant to this policy and accompanying administrative regulation. This policy shall apply to all district employees, interns, volunteers, contractors, job applicants, and other persons with an employment relationship with the district.

(cf. 0410 - Nondiscrimination in District Programs and Activities) (cf. 4030 - Nondiscrimination in Employment)

Sexual harassment includes, but is not limited to, harassment that is based on the sex, gender, gender identity, gender expression, or sexual orientation of the victim and harassment based on pregnancy, childbirth, or related medical conditions.

The Superintendent or designee shall take all actions necessary to ensure the prevention, investigation, and correction of sexual harassment, including but not limited to:

1. Providing training to all staff in accordance with law and administrative regulation.
2. Publicizing and disseminating the district's sexual harassment policy to staff.
3. Ensuring prompt, thorough, equitable, and fair investigation of complaints
4. Taking timely and appropriate corrective/remedial actions which may require interim separation of the complainant and the alleged harasser and subsequent monitoring of developments.

The Superintendent or designee shall periodically evaluate the effectiveness of the district's strategies to prevent and address harassment. Such evaluation may involve conducting regular anonymous employee surveys to assess whether harassment is occurring or is perceived to be tolerated, partnering with researchers or other agencies with the needed expertise to evaluate the district's prevention strategies, and using any other effective tool for receiving feedback on systems and/or processes. As necessary, changes shall be made to the harassment policy, complaint procedures, or training.

Sexual Harassment Reports and Complaints

Any district employee who feels that he/she has been sexually harassed in the performance of their district responsibilities or who has knowledge of any incident of sexual harassment by or against another employee shall immediately report the incident to his/her supervisor, the principal, other district administrator, or the district's Title IX Coordinator. However, an employee may bypass his/her supervisor in filing a complaint if the supervisor is the subject of the complaint. A supervisor, principal, or district administrator who receives a harassment complaint shall promptly notify the Title IX Coordinator.

Once notified, the Title IX Coordinator shall ensure the complaint or allegation is addressed through AR 4119.12/4219.12/4319.12 – Title IX Sexual Harassment Complaint Procedures or AR 4030- Nondiscrimination in Employment, as applicable. Because a complaint or allegation that is dismissed or denied under the Title IX complaint procedure may still be subject to consideration under state law, the Title IX Coordinator shall ensure that any implementation of AR 4119.12/4219.12/4319.12 concurrently meets the requirements of AR 4030.

Notwithstanding the above, BP/AR 4119.12/4219.12/4319.12 and 4030 shall under no circumstances be used to resolve complaints brought by, on behalf of, or against students. All complaints brought by, on behalf of, or against students that allege “sexual harassment” as that term is defined in the federal regulations implementing Title IX of the Education Amendments of 1972 (see 34 C.F.R. § 106, et seq.) shall be investigated and resolved under BP/AR 5145.71. All complaints brought by, on behalf of, or against students that do not meet the definition of “sexual harassment” as set forth in the Title IX implementing regulations shall be investigated and resolved under BP/AR 1312.3.

(cf. 4119.12/4219.12/4319.12 - Title IX Sexual Harassment Complaints)

The Title IX Coordinator shall offer supportive measures to the complainant and respondent, as deemed appropriate under the circumstances.

Upon investigation of a sexual harassment complaint, any district employee who engages, or participates in sexual harassment, or who aids, abets, incites, compels, or coerces another to commit sexual harassment in violation of this policy is subject to disciplinary action, up to and including dismissal, in accordance with law and the applicable collective bargaining agreement.

(cf. 4117.7/4317.7 - Employment Status Reports) (cf. 4118 - Dismissal/Suspension/Disciplinary Action) (cf. 4218 -

Regulation 4119.12: Title IX Sex Discrimination and Sex-Based Harassment Complaint Procedures

The complaint procedures described in this administrative regulation shall be used to address any complaint governed by Title IX of the Education Amendments of 1972 alleging that a district employee, while in an education program or activity in which a district school exercises substantial control over the context and respondent, was subjected to one or more of the following forms of sexual harassment: (34 CFR 106.30, 106.44)

1. A district employee conditioning the provision of a district aid, benefit, or service on a person's participation in unwelcome sexual conduct
2. Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the district's education program or activity
3. Sexual assault, dating violence, domestic violence, or stalking as defined in 20 USC 1092 or 34 USC 12291 (cf. 4119.11/4219.11/4319.11 - Sexual Harassment)

All other sexual harassment complaints or allegations shall be investigated and resolved in accordance with AR 4030

- Nondiscrimination in Employment. The determination of whether the allegations meet the definition of sexual harassment under Title IX shall be made by the district's Title IX Coordinator.

(cf. 4030 - Nondiscrimination in Employment)

Because the complainant has a right to pursue a complaint under AR 4030 for any allegation that is dismissed or denied under the Title IX complaint procedure, the Title IX Coordinator shall ensure that all requirements and timelines for AR 4030 are concurrently met while implementing the Title IX procedure.

Reporting Allegations/Filing a Formal Complaint

An employee who is the alleged victim of sexual harassment may submit a report of sexual harassment to the district's Title IX Coordinator using the contact information listed in AR 4119.11/4219.11/4319.11 - Sexual Harassment or to the employee's direct supervisor or other district administrator, who shall forward the report to the Title IX Coordinator within one day of receiving the report. Upon receiving such a report, the Title IX Coordinator shall inform the complainant of the right to file a formal complaint and the process for filing a formal complaint.

A formal complaint, with the complainant's physical or digital signature, may be filed with the Title IX Coordinator in person, by mail, by email, or by any other method authorized by the district. (34 CFR 106.30)

Even if the alleged victim chooses not to file a formal complaint, the Title IX Coordinator shall file a formal complaint in situations when a safety threat exists. In addition, the Title IX Coordinator may file a formal complaint in other situations as permitted under the Title IX regulations, including as part of the district's obligation to not be deliberately indifferent to known allegations of sexual harassment. In such cases, the Title IX Coordinator shall provide the alleged victim notices as required by the Title IX regulations at specific points in the complaint process.

The Title IX Coordinator, investigator, decision-maker, or a facilitator of an informal resolution process shall not have a conflict of interest or bias for or against complainants or respondents generally or an individual complainant or respondent. Such persons shall receive training in accordance with 34 CFR 106.45. (34 CFR 106.45)

Supportive Measures

Upon receipt of a report of Title IX sexual harassment, the Title IX Coordinator shall promptly contact the complainant to discuss the availability of supportive measures and shall consider the complainant's wishes with respect to the supportive measures implemented. Supportive measures shall be offered as appropriate, as reasonably available, and without charge to the complainant or the respondent before or after the filing of a formal complaint or where no formal complaint has been filed. Such measures shall be nondisciplinary, nonpunitive, and not unreasonably burden the other party, including measures designed to protect the safety of all parties or the district's educational environment or to deter sexual harassment. Supportive measures may include, but are not limited to, counseling, extensions of deadlines, modifications of work schedules, mutual restrictions on contact, changes in work locations, leaves of absence, increased security, and monitoring of certain areas of the campus. (34 CFR 106.30, 106.44)

The district shall maintain as confidential any supportive measures provided to the complainant or respondent, to the extent that maintaining such confidentiality would not impair the district's ability to provide the supportive measures. (34 CFR 106.30)

Emergency Removal

If a district employee is the respondent, the employee may be placed on administrative leave during the pendency of the formal complaint process. (34 CFR 106.44)

If the respondent is a student, the district may, on an emergency basis, remove the student from the district's education program or activity, provided that the district conducts an individualized safety and risk analysis, determines that removal is justified due to an immediate threat to the physical health or safety of any student or other individual arising from the allegations, and provides the student with notice and an opportunity to challenge the decision immediately following the removal. This authority to remove a student does not modify a student's rights under the Individuals with Disabilities Education Act or Section 504 of the Rehabilitation Act of 1973. (34 CFR 106.44)

Dismissal of Complaint

The Title IX Coordinator shall dismiss a formal complaint if the alleged conduct would not constitute sexual harassment as defined in

34 CFR 106.30 even if proved. The Title IX Coordinator shall also dismiss any complaint in which the alleged conduct did not occur in the district's education program or activity or did not occur against a person in the United States, and may dismiss a formal complaint if the complainant notifies the district in writing that the complainant would like to withdraw the complaint or any allegations in the complaint, the respondent is no longer employed by the district, or sufficient circumstances prevent the district from gathering evidence sufficient to reach a determination with regard to the complaint. (34 CFR 106.45)

Upon dismissal, the Title IX Coordinator shall promptly send written notice of the dismissal and the reasons for the dismissal simultaneously to the parties and shall inform them of their right to appeal the dismissal of a formal complaint or any allegation in the complaint in accordance with the appeal procedures described in the section "Appeals" below. (34 CFR 106.45)

If a complaint is dismissed, the conduct may still be addressed pursuant to AR 4030 - Nondiscrimination in Employment as applicable.

Informal Resolution Process

When a formal complaint of sexual harassment is filed, the district may offer an informal resolution process, such as mediation, at any time prior to reaching a determination regarding responsibility. The district shall not require a party to participate in the informal resolution process or to waive the right to an investigation and adjudication of a formal complaint. (34 CFR 106.45)

The district may facilitate an informal resolution process provided that the district: (34 CFR 106.45)

1. Provides the parties with written notice disclosing the allegations, the requirements of the informal resolution process, the right to withdraw from the informal process and resume the formal complaint process, and any consequences resulting from participating in the informal resolution process, including that records will be maintained or could be shared.
2. Obtains the parties' voluntary, written consent to the informal resolution process

Written Notice

If a formal complaint is filed, the Title IX Coordinator shall provide the known parties with written notice of the following: (34 CFR 106.45)

1. The district's complaint process, including any informal resolution process
2. The allegations potentially constituting sexual harassment with sufficient details known at the time, including the identity of parties involved in the incident if known, the conduct allegedly constituting sexual harassment, and the date and location of the alleged incident if known. Such notice shall be provided with sufficient time for the parties to prepare a response before any initial interview. If, during the course of the investigation, new Title IX allegations arise about the complainant or respondent that are not included in the initial notice, the Title IX Coordinator shall provide notice of the additional allegations to the parties.
3. A statement that the respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility is made at the conclusion of the complaint process
4. The opportunity for the parties to have an advisor of their choice who may be, but is not required to be, an attorney, and the ability to inspect and review evidence
5. The prohibition against knowingly making false statements or knowingly submitting false information during the complaint process

The above notice shall also include the name of the investigator, facilitator of an informal process, and decision-maker and shall inform the parties that, if at any time a party has concerns regarding conflict of interest or bias regarding any of these persons, the party should immediately notify the Title IX Coordinator.

Investigation Procedures

During the investigation process, the district's designated investigator shall: (34 CFR 106.45)

1. Provide an equal opportunity for the parties to present witnesses, including fact and expert witnesses, and other inculpatory and

exculpatory evidence

2. Not restrict the ability of either party to discuss the allegations under investigation or to gather and present relevant evidence
3. Provide the parties with the same opportunities to have others present during any grievance proceeding, including the opportunity to be accompanied to any related meeting or proceeding by the advisor of their choice, who may be, but is not required to be, an attorney
4. Not limit the choice or presence of an advisor for either the complainant or respondent in any meeting or grievance proceeding, although the district may establish restrictions regarding the extent to which the advisor may participate in the proceedings as long as the restrictions apply equally to both parties
5. Provide, to a party whose participation is invited or expected, written notice of the date, time, location, participants, and purpose of all investigative interviews or other meetings, with sufficient time for the party to prepare to participate
6. Send in an electronic format or hard copy to both parties and their advisors, if any, the evidence obtained as part of the investigation that is directly related to the allegations raised in the complaint, and provide the parties at least 10 days to submit a written response for the investigator to consider prior to the completion of the investigative report
7. Objectively evaluate all relevant evidence, including both inculpatory and exculpatory evidence, and determine credibility in a manner that is not based on a person's status as a complainant, respondent, or witness
8. Create an investigative report that fairly summarizes relevant evidence and, at least 10 days prior to the determination of responsibility, send to the parties and their advisors, if any, the investigative report in an electronic format or a hard copy, for their review and written response

Questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant, unless such questions and evidence are offered to prove that someone other than the respondent committed the conduct alleged by the complainant or if the questions and evidence concern specific incidents of the complainant's prior sexual behavior with respect to the respondent and are offered to prove consent. (34 CFR 106.45)

Privacy rights of all parties to the complaint shall be maintained in accordance with applicable state and federal laws.

If the complaint is against an employee, rights conferred under an applicable collective bargaining agreement shall be applied to the extent they do not conflict with the Title IX requirements.

Written Decision

The Superintendent shall designate an employee as the decision-maker to determine responsibility for the alleged conduct, who shall not be the Title IX Coordinator or a person involved in the investigation of the matter. (34 CFR 106.45)

After the investigative report has been sent to the parties but before reaching a determination regarding responsibility, the decision-maker shall afford each party the opportunity to submit written, relevant questions that the party wants asked of any party or witness, provide each party with the answers, and allow for additional, limited follow-up questions from each party.

The decision-maker shall issue, and simultaneously provide to both parties, a written decision as to whether the respondent is responsible for the alleged conduct. (34 CFR 106.45)

The written decision shall be issued within 60 calendar days of the receipt of the complaint.

The timeline may be temporarily extended for good cause with written notice to the complainant and respondent of the extension and the reasons for the action. (34 CFR 106.45)

In making this determination, the decision-maker shall use the "preponderance of the evidence" standard for all formal complaints of sexual harassment. (34 CFR 106.45)

The written decision shall include the following: (34 CFR 106.45)

1. Identification of the allegations potentially constituting sexual harassment as defined in 34 CFR 106.30

2. A description of the procedural steps taken from receipt of the formal complaint through the written decision, including any notifications to the parties, interviews with parties and witnesses, site visits, methods used to gather other evidence, and hearings held if the district includes hearings as part of the grievance process
3. Findings of fact supporting the determination
4. Conclusions regarding the application of the district's code of conduct or policies to the facts
5. A statement of, and rationale for, the result as to each allegation, including a decision regarding responsibility, any disciplinary sanctions the district imposes on the respondent, and whether remedies designed to restore or preserve equal access to the district's educational program or activity will be provided by the district to the complainant
6. The district's procedures and permissible bases for the complainant and respondent to appeal

Appeals

Either party may appeal the district's decision or dismissal of a formal complaint or any allegation in the complaint, if the party believes that a procedural irregularity affected the outcome, new evidence is available that could affect the outcome, or a conflict of interest or bias by the Title IX Coordinator, investigator(s), or decision-maker(s) affected the outcome. If an appeal is filed, the district shall: (34 CFR 106.45)

1. Notify the other party in writing when an appeal is filed and implement appeal procedures equally for both parties
2. Ensure that the decision-maker(s) for the appeal is trained in accordance with 34 CFR 106.45 and is not the same decision-maker(s) who reached the determination regarding responsibility or dismissal, the investigator(s), or the Title IX Coordinator
3. Give both parties a reasonable, equal opportunity to submit a written statement in support of, or challenging, the outcome
4. Issue a written decision describing the result of the appeal and the rationale for the result
5. Provide the written decision simultaneously to both parties

An appeal must be filed in writing within 10 calendar days of receiving the notice of the decision or dismissal, stating the grounds for the appeal and including any relevant documentation in support of the appeal. Appeals submitted after this deadline are not timely and shall not be considered.

A written decision shall be provided to the parties within 20 calendar days from the receipt of the appeal.

Either party has the right to file a complaint with the U.S. Department of Education's Office for Civil Rights within 180 days of the date of the most recently alleged misconduct.

The complainant shall be advised of any civil law remedies, including, but not limited to, injunctions, restraining orders, or other remedies or orders that may be available under state or federal antidiscrimination laws, if applicable.

Remedies

When a determination of responsibility for sexual harassment has been made against the respondent, the district shall provide remedies to the complainant. Such remedies may include the same individualized services described above in the section "Supportive Measures," but need not be nondisciplinary or nonpunitive and need not avoid burdening the respondent. (34 CFR 106.45)

Disciplinary Actions

The district shall not impose any disciplinary sanctions or other actions against a respondent, other than supportive measures as described above in the section "Supportive Measures," until the complaint procedure has been completed and a determination of responsibility has been made. (34 CFR 106.44)

When an employee is found to have committed sexual harassment or retaliation, the district shall take appropriate disciplinary action, up to and including dismissal, in accordance with applicable law and collective bargaining agreement.

(cf. 4117.7/4317.7 - Employment Status Report)

(cf. 4118 - Dismissal/Suspension/Disciplinary Action) (cf. 4119.11/4219.11/4319.11 - Sexual Harassment) (cf. 4218 - Dismissal/Suspension/Disciplinary Action)

Record-Keeping

The Superintendent or designee shall maintain, for a period of seven years: (34 CFR 106.45)

1. A record of all reported cases and Title IX investigations of sexual harassment, any determinations of responsibility, any audio or audiovisual recording and transcript if applicable, any disciplinary sanctions imposed, any remedies provided to the complainant, and any appeal or informal resolution and the results therefrom.
2. A record of any actions, including supportive measures, taken in response to a report or formal complaint of sexual harassment, including the district's basis for its conclusion that its response was not deliberately indifferent, the measures taken that were designed to restore or preserve equal access to the education program or activity, and, if no supportive measures were provided to the complainant, the reasons that such a response was not unreasonable in light of the known circumstances.
3. All materials used to train the Title IX Coordinator, investigator(s), decision-maker(s), and any person who facilitates an informal resolution process. The district shall make such training materials publicly available on its web site, or if the district does not maintain a web site, available upon request by members of the public.

(F) School-wide Dress Code Relating to Gang-Related Apparel (EC 35183)

Board Policy 5132.16: Student Dress Guidelines

Last Revised Date: 05/12/1998

The Governing Board believes that appropriate dress and grooming contribute to a productive learning environment. The Board expects students to give proper attention to personal cleanliness and to wear clothes that are suitable for the school activities in which they participate. Students' clothing must not present a health or safety hazard or a distraction which would interfere with the educational process.

Students and parents/guardians shall be informed about dress and grooming standards at the beginning of the school year and whenever these standards are revised. A student who violates these standards shall be subject to appropriate disciplinary action.

Gang-Related Apparel

The principal, staff and parents/guardians at a school may establish a reasonable dress code that prohibits students from wearing gang-related apparel when there is evidence of a gang presence that disrupts or threatens to disrupt the school's activities. Such a dress code may be included as part of the school safety plan and must be presented to the Board for approval. The Board shall approve the plan upon determining that it is necessary to protect the health and safety of the school's students.

Uniforms

The Board recognizes that, in order to promote student safety and discourage peer rivalry and/or gang activity, the principal, staff and parent/guardian at a school site may wish to establish a reasonable dress code, which may include voluntary school uniforms.

Dress codes, which include voluntary school uniforms, may be included as part of the school safety plan submitted as required.

The Superintendent or designee shall establish procedures that schools, parents and guardians will follow if they decide to participate with the voluntary school uniform policy. Students shall not be penalized academically, otherwise discriminated against or denied attendance to school if their parents/guardian decide not to participate.

Administrative Regulation 5132.16

Last Revised Date: 1/29/2002

he Governing Board feels that there is nothing inherently wrong with dress or color of dress, but when student's dress serves to intimidate or impede the rights of other students it will be determined that dress is in violation of this policy. A student may not remain at school dressed in a manner which (1) creates a safety hazard for said student or for other students at school, and/or (2) when the dress constitutes a serious and unnecessary distraction to the learning process or tends to disrupt campus order

When the site administrator/designee determines that a student's attire is in violation of this policy, the student will be required to modify his/her clothing and/or apparel in such a manner that it no longer violates this policy. If necessary, the student may be taken or sent home with parental permission to modify unacceptable dress and return to school. Refusal to take steps as described in this policy shall be cause for disciplinary action against the student. Any such disciplinary action shall be handled pursuant to existing student disciplinary policy

Parents/guardians have primary responsibility to see that students are properly attired for school. School district personnel have the responsibility for maintaining proper and appropriate conditions conducive to learning. Hence, the following guidelines will be implemented in all district schools.

1. Shoes will be worn at all times. A substantial sole is required and enclosed toe and heel footwear are highly encouraged.
2. Extremely brief garments that are distracting to the educational environment are not appropriate. Clothing shall be sufficient to conceal undergarments at all times.
3. Clothing or accessories shall be free of writing, pictures or any other insignia which are crude, violent, obscene or sexually suggestive or which advocate racial, ethnic or religious prejudice or the use of tobacco, drugs or alcohol.
4. Earrings, jewelry, or accessories which present a safety hazard to the wearer or others are not suitable for school wear.
5. Only prescription sunglasses may be worn in class. Other types of sunglasses may be worn on campus outside of class.
6. Identified gang attire such as bandannas, haircuts or hair rollers, or any gang paraphernalia are prohibited.

Students are allowed to wear sun protective clothing, including hats, while outdoors during the school day. Each school site will develop a policy indicating the type of sun protective hats that are permitted.

No grade of a student participating in a physical education class shall be adversely affected if the student does not wear standardized physical education apparel because of circumstances beyond the student's control. (Education Code 49066) All clothing worn during physical education shall meet reasonable safety standards.

The purpose of adopting these Student Dress Guidelines is not to infringe on any individual student's rights to freedom of expression, but rather to encourage students to dress appropriately and come to school properly prepared for participating in the educational process.

Gang-Related Apparel

Because gang-related symbols are constantly changing, definitions of gang-related apparel shall be reviewed as needed and updated as necessary.

Uniforms

In schools where a majority of parents respond and indicate on a survey that they desire to establish a voluntary school-wide uniform dress code, the principal, staff and the parents/guardians of the individual school site shall:

1. Jointly select the specific uniform to be worn. (Education Code 35183)
2. Describe the uniform parts and identify local vendors who sell those pieces of clothing. A description of the implementation of the voluntary uniform dress code will be submitted to the superintendent's designee including:
 - a. The process for parent notification
 - b. Positive procedures that will be used to encourage students to participate with the voluntary uniform dress code
3. A description of the uniform and a list of costs for each competitively priced item of clothing as provided by a variety of vendors will be sent to parents.

4. Parents will be notified that this is a voluntary uniform dress code and that students not participating shall not be penalized academically, otherwise discriminated against or denied attendance to school if their parents/guardians so decide.

Parent Notification

The principal shall give parents/guardian at least six months notice before a school site implements a voluntary school uniform dress code. (Education Code 35183)

(G) Procedure for Safe Ingress and Egress of Pupils, Parents, and Staff to and from School (EC 35294.2)

Arrival and Dismissal Guidelines

1. Students are expected to come directly to school via the safest possible route. All students must leave campus to go directly home once dismissed. On the way to and from school, students are to obey all school and traffic rules and to conduct themselves in a courteous manner. On the way to and from school, students are held accountable to Franklin's Code of Conduct and discipline policy.
2. School grounds are closed until 15 minutes before school starts. This means students should not arrive until 7:30am unless they are participating in the breakfast program.
3. All students are to enter campus via the North gate (on Division Street) or the main gate at the front of the school (off of Stillman Avenue) and are to head directly to the cafeteria for breakfast (between 7:20am-7:30am) or to the playground (between 7:30am-7:40am). Classroom teachers will escort their classes to their room before the starting bell rings. Parents are encouraged to establish a routine of saying good-bye to their students at the gate. This is for security reasons. If you need to enter campus, you must bring photo identification into the office, be entered into the Raptor system and have district approved volunteer status (See Volunteer Process on district website). Preschool, Transitional Kindergarten and Kindergarten students (only) will enter through entry gate 1. First through fifth grade students will enter the main gate or off of Division Street.
4. Franklin's parking lot is designed for bus loading/unloading zones, staff parking, and licensed handicap parking only. Parents are to drop-off and pick-up their students on Stillman Avenue or Division Street. Parents who drive their children to or from school must park on the street and use the marked crosswalks and corners to walk across the street. PLEASE DO NOT CALL YOUR CHILDREN INTO THE TRAFFIC, PARKING LOTS, OR BUS LANES. SPEED LIMITS SHOULD BE FOLLOWED AT ALL TIMES; ESPECIALLY WHEN CHILDREN ARE PRESENT. Help us keep our children safe. We ask that you are courteous to our surrounding neighbors by keeping driveways clear; especially as you wait to pick up your child(ren) after school.
5. Bicycle privileges are extended to Franklin students. Students must observe all traffic and bicycle safety rules. Helmets must be worn at all times. A bicycle will not be released to a student unless they have a helmet at school. Students should not touch or tamper with another student's bicycle. All bicycles should be individually locked.
6. Children will only be permitted to leave the school grounds during school hours after a designated adult has signed them out through the school office with appropriate identification. Children will not be released to anyone who is not listed on the Emergency Card.
7. Any bus rider must ride his/her assigned bus and is not allowed to walk home (or other), unless a written note from the parent/guardian is given to the front office. Changes in routine for any student must be made known to the front office personnel.

The exterior of the campus was painted during the 2018/2019 school year. The maintenance issues are identified through daily safety walks as documented in Progress Adviser. Repairs and upgrades are requested through an online work order request system, School Dude, which alerts the district's Maintenance and Operations Department.

Internal Security Procedures

Franklin Elementary School has established procedures in the following areas: California Safe School Assessment (CSSA) reporting procedures, suspension and expulsion procedures, inventory system, and Upon entering the single point of entry (school office) visitors are required to check in and check out via the RAPTOR program. Visitors are required to produce valid government identification processed through the Megan's Law information system via RAPTOR. District-wide lockdown procedures, annual updates to the Comprehensive School Safety Plan as well as Safety Committee meetings occur regularly. It is at these meetings as well as at School Site Council (SSC) where revisions to the plan and discussions regarding ongoing safety concerns on campus are reviewed.

Franklin Elementary School crime statistics reflect a total of 0 crimes reported during the 2023-2024 school year.

Keeping reportable crimes at a minimum requires constant vigilance. The following strategies will be utilized in achieving this goal : (1) maintaining close supervision before and after school, at recess and during lunch, (2) administrators visit classrooms daily and strategically create positive relationships with all students, (3) individual, small group and counseling is provided from two full-time school counselors, (4) implementation of Restorative Practice protocols to build student capacity for emotional growth and positive relationships, (5) the implementation of IEPs, 504 accommodation plans and weekly meetings with administration, (6) special education and school counselors are systems to support the most vulnerable students and proactively provide support for struggling students, (7) Franklin Elementary administration and staff lock gates and classroom doors during the school day, enforce the district boundary policy, post SEE SOMETHING, SENSE SOMETHING, SAY SOMETHING posters in all classrooms and public areas, implement lock down drills, fire and earthquake drills, (8) Franklin has implemented a Hall Pass Policy to ensure that students have a legitimate educational purpose to leave their classroom and head to another location on campus, and (9) Micro trainings on BP 4019.1 will occur throughout the school year on Sexual Abuse Prevention/Grooming.

(I) School Discipline Rules and Consequences (EC 35291 and EC 35291.5)

Franklin Elementary School Student Conduct Code

Procedures to Ensure a Safe and Orderly Environment

Rules and Procedures on School Discipline

Philosophy of Discipline

- Behavior expectations and the consequences for not meeting expectations must be clearly communicated to all students and their parents (in writing as well as verbally).
- The severity of consequences for violating behavior expectations increases with each incident of inappropriate behavior.
- The consequences for violating behavior expectations should be severe enough to discourage students from making poor behavior decisions.
- Expectations and consequences should permit students an opportunity to eliminate inappropriate behavior.

Additionally, the school staff recognizes that the middle school years are a transition time from adolescence to young adulthood. As a part of this transition, the student is given greater opportunities to be responsible and demonstrate independence and good judgment. The structure of our behavior expectations (in the classroom as well as school wide) is meant to encourage students to be responsible. The first step in many instances of inappropriate behavior (those considered to be "minor") is a simple warning ("Your behavior is unacceptable. Please stop such behavior"). It is only when a student ignores such warnings and continues to choose to act irresponsibly (like a child rather than an emerging adult) that we involve parents and implement consequences.

Elements of a Good Discipline Program

1. The program is focused upon making the entire campus, especially the classroom, a safe, supportive and orderly environment for learning for students and staff.
2. Classroom authority is retained by the classroom teacher. (Administration's role is to support, not to replace.)
3. Rules and procedures are clearly understood by staff and students.
4. All staff members will acknowledge and take appropriate action on any minor or major infraction of the school rules.
5. Rules and procedures comply with State Law and District policies.
6. The program recognizes the responsibilities and the rights of students and staff.
7. Program is structured to keep students in class and engaged in the educational process.
8. Rules are enforced:
 - A. by all staff members at all times.
 - B. strictly, but not rigidly (beware of "automatics").
 - C. in substantial part by adult modeling.
 - D. using techniques that promote the growth of positive self-esteem.
 - E. as close to the source as is possible.
 - F. by keeping parents informed.
9. The discipline program is understood, endorsed, and supported by staff, parents, and students.

PRINCIPAL'S STATEMENT TO FRANKLIN'S STAFF

Expectations in Developing & Maintaining Discipline

As Principal of our school, I will expect;

Each teacher to have a defined system of classroom management. A written description of this system, including representative examples of the progressive interventions you intend to employ, will be approved and filed by me.

Whenever possible and appropriate, teachers are encouraged to use standards and systems that are consistent with other village/department members.

You can expect;

Each administrator to assist and support you in every reasonable way in developing, implementing, and refining that system as needed.

I will expect

That when you refer a student for discipline:

1. The student has been made fully aware of classroom and school rules and knows what rules he/she has violated.
2. Teachers within a village will discuss any continuing behavior problems and schedule a team conference with the student and parents when appropriate.
3. That information will be provided on the referral regarding previous actions you have taken regarding this specific issue.
4. You have exhausted the interventions at your disposal (i.e., you have done everything you can do) and you have followed the guidelines established by the administration and staff on what constitutes an appropriate behavior referral.
5. The behavior was so serious or so blatant as to make immediate removal from the classroom necessary.
6. The written referral will be explicit in stating the offense(s).
7. You will send the student out of class with a referral only if his/her continued presence in the class would disrupt or prevent teaching and/or learning.
8. If necessary, the referral will be delivered to the office at a time convenient to the staff member so that the issue may be handled most efficiently, causing a minimum of lost class time.

You can expect

1. Each administrator to support your position in every reasonable way.
2. A response time on your referral of one, or at most, two days.
3. The availability of an administrator to discuss unresolved referrals after school on any given day.
4. That the administrator will exercise independent judgment regarding disposition of referrals.

I will expect

1. That each teacher will go to the doorway of his/her classroom after each class period as often as possible and assume control of student behavior in the corridor.
2. That each staff member will hold students accountable for their behavior on the school grounds at all times.

You can expect

1. Administrator support, investigation, and follow-through as indicated.
2. A response to referrals from incidents outside the classroom to be the same as to those within.

Rebecca Acosta, Ed.D.
Principal

WHAT TO DO WHEN PROBLEMS APPEAR

Both behavioral and academic problems are present in some of our students. Teachers often ask for guidelines for dealing with these problems. Here they are:

1. Talk to the administrator assigned to your grade level.
2. Call parents at first sign of concern. Inform the parents of your observations, ask for their ideas, assistance, and support in serving the student. Keep a log of your calls.
3. If possible, talk privately to the student about your concerns.
4. Behavior concerns—look through students' CUM file. Any official suspensions will be in file, also look for teacher comments on report cards. Look for patterns of behavior. We use In-House Suspension whenever possible, as it is preferable to having students at home unattended—and it saves the district money. Serious infractions (fighting, threats, etc.) do result in official suspension. Unresponsive students can be moved to other schools or expelled.
5. Referrals—please remember if you write a student referral, you are required to call the parents. You are writing the referral and can answer the parents' questions firsthand. Administrators will also call parents, but can only provide secondhand information on the incident.
6. Academic Concerns—again, look through student CUM. This will contain test scores, report cards, and a student history. You may want to ask the grade level administrator to schedule a Intervention Support Team (IST). This will involve a meeting with the student, parents, administrator/administrator designee, students' teachers, and perhaps the psychologist.

Conduct Code Procedures

(K) Hate Crime Reporting Procedures and Policies

School Safety Strategy:

Procedures, programs and strategies used to help eliminate problems of bias or unfair treatment of pupils by staff and by peers because of ethnic group, gender, race, national origin, social class, religion, disability, sexual orientation, physical appearance, color, ancestry, parental status, or other relevant characteristics. The school provides a way for each pupil to safely report and, be protected after reporting, troubling behaviors that the pupil thinks may lead to dangerous situations, such as potential school violence.

Nondiscrimination and Fair Treatment of Pupils

A major source of conflict in many schools is the perceived or real problem of bias and unfair treatment of students because of ethnicity, gender, race, social class, religion, disability, nationality, sexual orientation, physical appearance, or some other factor. Effective schools convey the attitude that all children can achieve academically and behave appropriately, while at the same time appreciating individual differences. Effective schools communicate to students and the greater community that all children are valued and respected. In order to maximize the successful education of all students and help them become productive citizens and lifelong

learners in a diverse society, all individuals including student, parents, staff and community members:

- Shall be treated with dignity, respect and fairness;
- Shall encourage and maintain high expectations;
- Shall model an appreciation for socio-economic, cultural, ethnic, gender and religious diversity; and
- Shall contribute to an environment of mutual respect, caring and cooperation.

Students, parents, staff and community members shall join together to share a sense of belonging and take pride in our schools, facilities and programs through participation and cooperation in support of the education of all students. A copy of the "Parent Student Handbook" is provided to each parent/student annually or upon enrollment. This handbook includes information pertaining to student rights to physical safety, to the protection of personal property, to respect from adults, and to be free of discrimination on the basis of gender, race, color, religion, ancestry, national origin, ethnic group, marital or parental status, physical or mental disability, sexual orientation or the perception of one or more of such characteristics. The District's policies on nondiscrimination and sexual harassment support these protections and serve to promote the fair treatment of all children.

Ways to Report:

At Franklin Elementary School, 6-1 signs include information pertaining to See Something, Say Something; Bullying Reporting; Sexual Harassment/Title IX; Williams Complaint Process and the Uniform Complaint Procedure which are placed in visible location in buildings/classrooms at all school sites. This information is also included on both the school's and district's website. Bullying Report forms are available both in the school's office and on the website (all are in Spanish & English).

(J) Procedures to Prepare for Active Shooters

Safe and Secure Mode YELLOW (Limit Outside Movement)

Safe and Secure Mode is a security procedure used to reduce student and staff movement outside school buildings. This may be due to a medical emergency, area disturbance, isolated site disturbance, etc. It is designed to allow for school to carry forward but have the ability to move to Lockdown quickly if needed. During the Safe and Secure mode, there is heightened vigilance on campus by all school staff.

Generally, recesses and outdoor activities are reduced. Parents/guardians can have access to their student(s) and may check them out of school if they see fit to do so.

? Teachers should continue teaching as normal

? Allow students restroom use with clear administrator/ teacher direction

? Increased available staff presence during passing periods and student dismissal

? Lunch/activities monitored more closely for movement outside of lunch area, unless site admin decides otherwise

? Standard inclement weather schedule/routine in place, unless site administrator/designee decides otherwise

? Perimeter gates, where applicable, will be locked and monitored by available staff, allowing for central access points

? PE classes will be monitored more closely for movement outside of PE area; classes may be moved off all fields into more secure locations (e.g., gym, class, & MPR)

Lock Down ORANGE (Prevent All Outside Movement)

Lock Down is called when a law enforcement event is happening in the vicinity of a school or on campus. With the support of law enforcement, a school site will call a Lock Down as a precautionary measure. This means all students and staff must stay inside behind locked doors; however, it does not mean that there is an active threat occurring on campus.

- ? Take a look outside your classroom and gather up any stray students in the hallways
- ? Ensure that your door is locked
- ? Project a calm demeanor to help students remain calm; reassure students that they are safe
- ? Do not allow anyone to leave the classroom
- ? Staff and parents/guardians frequently check their emails for updates from their site administrators
- ? If students are out on the playground or athletic fields, quickly move them to a secure classroom, locker room, or multi-purpose room
- ? Teachers continue to keep students engaged in learning

Critical Alert RED (Locks, Lights, Out of Sight)

Critical Alert is called when a significant, threatening event is happening on campus or adjacent to campus that creates a potential danger to students and staff. While this may be communicated to the school by law enforcement, it may also be determined by school officials on the scene. Critical Alert assumes that everyone is prepared for a potential significant threat/event on campus.

- ? Turn off or reduce lighting, so it will appear that the room is vacant
- ? Keep all students sitting on the floor, away from the door or windows
- ? Do not look out the windows
- ? Advise the students that there is a serious situation; project a calm demeanor and reassure students that you are taking steps to keep them safe
- ? Ensure that everyone in the room turns the ringer off on their cell phones
- ? Do not allow students to talk on their cell phones (keep room as quiet as possible)
- ? Limit calls to the school office; phones are being used to communicate with parents/guardians and first responders
- ? Quietly take roll and make a list of missing students and any extra students that are in your room. Email this list to your administrators and school site secretaries
- ? When staff determines, they will direct the evacuation of students they oversee to the designated area; each staff will make this determination based on their specific situation
- ? Do not open the door, even if someone knocks and claims to be a staff member (administrator/custodian will have a master key)
- ? If students are out on the PE field, do not return them to the locker room. Move them to a safe place (this may be the farthest part of the campus or off campus); Staff must remain with students until reunification

Procedures for Preventing Acts of Bullying and Cyber-bullying

Policy 5131.2: Bullying

Original Adopted Date: 12/10/2019 | Last Reviewed Date: 12/10/2019

The Governing Board recognizes the harmful effects of bullying on student well-being, student learning and school attendance and desires to provide a safe school environment that protects students from physical and emotional harm. No individual or group shall, through physical, written, verbal, or other means, harass, sexually harass, threaten, intimidate, cyberbully, cause bodily injury to, or commit hate violence against any other student or school personnel, or retaliate against them for filing a complaint or participating in the complaint resolution process.

The Superintendent or designee shall develop strategies for addressing bullying in district schools with the involvement of students, parents/guardians, and staff. As appropriate, the Superintendent or designee may also collaborate with social services, mental health services, law enforcement, courts, and other agencies and community organizations in the development and implementation of effective strategies to promote safety in schools and the community.

Such strategies shall be incorporated into the comprehensive safety plan and, to the extent possible, into the local control and accountability plan and other applicable district and school plans.

Any complaint of bullying shall be investigated and, if determined to be discriminating, resolved in accordance with law and the district's uniform complaint procedures specified in AR 1312.3 - Uniform Complaint Procedures. If, during the investigation, it is determined that a complaint is about nondiscriminatory bullying, the principal or designee shall inform the complainant and shall take all necessary actions to resolve the complaint.

Any employee who permits or engages in bullying or retaliation related to bullying shall be subject to disciplinary action, up to and including dismissal.

Definitions

Bullying is an unwanted, aggressive behavior that involves a real or perceived imbalance of power between individuals with the intent to cause emotional or physical harm. Bullying can be physically, verbally, or socially/relationally harmful and involves repetition or potential repetition of a deliberate act. Bullying can involve intimidation and coercion.

Cyberbullying includes the electronic creation or transmission of harassing communications, direct threats, or other harmful texts, sounds, or images. Cyberbullying also includes breaking into another person's electronic account or assuming that person's online identity in order to damage that person's reputation. Cyberbullying can be harmful to the online reputations of everyone involved, including the person who is cyberbullying and those participating in it.

Examples of the types of conduct that may constitute bullying and are prohibited by the district include, but are not limited to: Physical bullying that inflicts harm upon a person's body or possessions, such as hitting, kicking, pinching, spitting, tripping, pushing, taking or breaking someone's possessions, or making cruel or rude hand gestures

Verbal bullying that includes saying or writing hurtful things, such as teasing, name-calling, inappropriate sexual comments, taunting, or threats to cause harm

Social/relational bullying that harms a person's reputation or relationships, such as leaving a person out of an activity on purpose, influencing others not to be friends with someone, spreading rumors, or embarrassing someone in public

Cyberbullying, such as sending demeaning or hateful text messages or emails, sending or spreading online rumors by email or by posting them on social networking sites or apps, posting embarrassing or explicit photos or videos online or on apps, or creating fake profiles can also be considered cyberbullying.

Measures to Prevent Bullying

The Superintendent or designee shall implement measures to prevent bullying in district schools, including, but not limited to, the following:

Ensuring that each school establishes clear rules for student conduct and implements strategies to promote a positive, collaborative school climate

Providing to students, through student handbooks and other age-appropriate means, information about district and school rules related to bullying, mechanisms available for reporting incidents or threats, and the consequences for engaging in bullying

Encouraging students to notify school staff when they are being bullied or when they suspect that another student is being bullied, and providing means by which students may report threats or incidents confidentially and anonymously

Annually notifying district employees that, pursuant to Education Code 234.1, any school staff who witnesses an act of bullying against a student has a responsibility to immediately intervene to stop the incident when it is safe to do so

Staff Development

The Superintendent or designee shall make the California Department of Education's online training module on the dynamics of bullying and cyberbullying, which includes the identification of bullying and cyberbullying and the implementation of strategies to address bullying, available annually to all certificated staff and to other employees who have regular interaction with students. (Education Code 32283.5)

The Superintendent or designee shall provide training to teachers and other school staff to raise their awareness about the legal obligation of the district and its employees to prevent discrimination, harassment, intimidation, and bullying of district students. Such training shall be designed to provide staff with the skills to:

Discuss the diversity of the student body and school community, including their varying immigration experiences

Discuss bullying prevention strategies with students, and teach students to recognize the behavior and characteristics of bullying perpetrators and victims

Identify the signs of bullying or harassing behavior

Take immediate corrective action when bullying is observed

Report incidents to the appropriate authorities, including law enforcement in instances of criminal behavior

Student Instruction

As appropriate, the district shall provide students with instruction, in the classroom or other educational settings, that promotes social-emotional learning, effective communication and conflict resolution skills, character/values education, respect for cultural and individual differences, self-esteem development, assertiveness skills, and appropriate online behavior.

The district shall also educate students about the negative impact of bullying, discrimination, intimidation, and harassment based on actual or perceived immigration status, religious beliefs and customs, or any other individual bias or prejudice.

Students should be taught the difference between appropriate and inappropriate behaviors, how to advocate for themselves, how to help another student who is being bullied, and when to seek assistance from a trusted adult. As role models for students, staff shall be expected to demonstrate effective problem-solving and anger management skills.

To discourage cyberbullying, teachers may advise students to be cautious about sharing passwords, personal data, or private photos online and to consider the consequences of making negative comments about others online.

Reporting and Filing of Complaints

Any student, parent/guardian, or other individual who believes that a student has been subjected to bullying or who has witnessed bullying may report the incident to a teacher, the principal, a compliance officer, or any other available school employee.

When a report of bullying is submitted, the principal or a district compliance officer shall inform the student or parent/guardian of the right to file a formal written complaint in accordance with AR 1312.3 - Uniform Complaint Procedures. The student who is the alleged victim of the bullying shall be given an opportunity to describe the incident, identify witnesses who may have relevant information, and provide other evidence of bullying.

Within one business day of receiving such a report, a staff member shall notify the principal of the report, whether or not a uniform complaint is filed. In addition, any school employee who observes an incident of bullying involving a student shall, within one business day, report such observation to the principal or a district compliance officer, whether or not the alleged victim files a complaint.

Within two business days of receiving a report of bullying, the principal or designee shall notify the district compliance officer identified in AR 1312.3.

When the circumstances involve cyberbullying, individuals with information about the activity shall be encouraged to save and print any electronic or digital messages that they feel constitute cyberbullying and to notify a teacher, the principal, or other employee so that the matter may be investigated. When a student uses a social networking site or service to bully or harass another student, the Superintendent or designee may file a request with the networking site or service to suspend the privileges of the student and to have the material removed.

Discipline/Corrective Actions

Corrective actions for a student who commits an act of bullying of any type may include counseling, behavioral intervention and education, and, if the behavior is severe or pervasive as defined in Education Code 48900, may include suspension or expulsion in accordance with district policies and regulations.

When appropriate based on the severity or pervasiveness of the bullying, the Superintendent or designee shall notify the parents/guardians of victims and perpetrators and may contact law enforcement.

The Superintendent, principal, or principal's designee may refer a victim, witness, perpetrator, or other student affected by an act of bullying to a school counselor, school psychologist, social worker, child welfare attendance personnel, school nurse, or other school support service personnel for case management, counseling, and/or participation in a restorative justice program as appropriate. (Education Code 48900.9)

If any student involved in bullying exhibits warning signs of suicidal thought or intention or of intent to harm another person, the Superintendent or designee shall, as appropriate, implement district intervention protocols which may include, but are not limited to, referral to district or community mental health services, other health professionals, and/or law enforcement.

Pandemic

Blood Borne Pathogen Incident Reporting Form and Exposure Control Plan

Policy 5141.22: Infectious Diseases

Last Update: 3/14/2006

The Governing Board desires to protect students from risks posed by exposure to infectious diseases while providing an appropriate education for all students.

The Superintendent or designee shall determine whether to admit a student with an infectious disease, and shall exclude students only in accordance with law. In making this determination, he/she shall consult the student's parents/guardians, the student's physician and/or the county health department, in accordance with law and consistent with confidentiality provisions. Because bloodborne pathogens such as hepatitis B virus, hepatitis C virus and human immunodeficiency virus (HIV) are not casually transmitted, the sole presence of bloodborne pathogens is not sufficient reason to exclude students from attending school.

(cf. 5141.26 - Tuberculosis Testing)

(cf. 5141.3 - Health Examinations)

(cf. 6158 - Independent Study)

(cf. 6159 -Individualized Education Program)

(cf. 6183 - Home/Hospital Instruction)

Parents/guardians are encouraged to inform the Superintendent or designee if their child has an infectious disease so that school staff may work cooperatively with the student's parents/guardians to minimize the child's exposure to other diseases in the school setting. The Superintendent or designee shall ensure that student confidentiality rights are strictly observed in accordance with law. No district employee shall release medical information, including knowledge of a bloodborne pathogen infection, without written consent from the parent/guardian or adult student. Such information shall be shared only with those persons specifically named in the written permission.

(cf. 5125 - Student Records)

(cf. 5022 -Student and Family Privacy Rights)

The Board requires students and staff to routinely observe universal precautions to prevent exposure to bloodborne pathogens and to prevent the spread of all infectious disease.

2.2. A Risk Assessment will be conducted using a team approach including the personal physician, public health personnel, the parent or guardian, and school district personnel as appropriate and will make recommendations about the type of educational and care setting based on the following:

- a. Behavior, neurological development and physical condition of the child;
- b. Type of interaction expected with others.
- c. What the potential is for exposure
- d. Areas for potential for exposure
- e. How exposure may happen
- f. Who needs to know?
- g. What will happen if there is a risk of exposure?

2.3. The team will consider the risk to others in the workplace, whether or not the individual is healthy enough to continue to attend school, and what precautions should be taken to ensure the safety and health of others.

a. The identity of infected students will remain confidential and restricted to those who need to know or are required to be informed.

2.4. Decisions on attendance at school are dependent on the circumstances of each individual case. Regular evaluation of the appropriateness of attendance will be conducted.

2.5. The Board will be notified immediately when the team considers the health condition of a student to be a danger to the immediate health and welfare of a school, its students or employees of the Board.

a. Upon being notified of the team's concern, the Board will refer the matter to the Medical Health Officer in accordance with the procedures outlined in the School Act.

3. Employees

3.1. The Superintendent will be informed, by district staff as soon as is known, of any employee infected with an infectious blood borne disease.

3.2. Employees with an infectious blood borne disease, who are able to carry out the essential duties of their jobs in a satisfactory manner without posing a health or safety risk to themselves or others, will be entitled to continue their work.

3.3. Decisions regarding potential health or safety hazards will be made on a case-by-case basis in consultation with the employee, the personal physician and district personnel as appropriate.

- a. Routinely using gloves when anticipating contact with blood
- b. Immediately washing hands and other skin surfaces after removal of gloves and/or contact with blood

4.2. Schools will be provided with appropriate protective equipment including disposable waterproof gloves (natural rubber latex, neoprene, nitrile, or vinyl), tongs or pliers and proper sharps containers.

4.3. Schools' medical room mattresses will be either vinyl-coated beds or cloth mattress with a protective vinyl (plastic) covering so that they can be cleaned as needed with a bleach solution.

4.4. Blankets can be cleaned as needed by forwarding them, in a clearly labeled plastic bag, to the Assistant Supervisor Operations at the Facilities Office.

5. Universal Precautions

5.1. Universal Precautions to prevent transmission of blood-borne disease will be followed. Universal Precautions is the term for infection control measures endorsed by the Canadian Centre for Occupational Health and Safety for workers who might come into contact with blood and other body fluids. In summary they include:

- a. Wash hands for 30 seconds after contact with blood and other body fluids contaminated with blood.
- b. Wear disposable latex gloves when you encounter blood, body fluids, or when cleaning cuts, scrapes or wounds. Wash your hands as soon as you remove your gloves. Dispose gloves in a plastic bag.
- c. Use disposable absorbent material like paper towels to stop bleeding.
- d. Discard bloodstained material in a sealed plastic bag and deposit in the garbage. Label as containing blood-tainted material.
- e. Cover cuts or scrapes with a bandage until healed.
- f. Immediately protect staff and students from coming in contact with blood-soiled surfaces. The area must be disinfected with a fresh solution of one part bleach and nine-parts water (10% bleach solution).

Mops or brushes used for cleaning should be soaked in a bleach solution for 20 minutes.

(Note: The custodial department will provide each school with the product for dissolving in water to provide the bleach solution.)

6. Identification of Risks of Occupational Exposure

6.1. In accordance with the Occupational Health and Safety Regulations (section 6.35), the district's Health & Safety Coordinator will develop and maintain a list of positions and/or tasks and procedures where there is a potential for occupational exposure to a blood borne pathogen.

6.2. Employees who have, or may have, occupational exposure to the hepatitis B virus, will upon request, receive a hepatitis B vaccination (section 6.39, OH&S Regs).

6.3. Employees who may have been exposed to a blood borne pathogen in an exposure incident will be advised to immediately seek medical attention

(Note: The custodial department will provide each school with the product for dissolving in water to provide the bleach solution.)

Blood Borne Pathogen Incident Reporting Form and Exposure Control Plan75

Blood Borne Pathogens - Safety Practices76

Comprehensive School Safety Plan Purpose

Effective January 1, 2019, Assembly Bill 1747 (Rodriguez), School Safety Plans, became law. This bill requires that during the writing and development of the comprehensive school safety plan (CSSP), the school site council or safety committee consult with a fire department and other first responder entities in addition to currently required entities. It requires the CSSP and any updates made to the plan to be shared with the law enforcement agency, the fire department, and the other first responder entities.

The California Education Code (sections 32280-32288) outlines the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school.

In 2004, the Legislature and Governor recast and renumbered the Comprehensive School Safety Plan provisions in SB 719 and AB 115. It is the intent of the Legislature in enacting the provisions to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process, that include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses.

The historical requirement of the Comprehensive School Safety Plan was presented in Senate Bill 187, which was approved by the Governor and chaptered in 1997. This legislation contained a sunset clause that stated that this legislation would remain in effect only until January 1, 2000. Senate Bill 334 was approved and chaptered in 1999 and perpetuated this legislation under the requirement of the initial legislation.

Comprehensive School Safety Plans are required under SB 719 & AB 115 and contains the following elements:

Assessment of school crime committed on school campuses and at school-related functions

- Child abuse reporting procedures
- Disaster procedures
- Suspension and expulsion policies
- Procedures to notify teachers of dangerous pupils
- Discrimination and harassment policies
- School wide dress code policies
- Procedures for safe ingress and egress
- Policies enacted to maintain a safe and orderly environment
- Rules and procedures on school discipline
- Hate crime reporting procedures

The Comprehensive School Safety Plan will be reviewed and updated by March 1st every year. In July of every year, the school will report on the status of its school safety plan including a description of its key elements in the annual school accountability report card.

A copy of the Comprehensive School Safety Plan is available for review at 7700 Orange St, Highland, CA 92346.

Safety Plan Vision

Highland Grove Elementary School will provide a safe, orderly, and secure environment conducive to learning. Highland Grove Elementary School will develop a plan to work cooperatively and collaboratively with parents, pupils, teachers, administrators, counselors and community agencies, including law enforcement, to provide a safe and orderly school and neighborhood. Highland Grove Elementary School will develop an academic program that will focus on high expectations of pupil performance and behavior in all aspects of the school experience. Highland Grove Elementary School will work collaboratively with other elementary, middle schools and high schools to assist in a smooth transition from one school level to another. Highland Grove Elementary School will solicit the participation, views, and advice of teachers, parents, school administrators, and community members and use this information to promote the safety of our pupils, staff and community.

(A) Child Abuse Reporting Procedures (EC 35294.2 [a] [2]; PC 11166)

Policy 5141.4: Child Abuse Prevention and Reporting

The Governing Board recognizes that the district has a responsibility to facilitate the prompt reporting of incidents of child abuse and neglect. The Superintendent or designee shall ensure that parents/guardians have access to procedures whereby they can report suspected child abuse at a school site to appropriate child protective agencies

The Superintendent or designee shall develop and implement regulations for use by employees in identifying and reporting child abuse

District employees shall report known or suspected incidents of child abuse in accordance with district regulations and state law. Employees shall cooperate with the child protective agencies responsible for reporting, investigating and prosecuting cases of child abuse.

(cf. 4112.9 - Signed Statements/Child Abuse Reporting Statements)

The Superintendent or designee shall provide training in child abuse identification and reporting for all certificated and classified personnel. (Penal Code 11165.7)

All employees trained in child abuse identification and reporting shall be given, as a part of that training, written notice of the child abuse reporting requirements and the employees' confidentiality rights. (Penal Code 11165.7)

In order to reduce or eliminate unfounded child abuse accusations directed at school employees, child abuse in service training shall include guidance in disciplining students and maintaining ethical relationships with them.

(cf. 3514 - Safety)

(cf. 5142 - Safety)

Duty to Report

Certificated employees and classified employees trained in child abuse identification and reporting shall report known or suspected child abuse to a child protective agency by telephone immediately or as soon as practically possible and in writing within 36 hours. The reporting duties are individual and cannot be delegated to another individual except under circumstances set forth in Penal Code 11166.

Definitions

Child Abuse includes the following:

1. A physical injury inflicted by other than accidental means on a child by another person.
2. Willful cruelty or unjustifiable punishment of a child, or willfully inflicting unjustifiable physical pain or mental suffering, or failure to safeguard a child from these injuries when the child is under a person's care or custody
3. Sexual abuse of a child
4. Neglect of a child or abuse in out-of-home care
5. Unlawful corporal punishment or injury resulting in a traumatic condition

Mandated Reporters are those people defined by law as child care custodians, health practitioners, child visitation monitors and employees of a child protective agency. Mandated reporters include virtually all school employees. The following school personnel are required to report:

Teachers, administrators, supervisors of child welfare and attendance, certificated student personnel employees, employees of care institutions, Headstart teachers, school psychologists, licensed nurses, counselors, presenters of child abuse prevention programs and those instructional aides or other classified employees trained in child abuse reporting.

Child Protective Agencies are those law enforcement and child protective services responsible for investigating child abuse reports, including the local police or sheriff department, county welfare or juvenile probation department and child protective services.

Reasonable Suspicion means that it is objectively reasonable for a person to entertain such a suspicion, based upon facts that could cause a reasonable person in a like position, drawing when appropriate on his/her training and experience, to suspect child abuse. (Penal Code 11166)

Reporting Procedures

To report known or suspects child abuse, any employee (as defined above) shall report by telephone to the local child protective agency immediately. (Child Protective Services 921 County Center, 3 Court, Modesto, CA phone # 525- 6641)

The following information shall be given:

1. The name of the person making the report
2. The name of the child
3. The present location of the child
4. The nature and extent of any injury

Any other information requested by the child protective agency, including the information that led the mandated reporter to suspect child abuse.

When the verbal report is made, the mandated reporter shall note the name of the official contacted, the date and time contacted, and any instructions or advice received.

Within 36 hours of making the telephone report, the mandated reporter shall complete and mail to the local child protective agency a written report which includes a completed Department of Justice form (DOJ SS 8572).

Mandated reports may obtain copies of the above form either from the district or local child protective agency.

Instructions are included on the form, and reporters may ask the site administrator for help in completing and mailing it; however, the mandated reporter is personally responsible for ensuring that the written report is correctly filed.

Employees reporting child abuse to a child protective agency are encouraged, but not required, to notify the site administrator or designee as soon as possible after the initial verbal report by telephone. When so notified, the site administrator shall inform the Superintendent or designee.

Administrators so notified shall provide the mandated reporter any assistance necessary to ensure that reporting procedures are carried out in accordance with law and district regulations. At the mandated reporter's request, the principal may assist in completing and filing the form.

If the mandated reporter does not disclose his/her identity to a district administrator, he/she shall at least provide or mail a copy of the written report to the site administrator and the district without his/her signature or name.

Legal Responsibility and Liability

Mandated reporters have absolute immunity. School employees required to report are not civilly or criminally liable for filing a required or authorized report of known or suspected child abuse.

A mandated reporter who fails to report an instance of child abuse, which he/she knows to exist or reasonably should know to exist, is guilty of a misdemeanor and is punishable by confinement in jail for a term not to exceed six months or by a fine of not more than \$1,000 or both. The mandated reporter may also be held civilly liable for damages for any injury to the child after a failure to report

When two or more persons who are required to report have joint knowledge of suspected instance of child abuse, and when they so agree, the telephone report may be made by either of them and a single report made and signed by that person.

However, if any person who knows or should know that the person designated failed to make the report, that person then has a duty to make the report.

The duty to report child abuse is an individual duty and no supervisor or administrator may impede or inhibit such reporting duties. Furthermore, no person making such a report shall be subject to any sanction.

Victim Interview

Upon request, a child protective agency representative may upon request interview a suspected victim of child abuse during school hours, on school premises, concerning a report of suspected child abuse that occurred within the child's home. The child shall be given the choice of being interviewed in private or in the presence of any adult school employee or volunteer aide selected by the child. (Penal Code 11174.3)

A staff member or volunteer aide selected by a child may decline to be present at the interview. If the selected person accepts, the principal or designee shall inform him/her, before the interview takes place, of the following legal requirements:

1. The purpose of the selected person's presence at the interview is to lend support to the child and enable him/her to be as comfortable as possible.
2. The selected person shall not participate in the interview.
3. The selected person shall not discuss the facts or circumstances of the case with the child.
4. The selected person is subject to the confidentiality requirements of the Child Abuse and Reporting Act, a violation of which is punishable as specified by Penal Code 11167.5.
5. If a staff member agrees to be present, the interview shall be held at a time during school hours when it does not involve an expense to the school. (Penal Code 11174.3)

Release of Child to Peace Officer or Child Protective Services Agent

When a child is released to a peace officer or child protective agency and taken into custody as a victim of suspected child abuse, the Superintendent and/or principal shall not notify the parent/guardian as required in other instances of removal of a child from school, but rather shall provide the protective agency with the address and telephone number of the child's parent/guardian. It is the responsibility of the peace officer or agent to notify the parent/guardian of the situation. (Education Code 48906)

Peace officer and child protective services agents will be asked to sign an appropriate release or acceptance of responsibility form.

(cf. 5145.11 - Questioning and Apprehension)

When School Employees are Accused of Child Abuse

Regardless of who child abusers may be, the major responsibilities of mandated reports are to 1) identify incidents of suspected child abuse, and 2) comply with laws requiring the reporting of suspected abuse to proper authorities. Determining whether or not the suspected abuse actually occurred is not the responsibility of the school employee. Such determination and follow-up investigation will be made by a child protective agency.

Pending outcome of an investigation by a child protective agency and before formal charges are filed, the employee may be subject to reassignment or a paid leave of absence.

Upon filing formal charges or upon conviction, the district may take disciplinary action in accordance with law, district policies, regulations and/or collective bargaining agreements. The Superintendent or designee shall seek legal counsel in connection with either the suspension or dismissal of the employee.

None

(C) School Suspension, Expulsion and Mandatory Expulsion Guidelines

Policy 5144.1: Suspension And Expulsion/Due Process

Suspension and Expulsion

The Governing Board recognizes that maintaining an environment which promotes learning and protects the health, safety, and welfare of all students may require the suspension or expulsion of a student from regular classroom instruction. District policies and school site rules shall clearly identify district behavior standards

(cf. 5144 - Discipline)

Except in cases where suspension for a first time offense is warranted in accordance with law, suspension shall be imposed only when other means of correction fail to bring about proper conduct. (Education Code 48900.5)

Expulsion is an action taken by the Board for severe or prolonged breaches of discipline by a student. Except for single acts of a grave nature, expulsion is usually used only when there is a history of misconduct, when other forms of discipline, including suspension, have failed to bring about proper conduct, or when the student's presence causes a continuing danger to other students. (Education Code 48915)

The grounds for suspension and expulsion and the procedures for considering, recommending and/or implementing suspension and expulsion shall be specified in Administrative Regulation.

Each principal shall annually inform all students and parents/guardians of the school's discipline rules and procedures and of the availability of all district policies and regulations dealing with student discipline, suspension and expulsion. (Education Code 35291, 35291.5)

(cf. 5145.6 - Parental Notifications)

Suspended or expelled students shall be excluded from all school-related extracurricular activities during the suspension or expulsion.

cf. 6145 - Extracurricular and Cocurricular Activities)

Zero Tolerance

The Board supports a zero tolerance approach to serious offenses in accordance with state and federal law. This approach makes the removal of potentially dangerous students from the classroom a top priority and ensures the standardized treatment of all students. Staff shall immediately report to the Superintendent/ designee any incidence of offenses specified in law, Board policy, and administrative regulation as cause for suspension or expulsion.

Student Due Process

The Board shall provide for the fair treatment of students facing suspension and expulsion by affording them their due process rights under the law. The administration and staff shall comply with procedures for notices and appeals as specified in regulation. Procedures governing student due process shall conform in all aspects to provisions in law. (Education Codes 48911, 48915 and 48915.5)

Whenever a student is suspended, school officials may (but are not required to) meet with the parent/guardian to discuss the causes and duration of the suspension, the school policy involved, and any other pertinent matters. (Education Code 48914)

cf. 5119 - Students Expelled from Other Districts

(cf. 5144.2 - Suspension and Expulsion/Due Process - Individuals with Exceptional Needs)

Rights of Complaining Witness

An expulsion hearing involving allegations of sexual assault or sexual battery may be postponed for one school day in order to accommodate the special physical, mental or emotional needs of a student who is the complaining witness. (Education Code 48918.5)

Whenever the Superintendent or designee recommends an expulsion hearing that addresses allegations of sexual assault or sexual battery, he/she shall give the complaining witness a copy of the district's suspension and expulsion policy and regulation and shall advise the witness of his/her right to: (Educational Code 48918.5)

1. Receive five days' notice of his/her scheduled testimony at the hearing
2. Have up to two adult support persons of his/her choosing present in the hearing at the time he/she testifies
3. Have a closed hearing during the time he/she testifies

Whenever any allegation of sexual assault or sexual battery is made, the Superintendent or designee shall immediately advise complaining witnesses and accused students to refrain from personal or telephone contact with each other during the time when an expulsion process is pending. (Education Code 48918.5)

On-Campus Suspension Program

The Board recognizes that students who are suspended from school frequently have no supervision or guidance during the school hours when they are off campus. The Board believes that in many cases, instead of sending the student off campus, it would be better to address the student's misconduct by keeping the student at school and providing him/her with supervision that is separated from the regular classroom.

The Superintendent or designee shall examine alternatives to off-campus suspension and may establish a suspension program which involves progressive discipline during the school day on campus; using conferences between staff, parents/guardians and students; detention; student study teams or other assessment-related teams; and/or referral to school support services staff.

Required Parental Attendance

The Board believes that parental involvement plays an important role in the resolution of classroom behavior problems. The Board expects that teachers will communicate with parents/guardians when behavior problems arise

Whenever a student is suspended from a class because he/she committed an obscene act, engaged in habitual profanity or vulgarity, disrupted school activities or otherwise willfully defied valid staff authority, the teacher of the class from which the student was suspended may require the student's parent/guardian to attend a portion of a school day in that class. After completing the classroom visit and before leaving school premises, the parent/guardian also shall meet with the principal or designee. (Education Code 48900.1)

The Board encourages teachers, before requiring parental attendance, to make reasonable efforts to have the parent/guardian visit the class voluntarily. The teacher also may consider informing the parent/guardian about available resources which may provide help in the development of parenting skills. Teachers should reserve the option of required parental attendance for cases in which they have determined that it is the best strategy to promote positive interaction between the student and the parent/guardian and to improve classroom behavior.

Parental attendance may be required on the day the student returns to class or within one week thereafter. The principal or designee shall contact any parents/guardians who do not respond to the request to attend school. The Board recognizes that parental compliance with this policy may be delayed, modified or prevented by serious illness/injury/disability, absence from town, or inability to get certain release time from work.

The teacher shall apply this policy uniformly to all students within the classroom. This policy shall apply only to a parent/guardian who actually lives with the student. (Education Code 48900.1)

District regulations and school-site rules for student discipline shall include procedures for implementing parental attendance requirements.

Parents/guardians shall be notified of this policy before it is implemented and at the beginning of each subsequent school year. (Education Code 48900.1, 35291, 48980)

Decision Not to Enforce Expulsion Order

In cases where expulsion is mandatory pursuant to Education Code 48915(c), the enforcement of an expulsion order shall not be suspended by the Board. In all other cases of expulsion, the order for expulsion may be suspended by the Board, on a case-by-case basis, pursuant to the requirements of law.

Definitions

Suspension from Class by a Teacher/Parental Attendance

A teacher may suspend any student from the teacher's class for any of the acts listed under "Grounds for Suspension and Expulsion" above for the day of the suspension and the day following. (Education Code 48910)

Suspension from class means the removal of a student from class by a teacher for the day of the suspension and the next day. A teacher may suspend a student from class and may also refer a student for consideration of suspension from school for any act listed in "Grounds for Suspension and Expulsion" above. (Education Code 48910)

When suspending a student from his/her class, the teacher shall immediately report this action to the principal and send the student to the principal for appropriate action. The student shall be appropriately supervised during the class periods from which he/she has been suspended.

As soon as possible, the teacher shall ask the student's parent/guardian to attend a parent-teacher conference regarding the suspension. A counselor or psychologist should attend the conference if it is practicable, and a school administrator may attend if either the parent/guardian or teacher so request.

A suspended student shall not be returned to class during the period of suspension without the approval of the teacher of the class and the principal. (Education Code 48910)

A student suspended from class shall not be placed in another regular class during the period of suspension. However, if a student is assigned to more than one class per day, he/she may be placed in any other regular classes except those held at the same time as the class from which the student was suspended. (Education Code 48910)

The teacher of any class from which a student is suspended may require the suspended student to complete any assignments and tests missed during the suspension. (Education Code 48913)

When a teacher requires a parent/guardian to attend school in accordance with Board Policy, the principal shall send the parent/guardian a written notice that the parent/guardian's attendance is required pursuant to law. (Education Code 48900.1)

1. This notice shall also tell the parent/guardian when his/her presence is expected and by what means he/she may arrange any necessary change.
2. The notice shall describe the protections afforded to the parent/guardian as an employee by Labor Code 230.7.
3. The notice shall state that if the parent/guardian does not have a means of transportation to school, he/she may ride the school bus with the student.

The teacher shall remind the parent/guardian to meet with the principal or designee after completing the classroom visit and before leaving school premises.

Suspension By Superintendent, Principal Or Principal's Designee

A Superintendent, principal, or principal's designee may suspend a student from a school for any of the acts listed under "Grounds for Suspension and Expulsion" above for not more than five consecutive school days unless the suspension is extended pending expulsion. (Education Code 48911)

The Superintendent or designee shall immediately suspend any student found at school or at a school activity to be: (Education Code 48915)

1. Possessing, as verified by a district employee, or selling or otherwise furnishing a firearm, unless the student had obtained prior written permission to possess the item from a certificated school employee, with the principal or designee's concurrence.
2. Brandishing a knife, as defined in Education Code 48915(g), at another person.

3. Unlawfully selling a controlled substance listed in Health and Safety Code 11053-11058.

4. Committing or attempting to commit a sexual assault or committing a sexual battery as defined in item 414 under "Grounds for Suspension and Expulsion" above.

5. Possession of an explosive as defined in 18 USC 921.

Suspension may be imposed upon a first offense if the Superintendent, principal or designee determines the student violated items (i) - (v) listed in "Grounds For Suspension and Expulsion" above or if the student's presence causes a danger to persons or property or threatens to disrupt the instructional process. (Education Code 48900.5)

A student may be suspended from school for not more than 20 school days in any school year, unless for purposes of adjustment a student enrolls in or is transferred to another regular school, an opportunity school, or continuation school or class, in which case suspension shall not exceed 30 days in any school year. However, this restriction on the number of days of suspension does not apply when the suspension is extended pending an expulsion. (Education Code 48903 and 48912)

Suspension Procedures

1. Informal Conference: Suspension shall be preceded by an informal conference conducted by the principal or designee or the Superintendent or designee between the student, and whenever practicable, the teacher, supervisor or school employee who referred the student to the principal. At the conference, the student shall be informed of the reason for the disciplinary action and the evidence against him/her and shall be given the opportunity to present his/her version and evidence in support of his/her defense. (Education Code 48911(b))

This conference may be omitted if the principal, designee or the Superintendent or designee determines that an emergency situation exists. An "emergency situation" involves a clear and present danger to the lives, safety or health of students or school personnel. If the pre-suspension conference is not held, both the parent/guardian and student shall be notified of the student's right to return to school for the purpose of a conference. The conference shall be held within two school days, unless the student waives his/her right to it or is physically unable to attend for any reason. In such case, the conference will be held as soon as the student is physically able to return to school. (Education Code 48911(c))

2. Administrative Actions: All requests for student suspension are to be processed by the principal or designee of the school in which the student is enrolled at the time of the misbehavior

A school employee shall report the suspension, including the name of the student and the cause for the suspension, to the Superintendent or designee, who in turn will inform the Board.

3. Notice to Parents/Guardians: At the time of the suspension, a school employee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension. (Education Code 48911)

This notice shall state the specific offense committed by the student. (Education Code 48900.8)

In addition, the notice may also state the date and time when the student may return to school.

Should school officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may also add that state law requires the parent/guardian to respond to such request without delay.

4. Parent/Guardian Conference: Whenever a student is suspended, school officials may meet with the parent/guardian to discuss the causes and duration of the suspension, the school policy involved, and any other pertinent matters. (Education Code 48914)

While the parent/guardian is required to respond without delay to a request for a conference about a student's behavior, no penalties may be imposed on the student for the failure of the parent/guardian to attend such conference. The student may not be denied readmission solely because the parent/guardian failed to attend. (Education Code 48911)

5. Extension of Suspension: If the expulsion of a suspended student is being considered by the Board, the Superintendent or designee may, in writing, extend the suspension until such time as the Board has made a decision. (Education Code 48911(g))

Any extension of the original period of suspension shall be preceded by notice of such extension with an offer to hold a conference concerning the extension, giving the student an opportunity to be heard. This conference may be held in conjunction with a meeting requested by the student or parent/guardian to challenge the original suspension. Extension of the suspension may be made only if the Superintendent or designee determines, following a meeting in which the student and the student's parent/guardian were invited to participate, that the student's presence at the school or at an alternative school would endanger persons or property or threaten to disrupt the instructional process. (Education Code 48911(g))

Suspension by the Board

The Board may suspend a student for any of the acts listed in "Grounds for Suspension and Expulsion" above and within the limits specified in "Suspension by Superintendent, Principal or Principal's Designee" above. (Education Code 48912)

The Board may suspend a student enrolled in a continuation school or class for a period not longer than the remainder of the semester if any of the acts listed in "Grounds for Suspension and Expulsion" occurred. The suspension shall meet the requirements of Education Code 48915. (Education Code 48912.5)

When the Board is considering a suspension, disciplinary action, or any other action (except expulsion) against any student, it may hold closed sessions if a public hearing would lead to disclosure of information which would violate a student's right to privacy under Education Code 49073-49079.

(cf. 9321 -Closed Session Purposes and Agendas)

The Board shall provide the student with written notice of the closed session by registered or certified mail. Upon receiving this notice the student may request a public meeting, and this request shall be granted if made in writing (within 48 hours after receipt of the Board's notice). However, any discussion that conflicts with any other student's right to privacy shall be in closed session. (Education Codes 48912)

Authority to Expel

A student may be expelled only by the Board. The Board shall expel, as required by law, any student found to have committed certain offenses listed below under "Mandatory Recommendation and Mandatory Expulsion."

The Board may also order a student expelled for any of the acts listed above under "Grounds for Suspension and Expulsion" upon recommendation by the principal, Superintendent, hearing officer or administrative panel, based on finding either or both of the following: (Education Code 48915(b) and (e))

1. That other means of correction are not feasible
2. That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others

Mandatory Recommendation For Expulsion

The principal, Superintendent or designee shall recommend a student's expulsion for any of the following acts, unless the principal or Superintendent or designee finds, and reports in writing to the Board, that expulsion is inappropriate due to particular circumstances which shall be set out in the report of the incident:

1. Causing serious physical injury to another person, except in self-defense.
2. Possession of any knife as defined in Education Code 48915(g), explosive or other dangerous object of no reasonable use to the student.

3. Unlawful possession of any controlled substance, as listed in Health and Safety Code 11053-11058, except for the first offense for the possession of not more than one ounce of marijuana, other than concentrated cannabis.
4. Robbery or extortion.
5. Assault or battery, as defined in Penal Code 240 and 242, upon any school employee.

Mandatory Recommendation And Mandatory Expulsion

The principal, Superintendent or designee shall recommend that the Board expel any student found at school or at a school activity off school grounds to be: (Education Code 48915(c))

1. Possessing, as verified by a district employee, or selling or otherwise furnishing a firearm, unless the student had obtained prior written permission to possess the item from a certificated school employee, with the principal or designee's concurrence. (Education Code 48915(c).1)
2. Brandishing a knife as defined in Education Code 48915(g) at another person. (Education Code 48915(c).2)
3. Unlawfully selling a controlled substance listed in Health and Safety Code 11053-11058. (Education Code 48915(c).3)
4. Committing or attempting to commit a sexual assault or committing a sexual battery as defined in item #14 under "Grounds for Suspension and Expulsion" above. (Education Code 48915(c).4)
5. Possessing an explosive as defined in 18 USC 921.

Upon finding that the student committed any of the above acts, the Board shall expel the student. (Education Code 48915)

Student's Right to Expulsion Hearing

The student is entitled to a hearing to determine whether the student should be expelled. The hearing shall be held within 30 school days after the principal or Superintendent or designee determines that one of the acts listed under "Grounds for Suspension and Expulsion" has occurred. (Education Code 48918(a))

The student is entitled to one postponement of an expulsion hearing for a period of not more than 30 calendar days. The request for postponement shall be in writing. Any subsequent postponement may be granted at the district's discretion. (Education Code 48918(a))

If the district finds it impracticable to comply with these time requirements for conducting an expulsion hearing, the Superintendent or designee may, for good cause, extend the time period by an additional five school days. Reasons for the extension shall be included as a part of the record when the expulsion hearing is held. (Education Code 48918(a))

Once the hearing starts, all matters shall be pursued with reasonable diligence and concluded without unnecessary delay. (Education Code 48918(a))

Rights of Complaining Witness

An expulsion hearing involving allegations of sexual assault or sexual battery may be postponed for one school day in order to accommodate the special physical, mental or emotional needs of a student who is the complaining witness. (Education Code 48915.5)

Whenever the Superintendent or designee recommends an expulsion hearing that addresses allegations of sexual assault or sexual battery, he/she shall give the complaining witness a copy of the district's suspension and expulsion policy and regulation and shall advise the witness of his/her right to: (Education Code 48915.5)

1. Receive five days' notice of his/her scheduled testimony at the hearing.

2. Have up to two adult support persons of his/her choosing present in the hearing at the time he/she testifies.
3. Have a closed hearing during the time he/she testifies

(Education Code 48915.5)

Written Notice of the Expulsion Hearing

Written notice of the hearing shall be forwarded to the student and the student's parent/guardian at least ten calendar days before the date of the hearing. The notice shall include: (Education Code 48900.8, 48918(b))

1. The date and place of the hearing.
2. A statement of the specific facts, charges and offense upon which the proposed expulsion is based.
3. A copy of district disciplinary rules which relate to the alleged violation.
4. A parent/guardian of a student expelled for acts described in paragraphs through 4 of Education Code 48915(a), seeks enrollment in another district they must inform the new district of the student's status with the expelling district, pursuant to Education Code 48915.1.

(cf. 5119 -Students Expelled from Other Districts)

Conduct of Expulsion Hearing

1. Closed Session: Notwithstanding the provisions of Government Code 54953 and Education Code 35145, the Board shall conduct the hearing or arrange for an alternative hearing to consider the expulsion of the student in a session closed to the public unless the student requests in writing at least five days prior to the hearing that the hearing be a public meeting. If such request is made, the meeting shall be public

Whether the expulsion hearing is held in closed or public session, the Board may meet in closed session to deliberate and determine if the student should be expelled. If the Board admits any other person to the closed session, the parent/guardian, the student, counsel of the student and counsel of the parent/guardian shall also be allowed to attend the closed session. (Education Code 48918(c))

If a hearing that involves a charge of sexual assault or sexual battery is to be conducted in public, a complaining witness shall have the right to have his/her testimony heard in closed session when testifying in public would threaten serious psychological harm to the witness and when there are no alternative procedures to avoid the threatened harm, including but not limited to videotaped deposition or contemporaneous examination in another place communicated to the hearing room by closed-circuit television. (Education Code 48918(c))

2. Record of Hearing: A record of the hearing shall be made and may be maintained by any means, including electronic recording, so long as a reasonably accurate written and complete transcription of the proceedings can be made. (Education Code 48918(g))

3. Presentation of Evidence: While technical rules of evidence do not apply to such hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. The decision of the Board to expel must be supported by substantial evidence that the student committed any of the above acts listed under "Grounds for Suspension and Expulsion" above. Findings of fact shall be based solely on the evidence at the hearing.

While no evidence shall be based solely on hearsay, sworn declarations may be admitted as testimony from witnesses whose disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm. (Education Code 48918 (f) and

In cases where a search of a student's person or property has occurred, evidence describing the reasonableness of the search shall be included in the hearing record.

4. Testimony by Complaining Witness: The following procedures shall be observed when hearings involve allegations of sexual assault or sexual battery by a student: (Education Code 48918)

- a. Any complaining witness shall be given five days' notice before being called to testify.
- b. Any complaining witness shall be entitled to have up to two adult support persons, including but not limited to a parent/guardian or legal counsel, present during his/her testimony.
- c. Before a complaining witness testifies, support persons shall be admonished that the hearing is confidential.
- d. The person presiding over the hearing may remove a support person whom he/she finds is disrupting the hearing.
- e. If one or both support persons are also witnesses, the hearing shall be conducted according to Penal Code 868.5.
- f. Evidence of specific instances of prior sexual conduct of a complaining witness shall be presumed inadmissible and shall not be heard unless the person conducting the hearing determines that extraordinary circumstances require the evidence to be heard.

Before such a determination is made, the complaining witness shall be given notice and an opportunity to oppose the introduction of this evidence. In the hearing on the admissibility of this evidence, the complaining witness shall be entitled to be represented by a parent/guardian, legal counsel or other support person. Reputation or opinion evidence regarding the sexual behavior of a complaining witness shall not be admissible for any purpose.

g. In order to facilitate a free and accurate statement of the experiences of the complaining witness and to prevent discouragement of complaints, the district shall provide a nonthreatening environment.

(1) The district shall provide a room separate from the hearing room for the use of the complaining witness before and during breaks in testimony.

(2) At the discretion of the person conducting the hearing, the complaining witness shall be allowed reasonable periods of relief from examination and cross-examination during which he/she may leave the hearing room.

(3) The person conducting the hearing may:

- (a) Arrange the seating within the hearing room so as to facilitate a less intimidating environment for the complaining witness.
- (b) Limit the time for taking the testimony of a complaining witness to the hours he/she is normally in school, if there is no good cause to take the testimony during other hours.
- (c) Permit one of the support persons to accompany the complaining witness to the witness stand.

6. Decision Within Ten Days: The Board's decision on whether to expel a student shall be made within ten school days after the conclusion of the hearing, unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

7. Decision Within 40 Days: If the Board does not meet on a weekly basis, its decision on whether to expel a student shall be made within 40 school days after the student is removed from his/her school of attendance, unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

Alternative Hearing: Hearing Officer or Administrative Panel

Instead of conducting an expulsion hearing itself, the Board may contract with the county hearing officer or with the Office of Administrative Hearings of the State of California for a hearing officer. Alternatively, the Board may appoint an impartial administrative panel composed of three or more certificated personnel, none of whom shall be members of the Board or on the staff of the school in which the student is enrolled. (Education Code 48918(d))

A hearing conducted by the hearing officer or administrative panel shall conform to the same procedures as apply to a hearing conducted by the Board as specified in "Conduct of Expulsion Hearing" above.

The hearing officer or administrative panel shall, within three school days after the hearing, determine whether to recommend expulsion of the student to the Board. If expulsion is not recommended, the student shall be immediately reinstated. (See "Reinstatement" below.) The Superintendent or designee shall place the student in a classroom instructional program, any other instructional program, a rehabilitation program, or any combination of these programs after consulting with district staff, including the student's teachers and with the student's parent/guardian. (Education Code 48918(e))

If expulsion is recommended, findings of fact in support of the recommendation shall be prepared and submitted to the Board. All findings of fact and recommendations shall be based solely on the evidence presented at the hearing. The Board may accept the recommendation based either upon a review of the findings of fact and recommendations submitted or upon the results of any supplementary hearing the Board may order. (Education Code 48918(f))

The hearing officer or administrative panel may recommend that the Board suspend the expulsion for a period of one year. (See "Suspension of Expulsion" below.)

The Board shall make its decision about the student's expulsion within 40 school days after the date of the student's removal from school unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

Stipulated Expulsions

It is the policy of the Redlands Unified School District that, where approved by the Superintendent or designee, parents/guardians may agree to the expulsion of their pupil by stipulation without necessity of a hearing. This process will expedite the pupil's school placement and may expedite the rehabilitation process.

A stipulated expulsion must be purely voluntary. No district administrator or staff member may coerce a pupil, parent or guardian into entering into such a stipulation. Parents/guardians will be given three calendar days to decide on a stipulated expulsion agreement.

If the parent/guardian requests a stipulated expulsion, the Superintendent or designee will promulgate the stipulated agreement. If at any time the parent/guardian decides not to pursue a stipulated agreement, the expulsion proceedings and timelines, extended by the length of the period for consideration of the stipulation, will be reinstated. The stipulated agreement will be presented to the Board for final consideration.

The stipulated agreement will include the terms and conditions of the expulsion order, including alternative placement and a rehabilitation plan to be completed before the student can be re-admitted to the district.

Final Action by the Board

Whether the expulsion hearing is conducted in closed or public session by the Board, a hearing officer, or an administrative panel, the final action to expel must be taken by the Board at a public meeting. (Education Code 48918(f)) The Board shall maintain a record of each expulsion, including its cause. Expulsion records shall be non-privileged, disclosable public records.

(cf. 9321.1 - Closed Session Actions and Reports)

If the Board conducts the hearing and reaches a decision not to expel, this decision shall be final and the student shall be reinstated immediately.

Upon ordering the expulsion, the Board shall set a date when the student shall be reviewed for readmission to a school within the district. For a student expelled for an act listed under "Mandatory Recommendation and Mandatory Expulsion" above, this date shall be one year from the date the expulsion occurred, except that the Board may set an earlier date on a case-by-case basis. For a student expelled for other acts, this date shall be no later than the last day of the semester following the semester in which the expulsion occurred. (Education Code 48916)

At the time of the expulsion order, the Board shall recommend a plan for the student's rehabilitation, which may include: (Education Code 48916)

1. Periodic review as well as assessment of the student at the time of review for readmission.
2. Recommendations for improved academic performance, tutoring, special education assessments, job training, counseling, employment, community service and other rehabilitative programs.
3. Such other recommendations as the Board approves.

With parental consent, students who have been expelled for reasons relating to controlled substances or alcohol may be required to enroll in a county-sponsored drug rehabilitation program before returning to school. (Education Code 48916.5)

Upon expulsion, a copy of readmission procedures will be made available to the student and his/her parent/guardian.

Written Notice to Expel

The Superintendent or designee shall send written notice of the decision to expel to the student or parent/guardian. The notice shall include the following:

1. The specific offense committed by the student for any of the causes for suspension or expulsion listed in Education Code 48900(a)-(o), Education Code 48900.2-48900.4 and Education Code 48915(c). (Education Code 48900.8)
2. The fact that a description of readmission procedures will be made available to the student and his/her parent/guardian. (Education Code 48916)
3. Notice of the right to appeal such expulsion to the County Board of Education. (Education Code 48918)
4. Notice of the alternative educational placement to be provided to the student during the time of expulsion. (Education Code 48918)
5. The notice also shall inform the student or parent/guardian of his/her obligation to inform any new district in which the student seeks to enroll of the student's status with the expelling district, pursuant to Education Code 48915.1. (Education Code 48918)

Suspension of Expulsion

The Board, upon voting to expel a student, may suspend the enforcement of the expulsion order for not more than one calendar year. When deciding whether to suspend an expulsion, the Board shall take into account the following criteria:

1. The student's previous behavior.
2. The seriousness of the misconduct.
3. The student's attitude toward the misconduct and his/her willingness to follow a rehabilitation program.

The suspension of the enforcement of an expulsion shall be governed by the following: (Education Code 48917)

1. The Board may, as a condition of the suspension of enforcement, assign the student to a school, class or program appropriate for the student's rehabilitation. This rehabilitation program may provide for the involvement of the student's parent/guardian in the student's education. However, a parent/guardian's refusal to participate in the rehabilitation program shall not be considered in the Board's determination as to whether the student has satisfactorily completed the rehabilitation program.
2. During the period when enforcement of the expulsion order is suspended, the student shall be on probationary status.
3. The suspension of expulsion order may be revoked by the Board if the student commits any of the acts listed under "Grounds for Suspension and Expulsion" above or violates any of the district's rules and regulations governing student conduct.
4. When suspension of expulsion order is revoked, a student may be expelled under the terms of the original expulsion order
5. Upon satisfactory completion of the rehabilitation assignment, the Board shall reinstate the student in a district school. Upon reinstatement, the Board may order the expungement of any or all records of the expulsion proceedings.
6. Suspension of an expulsion order shall not affect the time period and requirements for the filing of an appeal of the expulsion order with the County Board of Education.
7. The Superintendent or designee shall send written notice of any decision to suspend the enforcement of an expulsion order during a period of probation to the student or parent/guardian. The notice shall also inform the parent/guardian of the right to appeal the expulsion to the County Board of Education. (Education Code 48918(i))

Right to Appeal

The student or parent/guardian is entitled to file an appeal of the Board's decision to the County Board of Education.

The appeal must be filed within 30 days of the Board's decision to expel, even if the expulsion action is suspended and the student is placed on probation. (Education Code 48919)

Post-Expulsion Placements

The Board shall refer expelled students to a program of study that is: (Education Code 48915, 48915.01)

1. Appropriately prepared to accommodate students who exhibit discipline problems.
2. Not provided at a comprehensive middle, junior or senior high school or at any elementary school, unless the program is offered at a community day school established at such a site.
3. Not housed at the school site attended by the student at the time of suspension.

(cf. 6185 - Community Day School)

When the placement described above is not available, and when the County Superintendent of Schools so certifies, students expelled for acts described in items #6 through # 13 and # 17 through # 19 under "Grounds for Suspension and Expulsion" above may be instead referred to a program of study that is provided at another comprehensive middle, junior, or senior high school, or at an elementary school.

The program for a student expelled from any of grades K-6 shall not be combined or merged with programs offered to students in any of grades 7-12. (Education Code 48916.1)

Reinstatement

When the Board accepts a recommendation against expulsion or makes its own decision after the hearing not to expel, the decision is final and the student shall be reinstated immediately. The Superintendent or designee shall place the student in any classroom program, other instructional program, rehabilitation program, or any combination of such programs following consultation with district personnel, including the teacher involved, and with the student's parent/guardian. (Education Code 48918(e))

Readmission

An expulsion order shall remain in effect until the Board may order the readmission of the student.

Readmission procedures shall be as follows:

1. A written request for review of expulsion action and request for readmission shall be submitted by the parent/guardian to the Superintendent or designee.
2. The Superintendent or designee will hold a conference with the parent/guardian and the student.
3. At the conference the conditions for readmission will be reviewed. The Superintendent or designee shall verify that the rehabilitation plan has been met.
4. School regulations will be reviewed and the student and parent/guardian will be asked to indicate in writing their willingness to comply with these regulations.
5. The Superintendent or designee will transmit the request for readmission to the Board, along with his/her recommendation. The Board shall consider the request in closed session if the information would be disclosed in violation of Education Code 49073-49079. If a written request for open session is received from the parent/guardian or adult student, it will be honored.
6. The Superintendent or designee will notify the student or parent/guardian, by registered mail, of the district's decision regarding readmission.
7. The Board may deny readmission only if it finds that the student has not satisfied the conditions of the rehabilitation plan or that the student continues to pose a danger to campus safety or to other district students or employees. (Education Code 48916)
8. If the Board denies the readmission of a student, the Board shall determine either to continue the student's placement in the alternative educational program initially selected or to place the student in another program that serves expelled students, including placement in a county community school. (Education Code 48916)
9. The Board shall provide written notice to the expelled student and parent/guardian describing the reasons for denying readmittance into the regular program. This notice shall indicate the Board's determination of the educational program which the Board has chosen. The student shall enroll in that program unless the parent/guardian chooses to enroll the student in another school district. (Education Code 48916)

Maintenance of Records

The Board will maintain a record of each expulsion, including the specific cause of the expulsion. The expulsion record shall be maintained in the student's mandatory interim record and sent to any school in which the student subsequently enrolls, within five days of a written request by the admitting school. (Education Code 48900.8, 48918(k))

The Superintendent or designee shall, within five working days, honor any other district's request for information about an expulsion from this district. (Education Code 48915.1)

cf. 5119 - Students Expelled from Other Districts)

(cf. 5125 - Student Records)

Notifications and Reports

Within one school day after a student's suspension or expulsion, the principal or designee shall notify appropriate city or county law enforcement authorities, by telephone or other appropriate means, of any student acts which may violate Education Code 48900(c) or (d), relating to the possession, use, offering or sale of controlled substances, alcohol, or intoxicants of any kind.

Prior to the suspension or expulsion of any student, the principal or designee shall notify appropriate city or county law enforcement authorities of any student acts of assault which may have violated Penal Code 245. (Education Code 48902)

The principal or designee also shall notify appropriate city or county law enforcement authorities of any student acts which may involve the possession or sale of narcotics or of a controlled substance or possession of weapons or firearms in violation of Penal Code 626.9 and 626.10. (Education Code 48902)

The Superintendent or designee shall maintain the following data and report such data annually to the California Department of Education, using forms supplied by the California Department of Education: (Education Code 48900.8, 48916.1)

1. The number of students recommended for expulsion.
2. The specific grounds for each recommended expulsion.
3. Whether the student was subsequently expelled.
4. Whether the expulsion order was suspended.
5. The type of referral made after the expulsion.
6. The disposition of the student after the end of the expulsion period.

A student in grades 4 through 12 is also subject to suspension or recommendation for expulsion when it is determined that he/she:

17. Committed sexual harassment as defined in Education Code 212.5. (Education Code 48900.2)

Pursuant to Education Code 48900.2 the conduct constitutes harassment when considered from the perspective of a reasonable person of the same gender as the victim to be sufficiently severe or pervasive as to have a negative impact upon the victim's academic performance or to create an intimidating, hostile or offensive educational environment.

(cf. 5145.3 - Nondiscrimination/Harassment)

A student may be suspended or expelled for any of the acts listed above if the act is related to school activity or school attendance occurring at any district school under the jurisdiction of the Superintendent or principal or within any other school district, including but not limited to the following circumstances: (Education Code 48900)

Alternatives to suspension or expulsion will be used with students who are truant, tardy, or otherwise absent from assigned school activities.

(cf. 5113 - Absences and Excuses)

(cf. 5113.1 - Truancy)

Removal from Class by a Teacher/Parental Attendance

A teacher may suspend any student from his/her class for the remainder of the day and the following day for any act listed in "Grounds for Suspension and Expulsion" above. (Education Code 48910)

A teacher also may refer a student to the principal or designee for consideration of suspension from school. (Education Code 48910)

When removing a student from his/her class, the teacher shall immediately report this action to the principal and send the student to the principal for appropriate action. The student shall be appropriately supervised during the class periods from which he/she has been removed.

As soon as possible, the teacher shall ask the student's parent/guardian to attend a parent-teacher conference regarding the removal. A counselor or psychologist should attend the conference if it is practicable, and a school administrator may attend if either the parent/guardian or teacher so requests.

A student removed from class shall not be returned to class during the period of removal without the approval of the teacher of the class and the principal. (Education Code 48910)

A student removed from class shall not be placed in another regular class during the period of removal. However, if a student is assigned to more than one class per day, he/she may be placed in any other regular classes except those held at the same time as the class from which the student was removed. (Education Code 48910)

The teacher of any class from which a student is removed may require the student to complete any assignments and tests missed during the removal. (Education Code 48913)

Pursuant to Board policy, a teacher may provide that the parent/guardian of a student whom the teacher has removed attend a portion of a school day in his/her child's classroom. When a teacher makes this request, the principal shall send the parent/guardian a written notice that the parent/guardian's attendance is requested pursuant to law. (Education Code 48900.1)

This notice shall also:

1. Inform the parent/guardian when his/her presence is expected and by what means he/she may arrange an alternate date.
2. Describe the legal protections afforded to the parent/guardian as an employee under Labor Code 230.7.
3. State that if the parent/guardian does not have a means of transportation to school, he/she may ride the school bus with the student.
4. Ask the parent/guardian to meet with the principal after the visit and before leaving school, as required by Education Code 48900.1.

Suspension by Superintendent, Principal or Principal's Designee

The Superintendent, principal or principal's designee may suspend a student from a school for not more than five consecutive school days unless the suspension is extended pending expulsion. (Education Code 48911)

The Superintendent or designee shall immediately suspend any student found at school or at a school activity to be: (Education Code 48915)

1. Possessing, as verified by a district employee, or selling or otherwise furnishing a firearm, unless the student had obtained prior written permission to possess the item from a certificated school employee, with the principal or designee's concurrence.
2. Brandishing a knife, as defined in Education Code 48915(g), at another person.
3. Unlawfully selling a controlled substance listed in Health and Safety Code 11053-11058.
4. Committing or attempting to commit a sexual assault or committing a sexual battery as defined in item #14 under "Grounds for Suspension and Expulsion".
5. Possession of an explosive as defined in 18 USC 921.

Suspension also may be imposed upon a first offense if the Superintendent, principal or designee determines the student violated items #1-5 listed in "Grounds for Suspension and Expulsion" above or if the student's presence causes a danger to persons or property or threatens to disrupt the instructional process. (Education Code 48900.5)

A student may be suspended from school for not more than 20 school days in any school year, unless for purposes of adjustment a student enrolls in or is transferred to another regular school, an opportunity school, or continuation school or class, in which case suspension shall not exceed 30 days in any school year. However, this restriction on the number of days of suspension does not apply when the suspension is extended pending an expulsion. (Education Code 48903, 48912)

The Superintendent or designee may count suspensions that occur while a student is enrolled in another school district toward the maximum number of days for which a student may be suspended in any school year. (Education Code 48903)

Suspensions shall be initiated according to the following procedures:

1. Informal Conference: Suspension shall be preceded by an informal conference conducted by the principal, designee or the Superintendent with the student and whenever practicable, the teacher, supervisor or school employee who referred the student to the principal. At the conference, the student shall be informed of the reason for the disciplinary action and the evidence against him/her; the student shall be given the opportunity to present his/her version and evidence in support of his/her defense. (Education Code 48911(b))

This conference may be omitted if the principal, designee or the Superintendent determines that an emergency situation exists. An "emergency situation" involves a clear and present danger to the lives, safety or health of students or school personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student's right to return to school for the purpose of a conference. The conference shall be held within two school days, unless the student waives his/her right to it or is physically unable to attend for any reason. In such case, the conference will be held as soon as the student is physically able to return to school. (Education Code 48911(c))

2. Administrative Actions: All requests for student suspension are to be processed by the principal or designee of the school in which the student is enrolled at the time of the misbehavior. A school employee shall report the suspension, including the name of the student and the cause for the suspension, to the Superintendent or designee.

3. Notice to Parents/Guardians: At the time of the suspension, a school employee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension. (Education Code 48911)

This notice shall state the specific offense committed by the student. (Education Code 48900.8).

In addition, the notice may also state the date and time when the student may return to school. If school officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may add that state law requires the parent/guardian to respond to such requests without delay.

4. Parent/Guardian Conference: Whenever a student is suspended, school officials may meet with the parent/guardian to discuss the causes and duration of the suspension, the school policy involved, and any other pertinent matters. (Education Code 48914)

While the parent/guardian is required to respond without delay to a request for a conference about a student's behavior, no penalties may be imposed on the student for the failure of the parent/guardian to attend such conference. The student may not be denied readmission solely because the parent/guardian failed to attend. (Education Code 48911)

5. Extension of Suspension: If the Board is considering the expulsion of a suspended student from any school or the suspension of a student for the balance of the semester from continuation school, the Superintendent or designee may, in writing, extend the suspension until such time as the Board has made a decision. (Education Code 48911(g))

Any extension of the original period of suspension shall be preceded by notice of such extension with an offer to hold a conference concerning the extension, giving the student an opportunity to be heard. This conference may be held in conjunction with a meeting requested by the student or parent/guardian to challenge the original suspension. Extension of the suspension may be made only if the Superintendent or designee determines, following a meeting in which the student and the student's parent/guardian were invited to participate, that the student's presence at the school or at an alternative school would endanger persons or property or threaten to disrupt the instructional process. (Education Code 48911)

Suspension by the Board

The Board may suspend a student for any of the acts listed in "Grounds for Suspension and Expulsion" above and within the limits specified in "Suspension by Superintendent, Principal or Principal's Designee" above. (Education Code 48912)

The Board may suspend a student enrolled in a continuation school or class for a period not longer than the remainder of the semester if any of the acts listed in "Grounds for Suspension and Expulsion" occurred. The suspension shall meet the requirements of Education Code 48915. (Education Code 48912.5)

When the Board is considering a suspension, disciplinary action, or any other action (except expulsion) against any student, it shall hold closed sessions if a public hearing would lead to disclosure of information violating a student's right privacy under Education Code 49073-49079.

(cf. 9321 - Closed Session Purposes and Agendas)

The Board shall provide the student and his/her parent/guardian with written notice of the closed session by or certified mail. Upon receiving this notice, the student or parent/guardian may request a public meeting, and this request shall be granted if made in writing within 48 hours after receipt of the Board's notice. However, any discussion that conflicts with any other student's right to privacy still shall be held in closed session. (Education Codes 35146, 48912)

On-Campus Suspension Program

Students for whom an expulsion action has not been initiated and who pose no imminent danger or threat to the school may be assigned to a separate, supervised suspension classroom for the entire period of suspension. The following conditions shall apply: (Education Code 48911.1)

1. The supervised suspension classroom shall be staffed in accordance with law.
2. The student shall have access to appropriate counseling services.
3. The supervised suspension classroom shall promote completion of schoolwork and tests missed by the student during the suspension.
4. Each student shall be responsible for contacting his/her teacher(s) to receive assignments to be completed in the supervised suspension classroom. The teacher shall provide all assignments and tests that the student will miss while suspended. If no such work is assigned, the person supervising the suspension classroom shall assign schoolwork.

At the time a student is assigned to a supervised suspension classroom, the principal or designee shall notify the student's parent/guardian in person or by telephone. When the assignment is for longer than one class period, this notification shall be made in writing. (Education Code 48911.1)

Authority to Expel

A student may be expelled only by the Board. The Board shall expel, as required by law, any student found to have committed certain offenses listed below under "Mandatory Recommendation and Mandatory Expulsion."

The Board also may order a student expelled for any of the acts listed under "Grounds for Suspension and Expulsion" upon recommendation by the principal, Superintendent, hearing officer or administrative panel, based on finding either or both of the following: (Education Code 48915 (b) and (e))

1. That other means of correction are not feasible or have repeatedly failed to bring about proper conduct.
2. That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others.

Mandatory Recommendation for Expulsion

Unless the principal, Superintendent or designee finds that expulsion is inappropriate due to particular circumstances, the principal, Superintendent or designee shall recommend a student's expulsion for any of the following acts: (Education Code 48915 (a))

1. Causing serious physical injury to another person, except in self-defense.
2. Possession of any knife as defined in Education Code 48915(g), explosive or other dangerous object of no reasonable use to the student.
3. Unlawful possession of any controlled substance, as listed in the Health and Safety Code 11053-11058, except for the first offense for the possession of not more than one ounce of marijuana, other than concentrated cannabis.
4. Robbery or extortion.
5. Assault or battery, as defined in Penal Code 240 and 242, upon any school employee.

Mandatory Recommendation and Mandatory Expulsion

Note: The Attorney General has determined, in 80 Ops.Cal. Atty. Gen. 347 (1997), that a district may not adopt a zero tolerance policy mandating expulsion of a student for a first offense of possession of a controlled substance or alcohol.

The principal, Superintendent or designee shall recommend that the Board expel any student found at school or at a school activity to be: (Education Code 48915(c))

1. Possessing, as verified by a district employee, or selling or otherwise furnishing a firearm, unless the student had obtained prior written permission to possess the item from a certificated school employee, with the principal or designee's concurrence.
2. Brandishing a knife as defined in Education Code 48915(g) at another person.
3. Unlawfully selling a controlled substance listed in Health and Safety Code 11053-11058
4. Committing or attempting to commit a sexual assault or committing a sexual battery as defined in item #14 under "Grounds for Suspension and Expulsion" above.
5. Possessing an explosive as defined in 18 USC 921.

Upon finding that the student committed any of the above acts, the Board shall expel the student. (Education Code 48915)

The initial recommendation for consideration of expulsion is that of the school principal or the Superintendent. Designees may not make this type of recommendation.

The recommendation for consideration of expulsion shall be submitted to the Director, Office of Student Services, who will review the material and recommend:

1. Reassignment to appropriate regular education program.
2. Refer student to Alternative Program; i.e., Community School, Independent Study, Continuation or Opportunity School, or other district programs.
3. Refer the matter to the Discipline Review Panel for further consideration.

When a case is referred to the discipline Review Panel, the panel shall question school personnel who have information on the incident and the behavior record of the student charged and weighs the evidence presented.

The panel shall, in the case of an expulsion consideration, weigh information presented to determine:

- a. Is the evidence sufficient to support consideration by the expulsion panel?
- b. Has the district, through the schools involved, considered or utilized alternatives to expulsion when possible?
- c. Have due process procedures been adhered to?

The recommendation shall be either to proceed with the expulsion or to utilize an existing practical alternative in lieu of expulsion.

If the district (school) has not adhered to due process requirements, the student shall be returned to school immediately.

If the Discipline Review Panel meets to consider a matter other than an expulsion, it shall provide its best judgment as to an effective alternative program or plan to action.

The recommendation of the Discipline Review Panel shall be forwarded to the Director, Office of Student Services, who shall then review the facts, concur, veto or modify the recommendation.

4. That an expulsion panel be convened.

At the time a recommendation for expulsion is submitted, a hearing shall be scheduled by the Superintendent or designee to determine whether the suspension shall be extended. If the decision is to extend the suspension, the period of time shall be until the Board has rendered a decision or until the expulsion process is otherwise terminated.

The extension of suspension shall be based upon determination by the Superintendent or designee that the presence of the student at the school or in an alternative school placement would cause a danger to persons or property or a threat of disrupting the instructional process. This extension shall be imposed only after the student and the parent/guardian have been given the opportunity to be present at a hearing conducted by the Superintendent or designee. At this time, the student and parent/guardian shall be given the opportunity to be heard and present any information that might bear upon the decision.

Materials which support the decision of the person recommending the expulsion shall be prepared and submitted to the Office of Student Services. The departments of Attendance, Guidance, Special Education and/or Health may be requested to assist in the preparation of this material.

Student's Right to Expulsion Hearing

The student is entitled to a hearing to determine whether the student should be expelled. The hearing shall be held within 30 school days after the principal or Superintendent or designee determines that one of the acts listed under "Grounds for Suspension and Expulsion" has occurred. (Education Code 48918 (a))

The student is entitled to one postponement of an expulsion hearing for a period of not more than 30 calendar days. The request for postponement shall be in writing. Any subsequent postponement may be granted at the Board's discretion. (Education Code 48918(a))

If the Board finds it impractical during the school year to comply with these time requirements for conducting an expulsion hearing, the Superintendent or designee may, for good cause, extend the time period by an additional five school days. Reasons for the extension shall be included as a part of the record when the expulsion hearing is held. (Education Code 48918(a))

If the Board finds it impractical to comply with the time requirements of the expulsion hearing due to summer recess of Board meetings of more than two weeks, the days during the recess shall not be counted as school days. The days not counted during the recess may not exceed 20 school days as defined in Education Code 48925. Unless the student requests in writing that the expulsion hearing be postponed, the hearing shall be held no later than 20 calendar days prior to the first day of the next school year. (Education Code 48918(a))

Once the hearing starts, all matters shall be pursued with reasonable diligence and concluded without unnecessary delay. (Education Code 48918(a))

Waiver of Hearing (Default Proceedings)

If the parent/guardian agrees that their son/daughter behaved essentially in the manner stated in the principals letter recommending expulsion and that such behavior constitutes a violation of the California Education Code, Section 48900, 48900.2, 48900.3, 48900.4, 48900.7 and/or 48915 a suspendable/expellable offense, the parent/guardian may request to waive the Administrative Hearing Panel.

When the parent/guardian agrees to waive the Administrative Hearing Panel, they also waive all notification and timelines related to the expulsion hearing process, along with their rights to appeal the determination of the Board.

The signed affidavit and findings of fact will be submitted to the Board for their approval. The Board has the discretionary power to accept, reject, or modify all recommendations.

Rights of Complaining Witness

An expulsion hearing involving allegations of sexual assault or sexual battery may be postponed for one school day in order to accommodate the special physical, mental or emotional needs of a student who is the complaining witness. (Education Code 48918.5)

Whenever the Superintendent or designee recommends an expulsion hearing that addresses allegations of sexual assault or sexual battery, he/she shall give the complaining witness a copy of the district's suspension and expulsion policy and regulation and shall advise the witness of his/her right to all the following: (Education Code 48918.5)

1. Receive five days' notice of his/her scheduled testimony at the hearing.
2. Have up to two adult support persons of his/her choosing present in the hearing at the time he/she testifies.
3. Have a closed hearing during the time he/she testifies.

Whenever any allegation of sexual assault or sexual battery is made, the Superintendent or designee shall immediately advise complaining witnesses and accused students to refrain from personal or telephone contact with each other during the time when an expulsion process is pending. (Education Code 48918.5)

Written Notice of the Expulsion Hearing (Education Code 48918(b))

Written notice of the hearing shall be forwarded to the student and the student's parent/guardian at least 10 calendar days before the date of the hearing. The notice shall include: (Education Code 48900.8, 48918 (b))

1. The date and place of the hearing.
2. A statement of the specific facts, charges and offense upon which the proposed expulsion is based.
3. A copy of district disciplinary rules which relate to the alleged violation.
4. Notification of the student's or parent/guardian's obligation, pursuant to Education Code 48915.1, to provide information about the student's status in the district to any other district in which the student seeks enrollment. This obligation applies when a student is expelled for acts other than those described in Education Code 48915 (a) or (c).
(cf. 5119 - Students Expelled from other Districts)

5. The opportunity for the student or the student's parent/guardian to appear in person and/or be represented by legal counsel or by a non-attorney advisor.

Legal counsel means an attorney or lawyer who is admitted to the practice of law in California and is an active member of the State Bar of California.

Non-attorney advisor means an individual who is not an attorney or lawyer, but who is familiar with the facts of the case, and has been selected by the student or student's parent/guardian to provide assistance at the hearing.

6. The right to inspect and obtain copies of all documents to be used at the hearing.
7. The opportunity to confront and question all witnesses who testify at the hearing.
8. The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf, including witnesses.

Conduct of Expulsion Hearing

1. Closed Session: Notwithstanding the provisions of Government Code 54953 and Education Code 35145, the Board shall conduct a hearing to consider the expulsion of the student in a session closed to the public unless the student requests in writing at least five days prior to the hearing that the hearing be a public meeting. If such request is made, the meeting shall be public, unless another student's privacy rights would be violated.

Whether the expulsion hearing is held in closed or public session, the Board may meet in closed session to determine if the student should be expelled. If the Board admits any other person to the closed session, the parent/guardian, the student, and the counsel of the student, shall also be allowed to attend the closed session. (Education Code 48918(c))

If a hearing that involves a charge of sexual assault or sexual battery is to be conducted in public, a complaining witness shall have the right to have his/her testimony heard in closed session when testifying in public would threaten serious psychological harm to the witness and when there are no alternative procedures to avoid the threatened harm, including but not limited to videotaped deposition or contemporaneous examination in another place communicated to the hearing room by closed-circuit television. (Education Code 48918(c))

2. Record of Hearing: A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate written and complete transcription of the proceedings can be made. (Education Code 48918(g))

3. Subpoenas: Before commencing a student expulsion hearing, the Board may issue subpoenas, at the request of either the student or the Superintendent or designee, for the personal appearance at the hearing of any person who actually witnessed the action that gave rise to the recommendation for expulsion. After the hearing has commenced, the Board or the hearing officer or administrative panel may issue such subpoenas at the request of the student or the County Superintendent of Schools or designee. All subpoenas shall be issued in accordance with the Code of Civil Procedure 1985-1985.2 and enforced in accordance with Government Code 11455.20, formerly 11525. (Education Code 48918(i))

Any objection raised by the student or the Superintendent or designee to the issuance of subpoenas may be considered by the Board in closed session, or in open session if so requested by the student, before the meeting. The Board's decision in response to such an objection shall be final and binding. (Education Code 48918(i))

If the Board determines, or if the hearing officer or administrative panel finds and submits to the Board, that a witness would be subject to unreasonable risk of harm by testifying at the hearing, a subpoena shall not be issued to compel the personal attendance of that witness at the hearing. However, that witness may be compelled to testify by means of a sworn declaration as described in item #4 below. (Education Code 48918(i))

4. Presentation of Evidence: While technical rules of evidence do not apply to expulsion hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. The decision of the Board to expel must be supported by substantial evidence that the student committed any of the acts listed in "Grounds for Suspension and Expulsion" above.

Findings of fact shall be based solely on the evidence at the hearing. While no evidence shall be based solely on hearsay, sworn declarations may be admitted as testimony from witnesses whose disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm. (Education Code 48918 (f) and (h))

In cases where a search of a student's person or property has occurred, evidence describing the reasonableness of the search shall be included in the hearing record.

5. Testimony by Complaining Witnesses: The following procedures shall be observed when hearings involve allegations of sexual assault or sexual battery by a student: (Education Code 48918)

- a. Any complaining witness shall be given five days' notice before being called to testify.
- b. Any complaining witness shall be entitled to have up to two adult support persons, including but not limited to a parent/guardian or legal counsel, present during his/her testimony.
- c. Before a complaining witness testifies, support persons shall be admonished that the hearing is confidential.
- d. The person presiding over the hearing may remove a support person whom he/she finds is disrupting the hearing.
- e. If one or both support persons are also witnesses, the hearing shall be conducted according to Penal Code 868.5.
- f. Evidence of specific instances of prior sexual conduct of a complaining witness shall be presumed inadmissible and shall not be heard unless the person conducting the hearing determines that extraordinary circumstances require the evidence to be heard. Before such a determination is made, the complaining witness shall be given notice and an opportunity to oppose the introduction of this evidence. In the hearing on the admissibility of this evidence, the complaining witness shall be entitled to be represented by a parent/guardian, legal counsel or other support person. Reputation or opinion evidence regarding the sexual behavior of a complaining witness shall not be admissible for any purpose.
- g. In order to facilitate a free and accurate statement of the experiences of the complaining witness and to prevent discouragement of complaints, the district shall provide a nonthreatening environment.
 - (1) The district shall provide a room separate from the hearing room for the use of the complaining witness before and during breaks in testimony.
 - (2) At the discretion of the person conducting the hearing, the complaining witness shall be allowed reasonable periods of relief from examination and cross-examination during which he/she may leave the hearing room.
 - (3) The person conducting the hearing may:
 - (a) Arrange the seating within the hearing room so as to facilitate a less intimidating environment for the complaining witness.
 - (b) Limit the time for taking the testimony of a complaining witness to the hours he/she is normally in school, if there is no good cause to take the testimony during other hours.
 - (c) Permit one of the support persons to accompany the complaining witness to the witness stand.

6. Decision Within 10 Days: The Board's decision on whether to expel a student shall be made within 10 school days after the conclusion of the hearing, unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

7. Decision Within 40 Days: If the Board does not meet on a weekly basis, its decision on whether to expel a student shall be made within 40 school days after the student is removed from his/her school of attendance, unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

Alternative Expulsion Hearing: Hearing Officer or Administrative Panel

Instead of conducting an expulsion hearing itself, the Board may contract with the county hearing officer or with the Office of Administrative Hearings of the State of California for a hearing officer. Alternatively, the Board may appoint an impartial administrative panel composed of three or more certificated personnel, none of whom shall be members of the Board or on the staff of the school in which the student is enrolled. (Education Code 48918(d))

A hearing conducted by the hearing officer or administrative panel shall conform to the same procedures as apply to a hearing conducted by the Board as specified in "Conduct of Expulsion Hearing."

The hearing officer or administrative panel shall, within three school days after the hearing, determine whether to recommend expulsion of the student to the Board. If expulsion is not recommended, the student shall be immediately reinstated. (See "Reinstatement.") The Superintendent or designee shall place the student in a classroom instructional program, any other instructional program, a rehabilitation program, or any combination of these programs after consulting with district staff, including the student's teachers, and with the student's parent/guardian. (Education Code 48918(e))

If expulsion is recommended, findings of fact in support of the recommendation shall be prepared and submitted to the Board. All findings of fact and recommendations shall be based solely on the evidence presented at the hearing. The Board may accept the recommendation based either upon a review of the findings of fact and recommendations submitted or upon the results of any supplementary hearing the Board may order. (Education Code 48918(f))

In accordance with Board policy, the hearing officer or administrative panel may recommend that the Board suspend the enforcement of the expulsion for a period of one year. (See "Decision Not to Enforce Expulsion Order" below.)

The Board shall make its decision about the student's expulsion within 40 school days after the date of the student's removal from school unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

The Discipline Review Panel

The Discipline Review Panel will consist of elementary educators when a review is being made of an elementary student and of secondary educators when a review is being made of secondary student.

1. The Discipline Review Panel shall hear the following types of disciplinary cases:
 - a. Requests for expulsion from site principals or the Superintendent.
 - b. School site administrative requests for assistance (non-expulsion situations).
2. Each discipline review panel shall consist of three certificated persons plus a chairperson and shall consist of elementary educators when a review is being made of an elementary student and of secondary educators when a review is being made of a secondary student. A panelist may not serve on any panel involving a student who is currently attending the school in which he/she is assigned. A representative from Student Services shall be a nonvoting member of each panel.

A chairperson and assistant chairperson, to serve when the chairperson is unable to serve, shall be appointed by the Superintendent or designee and shall serve at his/her pleasure. Neither shall be a member of the Student Services staff.

A pool of panelists shall be established which shall be composed of personnel who have served or are currently serving as members of administrative expulsion panels. The committee chairman shall select members to serve on individual panels.

The meetings of the discipline review panel are open to school district personnel only.

The duties of the Discipline Review Panel are as follows:

1. The chairperson shall call a meeting of the panel as soon as possible, but no later than 10 school days after the receipt of notice of a pending case.
2. A recommendation must be forwarded to the Director, Office of Student Services, within three days of the review hearing.
3. In the event a member of the committee cannot be present at a meeting, the Director, Office of Student Services, will appoint an alternate from the pool to attend.

Final Action by the Board

Whether the expulsion hearing is conducted in closed or public session by the Board, a hearing officer, or an administrative panel, the final action to expel shall be taken by the Board at a public meeting. (Education Code 48918(j))

(cf. 9321.1 - Closed Session Actions and Reports)

If the Board conducts the hearing and reaches a decision not to expel, this decision shall be final and the student shall be reinstated immediately.

Upon ordering an expulsion, the Board shall set a date when the student shall be reviewed for readmission to a school within the district. For a student expelled for an act listed under “Mandatory Recommendation and Mandatory Expulsion” above, this date shall be one year from the date the expulsion occurred, except that the Board may set an earlier date on a case-by-case basis. For a student expelled for other acts, this date shall be no later than the last day of the semester following the semester in which the expulsion occurred. (Education Code 48916)

At the time of the expulsion order, the Board shall recommend a plan for the student’s rehabilitation, which may include: (Education Code 48916)

1. Periodic review as well as assessment of the student at the time of review for readmission.
2. Recommendations for improved academic performance, tutoring, special education assessments, job training, counseling, employment, community service and other rehabilitative programs.

With parental consent, students who have been expelled for reasons relating to controlled substances or alcohol may be required to enroll in a county-sponsored drug rehabilitation program before returning to school. (Education Code 48916.5)

Written Notice to Expel

The Superintendent or designee shall send written notice of the decision to expel the student or parent/guardian. This notice shall include the following:

1. The specific offense committed by the student for any of the causes for suspension or expulsion listed in Education Code 48900 (a)-(o), Education Code 48900.2-48900.4, Education Code 48915 (c) and (Education Code 48900.8).
2. The fact that a description of readmission procedures will be made available to the student and his/her parent/guardian. (Education Code 48916)
3. Notice of the right to appeal the expulsion to the County Governing Board. (Education Code 48918)
4. Notice of the alternative educational placements to be provided to the student during the time of expulsion. (Education Code 48918)
5. Notice of the student’s or parent/guardian’s obligation to inform any new district in which the student seeks to enroll of the student’s status with the expelling district, pursuant to Education Code 48915.1 (Education Code 48918).

Decision Not to Enforce Expulsion Order

In accordance with Board policy, when deciding whether to suspend the enforcement of an expulsion, the Board shall take into account the following criteria:

1. The student’s pattern of behavior.
2. The seriousness of the misconduct.
3. The student’s attitude toward the misconduct and his/her willingness to follow a rehabilitation program.

The suspension of the enforcement of an expulsion shall be governed by the following: (Education Code 48917)

1. The Board may, as a condition of the suspension of enforcement, assign the student to a school, class or program appropriate for the student’s rehabilitation. This rehabilitation program may provide for the involvement of the student’s parent/guardian in the student’s education. However, a parent/guardian’s refusal to participate in the rehabilitation program shall not be considered in the Board’s determination as to whether the student has satisfactorily completed the rehabilitation program.
2. During the period when enforcement of the expulsion order is suspended, the student shall be on probationary status.
3. The suspension of the enforcement of an expulsion order may be revoked by the Board if the student commits any of the acts listed under “Grounds for Suspension and Expulsion” above or violates any of the district’s rules and regulations governing student conduct.
4. When the suspension of the enforcement of an expulsion order is revoked, a student may be expelled under the terms of the original expulsion order.
5. Upon satisfactory completion of the rehabilitation assignment, the Board shall reinstate the student in a district school. Upon reinstatement, the Board may order the expunging of any or all records of the expulsion proceedings.
6. Suspension of the enforcement of an expulsion order shall not affect the time period and requirements for the filing of an appeal of the expulsion order with County Board of Education.

7. The Superintendent or designee shall send written notice of any decision to suspend the enforcement of an expulsion order during a period of probation to the student or parent/guardian. The notice shall also inform the parent/guardian of the right to appeal the expulsion to the County Board of Education. (Education Code 48918 (j))

Right to Appeal

The student or parent/guardian is entitled to file an appeal of the Board's decision to the County Board of Education. The appeal must be filed within 30 days of the Board's decision to expel, even if the expulsion action is suspended and the student is placed on probation. (Education Code 48919)

Post-Expulsion Placements

The Board shall refer expelled students to a program of study that is: (Education Code 48915, 48915.01)

1. Appropriately prepared to accommodate students who exhibit discipline problems.
2. Not provided at a comprehensive middle, junior or senior high school or at any elementary school, unless the program is offered at a community day school established at such a site.
3. Not housed at the school site attended by the student at the time of suspension.

(cf. 6185 - Community Day School)

When the placement described above is not available, and when the County Superintendent of Schools so certifies, students expelled for acts described in items #6 through #13 and #17 through #19 under "Grounds for Suspension and Expulsion" may be instead referred to a program of study that is provided at another comprehensive middle, junior, or senior high school, or at an elementary school. (Education Code 48915)

The program for a student expelled from any of grades K-6 shall not be combined or merged with programs offered to students in any of grades 7-12. (Education Code 48916.1)

Readmission After Expulsion

Readmission procedures shall be as follows:

1. On the date set by the Board when it ordered the expulsion, the district shall consider readmission of the student. (Education Code 48916)
2. The Superintendent or designee shall hold a conference with the parent/guardian and the student. At the conference the student's rehabilitation plan shall be reviewed and the Superintendent or designee shall verify that the provisions of this plan have been met. School regulations shall be reviewed and the student and parent/guardian shall be asked to indicate in writing their willingness to comply with these regulations.
3. The Superintendent or designee shall transmit to the Board his/her recommendation regarding readmission. The Board shall consider this recommendation in closed session if information would be disclosed in violation of Education Code 49073-49079. If a written request for open session is received from the parent/guardian or adult student, it shall be honored.
4. If the readmission is granted, the Superintendent or designee shall notify the student and parent/guardian, by registered mail, of the Board's decision regarding readmission.
5. The Board may deny readmission only if it finds that the student has not satisfied the conditions of the rehabilitation plan or that the student continues to pose a danger to campus safety or to other district students or employees. (Education Code 48916)
6. If the Board denies the readmission of a student, the Board shall determine either to continue the student's placement in the alternative educational program initially selected or to place the student in another program that serves expelled students, including placement in a county community school. (Education Code 48916)
7. The Board shall provide written notice to the expelled student and parent/guardian describing the reasons for denying readmittance into the regular program. This notice shall indicate the Board's determination of the educational program which the Board has chosen. The student shall enroll in that program unless the parent/guardian chooses to enroll the student in another school district. (Education Code 48916)

Maintenance of Records

The Board shall maintain a record of each expulsion, including the specific cause of the expulsion. The expulsion record shall be maintained in the student's mandatory interim record and sent to any school in which the student subsequently enrolls, within five days of a written request by the admitting school. (Education Code 48900.8, 48918(k))

The Superintendent or designee shall, within five working days, honor any other district's request for information about an expulsion from this district. (Education Code 48915.1)

(cf. 5119 - Students Expelled from Other Districts)

(cf. 5125 - Student Records)

Notifications to Law Enforcement Authorities

Prior to the suspension or expulsion of any student, the principal or designee shall notify appropriate city or county law enforcement authorities of any student acts of assault which may have violated Penal Code 245. (Education Code 48902)

The principal or designee also shall notify appropriate city or county law enforcement authorities of any student acts which may involve the possession or sale of narcotics or of a controlled substance or possession of weapons or firearms in violation of Penal Code 626.9 and 626.10. (Education Code 48902)

Within one school day after a student's suspension or expulsion, the principal or designee shall notify appropriate city or county law enforcement authorities, by telephone or other appropriate means, of any student acts which may violate Education Code 48900(c) or (d), relating to the possession, use, offering or sale of controlled substances, alcohol, or intoxicants of any kind. (Education Code 48902)

Ouome Data

The Superintendent or designee shall maintain the following data and report such data annually to the California Department of Education, using forms supplied by the California Department of Education: (Education Code 48900.8, 48916.1)

1. The number of students recommended for expulsion.
2. The grounds for each recommended expulsion.
3. Whether the student was subsequently expelled.
4. Whether the expulsion order was suspended.
5. The type of referral made after the expulsion.
6. The disposition of the student after the end of the expulsion period.

Regulation: REDLANDS UNIFIED SCHOOL DISTRICT

Approved: June 27, 1995, Redlands, California

(D) Procedures to Notify Teachers of Dangerous Pupils (EC 49079)

Pursuant to legislative Bill AB29 and Education Code Section 49079, Highland Grove notifies teachers, in writing, of their legal right to review the cumulative file of each pupil assigned to their classroom, who has engaged in, or is reasonably suspected to have engaged in, any of the acts described in any of the subdivisions, except subdivision (h), of Section 48900.

(E) Sexual Harassment Policies (EC 212.6 [b])

Policy 4119.11: Sex Discrimination and Sex-Based Harassment

The Governing Board is committed to providing a safe work environment that is free of harassment and intimidation. The Board prohibits sexual harassment against district employees by anyone, in any manner, and prohibits retaliatory action or behavior against any persons who complains, testifies, or otherwise participates in the complaint process established pursuant to this policy and accompanying administrative regulation. This policy shall apply to all district employees, interns, volunteers, contractors, job applicants, and other persons with an employment relationship with the district.

(cf. 0410 - Nondiscrimination in District Programs and Activities) (cf. 4030 - Nondiscrimination in Employment)

Sexual harassment includes, but is not limited to, harassment that is based on the sex, gender, gender identity, gender expression, or sexual orientation of the victim and harassment based on pregnancy, childbirth, or related medical conditions.

The Superintendent or designee shall take all actions necessary to ensure the prevention, investigation, and correction of sexual harassment, including but not limited to:

1. Providing training to all staff in accordance with law and administrative regulation.
2. Publicizing and disseminating the district's sexual harassment policy to staff.
3. Ensuring prompt, thorough, equitable, and fair investigation of complaints
4. Taking timely and appropriate corrective/remedial actions which may require interim separation of the complainant and the alleged harasser and subsequent monitoring of developments.

The Superintendent or designee shall periodically evaluate the effectiveness of the district's strategies to prevent and address harassment. Such evaluation may involve conducting regular anonymous employee surveys to assess whether harassment is occurring or is perceived to be tolerated, partnering with researchers or other agencies with the needed expertise to evaluate the district's prevention strategies, and using any other effective tool for receiving feedback on systems and/or processes. As necessary, changes shall be made to the harassment policy, complaint procedures, or training.

Sexual Harassment Reports and Complaints

Any district employee who feels that he/she has been sexually harassed in the performance of their district responsibilities or who has knowledge of any incident of sexual harassment by or against another employee shall immediately report the incident to his/her supervisor, the principal, other district administrator, or the district's Title IX Coordinator. However, an employee may bypass his/her supervisor in filing a complaint if the supervisor is the subject of the complaint. A supervisor, principal, or district administrator who receives a harassment complaint shall promptly notify the Title IX Coordinator.

Once notified, the Title IX Coordinator shall ensure the complaint or allegation is addressed through AR 4119.12/4219.12/4319.12 – Title IX Sexual Harassment Complaint Procedures or AR 4030- Nondiscrimination in Employment, as applicable. Because a complaint or allegation that is dismissed or denied under the Title IX complaint procedure may still be subject to consideration under state law, the Title IX Coordinator shall ensure that any implementation of AR 4119.12/4219.12/4319.12 concurrently meets the requirements of AR 4030.

Notwithstanding the above, BP/AR 4119.12/4219.12/4319.12 and 4030 shall under no circumstances be used to resolve complaints brought by, on behalf of, or against students. All complaints brought by, on behalf of, or against students that allege “sexual harassment” as that term is defined in the federal regulations implementing Title IX of the Education Amendments of 1972 (see 34 C.F.R. § 106, et seq.) shall be investigated and resolved under BP/AR 5145.71. All complaints brought by, on behalf of, or against students that do not meet the definition of “sexual harassment” as set forth in the Title IX implementing regulations shall be investigated and resolved under BP/AR 1312.3.

(cf. 4119.12/4219.12/4319.12 - Title IX Sexual Harassment Complaints)

The Title IX Coordinator shall offer supportive measures to the complainant and respondent, as deemed appropriate under the circumstances.

Upon investigation of a sexual harassment complaint, any district employee who engages, or participates in sexual harassment, or who aids, abets, incites, compels, or coerces another to commit sexual harassment in violation of this policy is subject to disciplinary action, up to and including dismissal, in accordance with law and the applicable collective bargaining agreement.

(cf. 4117.7/4317.7 - Employment Status Reports) (cf. 4118 - Dismissal/Suspension/Disciplinary Action) (cf. 4218 -

Dismissal/Suspension/Disciplinary Action)

Regulation 4119.12: Title IX Sex Discrimination and Sex-Based Harassment Complaint Procedures

The complaint procedures described in this administrative regulation shall be used to address any complaint governed by Title IX of the Education Amendments of 1972 alleging that a district employee, while in an education program or activity in which a district school exercises substantial control over the context and respondent, was subjected to one or more of the following forms of sexual harassment: (34 CFR 106.30, 106.44)

1. A district employee conditioning the provision of a district aid, benefit, or service on a person's participation in unwelcome sexual conduct
2. Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the district's education program or activity
3. Sexual assault, dating violence, domestic violence, or stalking as defined in 20 USC 1092 or 34 USC 12291 (cf. 4119.11/4219.11/4319.11 - Sexual Harassment)

All other sexual harassment complaints or allegations shall be investigated and resolved in accordance with AR 4030

- Nondiscrimination in Employment. The determination of whether the allegations meet the definition of sexual harassment under Title IX shall be made by the district's Title IX Coordinator.

(cf. 4030 - Nondiscrimination in Employment)

Because the complainant has a right to pursue a complaint under AR 4030 for any allegation that is dismissed or denied under the Title IX complaint procedure, the Title IX Coordinator shall ensure that all requirements and timelines for AR 4030 are concurrently met while implementing the Title IX procedure.

Reporting Allegations/Filing a Formal Complaint

An employee who is the alleged victim of sexual harassment may submit a report of sexual harassment to the district's Title IX Coordinator using the contact information listed in AR 4119.11/4219.11/4319.11 - Sexual Harassment or to the employee's direct supervisor or other district administrator, who shall forward the report to the Title IX Coordinator within one day of receiving the report. Upon receiving such a report, the Title IX Coordinator shall inform the complainant of the right to file a formal complaint and the process for filing a formal complaint.

A formal complaint, with the complainant's physical or digital signature, may be filed with the Title IX Coordinator in person, by mail, by email, or by any other method authorized by the district. (34 CFR 106.30)

Even if the alleged victim chooses not to file a formal complaint, the Title IX Coordinator shall file a formal complaint in situations when a safety threat exists. In addition, the Title IX Coordinator may file a formal complaint in other situations as permitted under the Title IX regulations, including as part of the district's obligation to not be deliberately indifferent to known allegations of sexual harassment. In such cases, the Title IX Coordinator shall provide the alleged victim notices as required by the Title IX regulations at specific points in the complaint process.

The Title IX Coordinator, investigator, decision-maker, or a facilitator of an informal resolution process shall not have a conflict of interest or bias for or against complainants or respondents generally or an individual complainant or respondent. Such persons shall receive training in accordance with 34 CFR 106.45. (34 CFR 106.45)

Supportive Measures

Upon receipt of a report of Title IX sexual harassment, the Title IX Coordinator shall promptly contact the complainant to discuss the availability of supportive measures and shall consider the complainant's wishes with respect to the supportive measures implemented. Supportive measures shall be offered as appropriate, as reasonably available, and without charge to the complainant or the respondent before or after the filing of a formal complaint or where no formal complaint has been filed. Such measures shall be nondisciplinary, nonpunitive, and not unreasonably burden the other party, including measures designed to protect the safety of all parties or the district's educational environment or to deter sexual harassment. Supportive measures may include, but are not limited to, counseling, extensions of deadlines, modifications of work schedules, mutual restrictions on contact, changes in work locations, leaves of absence, increased security, and monitoring of certain areas of the campus. (34 CFR 106.30, 106.44)

The district shall maintain as confidential any supportive measures provided to the complainant or respondent, to the extent that maintaining such confidentiality would not impair the district's ability to provide the supportive measures. (34 CFR 106.30)

Emergency Removal

If a district employee is the respondent, the employee may be placed on administrative leave during the pendency of the formal complaint process. (34 CFR 106.44)

If the respondent is a student, the district may, on an emergency basis, remove the student from the district's education program or activity, provided that the district conducts an individualized safety and risk analysis, determines that removal is justified due to an immediate threat to the physical health or safety of any student or other individual arising from the allegations, and provides the student with notice and an opportunity to challenge the decision immediately following the removal. This authority to remove a student does not modify a student's rights under the Individuals with Disabilities Education Act or Section 504 of the Rehabilitation Act of 1973. (34 CFR 106.44)

Dismissal of Complaint

The Title IX Coordinator shall dismiss a formal complaint if the alleged conduct would not constitute sexual harassment as defined in

34 CFR 106.30 even if proved. The Title IX Coordinator shall also dismiss any complaint in which the alleged conduct did not occur in the district's education program or activity or did not occur against a person in the United States, and may dismiss a formal complaint if the complainant notifies the district in writing that the complainant would like to withdraw the complaint or any allegations in the complaint, the respondent is no longer employed by the district, or sufficient circumstances prevent the district from gathering evidence sufficient to reach a determination with regard to the complaint. (34 CFR 106.45)

Upon dismissal, the Title IX Coordinator shall promptly send written notice of the dismissal and the reasons for the dismissal simultaneously to the parties and shall inform them of their right to appeal the dismissal of a formal complaint or any allegation in the complaint in accordance with the appeal procedures described in the section "Appeals" below. (34 CFR 106.45)

If a complaint is dismissed, the conduct may still be addressed pursuant to AR 4030 - Nondiscrimination in Employment as applicable.

Informal Resolution Process

When a formal complaint of sexual harassment is filed, the district may offer an informal resolution process, such as mediation, at any time prior to reaching a determination regarding responsibility. The district shall not require a party to participate in the informal resolution process or to waive the right to an investigation and adjudication of a formal complaint. (34 CFR 106.45)

The district may facilitate an informal resolution process provided that the district: (34 CFR 106.45)

1. Provides the parties with written notice disclosing the allegations, the requirements of the informal resolution process, the right to withdraw from the informal process and resume the formal complaint process, and any consequences resulting from participating in the informal resolution process, including that records will be maintained or could be shared.
2. Obtains the parties' voluntary, written consent to the informal resolution process

Written Notice

If a formal complaint is filed, the Title IX Coordinator shall provide the known parties with written notice of the following: (34 CFR 106.45)

1. The district's complaint process, including any informal resolution process
2. The allegations potentially constituting sexual harassment with sufficient details known at the time, including the identity of parties involved in the incident if known, the conduct allegedly constituting sexual harassment, and the date and location of the alleged incident if known. Such notice shall be provided with sufficient time for the parties to prepare a response before any initial interview. If, during the course of the investigation, new Title IX allegations arise about the complainant or respondent that are not included in the initial notice, the Title IX Coordinator shall provide notice of the additional allegations to the parties.
3. A statement that the respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility is made at the conclusion of the complaint process
4. The opportunity for the parties to have an advisor of their choice who may be, but is not required to be, an attorney, and the ability to inspect and review evidence
5. The prohibition against knowingly making false statements or knowingly submitting false information during the complaint process

The above notice shall also include the name of the investigator, facilitator of an informal process, and decision-maker and shall inform the parties that, if at any time a party has concerns regarding conflict of interest or bias regarding any of these persons, the party should immediately notify the Title IX Coordinator.

Investigation Procedures

During the investigation process, the district's designated investigator shall: (34 CFR 106.45)

1. Provide an equal opportunity for the parties to present witnesses, including fact and expert witnesses, and other inculpatory and

exculpatory evidence

2. Not restrict the ability of either party to discuss the allegations under investigation or to gather and present relevant evidence
3. Provide the parties with the same opportunities to have others present during any grievance proceeding, including the opportunity to be accompanied to any related meeting or proceeding by the advisor of their choice, who may be, but is not required to be, an attorney
4. Not limit the choice or presence of an advisor for either the complainant or respondent in any meeting or grievance proceeding, although the district may establish restrictions regarding the extent to which the advisor may participate in the proceedings as long as the restrictions apply equally to both parties
5. Provide, to a party whose participation is invited or expected, written notice of the date, time, location, participants, and purpose of all investigative interviews or other meetings, with sufficient time for the party to prepare to participate
6. Send in an electronic format or hard copy to both parties and their advisors, if any, the evidence obtained as part of the investigation that is directly related to the allegations raised in the complaint, and provide the parties at least 10 days to submit a written response for the investigator to consider prior to the completion of the investigative report
7. Objectively evaluate all relevant evidence, including both inculpatory and exculpatory evidence, and determine credibility in a manner that is not based on a person's status as a complainant, respondent, or witness
8. Create an investigative report that fairly summarizes relevant evidence and, at least 10 days prior to the determination of responsibility, send to the parties and their advisors, if any, the investigative report in an electronic format or a hard copy, for their review and written response

Questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant, unless such questions and evidence are offered to prove that someone other than the respondent committed the conduct alleged by the complainant or if the questions and evidence concern specific incidents of the complainant's prior sexual behavior with respect to the respondent and are offered to prove consent. (34 CFR 106.45)

Privacy rights of all parties to the complaint shall be maintained in accordance with applicable state and federal laws.

If the complaint is against an employee, rights conferred under an applicable collective bargaining agreement shall be applied to the extent they do not conflict with the Title IX requirements.

Written Decision

The Superintendent shall designate an employee as the decision-maker to determine responsibility for the alleged conduct, who shall not be the Title IX Coordinator or a person involved in the investigation of the matter. (34 CFR 106.45)

After the investigative report has been sent to the parties but before reaching a determination regarding responsibility, the decision-maker shall afford each party the opportunity to submit written, relevant questions that the party wants asked of any party or witness, provide each party with the answers, and allow for additional, limited follow-up questions from each party.

The decision-maker shall issue, and simultaneously provide to both parties, a written decision as to whether the respondent is responsible for the alleged conduct. (34 CFR 106.45)

The written decision shall be issued within 60 calendar days of the receipt of the complaint.

The timeline may be temporarily extended for good cause with written notice to the complainant and respondent of the extension and the reasons for the action. (34 CFR 106.45)

In making this determination, the decision-maker shall use the "preponderance of the evidence" standard for all formal complaints of sexual harassment. (34 CFR 106.45)

The written decision shall include the following: (34 CFR 106.45)

1. Identification of the allegations potentially constituting sexual harassment as defined in 34 CFR 106.30

2. A description of the procedural steps taken from receipt of the formal complaint through the written decision, including any notifications to the parties, interviews with parties and witnesses, site visits, methods used to gather other evidence, and hearings held if the district includes hearings as part of the grievance process
3. Findings of fact supporting the determination
4. Conclusions regarding the application of the district's code of conduct or policies to the facts
5. A statement of, and rationale for, the result as to each allegation, including a decision regarding responsibility, any disciplinary sanctions the district imposes on the respondent, and whether remedies designed to restore or preserve equal access to the district's educational program or activity will be provided by the district to the complainant
6. The district's procedures and permissible bases for the complainant and respondent to appeal

Appeals

Either party may appeal the district's decision or dismissal of a formal complaint or any allegation in the complaint, if the party believes that a procedural irregularity affected the outcome, new evidence is available that could affect the outcome, or a conflict of interest or bias by the Title IX Coordinator, investigator(s), or decision-maker(s) affected the outcome. If an appeal is filed, the district shall: (34 CFR 106.45)

1. Notify the other party in writing when an appeal is filed and implement appeal procedures equally for both parties
2. Ensure that the decision-maker(s) for the appeal is trained in accordance with 34 CFR 106.45 and is not the same decision-maker(s) who reached the determination regarding responsibility or dismissal, the investigator(s), or the Title IX Coordinator
3. Give both parties a reasonable, equal opportunity to submit a written statement in support of, or challenging, the outcome
4. Issue a written decision describing the result of the appeal and the rationale for the result
5. Provide the written decision simultaneously to both parties

An appeal must be filed in writing within 10 calendar days of receiving the notice of the decision or dismissal, stating the grounds for the appeal and including any relevant documentation in support of the appeal. Appeals submitted after this deadline are not timely and shall not be considered.

A written decision shall be provided to the parties within 20 calendar days from the receipt of the appeal.

Either party has the right to file a complaint with the U.S. Department of Education's Office for Civil Rights within 180 days of the date of the most recently alleged misconduct.

The complainant shall be advised of any civil law remedies, including, but not limited to, injunctions, restraining orders, or other remedies or orders that may be available under state or federal antidiscrimination laws, if applicable.

Remedies

When a determination of responsibility for sexual harassment has been made against the respondent, the district shall provide remedies to the complainant. Such remedies may include the same individualized services described above in the section "Supportive Measures," but need not be nondisciplinary or nonpunitive and need not avoid burdening the respondent. (34 CFR 106.45)

Disciplinary Actions

The district shall not impose any disciplinary sanctions or other actions against a respondent, other than supportive measures as described above in the section "Supportive Measures," until the complaint procedure has been completed and a determination of responsibility has been made. (34 CFR 106.44)

When an employee is found to have committed sexual harassment or retaliation, the district shall take appropriate disciplinary action, up to and including dismissal, in accordance with applicable law and collective bargaining agreement.

(cf. 4117.7/4317.7 - Employment Status Report)

(cf. 4118 - Dismissal/Suspension/Disciplinary Action) (cf. 4119.11/4219.11/4319.11 - Sexual Harassment) (cf. 4218 - Dismissal/Suspension/Disciplinary Action)

Record-Keeping

The Superintendent or designee shall maintain, for a period of seven years: (34 CFR 106.45)

1. A record of all reported cases and Title IX investigations of sexual harassment, any determinations of responsibility, any audio or audiovisual recording and transcript if applicable, any disciplinary sanctions imposed, any remedies provided to the complainant, and any appeal or informal resolution and the results therefrom.
2. A record of any actions, including supportive measures, taken in response to a report or formal complaint of sexual harassment, including the district's basis for its conclusion that its response was not deliberately indifferent, the measures taken that were designed to restore or preserve equal access to the education program or activity, and, if no supportive measures were provided to the complainant, the reasons that such a response was not unreasonable in light of the known circumstances.
3. All materials used to train the Title IX Coordinator, investigator(s), decision-maker(s), and any person who facilitates an informal resolution process. The district shall make such training materials publicly available on its web site, or if the district does not maintain a web site, available upon request by members of the public.

(F) School-wide Dress Code Relating to Gang-Related Apparel (EC 35183)

Policy 5132.16: Student Dress Guidelines

The Governing Board believes that appropriate dress and grooming contribute to a productive learning environment. The Board expects students to give proper attention to personal cleanliness and to wear clothes that are suitable for the school activities in which they participate. Students' clothing must not present a health or safety hazard or a distraction which would interfere with the educational process.

Students and parents/guardians shall be informed about dress and grooming standards at the beginning of the school year and whenever these standards are revised. A student who violates these standards shall be subject to appropriate disciplinary action.

Gang-Related Apparel

The principal, staff and parents/guardians at a school may establish a reasonable dress code that prohibits students from wearing gang-related apparel when there is evidence of a gang presence that disrupts or threatens to disrupt the school's activities. Such a dress code may be included as part of the school safety plan and must be presented to the Board for approval. The Board shall approve the plan upon determining that it is necessary to protect the health and safety of the school's students.

The Board recognizes that, in order to promote student safety and discourage peer rivalry and/or gang activity, the principal, staff and parent/guardian at a school site may wish to establish a reasonable dress code, which may include voluntary school uniforms.

Dress codes, which include voluntary school uniforms, may be included as part of the school safety plan submitted as required.

The Superintendent or designee shall establish procedures that schools, parents and guardians will follow if they decide to participate with the voluntary school uniform policy. Students shall not be penalized academically, otherwise discriminated against or denied attendance to school if their parents/guardian decide not to participate.

The Governing Board feels that there is nothing inherently wrong with dress or color of dress, but when student's dress serves to intimidate or impede the rights of other students it will be determined that dress is in violation of this policy. A student may not remain at school dressed in a manner which (1) creates a safety hazard for said student or for other students at school, and/or (2) when the dress constitutes a serious and unnecessary distraction to the learning process or tends to disrupt campus order

When the site administrator/designee determines that a student's attire is in violation of this policy, the student will be required to modify his/her clothing and/or apparel in such a manner that it no longer violates this policy. If necessary, the student may be taken or sent home with parental permission to modify unacceptable dress and return to school. Refusal to take steps as described in this policy shall be cause for disciplinary action against the student. Any such disciplinary action shall be handled pursuant to existing student disciplinary policy

Parents/guardians have primary responsibility to see that students are properly attired for school. School district personnel have the responsibility for maintaining proper and appropriate conditions conducive to learning. Hence, the following guidelines will be implemented in all district schools.

1. Shoes will be worn at all times. A substantial sole is required and enclosed toe and heel footwear are highly encouraged.
2. Extremely brief garments that are distracting to the educational environment are not appropriate. Clothing shall be sufficient to conceal undergarments at all times.
3. Clothing or accessories shall be free of writing, pictures or any other insignia which are crude, violent, obscene or sexually suggestive or which advocate racial, ethnic or religious prejudice or the use of tobacco, drugs or alcohol.
4. Earrings, jewelry, or accessories which present a safety hazard to the wearer or others are not suitable for school wear.
5. Only prescription sunglasses may be worn in class. Other types of sunglasses may be worn on campus outside of class.
6. Identified gang attire such as bandannas, haircuts or hair rollers, or any gang paraphernalia are prohibited.

Students are allowed to wear sun protective clothing, including hats, while outdoors during the school day. Each school site will develop a policy indicating the type of sun protective hats that are permitted.

No grade of a student participating in a physical education class shall be adversely affected if the student does not wear standardized physical education apparel because of circumstances beyond the student's control. (Education Code 49066) All clothing worn during physical education shall meet reasonable safety standards.

The purpose of adopting these Student Dress Guidelines is not to infringe on any individual student's rights to freedom of expression, but rather to encourage students to dress appropriately and come to school properly prepared for participating in the educational process.

Gang-Related Apparel

Because gang-related symbols are constantly changing, definitions of gang-related apparel shall be reviewed as needed and updated as necessary.

Uniforms

In schools where a majority of parents respond and indicate on a survey that they desire to establish a voluntary school-wide uniform dress code, the principal, staff and the parents/guardians of the individual school site shall:

1. Jointly select the specific uniform to be worn. (Education Code 35183)
2. Describe the uniform parts and identify local vendors who sell those pieces of clothing. A description of the implementation of the voluntary uniform dress code will be submitted to the superintendent's designee including:
 - a. The process for parent notification
 - b. Positive procedures that will be used to encourage students to participate with the voluntary uniform dress code
3. A description of the uniform and a list of costs for each competitively priced item of clothing as provided by a variety of vendors will be sent to parents.
4. Parents will be notified that this is a voluntary uniform dress code and that students not participating shall not be penalized academically, otherwise discriminated against or denied attendance to school if their parents/guardians so decide.

Parent Notification

The principal shall give parents/guardian at least six months notice before a school site implements a voluntary school uniform dress code. (Education Code 35183)

(G) Procedure for Safe Ingress and Egress of Pupils, Parents, and Staff to and from School (EC 35294.2)

(I) School Discipline Rules and Consequences (EC 35291 and EC 35291.5)

Highland Grove Elementary Student Conduct Code

Procedures to Ensure a Safe and Orderly Environment

Rules and Procedures on School Discipline

Philosophy of Discipline

- Behavior expectations and the consequences for not meeting expectations must be clearly communicated to all students and their parents (in writing as well as verbally).
- The severity of consequences for violating behavior expectations increases with each incident of inappropriate behavior.
- The consequences for violating behavior expectations should be severe enough to discourage students from making poor behavior decisions.
- Expectations and consequences should permit students an opportunity to eliminate inappropriate behavior.

Elements of a Good Discipline Program

1. The program is focused upon making the entire campus, especially the classroom, a safe, supportive and orderly environment for learning for students and staff.
2. Classroom authority is retained by the classroom teacher. (Administration's role is to support, not to replace.)
3. Rules and procedures are clearly understood by staff and students.
4. All staff members will acknowledge and take appropriate action on any minor or major infraction of the school rules.
5. Rules and procedures comply with State Law and District policies.
6. The program recognizes the responsibilities and the rights of students and staff.
7. Program is structured to keep students in class and engaged in the educational process.
8. Rules are enforced:
 - A. by all staff members at all times.
 - B. strictly, but not rigidly (beware of "automatics").
 - C. in substantial part by adult modeling.
 - D. using techniques that promote the growth of positive self-esteem.
 - E. as close to the source as is possible.
 - F. by keeping parents informed.
9. The discipline program is understood, endorsed, and supported by staff, parents, and students.

PRINCIPAL'S STATEMENT TO STAFF

Expectations in Developing & Maintaining Discipline

Principals Expectations:

Each teacher will have a defined system of classroom management that follows PBIS procedures. A written description of this system, including representative examples of the progressive interventions you intend to employ, will be turned in. Whenever possible and appropriate, teachers are encouraged to use standards and systems that are consistent with established campus guidelines. Each administrator will assist and support you in every reasonable way in developing, implementing, and refining that system as needed. Each staff member will hold students accountable for their behavior on the school grounds at all times.

That when you refer a student for discipline:

1. The student has been made fully aware of classroom and school rules and knows what rules he/she has violated.
2. Teachers will discuss any continuing behavior problems and schedule a team conference with the student and parents when appropriate.
3. That information will be provided on the referral regarding previous actions you have taken regarding this specific issue.
4. You have exhausted the interventions at your disposal (i.e., you have done everything you can do) and you have followed the guidelines established by the administration and staff on what constitutes an appropriate behavior referral.
5. The behavior was so serious or so blatant as to make immediate removal from the classroom necessary.
6. The written referral will be explicit in stating the offense(s).
7. You will send the student out of class with a referral only if his/her continued presence in the class would disrupt or prevent teaching and/or learning.
8. If necessary, the referral will be delivered to the office at a time convenient to the staff member so that the issue may be handled most efficiently, causing a minimum of lost class time.

Staff members can expect

1. Each administrator to support your position in every reasonable way.
2. A reasonable response time on your referral.
3. The availability of an administrator to discuss unresolved referrals after school on any given day.
4. That the administrator will exercise independent judgment regarding disposition of referrals.
5. Administrator support, investigation, and follow-through as indicated.
6. A response to referrals from incidents outside the classroom to be the same as to those within.

WHAT TO DO WHEN PROBLEMS APPEAR

Both behavioral and academic problems are present in some of our students. Guidelines for dealing with these problems are as follows:

1. Talk to the administrator.

2. Call parents at first sign of concern. Inform the parents of your observations, ask for their ideas, assistance, and support in serving the student. Keep a log of your calls.
3. If possible, talk privately to the student about your concerns.
4. Behavior concerns—look through student's CUM file. Any official suspensions will be in file, also look for teacher comments on report cards. Look for patterns of behavior. We use In-House Suspension whenever possible, as it is preferable to having students at home unattended. Serious infractions (fighting, threats, etc.) do result in official suspension. Unresponsive students can be moved to other schools or expelled.
5. Referrals—please remember if you write a student referral, you are required to call the parents. You are writing the referral and can answer the parents' questions firsthand. Administrators will also call parents, but we can only give secondhand information on the incident.
6. Academic Concerns—again, look through student's CUMs. This will contain test scores, report cards, and a student history. You may want to ask the grade level administrator to schedule an Intervention Study Team (IST). This will involve a meeting with the student, parents, administrators, student's teachers, and perhaps the psychologist.

(K) Hate Crime Reporting Procedures and Policies

Policy 5145.3: Nondiscrimination/Harassment

The Governing Board desires to provide a safe school environment that allows all students equal access to and opportunities in the district's academic, extracurricular, and other educational support programs, services, and activities. The Board prohibits unlawful discrimination in any education program or activity, at or on the way to and from any district school or school activity, related to school activity or school attendance occurring within a district school, and which occurs off campus or outside of school-related or school-sponsored activities, but which may have an impact or create a hostile environment at school. Unlawful discrimination includes discriminatory harassment, intimidation, and bullying targeted at any student, by anyone, based on the student's actual or perceived race, color, ancestry, nationality, national origin, immigration status, ethnic group identification, ethnicity, age, religion, marital or parental status, pregnancy, physical or mental disability, medical condition, sex, sexual orientation, gender, gender identity, gender expression or genetic information; or association with a person or group with one or more of these actual or perceived characteristics.

Title IX of the Education Amendments of 1972 is a source of the obligation not to discriminate on the basis of sex, including gender, pregnancy and related conditions, sex stereotypes, gender identity, transgender status, sexual orientation, and parental status. Complaints alleging unlawful discrimination on the basis of race, color, national origin, sex, age, or disability or for retaliation for the purpose of interfering with any right or privilege protected by the laws enforced by the Office for Civil Rights can be filed directly with the Assistant Secretary for the Office for Civil Rights at OCR@ed.gov or <https://ocrcas.ed.gov>.

(cf. 0410 - Nondiscrimination in District Programs and Activities) (cf. 5131 - Conduct) (cf. 5131.2 - Bullying)

(cf. 5146 - Married/Pregnant/Parenting Students)
(cf. 6164.6 - Identification and Education Under Section 504)

This policy shall apply to all acts constituting unlawful discrimination or harassment related to school activity or to school attendance occurring within a district school, and to acts which occur off campus or outside of school-related or school-sponsored activities, but which may have an impact or create a hostile environment at school.

Unlawful discrimination, including discriminatory harassment, intimidation, or bullying, may result from physical, verbal, nonverbal, or written conduct based on one of the categories listed above. Unlawful discrimination also occurs when prohibited conduct is so severe, persistent, or pervasive that it affects a student's ability to participate in or benefit from an educational program or activity; creates an intimidating, threatening, hostile, or offensive educational environment; has the effect or purpose of substantially or unreasonably interfering with a student's academic performance; or otherwise adversely or negatively affects a student's educational opportunities, or academic performance.

Unlawful discrimination also includes disparate treatment of students based on one of the categories above with respect to the provision of opportunities to participate in school programs or activities or the provision or receipt of educational benefits or services.

The Board also prohibits any form of retaliation against any individual who reports or participates in the reporting of unlawful discrimination, files or participates in the filing of a complaint, or investigates or participates in the investigation of a complaint or report alleging unlawful discrimination. Retaliation complaints shall be investigated and resolved in the same manner as a discrimination complaint.

The Superintendent or designee shall facilitate students' access to the educational program by publicizing the district's nondiscrimination policy and related complaint procedures to students, parents/guardians, and employees. In addition, the Superintendent or designee shall post the district's policies prohibiting discrimination, harassment, intimidation, and bullying and other required information on the district's web site in a manner that is easily accessible to parents/guardians and students, in accordance with law and the accompanying administrative regulation.

The Superintendent or designee shall provide training and/or information on the scope and use of the policy and complaint procedures and take other measures designed to increase the school community's understanding of the requirements of law related to discrimination. The Superintendent or designee shall regularly review the implementation of the district's nondiscrimination policies and practices and, as necessary, shall take action to remove any identified barrier to student access to or participation in the district's educational program. The Superintendent or designee shall report the findings and recommendations to the Board after each review.

(cf. 6145 - Extracurricular and Cocurricular Activities) (cf. 6145.2 - Athletic Competition)
(cf. 6164.2 - Guidance/Counseling Services)

Regardless of whether a complainant complies with the writing, timeline, and/or other formal filing requirements, all complaints alleging unlawful discrimination, including discriminatory harassment, intimidation, or bullying, shall be investigated and prompt action taken to stop the discrimination, prevent recurrence, and address any continuing effect on students.

Students who engage in unlawful discrimination, including discriminatory harassment, intimidation, bullying, or retaliation, in violation of law, Board policy, or administrative regulation, shall be subject to appropriate consequence or discipline, which may include suspension or expulsion when the behavior is severe or pervasive as defined in Education Code 48900.4. School personnel shall take immediate steps to intervene, when safe to do so, whenever site personnel witness an act of discrimination, harassment, intimidation, or bullying. Any employee who permits or engages in prohibited discrimination, including discriminatory harassment, intimidation, bullying, or retaliation, shall be subject to disciplinary action, up to and including dismissal.

Record-Keeping

The Superintendent or designee shall maintain a record of all reported cases of unlawful discrimination, including discriminatory harassment, intimidation, or bullying, to enable the district to monitor, address, and prevent repetitive prohibited behavior in district schools. The record shall be maintained for a minimum of ten years.

The record shall be maintained in a centralized, electronic tracking and response system (centralized system) for all oral and written complaints of sex discrimination, and sexual harassment, assault, intimidation, bullying or abuse, and any retaliation related to the submission of such reports and complaints, including those submitted anonymously.

The centralized system shall contain all documents provided or generated during an investigation, resolution, or appeal.

Measures to Prevent Discrimination

To prevent unlawful discrimination, including discriminating harassment, intimidation, retaliation and bullying of students at district schools or in school activities and to ensure equal access of all students to the educational program, the Superintendent or designee shall implement the following measures:

1. Publicize the district's nondiscrimination policy and related complaint procedures, including the coordinator/compliance officer's contact information, to students, parents/guardians, employees, volunteers, and the general public by posting them in prominent locations and providing easy access to them through district-supported communications.

2. Post the district's policies and procedures prohibiting discrimination, harassment, student sexual harassment, intimidation, bullying, and cyberbullying, including a section on social media bullying that includes all of the references described in Education Code 234.6 as possible forums for social media, in a prominent location on the district's website in a manner that is easily accessible to parents/guardians and students (Education Code 234.6)

(cf. 0410 - Nondiscrimination in District Programs and Activities) (cf. 1113 - District and School Websites) (cf. 1114 - District-Sponsored Social Media) (cf. 5131.2 - Bullying)

(3) A web link to the OCR complaints form and the contact information for the office, including the phone number and email address for the office

d. A link to the Title IX information included on the California Department of Education's (CDE) website

5. Post a link to statewide CDE-compiled resources, including community-based organizations, that provide support to youth who have been subjected to school-based discrimination, harassment, intimidation, or bullying and to their families. Such resources shall be posted in a prominent location on the district's web site in a manner that is easily accessible to parents/guardians and students. (Education Code 234.5, 234.6)

6. Provide to students a handbook that contains age-appropriate information that clearly describes the district's nondiscrimination policy, procedures for filing a complaint, and resources available to students who feel that they have been the victim of any such behavior.

7. Annually notify all students and parents/guardians of the district's nondiscrimination policy, including its responsibility to provide a safe, nondiscriminatory school environment for all students, including transgender and gender-nonconforming students. The notice shall inform students and parents/guardians that they may request to meet with the Assistant Superintendent of Compliance to determine how best to accommodate or resolve concerns that may arise from the district's implementation of its nondiscrimination policies. The notice shall also inform all students and parents/guardians that, to the extent possible, the district will address any individual student's interests and concerns in private.

(cf. 5145.6 - Parental Notifications)

8. Ensure that students and parents/guardians, including those with limited English proficiency, are notified of how to access the relevant information provided in the district's nondiscrimination policy and related complaint procedures, notices, and forms in a language they can understand.

If 15 percent or more of students enrolled in a particular district school speak a single primary language other than English, the district's policy, regulation, forms, and notices concerning nondiscrimination shall be translated into that language in accordance with Education Code 234.1 and 48985. In all other instances, the district shall ensure meaningful access to all relevant information for parents/guardians with limited English proficiency.

9. Provide to students, employees, volunteers, and parents/guardians age-appropriate training and/or information regarding the district's nondiscrimination policy; what constitutes prohibited discrimination, including discriminatory harassment, intimidation, retaliation, or bullying; how and to whom a report of an incident should be made; and how to guard against segregating or stereotyping students when providing instruction, guidance, supervision, or other services to them. Such training and information shall include details of guidelines the district may use to provide a discrimination-free environment for all district students, including transgender and gender-nonconforming students.

(cf. 1240 - Volunteer Assistance)

(cf. 4131/4231/4331 - Staff Development)

10. At the beginning of each school year, inform school employees that any employee who witnesses any act of unlawful discrimination, including discriminatory harassment, intimidation, or bullying, against a student is required to intervene if it is safe to do so. (Education Code 234.1)

(cf. 4112.9/4212.9/4312.9 - Employee Notifications)

11. At the beginning of each school year, inform each principal or designee of the district's responsibility to provide appropriate assistance or resources to protect students from threatened or potentially discriminatory behavior and ensure their privacy rights.

Enforcement of District Policy

Process for Initiating and Responding to Complaints

Any student who feels that he/she has been subjected to unlawful discrimination described above or in district policy is strongly encouraged to immediately contact the Assistant Superintendent of Compliance, the principal, or any other staff member. In addition, any student who observes any such incident is strongly encouraged to report the incident to the Assistant Superintendent of Compliance or principal, whether or not the alleged victim files a complaint.

Any school employee who observes an incident of unlawful discrimination, including discriminatory harassment, intimidation, retaliation, or bullying, or to whom such an incident is reported, shall report the incident to the Assistant Superintendent of Compliance and the principal, within one school day, whether or not the alleged victim files a complaint.

Any school employee who witnesses an incident of unlawful discrimination, including discriminatory harassment, intimidation, retaliation, or bullying, shall immediately intervene to stop the incident when it is safe to do so. (Education Code 234.1)

When a report of unlawful discrimination, including discriminatory harassment, intimidation, retaliation, or bullying, is made to or received by the principal or Assistant Superintendent of Compliance, the principal or Assistant Superintendent of Compliance shall notify the student or parent/guardian of the right to file a formal complaint in accordance with AR 1312.3 - Uniform Complaint Procedures, or, for complaints of sexual harassment that meet the federal Title IX definition, AR 5145.71 - Title IX Sexual Harassment Complaint Procedures. Once notified verbally or in writing, the Assistant Superintendent of Compliance shall begin the investigation and shall implement immediate measures necessary to stop the discrimination and ensure that all students have access to the educational program and a safe school environment. Any interim measures adopted to address unlawful discrimination shall, to the extent possible, not disadvantage the complainant or a student who is the victim of the alleged unlawful discrimination.

Any report or complaint alleging unlawful discrimination by the principal, Assistant Superintendent of Compliance, or any other person to whom a report would ordinarily be made or complaint filed shall instead be made to or filed with

the Superintendent or designee who shall determine how the complaint will be investigated.

(cf. 5141.4 - Child Abuse Prevention and Reporting) Transgender and Gender-Nonconforming Students

Gender identity of a student means the student's gender-related identity, appearance, or behavior, as determined from the student's internal sense whether or not that gender-related identity, appearance, or behavior is different from that traditionally associated with the student's physiology or assigned sex at birth.

Gender expression means a student's gender-related appearance and behavior, whether or not stereotypically associated with the student's assigned sex at birth. (Education Code 210.7)

Gender transition refers to the process in which a student changes from living and identifying as the sex assigned to the student at birth to living and identifying as the sex that corresponds to the student's gender identity.

Transgender student means a student whose gender identity is different from the gender assigned at birth.

Gender-nonconforming student means a student whose gender expression differs from stereotypical expectations.

The district prohibits acts of verbal, nonverbal, or physical aggression, intimidation, or hostility that are based on sex, gender identity, or gender expression, or that have the purpose or effect of producing a negative impact on the student's academic performance or of creating an intimidating, hostile, or offensive educational environment regardless of whether the acts are sexual in nature. Examples of the types of conduct which are prohibited in the district and which may constitute gender-based harassment include, but are not limited to:

1. Refusing to address a student by a name and the pronouns consistent with the student's gender identity

2. Disciplining or disparaging a student or excluding the student from participating in activities for behavior or appearance that is consistent with the student's gender identity or that does not conform to stereotypical notions of masculinity or femininity, as applicable
3. Blocking a student's entry to the restroom that corresponds to the student's gender identity
4. Taunting a student because the student participates in an athletic activity more typically favored by a student of the other sex
5. Revealing a student's transgender status to individuals who do not have a legitimate need for the information, without the student's consent or when doing so would place the student at risk of physical, emotional, or psychological harm
6. Using gender-specific slurs
7. Physically assaulting a student motivated by hostility toward the student because of the student's gender, gender identity, or gender expression

The district's uniform complaint procedures (AR 1312.3), or Title IX sexual harassment procedures (AR 5145.71), as applicable, shall be used to report and resolve complaints alleging discrimination against transgender and gender- nonconforming students.

Examples of bases for complaints include, but are not limited to, the above list, as well as improper rejection by the district of a student's asserted gender identity, denial of access to facilities that correspond with a student's gender identity, improper disclosure of a student's transgender status, discriminatory enforcement of a dress code, and other instances of gender-based harassment.

To ensure that transgender and gender-nonconforming students are afforded the same rights, benefits, and protections provided to all students by law and Board policy, the district shall address each situation on a case-by- case basis, in accordance with the following guidelines:

1. Right to privacy: A student's transgender or gender-nonconforming status is the student's private information and the district will only disclose the information to others with the student's prior written consent, except when the disclosure is otherwise required by law or when the district has compelling evidence that disclosure is necessary to preserve the student's physical or mental well-being. In any case, the district shall only allow disclosure of a student's personally identifiable information to employees with a legitimate educational interest as determined by the district pursuant to 34 CFR 99.31. Any district employee to whom a student's transgender or gender- nonconforming status is disclosed shall keep the student's information confidential. When disclosure of a student's gender identity is made to a district employee by a student, the employee shall seek the student's permission to notify the Assistant Superintendent of Compliance . If the student refuses to give permission, the employee shall keep the student's information confidential, unless he/she is required to disclose or report the student's information pursuant to this administrative regulation, and shall inform the student that honoring the student's request may limit the district's ability to meet the student's needs related to the student's status as a transgender or gender-nonconforming student. If the student permits the employee to notify the Assistant Superintendent of Compliance , the employee shall do so within three school days.

As appropriate, given the student's need for support, the Assistant Superintendent of Compliance may discuss with the student any need to disclose the student's transgender or gender-nonconformity status or gender identity or gender expression to the student's parents/guardians and/or others, including other students, teacher(s), or other adults on campus.

The district shall offer support services, such as counseling, to students who wish to inform their parents/guardians of their status and desire assistance in doing so.

(cf. 1340 - Access to District Records) (cf. 3580 - District Records)

2. Determining a Student's Gender Identity: The Assistant Superintendent of Compliance shall accept the student's assertion of gender identity and begin to treat the student consistent with that gender identity unless district personnel present a credible and supportable basis for believing that the student's assertion is for an improper purpose

3. Addressing a Student's Transition Needs: The Assistant Superintendent of Compliance shall arrange a meeting with the student and, if appropriate, the student's parents/guardians to identify and develop strategies for ensuring that the student's access to

educational programs and activities is maintained. The meeting shall discuss the transgender or gender- nonconforming student's rights and how those rights may affect and be affected by the rights of other students and shall address specific subjects related to the student's access to facilities and to academic or educational support programs, services, or activities, including, but not limited to, sports and other competitive endeavors. In addition, the Assistant Superintendent of Compliance shall identify specific school site employee(s) to whom the student may report any problem related to the student's status as a transgender or gender-nonconforming individual, so that prompt action can be taken to address it. Alternatively, if appropriate and desired by the student, the school may form a support team for the student that will meet periodically to assess whether the arrangements for the student are meeting his/her educational needs and providing equal access to programs and activities, educate appropriate staff about the student's transition, and serve as a resource to the student to better protect the student from gender-based discrimination.

4. Accessibility to Sex-segregated Facilities, Programs, and Activities: When the district maintains sex- segregated facilities, such as restrooms and locker rooms, or offers sex-segregated programs and activities, such as physical education classes, intramural sports, and interscholastic athletic programs, students shall be permitted to access facilities and participate in programs and activities consistent with their gender identity. To address any student's privacy concerns in using sex-segregated facilities, the district shall offer available options such as a gender-neutral or single-use restroom or changing area, a bathroom stall with a door, an area in the locker room separated by a curtain or screen, or use of the locker room before or after the other students. However, the district shall not require a student to utilize these options because the student is transgender or gender-nonconforming. In addition, a student shall be permitted to participate in accordance with the student's gender identity in other circumstances where students are separated by gender, such as for class discussions, yearbook pictures, and field trips. A student's right to participate in a sex-segregated activity in accordance with the student's gender identity shall not render invalid or inapplicable any other eligibility rule established for participation in the activity.

(cf. 6145 - Extracurricular and Co-curricular Activities) (cf. 6145.2 - Athletic Competition) (cf. 6153 - School-Sponsored Trips)

(cf. 7110 - Facilities Master Plan)

5. Student Records: A student's legal name or gender as entered on the mandatory student record required pursuant to 5 CCR 432 shall only be changed with proper documentation. When a student presents government- issued documentation of a name and/or gender change or submits a request for a name and/or gender change

through the process specified in Education Code 49070, the district shall update the student's records. (Education Code 49062.5, 49070)

(cf. 5125 - Student Records)

(cf. 5125.1 - Release of Directory Information) (cf. 5125.3 - Challenging Student Records)

6. Names and Pronouns: If a student so chooses, district personnel shall be required to address the student by a name and the pronouns consistent with the student's gender identity, without the necessity of a court order or a change to the student's official district record. However, inadvertent slips or honest mistakes by district personnel in the use of the student's name and/or consistent pronouns will, in general, not constitute a violation of this administrative regulation or the accompanying district policy.

7. Uniforms/Dress Code: A student has the right to dress in a manner consistent with the student's gender identity, subject to any dress code adopted on a school site.

(cf. 5132 – Student Dress Guidelines)

(J) Procedures to Prepare for Active Shooters

Redlands Unified School District has created a Safety Communication Plan to establish student safety protocols and procedures in the event of an active shooter or other critical safety threat on campuses. The protocols are predicated on the level of threat as follows:

CRITICAL ALERT

A security procedure that is called when a significant, threatening event is happening on campus or adjacent to campus that creates a potential danger to students and staff.

LOCK DOWN

A procedure that is called when a law enforcement event is happening in the vicinity of a school. All administrators are expected to place their school in Lock Down in this scenario.

SAFE AND SECURE

This security procedure is used to reduce student and staff movement outside school buildings. It is designed to allow for school to carry forward but have the ability to move to Lock Down quickly if needed. During this mode, there is heightened vigilance on campus by all school staff. Generally, recesses and outdoor activities are reduced.

Highland Grove staff representatives participate in annual training sessions conducted by the District and local law enforcement agencies, and the campus participates in three drills annually, focused on each level of threat.

Procedures for Preventing Acts of Bullying and Cyber-bullying

Highland Grove believes that all students have a right to a safe and healthy school environment. The district, schools, and community have an obligation to promote mutual respect, tolerance, and acceptance.

Highland Grove will not tolerate behavior that infringes on the safety of any student. A student shall not intimidate, harass, or bully another student through words or actions. Such behavior includes direct physical contact, such as hitting or shoving; verbal assaults, such as teasing or name-calling; and social isolation or manipulation.

Highland Gove expects students and/or staff to immediately report incidents of bullying to the principal or designee. Staff who witness such acts take immediate steps to intervene when safe to do so. Each complaint of bullying should be promptly investigated. This policy applies to students on school grounds, while traveling to and from school or a school-sponsored activity, during the lunch period, whether on or off campus, and during a school-sponsored activity.

To ensure bullying does not occur on school campuses, Highland Grove will provide staff development training in bullying prevention and cultivate acceptance and understanding in all students and staff to build capacity to maintain a safe and healthy learning environment

Teachers should discuss this policy with their students in age-appropriate ways and should assure them that they need not endure any form of bullying. Students who bully are in violation of this policy and are subject to disciplinary action up to and including expulsion.

Highland Grove will adopt a Student Code of Conduct to be followed by every student while on school grounds or when traveling to and from school or a school-sponsored activity.

The Student Code of Conduct includes, but is not limited to:

Any student who engages in bullying may be subject to disciplinary action up to and including expulsion.

Students are expected to immediately report incidents of bullying to the principal or designee.

Students can rely on staff to promptly investigate each complaint of bullying in a thorough and confidential manner.

If the complainant student or the parent of the student feels that appropriate resolution of the investigation or complaint has not been reached, the student or the parent of the student should contact the principal or the Office of Student Services. The school system prohibits retaliatory behavior against any complainant or any participant in the complaint process.

The procedures for intervening in bullying behavior include, but are not limited, to the following:

All staff, students and their parents will receive a summary of this policy prohibiting intimidation and bullying at the beginning of the school year, as part of the student handbook and/or information packet, as part of new student orientation, and as part of the school system's notification to parents.

The school will make reasonable efforts to keep a report of bullying and the results of investigation confidential.

Staff who witness acts of bullying shall take immediate steps to intervene when safe to do so. People witnessing or experiencing bullying are strongly encouraged to report the incident; such reporting will not reflect on the target or witnesses in any way.

Students will participate in digital citizenship lessons to understand the signs and implications of cyber-bullying in order to prevent the occurrence from happening.

Highland Grove uses Sprigeo as an anonymous reporting system which is posted in all conspicuous areas of the campus and our website, and is accessible to all students, families, and staff.

Safety Plan Review, Evaluation and Amendment Procedures

The Highland Grove safety committee meets five times annually, reviewing all safety measures and procedures to ensure proper safeguarding of all students and staff. Recommendations for changes are submitted to the School Site Council for review and approval. The School Site Council is comprised of administrators, teachers, staff, and parents. The council meets five times per year and adopts, revises, and approves issues related to school safety.

Safety Plan Review, Evaluation and Amendment Procedures

Activity Description (i.e. review steps, meetings conducted, approvals, etc)	Date and Time	Attached Document (description and location)
Safety Team Meeting - approval of comprehensive safety plan	10/1/2024, 2:15 - 2:45	Safety Team Agenda 10/1/24

Emergency Response Guidelines

Step One: Identify the Type of Emergency

Staff will use the Raptor Alert system through their computer or cellular phone to identify the type of emergency and the location.

Step Two: Identify the Level of Emergency

Teachers and staff will activate one of two modes in the system, either Critical Alert or Team Assist. The Critical Alert will indicate an imminent threat exists on or near campus that warrants immediate action to ensure the safety of students, staff, and visitors. The Team Assist will notify key personnel that an issue exists that needs their immediate attention and assistance. Staff will have the opportunity within the application to elaborate as to the nature of the threat, location, and type of assistance needed based on the level of emergency.

Step Three: Determine the Immediate Response Action

The immediate response will vary based on the nature and severity of the emergency, but may include assistance/intervention from administration or other staff, the lockdown of all students and personnel within the campus, and notification of local authorities.

Step Four: Communicate the Appropriate Response Action

Communication of the response action will primarily be through the Raptor Alert system, which allows for details and communications to be updated in real time. Administration will communicate to District and local authorities for assistance and updates.

Types of Emergencies & Specific Procedures

Earthquake

SIGNAL: Continuous Series of Short Bell Sounds (If not an earthquake) Followed By Announcement

PROCEDURE: DUCK, COVER, AND HOLD

When the ground begins shaking, a loud explosion is heard/felt, or a duck, cover, and hold drill begins. This will also be signaled by the bell signal (commonly described as a fire drill bell.) Everyone — students, staff, and all others present — take the following protective actions:

Indoors:

Duck: Take cover under a nearby desk or table, positioning as much of the body as possible under cover.

Cover eyes by leaning the face against the arm.

Hold on to the table legs or side of the desk. Remain in position until the ground stops shaking, objects stop falling, or the teacher indicates that this phase of the drill has ended.

If there is no table or desk nearby, but there are chairs (such as an auditorium-style arrangement):

Duck, cover, and hold: take cover under the chairs, if possible, and/or between the rows of chairs, by dropping to the floor, holding on, and protecting the eyes with the arm.

If there are no tables or chairs nearby (or not enough):

Duck, cover, and hold: take cover by dropping to the floor, against an interior wall, if possible. The "drop" position is preferred: on the floor, on the knees, leaning over to rest on the elbows, hands clasped behind the neck, face down for protection.

In the hallway:

Duck, cover, and hold: take the "drop" position alongside the walls. Choose the closest safe place.

On stairs:

Duck, cover, and hold: Sit down, hold onto the handrail, and cover your eyes.

People with disabilities:

In a wheelchair: Remain in the chair, set the brake, and hold on. If you have a hard hat with you, put it on.

Trying to protect the head and neck by leaning forward so that the head is lower than the back of the wheelchair is not practical.

First, the person would have to bend head down to knees, which may not be physically possible. Second, the leather or vinyl backs of most wheelchairs will not add protection

With mobility impairments, but not in a wheelchair:

If sitting at onset of earthquake, remain in place, protecting your head if possible, and hold on.

If standing, sit down or brace your body to avoid falling.

People with mobility impairments should not be routinely placed under or near potential hazards.

Teachers and other Caregivers:

Duck, cover, and hold as directed above so that you will be available and uninjured to assist others after the ground stops shaking.

The teacher should be the first to duck, cover, and hold.

Outdoors:

Duck, cover, and hold: Move away from buildings, power lines, block walls, and other items which might fall. Take the "drop" position or sit down.

Remain in position until the ground stops shaking or the teacher indicates that this phase of the drill has ended.

Situation assessment:

Teacher or supervising adult makes a quick assessment of the situation. Any of the following require immediate evacuation: fire, damage to structure, hazardous materials spill.

Teacher makes a quick assessment of injuries to students. Unless the situation calls for immediate evacuation, the teacher uses first aid for critical injuries.

Teacher checks with buddy teacher. It may be necessary to assist or evacuate the buddy teacher's class.

In most cases, the teacher will wait until composure has been reached and an evacuation signal has been received before directing the class to evacuate. See evacuation procedures.

Aftershocks:

Students and staff duck, cover, and hold.

Teacher/staff repeat situation assessment procedures detailed above.

Fire in Surrounding Area

The School Administration office will track the threat to the community and campus, and if necessary:

CALL: 9-1-1

SOUND: The fire alarm, if necessary, evacuate classrooms/buildings, and

NOTIFY: The Superintendent and District Office liaison.

If evacuation of classrooms/buildings was required, re-occupy buildings when ordered to do so by the Administrator or local fire authority.

Fire on School Grounds

The School Administration office will:

SIGNAL: Continuous Series of Short Bell Sounds indicating fire alarm

CALL: 9-1-1

NOTIFY: The Superintendent and District Office Liaison.

School Staff will:

SUPERVISE: Evacuation of all students, staff, and visitors according to the Emergency Evacuation Plan posted in every classroom

TAKE: Emergency backpack, including roll sheet and take roll at evacuation site, and

REPORT: Missing students to the School Administrator.

The Administrator or ERT member will open necessary gates for emergency vehicles, if applicable

Re-occupy buildings when ordered to do so by Administration or local fire authority.

Pandemic

Blood Borne Pathogen Incident Reporting Form and Exposure Control Plan

Policy 5141.22: Infectious Diseases

The Governing Board desires to protect students from risks posed by exposure to infectious diseases while providing an appropriate education for all students.

The Superintendent or designee shall determine whether to admit a student with an infectious disease, and shall exclude students only in accordance with law. In making this determination, he/she shall consult the student's parents/guardians, the student's physician and/or the county health department, in accordance with law and consistent with confidentiality provisions. Because bloodborne pathogens such as hepatitis B virus, hepatitis C virus and human immunodeficiency virus (HIV) are not casually transmitted, the sole presence of bloodborne pathogens is not sufficient reason to exclude students from attending school.

cf. 5112.2 - Exclusions from Attendance)
(cf. 5141.26 - Tuberculosis Testing)
(cf. 5141.3 - Health Examinations)
(cf. 6158 - Independent Study)
(cf. 6159 - Individualized Education Program)
(cf. 6183 - Home/Hospital Instruction)

Parents/guardians are encouraged to inform the Superintendent or designee if their child has an infectious disease so that school staff may work cooperatively with the student's parents/guardians to minimize the child's exposure to other diseases in the school setting. The Superintendent or designee shall ensure that student confidentiality rights are strictly observed in accordance with law. No district employee shall release medical information, including knowledge of a bloodborne pathogen infection, without written consent from the parent/guardian or adult student. Such information shall be shared only with those persons specifically named in the written permission.

(cf. 5125 - Student Records)
(cf. 5022 - Student and Family Privacy Rights)

The Board requires students and staff to routinely observe universal precautions to prevent exposure to bloodborne pathogens and to prevent the spread of all infectious disease.

(cf. 4119.43/4219.43/4319.43 - Universal Precautions)
(cf. 5141.23 - Infectious Disease Prevention)

The Superintendent or designee shall ensure that the district's health education program provides information about the nature of bloodborne pathogens and their transmission.

Procedures and Regulations

1. General

1.1 While recognizing that both students and employees diagnosed with an infectious blood borne disease are entitled to a confidential relationship between themselves, the medical community and/or other agencies, the Board of School Trustees encourages these individuals to meet with the School Principal and/or Superintendent of Schools to discuss their disease and immediate and future needs.

1.2 Assessment

2. Students:

2.1. The Superintendent (or designate) will be informed, by the school principal as soon as is known, of any student infected with an infectious blood borne disease.

2.2. A Risk Assessment will be conducted using a team approach including the personal physician, public health personnel, the parent or guardian, and school district personnel as appropriate and will make recommendations about the type of educational and care setting based on the following:

- a. Behavior, neurological development and physical condition of the child;
- b. Type of interaction expected with others.
- c. What the potential is for exposure
- d. Areas for potential for exposure
- e. How exposure may happen
- f. Who needs to know?
- g. What will happen if there is a risk of exposure?

2.3. The team will consider the risk to others in the workplace, whether or not the individual is healthy enough to continue to attend school, and what precautions should be taken to ensure the safety and health of others.

a. The identity of infected students will remain confidential and restricted to those who need to know or are required to be informed.

2.4. Decisions on attendance at school are dependent on the circumstances of each individual case. Regular evaluation of the appropriateness of attendance will be conducted.

2.5. The Board will be notified immediately when the team considers the health condition of a student to be a danger to the immediate health and welfare of a school, its students or employees of the Board.

a. Upon being notified of the team's concern, the Board will refer the matter to the Medical Health Officer in accordance with the procedures outlined in the School Act.

3. Employees

3.1. The Superintendent will be informed, by district staff as soon as is known, of any employee infected with an infectious blood borne disease.

3.2. Employees with an infectious blood borne disease, who are able to carry out the essential duties of their jobs in a satisfactory manner without posing a health or safety risk to themselves or others, will be entitled to continue their work.

3.3. Decisions regarding potential health or safety hazards will be made on a case-by-case basis in consultation with the employee, the personal physician and district personnel as appropriate.

3.4. The identity of infected employees will remain confidential and restricted to those who need to know or are required to be informed.

3.5. The Board will be notified immediately if the Superintendent considers the health condition of an employee to be a danger to the immediate health and welfare of a school, its students or other employees of the Board.

a. Upon being notified of the Superintendent's concern, the Board will refer the matter to the Medical Health Officer in accordance with the procedures outlined in the School Act.

4. Hygienic Safety Practices

4.1. All employees will follow "Universal Infection Control Precautions" by assuming that blood and other body fluids from all individuals are potentially infectious. These precautions include:

- a. Routinely using gloves when anticipating contact with blood
- b. Immediately washing hands and other skin surfaces after removal of gloves and/or contact with blood

4.2. Schools will be provided with appropriate protective equipment including disposable waterproof gloves (natural rubber latex, neoprene, nitrile, or vinyl), tongs or pliers and proper sharps containers.

4.3. Schools' medical room mattresses will be either vinyl-coated beds or cloth mattress with a protective vinyl (plastic) covering so that they can be cleaned as needed with a bleach solution.

4.4. Blankets can be cleaned as needed by forwarding them, in a clearly labeled plastic bag, to the Assistant Supervisor Operations at the Facilities Office.

5. Universal Precautions

5.1. Universal Precautions to prevent transmission of blood-borne disease will be followed. Universal Precautions is the term for infection control measures endorsed by the Canadian Centre for Occupational Health and Safety for workers who might come into contact with blood and other body fluids. In summary they include:

- a. Wash hands for 30 seconds after contact with blood and other body fluids contaminated with blood.
- b. Wear disposable latex gloves when you encounter blood, body fluids, or when cleaning cuts, scrapes or wounds. Wash your hands as soon as you remove your gloves. Dispose gloves in a plastic bag.
- c. Use disposable absorbent material like paper towels to stop bleeding.
- d. Discard bloodstained material in a sealed plastic bag and deposit in the garbage. Label as containing blood-tainted material.
- e. Cover cuts or scrapes with a bandage until healed.
- f. Immediately protect staff and students from coming in contact with blood-soiled surfaces. The area must be disinfected with a fresh solution of one part bleach and nine-parts water (10% bleach solution).

Mops or brushes used for cleaning should be soaked in a bleach solution for 20 minutes.

(Note: The custodial department will provide each school with the product for dissolving in water to provide the bleach solution.)

6. Identification of Risks of Occupational Exposure

6.1. In accordance with the Occupational Health and Safety Regulations (section 6.35), the district's Health & Safety Coordinator will develop and maintain a list of positions and/or tasks and procedures where there is a potential for occupational exposure to a blood borne pathogen.

6.2. Employees who have, or may have, occupational exposure to the hepatitis B virus, will upon request, receive a hepatitis B vaccination (section 6.39, OH&S Regs).

6.3. Employees who may have been exposed to a blood borne pathogen in an exposure incident will be advised to immediately seek medical attention

Blood Borne Pathogen Incident Reporting Form and Exposure Control Plan68

Blood Borne Pathogens - Safety Practices69

Comprehensive School Safety Plan Purpose

Effective January 1, 2019, Assembly Bill 1747 (Rodriguez), School Safety Plans, became law. This bill requires that during the writing and development of the comprehensive school safety plan (CSSP), the school site council or safety committee consult with a fire department and other first responder entities in addition to currently required entities. It requires the CSSP and any updates made to the plan to be shared with the law enforcement agency, the fire department, and the other first responder entities.

The California Education Code (sections 32280-32288) outlines the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school.

In 2004, the Legislature and Governor recast and renumbered the Comprehensive School Safety Plan provisions in SB 719 and AB 115. It is the intent of the Legislature in enacting the provisions to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process, that include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses.

The historical requirement of the Comprehensive School Safety Plan was presented in Senate Bill 187, which was approved by the Governor and chaptered in 1997. This legislation contained a sunset clause that stated that this legislation would remain in effect only until January 1, 2000. Senate Bill 334 was approved and chaptered in 1999 and perpetuated this legislation under the requirement of the initial legislation.

Comprehensive School Safety Plans are required under SB 719 & AB 115 and contains the following elements:

Assessment of school crime committed on school campuses and at school-related functions

- Child abuse reporting procedures
- Disaster procedures
- Suspension and expulsion policies
- Procedures to notify teachers of dangerous pupils
- Discrimination and harassment policies
- School wide dress code policies
- Procedures for safe ingress and egress
- Policies enacted to maintain a safe and orderly environment
- Rules and procedures on school discipline
- Hate crime reporting procedures

The Comprehensive School Safety Plan will be reviewed and updated by March 1st every year. In July of every year, the school will report on the status of its school safety plan including a description of its key elements in the annual school accountability report card.

A copy of the Comprehensive School Safety Plan is available for review at the Judson and Brown front office..

Safety Plan Vision

The Superintendent or designee shall provide training in child abuse identification and reporting for all certificated and classified personnel. (Penal Code 11165.7)

All employees trained in child abuse identification and reporting shall be given, as a part of that training, written notice of the child abuse reporting requirements and the employees' confidentiality rights. (Penal Code 11165.7)

In order to reduce or eliminate unfounded child abuse accusations directed at school employees, child abuse in service training shall include guidance in disciplining students and maintaining ethical relationships with them.

(cf. 3514 - Safety)

(cf. 5142 - Safety)

Duty to Report

Certificated employees and classified employees trained in child abuse identification and reporting shall report known or suspected child abuse to a child protective agency by telephone immediately or as soon as practically possible and in writing within 36 hours. The reporting duties are individual and cannot be delegated to another individual except under circumstances set forth in Penal Code 11166.

Definitions

Child Abuse includes the following:

1. A physical injury inflicted by other than accidental means on a child by another person.
2. Willful cruelty or unjustifiable punishment of a child, or willfully inflicting unjustifiable physical pain or mental suffering, or failure to safeguard a child from these injuries when the child is under a person's care or custody
3. Sexual abuse of a child
4. Neglect of a child or abuse in out-of-home care
5. Unlawful corporal punishment or injury resulting in a traumatic condition

Mandated Reporters are those people defined by law as child care custodians, health practitioners, child visitation monitors and employees of a child protective agency. Mandated reporters include virtually all school employees. The following school personnel are required to report:

Teachers, administrators, supervisors of child welfare and attendance, certificated student personnel employees, employees of care institutions, Headstart teachers, school psychologists, licensed nurses, counselors, presenters of child abuse prevention programs and those instructional aides or other classified employees trained in child abuse reporting.

Child Protective Agencies are those law enforcement and child protective services responsible for investigating child abuse reports, including the local police or sheriff department, county welfare or juvenile probation department and child protective services.

Reasonable Suspicion means that it is objectively reasonable for a person to entertain such a suspicion, based upon facts that could cause a reasonable person in a like position, drawing when appropriate on his/her training and experience, to suspect child abuse. (Penal Code 11166)

Reporting Procedures

To report known or suspects child abuse, any employee (as defined above) shall report by telephone to the local child protective agency immediately. (Child Protective Services 921 County Center, 3 Court, Modesto, CA phone # 525- 6641)

The following information shall be given:

1. The name of the person making the report
2. The name of the child
3. The present location of the child
4. The nature and extent of any injury

Any other information requested by the child protective agency, including the information that led the mandated reporter to suspect child abuse.

When the verbal report is made, the mandated reporter shall note the name of the official contacted, the date and time contacted, and any instructions or advice received.

Within 36 hours of making the telephone report, the mandated reporter shall complete and mail to the local child protective agency a written report which includes a completed Department of Justice form (DOJ SS 8572).

Mandated reports may obtain copies of the above form either from the district or local child protective agency.

Instructions are included on the form, and reporters may ask the site administrator for help in completing and mailing it; however, the mandated reporter is personally responsible for ensuring that the written report is correctly filed.

Employees reporting child abuse to a child protective agency are encouraged, but not required, to notify the site administrator or designee as soon as possible after the initial verbal report by telephone. When so notified, the site administrator shall inform the Superintendent or designee.

Administrators so notified shall provide the mandated reporter any assistance necessary to ensure that reporting procedures are carried out in accordance with law and district regulations. At the mandated reporter's request, the principal may assist in completing and filing the form.

If the mandated reporter does not disclose his/her identity to a district administrator, he/she shall at least provide or mail a copy of the written report to the site administrator and the district without his/her signature or name.

Legal Responsibility and Liability

Mandated reporters have absolute immunity. School employees required to report are not civilly or criminally liable for filing a required or authorized report of known or suspected child abuse.

A mandated reporter who fails to report an instance of child abuse, which he/she knows to exist or reasonably should know to exist, is guilty of a misdemeanor and is punishable by confinement in jail for a term not to exceed six months or by a fine of not more than \$1,000 or both. The mandated reporter may also be held civilly liable for damages for any injury to the child after a failure to report

When two or more persons who are required to report have joint knowledge of suspected instance of child abuse, and when they so agree, the telephone report may be made by either of them and a single report made and signed by that person.

However, if any person who knows or should know that the person designated failed to make the report, that person then has a duty to make the report.

The duty to report child abuse is an individual duty and no supervisor or administrator may impede or inhibit such reporting duties. Furthermore, no person making such a report shall be subject to any sanction.

Victim Interview

Upon request, a child protective agency representative may upon request interview a suspected victim of child abuse during school hours, on school premises, concerning a report of suspected child abuse that occurred within the child's home. The child shall be given the choice of being interviewed in private or in the presence of any adult school employee or volunteer aide selected by the child. (Penal Code 11174.3)

A staff member or volunteer aide selected by a child may decline to be present at the interview. If the selected person accepts, the principal or designee shall inform him/her, before the interview takes place, of the following legal requirements:

1. The purpose of the selected person's presence at the interview is to lend support to the child and enable him/her to be as comfortable as possible.
2. The selected person shall not participate in the interview.
3. The selected person shall not discuss the facts or circumstances of the case with the child.
4. The selected person is subject to the confidentiality requirements of the Child Abuse and Reporting Act, a violation of which is punishable as specified by Penal Code 11167.5.
5. If a staff member agrees to be present, the interview shall be held at a time during school hours when it does not involve an expense to the school. (Penal Code 11174.3)

Release of Child to Peace Officer or Child Protective Services Agent

When a child is released to a peace officer or child protective agency and taken into custody as a victim of suspected child abuse, the Superintendent and/or principal shall not notify the parent/guardian as required in other instances of removal of a child from school, but rather shall provide the protective agency with the address and telephone number of the child's parent/guardian. It is the responsibility of the peace officer or agent to notify the parent/guardian of the situation. (Education Code 48906)

Peace officer and child protective services agents will be asked to sign an appropriate release or acceptance of responsibility form.

(cf. 5145.11 - Questioning and Apprehension)

When School Employees are Accused of Child Abuse

Regardless of who child abusers may be, the major responsibilities of mandated reports are to 1) identify incidents of suspected child abuse, and 2) comply with laws requiring the reporting of suspected abuse to proper authorities. Determining whether or not the suspected abuse actually occurred is not the responsibility of the school employee. Such determination and follow-up investigation will be made by a child protective agency.

Pending outcome of an investigation by a child protective agency and before formal charges are filed, the employee may be subject to reassignment or a paid leave of absence.

Upon filing formal charges or upon conviction, the district may take disciplinary action in accordance with law, district policies, regulations and/or collective bargaining agreements. The Superintendent or designee shall seek legal counsel in connection with either the suspension or dismissal of the employee.

Each classroom, office, library and room on campus has a posting of the emergency procedures near the exit door. Emergency procedures are also posted in each classroom notebook which is reviewed at the beginning of the school year for updates. Fire Drills are practiced each month of the school year. Earthquake drills are practiced four times a year and Lock Down drills are practiced yearly.

Public Agency Use of School Buildings for Emergency Shelters

Public agencies, such as the American Red Cross, may use school buildings, grounds, and equipment for mass care and welfare shelters during disasters or other emergencies affecting the public health and welfare. The District or County office shall cooperate with the public agency in furnishing and maintaining the services as the District or County Office may deem necessary to meet the needs of the community.

(C) School Suspension, Expulsion and Mandatory Expulsion Guidelines

Policy 5144.1: Suspension And Expulsion/Due Process

Suspension and Expulsion

The Governing Board recognizes that maintaining an environment which promotes learning and protects the health, safety, and welfare of all students may require the suspension or expulsion of a student from regular classroom instruction. District policies and school site rules shall clearly identify district behavior standards

(cf. 5144 - Discipline)

Except in cases where suspension for a first time offense is warranted in accordance with law, suspension shall be imposed only when other means of correction fail to bring about proper conduct. (Education Code 48900.5)

Expulsion is an action taken by the Board for severe or prolonged breaches of discipline by a student. Except for single acts of a grave nature, expulsion is usually used only when there is a history of misconduct, when other forms of discipline, including suspension, have failed to bring about proper conduct, or when the student's presence causes a continuing danger to other students. (Education Code 48915)

The grounds for suspension and expulsion and the procedures for considering, recommending and/or implementing suspension and expulsion shall be specified in Administrative Regulation.

Each principal shall annually inform all students and parents/guardians of the school's discipline rules and procedures and of the availability of all district policies and regulations dealing with student discipline, suspension and expulsion. (Education Code 35291, 35291.5)

(cf. 5145.6 - Parental Notifications)

Suspended or expelled students shall be excluded from all school-related extracurricular activities during the suspension or expulsion.

cf. 6145 - Extracurricular and Cocurricular Activities)

Zero Tolerance

The Board supports a zero tolerance approach to serious offenses in accordance with state and federal law. This approach makes the removal of potentially dangerous students from the classroom a top priority and ensures the standardized treatment of all students. Staff shall immediately report to the Superintendent/ designee any incidence of offenses specified in law, Board policy, and administrative regulation as cause for suspension or expulsion.

Student Due Process

The Board shall provide for the fair treatment of students facing suspension and expulsion by affording them their due process rights under the law. The administration and staff shall comply with procedures for notices and appeals as specified in regulation. Procedures governing student due process shall conform in all aspects to provisions in law. (Education Codes 48911, 48915 and 48915.5)

Whenever a student is suspended, school officials may (but are not required to) meet with the parent/guardian to discuss the causes and duration of the suspension, the school policy involved, and any other pertinent matters. (Education Code 48914)

cf. 5119 - Students Expelled from Other Districts

(cf. 5144.2 - Suspension and Expulsion/Due Process - Individuals with Exceptional Needs)

Rights of Complaining Witness

An expulsion hearing involving allegations of sexual assault or sexual battery may be postponed for one school day in order to accommodate the special physical, mental or emotional needs of a student who is the complaining witness. (Education Code 48918.5)

Whenever the Superintendent or designee recommends an expulsion hearing that addresses allegations of sexual assault or sexual battery, he/she shall give the complaining witness a copy of the district's suspension and expulsion policy and regulation and shall advise the witness of his/her right to: (Educational Code 48918.5)

1. Receive five days' notice of his/her scheduled testimony at the hearing
2. Have up to two adult support persons of his/her choosing present in the hearing at the time he/she testifies
3. Have a closed hearing during the time he/she testifies

Whenever any allegation of sexual assault or sexual battery is made, the Superintendent or designee shall immediately advise complaining witnesses and accused students to refrain from personal or telephone contact with each other during the time when an expulsion process is pending. (Education Code 48918.5)

On-Campus Suspension Program

The Board recognizes that students who are suspended from school frequently have no supervision or guidance during the school hours when they are off campus. The Board believes that in many cases, instead of sending the student off campus, it would be better to address the student's misconduct by keeping the student at school and providing him/her with supervision that is separated from the regular classroom.

The Superintendent or designee shall examine alternatives to off-campus suspension and may establish a suspension program which involves progressive discipline during the school day on campus; using conferences between staff, parents/guardians and students; detention; student study teams or other assessment-related teams; and/or referral to school support services staff.

Required Parental Attendance

The Board believes that parental involvement plays an important role in the resolution of classroom behavior problems. The Board expects that teachers will communicate with parents/guardians when behavior problems arise

Whenever a student is suspended from a class because he/she committed an obscene act, engaged in habitual profanity or vulgarity, disrupted school activities or otherwise willfully defied valid staff authority, the teacher of the class from which the student was suspended may require the student's parent/guardian to attend a portion of a school day in that class. After completing the classroom visit and before leaving school premises, the parent/guardian also shall meet with the principal or designee. (Education Code 48900.1)

The Board encourages teachers, before requiring parental attendance, to make reasonable efforts to have the parent/guardian visit the class voluntarily. The teacher also may consider informing the parent/guardian about available resources which may provide help in the development of parenting skills. Teachers should reserve the option of required parental attendance for cases in which they have determined that it is the best strategy to promote positive interaction between the student and the parent/guardian and to improve classroom behavior.

Parental attendance may be required on the day the student returns to class or within one week thereafter. The principal or designee shall contact any parents/guardians who do not respond to the request to attend school. The Board recognizes that parental compliance with this policy may be delayed, modified or prevented by serious illness/injury/disability, absence from town, or inability to get certain release time from work.

The teacher shall apply this policy uniformly to all students within the classroom. This policy shall apply only to a parent/guardian who actually lives with the student. (Education Code 48900.1)

District regulations and school-site rules for student discipline shall include procedures for implementing parental attendance requirements.

Parents/guardians shall be notified of this policy before it is implemented and at the beginning of each subsequent school year. (Education Code 48900.1, 35291, 48980)

Decision Not to Enforce Expulsion Order

In cases where expulsion is mandatory pursuant to Education Code 48915(c), the enforcement of an expulsion order shall not be suspended by the Board. In all other cases of expulsion, the order for expulsion may be suspended by the Board, on a case-by-case basis, pursuant to the requirements of law.

Suspension from Class by a Teacher/Parental Attendance

A teacher may suspend any student from the teacher's class for any of the acts listed under "Grounds for Suspension and Expulsion" above for the day of the suspension and the day following. (Education Code 48910)

Suspension from class means the removal of a student from class by a teacher for the day of the suspension and the next day. A teacher may suspend a student from class and may also refer a student for consideration of suspension from school for any act listed in "Grounds for Suspension and Expulsion" above. (Education Code 48910)

When suspending a student from his/her class, the teacher shall immediately report this action to the principal and send the student to the principal for appropriate action. The student shall be appropriately supervised during the class periods from which he/she has been suspended.

As soon as possible, the teacher shall ask the student's parent/guardian to attend a parent-teacher conference regarding the suspension. A counselor or psychologist should attend the conference if it is practicable, and a school administrator may attend if either the parent/guardian or teacher so request.

A suspended student shall not be returned to class during the period of suspension without the approval of the teacher of the class and the principal. (Education Code 48910)

A student suspended from class shall not be placed in another regular class during the period of suspension. However, if a student is assigned to more than one class per day, he/she may be placed in any other regular classes except those held at the same time as the class from which the student was suspended. (Education Code 48910)

The teacher of any class from which a student is suspended may require the suspended student to complete any assignments and tests missed during the suspension. (Education Code 48913)

When a teacher requires a parent/guardian to attend school in accordance with Board Policy, the principal shall send the parent/guardian a written notice that the parent/guardian's attendance is required pursuant to law. (Education Code 48900.1)

Suspension By Superintendent, Principal Or Principal's Designee

A Superintendent, principal, or principal's designee may suspend a student from a school for any of the acts listed under "Grounds for Suspension and Expulsion" above for not more than five consecutive school days unless the suspension is extended pending expulsion. (Education Code 48911)

The Superintendent or designee shall immediately suspend any student found at school or at a school activity to be: (Education Code 48915)

5. Possession of an explosive as defined in 18 USC 921.

Suspension may be imposed upon a first offense if the Superintendent, principal or designee determines the student violated items (i) - (v) listed in "Grounds For Suspension and Expulsion" above or if the student's presence causes a danger to persons or property or threatens to disrupt the instructional process. (Education Code 48900.5)

A student may be suspended from school for not more than 20 school days in any school year, unless for purposes of adjustment a student enrolls in or is transferred to another regular school, an opportunity school, or continuation school or class, in which case suspension shall not exceed 30 days in any school year. However, this restriction on the number of days of suspension does not apply when the suspension is extended pending an expulsion. (Education Code 48903 and 48912)

Suspension Procedures

1. Informal Conference: Suspension shall be preceded by an informal conference conducted by the principal or designee or the Superintendent or designee between the student, and whenever practicable, the teacher, supervisor or school employee who referred the student to the principal. At the conference, the student shall be informed of the reason for the disciplinary action and the evidence against him/her and shall be given the opportunity to present his/her version and evidence in support of his/her defense. (Education Code 48911(b))

This conference may be omitted if the principal, designee or the Superintendent or designee determines that an emergency situation exists. An "emergency situation" involves a clear and present danger to the lives, safety or health of students or school personnel. If the pre-suspension conference is not held, both the parent/guardian and student shall be notified of the student's right to return to school for the purpose of a conference. The conference shall be held within two school days, unless the student waives his/her right to it or is physically unable to attend for any reason. In such case, the conference will be held as soon as the student is physically able to return to school. (Education Code 48911(c))

2. Administrative Actions: All requests for student suspension are to be processed by the principal or designee of the school in which the student is enrolled at the time of the misbehavior

A school employee shall report the suspension, including the name of the student and the cause for the suspension, to the Superintendent or designee, who in turn will inform the Board.

3. Notice to Parents/Guardians: At the time of the suspension, a school employee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension. (Education Code 48911)

This notice shall state the specific offense committed by the student. (Education Code 48900.8)

In addition, the notice may also state the date and time when the student may return to school.

Should school officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may also add that state law requires the parent/guardian to respond to such request without delay.

4. Parent/Guardian Conference: Whenever a student is suspended, school officials may meet with the parent/guardian to discuss the causes and duration of the suspension, the school policy involved, and any other pertinent matters. (Education Code 48914)

While the parent/guardian is required to respond without delay to a request for a conference about a student's behavior, no penalties may be imposed on the student for the failure of the parent/guardian to attend such conference. The student may not be denied readmission solely because the parent/guardian failed to attend. (Education Code 48911)

5. Extension of Suspension: If the expulsion of a suspended student is being considered by the Board, the Superintendent or designee may, in writing, extend the suspension until such time as the Board has made a decision. (Education Code 48911(g))

Any extension of the original period of suspension shall be preceded by notice of such extension with an offer to hold a conference concerning the extension, giving the student an opportunity to be heard. This conference may be held in conjunction with a meeting requested by the student or parent/guardian to challenge the original suspension. Extension of the suspension may be made only if the Superintendent or designee determines, following a meeting in which the student and the student's parent/guardian were invited to participate, that the student's presence at the school or at an alternative school would endanger persons or property or threaten to disrupt the instructional process. (Education Code 48911(g))

Suspension by the Board

The Board may suspend a student for any of the acts listed in "Grounds for Suspension and Expulsion" above and within the limits specified in "Suspension by Superintendent, Principal or Principal's Designee" above. (Education Code 48912)

The Board may suspend a student enrolled in a continuation school or class for a period not longer than the remainder of the semester if any of the acts listed in "Grounds for Suspension and Expulsion" occurred. The suspension shall meet the requirements of Education Code 48915. (Education Code 48912.5)

When the Board is considering a suspension, disciplinary action, or any other action (except expulsion) against any student, it may hold closed sessions if a public hearing would lead to disclosure of information which would violate a student's right to privacy under Education Code 49073-49079.

(cf. 9321 -Closed Session Purposes and Agendas)

The Board shall provide the student with written notice of the closed session by registered or certified mail. Upon receiving this notice the student may request a public meeting, and this request shall be granted if made in writing (within 48 hours after receipt of the Board's notice). However, any discussion that conflicts with any other student's right to privacy shall be in closed session. (Education Codes 48912)

Authority to Expel

A student may be expelled only by the Board. The Board shall expel, as required by law, any student found to have committed certain offenses listed below under "Mandatory Recommendation and Mandatory Expulsion."

The Board may also order a student expelled for any of the acts listed above under "Grounds for Suspension and Expulsion" upon recommendation by the principal, Superintendent, hearing officer or administrative panel, based on finding either or both of the following: (Education Code 48915(b) and (e))

1. That other means of correction are not feasible
2. That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others

Mandatory Recommendation For Expulsion

The principal, Superintendent or designee shall recommend a student's expulsion for any of the following acts, unless the principal or Superintendent or designee finds, and reports in writing to the Board, that expulsion is inappropriate due to particular circumstances which shall be set out in the report of the incident:

1. Causing serious physical injury to another person, except in self-defense.
2. Possession of any knife as defined in Education Code 48915(g), explosive or other dangerous object of no reasonable use to the student.

1. Possessing, as verified by a district employee, or selling or otherwise furnishing a firearm, unless the student had obtained prior written permission to possess the item from a certificated school employee, with the principal or designee's concurrence. (Education Code 48915(c).1)
2. Brandishing a knife as defined in Education Code 48915(g) at another person. (Education Code 48915(c).2)

Upon finding that the student committed any of the above acts, the Board shall expel the student. (Education Code 48915)

Student's Right to Expulsion Hearing

The student is entitled to a hearing to determine whether the student should be expelled. The hearing shall be held within 30 school days after the principal or Superintendent or designee determines that one of the acts listed under "Grounds for Suspension and Expulsion" has occurred. (Education Code 48918(a))

The student is entitled to one postponement of an expulsion hearing for a period of not more than 30 calendar days. The request for postponement shall be in writing. Any subsequent postponement may be granted at the district's discretion. (Education Code 48918(a))

If the district finds it impracticable to comply with these time requirements for conducting an expulsion hearing, the Superintendent or designee may, for good cause, extend the time period by an additional five school days. Reasons for the extension shall be included as a part of the record when the expulsion hearing is held. (Education Code 48918(a))

Once the hearing starts, all matters shall be pursued with reasonable diligence and concluded without unnecessary delay. (Education Code 48918(a))

An expulsion hearing involving allegations of sexual assault or sexual battery may be postponed for one school day in order to accommodate the special physical, mental or emotional needs of a student who is the complaining witness. (Education Code 48915.5)

Whenever the Superintendent or designee recommends an expulsion hearing that addresses allegations of sexual assault or sexual battery, he/she shall give the complaining witness a copy of the district's suspension and expulsion policy and regulation and shall advise the witness of his/her right to: (Education Code 48915.5)

1. Receive five days' notice of his/her scheduled testimony at the hearing.
2. Have up to two adult support persons of his/her choosing present in the hearing at the time he/she testifies.

Conduct of Expulsion Hearing

1. Closed Session: Notwithstanding the provisions of Government Code 54953 and Education Code 35145, the Board shall conduct the hearing or arrange for an alternative hearing to consider the expulsion of the student in a session closed to the public unless the student requests in writing at least five days prior to the hearing that the hearing be a public meeting. If such request is made, the meeting shall be public

Whether the expulsion hearing is held in closed or public session, the Board may meet in closed session to deliberate and determine if the student should be expelled. If the Board admits any other person to the closed session, the parent/guardian, the student, counsel of the student and counsel of the parent/guardian shall also be allowed to attend the closed session. (Education Code 48918(c))

If a hearing that involves a charge of sexual assault or sexual battery is to be conducted in public, a complaining witness shall have the right to have his/her testimony heard in closed session when testifying in public would threaten serious psychological harm to the witness and when there are no alternative procedures to avoid the threatened harm, including but not limited to videotaped deposition or contemporaneous examination in another place communicated to the hearing room by closed-circuit television. (Education Code 48918(c))

2. Record of Hearing: A record of the hearing shall be made and may be maintained by any means, including electronic recording, so long as a reasonably accurate written and complete transcription of the proceedings can be made. (Education Code 48918(g))

3. Presentation of Evidence: While technical rules of evidence do not apply to such hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. The decision of the Board to expel must be supported by substantial evidence that the student committed any of the above acts listed under "Grounds for Suspension and Expulsion" above. Findings of fact shall be based solely on the evidence at the hearing.

While no evidence shall be based solely on hearsay, sworn declarations may be admitted as testimony from witnesses whose disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm. (Education Code 48918 (f) and

In cases where a search of a student's person or property has occurred, evidence describing the reasonableness of the search shall be included in the hearing record.

4. Testimony by Complaining Witness: The following procedures shall be observed when hearings involve allegations of sexual assault or sexual battery by a student: (Education Code 48918)

- a. Any complaining witness shall be given five days' notice before being called to testify.
- b. Any complaining witness shall be entitled to have up to two adult support persons, including but not limited to a parent/guardian or legal counsel, present during his/her testimony.

Before such a determination is made, the complaining witness shall be given notice and an opportunity to oppose the introduction of this evidence. In the hearing on the admissibility of this evidence, the complaining witness shall be entitled to be represented by a parent/guardian, legal counsel or other support person. Reputation or opinion evidence regarding the sexual behavior of a complaining witness shall not be admissible for any purpose.

g. In order to facilitate a free and accurate statement of the experiences of the complaining witness and to prevent discouragement of complaints, the district shall provide a nonthreatening environment.

7. Decision Within 40 Days: If the Board does not meet on a weekly basis, its decision on whether to expel a student shall be made within 40 school days after the student is removed from his/her school of attendance, unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

Alternative Hearing: Hearing Officer or Administrative Panel

Instead of conducting an expulsion hearing itself, the Board may contract with the county hearing officer or with the Office of Administrative Hearings of the State of California for a hearing officer. Alternatively, the Board may appoint an impartial administrative panel composed of three or more certificated personnel, none of whom shall be members of the Board or on the staff of the school in which the student is enrolled. (Education Code 48918(d))

A hearing conducted by the hearing officer or administrative panel shall conform to the same procedures as apply to a hearing conducted by the Board as specified in "Conduct of Expulsion Hearing" above.

The hearing officer or administrative panel shall, within three school days after the hearing, determine whether to recommend expulsion of the student to the Board. If expulsion is not recommended, the student shall be immediately reinstated. (See "Reinstatement" below.) The Superintendent or designee shall place the student in a classroom instructional program, any other instructional program, a rehabilitation program, or any combination of these programs after consulting with district staff, including the student's teachers and with the student's parent/guardian. (Education Code 48918(e))

If expulsion is recommended, findings of fact in support of the recommendation shall be prepared and submitted to the Board. All findings of fact and recommendations shall be based solely on the evidence presented at the hearing. The Board may accept the recommendation based either upon a review of the findings of fact and recommendations submitted or upon the results of any supplementary hearing the Board may order. (Education Code 48918(f))

The hearing officer or administrative panel may recommend that the Board suspend the expulsion for a period of one year. (See "Suspension of Expulsion" below.)

The Board shall make its decision about the student's expulsion within 40 school days after the date of the student's removal from school unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

Stipulated Expulsions

It is the policy of the Redlands Unified School District that, where approved by the Superintendent or designee, parents/guardians may agree to the expulsion of their pupil by stipulation without necessity of a hearing. This process will expedite the pupil's school placement and may expedite the rehabilitation process.

A stipulated expulsion must be purely voluntary. No district administrator or staff member may coerce a pupil, parent or guardian into entering into such a stipulation. Parents/guardians will be given three calendar days to decide on a stipulated expulsion agreement.

If the parent/guardian requests a stipulated expulsion, the Superintendent or designee will promulgate the stipulated agreement. If at any time the parent/guardian decides not to pursue a stipulated agreement, the expulsion proceedings and timelines, extended by the length of the period for consideration of the stipulation, will be reinstated. The stipulated agreement will be presented to the Board for final consideration.

The stipulated agreement will include the terms and conditions of the expulsion order, including alternative placement and a rehabilitation plan to be completed before the student can be re-admitted to the district.

Final Action by the Board

Whether the expulsion hearing is conducted in closed or public session by the Board, a hearing officer, or an administrative panel, the final action to expel must be taken by the Board at a public meeting. (Education Code 489180)) The Board shall maintain a record of each expulsion, including its cause. Expulsion records shall be non- privileged, disclosable public records.

(cf. 9321.1 - Closed Session Actions and Reports)

If the Board conducts the hearing and reaches a decision not to expel, this decision shall be final and the student shall be reinstated immediately.

Upon ordering the expulsion, the Board shall set a date when the student shall be reviewed for readmission to a school within the district. For a student expelled for an act listed under "Mandatory Recommendation and Mandatory Expulsion" above, this date shall be one year from the date the expulsion occurred, except that the Board may set an earlier date on a case-by-case basis. For a student expelled for other acts, this date shall be no later than the last day of the semester following the semester in which the expulsion occurred. (Education Code 48916)

At the time of the expulsion order, the Board shall recommend a plan for the student's rehabilitation, which may include: (Education Code 48916)

1. Periodic review as well as assessment of the student at the time of review for readmission.
2. Recommendations for improved academic performance, tutoring, special education assessments, job training, counseling, employment, community service and other rehabilitative programs.
3. Such other recommendations as the Board approves.

With parental consent, students who have been expelled for reasons relating to controlled substances or alcohol may be required to enroll in a county-sponsored drug rehabilitation program before returning to school. (Education Code 48916.5)

Upon expulsion, a copy of readmission procedures will be made available to the student and his/her parent/guardian.

Written Notice to Expel

The Superintendent or designee shall send written notice of the decision to expel to the student or parent/guardian. The notice shall include the following:

1. The specific offense committed by the student for any of the causes for suspension or expulsion listed in Education Code 48900(a)-(o), Education Code 48900.2-48900.4 and Education Code 48915(c). (Education Code 48900.8)
2. The fact that a description of readmission procedures will be made available to the student and his/her parent/guardian. (Education Code 48916)
3. Notice of the right to appeal such expulsion to the County Board of Education. (Education Code 48918)
4. Notice of the alternative educational placement to be provided to the student during the time of expulsion. (Education Code 48918)
5. The notice also shall inform the student or parent/guardian of his/her obligation to inform any new district in which the student seeks to enroll of the student's status with the expelling district, pursuant to Education Code 48915.1. (Education Code 48918)

Suspension of Expulsion

The Board, upon voting to expel a student, may suspend the enforcement of the expulsion order for not more than one calendar year. When deciding whether to suspend an expulsion, the Board shall take into account the following criteria:

1. The student's previous behavior.
2. The seriousness of the misconduct.
3. The student's attitude toward the misconduct and his/her willingness to follow a rehabilitation program.

The suspension of the enforcement of an expulsion shall be governed by the following: (Education Code 48917)

1. The Board may, as a condition of the suspension of enforcement, assign the student to a school, class or program appropriate for the student's rehabilitation. This rehabilitation program may provide for the involvement of the student's parent/guardian in the student's education. However, a parent/guardian's refusal to participate in the rehabilitation program shall not be considered in the Board's determination as to whether the student has satisfactorily completed the rehabilitation program.
2. During the period when enforcement of the expulsion order is suspended, the student shall be on probationary status.
3. The suspension of expulsion order may be revoked by the Board if the student commits any of the acts listed under "Grounds for Suspension and Expulsion" above or violates any of the district's rules and regulations governing student conduct.
4. When suspension of expulsion order is revoked, a student may be expelled under the terms of the original expulsion order
5. Upon satisfactory completion of the rehabilitation assignment, the Board shall reinstate the student in a district school. Upon reinstatement, the Board may order the expungement of any or all records of the expulsion proceedings.
6. Suspension of an expulsion order shall not affect the time period and requirements for the filing of an appeal of the expulsion order with the County Board of Education.
7. The Superintendent or designee shall send written notice of any decision to suspend the enforcement of an expulsion order during a period of probation to the student or parent/guardian. The notice shall also inform the parent/guardian of the right to appeal the expulsion to the County Board of Education. (Education Code 48918(i))

Right to Appeal

The student or parent/guardian is entitled to file an appeal of the Board's decision to the County Board of Education.

The appeal must be filed within 30 days of the Board's decision to expel, even if the expulsion action is suspended and the student is placed on probation. (Education Code 48919)

Post-Expulsion Placements

The Board shall refer expelled students to a program of study that is: (Education Code 48915, 48915.01)

1. Appropriately prepared to accommodate students who exhibit discipline problems.
2. Not provided at a comprehensive middle, junior or senior high school or at any elementary school, unless the program is offered at a community day school established at such a site.
3. Not housed at the school site attended by the student at the time of suspension.

(cf. 6185 - Community Day School)

When the placement described above is not available, and when the County Superintendent of Schools so certifies, students expelled for acts described in items #6 through # 13 and # 17 through # 19 under "Grounds for Suspension and Expulsion" above may be instead referred to a program of study that is provided at another comprehensive middle, junior, or senior high school, or at an elementary school.

The program for a student expelled from any of grades K-6 shall not be combined or merged with programs offered to students in any of grades 7-12. (Education Code 48916.1)

Reinstatement

When the Board accepts a recommendation against expulsion or makes its own decision after the hearing not to expel, the decision is final and the student shall be reinstated immediately. The Superintendent or designee shall place the student in any classroom program, other instructional program, rehabilitation program, or any combination of such programs following consultation with district personnel, including the teacher involved, and with the student's parent/guardian. (Education Code 48918(e))

Readmission

An expulsion order shall remain in effect until the Board may order the readmission of the student.

Readmission procedures shall be as follows:

1. A written request for review of expulsion action and request for readmission shall be submitted by the parent/guardian to the Superintendent or designee.
2. The Superintendent or designee will hold a conference with the parent/guardian and the student.
3. At the conference the conditions for readmission will be reviewed. The Superintendent or designee shall verify that the rehabilitation plan has been met.
4. School regulations will be reviewed and the student and parent/guardian will be asked to indicate in writing their willingness to comply with these regulations.
5. The Superintendent or designee will transmit the request for readmission to the Board, along with his/her recommendation. The Board shall consider the request in closed session if the information would be disclosed in violation of Education Code 49073-49079. If a written request for open session is received from the parent/guardian or adult student, it will be honored.
6. The Superintendent or designee will notify the student or parent/guardian, by registered mail, of the district's decision regarding readmission.
7. The Board may deny readmission only if it finds that the student has not satisfied the conditions of the rehabilitation plan or that the student continues to pose a danger to campus safety or to other district students or employees. (Education Code 48916)
8. If the Board denies the readmission of a student, the Board shall determine either to continue the student's placement in the alternative educational program initially selected or to place the student in another program that serves expelled students, including placement in a county community school. (Education Code 48916)
9. The Board shall provide written notice to the expelled student and parent/guardian describing the reasons for denying readmittance into the regular program. This notice shall indicate the Board's determination of the educational program which the Board has chosen. The student shall enroll in that program unless the parent/guardian chooses to enroll the student in another school district. (Education Code 48916)

Maintenance of Records

The Board will maintain a record of each expulsion, including the specific cause of the expulsion. The expulsion record shall be maintained in the student's mandatory interim record and sent to any school in which the student subsequently enrolls, within five days of a written request by the admitting school. (Education Code 48900.8, 48918(k))

The Superintendent or designee shall, within five working days, honor any other district's request for information about an expulsion from this district. (Education Code 48915.1)

cf. 5119 - Students Expelled from Other Districts)

(cf. 5125 - Student Records)

12. Knowingly received stolen school property or private property. (Education Code 48900(l))

13. Possessed an imitation firearm, i.e., a replica of a firearm that is so substantially similar in physical properties to an existing firearm as to lead a reasonable person to conclude that the replica is a firearm. (Education Code 48900(m))

14. Committed or attempted to commit a sexual assault as defined in Penal Code 261, 266c, 286, 288, 288a or 289, or committed a sexual battery as defined in Penal Code 243.4. (Education Code 48900(n))

15. Harassed, threatened, or intimidated a student who is a complaining witness or witness in a school disciplinary proceeding for the purpose of preventing that student from being a witness and/or retaliating against that student for being a witness. (Education Code 48900(o))

16. Made terrorist threats against school officials and/or school property. (Education Code 48900.7)

Pursuant to Education Code 48900.7, the making of a terrorist threat includes any written or oral statement by a person who willfully threatens to commit a crime which will result in death, great bodily injury to another person or property damage in excess of \$1,000.00, with the specific intent that the statement is to be taken as a threat, even if there is no intent of actually carrying it out.

A student in grades 4 through 12 is also subject to suspension or recommendation for expulsion when it is determined that he/she:

17. Committed sexual harassment as defined in Education Code 212.5. (Education Code 48900.2)

Pursuant to Education Code 48900.2 the conduct constitutes harassment when considered from the perspective of a reasonable person of the same gender as the victim to be sufficiently severe or pervasive as to have a negative impact upon the victim's academic performance or to create an intimidating, hostile or offensive educational environment.

(cf. 5145.7 - Sexual Harassment)

18. Caused, attempted to cause, threatened to cause, or participated in an act of hate violence as defined in Education Code 233. (Education Code 48900.3)

(cf. 5145.9 - Hate-Motivated Behavior)

Education Code 233 defines "hate violence" as any act punishable under Penal Code 422.6, 442.7 or 422.75. Such acts include injuring or intimidating another person, interfering with the exercise of a person's civil rights, or damaging a person's property because of the person's race, color, religion, ancestry, national origin, disability, gender or sexual orientation.

19. Intentionally harassed, threatened or intimidated a student or group of students to the extent of having the actual and reasonably expected effect of materially disrupting class work, creating substantial disorder, and invading student rights by creating an intimidating or hostile educational environment. (Education Code 48900.4)

(cf. 5145.3 - Nondiscrimination/Harassment)

A student may be suspended or expelled for any of the acts listed above if the act is related to school activity or school attendance occurring at any district school under the jurisdiction of the Superintendent or principal or within any other school district, including but not limited to the following circumstances: (Education Code 48900)

1. While on school grounds.
2. While going to or coming from school.
3. During the lunch period, whether on or off the school campus.
4. During, going to, or coming from a school-sponsored activity.

The Superintendent or principal may use his/her discretion to provide alternative to suspension or expulsion for a student subject to discipline under this administrative regulation, including, but not limited to, counseling and an anger management program. (Education Code 48900(r))

Alternatives to suspension or expulsion will be used with students who are truant, tardy, or otherwise absent from assigned school activities.

(cf. 5113 - Absences and Excuses)

(cf. 5113.1 - Truancy)

Removal from Class by a Teacher/Parental Attendance

A teacher may suspend any student from his/her class for the remainder of the day and the following day for any act listed in "Grounds for Suspension and Expulsion" above. (Education Code 48910)

A teacher also may refer a student to the principal or designee for consideration of suspension from school. (Education Code 48910)

When removing a student from his/her class, the teacher shall immediately report this action to the principal and send the student to the principal for appropriate action. The student shall be appropriately supervised during the class periods from which he/she has been removed.

As soon as possible, the teacher shall ask the student's parent/guardian to attend a parent-teacher conference regarding the removal. A counselor or psychologist should attend the conference if it is practicable, and a school administrator may attend if either the parent/guardian or teacher so requests.

A student removed from class shall not be returned to class during the period of removal without the approval of the teacher of the class and the principal. (Education Code 48910)

A student removed from class shall not be placed in another regular class during the period of removal. However, if a student is assigned to more than one class per day, he/she may be placed in any other regular classes except those held at the same time as the class from which the student was removed. (Education Code 48910)

The teacher of any class from which a student is removed may require the student to complete any assignments and tests missed during the removal. (Education Code 48913)

Pursuant to Board policy, a teacher may provide that the parent/guardian of a student whom the teacher has removed attend a portion of a school day in his/her child's classroom. When a teacher makes this request, the principal shall send the parent/guardian a written notice that the parent/guardian's attendance is requested pursuant to law. (Education Code 48900.1)

This notice shall also:

1. Inform the parent/guardian when his/her presence is expected and by what means he/she may arrange an alternate date.
2. Describe the legal protections afforded to the parent/guardian as an employee under Labor Code 230.7.
3. State that if the parent/guardian does not have a means of transportation to school, he/she may ride the school bus with the student.
4. Ask the parent/guardian to meet with the principal after the visit and before leaving school, as required by Education Code 48900.1.

Suspension by Superintendent, Principal or Principal's Designee

The Superintendent, principal or principal's designee may suspend a student from a school for not more than five consecutive school days unless the suspension is extended pending expulsion. (Education Code 48911)

The Superintendent or designee shall immediately suspend any student found at school or at a school activity to be: (Education Code 48915)

1. Possessing, as verified by a district employee, or selling or otherwise furnishing a firearm, unless the student had obtained prior written permission to possess the item from a certificated school employee, with the principal or designee's concurrence.
2. Brandishing a knife, as defined in Education Code 48915(g), at another person.
3. Unlawfully selling a controlled substance listed in Health and Safety Code 11053-11058.
4. Committing or attempting to commit a sexual assault or committing a sexual battery as defined in item #14 under "Grounds for Suspension and Expulsion".
5. Possession of an explosive as defined in 18 USC 921.

Suspension also may be imposed upon a first offense if the Superintendent, principal or designee determines the student violated items #1-5 listed in "Grounds for Suspension and Expulsion" above or if the student's presence causes a danger to persons or property or threatens to disrupt the instructional process. (Education Code 48900.5)

A student may be suspended from school for not more than 20 school days in any school year, unless for purposes of adjustment a student enrolls in or is transferred to another regular school, an opportunity school, or continuation school or class, in which case suspension shall not exceed 30 days in any school year. However, this restriction on the number of days of suspension does not apply when the suspension is extended pending an expulsion. (Education Code 48903, 48912)

The Superintendent or designee may count suspensions that occur while a student is enrolled in another school district toward the maximum number of days for which a student may be suspended in any school year. (Education Code 48903)

Suspensions shall be initiated according to the following procedures:

1. Informal Conference: Suspension shall be preceded by an informal conference conducted by the principal, designee or the Superintendent with the student and whenever practicable, the teacher, supervisor or school employee who referred the student to the principal. At the conference, the student shall be informed of the reason for the disciplinary action and the evidence against him/her; the student shall be given the opportunity to present his/her version and evidence in support of his/her defense. (Education Code 48911(b))

This conference may be omitted if the principal, designee or the Superintendent determines that an emergency situation exists. An "emergency situation" involves a clear and present danger to the lives, safety or health of students or school personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student's right to return to school for the purpose of a conference. The conference shall be held within two school days, unless the student waives his/her right to it or is physically unable to attend for any reason. In such case, the conference will be held as soon as the student is physically able to return to school. (Education Code 48911(c))

2. Administrative Actions: All requests for student suspension are to be processed by the principal or designee of the school in which the student is enrolled at the time of the misbehavior. A school employee shall report the suspension, including the name of the student and the cause for the suspension, to the Superintendent or designee.

3. Notice to Parents/Guardians: At the time of the suspension, a school employee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension. (Education Code 48911)

This notice shall state the specific offense committed by the student. (Education Code 48900.8).

In addition, the notice may also state the date and time when the student may return to school. If school officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may add that state law requires the parent/guardian to respond to such requests without delay.

4. Parent/Guardian Conference: Whenever a student is suspended, school officials may meet with the parent/guardian to discuss the causes and duration of the suspension, the school policy involved, and any other pertinent matters. (Education Code 48914)

While the parent/guardian is required to respond without delay to a request for a conference about a student's behavior, no penalties may be imposed on the student for the failure of the parent/guardian to attend such conference. The student may not be denied readmission solely because the parent/guardian failed to attend. (Education Code 48911)

5. Extension of Suspension: If the Board is considering the expulsion of a suspended student from any school or the suspension of a student for the balance of the semester from continuation school, the Superintendent or designee may, in writing, extend the suspension until such time as the Board has made a decision. (Education Code 48911(g))

Any extension of the original period of suspension shall be preceded by notice of such extension with an offer to hold a conference concerning the extension, giving the student an opportunity to be heard. This conference may be held in conjunction with a meeting requested by the student or parent/guardian to challenge the original suspension. Extension of the suspension may be made only if the Superintendent or designee determines, following a meeting in which the student and the student's parent/guardian were invited to participate, that the student's presence at the school or at an alternative school would endanger persons or property or threaten to disrupt the instructional process. (Education Code 48911)

Suspension by the Board

The Board may suspend a student for any of the acts listed in "Grounds for Suspension and Expulsion" above and within the limits specified in "Suspension by Superintendent, Principal or Principal's Designee" above. (Education Code 48912)

The Board may suspend a student enrolled in a continuation school or class for a period not longer than the remainder of the semester if any of the acts listed in "Grounds for Suspension and Expulsion" occurred. The suspension shall meet the requirements of Education Code 48915. (Education Code 48912.5)

When the Board is considering a suspension, disciplinary action, or any other action (except expulsion) against any student, it shall hold closed sessions if a public hearing would lead to disclosure of information violating a student's right privacy under Education Code 49073-49079.

(cf. 9321 - Closed Session Purposes and Agendas)

The Board shall provide the student and his/her parent/guardian with written notice of the closed session by or certified mail. Upon receiving this notice, the student or parent/guardian may request a public meeting, and this request shall be granted if made in writing within 48 hours after receipt of the Board's notice. However, any discussion that conflicts with any other student's right to privacy still shall be held in closed session. (Education Codes 35146, 48912)

On-Campus Suspension Program

Students for whom an expulsion action has not been initiated and who pose no imminent danger or threat to the school may be assigned to a separate, supervised suspension classroom for the entire period of suspension. The following conditions shall apply: (Education Code 48911.1)

1. The supervised suspension classroom shall be staffed in accordance with law.
2. The student shall have access to appropriate counseling services.
3. The supervised suspension classroom shall promote completion of schoolwork and tests missed by the student during the suspension.
4. Each student shall be responsible for contacting his/her teacher(s) to receive assignments to be completed in the supervised suspension classroom. The teacher shall provide all assignments and tests that the student will miss while suspended. If no such work is assigned, the person supervising the suspension classroom shall assign schoolwork.

At the time a student is assigned to a supervised suspension classroom, the principal or designee shall notify the student's parent/guardian in person or by telephone. When the assignment is for longer than one class period, this notification shall be made in writing. (Education Code 48911.1)

Authority to Expel

A student may be expelled only by the Board. The Board shall expel, as required by law, any student found to have committed certain offenses listed below under "Mandatory Recommendation and Mandatory Expulsion."

The Board also may order a student expelled for any of the acts listed under "Grounds for Suspension and Expulsion" upon recommendation by the principal, Superintendent, hearing officer or administrative panel, based on finding either or both of the following: (Education Code 48915 (b) and (e))

1. That other means of correction are not feasible or have repeatedly failed to bring about proper conduct.
2. That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others.

Mandatory Recommendation for Expulsion

Unless the principal, Superintendent or designee finds that expulsion is inappropriate due to particular circumstances, the principal, Superintendent or designee shall recommend a student's expulsion for any of the following acts: (Education Code 48915 (a))

1. Causing serious physical injury to another person, except in self-defense.
2. Possession of any knife as defined in Education Code 48915(g), explosive or other dangerous object of no reasonable use to the student.
3. Unlawful possession of any controlled substance, as listed in the Health and Safety Code 11053-11058, except for the first offense for the possession of not more than one ounce of marijuana, other than concentrated cannabis.
4. Robbery or extortion.
5. Assault or battery, as defined in Penal Code 240 and 242, upon any school employee.

Mandatory Recommendation and Mandatory Expulsion

Note: The Attorney General has determined, in 80 Ops.Cal. Atty. Gen. 347 (1997), that a district may not adopt a zero tolerance policy mandating expulsion of a student for a first offense of possession of a controlled substance or alcohol.

The principal, Superintendent or designee shall recommend that the Board expel any student found at school or at a school activity to be: (Education Code 48915(c))

1. Possessing, as verified by a district employee, or selling or otherwise furnishing a firearm, unless the student had obtained prior written permission to possess the item from a certificated school employee, with the principal or designee's concurrence.
2. Brandishing a knife as defined in Education Code 48915(g) at another person.
3. Unlawfully selling a controlled substance listed in Health and Safety Code 11053-11058
4. Committing or attempting to commit a sexual assault or committing a sexual battery as defined in item #14 under "Grounds for Suspension and Expulsion" above.
5. Possessing an explosive as defined in 18 USC 921.

Upon finding that the student committed any of the above acts, the Board shall expel the student. (Education Code 48915)

The initial recommendation for consideration of expulsion is that of the school principal or the Superintendent. Designees may not make this type of recommendation.

The recommendation for consideration of expulsion shall be submitted to the Director, Office of Student Services, who will review the material and recommend:

1. Reassignment to appropriate regular education program.
2. Refer student to Alternative Program; i.e., Community School, Independent Study, Continuation or Opportunity School, or other district programs.
3. Refer the matter to the Discipline Review Panel for further consideration.

When a case is referred to the discipline Review Panel, the panel shall question school personnel who have information on the incident and the behavior record of the student charged and weighs the evidence presented.

The panel shall, in the case of an expulsion consideration, weigh information presented to determine:

- a. Is the evidence sufficient to support consideration by the expulsion panel?
- b. Has the district, through the schools involved, considered or utilized alternatives to expulsion when possible?
- c. Have due process procedures been adhered to?

The recommendation shall be either to proceed with the expulsion or to utilize an existing practical alternative in lieu of expulsion.

If the district (school) has not adhered to due process requirements, the student shall be returned to school immediately.

If the Discipline Review Panel meets to consider a matter other than an expulsion, it shall provide its best judgment as to an effective alternative program or plan to action.

The recommendation of the Discipline Review Panel shall be forwarded to the Director, Office of Student Services, who shall then review the facts, concur, veto or modify the recommendation.

4. That an expulsion panel be convened.

At the time a recommendation for expulsion is submitted, a hearing shall be scheduled by the Superintendent or designee to determine whether the suspension shall be extended. If the decision is to extend the suspension, the period of time shall be until the Board has rendered a decision or until the expulsion process is otherwise terminated.

The extension of suspension shall be based upon determination by the Superintendent or designee that the presence of the student at the school or in an alternative school placement would cause a danger to persons or property or a threat of disrupting the instructional process. This extension shall be imposed only after the student and the parent/guardian have been given the opportunity to be present at a hearing conducted by the Superintendent or designee. At this time, the student and parent/guardian shall be given the opportunity to be heard and present any information that might bear upon the decision.

Materials which support the decision of the person recommending the expulsion shall be prepared and submitted to the Office of Student Services. The departments of Attendance, Guidance, Special Education and/or Health may be requested to assist in the preparation of this material.

Student's Right to Expulsion Hearing

The student is entitled to a hearing to determine whether the student should be expelled. The hearing shall be held within 30 school days after the principal or Superintendent or designee determines that one of the acts listed under "Grounds for Suspension and Expulsion" has occurred. (Education Code 48918 (a))

The student is entitled to one postponement of an expulsion hearing for a period of not more than 30 calendar days. The request for postponement shall be in writing. Any subsequent postponement may be granted at the Board's discretion. (Education Code 48918(a))

If the Board finds it impractical during the school year to comply with these time requirements for conducting an expulsion hearing, the Superintendent or designee may, for good cause, extend the time period by an additional five school days. Reasons for the extension shall be included as a part of the record when the expulsion hearing is held. (Education Code 48918(a))

If the Board finds it impractical to comply with the time requirements of the expulsion hearing due to summer recess of Board meetings of more than two weeks, the days during the recess shall not be counted as school days. The days not counted during the recess may not exceed 20 school days as defined in Education Code 48925. Unless the student requests in writing that the expulsion hearing be postponed, the hearing shall be held no later than 20 calendar days prior to the first day of the next school year. (Education Code 48918(a))

Once the hearing starts, all matters shall be pursued with reasonable diligence and concluded without unnecessary delay. (Education Code 48918(a))

Waiver of Hearing (Default Proceedings)

If the parent/guardian agrees that their son/daughter behaved essentially in the manner stated in the principals letter recommending expulsion and that such behavior constitutes a violation of the California Education Code, Section 48900, 48900.2, 48900.3, 48900.4, 48900.7 and/or 48915 a suspendable/expellable offense, the parent/guardian may request to waive the Administrative Hearing Panel.

When the parent/guardian agrees to waive the Administrative Hearing Panel, they also waive all notification and timelines related to the expulsion hearing process, along with their rights to appeal the determination of the Board.

The signed affidavit and findings of fact will be submitted to the Board for their approval. The Board has the discretionary power to accept, reject, or modify all recommendations.

Rights of Complaining Witness

An expulsion hearing involving allegations of sexual assault or sexual battery may be postponed for one school day in order to accommodate the special physical, mental or emotional needs of a student who is the complaining witness. (Education Code 48918.5)

Whenever the Superintendent or designee recommends an expulsion hearing that addresses allegations of sexual assault or sexual battery, he/she shall give the complaining witness a copy of the district's suspension and expulsion policy and regulation and shall advise the witness of his/her right to all the following: (Education Code 48918.5)

1. Receive five days' notice of his/her scheduled testimony at the hearing.
2. Have up to two adult support persons of his/her choosing present in the hearing at the time he/she testifies.
3. Have a closed hearing during the time he/she testifies.

Whenever any allegation of sexual assault or sexual battery is made, the Superintendent or designee shall immediately advise complaining witnesses and accused students to refrain from personal or telephone contact with each other during the time when an expulsion process is pending. (Education Code 48918.5)

Written Notice of the Expulsion Hearing (Education Code 48918(b))

Written notice of the hearing shall be forwarded to the student and the student's parent/guardian at least 10 calendar days before the date of the hearing. The notice shall include: (Education Code 48900.8, 48918 (b))

1. The date and place of the hearing.
2. A statement of the specific facts, charges and offense upon which the proposed expulsion is based.
3. A copy of district disciplinary rules which relate to the alleged violation.
4. Notification of the student's or parent/guardian's obligation, pursuant to Education Code 48915.1, to provide information about the student's status in the district to any other district in which the student seeks enrollment. This obligation applies when a student is expelled for acts other than those described in Education Code 48915 (a) or (c).
(cf. 5119 - Students Expelled from other Districts)

5. The opportunity for the student or the student's parent/guardian to appear in person and/or be represented by legal counsel or by a non-attorney advisor.

Legal counsel means an attorney or lawyer who is admitted to the practice of law in California and is an active member of the State Bar of California.

Non-attorney advisor means an individual who is not an attorney or lawyer, but who is familiar with the facts of the case, and has been selected by the student or student's parent/guardian to provide assistance at the hearing.

6. The right to inspect and obtain copies of all documents to be used at the hearing.
7. The opportunity to confront and question all witnesses who testify at the hearing.
8. The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf, including witnesses.

Conduct of Expulsion Hearing

1. Closed Session: Notwithstanding the provisions of Government Code 54953 and Education Code 35145, the Board shall conduct a hearing to consider the expulsion of the student in a session closed to the public unless the student requests in writing at least five days prior to the hearing that the hearing be a public meeting. If such request is made, the meeting shall be public, unless another student's privacy rights would be violated.

Whether the expulsion hearing is held in closed or public session, the Board may meet in closed session to determine if the student should be expelled. If the Board admits any other person to the closed session, the parent/guardian, the student, and the counsel of the student, shall also be allowed to attend the closed session. (Education Code 48918(c))

If a hearing that involves a charge of sexual assault or sexual battery is to be conducted in public, a complaining witness shall have the right to have his/her testimony heard in closed session when testifying in public would threaten serious psychological harm to the witness and when there are no alternative procedures to avoid the threatened harm, including but not limited to videotaped deposition or contemporaneous examination in another place communicated to the hearing room by closed-circuit television. (Education Code 48918(c))

2. Record of Hearing: A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate written and complete transcription of the proceedings can be made. (Education Code 48918(g))

3. Subpoenas: Before commencing a student expulsion hearing, the Board may issue subpoenas, at the request of either the student or the Superintendent or designee, for the personal appearance at the hearing of any person who actually witnessed the action that gave rise to the recommendation for expulsion. After the hearing has commenced, the Board or the hearing officer or administrative panel may issue such subpoenas at the request of the student or the County Superintendent of Schools or designee. All subpoenas shall be issued in accordance with the Code of Civil Procedure 1985-1985.2 and enforced in accordance with Government Code 11455.20, formerly 11525. (Education Code 48918(i))

Any objection raised by the student or the Superintendent or designee to the issuance of subpoenas may be considered by the Board in closed session, or in open session if so requested by the student, before the meeting. The Board's decision in response to such an objection shall be final and binding. (Education Code 48918(i))

If the Board determines, or if the hearing officer or administrative panel finds and submits to the Board, that a witness would be subject to unreasonable risk of harm by testifying at the hearing, a subpoena shall not be issued to compel the personal attendance of that witness at the hearing. However, that witness may be compelled to testify by means of a sworn declaration as described in item #4 below. (Education Code 48918(i))

4. Presentation of Evidence: While technical rules of evidence do not apply to expulsion hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. The decision of the Board to expel must be supported by substantial evidence that the student committed any of the acts listed in "Grounds for Suspension and Expulsion" above.

Findings of fact shall be based solely on the evidence at the hearing. While no evidence shall be based solely on hearsay, sworn declarations may be admitted as testimony from witnesses whose disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm. (Education Code 48918 (f) and (h))

In cases where a search of a student's person or property has occurred, evidence describing the reasonableness of the search shall be included in the hearing record.

5. Testimony by Complaining Witnesses: The following procedures shall be observed when hearings involve allegations of sexual assault or sexual battery by a student: (Education Code 48918)

- a. Any complaining witness shall be given five days' notice before being called to testify.
- b. Any complaining witness shall be entitled to have up to two adult support persons, including but not limited to a parent/guardian or legal counsel, present during his/her testimony.
- c. Before a complaining witness testifies, support persons shall be admonished that the hearing is confidential.
- d. The person presiding over the hearing may remove a support person whom he/she finds is disrupting the hearing.
- e. If one or both support persons are also witnesses, the hearing shall be conducted according to Penal Code 868.5.
- f. Evidence of specific instances of prior sexual conduct of a complaining witness shall be presumed inadmissible and shall not be heard unless the person conducting the hearing determines that extraordinary circumstances require the evidence to be heard. Before such a determination is made, the complaining witness shall be given notice and an opportunity to oppose the introduction of this evidence. In the hearing on the admissibility of this evidence, the complaining witness shall be entitled to be represented by a parent/guardian, legal counsel or other support person. Reputation or opinion evidence regarding the sexual behavior of a complaining witness shall not be admissible for any purpose.
- g. In order to facilitate a free and accurate statement of the experiences of the complaining witness and to prevent discouragement of complaints, the district shall provide a nonthreatening environment.
 - (1) The district shall provide a room separate from the hearing room for the use of the complaining witness before and during breaks in testimony.
 - (2) At the discretion of the person conducting the hearing, the complaining witness shall be allowed reasonable periods of relief from examination and cross-examination during which he/she may leave the hearing room.
 - (3) The person conducting the hearing may:
 - (a) Arrange the seating within the hearing room so as to facilitate a less intimidating environment for the complaining witness.
 - (b) Limit the time for taking the testimony of a complaining witness to the hours he/she is normally in school, if there is no good cause to take the testimony during other hours.

(c) Permit one of the support persons to accompany the complaining witness to the witness stand.

6. Decision Within 10 Days: The Board's decision on whether to expel a student shall be made within 10 school days after the conclusion of the hearing, unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

7. Decision Within 40 Days: If the Board does not meet on a weekly basis, its decision on whether to expel a student shall be made within 40 school days after the student is removed from his/her school of attendance, unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

Alternative Expulsion Hearing: Hearing Officer or Administrative Panel

Instead of conducting an expulsion hearing itself, the Board may contract with the county hearing officer or with the Office of Administrative Hearings of the State of California for a hearing officer. Alternatively, the Board may appoint an impartial administrative panel composed of three or more certificated personnel, none of whom shall be members of the Board or on the staff of the school in which the student is enrolled. (Education Code 48918(d))

A hearing conducted by the hearing officer or administrative panel shall conform to the same procedures as apply to a hearing conducted by the Board as specified in "Conduct of Expulsion Hearing."

The hearing officer or administrative panel shall, within three school days after the hearing, determine whether to recommend expulsion of the student to the Board. If expulsion is not recommended, the student shall be immediately reinstated. (See "Reinstatement.") The Superintendent or designee shall place the student in a classroom instructional program, any other instructional program, a rehabilitation program, or any combination of these programs after consulting with district staff, including the student's teachers, and with the student's parent/guardian. (Education Code 48918(e))

If expulsion is recommended, findings of fact in support of the recommendation shall be prepared and submitted to the Board. All findings of fact and recommendations shall be based solely on the evidence presented at the hearing. The Board may accept the recommendation based either upon a review of the findings of fact and recommendations submitted or upon the results of any supplementary hearing the Board may order. (Education Code 48918(f))

In accordance with Board policy, the hearing officer or administrative panel may recommend that the Board suspend the enforcement of the expulsion for a period of one year. (See "Decision Not to Enforce Expulsion Order" below.)

The Board shall make its decision about the student's expulsion within 40 school days after the date of the student's removal from school unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

The Discipline Review Panel

The Discipline Review Panel will consist of elementary educators when a review is being made of an elementary student and of secondary educators when a review is being made of secondary student.

1. The Discipline Review Panel shall hear the following types of disciplinary cases:

a. Requests for expulsion from site principals or the Superintendent.

b. School site administrative requests for assistance (non-expulsion situations).

2. Each discipline review panel shall consist of three certificated persons plus a chairperson and shall consist of elementary educators when a review is being made of an elementary student and of secondary educators when a review is being made of a secondary student. A panelist may not serve on any panel involving a student who is currently attending the school in which he/she is assigned. A representative from Student Services shall be a nonvoting member of each panel.

A chairperson and assistant chairperson, to serve when the chairperson is unable to serve, shall be appointed by the Superintendent or designee and shall serve at his/her pleasure. Neither shall be a member of the Student Services staff.

A pool of panelists shall be established which shall be composed of personnel who have served or are currently serving as members of administrative expulsion panels. The committee chairman shall select members to serve on individual panels.

The meetings of the discipline review panel are open to school district personnel only.

The duties of the Discipline Review Panel are as follows:

1. The chairperson shall call a meeting of the panel as soon as possible, but no later than 10 school days after the receipt of notice of a pending case.

2. A recommendation must be forwarded to the Director, Office of Student Services, within three days of the review hearing.
3. In the event a member of the committee cannot be present at a meeting, the Director, Office of Student Services, will appoint an alternate from the pool to attend.

Final Action by the Board

Whether the expulsion hearing is conducted in closed or public session by the Board, a hearing officer, or an administrative panel, the final action to expel shall be taken by the Board at a public meeting. (Education Code 48918(jj))

(cf. 9321.1 - Closed Session Actions and Reports)

If the Board conducts the hearing and reaches a decision not to expel, this decision shall be final and the student shall be reinstated immediately.

Upon ordering an expulsion, the Board shall set a date when the student shall be reviewed for readmission to a school within the district. For a student expelled for an act listed under "Mandatory Recommendation and Mandatory Expulsion" above, this date shall be one year from the date the expulsion occurred, except that the Board may set an earlier date on a case-by-case basis. For a student expelled for other acts, this date shall be no later than the last day of the semester following the semester in which the expulsion occurred. (Education Code 48916)

At the time of the expulsion order, the Board shall recommend a plan for the student's rehabilitation, which may include: (Education Code 48916)

1. Periodic review as well as assessment of the student at the time of review for readmission.
2. Recommendations for improved academic performance, tutoring, special education assessments, job training, counseling, employment, community service and other rehabilitative programs.

With parental consent, students who have been expelled for reasons relating to controlled substances or alcohol may be required to enroll in a county-sponsored drug rehabilitation program before returning to school. (Education Code 48916.5)

Written Notice to Expel

The Superintendent or designee shall send written notice of the decision to expel the student or parent/guardian. This notice shall include the following:

1. The specific offense committed by the student for any of the causes for suspension or expulsion listed in Education Code 48900 (a)-(o), Education Code 48900.2-48900.4, Education Code 48915 (c) and (Education Code 48900.8).
2. The fact that a description of readmission procedures will be made available to the student and his/her parent/guardian. (Education Code 48916)
3. Notice of the right to appeal the expulsion to the County Governing Board. (Education Code 48918)
4. Notice of the alternative educational placements to be provided to the student during the time of expulsion. (Education Code 48918)
5. Notice of the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with the expelling district, pursuant to Education Code 48915.1 (Education Code 48918).

Decision Not to Enforce Expulsion Order

In accordance with Board policy, when deciding whether to suspend the enforcement of an expulsion, the Board shall take into account the following criteria:

1. The student's pattern of behavior.
2. The seriousness of the misconduct.
3. The student's attitude toward the misconduct and his/her willingness to follow a rehabilitation program.

The suspension of the enforcement of an expulsion shall be governed by the following: (Education Code 48917)

1. The Board may, as a condition of the suspension of enforcement, assign the student to a school, class or program appropriate for the student's rehabilitation. This rehabilitation program may provide for the involvement of the student's parent/guardian in the student's education. However, a parent/guardian's refusal to participate in the rehabilitation program shall not be considered in the Board's determination as to whether the student has satisfactorily completed the rehabilitation program.
2. During the period when enforcement of the expulsion order is suspended, the student shall be on probationary status.

3. The suspension of the enforcement of an expulsion order may be revoked by the Board if the student commits any of the acts listed under “Grounds for Suspension and Expulsion” above or violates any of the district’s rules and regulations governing student conduct.
4. When the suspension of the enforcement of an expulsion order is revoked, a student may be expelled under the terms of the original expulsion order.
5. Upon satisfactory completion of the rehabilitation assignment, the Board shall reinstate the student in a district school. Upon reinstatement, the Board may order the expunging of any or all records of the expulsion proceedings.
6. Suspension of the enforcement of an expulsion order shall not affect the time period and requirements for the filing of an appeal of the expulsion order with County Board of Education.
7. The Superintendent or designee shall send written notice of any decision to suspend the enforcement of an expulsion order during a period of probation to the student or parent/guardian. The notice shall also inform the parent/guardian of the right to appeal the expulsion to the County Board of Education. (Education Code 48918 (j))

Right to Appeal

The student or parent/guardian is entitled to file an appeal of the Board’s decision to the County Board of Education. The appeal must be filed within 30 days of the Board’s decision to expel, even if the expulsion action is suspended and the student is placed on probation. (Education Code 48919)

Post-Expulsion Placements

The Board shall refer expelled students to a program of study that is: (Education Code 48915, 48915.01)

1. Appropriately prepared to accommodate students who exhibit discipline problems.
2. Not provided at a comprehensive middle, junior or senior high school or at any elementary school, unless the program is offered at a community day school established at such a site.
3. Not housed at the school site attended by the student at the time of suspension.

(cf. 6185 - Community Day School)

When the placement described above is not available, and when the County Superintendent of Schools so certifies, students expelled for acts described in items #6 through #13 and #17 through #19 under “Grounds for Suspension and Expulsion” may be instead referred to a program of study that is provided at another comprehensive middle, junior, or senior high school, or at an elementary school. (Education Code 48915)

The program for a student expelled from any of grades K-6 shall not be combined or merged with programs offered to students in any of grades 7-12. (Education Code 48916.1)

Readmission After Expulsion

Readmission procedures shall be as follows:

1. On the date set by the Board when it ordered the expulsion, the district shall consider readmission of the student. (Education Code 48916)
2. The Superintendent or designee shall hold a conference with the parent/guardian and the student. At the conference the student’s rehabilitation plan shall be reviewed and the Superintendent or designee shall verify that the provisions of this plan have been met. School regulations shall be reviewed and the student and parent/guardian shall be asked to indicate in writing their willingness to comply with these regulations.
3. The Superintendent or designee shall transmit to the Board his/her recommendation regarding readmission. The Board shall consider this recommendation in closed session if information would be disclosed in violation of Education Code 49073-49079. If a written request for open session is received from the parent/guardian or adult student, it shall be honored.
4. If the readmission is granted, the Superintendent or designee shall notify the student and parent/guardian, by registered mail, of the Board’s decision regarding readmission.
5. The Board may deny readmission only if it finds that the student has not satisfied the conditions of the rehabilitation plan or that the student continues to pose a danger to campus safety or to other district students or employees. (Education Code 48916)
6. If the Board denies the readmission of a student, the Board shall determine either to continue the student’s placement in the alternative educational program initially selected or to place the student in another program that serves expelled students, including placement in a county community school. (Education Code 48916)

7. The Board shall provide written notice to the expelled student and parent/guardian describing the reasons for denying readmittance into the regular program. This notice shall indicate the Board's determination of the educational program which the Board has chosen. The student shall enroll in that program unless the parent/guardian chooses to enroll the student in another school district. (Education Code 48916)

Maintenance of Records

The Board shall maintain a record of each expulsion, including the specific cause of the expulsion. The expulsion record shall be maintained in the student's mandatory interim record and sent to any school in which the student subsequently enrolls, within five days of a written request by the admitting school. (Education Code 48900.8, 48918(k))

The Superintendent or designee shall, within five working days, honor any other district's request for information about an expulsion from this district. (Education Code 48915.1)

(cf. 5119 - Students Expelled from Other Districts)

(cf. 5125 - Student Records)

Notifications to Law Enforcement Authorities

Prior to the suspension or expulsion of any student, the principal or designee shall notify appropriate city or county law enforcement authorities of any student acts of assault which may have violated Penal Code 245. (Education Code 48902)

The principal or designee also shall notify appropriate city or county law enforcement authorities of any student acts which may involve the possession or sale of narcotics or of a controlled substance or possession of weapons or firearms in violation of Penal Code 626.9 and 626.10. (Education Code 48902)

Within one school day after a student's suspension or expulsion, the principal or designee shall notify appropriate city or county law enforcement authorities, by telephone or other appropriate means, of any student acts which may violate Education Code 48900(c) or (d), relating to the possession, use, offering or sale of controlled substances, alcohol, or intoxicants of any kind. (Education Code 48902)

Ouome Data

The Superintendent or designee shall maintain the following data and report such data annually to the California Department of Education, using forms supplied by the California Department of Education: (Education Code 48900.8, 48916.1)

1. The number of students recommended for expulsion.
2. The grounds for each recommended expulsion.
3. Whether the student was subsequently expelled.
4. Whether the expulsion order was suspended.
5. The type of referral made after the expulsion.
6. The disposition of the student after the end of the expulsion period.

Regulation: REDLANDS UNIFIED SCHOOL DISTRICT

Approved: June 27, 1995, Redlands, California

(D) Procedures to Notify Teachers of Dangerous Pupils (EC 49079)

Whenever a student is identified as violent or dangerous per E.C. 49079 the teacher will be informed by the principal. The teacher shall keep this information in confidence and must not further disseminate it. However, if the teacher believes that the student is improperly placed (or is an immediate danger) these opinions (and related observations) should be shared with the principal immediately. The District office also has a responsibility to insure that all appropriate actions are taken to identify, notify and support necessary interventions with regard to violent or dangerous pupils. Student Services Department notifies Principals at the beginning of each school year of students who were suspended in the prior year. Principals, in turn, notify the current teacher.

(E) Sexual Harassment Policies (EC 212.6 [b])

Policy 4119.11: Sex Discrimination and Sex-Based Harassment

The Governing Board is committed to providing a safe work environment that is free of harassment and intimidation. The Board prohibits sexual harassment against district employees by anyone, in any manner, and prohibits retaliatory action or behavior against any persons who complains, testifies, or otherwise participates in the complaint process established pursuant to this policy and accompanying administrative regulation. This policy shall apply to all district employees, interns, volunteers, contractors, job applicants, and other persons with an employment relationship with the district.

(cf. 0410 - Nondiscrimination in District Programs and Activities) (cf. 4030 - Nondiscrimination in Employment)

Sexual harassment includes, but is not limited to, harassment that is based on the sex, gender, gender identity, gender expression, or sexual orientation of the victim and harassment based on pregnancy, childbirth, or related medical conditions.

The Superintendent or designee shall take all actions necessary to ensure the prevention, investigation, and correction of sexual harassment, including but not limited to:

1. Providing training to all staff in accordance with law and administrative regulation.
2. Publicizing and disseminating the district's sexual harassment policy to staff.
3. Ensuring prompt, thorough, equitable, and fair investigation of complaints
4. Taking timely and appropriate corrective/remedial actions which may require interim separation of the complainant and the alleged harasser and subsequent monitoring of developments.

The Superintendent or designee shall periodically evaluate the effectiveness of the district's strategies to prevent and address harassment. Such evaluation may involve conducting regular anonymous employee surveys to assess whether harassment is occurring or is perceived to be tolerated, partnering with researchers or other agencies with the needed expertise to evaluate the district's prevention strategies, and using any other effective tool for receiving feedback on systems and/or processes. As necessary, changes shall be made to the harassment policy, complaint procedures, or training.

Sexual Harassment Reports and Complaints

Any district employee who feels that he/she has been sexually harassed in the performance of their district responsibilities or who has knowledge of any incident of sexual harassment by or against another employee shall immediately report the incident to his/her supervisor, the principal, other district administrator, or the district's Title IX Coordinator. However, an employee may bypass his/her supervisor in filing a complaint if the supervisor is the subject of the complaint. A supervisor, principal, or district administrator who receives a harassment complaint shall promptly notify the Title IX Coordinator.

Once notified, the Title IX Coordinator shall ensure the complaint or allegation is addressed through AR 4119.12/4219.12/4319.12 – Title IX Sexual Harassment Complaint Procedures or AR 4030- Nondiscrimination in Employment, as applicable. Because a complaint or allegation that is dismissed or denied under the Title IX complaint procedure may still be subject to consideration under state law, the Title IX Coordinator shall ensure that any implementation of AR 4119.12/4219.12/4319.12 concurrently meets the requirements of AR 4030.

Notwithstanding the above, BP/AR 4119.12/4219.12/4319.12 and 4030 shall under no circumstances be used to resolve complaints brought by, on behalf of, or against students. All complaints brought by, on behalf of, or against students that allege "sexual harassment" as that term is defined in the federal regulations implementing Title IX of the Education Amendments of 1972 (see 34 C.F.R. § 106, et seq.) shall be investigated and resolved under BP/AR 5145.71. All complaints brought by, on behalf of, or against students that do not meet the definition of "sexual harassment" as set forth in the Title IX implementing regulations shall be investigated and resolved under BP/AR 1312.3.

(cf. 4119.12/4219.12/4319.12 - Title IX Sexual Harassment Complaints)

The Title IX Coordinator shall offer supportive measures to the complainant and respondent, as deemed appropriate under the circumstances.

Upon investigation of a sexual harassment complaint, any district employee who engages, or participates in sexual harassment, or who aids, abets, incites, compels, or coerces another to commit sexual harassment in violation of this policy is subject to disciplinary action, up to and including dismissal, in accordance with law and the applicable collective bargaining agreement.

(cf. 4117.7/4317.7 - Employment Status Reports) (cf. 4118 - Dismissal/Suspension/Disciplinary Action) (cf. 4218 -

Dismissal/Suspension/Disciplinary Action)

Regulation 4119.12: Title IX Sex Discrimination and Sex-Based Harassment Complaint Procedures

The complaint procedures described in this administrative regulation shall be used to address any complaint governed by Title IX of the Education Amendments of 1972 alleging that a district employee, while in an education program or activity in which a district school exercises substantial control over the context and respondent, was subjected to one or more of the following forms of sexual harassment: (34 CFR 106.30, 106.44)

1. A district employee conditioning the provision of a district aid, benefit, or service on a person's participation in unwelcome sexual conduct
2. Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the district's education program or activity
3. Sexual assault, dating violence, domestic violence, or stalking as defined in 20 USC 1092 or 34 USC 12291 (cf. 4119.11/4219.11/4319.11 - Sexual Harassment)

All other sexual harassment complaints or allegations shall be investigated and resolved in accordance with AR 4030

- Nondiscrimination in Employment. The determination of whether the allegations meet the definition of sexual harassment under Title IX shall be made by the district's Title IX Coordinator.

(cf. 4030 - Nondiscrimination in Employment)

Because the complainant has a right to pursue a complaint under AR 4030 for any allegation that is dismissed or denied under the Title IX complaint procedure, the Title IX Coordinator shall ensure that all requirements and timelines for AR 4030 are concurrently met while implementing the Title IX procedure.

Reporting Allegations/Filing a Formal Complaint

An employee who is the alleged victim of sexual harassment may submit a report of sexual harassment to the district's Title IX Coordinator using the contact information listed in AR 4119.11/4219.11/4319.11 - Sexual Harassment or to the employee's direct supervisor or other district administrator, who shall forward the report to the Title IX Coordinator within one day of receiving the report. Upon receiving such a report, the Title IX Coordinator shall inform the complainant of the right to file a formal complaint and the process for filing a formal complaint.

A formal complaint, with the complainant's physical or digital signature, may be filed with the Title IX Coordinator in person, by mail, by email, or by any other method authorized by the district. (34 CFR 106.30)

Even if the alleged victim chooses not to file a formal complaint, the Title IX Coordinator shall file a formal complaint in situations when a safety threat exists. In addition, the Title IX Coordinator may file a formal complaint in other situations as permitted under the Title IX regulations, including as part of the district's obligation to not be deliberately indifferent to known allegations of sexual harassment. In such cases, the Title IX Coordinator shall provide the alleged victim notices as required by the Title IX regulations at specific points in the complaint process.

The Title IX Coordinator, investigator, decision-maker, or a facilitator of an informal resolution process shall not have a conflict of interest or bias for or against complainants or respondents generally or an individual complainant or respondent. Such persons shall receive training in accordance with 34 CFR 106.45. (34 CFR 106.45)

Supportive Measures

Upon receipt of a report of Title IX sexual harassment, the Title IX Coordinator shall promptly contact the complainant to discuss the availability of supportive measures and shall consider the complainant's wishes with respect to the supportive measures implemented. Supportive measures shall be offered as appropriate, as reasonably available, and without charge to the complainant or the respondent before or after the filing of a formal complaint or where no formal complaint has been filed. Such measures shall be nondisciplinary, nonpunitive, and not unreasonably burden the other party, including measures designed to protect the safety of all parties or the district's educational environment or to deter sexual harassment. Supportive measures may include, but are not limited to, counseling, extensions of deadlines, modifications of work schedules, mutual restrictions on contact, changes in work locations, leaves of absence, increased security, and monitoring of certain areas of the campus. (34 CFR 106.30, 106.44)

The district shall maintain as confidential any supportive measures provided to the complainant or respondent, to the extent that maintaining such confidentiality would not impair the district's ability to provide the supportive measures. (34 CFR 106.30)

Emergency Removal

If a district employee is the respondent, the employee may be placed on administrative leave during the pendency of the formal complaint process. (34 CFR 106.44)

If the respondent is a student, the district may, on an emergency basis, remove the student from the district's education program or activity, provided that the district conducts an individualized safety and risk analysis, determines that removal is justified due to an immediate threat to the physical health or safety of any student or other individual arising from the allegations, and provides the student with notice and an opportunity to challenge the decision immediately following the removal. This authority to remove a student does not modify a student's rights under the Individuals with Disabilities Education Act or Section 504 of the Rehabilitation Act of 1973. (34 CFR 106.44)

Dismissal of Complaint

The Title IX Coordinator shall dismiss a formal complaint if the alleged conduct would not constitute sexual harassment as defined in

34 CFR 106.30 even if proved. The Title IX Coordinator shall also dismiss any complaint in which the alleged conduct did not occur in the district's education program or activity or did not occur against a person in the United States, and may dismiss a formal complaint if the complainant notifies the district in writing that the complainant would like to withdraw the complaint or any allegations in the complaint, the respondent is no longer employed by the district, or sufficient circumstances prevent the district from gathering evidence sufficient to reach a determination with regard to the complaint. (34 CFR 106.45)

Upon dismissal, the Title IX Coordinator shall promptly send written notice of the dismissal and the reasons for the dismissal simultaneously to the parties and shall inform them of their right to appeal the dismissal of a formal complaint or any allegation in the complaint in accordance with the appeal procedures described in the section "Appeals" below. (34 CFR 106.45)

If a complaint is dismissed, the conduct may still be addressed pursuant to AR 4030 - Nondiscrimination in Employment as applicable.

Informal Resolution Process

When a formal complaint of sexual harassment is filed, the district may offer an informal resolution process, such as mediation, at any time prior to reaching a determination regarding responsibility. The district shall not require a party to participate in the informal resolution process or to waive the right to an investigation and adjudication of a formal complaint. (34 CFR 106.45)

The district may facilitate an informal resolution process provided that the district: (34 CFR 106.45)

1. Provides the parties with written notice disclosing the allegations, the requirements of the informal resolution process, the right to withdraw from the informal process and resume the formal complaint process, and any consequences resulting from participating in the informal resolution process, including that records will be maintained or could be shared.
2. Obtains the parties' voluntary, written consent to the informal resolution process

Written Notice

If a formal complaint is filed, the Title IX Coordinator shall provide the known parties with written notice of the following: (34 CFR 106.45)

1. The district's complaint process, including any informal resolution process
2. The allegations potentially constituting sexual harassment with sufficient details known at the time, including the identity of parties involved in the incident if known, the conduct allegedly constituting sexual harassment, and the date and location of the alleged incident if known. Such notice shall be provided with sufficient time for the parties to prepare a response before any initial interview. If, during the course of the investigation, new Title IX allegations arise about the complainant or respondent that are not included in the initial notice, the Title IX Coordinator shall provide notice of the additional allegations to the parties.
3. A statement that the respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility is made at the conclusion of the complaint process
4. The opportunity for the parties to have an advisor of their choice who may be, but is not required to be, an attorney, and the ability to inspect and review evidence
5. The prohibition against knowingly making false statements or knowingly submitting false information during the complaint process

The above notice shall also include the name of the investigator, facilitator of an informal process, and decision-maker and shall inform the parties that, if at any time a party has concerns regarding conflict of interest or bias regarding any of these persons, the party should immediately notify the Title IX Coordinator.

Investigation Procedures

During the investigation process, the district's designated investigator shall: (34 CFR 106.45)

1. Provide an equal opportunity for the parties to present witnesses, including fact and expert witnesses, and other inculpatory and

exculpatory evidence

2. Not restrict the ability of either party to discuss the allegations under investigation or to gather and present relevant evidence
3. Provide the parties with the same opportunities to have others present during any grievance proceeding, including the opportunity to be accompanied to any related meeting or proceeding by the advisor of their choice, who may be, but is not required to be, an attorney
4. Not limit the choice or presence of an advisor for either the complainant or respondent in any meeting or grievance proceeding, although the district may establish restrictions regarding the extent to which the advisor may participate in the proceedings as long as the restrictions apply equally to both parties
5. Provide, to a party whose participation is invited or expected, written notice of the date, time, location, participants, and purpose of all investigative interviews or other meetings, with sufficient time for the party to prepare to participate
6. Send in an electronic format or hard copy to both parties and their advisors, if any, the evidence obtained as part of the investigation that is directly related to the allegations raised in the complaint, and provide the parties at least 10 days to submit a written response for the investigator to consider prior to the completion of the investigative report
7. Objectively evaluate all relevant evidence, including both inculpatory and exculpatory evidence, and determine credibility in a manner that is not based on a person's status as a complainant, respondent, or witness
8. Create an investigative report that fairly summarizes relevant evidence and, at least 10 days prior to the determination of responsibility, send to the parties and their advisors, if any, the investigative report in an electronic format or a hard copy, for their review and written response

Questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant, unless such questions and evidence are offered to prove that someone other than the respondent committed the conduct alleged by the complainant or if the questions and evidence concern specific incidents of the complainant's prior sexual behavior with respect to the respondent and are offered to prove consent. (34 CFR 106.45)

Privacy rights of all parties to the complaint shall be maintained in accordance with applicable state and federal laws.

If the complaint is against an employee, rights conferred under an applicable collective bargaining agreement shall be applied to the extent they do not conflict with the Title IX requirements.

Written Decision

The Superintendent shall designate an employee as the decision-maker to determine responsibility for the alleged conduct, who shall not be the Title IX Coordinator or a person involved in the investigation of the matter. (34 CFR 106.45)

After the investigative report has been sent to the parties but before reaching a determination regarding responsibility, the decision-maker shall afford each party the opportunity to submit written, relevant questions that the party wants asked of any party or witness, provide each party with the answers, and allow for additional, limited follow-up questions from each party.

The decision-maker shall issue, and simultaneously provide to both parties, a written decision as to whether the respondent is responsible for the alleged conduct. (34 CFR 106.45)

The written decision shall be issued within 60 calendar days of the receipt of the complaint.

The timeline may be temporarily extended for good cause with written notice to the complainant and respondent of the extension and the reasons for the action. (34 CFR 106.45)

In making this determination, the decision-maker shall use the "preponderance of the evidence" standard for all formal complaints of sexual harassment. (34 CFR 106.45)

The written decision shall include the following: (34 CFR 106.45)

1. Identification of the allegations potentially constituting sexual harassment as defined in 34 CFR 106.30

2. A description of the procedural steps taken from receipt of the formal complaint through the written decision, including any notifications to the parties, interviews with parties and witnesses, site visits, methods used to gather other evidence, and hearings held if the district includes hearings as part of the grievance process
3. Findings of fact supporting the determination
4. Conclusions regarding the application of the district's code of conduct or policies to the facts
5. A statement of, and rationale for, the result as to each allegation, including a decision regarding responsibility, any disciplinary sanctions the district imposes on the respondent, and whether remedies designed to restore or preserve equal access to the district's educational program or activity will be provided by the district to the complainant
6. The district's procedures and permissible bases for the complainant and respondent to appeal

Appeals

Either party may appeal the district's decision or dismissal of a formal complaint or any allegation in the complaint, if the party believes that a procedural irregularity affected the outcome, new evidence is available that could affect the outcome, or a conflict of interest or bias by the Title IX Coordinator, investigator(s), or decision-maker(s) affected the outcome. If an appeal is filed, the district shall: (34 CFR 106.45)

1. Notify the other party in writing when an appeal is filed and implement appeal procedures equally for both parties
2. Ensure that the decision-maker(s) for the appeal is trained in accordance with 34 CFR 106.45 and is not the same decision-maker(s) who reached the determination regarding responsibility or dismissal, the investigator(s), or the Title IX Coordinator
3. Give both parties a reasonable, equal opportunity to submit a written statement in support of, or challenging, the outcome
4. Issue a written decision describing the result of the appeal and the rationale for the result
5. Provide the written decision simultaneously to both parties

An appeal must be filed in writing within 10 calendar days of receiving the notice of the decision or dismissal, stating the grounds for the appeal and including any relevant documentation in support of the appeal. Appeals submitted after this deadline are not timely and shall not be considered.

A written decision shall be provided to the parties within 20 calendar days from the receipt of the appeal.

Either party has the right to file a complaint with the U.S. Department of Education's Office for Civil Rights within 180 days of the date of the most recently alleged misconduct.

The complainant shall be advised of any civil law remedies, including, but not limited to, injunctions, restraining orders, or other remedies or orders that may be available under state or federal antidiscrimination laws, if applicable.

Remedies

When a determination of responsibility for sexual harassment has been made against the respondent, the district shall provide remedies to the complainant. Such remedies may include the same individualized services described above in the section "Supportive Measures," but need not be nondisciplinary or nonpunitive and need not avoid burdening the respondent. (34 CFR 106.45)

Disciplinary Actions

The district shall not impose any disciplinary sanctions or other actions against a respondent, other than supportive measures as described above in the section "Supportive Measures," until the complaint procedure has been completed and a determination of responsibility has been made. (34 CFR 106.44)

When an employee is found to have committed sexual harassment or retaliation, the district shall take appropriate disciplinary action, up to and including dismissal, in accordance with applicable law and collective bargaining agreement.

(cf. 4117.7/4317.7 - Employment Status Report)

(cf. 4118 - Dismissal/Suspension/Disciplinary Action) (cf. 4119.11/4219.11/4319.11 - Sexual Harassment) (cf. 4218 - Dismissal/Suspension/Disciplinary Action)

Record-Keeping

The Superintendent or designee shall maintain, for a period of seven years: (34 CFR 106.45)

1. A record of all reported cases and Title IX investigations of sexual harassment, any determinations of responsibility, any audio or audiovisual recording and transcript if applicable, any disciplinary sanctions imposed, any remedies provided to the complainant, and any appeal or informal resolution and the results therefrom.
2. A record of any actions, including supportive measures, taken in response to a report or formal complaint of sexual harassment, including the district's basis for its conclusion that its response was not deliberately indifferent, the measures taken that were designed to restore or preserve equal access to the education program or activity, and, if no supportive measures were provided to the complainant, the reasons that such a response was not unreasonable in light of the known circumstances.

(F) School-wide Dress Code Relating to Gang-Related Apparel (EC 35183)

Policy 5132.16: Student Dress Guidelines

The Governing Board believes that appropriate dress and grooming contribute to a productive learning environment. The Board expects students to give proper attention to personal cleanliness and to wear clothes that are suitable for the school activities in which they participate. Students' clothing must not present a health or safety hazard or a distraction which would interfere with the educational process.

Students and parents/guardians shall be informed about dress and grooming standards at the beginning of the school year and whenever these standards are revised. A student who violates these standards shall be subject to appropriate disciplinary action.

Gang-Related Apparel

The principal, staff and parents/guardians at a school may establish a reasonable dress code that prohibits students from wearing gang-related apparel when there is evidence of a gang presence that disrupts or threatens to disrupt the school's activities. Such a dress code may be included as part of the school safety plan and must be presented to the Board for approval. The Board shall approve the plan upon determining that it is necessary to protect the health and safety of the school's students.

Uniforms

The Board recognizes that, in order to promote student safety and discourage peer rivalry and/or gang activity, the principal, staff and parent/guardian at a school site may wish to establish a reasonable dress code, which may include voluntary school uniforms.

Dress codes, which include voluntary school uniforms, may be included as part of the school safety plan submitted as required.

The Superintendent or designee shall establish procedures that schools, parents and guardians will follow if they decide to participate with the voluntary school uniform policy. Students shall not be penalized academically, otherwise discriminated against or denied attendance to school if their parents/guardian decide not to participate.

The Governing Board feels that there is nothing inherently wrong with dress or color of dress, but when student's dress serves to intimidate or impede the rights of other students it will be determined that dress is in violation of this policy. A student may not remain at school dressed in a manner which (1) creates a safety hazard for said student or for other students at school, and/or (2) when the dress constitutes a serious and unnecessary distraction to the learning process or tends to disrupt campus order

When the site administrator/designee determines that a student's attire is in violation of this policy, the student will be required to modify his/her clothing and/or apparel in such a manner that it no longer violates this policy. If necessary, the student may be taken or sent home with parental permission to modify unacceptable dress and return to school. Refusal to take steps as described in this policy shall be cause for disciplinary action against the student. Any such disciplinary action shall be handled pursuant to existing student disciplinary policy

Parents/guardians have primary responsibility to see that students are properly attired for school. School district personnel have the responsibility for maintaining proper and appropriate conditions conducive to learning. Hence, the following guidelines will be implemented in all district schools.

1. Shoes will be worn at all times. A substantial sole is required and enclosed toe and heel footwear are highly encouraged.
2. Extremely brief garments that are distracting to the educational environment are not appropriate. Clothing shall be sufficient to conceal undergarments at all times.
3. Clothing or accessories shall be free of writing, pictures or any other insignia which are crude, violent, obscene or sexually suggestive or which advocate racial, ethnic or religious prejudice or the use of tobacco, drugs or alcohol.
4. Earrings, jewelry, or accessories which present a safety hazard to the wearer or others are not suitable for school wear.
5. Only prescription sunglasses may be worn in class. Other types of sunglasses may be worn on campus outside of class.
6. Identified gang attire such as bandannas, haircuts or hair rollers, or any gang paraphernalia are prohibited.

Students are allowed to wear sun protective clothing, including hats, while outdoors during the school day. Each school site will develop a policy indicating the type of sun protective hats that are permitted.

No grade of a student participating in a physical education class shall be adversely affected if the student does not wear standardized physical education apparel because of circumstances beyond the student's control. (Education Code 49066) All clothing worn during physical education shall meet reasonable safety standards.

The purpose of adopting these Student Dress Guidelines is not to infringe on any individual student's rights to freedom of expression, but rather to encourage students to dress appropriately and come to school properly prepared for participating in the educational process.

Gang-Related Apparel

Because gang-related symbols are constantly changing, definitions of gang-related apparel shall be reviewed as needed and updated as necessary.

Uniforms

In schools where a majority of parents respond and indicate on a survey that they desire to establish a voluntary school-wide uniform dress code, the principal, staff and the parents/guardians of the individual school site shall:

1. Jointly select the specific uniform to be worn. (Education Code 35183)
2. Describe the uniform parts and identify local vendors who sell those pieces of clothing. A description of the implementation of the voluntary uniform dress code will be submitted to the superintendent's designee including:
 - a. The process for parent notification
 - b. Positive procedures that will be used to encourage students to participate with the voluntary uniform dress code
3. A description of the uniform and a list of costs for each competitively priced item of clothing as provided by a variety of vendors will be sent to parents.
4. Parents will be notified that this is a voluntary uniform dress code and that students not participating shall not be penalized academically, otherwise discriminated against or denied attendance to school if their parents/guardians so decide.

Parent Notification

The principal shall give parents/guardian at least six months notice before a school site implements a voluntary school uniform dress code. (Education Code 35183)

Judson & Brown Elementary School crime statistics reflect a total of 0 crimes reported during the 2023-2024 school year.

Keeping reportable crimes at a minimum requires constant vigilance. The following strategies will be utilized in achieving this goal Maintenance of surveillance video cameras, Volunteer/Parent/Community member check in through RAPTOR in the office, communication with Sheriff's department, locking of gates and classrooms during the day, the WeTip hotline as well as SEE SOMETHING SAY SOMETHING - 1-800-827-8724 (the CFS 24 hour hotline), continuation of lock down drills, fire and earthquake drills are some strategies utilized.

(I) School Discipline Rules and Consequences (EC 35291 and EC 35291.5)

Judson & Brown Elementary School Student Conduct Code

Procedures to Ensure a Safe and Orderly Environment

Rules and Procedures on School Discipline

Philosophy of Discipline

- Behavior expectations and the consequences for not meeting expectations must be clearly communicated to all students and their parents (in writing as well as verbally).
- The severity of consequences for violating behavior expectations increases with each incident of inappropriate behavior.
- The consequences for violating behavior expectations should be severe enough to discourage students from making poor behavior decisions.
- Expectations and consequences should permit students an opportunity to eliminate inappropriate behavior.

Additionally, the school staff recognizes that the middle school years are a transition time from adolescence to young adulthood. As a part of this transition, the student is given greater opportunities to be responsible and demonstrate independence and good judgment. The structure of our behavior expectations (in the classroom as well as school wide) is meant to encourage students to be responsible. The first step in many instances of inappropriate behavior (those considered to be "minor") is a simple warning ("Your behavior is unacceptable. Please stop such behavior"). It is only when a student ignores such warnings and continues to choose to act irresponsibly (like a child rather than an emerging adult) that we involve parents and implement consequences.

Elements of a Good Discipline Program

1. The program is focused upon making the entire campus, especially the classroom, a safe, supportive and orderly environment for learning for students and staff.
2. Classroom authority is retained by the classroom teacher. (Administration's role is to support, not to replace.)
3. Rules and procedures are clearly understood by staff and students.
4. All staff members will acknowledge and take appropriate action on any minor or major infraction of the school rules.
5. Rules and procedures comply with State Law and District policies.
6. The program recognizes the responsibilities and the rights of students and staff.
7. Program is structured to keep students in class and engaged in the educational process.
8. Rules are enforced:
 - A. by all staff members at all times.
 - B. strictly, but not rigidly (beware of "automatics").
 - C. in substantial part by adult modeling.
 - D. using techniques that promote the growth of positive self-esteem.
 - E. as close to the source as is possible.
 - F. by keeping parents informed.
9. The discipline program is understood, endorsed, and supported by staff, parents, and students.

PRINCIPAL'S STATEMENT TO EDMS STAFF

Expectations in Developing & Maintaining Discipline

As Principal of our school, I will expect;

Each teacher to have a defined system of classroom management. A written description of this system, including representative examples of the progressive interventions you intend to employ, will be approved and filed by me. Whenever possible and appropriate, teachers are encouraged to use standards and systems that are consistent with other village/departments members.

You can expect

Each administrator to assist and support you in every reasonable way in developing, implementing, and refining that system as needed.

I will expect

That when you refer a student for discipline:

1. The student has been made fully aware of classroom and school rules and knows what rules he/she has violated.
2. The teacher will follow-up any continuing behavior problems and schedule a team conference with the student and parents when appropriate.
3. That information will be provided on the referral regarding previous actions you have taken regarding this specific issue.
4. You have exhausted the interventions at your disposal (i.e., you have done everything you can do) and you have followed the guidelines established by the administration and staff on what constitutes an appropriate behavior referral.
5. The behavior was so serious or so blatant as to make immediate removal from the classroom necessary.
6. The written referral will be explicit in stating the offense(s).
7. You will send the student out of class with a referral only if his/her continued presence in the class would disrupt or prevent teaching and/or learning.
8. If necessary, the referral will be delivered to the office at a time convenient to the staff member so that the issue may be handled most efficiently, causing a minimum of lost class time.

You can expect

1. Each administrator to support your position in every reasonable way.
2. A response time on your referral of one, or at most, two days.

3. The availability of an administrator to discuss unresolved referrals after school on any given day.
4. That the administrator will exercise independent judgment regarding disposition of referrals.

I will expect

1. That each teacher will be timely in picking up students at their designated line from recess and lunch.
2. That each staff member will hold students accountable for their behavior on the school grounds at all times.

You can expect

1. Administrator support, investigation, and follow-through as indicated.
2. A response to referrals from incidents outside the classroom to be the same as to those within.

WHAT TO DO WHEN PROBLEMS APPEAR

Both behavioral and academic problems are present in some of our students. Teachers often ask for guidelines for dealing with these problems. Here they are:

1. Talk to the administrator assigned to your grade level.
2. Call parents at first sign of concern. Inform the parents of your observations, ask for their ideas, assistance, and support in serving the student. Keep a log of your calls.
3. If possible, talk privately to the student about your concerns.
4. Behavior concerns—look through students' CUM file. Any official suspensions will be in file, also look for teacher comments on report cards. Look for patterns of behavior. We use In-House Suspension whenever possible, as it is preferable to having students at home unattended—and it saves the district money. Serious infractions (fighting, threats, etc.) do result in official suspension. Unresponsive students can be moved to other schools or expelled.
5. Referrals—please remember if you write a student referral, you are required to call the parents. You are writing the referral and can answer the parents' questions firsthand. Administrators will also call parents, but we can only give secondhand information on the incident.
6. Academic Concerns—again, look through student CUM. This will contain test scores, report cards, and a student history. You may want to ask the grade level administrator to schedule a Student Study Team (SST). This will involve a meeting with the student, parents, administrators, students' teachers, and perhaps the psychologist

Conduct Code Procedures

Judson & Brown Elementary School uses positive Peace slips on a daily basis to encourage positive behavior on campus. As needed Minor Citations are given by teachers and staff with appropriate consequences. Major Office Referrals are given when an office referral is required that requires consequences administered by administration.

(J) Procedures to Prepare for Active Shooters

3 LEVELS OF STUDENT SAFETY IN A CRISIS

Safe & Secure Mode is a security procedure used to reduce student and staff movement outside school buildings. This may be due to medical emergency, area disturbance, etc. It is designed to allow for school to carry forward but have the ability to move to Lockdown quickly if needed. During the Safe & Secure mode, there is heightened vigilance on campus by all school staff. Generally, recesses and outdoor activities are reduced. Parents/guardians can have access to their student(s) and may check them out of school if they see fit to do so.

Teachers should continue teaching as normal

Allow students restroom use with clear administrator/ teacher direction

Increased available staff presence during passing periods and student dismissal

Lunch/activities in more secure area, unless site admin decides otherwise

Standard inclement weather schedule/routine in place, unless site administrator/designee decides otherwise

Perimeter gates, where applicable, will be locked and monitored by available staff, allowing for central access points

PE classes will be moved off all fields into more secure locations (e.g., gym, class, & MPR)

Lock Down is called when a law enforcement event is happening in the vicinity of a school. The law enforcement agency generally, but not always, contacts the school/district to encourage the school site to Lock Down as a precautionary measure. All

Administrators are expected to place their school in Lock Down in this scenario.

Take a look outside your classroom and gather up any stray students in the hallways

Ensure that your door is locked

If windows are open, close them

Project a calm demeanor to help students remain calm. Reassure students that they are safe

Do not allow anyone to leave the classroom

Frequently check your emails for possible updates from your site administrators

If students are out on the playground or athletic fields, quickly move them to a secure classroom, locker room, or multi-purpose room

Critical Alert is called when a significant, threatening event is happening on campus or adjacent to campus that creates a potential danger to students and staff. While this may be communicated to the school by law enforcement, it may also be determined by school officials on the scene. Critical Alert assumes that everyone is prepared for a potential significant threat/event on campus.

Implement all items from Lock Down list above

Turn off or reduce lighting, so it will appear that the room is vacant

Keep all students sitting on the floor, away from the door or windows

Do not look out the windows

Cover window on the door (if one exists)

Advise the students that there is a serious situation, but you don't know what it is. Project a calm demeanor to help students remain calm. Reassure students that they are safe

Ensure that everyone in the room turns the ringer off on their cell phones

Do not allow students to talk on their cell phones (keep room as quiet as possible)

Do not call the office. They are in the midst of a problem and will not be able to answer all the calls which may tie up the phone system

Quietly take roll and make a list of missing students and any extra students that are in your room. Email this list to your administrators and school site secretaries

Do not evacuate students until you are told to, even if the fire bells go off. If, in fact, there is a need for a fire evacuation, you will be notified via the PA system, email, or phone call

Comprehensive School Safety Plan 35 of 47 9/14/23

Do not open the door, even if someone knocks and claims to be a staff member (Administrator/custodian will have a master key)

If students are out on the PE field, do not return them to the locker room. Move them to a safe place (the farthest part of the campus)

Safety Plan Review, Evaluation and Amendment Procedures

A Safety Committee is created each school year. The purpose of the committee is to review the Safety Plan and procedures on a continual basis. The committee meets a minimum of three times per year and is made up of school staff and parent/community members. The Safety Committee recommendations are brought to the attention of the staff and presented to School Site Council for approval.

Emergency Response Guidelines

Step One: Identify the Type of Emergency

Determining the type of emergency will assist the commander/administrator in making the appropriate decisions to keep the campus safe. The response to a fire is drastically different than responding to an active shooter. The type of emergency may lead to evacuation, shelter-in-place, or lockdown as well as which agency to contact.

Step Two: Identify the Level of Emergency

Determining the size and immediacy of the emergency will determine the level. The site leader will determine if it is a classroom only, building only, area only (i.e. playground), whole school, neighborhood, or city-wide emergency.

Step Three: Determine the Immediate Response Action

With safety of students, staff and visitors at the forefront, site administrators/commander will determine immediate response based on site protocols. Please reference sections about specific emergencies.

Step Four: Communicate the Appropriate Response Action

Administrators/Commander will communicate to the necessary emergency responders via phone. Administrators/Commander will utilize a variety of communication tools to notify staff and emergency participants such as: Bell system, phone intercom system, emails. In addition, the Administrator/Commander will communicate with the District Office via emergency radio. Lastly, a community communication plan will be created to notify families of incident, pick-up procedures, or next steps through one or several methods: Parent Square, postings on website and all social media accounts.

Types of Emergencies & Specific Procedures

Assemble at the pre-designated areas at safe distance from the fire/fire-fighting equipment. 4. Assist disabled persons during the evacuation. 5. Render first aid as necessary. 6. Check all bathrooms and training rooms for staff and students. 7. If it is possible for adults to fight small fires (no bigger than a desk) without endangering life and/or causing injury, do so. 8. Close, but do not lock all doors leading to the fire area to isolate the area and prevent the spread of the fire. 9. Keep access roads open for emergency vehicles. 10. Teachers should take roll and report missing students to the office. No one should leave the area until instructed to do so. 11. Notify the Superintendent. 12. The principal will recommend to the Superintendent whether further action such as the EVACUATION OF SCHOOL should be implemented. 13. Check all bathrooms and training rooms for staff and students. 7. If it is possible for adults to fight small fires (no bigger than a desk) without endangering life and/or causing injury, do so. 8. Close, but do not lock all doors leading to the fire area to isolate the area and prevent the spread of the fire. 9. Keep access roads open for emergency vehicles. 10. Teachers should take roll and report missing students to the office. No one should leave the area until instructed to do so. 11. Notify the Superintendent. 12. The principal will recommend to the superintendent whether further action such as the EVACUATION OF SCHOOL should be implemented. 13. Notify utility companies of a break or suspected break in their lines. 14. After a serious fire, fire department officials and maintenance personnel should determine whether the building is safe before student and staff return.

Pandemic

Blood Borne Pathogen Incident Reporting Form and Exposure Control Plan

Policy 5141.22: Infectious Diseases

The Governing Board desires to protect students from risks posed by exposure to infectious diseases while providing an appropriate education for all students.

The Superintendent or designee shall determine whether to admit a student with an infectious disease, and shall exclude students only in accordance with law. In making this determination, he/she shall consult the student's parents/guardians, the student's physician and/or the county health department, in accordance with law and consistent with confidentiality provisions. Because bloodborne pathogens such as hepatitis B virus, hepatitis C virus and human immunodeficiency virus (HIV) are not casually transmitted, the sole presence of bloodborne pathogens is not sufficient reason to exclude students from attending school.

cf. 5112.2 - Exclusions from Attendance)
(cf. 5141.26 - Tuberculosis Testing)
(cf. 5141.3 - Health Examinations)
(cf. 6158 - Independent Study)
(cf. 6159 -Individualized Education Program)
(cf. 6183 - Home/Hospital Instruction)

Parents/guardians are encouraged to inform the Superintendent or designee if their child has an infectious disease so that school staff may work cooperatively with the student's parents/guardians to minimize the child's exposure to other diseases in the school setting. The Superintendent or designee shall ensure that student confidentiality rights are strictly observed in accordance with law. No district employee shall release medical information, including knowledge of a bloodborne pathogen infection, without written consent from the parent/guardian or adult student. Such information shall be shared only with those persons specifically named in the written permission.

(cf. 5125 - Student Records)
(cf. 5022 -Student and Family Privacy Rights)

The Board requires students and staff to routinely observe universal precautions to prevent exposure to bloodborne pathogens and to prevent the spread of all infectious disease.

(cf. 4119.43/4219.43/4319.43 - Universal Precautions)
(cf. 5141.23 - Infectious Disease Prevention)

a. The identity of infected students will remain confidential and restricted to those who need to know or are required to be informed.

2.4. Decisions on attendance at school are dependent on the circumstances of each individual case. Regular evaluation of the appropriateness of attendance will be conducted.

- a. Routinely using gloves when anticipating contact with blood
- b. Immediately washing hands and other skin surfaces after removal of gloves and/or contact with blood

4.2. Schools will be provided with appropriate protective equipment including disposable waterproof gloves (natural rubber latex, neoprene, nitrile, or vinyl), tongs or pliers and proper sharps containers.

4.4. Blankets can be cleaned as needed by forwarding them, in a clearly labeled plastic bag, to the Assistant Supervisor Operations at the Facilities Office.

5. Universal Precautions

5.1. Universal Precautions to prevent transmission of blood-borne disease will be followed. Universal Precautions is the term for infection control measures endorsed by the Canadian Centre for Occupational Health and Safety for workers who might come into contact with blood and other body fluids. In summary they include:

- a. Wash hands for 30 seconds after contact with blood and other body fluids contaminated with blood.
- b. Wear disposable latex gloves when you encounter blood, body fluids, or when cleaning cuts, scrapes or wounds. Wash your hands as soon as you remove your gloves. Dispose gloves in a plastic bag.
- c. Use disposable absorbent material like paper towels to stop bleeding.
- d. Discard bloodstained material in a sealed plastic bag and deposit in the garbage. Label as containing blood-tainted material.
- e. Cover cuts or scrapes with a bandage until healed.

Mops or brushes used for cleaning should be soaked in a bleach solution for 20 minutes.

(Note: The custodial department will provide each school with the product for dissolving in water to provide the bleach solution.)

6. Identification of Risks of Occupational Exposure

6.1. In accordance with the Occupational Health and Safety Regulations (section 6.35), the district's Health & Safety Coordinator will develop and maintain a list of positions and/or tasks and procedures where there is a potential for occupational exposure to a blood borne pathogen.

6.2. Employees who have, or may have, occupational exposure to the hepatitis B virus, will upon request, receive a hepatitis B vaccination (section 6.39, OH&S Regs).

6.3. Employees who may have been exposed to a blood borne pathogen in an exposure incident will be advised to immediately seek medical attention

Blood Borne Pathogen Incident Reporting Form and Exposure Control Plan70

Blood Borne Pathogens - Safety Practices71

Comprehensive School Safety Plan Purpose

Effective January 1, 2019, Assembly Bill 1747 (Rodriguez), School Safety Plans, became law. This bill requires that during the writing and development of the comprehensive school safety plan (CSSP), the school site council or safety committee consult with a fire department and other first responder entities in addition to currently required entities. It requires the CSSP and any updates made to the plan to be shared with the law enforcement agency, the fire department, and the other first responder entities.

The California Education Code (sections 32280-32288) outlines the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school.

In 2004, the Legislature and Governor recast and renumbered the Comprehensive School Safety Plan provisions in SB 719 and AB 115. It is the intent of the Legislature in enacting the provisions to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process, that include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses.

The historical requirement of the Comprehensive School Safety Plan was presented in Senate Bill 187, which was approved by the Governor and chaptered in 1997. This legislation contained a sunset clause that stated that this legislation would remain in effect only until January 1, 2000. Senate Bill 334 was approved and chaptered in 1999 and perpetuated this legislation under the requirement of the initial legislation.

Comprehensive School Safety Plans are required under SB 719 & AB 115 and contains the following elements:

Assessment of school crime committed on school campuses and at school-related functions

- Child abuse reporting procedures
- Disaster procedures
- Suspension and expulsion policies
- Procedures to notify teachers of dangerous pupils
- Discrimination and harassment policies
- School wide dress code policies
- Procedures for safe ingress and egress
- Policies enacted to maintain a safe and orderly environment
- Rules and procedures on school discipline
- Hate crime reporting procedures

The Comprehensive School Safety Plan will be reviewed and updated by March 1st every year. In July of every year, the school will report on the status of its school safety plan including a description of its key elements in the annual school accountability report card.

A copy of the Comprehensive School Safety Plan is available for review at Kimberly Elementary School.

Safety Plan Vision

Kimberly Elementary School will provide a safe, orderly, and secure environment conducive to learning. Kimberly Elementary School will create a school in which students will attend regularly and be safe from both physical and social-psychological harm. Kimberly Elementary School will work collaboratively with the district office and school board to identify, establish, and use strategies and programs to comply with school safety laws. Kimberly Elementary School will develop a plan to work cooperatively and collaboratively with parents, students, teachers, administrators, counselors, and community agencies, including law enforcement, to provide a safe and orderly school and neighborhood. Kimberly Elementary School will develop an academic program that will focus on high expectations of pupil performance and behavior through PBIS in all aspects of the school experience. Kimberly Elementary School will work collaboratively with other elementary, middle schools, and high schools to assist in a smooth transition from one school level to another. Kimberly Elementary School will solicit the participation, views, and input of teachers, parents, school administrators, and community members and use this information to promote the safety of our students, staff and community.

Components of the Comprehensive School Safety Plan (EC 32281)

Kimberly Elementary School Safety Committee

Is compiled of the principal, assistant principal, 6 parents and 1 certificated employee. The Committee meets three time a year to review the schools safety plan and ensure that the plan is up to date and being followed.

Assessment of School Safety

During the 2023-2024 school year Kimberly became a Platinum Level PBIS school. There were no suspensions during the 2023-24 school year. School climate data from the 2023-24 school year indicate that Kimberly has a favorable rating of 76% by students. The Kimberly community including administration, staff, and parents continue to work together to build a safe school environment.

(A) Child Abuse Reporting Procedures (EC 35294.2 [a] [2]; PC 11166)

Policy 5141.4: Child Abuse Prevention and Reporting

The Governing Board recognizes that the district has a responsibility to facilitate the prompt reporting of incidents of child abuse and neglect. The Superintendent or designee shall ensure that parents/guardians have access to procedures whereby they can report suspected child abuse at a school site to appropriate child protective agencies

The Superintendent or designee shall develop and implement regulations for use by employees in identifying and reporting child abuse

District employees shall report known or suspected incidents of child abuse in accordance with district regulations and state law. Employees shall cooperate with the child protective agencies responsible for reporting, investigating and prosecuting cases of child abuse.

(cf. 4112.9 - Signed Statements/Child Abuse Reporting Statements)

The Superintendent or designee shall provide training in child abuse identification and reporting for all certificated and classified personnel. (Penal Code 11165.7)

All employees trained in child abuse identification and reporting shall be given, as a part of that training, written notice of the child abuse reporting requirements and the employees' confidentiality rights. (Penal Code 11165.7)

In order to reduce or eliminate unfounded child abuse accusations directed at school employees, child abuse in service training shall include guidance in disciplining students and maintaining ethical relationships with them.

(cf. 3514 - Safety)

(cf. 5142 - Safety)

Duty to Report

Certificated employees and classified employees trained in child abuse identification and reporting shall report known or suspected child abuse to a child protective agency by telephone immediately or as soon as practically possible and in writing within 36 hours. The reporting duties are individual and cannot be delegated to another individual except under circumstances set forth in Penal Code 11166.

Definitions

Child Abuse includes the following:

1. A physical injury inflicted by other than accidental means on a child by another person.
2. Willful cruelty or unjustifiable punishment of a child, or willfully inflicting unjustifiable physical pain or mental suffering, or failure to safeguard a child from these injuries when the child is under a person's care or custody
3. Sexual abuse of a child
4. Neglect of a child or abuse in out-of-home care
5. Unlawful corporal punishment or injury resulting in a traumatic condition

Mandated Reporters are those people defined by law as child care custodians, health practitioners, child visitation monitors and employees of a child protective agency. Mandated reporters include virtually all school employees. The following school personnel are required to report:

Teachers, administrators, supervisors of child welfare and attendance, certificated student personnel employees, employees of care institutions, Headstart teachers, school psychologists, licensed nurses, counselors, presenters of child abuse prevention programs and those instructional aides or other classified employees trained in child abuse reporting.

Child Protective Agencies are those law enforcement and child protective services responsible for investigating child abuse reports, including the local police or sheriff department, county welfare or juvenile probation department and child protective services.

Reasonable Suspicion means that it is objectively reasonable for a person to entertain such a suspicion, based upon facts that could cause a reasonable person in a like position, drawing when appropriate on his/her training and experience, to suspect child abuse. (Penal Code 11166)

Reporting Procedures

To report known or suspects child abuse, any employee (as defined above) shall report by telephone to the local child protective agency immediately. (Child Protective Services 921 County Center, 3 Court, Modesto, CA phone # 525- 6641)

The following information shall be given:

1. The name of the person making the report
2. The name of the child
3. The present location of the child
4. The nature and extent of any injury

Any other information requested by the child protective agency, including the information that led the mandated reporter to suspect child abuse.

When the verbal report is made, the mandated reporter shall note the name of the official contacted, the date and time contacted, and any instructions or advice received.

Within 36 hours of making the telephone report, the mandated reporter shall complete and mail to the local child protective agency a written report which includes a completed Department of Justice form (DOJ SS 8572).

Mandated reports may obtain copies of the above form either from the district or local child protective agency.

Instructions are included on the form, and reporters may ask the site administrator for help in completing and mailing it; however, the mandated reporter is personally responsible for ensuring that the written report is correctly filed.

Employees reporting child abuse to a child protective agency are encouraged, but not required, to notify the site administrator or designee as soon as possible after the initial verbal report by telephone. When so notified, the site administrator shall inform the Superintendent or designee.

Administrators so notified shall provide the mandated reporter any assistance necessary to ensure that reporting procedures are carried out in accordance with law and district regulations. At the mandated reporter's request, the principal may assist in completing and filing the form.

If the mandated reporter does not disclose his/her identity to a district administrator, he/she shall at least provide or mail a copy of the written report to the site administrator and the district without his/her signature or name.

Legal Responsibility and Liability

Mandated reporters have absolute immunity. School employees required to report are not civilly or criminally liable for filing a required or authorized report of known or suspected child abuse.

A mandated reporter who fails to report an instance of child abuse, which he/she knows to exist or reasonably should know to exist, is guilty of a misdemeanor and is punishable by confinement in jail for a term not to exceed six months or by a fine of not more than \$1,000 or both. The mandated reporter may also be held civilly liable for damages for any injury to the child after a failure to report

When two or more persons who are required to report have joint knowledge of suspected instance of child abuse, and when they so agree, the telephone report may be made by either of them and a single report made and signed by that person.

However, if any person who knows or should know that the person designated failed to make the report, that person then has a duty to make the report.

The duty to report child abuse is an individual duty and no supervisor or administrator may impede or inhibit such reporting duties. Furthermore, no person making such a report shall be subject to any sanction.

Victim Interview

Upon request, a child protective agency representative may upon request interview a suspected victim of child abuse during school hours, on school premises, concerning a report of suspected child abuse that occurred within the child's home. The child shall be given the choice of being interviewed in private or in the presence of any adult school employee or volunteer aide selected by the child. (Penal Code 11174.3)

A staff member or volunteer aide selected by a child may decline to be present at the interview. If the selected person accepts, the principal or designee shall inform him/her, before the interview takes place, of the following legal requirements:

1. The purpose of the selected person's presence at the interview is to lend support to the child and enable him/her to be as comfortable as possible.
2. The selected person shall not participate in the interview.
3. The selected person shall not discuss the facts or circumstances of the case with the child.
4. The selected person is subject to the confidentiality requirements of the Child Abuse and Reporting Act, a violation of which is punishable as specified by Penal Code 11167.5.
5. If a staff member agrees to be present, the interview shall be held at a time during school hours when it does not involve an expense to the school. (Penal Code 11174.3)

Release of Child to Peace Officer or Child Protective Services Agent

When a child is released to a peace officer or child protective agency and taken into custody as a victim of suspected child abuse, the Superintendent and/or principal shall not notify the parent/guardian as required in other instances of removal of a child from school, but rather shall provide the protective agency with the address and telephone number of the child's parent/guardian. It is the responsibility of the peace officer or agent to notify the parent/guardian of the situation. (Education Code 48906)

Peace officer and child protective services agents will be asked to sign an appropriate release or acceptance of responsibility form.

(cf. 5145.11 - Questioning and Apprehension)

When School Employees are Accused of Child Abuse

Regardless of who child abusers may be, the major responsibilities of mandated reports are to 1) identify incidents of suspected child abuse, and 2) comply with laws requiring the reporting of suspected abuse to proper authorities. Determining whether or not the suspected abuse actually occurred is not the responsibility of the school employee. Such determination and follow-up investigation will be made by a child protective agency.

Pending outcome of an investigation by a child protective agency and before formal charges are filed, the employee may be subject to reassignment or a paid leave of absence.

Upon filing formal charges or upon conviction, the district may take disciplinary action in accordance with law, district policies, regulations and/or collective bargaining agreements. The Superintendent or designee shall seek legal counsel in connection with either the suspension or dismissal of the employee.

Each classroom, office, library and room on campus has a posting of the emergency procedures and a red safety bag near the exit door. Emergency procedures are also posted in each classroom notebook which is reviewed at the beginning and middle of the school year for updates. Fire Drills are practiced each month of the school year. Earthquake drills are practiced four times a year and Lockdown drills are practiced multiple times yearly. Kimberly uses Raptor to signal a drill or an emergency that is happening on campus. All staff have access to Raptor on their phones and/or computers.

Public Agency Use of School Buildings for Emergency Shelters

At this time Kimberly is not used as an emergency shelter by an outside agencies.

(C) School Suspension, Expulsion and Mandatory Expulsion Guidelines

Policy 5144.1: Suspension And Expulsion/Due Process

Suspension and Expulsion

The Governing Board recognizes that maintaining an environment which promotes learning and protects the health, safety, and welfare of all students may require the suspension or expulsion of a student from regular classroom instruction. District policies and school site rules shall clearly identify district behavior standards

(cf. 5144 - Discipline)

Except in cases where suspension for a first time offense is warranted in accordance with law, suspension shall be imposed only when other means of correction fail to bring about proper conduct. (Education Code 48900.5)

Expulsion is an action taken by the Board for severe or prolonged breaches of discipline by a student. Except for single acts of a grave nature, expulsion is usually used only when there is a history of misconduct, when other forms of discipline, including suspension, have failed to bring about proper conduct, or when the student's presence causes a continuing danger to other students. (Education Code 48915)

The grounds for suspension and expulsion and the procedures for considering, recommending and/or implementing suspension and expulsion shall be specified in Administrative Regulation.

Each principal shall annually inform all students and parents/guardians of the school's discipline rules and procedures and of the availability of all district policies and regulations dealing with student discipline, suspension and expulsion. (Education Code 35291, 35291.5)

(cf. 5145.6 - Parental Notifications)

Suspended or expelled students shall be excluded from all school-related extracurricular activities during the suspension or expulsion.

cf. 6145 - Extracurricular and Cocurricular Activities)

Zero Tolerance

The Board supports a zero tolerance approach to serious offenses in accordance with state and federal law. This approach makes the removal of potentially dangerous students from the classroom a top priority and ensures the standardized treatment of all students. Staff shall immediately report to the Superintendent/ designee any incidence of offenses specified in law, Board policy, and administrative regulation as cause for suspension or expulsion.

Student Due Process

The Board shall provide for the fair treatment of students facing suspension and expulsion by affording them their due process rights under the law. The administration and staff shall comply with procedures for notices and appeals as specified in regulation. Procedures governing student due process shall conform in all aspects to provisions in law. (Education Codes 48911, 48915 and 48915.5)

Whenever a student is suspended, school officials may (but are not required to) meet with the parent/guardian to discuss the causes and duration of the suspension, the school policy involved, and any other pertinent matters. (Education Code 48914)

cf. 5119 - Students Expelled from Other Districts

(cf. 5144.2 - Suspension and Expulsion/Due Process - Individuals with Exceptional Needs)

Rights of Complaining Witness

An expulsion hearing involving allegations of sexual assault or sexual battery may be postponed for one school day in order to accommodate the special physical, mental or emotional needs of a student who is the complaining witness. (Education Code 48918.5)

Whenever the Superintendent or designee recommends an expulsion hearing that addresses allegations of sexual assault or sexual battery, he/she shall give the complaining witness a copy of the district's suspension and expulsion policy and regulation and shall advise the witness of his/her right to: (Educational Code 48918.5)

1. Receive five days' notice of his/her scheduled testimony at the hearing
2. Have up to two adult support persons of his/her choosing present in the hearing at the time he/she testifies
3. Have a closed hearing during the time he/she testifies

Whenever any allegation of sexual assault or sexual battery is made, the Superintendent or designee shall immediately advise complaining witnesses and accused students to refrain from personal or telephone contact with each other during the time when an expulsion process is pending. (Education Code 48918.5)

On-Campus Suspension Program

The Board recognizes that students who are suspended from school frequently have no supervision or guidance during the school hours when they are off campus. The Board believes that in many cases, instead of sending the student off campus, it would be better to address the student's misconduct by keeping the student at school and providing him/her with supervision that is separated from the regular classroom.

The Superintendent or designee shall examine alternatives to off-campus suspension and may establish a suspension program which involves progressive discipline during the school day on campus; using conferences between staff, parents/guardians and students; detention; student study teams or other assessment-related teams; and/or referral to school support services staff.

Required Parental Attendance

The Board believes that parental involvement plays an important role in the resolution of classroom behavior problems. The Board expects that teachers will communicate with parents/guardians when behavior problems arise

Whenever a student is suspended from a class because he/she committed an obscene act, engaged in habitual profanity or vulgarity, disrupted school activities or otherwise willfully defied valid staff authority, the teacher of the class from which the student was suspended may require the student's parent/guardian to attend a portion of a school day in that class. After completing the classroom visit and before leaving school premises, the parent/guardian also shall meet with the principal or designee. (Education Code 48900.1)

The Board encourages teachers, before requiring parental attendance, to make reasonable efforts to have the parent/guardian visit the class voluntarily. The teacher also may consider informing the parent/guardian about available resources which may provide help in the development of parenting skills. Teachers should reserve the option of required parental attendance for cases in which they have determined that it is the best strategy to promote positive interaction between the student and the parent/guardian and to improve classroom behavior.

Parental attendance may be required on the day the student returns to class or within one week thereafter. The principal or designee shall contact any parents/guardians who do not respond to the request to attend school. The Board recognizes that parental compliance with this policy may be delayed, modified or prevented by serious illness/injury/disability, absence from town, or inability to get certain release time from work.

The teacher shall apply this policy uniformly to all students within the classroom. This policy shall apply only to a parent/guardian who actually lives with the student. (Education Code 48900.1)

District regulations and school-site rules for student discipline shall include procedures for implementing parental attendance requirements.

Parents/guardians shall be notified of this policy before it is implemented and at the beginning of each subsequent school year. (Education Code 48900.1, 35291, 48980)

Decision Not to Enforce Expulsion Order

In cases where expulsion is mandatory pursuant to Education Code 48915(c), the enforcement of an expulsion order shall not be suspended by the Board. In all other cases of expulsion, the order for expulsion may be suspended by the Board, on a case-by-case basis, pursuant to the requirements of law.

(Education Code 48910)

When suspending a student from his/her class, the teacher shall immediately report this action to the principal and send the student to the principal for appropriate action. The student shall be appropriately supervised during the class periods from which he/she has been suspended.

As soon as possible, the teacher shall ask the student's parent/guardian to attend a parent-teacher conference regarding the suspension. A counselor or psychologist should attend the conference if it is practicable, and a school administrator may attend if either the parent/guardian or teacher so request.

A suspended student shall not be returned to class during the period of suspension without the approval of the teacher of the class and the principal. (Education Code 48910)

A student suspended from class shall not be placed in another regular class during the period of suspension. However, if a student is assigned to more than one class per day, he/she may be placed in any other regular classes except those held at the same time as the class from which the student was suspended. (Education Code 48910)

(Education Code 48900.5)

A student may be suspended from school for not more than 20 school days in any school year, unless for purposes of adjustment a student enrolls in or is transferred to another regular school, an opportunity school, or continuation school or class, in which case suspension shall not exceed 30 days in any school year. However, this restriction on the number of days of suspension does not apply when the suspension is extended pending an expulsion. (Education Code 48903 and 48912)

Suspension Procedures

1. Informal Conference: Suspension shall be preceded by an informal conference conducted by the principal or designee or the Superintendent or designee between the student, and whenever practicable, the teacher, supervisor or school employee who referred the student to the principal. At the conference, the student shall be informed of the reason for the disciplinary action and the evidence against him/her and shall be given the opportunity to present his/her version and evidence in support of his/her defense. (Education Code 48911(b))

This conference may be omitted if the principal, designee or the Superintendent or designee determines that an emergency situation exists. An "emergency situation" involves a clear and present danger to the lives, safety or health of students or school personnel. If the pre-suspension conference is not held, both the parent/guardian and student shall be notified of the student's right to return to school for the purpose of a conference. The conference shall be held within two school days, unless the student waives his/her right to it or is physically unable to attend for any reason. In such case, the conference will be held as soon as the student is physically able to return to school. (Education Code 48911(c))

2. Administrative Actions: All requests for student suspension are to be processed by the principal or designee of the school in which the student is enrolled at the time of the misbehavior

A school employee shall report the suspension, including the name of the student and the cause for the suspension, to the Superintendent or designee, who in turn will inform the Board.

3. Notice to Parents/Guardians: At the time of the suspension, a school employee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension. (Education Code 48911)

This notice shall state the specific offense committed by the student. (Education Code 48900.8)

In addition, the notice may also state the date and time when the student may return to school.

Should school officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may also add that state law requires the parent/guardian to respond to such request without delay.

4. Parent/Guardian Conference: Whenever a student is suspended, school officials may meet with the parent/guardian to discuss the causes and duration of the suspension, the school policy involved, and any other pertinent matters. (Education Code 48914)

While the parent/guardian is required to respond without delay to a request for a conference about a student's behavior, no penalties may be imposed on the student for the failure of the parent/guardian to attend such conference. The student may not be denied readmission solely because the parent/guardian failed to attend. (Education Code 48911)

5. Extension of Suspension: If the expulsion of a suspended student is being considered by the Board, the Superintendent or designee may, in writing, extend the suspension until such time as the Board has made a decision. (Education Code 48911(g))

Any extension of the original period of suspension shall be preceded by notice of such extension with an offer to hold a conference concerning the extension, giving the student an opportunity to be heard. This conference may be held in conjunction with a meeting requested by the student or parent/guardian to challenge the original suspension. Extension of the suspension may be made only if the Superintendent or designee determines, following a meeting in which the student and the student's parent/guardian were invited to participate, that the student's presence at the school or at an alternative school would endanger persons or property or threaten to disrupt the instructional process. (Education Code 48911(g))

Suspension by the Board

The Board may suspend a student for any of the acts listed in "Grounds for Suspension and Expulsion" above and within the limits specified in "Suspension by Superintendent, Principal or Principal's Designee" above. (Education Code 48912)

The Board may suspend a student enrolled in a continuation school or class for a period not longer than the remainder of the semester if any of the acts listed in "Grounds for Suspension and Expulsion" occurred. The suspension shall meet the requirements of Education Code 48915. (Education Code 48912.5)

When the Board is considering a suspension, disciplinary action, or any other action (except expulsion) against any student, it may hold closed sessions if a public hearing would lead to disclosure of information which would violate a student's right to privacy under Education Code 49073-49079.

(cf. 9321 -Closed Session Purposes and Agendas)

The Board shall provide the student with written notice of the closed session by registered or certified mail. Upon receiving this notice the student may request a public meeting, and this request shall be granted if made in writing (within 48 hours after receipt of the Board's notice). However, any discussion that conflicts with any other student's right to privacy shall be in closed session. (Education Codes 48912)

Authority to Expel

A student may be expelled only by the Board. The Board shall expel, as required by law, any student found to have committed certain offenses listed below under "Mandatory Recommendation and Mandatory Expulsion."

The Board may also order a student expelled for any of the acts listed above under "Grounds for Suspension and Expulsion" upon recommendation by the principal, Superintendent, hearing officer or administrative panel, based on finding either or both of the following: (Education Code 48915(b) and (e))

1. That other means of correction are not feasible
2. That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others

Mandatory Recommendation For Expulsion

The principal, Superintendent or designee shall recommend a student's expulsion for any of the following acts, unless the principal or Superintendent or designee finds, and reports in writing to the Board, that expulsion is inappropriate due to particular circumstances which shall be set out in the report of the incident:

1. Causing serious physical injury to another person, except in self-defense.
2. Possession of any knife as defined in Education Code 48915(g), explosive or other dangerous object of no reasonable use to the student.

1. Possessing, as verified by a district employee, or selling or otherwise furnishing a firearm, unless the student had obtained prior written permission to possess the item from a certificated school employee, with the principal or designee's concurrence. (Education Code 48915(c).1)

Upon finding that the student committed any of the above acts, the Board shall expel the student. (Education Code 48915)

Student's Right to Expulsion Hearing

The student is entitled to a hearing to determine whether the student should be expelled. The hearing shall be held within 30 school days after the principal or Superintendent or designee determines that one of the acts listed under "Grounds for Suspension and Expulsion" has occurred. (Education Code 48918(a))

The student is entitled to one postponement of an expulsion hearing for a period of not more than 30 calendar days. The request for postponement shall be in writing. Any subsequent postponement may be granted at the district's discretion. (Education Code 48918(a))

If the district finds it impracticable to comply with these time requirements for conducting an expulsion hearing, the Superintendent or designee may, for good cause, extend the time period by an additional five school days. Reasons for the extension shall be included as a part of the record when the expulsion hearing is held. (Education Code 48918(a))

Once the hearing starts, all matters shall be pursued with reasonable diligence and concluded without unnecessary delay. (Education Code 48918(a))

An expulsion hearing involving allegations of sexual assault or sexual battery may be postponed for one school day in order to accommodate the special physical, mental or emotional needs of a student who is the complaining witness. (Education Code 48915.5)

Whenever the Superintendent or designee recommends an expulsion hearing that addresses allegations of sexual assault or sexual battery, he/she shall give the complaining witness a copy of the district's suspension and expulsion policy and regulation and shall advise the witness of his/her right to: (Education Code 48915.5)

1. Receive five days' notice of his/her scheduled testimony at the hearing.
2. Have up to two adult support persons of his/her choosing present in the hearing at the time he/she testifies.

Written Notice of the Expulsion Hearing

Written notice of the hearing shall be forwarded to the student and the student's parent/guardian at least ten calendar days before the date of the hearing. The notice shall include: (Education Code 48900.8, 48918(b))

Conduct of Expulsion Hearing

1. Closed Session: Notwithstanding the provisions of Government Code 54953 and Education Code 35145, the Board shall conduct the hearing or arrange for an alternative hearing to consider the expulsion of the student in a session closed to the public unless the student requests in writing at least five days prior to the hearing that the hearing be a public meeting. If such request is made, the meeting shall be public

Whether the expulsion hearing is held in closed or public session, the Board may meet in closed session to deliberate and determine if the student should be expelled. If the Board admits any other person to the closed session, the parent/guardian, the student, counsel of the student and counsel of the parent/guardian shall also be allowed to attend the closed session. (Education Code 48918(c))

If a hearing that involves a charge of sexual assault or sexual battery is to be conducted in public, a complaining witness shall have the right to have his/her testimony heard in closed session when testifying in public would threaten serious psychological harm to the witness and when there are no alternative procedures to avoid the threatened harm, including but not limited to videotaped deposition or contemporaneous examination in another place communicated to the hearing room by closed-circuit television. (Education Code 48918(c))

2. Record of Hearing: A record of the hearing shall be made and may be maintained by any means, including electronic recording, so long as a reasonably accurate written and complete transcription of the proceedings can be made. (Education Code 48918(g))

3. Presentation of Evidence: While technical rules of evidence do not apply to such hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. The decision of the Board to expel must be supported by substantial evidence that the student committed any of the above acts listed under "Grounds for Suspension and Expulsion" above. Findings of fact shall be based solely on the evidence at the hearing.

While no evidence shall be based solely on hearsay, sworn declarations may be admitted as testimony from witnesses whose disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm. (Education Code 48918 (f) and

In cases where a search of a student's person or property has occurred, evidence describing the reasonableness of the search shall be included in the hearing record.

4. Testimony by Complaining Witness: The following procedures shall be observed when hearings involve allegations of sexual assault or sexual battery by a student: (Education Code 48918)

- a. Any complaining witness shall be given five days' notice before being called to testify.
- b. Any complaining witness shall be entitled to have up to two adult support persons, including but not limited to a parent/guardian or legal counsel, present during his/her testimony.

- e. If one or both support persons are also witnesses, the hearing shall be conducted according to Penal Code 868.5.
- f. Evidence of specific instances of prior sexual conduct of a complaining witness shall be presumed inadmissible and shall not be heard unless the person conducting the hearing determines that extraordinary circumstances require the evidence to be heard.

Before such a determination is made, the complaining witness shall be given notice and an opportunity to oppose the introduction of this evidence. In the hearing on the admissibility of this evidence, the complaining witness shall be entitled to be represented by a parent/guardian, legal counsel or other support person. Reputation or opinion evidence regarding the sexual behavior of a complaining witness shall not be admissible for any purpose.

g. In order to facilitate a free and accurate statement of the experiences of the complaining witness and to prevent discouragement of complaints, the district shall provide a nonthreatening environment.

(1) The district shall provide a room separate from the hearing room for the use of the complaining witness before and during breaks in testimony.

(2) At the discretion of the person conducting the hearing, the complaining witness shall be allowed reasonable periods of relief from examination and cross-examination during which he/she may leave the hearing room.

(3) The person conducting the hearing may:

(a) Arrange the seating within the hearing room so as to facilitate a less intimidating environment for the complaining witness.

(c) Permit one of the support persons to accompany the complaining witness to the witness stand.

7. Decision Within 40 Days: If the Board does not meet on a weekly basis, its decision on whether to expel a student shall be made within 40 school days after the student is removed from his/her school of attendance, unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

Alternative Hearing: Hearing Officer or Administrative Panel

Instead of conducting an expulsion hearing itself, the Board may contract with the county hearing officer or with the Office of Administrative Hearings of the State of California for a hearing officer. Alternatively, the Board may appoint an impartial administrative panel composed of three or more certificated personnel, none of whom shall be members of the Board or on the staff of the school in which the student is enrolled. (Education Code 48918(d))

A hearing conducted by the hearing officer or administrative panel shall conform to the same procedures as apply to a hearing conducted by the Board as specified in "Conduct of Expulsion Hearing" above.

The hearing officer or administrative panel shall, within three school days after the hearing, determine whether to recommend expulsion of the student to the Board. If expulsion is not recommended, the student shall be immediately reinstated. (See "Reinstatement" below.) The Superintendent or designee shall place the student in a classroom instructional program, any other instructional program, a rehabilitation program, or any combination of these programs after consulting with district staff, including the student's teachers and with the student's parent/guardian. (Education Code 48918(e))

If expulsion is recommended, findings of fact in support of the recommendation shall be prepared and submitted to the Board. All findings of fact and recommendations shall be based solely on the evidence presented at the hearing. The Board may accept the recommendation based either upon a review of the findings of fact and recommendations submitted or upon the results of any supplementary hearing the Board may order. (Education Code 48918(f))

The hearing officer or administrative panel may recommend that the Board suspend the expulsion for a period of one year. (See "Suspension of Expulsion" below.)

The Board shall make its decision about the student's expulsion within 40 school days after the date of the student's removal from school unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

Stipulated Expulsions

It is the policy of the Redlands Unified School District that, where approved by the Superintendent or designee, parents/guardians may agree to the expulsion of their pupil by stipulation without necessity of a hearing. This process will expedite the pupil's school placement and may expedite the rehabilitation process.

A stipulated expulsion must be purely voluntary. No district administrator or staff member may coerce a pupil, parent or guardian into entering into such a stipulation. Parents/guardians will be given three calendar days to decide on a stipulated expulsion agreement.

If the parent/guardian requests a stipulated expulsion, the Superintendent or designee will promulgate the stipulated agreement. If at any time the parent/guardian decides not to pursue a stipulated agreement, the expulsion proceedings and timelines, extended by the length of the period for consideration of the stipulation, will be reinstated. The stipulated agreement will be presented to the Board for final consideration.

The stipulated agreement will include the terms and conditions of the expulsion order, including alternative placement and a rehabilitation plan to be completed before the student can be re-admitted to the district.

Final Action by the Board

Whether the expulsion hearing is conducted in closed or public session by the Board, a hearing officer, or an administrative panel, the final action to expel must be taken by the Board at a public meeting. (Education Code 489180)) The Board shall maintain a record of each expulsion, including its cause. Expulsion records shall be non- privileged, disclosable public records.

(cf. 9321.1 - Closed Session Actions and Reports)

If the Board conducts the hearing and reaches a decision not to expel, this decision shall be final and the student shall be reinstated immediately.

Upon ordering the expulsion, the Board shall set a date when the student shall be reviewed for readmission to a school within the district. For a student expelled for an act listed under "Mandatory Recommendation and Mandatory Expulsion" above, this date shall be one year from the date the expulsion occurred, except that the Board may set an earlier date on a case-by-case basis. For a student expelled for other acts, this date shall be no later than the last day of the semester following the semester in which the expulsion occurred. (Education Code 48916)

At the time of the expulsion order, the Board shall recommend a plan for the student's rehabilitation, which may include: (Education Code 48916)

1. Periodic review as well as assessment of the student at the time of review for readmission.
2. Recommendations for improved academic performance, tutoring, special education assessments, job training, counseling, employment, community service and other rehabilitative programs.
3. Such other recommendations as the Board approves.

With parental consent, students who have been expelled for reasons relating to controlled substances or alcohol may be required to enroll in a county-sponsored drug rehabilitation program before returning to school. (Education Code 48916.5)

Upon expulsion, a copy of readmission procedures will be made available to the student and his/her parent/guardian.

Written Notice to Expel

The Superintendent or designee shall send written notice of the decision to expel to the student or parent/guardian. The notice shall include the following:

1. The specific offense committed by the student for any of the causes for suspension or expulsion listed in Education Code 48900(a)-(o), Education Code 48900.2-48900.4 and Education Code 48915(c). (Education Code 48900.8)
2. The fact that a description of readmission procedures will be made available to the student and his/her parent/guardian. (Education Code 48916)
3. Notice of the right to appeal such expulsion to the County Board of Education. (Education Code 48918)
4. Notice of the alternative educational placement to be provided to the student during the time of expulsion. (Education Code 48918)
5. The notice also shall inform the student or parent/guardian of his/her obligation to inform any new district in which the student seeks to enroll of the student's status with the expelling district, pursuant to Education Code 48915.1. (Education Code 48918)

Suspension of Expulsion

The Board, upon voting to expel a student, may suspend the enforcement of the expulsion order for not more than one calendar year. When deciding whether to suspend an expulsion, the Board shall take into account the following criteria:

1. The student's previous behavior.
2. The seriousness of the misconduct.
3. The student's attitude toward the misconduct and his/her willingness to follow a rehabilitation program.

The suspension of the enforcement of an expulsion shall be governed by the following: (Education Code 48917)

1. The Board may, as a condition of the suspension of enforcement, assign the student to a school, class or program appropriate for the student's rehabilitation. This rehabilitation program may provide for the involvement of the student's parent/guardian in the student's education. However, a parent/guardian's refusal to participate in the rehabilitation program shall not be considered in the Board's determination as to whether the student has satisfactorily completed the rehabilitation program.
2. During the period when enforcement of the expulsion order is suspended, the student shall be on probationary status.
3. The suspension of expulsion order may be revoked by the Board if the student commits any of the acts listed under "Grounds for Suspension and Expulsion" above or violates any of the district's rules and regulations governing student conduct.
4. When suspension of expulsion order is revoked, a student may be expelled under the terms of the original expulsion order
5. Upon satisfactory completion of the rehabilitation assignment, the Board shall reinstate the student in a district school. Upon reinstatement, the Board may order the expungement of any or all records of the expulsion proceedings.
6. Suspension of an expulsion order shall not affect the time period and requirements for the filing of an appeal of the expulsion order with the County Board of Education.
7. The Superintendent or designee shall send written notice of any decision to suspend the enforcement of an expulsion order during a period of probation to the student or parent/guardian. The notice shall also inform the parent/guardian of the right to appeal the expulsion to the County Board of Education. (Education Code 48918(i))

Right to Appeal

The student or parent/guardian is entitled to file an appeal of the Board's decision to the County Board of Education.

The appeal must be filed within 30 days of the Board's decision to expel, even if the expulsion action is suspended and the student is placed on probation. (Education Code 48919)

Post-Expulsion Placements

The Board shall refer expelled students to a program of study that is: (Education Code 48915, 48915.01)

1. Appropriately prepared to accommodate students who exhibit discipline problems.
2. Not provided at a comprehensive middle, junior or senior high school or at any elementary school, unless the program is offered at a community day school established at such a site.
3. Not housed at the school site attended by the student at the time of suspension.

(cf. 6185 - Community Day School)

When the placement described above is not available, and when the County Superintendent of Schools so certifies, students expelled for acts described in items #6 through # 13 and # 17 through # 19 under "Grounds for Suspension and Expulsion" above may be instead referred to a program of study that is provided at another comprehensive middle, junior, or senior high school, or at an elementary school.

The program for a student expelled from any of grades K-6 shall not be combined or merged with programs offered to students in any of grades 7-12. (Education Code 48916.1)

Reinstatement

When the Board accepts a recommendation against expulsion or makes its own decision after the hearing not to expel, the decision is final and the student shall be reinstated immediately. The Superintendent or designee shall place the student in any classroom program, other instructional program, rehabilitation program, or any combination of such programs following consultation with district personnel, including the teacher involved, and with the student's parent/guardian. (Education Code 48918(e))

Readmission

An expulsion order shall remain in effect until the Board may order the readmission of the student.

Readmission procedures shall be as follows:

1. A written request for review of expulsion action and request for readmission shall be submitted by the parent/guardian to the Superintendent or designee.
2. The Superintendent or designee will hold a conference with the parent/guardian and the student.
3. At the conference the conditions for readmission will be reviewed. The Superintendent or designee shall verify that the rehabilitation plan has been met.
4. School regulations will be reviewed and the student and parent/guardian will be asked to indicate in writing their willingness to comply with these regulations.
5. The Superintendent or designee will transmit the request for readmission to the Board, along with his/her recommendation. The Board shall consider the request in closed session if the information would be disclosed in violation of Education Code 49073-49079. If a written request for open session is received from the parent/guardian or adult student, it will be honored.
6. The Superintendent or designee will notify the student or parent/guardian, by registered mail, of the district's decision regarding readmission.
7. The Board may deny readmission only if it finds that the student has not satisfied the conditions of the rehabilitation plan or that the student continues to pose a danger to campus safety or to other district students or employees. (Education Code 48916)
8. If the Board denies the readmission of a student, the Board shall determine either to continue the student's placement in the alternative educational program initially selected or to place the student in another program that serves expelled students, including placement in a county community school. (Education Code 48916)
9. The Board shall provide written notice to the expelled student and parent/guardian describing the reasons for denying readmittance into the regular program. This notice shall indicate the Board's determination of the educational program which the Board has chosen. The student shall enroll in that program unless the parent/guardian chooses to enroll the student in another school district. (Education Code 48916)

Maintenance of Records

The Board will maintain a record of each expulsion, including the specific cause of the expulsion. The expulsion record shall be maintained in the student's mandatory interim record and sent to any school in which the student subsequently enrolls, within five days of a written request by the admitting school. (Education Code 48900.8, 48918(k))

The Superintendent or designee shall, within five working days, honor any other district's request for information about an expulsion from this district. (Education Code 48915.1)

cf. 5119 - Students Expelled from Other Districts)

(cf. 5125 - Student Records)

Notifications and Reports

Within one school day after a student's suspension or expulsion, the principal or designee shall notify appropriate city or county law enforcement authorities, by telephone or other appropriate means, of any student acts which may violate Education Code 48900(c) or (d), relating to the possession, use, offering or sale of controlled substances, alcohol, or intoxicants of any kind.

Prior to the suspension or expulsion of any student, the principal or designee shall notify appropriate city or county law enforcement authorities of any student acts of assault which may have violated Penal Code 245. (Education Code 48902)

8. Possessed or used tobacco or any products containing tobacco or nicotine products, including but not limited to cigars, cigarettes, miniature cigars, clove cigarettes, smokeless tobacco, snuff, chew packets and betel. This restriction shall not prohibit a student from using or possessing his/her own prescription products (Education Code 48900(h))

9. Committed an obscene act or engaged in habitual profanity or vulgarity (Education Code 48900(i))

10. Unlawfully possessed or unlawfully offered, arranged, or negotiated to sell any drug paraphernalia, as defined in Health and Safety Code 11014.5. (Education Code 48900(j))

11. Disrupted school activities or otherwise willfully defied the valid authority of supervisors, teachers, administrators, other school officials, or other school personnel engaged in the performance of their duties. (Education Code 48900(k))

12. Knowingly received stolen school property or private property. (Education Code 48900(l))

13. Possessed an imitation firearm, i.e., a replica of a firearm that is so substantially similar in physical properties to an existing firearm as to lead a reasonable person to conclude that the replica is a firearm. (Education Code 48900(m))

14. Committed or attempted to commit a sexual assault as defined in Penal Code 261, 266c, 286, 288, 288a or 289, or committed a sexual battery as defined in Penal Code 243.4. (Education Code 48900(n))

15. Harassed, threatened, or intimidated a student who is a complaining witness or witness in a school disciplinary proceeding for the purpose of preventing that student from being a witness and/or retaliating against that student for being a witness. (Education Code 48900(o))

16. Made terrorist threats against school officials and/or school property. (Education Code 48900.7)

Pursuant to Education Code 48900.7, the making of a terrorist threat includes any written or oral statement by a person who willfully threatens to commit a crime which will result in death, great bodily injury to another person or property damage in excess of \$1,000.00, with the specific intent that the statement is to be taken as a threat, even if there is no intent of actually carrying it out.

A student in grades 4 through 12 is also subject to suspension or recommendation for expulsion when it is determined that he/she:

17. Committed sexual harassment as defined in Education Code 212.5. (Education Code 48900.2)

Pursuant to Education Code 48900.2 the conduct constitutes harassment when considered from the perspective of a reasonable person of the same gender as the victim to be sufficiently severe or pervasive as to have a negative impact upon the victim's academic performance or to create an intimidating, hostile or offensive educational environment.

(cf. 5145.7 - Sexual Harassment)

18. Caused, attempted to cause, threatened to cause, or participated in an act of hate violence as defined in Education Code 233. (Education Code 48900.3)

(cf. 5145.9 - Hate-Motivated Behavior)

Education Code 233 defines "hate violence" as any act punishable under Penal Code 422.6, 442.7 or 422.75. Such acts include injuring or intimidating another person, interfering with the exercise of a person's civil rights, or damaging a person's property because of the person's race, color, religion, ancestry, national origin, disability, gender or sexual orientation.

19. Intentionally harassed, threatened or intimidated a student or group of students to the extent of having the actual and reasonably expected effect of materially disrupting class work, creating substantial disorder, and invading student rights by creating an intimidating or hostile educational environment. (Education Code 48900.4)

(cf. 5145.3 - Nondiscrimination/Harassment)

A student may be suspended or expelled for any of the acts listed above if the act is related to school activity or school attendance occurring at any district school under the jurisdiction of the Superintendent or principal or within any other school district, including but not limited to the following circumstances: (Education Code 48900)

1. While on school grounds.
2. While going to or coming from school.
3. During the lunch period, whether on or off the school campus.
4. During, going to, or coming from a school-sponsored activity.

The Superintendent or principal may use his/her discretion to provide alternative to suspension or expulsion for a student subject to discipline under this administrative regulation, including, but not limited to, counseling and an anger management program. (Education Code 48900(r))

Alternatives to suspension or expulsion will be used with students who are truant, tardy, or otherwise absent from assigned school activities.

(cf. 5113 - Absences and Excuses)

(cf. 5113.1 - Truancy)

Removal from Class by a Teacher/Parental Attendance

A teacher may suspend any student from his/her class for the remainder of the day and the following day for any act listed in "Grounds for Suspension and Expulsion" above. (Education Code 48910)

A teacher also may refer a student to the principal or designee for consideration of suspension from school. (Education Code 48910)

When removing a student from his/her class, the teacher shall immediately report this action to the principal and send the student to the principal for appropriate action. The student shall be appropriately supervised during the class periods from which he/she has been removed.

As soon as possible, the teacher shall ask the student's parent/guardian to attend a parent-teacher conference regarding the removal. A counselor or psychologist should attend the conference if it is practicable, and a school administrator may attend if either the parent/guardian or teacher so requests.

A student removed from class shall not be returned to class during the period of removal without the approval of the teacher of the class and the principal. (Education Code 48910)

A student removed from class shall not be placed in another regular class during the period of removal. However, if a student is assigned to more than one class per day, he/she may be placed in any other regular classes except those held at the same time as the class from which the student was removed. (Education Code 48910)

The teacher of any class from which a student is removed may require the student to complete any assignments and tests missed during the removal. (Education Code 48913)

Pursuant to Board policy, a teacher may provide that the parent/guardian of a student whom the teacher has removed attend a portion of a school day in his/her child's classroom. When a teacher makes this request, the principal shall send the parent/guardian a written notice that the parent/guardian's attendance is requested pursuant to law. (Education Code 48900.1)

This notice shall also:

1. Inform the parent/guardian when his/her presence is expected and by what means he/she may arrange an alternate date.
2. Describe the legal protections afforded to the parent/guardian as an employee under Labor Code 230.7.
3. State that if the parent/guardian does not have a means of transportation to school, he/she may ride the school bus with the student.
4. Ask the parent/guardian to meet with the principal after the visit and before leaving school, as required by Education Code 48900.1.

Suspension by Superintendent, Principal or Principal's Designee

The Superintendent, principal or principal's designee may suspend a student from a school for not more than five consecutive school days unless the suspension is extended pending expulsion. (Education Code 48911)

The Superintendent or designee shall immediately suspend any student found at school or at a school activity to be: (Education Code 48915)

1. Possessing, as verified by a district employee, or selling or otherwise furnishing a firearm, unless the student had obtained prior written permission to possess the item from a certificated school employee, with the principal or designee's concurrence.
2. Brandishing a knife, as defined in Education Code 48915(g), at another person.
3. Unlawfully selling a controlled substance listed in Health and Safety Code 11053-11058.
4. Committing or attempting to commit a sexual assault or committing a sexual battery as defined in item #14 under "Grounds for Suspension and Expulsion".
5. Possession of an explosive as defined in 18 USC 921.

Suspension also may be imposed upon a first offense if the Superintendent, principal or designee determines the student violated items #1-5 listed in "Grounds for Suspension and Expulsion" above or if the student's presence causes a danger to persons or property or threatens to disrupt the instructional process. (Education Code 48900.5)

A student may be suspended from school for not more than 20 school days in any school year, unless for purposes of adjustment a student enrolls in or is transferred to another regular school, an opportunity school, or continuation school or class, in which case suspension shall not exceed 30 days in any school year. However, this restriction on the number of days of suspension does not apply when the suspension is extended pending an expulsion. (Education Code 48903, 48912)

The Superintendent or designee may count suspensions that occur while a student is enrolled in another school district toward the maximum number of days for which a student may be suspended in any school year. (Education Code 48903)

Suspensions shall be initiated according to the following procedures:

1. Informal Conference: Suspension shall be preceded by an informal conference conducted by the principal, designee or the Superintendent with the student and whenever practicable, the teacher, supervisor or school employee who referred the student to the principal. At the conference, the student shall be informed of the reason for the disciplinary action and the evidence against him/her; the student shall be given the opportunity to present his/her version and evidence in support of his/her defense. (Education Code 48911(b))

This conference may be omitted if the principal, designee or the Superintendent determines that an emergency situation exists. An "emergency situation" involves a clear and present danger to the lives, safety or health of students or school personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student's right to return to school for the purpose of a conference. The conference shall be held within two school days, unless the student waives his/her right to it or is physically unable to attend for any reason. In such case, the conference will be held as soon as the student is physically able to return to school. (Education Code 48911(c))

2. Administrative Actions: All requests for student suspension are to be processed by the principal or designee of the school in which the student is enrolled at the time of the misbehavior. A school employee shall report the suspension, including the name of the student and the cause for the suspension, to the Superintendent or designee.

3. Notice to Parents/Guardians: At the time of the suspension, a school employee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension. (Education Code 48911)

This notice shall state the specific offense committed by the student. (Education Code 48900.8).

In addition, the notice may also state the date and time when the student may return to school. If school officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may add that state law requires the parent/guardian to respond to such requests without delay.

4. Parent/Guardian Conference: Whenever a student is suspended, school officials may meet with the parent/guardian to discuss the causes and duration of the suspension, the school policy involved, and any other pertinent matters. (Education Code 48914)

While the parent/guardian is required to respond without delay to a request for a conference about a student's behavior, no penalties may be imposed on the student for the failure of the parent/guardian to attend such conference. The student may not be denied readmission solely because the parent/guardian failed to attend. (Education Code 48911)

5. Extension of Suspension: If the Board is considering the expulsion of a suspended student from any school or the suspension of a student for the balance of the semester from continuation school, the Superintendent or designee may, in writing, extend the suspension until such time as the Board has made a decision. (Education Code 48911(g))

Any extension of the original period of suspension shall be preceded by notice of such extension with an offer to hold a conference concerning the extension, giving the student an opportunity to be heard. This conference may be held in conjunction with a meeting requested by the student or parent/guardian to challenge the original suspension. Extension of the suspension may be made only if the Superintendent or designee determines, following a meeting in which the student and the student's parent/guardian were invited to participate, that the student's presence at the school or at an alternative school would endanger persons or property or threaten to disrupt the instructional process. (Education Code 48911)

Suspension by the Board

The Board may suspend a student for any of the acts listed in "Grounds for Suspension and Expulsion" above and within the limits specified in "Suspension by Superintendent, Principal or Principal's Designee" above. (Education Code 48912)

The Board may suspend a student enrolled in a continuation school or class for a period not longer than the remainder of the semester if any of the acts listed in "Grounds for Suspension and Expulsion" occurred. The suspension shall meet the requirements of Education Code 48915. (Education Code 48912.5)

When the Board is considering a suspension, disciplinary action, or any other action (except expulsion) against any student, it shall hold closed sessions if a public hearing would lead to disclosure of information violating a student's right privacy under Education Code 49073-49079.

(cf. 9321 - Closed Session Purposes and Agendas)

The Board shall provide the student and his/her parent/guardian with written notice of the closed session by or certified mail. Upon receiving this notice, the student or parent/guardian may request a public meeting, and this request shall be granted if made in writing within 48 hours after receipt of the Board's notice. However, any discussion that conflicts with any other student's right to privacy still shall be held in closed session. (Education Codes 35146, 48912)

On-Campus Suspension Program

Students for whom an expulsion action has not been initiated and who pose no imminent danger or threat to the school may be assigned to a separate, supervised suspension classroom for the entire period of suspension. The following conditions shall apply: (Education Code 48911.1)

1. The supervised suspension classroom shall be staffed in accordance with law.
2. The student shall have access to appropriate counseling services.
3. The supervised suspension classroom shall promote completion of schoolwork and tests missed by the student during the suspension.
4. Each student shall be responsible for contacting his/her teacher(s) to receive assignments to be completed in the supervised suspension classroom. The teacher shall provide all assignments and tests that the student will miss while suspended. If no such work is assigned, the person supervising the suspension classroom shall assign schoolwork.

At the time a student is assigned to a supervised suspension classroom, the principal or designee shall notify the student's parent/guardian in person or by telephone. When the assignment is for longer than one class period, this notification shall be made in writing. (Education Code 48911.1)

Authority to Expel

A student may be expelled only by the Board. The Board shall expel, as required by law, any student found to have committed certain offenses listed below under "Mandatory Recommendation and Mandatory Expulsion."

The Board also may order a student expelled for any of the acts listed under "Grounds for Suspension and Expulsion" upon recommendation by the principal, Superintendent, hearing officer or administrative panel, based on finding either or both of the following: (Education Code 48915 (b) and (e))

1. That other means of correction are not feasible or have repeatedly failed to bring about proper conduct.
2. That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others.

Mandatory Recommendation for Expulsion

Unless the principal, Superintendent or designee finds that expulsion is inappropriate due to particular circumstances, the principal, Superintendent or designee shall recommend a student's expulsion for any of the following acts: (Education Code 48915 (a))

1. Causing serious physical injury to another person, except in self-defense.
2. Possession of any knife as defined in Education Code 48915(g), explosive or other dangerous object of no reasonable use to the student.
3. Unlawful possession of any controlled substance, as listed in the Health and Safety Code 11053-11058, except for the first offense for the possession of not more than one ounce of marijuana, other than concentrated cannabis.
4. Robbery or extortion.
5. Assault or battery, as defined in Penal Code 240 and 242, upon any school employee.

Mandatory Recommendation and Mandatory Expulsion

Note: The Attorney General has determined, in 80 Ops.Cal. Atty. Gen. 347 (1997), that a district may not adopt a zero tolerance policy mandating expulsion of a student for a first offense of possession of a controlled substance or alcohol.

The principal, Superintendent or designee shall recommend that the Board expel any student found at school or at a school activity to be: (Education Code 48915(c))

1. Possessing, as verified by a district employee, or selling or otherwise furnishing a firearm, unless the student had obtained prior written permission to possess the item from a certificated school employee, with the principal or designee's concurrence.
2. Brandishing a knife as defined in Education Code 48915(g) at another person.
3. Unlawfully selling a controlled substance listed in Health and Safety Code 11053-11058
4. Committing or attempting to commit a sexual assault or committing a sexual battery as defined in item #14 under "Grounds for Suspension and Expulsion" above.
5. Possessing an explosive as defined in 18 USC 921.

Upon finding that the student committed any of the above acts, the Board shall expel the student. (Education Code 48915)

The initial recommendation for consideration of expulsion is that of the school principal or the Superintendent. Designees may not make this type of recommendation.

The recommendation for consideration of expulsion shall be submitted to the Director, Office of Student Services, who will review the material and recommend:

1. Reassignment to appropriate regular education program.
2. Refer student to Alternative Program; i.e., Community School, Independent Study, Continuation or Opportunity School, or other district programs.
3. Refer the matter to the Discipline Review Panel for further consideration.

When a case is referred to the discipline Review Panel, the panel shall question school personnel who have information on the incident and the behavior record of the student charged and weighs the evidence presented.

The panel shall, in the case of an expulsion consideration, weigh information presented to determine:

- a. Is the evidence sufficient to support consideration by the expulsion panel?
- b. Has the district, through the schools involved, considered or utilized alternatives to expulsion when possible?
- c. Have due process procedures been adhered to?

The recommendation shall be either to proceed with the expulsion or to utilize an existing practical alternative in lieu of expulsion.

If the district (school) has not adhered to due process requirements, the student shall be returned to school immediately.

If the Discipline Review Panel meets to consider a matter other than an expulsion, it shall provide its best judgment as to an effective alternative program or plan to action.

The recommendation of the Discipline Review Panel shall be forwarded to the Director, Office of Student Services, who shall then review the facts, concur, veto or modify the recommendation.

4. That an expulsion panel be convened.

At the time a recommendation for expulsion is submitted, a hearing shall be scheduled by the Superintendent or designee to determine whether the suspension shall be extended. If the decision is to extend the suspension, the period of time shall be until the Board has rendered a decision or until the expulsion process is otherwise terminated.

The extension of suspension shall be based upon determination by the Superintendent or designee that the presence of the student at the school or in an alternative school placement would cause a danger to persons or property or a threat of disrupting the instructional process. This extension shall be imposed only after the student and the parent/guardian have been given the opportunity to be present at a hearing conducted by the Superintendent or designee. At this time, the student and parent/guardian shall be given the opportunity to be heard and present any information that might bear upon the decision.

Materials which support the decision of the person recommending the expulsion shall be prepared and submitted to the Office of Student Services. The departments of Attendance, Guidance, Special Education and/or Health may be requested to assist in the preparation of this material.

Student's Right to Expulsion Hearing

The student is entitled to a hearing to determine whether the student should be expelled. The hearing shall be held within 30 school days after the principal or Superintendent or designee determines that one of the acts listed under "Grounds for Suspension and Expulsion" has occurred. (Education Code 48918 (a))

The student is entitled to one postponement of an expulsion hearing for a period of not more than 30 calendar days. The request for postponement shall be in writing. Any subsequent postponement may be granted at the Board's discretion. (Education Code 48918(a))

If the Board finds it impractical during the school year to comply with these time requirements for conducting an expulsion hearing, the Superintendent or designee may, for good cause, extend the time period by an additional five school days. Reasons for the extension shall be included as a part of the record when the expulsion hearing is held. (Education Code 48918(a))

If the Board finds it impractical to comply with the time requirements of the expulsion hearing due to summer recess of Board meetings of more than two weeks, the days during the recess shall not be counted as school days. The days not counted during the recess may not exceed 20 school days as defined in Education Code 48925. Unless the student requests in writing that the expulsion hearing be postponed, the hearing shall be held no later than 20 calendar days prior to the first day of the next school year. (Education Code 48918(a))

Once the hearing starts, all matters shall be pursued with reasonable diligence and concluded without unnecessary delay. (Education Code 48918(a))

Waiver of Hearing (Default Proceedings)

If the parent/guardian agrees that their son/daughter behaved essentially in the manner stated in the principals letter recommending expulsion and that such behavior constitutes a violation of the California Education Code, Section 48900, 48900.2, 48900.3, 48900.4, 48900.7 and/or 48915 a suspendable/expellable offense, the parent/guardian may request to waive the Administrative Hearing Panel.

When the parent/guardian agrees to waive the Administrative Hearing Panel, they also waive all notification and timelines related to the expulsion hearing process, along with their rights to appeal the determination of the Board.

The signed affidavit and findings of fact will be submitted to the Board for their approval. The Board has the discretionary power to accept, reject, or modify all recommendations.

Rights of Complaining Witness

An expulsion hearing involving allegations of sexual assault or sexual battery may be postponed for one school day in order to accommodate the special physical, mental or emotional needs of a student who is the complaining witness. (Education Code 48918.5)

Whenever the Superintendent or designee recommends an expulsion hearing that addresses allegations of sexual assault or sexual battery, he/she shall give the complaining witness a copy of the district's suspension and expulsion policy and regulation and shall advise the witness of his/her right to all the following: (Education Code 48918.5)

1. Receive five days' notice of his/her scheduled testimony at the hearing.
2. Have up to two adult support persons of his/her choosing present in the hearing at the time he/she testifies.
3. Have a closed hearing during the time he/she testifies.

Whenever any allegation of sexual assault or sexual battery is made, the Superintendent or designee shall immediately advise complaining witnesses and accused students to refrain from personal or telephone contact with each other during the time when an expulsion process is pending. (Education Code 48918.5)

Written Notice of the Expulsion Hearing (Education Code 48918(b))

Written notice of the hearing shall be forwarded to the student and the student's parent/guardian at least 10 calendar days before the date of the hearing. The notice shall include: (Education Code 48900.8, 48918 (b))

1. The date and place of the hearing.
2. A statement of the specific facts, charges and offense upon which the proposed expulsion is based.
3. A copy of district disciplinary rules which relate to the alleged violation.
4. Notification of the student's or parent/guardian's obligation, pursuant to Education Code 48915.1, to provide information about the student's status in the district to any other district in which the student seeks enrollment. This obligation applies when a student is expelled for acts other than those described in Education Code 48915 (a) or (c).
(cf. 5119 - Students Expelled from other Districts)

5. The opportunity for the student or the student's parent/guardian to appear in person and/or be represented by legal counsel or by a non-attorney advisor.

Legal counsel means an attorney or lawyer who is admitted to the practice of law in California and is an active member of the State Bar of California.

Non-attorney advisor means an individual who is not an attorney or lawyer, but who is familiar with the facts of the case, and has been selected by the student or student's parent/guardian to provide assistance at the hearing.

6. The right to inspect and obtain copies of all documents to be used at the hearing.
7. The opportunity to confront and question all witnesses who testify at the hearing.
8. The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf, including witnesses.

Conduct of Expulsion Hearing

1. Closed Session: Notwithstanding the provisions of Government Code 54953 and Education Code 35145, the Board shall conduct a hearing to consider the expulsion of the student in a session closed to the public unless the student requests in writing at least five days prior to the hearing that the hearing be a public meeting. If such request is made, the meeting shall be public, unless another student's privacy rights would be violated.

Whether the expulsion hearing is held in closed or public session, the Board may meet in closed session to determine if the student should be expelled. If the Board admits any other person to the closed session, the parent/guardian, the student, and the counsel of the student, shall also be allowed to attend the closed session. (Education Code 48918(c))

If a hearing that involves a charge of sexual assault or sexual battery is to be conducted in public, a complaining witness shall have the right to have his/her testimony heard in closed session when testifying in public would threaten serious psychological harm to the witness and when there are no alternative procedures to avoid the threatened harm, including but not limited to videotaped deposition or contemporaneous examination in another place communicated to the hearing room by closed-circuit television. (Education Code 48918(c))

2. Record of Hearing: A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate written and complete transcription of the proceedings can be made. (Education Code 48918(g))

3. Subpoenas: Before commencing a student expulsion hearing, the Board may issue subpoenas, at the request of either the student or the Superintendent or designee, for the personal appearance at the hearing of any person who actually witnessed the action that gave rise to the recommendation for expulsion. After the hearing has commenced, the Board or the hearing officer or administrative panel may issue such subpoenas at the request of the student or the County Superintendent of Schools or designee. All subpoenas shall be issued in accordance with the Code of Civil Procedure 1985-1985.2 and enforced in accordance with Government Code 11455.20, formerly 11525. (Education Code 48918(i))

Any objection raised by the student or the Superintendent or designee to the issuance of subpoenas may be considered by the Board in closed session, or in open session if so requested by the student, before the meeting. The Board's decision in response to such an objection shall be final and binding. (Education Code 48918(i))

If the Board determines, or if the hearing officer or administrative panel finds and submits to the Board, that a witness would be subject to unreasonable risk of harm by testifying at the hearing, a subpoena shall not be issued to compel the personal attendance of that witness at the hearing. However, that witness may be compelled to testify by means of a sworn declaration as described in item #4 below. (Education Code 48918(i))

4. Presentation of Evidence: While technical rules of evidence do not apply to expulsion hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. The decision of the Board to expel must be supported by substantial evidence that the student committed any of the acts listed in "Grounds for Suspension and Expulsion" above.

Findings of fact shall be based solely on the evidence at the hearing. While no evidence shall be based solely on hearsay, sworn declarations may be admitted as testimony from witnesses whose disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm. (Education Code 48918 (f) and (h))

In cases where a search of a student's person or property has occurred, evidence describing the reasonableness of the search shall be included in the hearing record.

5. Testimony by Complaining Witnesses: The following procedures shall be observed when hearings involve allegations of sexual assault or sexual battery by a student: (Education Code 48918)

- a. Any complaining witness shall be given five days' notice before being called to testify.
- b. Any complaining witness shall be entitled to have up to two adult support persons, including but not limited to a parent/guardian or legal counsel, present during his/her testimony.
- c. Before a complaining witness testifies, support persons shall be admonished that the hearing is confidential.
- d. The person presiding over the hearing may remove a support person whom he/she finds is disrupting the hearing.
- e. If one or both support persons are also witnesses, the hearing shall be conducted according to Penal Code 868.5.
- f. Evidence of specific instances of prior sexual conduct of a complaining witness shall be presumed inadmissible and shall not be heard unless the person conducting the hearing determines that extraordinary circumstances require the evidence to be heard. Before such a determination is made, the complaining witness shall be given notice and an opportunity to oppose the introduction of this evidence. In the hearing on the admissibility of this evidence, the complaining witness shall be entitled to be represented by a parent/guardian, legal counsel or other support person. Reputation or opinion evidence regarding the sexual behavior of a complaining witness shall not be admissible for any purpose.
- g. In order to facilitate a free and accurate statement of the experiences of the complaining witness and to prevent discouragement of complaints, the district shall provide a nonthreatening environment.
 - (1) The district shall provide a room separate from the hearing room for the use of the complaining witness before and during breaks in testimony.
 - (2) At the discretion of the person conducting the hearing, the complaining witness shall be allowed reasonable periods of relief from examination and cross-examination during which he/she may leave the hearing room.
 - (3) The person conducting the hearing may:
 - (a) Arrange the seating within the hearing room so as to facilitate a less intimidating environment for the complaining witness.
 - (b) Limit the time for taking the testimony of a complaining witness to the hours he/she is normally in school, if there is no good cause to take the testimony during other hours.

(c) Permit one of the support persons to accompany the complaining witness to the witness stand.

6. Decision Within 10 Days: The Board's decision on whether to expel a student shall be made within 10 school days after the conclusion of the hearing, unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

7. Decision Within 40 Days: If the Board does not meet on a weekly basis, its decision on whether to expel a student shall be made within 40 school days after the student is removed from his/her school of attendance, unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

Alternative Expulsion Hearing: Hearing Officer or Administrative Panel

Instead of conducting an expulsion hearing itself, the Board may contract with the county hearing officer or with the Office of Administrative Hearings of the State of California for a hearing officer. Alternatively, the Board may appoint an impartial administrative panel composed of three or more certificated personnel, none of whom shall be members of the Board or on the staff of the school in which the student is enrolled. (Education Code 48918(d))

A hearing conducted by the hearing officer or administrative panel shall conform to the same procedures as apply to a hearing conducted by the Board as specified in "Conduct of Expulsion Hearing."

The hearing officer or administrative panel shall, within three school days after the hearing, determine whether to recommend expulsion of the student to the Board. If expulsion is not recommended, the student shall be immediately reinstated. (See "Reinstatement.") The Superintendent or designee shall place the student in a classroom instructional program, any other instructional program, a rehabilitation program, or any combination of these programs after consulting with district staff, including the student's teachers, and with the student's parent/guardian. (Education Code 48918(e))

If expulsion is recommended, findings of fact in support of the recommendation shall be prepared and submitted to the Board. All findings of fact and recommendations shall be based solely on the evidence presented at the hearing. The Board may accept the recommendation based either upon a review of the findings of fact and recommendations submitted or upon the results of any supplementary hearing the Board may order. (Education Code 48918(f))

In accordance with Board policy, the hearing officer or administrative panel may recommend that the Board suspend the enforcement of the expulsion for a period of one year. (See "Decision Not to Enforce Expulsion Order" below.)

The Board shall make its decision about the student's expulsion within 40 school days after the date of the student's removal from school unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

The Discipline Review Panel

The Discipline Review Panel will consist of elementary educators when a review is being made of an elementary student and of secondary educators when a review is being made of secondary student.

1. The Discipline Review Panel shall hear the following types of disciplinary cases:

- a. Requests for expulsion from site principals or the Superintendent.
- b. School site administrative requests for assistance (non-expulsion situations).

2. Each discipline review panel shall consist of three certificated persons plus a chairperson and shall consist of elementary educators when a review is being made of an elementary student and of secondary educators when a review is being made of a secondary student. A panelist may not serve on any panel involving a student who is currently attending the school in which he/she is assigned. A representative from Student Services shall be a nonvoting member of each panel.

A chairperson and assistant chairperson, to serve when the chairperson is unable to serve, shall be appointed by the Superintendent or designee and shall serve at his/her pleasure. Neither shall be a member of the Student Services staff.

A pool of panelists shall be established which shall be composed of personnel who have served or are currently serving as members of administrative expulsion panels. The committee chairman shall select members to serve on individual panels.

The meetings of the discipline review panel are open to school district personnel only.

The duties of the Discipline Review Panel are as follows:

1. The chairperson shall call a meeting of the panel as soon as possible, but no later than 10 school days after the receipt of notice of a pending case.

2. A recommendation must be forwarded to the Director, Office of Student Services, within three days of the review hearing.
3. In the event a member of the committee cannot be present at a meeting, the Director, Office of Student Services, will appoint an alternate from the pool to attend.

Final Action by the Board

Whether the expulsion hearing is conducted in closed or public session by the Board, a hearing officer, or an administrative panel, the final action to expel shall be taken by the Board at a public meeting. (Education Code 48918(j))

(cf. 9321.1 - Closed Session Actions and Reports)

If the Board conducts the hearing and reaches a decision not to expel, this decision shall be final and the student shall be reinstated immediately.

Upon ordering an expulsion, the Board shall set a date when the student shall be reviewed for readmission to a school within the district. For a student expelled for an act listed under "Mandatory Recommendation and Mandatory Expulsion" above, this date shall be one year from the date the expulsion occurred, except that the Board may set an earlier date on a case-by-case basis. For a student expelled for other acts, this date shall be no later than the last day of the semester following the semester in which the expulsion occurred. (Education Code 48916)

At the time of the expulsion order, the Board shall recommend a plan for the student's rehabilitation, which may include: (Education Code 48916)

1. Periodic review as well as assessment of the student at the time of review for readmission.
2. Recommendations for improved academic performance, tutoring, special education assessments, job training, counseling, employment, community service and other rehabilitative programs.

With parental consent, students who have been expelled for reasons relating to controlled substances or alcohol may be required to enroll in a county-sponsored drug rehabilitation program before returning to school. (Education Code 48916.5)

Written Notice to Expel

The Superintendent or designee shall send written notice of the decision to expel the student or parent/guardian. This notice shall include the following:

1. The specific offense committed by the student for any of the causes for suspension or expulsion listed in Education Code 48900 (a)-(o), Education Code 48900.2-48900.4, Education Code 48915 (c) and (Education Code 48900.8).
2. The fact that a description of readmission procedures will be made available to the student and his/her parent/guardian. (Education Code 48916)
3. Notice of the right to appeal the expulsion to the County Governing Board. (Education Code 48918)
4. Notice of the alternative educational placements to be provided to the student during the time of expulsion. (Education Code 48918)
5. Notice of the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with the expelling district, pursuant to Education Code 48915.1 (Education Code 48918).

Decision Not to Enforce Expulsion Order

In accordance with Board policy, when deciding whether to suspend the enforcement of an expulsion, the Board shall take into account the following criteria:

1. The student's pattern of behavior.
2. The seriousness of the misconduct.
3. The student's attitude toward the misconduct and his/her willingness to follow a rehabilitation program.

The suspension of the enforcement of an expulsion shall be governed by the following: (Education Code 48917)

1. The Board may, as a condition of the suspension of enforcement, assign the student to a school, class or program appropriate for the student's rehabilitation. This rehabilitation program may provide for the involvement of the student's parent/guardian in the student's education. However, a parent/guardian's refusal to participate in the rehabilitation program shall not be considered in the Board's determination as to whether the student has satisfactorily completed the rehabilitation program.
2. During the period when enforcement of the expulsion order is suspended, the student shall be on probationary status.

3. The suspension of the enforcement of an expulsion order may be revoked by the Board if the student commits any of the acts listed under “Grounds for Suspension and Expulsion” above or violates any of the district’s rules and regulations governing student conduct.
4. When the suspension of the enforcement of an expulsion order is revoked, a student may be expelled under the terms of the original expulsion order.
5. Upon satisfactory completion of the rehabilitation assignment, the Board shall reinstate the student in a district school. Upon reinstatement, the Board may order the expunging of any or all records of the expulsion proceedings.
6. Suspension of the enforcement of an expulsion order shall not affect the time period and requirements for the filing of an appeal of the expulsion order with County Board of Education.
7. The Superintendent or designee shall send written notice of any decision to suspend the enforcement of an expulsion order during a period of probation to the student or parent/guardian. The notice shall also inform the parent/guardian of the right to appeal the expulsion to the County Board of Education. (Education Code 48918 (j))

Right to Appeal

The student or parent/guardian is entitled to file an appeal of the Board’s decision to the County Board of Education. The appeal must be filed within 30 days of the Board’s decision to expel, even if the expulsion action is suspended and the student is placed on probation. (Education Code 48919)

Post-Expulsion Placements

The Board shall refer expelled students to a program of study that is: (Education Code 48915, 48915.01)

1. Appropriately prepared to accommodate students who exhibit discipline problems.
2. Not provided at a comprehensive middle, junior or senior high school or at any elementary school, unless the program is offered at a community day school established at such a site.
3. Not housed at the school site attended by the student at the time of suspension.

(cf. 6185 - Community Day School)

When the placement described above is not available, and when the County Superintendent of Schools so certifies, students expelled for acts described in items #6 through #13 and #17 through #19 under “Grounds for Suspension and Expulsion” may be instead referred to a program of study that is provided at another comprehensive middle, junior, or senior high school, or at an elementary school. (Education Code 48915)

The program for a student expelled from any of grades K-6 shall not be combined or merged with programs offered to students in any of grades 7-12. (Education Code 48916.1)

Readmission After Expulsion

Readmission procedures shall be as follows:

1. On the date set by the Board when it ordered the expulsion, the district shall consider readmission of the student. (Education Code 48916)
2. The Superintendent or designee shall hold a conference with the parent/guardian and the student. At the conference the student’s rehabilitation plan shall be reviewed and the Superintendent or designee shall verify that the provisions of this plan have been met. School regulations shall be reviewed and the student and parent/guardian shall be asked to indicate in writing their willingness to comply with these regulations.
3. The Superintendent or designee shall transmit to the Board his/her recommendation regarding readmission. The Board shall consider this recommendation in closed session if information would be disclosed in violation of Education Code 49073-49079. If a written request for open session is received from the parent/guardian or adult student, it shall be honored.
4. If the readmission is granted, the Superintendent or designee shall notify the student and parent/guardian, by registered mail, of the Board’s decision regarding readmission.
5. The Board may deny readmission only if it finds that the student has not satisfied the conditions of the rehabilitation plan or that the student continues to pose a danger to campus safety or to other district students or employees. (Education Code 48916)
6. If the Board denies the readmission of a student, the Board shall determine either to continue the student’s placement in the alternative educational program initially selected or to place the student in another program that serves expelled students, including placement in a county community school. (Education Code 48916)

7. The Board shall provide written notice to the expelled student and parent/guardian describing the reasons for denying readmittance into the regular program. This notice shall indicate the Board's determination of the educational program which the Board has chosen. The student shall enroll in that program unless the parent/guardian chooses to enroll the student in another school district. (Education Code 48916)

Maintenance of Records

The Board shall maintain a record of each expulsion, including the specific cause of the expulsion. The expulsion record shall be maintained in the student's mandatory interim record and sent to any school in which the student subsequently enrolls, within five days of a written request by the admitting school. (Education Code 48900.8, 48918(k))

The Superintendent or designee shall, within five working days, honor any other district's request for information about an expulsion from this district. (Education Code 48915.1)

(cf. 5119 - Students Expelled from Other Districts)

(cf. 5125 - Student Records)

Notifications to Law Enforcement Authorities

Prior to the suspension or expulsion of any student, the principal or designee shall notify appropriate city or county law enforcement authorities of any student acts of assault which may have violated Penal Code 245. (Education Code 48902)

The principal or designee also shall notify appropriate city or county law enforcement authorities of any student acts which may involve the possession or sale of narcotics or of a controlled substance or possession of weapons or firearms in violation of Penal Code 626.9 and 626.10. (Education Code 48902)

Within one school day after a student's suspension or expulsion, the principal or designee shall notify appropriate city or county law enforcement authorities, by telephone or other appropriate means, of any student acts which may violate Education Code 48900(c) or (d), relating to the possession, use, offering or sale of controlled substances, alcohol, or intoxicants of any kind. (Education Code 48902)

Ouome Data

The Superintendent or designee shall maintain the following data and report such data annually to the California Department of Education, using forms supplied by the California Department of Education: (Education Code 48900.8, 48916.1)

1. The number of students recommended for expulsion.
2. The grounds for each recommended expulsion.
3. Whether the student was subsequently expelled.
4. Whether the expulsion order was suspended.
5. The type of referral made after the expulsion.
6. The disposition of the student after the end of the expulsion period.

Regulation: REDLANDS UNIFIED SCHOOL DISTRICT

Approved: June 27, 1995, Redlands, California

(D) Procedures to Notify Teachers of Dangerous Pupils (EC 49079)

Kimberly teachers are notified through Raptor Alerts, emails, and all calls. The Kimberly community are notified through parent square callers, texts, and emails.

(E) Sexual Harassment Policies (EC 212.6 [b])

Policy 4119.11: Sex Discrimination and Sex-Based Harassment

The Governing Board is committed to providing a safe work environment that is free of harassment and intimidation. The Board prohibits sexual harassment against district employees by anyone, in any manner, and prohibits retaliatory action or behavior against any persons who complains, testifies, or otherwise participates in the complaint process established pursuant to this policy and accompanying administrative regulation. This policy shall apply to all district employees, interns, volunteers, contractors, job applicants, and other persons with an employment relationship with the district.

(cf. 0410 - Nondiscrimination in District Programs and Activities) (cf. 4030 - Nondiscrimination in Employment)

Sexual harassment includes, but is not limited to, harassment that is based on the sex, gender, gender identity, gender expression, or sexual orientation of the victim and harassment based on pregnancy, childbirth, or related medical conditions.

The Superintendent or designee shall take all actions necessary to ensure the prevention, investigation, and correction of sexual harassment, including but not limited to:

1. Providing training to all staff in accordance with law and administrative regulation.
2. Publicizing and disseminating the district's sexual harassment policy to staff.
3. Ensuring prompt, thorough, equitable, and fair investigation of complaints
4. Taking timely and appropriate corrective/remedial actions which may require interim separation of the complainant and the alleged harasser and subsequent monitoring of developments.

The Superintendent or designee shall periodically evaluate the effectiveness of the district's strategies to prevent and address harassment. Such evaluation may involve conducting regular anonymous employee surveys to assess whether harassment is occurring or is perceived to be tolerated, partnering with researchers or other agencies with the needed expertise to evaluate the district's prevention strategies, and using any other effective tool for receiving feedback on systems and/or processes. As necessary, changes shall be made to the harassment policy, complaint procedures, or training.

Sexual Harassment Reports and Complaints

Any district employee who feels that he/she has been sexually harassed in the performance of their district responsibilities or who has knowledge of any incident of sexual harassment by or against another employee shall immediately report the incident to his/her supervisor, the principal, other district administrator, or the district's Title IX Coordinator. However, an employee may bypass his/her supervisor in filing a complaint if the supervisor is the subject of the complaint. A supervisor, principal, or district administrator who receives a harassment complaint shall promptly notify the Title IX Coordinator.

Once notified, the Title IX Coordinator shall ensure the complaint or allegation is addressed through AR 4119.12/4219.12/4319.12 – Title IX Sexual Harassment Complaint Procedures or AR 4030- Nondiscrimination in Employment, as applicable. Because a complaint or allegation that is dismissed or denied under the Title IX complaint procedure may still be subject to consideration under state law, the Title IX Coordinator shall ensure that any implementation of AR 4119.12/4219.12/4319.12 concurrently meets the requirements of AR 4030.

Notwithstanding the above, BP/AR 4119.12/4219.12/4319.12 and 4030 shall under no circumstances be used to resolve complaints brought by, on behalf of, or against students. All complaints brought by, on behalf of, or against students that allege “sexual harassment” as that term is defined in the federal regulations implementing Title IX of the Education Amendments of 1972 (see 34 C.F.R. § 106, et seq.) shall be investigated and resolved under BP/AR 5145.71. All complaints brought by, on behalf of, or against students that do not meet the definition of “sexual harassment” as set forth in the Title IX implementing regulations shall be investigated and resolved under BP/AR 1312.3.

(cf. 4119.12/4219.12/4319.12 - Title IX Sexual Harassment Complaints)

The Title IX Coordinator shall offer supportive measures to the complainant and respondent, as deemed appropriate under the circumstances.

Upon investigation of a sexual harassment complaint, any district employee who engages, or participates in sexual harassment, or who aids, abets, incites, compels, or coerces another to commit sexual harassment in violation of this policy is subject to disciplinary action, up to and including dismissal, in accordance with law and the applicable collective bargaining agreement.

(cf. 4117.7/4317.7 - Employment Status Reports) (cf. 4118 - Dismissal/Suspension/Disciplinary Action) (cf. 4218 -

Dismissal/Suspension/Disciplinary Action)

Regulation 4119.12: Title IX Sex Discrimination and Sex-Based Harassment Complaint Procedures

The complaint procedures described in this administrative regulation shall be used to address any complaint governed by Title IX of the Education Amendments of 1972 alleging that a district employee, while in an education program or activity in which a district school exercises substantial control over the context and respondent, was subjected to one or more of the following forms of sexual harassment: (34 CFR 106.30, 106.44)

1. A district employee conditioning the provision of a district aid, benefit, or service on a person's participation in unwelcome sexual conduct
2. Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the district's education program or activity
3. Sexual assault, dating violence, domestic violence, or stalking as defined in 20 USC 1092 or 34 USC 12291 (cf. 4119.11/4219.11/4319.11 - Sexual Harassment)

All other sexual harassment complaints or allegations shall be investigated and resolved in accordance with AR 4030

- Nondiscrimination in Employment. The determination of whether the allegations meet the definition of sexual harassment under Title IX shall be made by the district's Title IX Coordinator.

(cf. 4030 - Nondiscrimination in Employment)

Because the complainant has a right to pursue a complaint under AR 4030 for any allegation that is dismissed or denied under the Title IX complaint procedure, the Title IX Coordinator shall ensure that all requirements and timelines for AR 4030 are concurrently met while implementing the Title IX procedure.

Reporting Allegations/Filing a Formal Complaint

An employee who is the alleged victim of sexual harassment may submit a report of sexual harassment to the district's Title IX Coordinator using the contact information listed in AR 4119.11/4219.11/4319.11 - Sexual Harassment or to the employee's direct supervisor or other district administrator, who shall forward the report to the Title IX Coordinator within one day of receiving the report. Upon receiving such a report, the Title IX Coordinator shall inform the complainant of the right to file a formal complaint and the process for filing a formal complaint.

A formal complaint, with the complainant's physical or digital signature, may be filed with the Title IX Coordinator in person, by mail, by email, or by any other method authorized by the district. (34 CFR 106.30)

Even if the alleged victim chooses not to file a formal complaint, the Title IX Coordinator shall file a formal complaint in situations when a safety threat exists. In addition, the Title IX Coordinator may file a formal complaint in other situations as permitted under the Title IX regulations, including as part of the district's obligation to not be deliberately indifferent to known allegations of sexual harassment. In such cases, the Title IX Coordinator shall provide the alleged victim notices as required by the Title IX regulations at specific points in the complaint process.

The Title IX Coordinator, investigator, decision-maker, or a facilitator of an informal resolution process shall not have a conflict of interest or bias for or against complainants or respondents generally or an individual complainant or respondent. Such persons shall receive training in accordance with 34 CFR 106.45. (34 CFR 106.45)

Supportive Measures

Upon receipt of a report of Title IX sexual harassment, the Title IX Coordinator shall promptly contact the complainant to discuss the availability of supportive measures and shall consider the complainant's wishes with respect to the supportive measures implemented. Supportive measures shall be offered as appropriate, as reasonably available, and without charge to the complainant or the respondent before or after the filing of a formal complaint or where no formal complaint has been filed. Such measures shall be nondisciplinary, nonpunitive, and not unreasonably burden the other party, including measures designed to protect the safety of all parties or the district's educational environment or to deter sexual harassment. Supportive measures may include, but are not limited to, counseling, extensions of deadlines, modifications of work schedules, mutual restrictions on contact, changes in work locations, leaves of absence, increased security, and monitoring of certain areas of the campus. (34 CFR 106.30, 106.44)

The district shall maintain as confidential any supportive measures provided to the complainant or respondent, to the extent that maintaining such confidentiality would not impair the district's ability to provide the supportive measures. (34 CFR 106.30)

Emergency Removal

If a district employee is the respondent, the employee may be placed on administrative leave during the pendency of the formal complaint process. (34 CFR 106.44)

If the respondent is a student, the district may, on an emergency basis, remove the student from the district's education program or activity, provided that the district conducts an individualized safety and risk analysis, determines that removal is justified due to an immediate threat to the physical health or safety of any student or other individual arising from the allegations, and provides the student with notice and an opportunity to challenge the decision immediately following the removal. This authority to remove a student does not modify a student's rights under the Individuals with Disabilities Education Act or Section 504 of the Rehabilitation Act of 1973. (34 CFR 106.44)

Dismissal of Complaint

The Title IX Coordinator shall dismiss a formal complaint if the alleged conduct would not constitute sexual harassment as defined in

34 CFR 106.30 even if proved. The Title IX Coordinator shall also dismiss any complaint in which the alleged conduct did not occur in the district's education program or activity or did not occur against a person in the United States, and may dismiss a formal complaint if the complainant notifies the district in writing that the complainant would like to withdraw the complaint or any allegations in the complaint, the respondent is no longer employed by the district, or sufficient circumstances prevent the district from gathering evidence sufficient to reach a determination with regard to the complaint. (34 CFR 106.45)

Upon dismissal, the Title IX Coordinator shall promptly send written notice of the dismissal and the reasons for the dismissal simultaneously to the parties and shall inform them of their right to appeal the dismissal of a formal complaint or any allegation in the complaint in accordance with the appeal procedures described in the section "Appeals" below. (34 CFR 106.45)

If a complaint is dismissed, the conduct may still be addressed pursuant to AR 4030 - Nondiscrimination in Employment as applicable.

Informal Resolution Process

When a formal complaint of sexual harassment is filed, the district may offer an informal resolution process, such as mediation, at any time prior to reaching a determination regarding responsibility. The district shall not require a party to participate in the informal resolution process or to waive the right to an investigation and adjudication of a formal complaint. (34 CFR 106.45)

The district may facilitate an informal resolution process provided that the district: (34 CFR 106.45)

1. Provides the parties with written notice disclosing the allegations, the requirements of the informal resolution process, the right to withdraw from the informal process and resume the formal complaint process, and any consequences resulting from participating in the informal resolution process, including that records will be maintained or could be shared.
2. Obtains the parties' voluntary, written consent to the informal resolution process

Written Notice

If a formal complaint is filed, the Title IX Coordinator shall provide the known parties with written notice of the following: (34 CFR 106.45)

1. The district's complaint process, including any informal resolution process
2. The allegations potentially constituting sexual harassment with sufficient details known at the time, including the identity of parties involved in the incident if known, the conduct allegedly constituting sexual harassment, and the date and location of the alleged incident if known. Such notice shall be provided with sufficient time for the parties to prepare a response before any initial interview. If, during the course of the investigation, new Title IX allegations arise about the complainant or respondent that are not included in the initial notice, the Title IX Coordinator shall provide notice of the additional allegations to the parties.
3. A statement that the respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility is made at the conclusion of the complaint process
4. The opportunity for the parties to have an advisor of their choice who may be, but is not required to be, an attorney, and the ability to inspect and review evidence
5. The prohibition against knowingly making false statements or knowingly submitting false information during the complaint process

The above notice shall also include the name of the investigator, facilitator of an informal process, and decision-maker and shall inform the parties that, if at any time a party has concerns regarding conflict of interest or bias regarding any of these persons, the party should immediately notify the Title IX Coordinator.

Investigation Procedures

During the investigation process, the district's designated investigator shall: (34 CFR 106.45)

1. Provide an equal opportunity for the parties to present witnesses, including fact and expert witnesses, and other inculpatory and

exculpatory evidence

2. Not restrict the ability of either party to discuss the allegations under investigation or to gather and present relevant evidence
3. Provide the parties with the same opportunities to have others present during any grievance proceeding, including the opportunity to be accompanied to any related meeting or proceeding by the advisor of their choice, who may be, but is not required to be, an attorney
4. Not limit the choice or presence of an advisor for either the complainant or respondent in any meeting or grievance proceeding, although the district may establish restrictions regarding the extent to which the advisor may participate in the proceedings as long as the restrictions apply equally to both parties
5. Provide, to a party whose participation is invited or expected, written notice of the date, time, location, participants, and purpose of all investigative interviews or other meetings, with sufficient time for the party to prepare to participate
6. Send in an electronic format or hard copy to both parties and their advisors, if any, the evidence obtained as part of the investigation that is directly related to the allegations raised in the complaint, and provide the parties at least 10 days to submit a written response for the investigator to consider prior to the completion of the investigative report
7. Objectively evaluate all relevant evidence, including both inculpatory and exculpatory evidence, and determine credibility in a manner that is not based on a person's status as a complainant, respondent, or witness
8. Create an investigative report that fairly summarizes relevant evidence and, at least 10 days prior to the determination of responsibility, send to the parties and their advisors, if any, the investigative report in an electronic format or a hard copy, for their review and written response

Questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant, unless such questions and evidence are offered to prove that someone other than the respondent committed the conduct alleged by the complainant or if the questions and evidence concern specific incidents of the complainant's prior sexual behavior with respect to the respondent and are offered to prove consent. (34 CFR 106.45)

Privacy rights of all parties to the complaint shall be maintained in accordance with applicable state and federal laws.

If the complaint is against an employee, rights conferred under an applicable collective bargaining agreement shall be applied to the extent they do not conflict with the Title IX requirements.

Written Decision

The Superintendent shall designate an employee as the decision-maker to determine responsibility for the alleged conduct, who shall not be the Title IX Coordinator or a person involved in the investigation of the matter. (34 CFR 106.45)

After the investigative report has been sent to the parties but before reaching a determination regarding responsibility, the decision-maker shall afford each party the opportunity to submit written, relevant questions that the party wants asked of any party or witness, provide each party with the answers, and allow for additional, limited follow-up questions from each party.

The decision-maker shall issue, and simultaneously provide to both parties, a written decision as to whether the respondent is responsible for the alleged conduct. (34 CFR 106.45)

The written decision shall be issued within 60 calendar days of the receipt of the complaint.

The timeline may be temporarily extended for good cause with written notice to the complainant and respondent of the extension and the reasons for the action. (34 CFR 106.45)

In making this determination, the decision-maker shall use the "preponderance of the evidence" standard for all formal complaints of sexual harassment. (34 CFR 106.45)

The written decision shall include the following: (34 CFR 106.45)

1. Identification of the allegations potentially constituting sexual harassment as defined in 34 CFR 106.30

2. A description of the procedural steps taken from receipt of the formal complaint through the written decision, including any notifications to the parties, interviews with parties and witnesses, site visits, methods used to gather other evidence, and hearings held if the district includes hearings as part of the grievance process
3. Findings of fact supporting the determination
4. Conclusions regarding the application of the district's code of conduct or policies to the facts
5. A statement of, and rationale for, the result as to each allegation, including a decision regarding responsibility, any disciplinary sanctions the district imposes on the respondent, and whether remedies designed to restore or preserve equal access to the district's educational program or activity will be provided by the district to the complainant
6. The district's procedures and permissible bases for the complainant and respondent to appeal

Appeals

Either party may appeal the district's decision or dismissal of a formal complaint or any allegation in the complaint, if the party believes that a procedural irregularity affected the outcome, new evidence is available that could affect the outcome, or a conflict of interest or bias by the Title IX Coordinator, investigator(s), or decision-maker(s) affected the outcome. If an appeal is filed, the district shall: (34 CFR 106.45)

1. Notify the other party in writing when an appeal is filed and implement appeal procedures equally for both parties
2. Ensure that the decision-maker(s) for the appeal is trained in accordance with 34 CFR 106.45 and is not the same decision-maker(s) who reached the determination regarding responsibility or dismissal, the investigator(s), or the Title IX Coordinator
3. Give both parties a reasonable, equal opportunity to submit a written statement in support of, or challenging, the outcome
4. Issue a written decision describing the result of the appeal and the rationale for the result
5. Provide the written decision simultaneously to both parties

An appeal must be filed in writing within 10 calendar days of receiving the notice of the decision or dismissal, stating the grounds for the appeal and including any relevant documentation in support of the appeal. Appeals submitted after this deadline are not timely and shall not be considered.

A written decision shall be provided to the parties within 20 calendar days from the receipt of the appeal.

Either party has the right to file a complaint with the U.S. Department of Education's Office for Civil Rights within 180 days of the date of the most recently alleged misconduct.

The complainant shall be advised of any civil law remedies, including, but not limited to, injunctions, restraining orders, or other remedies or orders that may be available under state or federal antidiscrimination laws, if applicable.

Remedies

When a determination of responsibility for sexual harassment has been made against the respondent, the district shall provide remedies to the complainant. Such remedies may include the same individualized services described above in the section "Supportive Measures," but need not be nondisciplinary or nonpunitive and need not avoid burdening the respondent. (34 CFR 106.45)

Disciplinary Actions

The district shall not impose any disciplinary sanctions or other actions against a respondent, other than supportive measures as described above in the section "Supportive Measures," until the complaint procedure has been completed and a determination of responsibility has been made. (34 CFR 106.44)

When an employee is found to have committed sexual harassment or retaliation, the district shall take appropriate disciplinary action, up to and including dismissal, in accordance with applicable law and collective bargaining agreement.

(cf. 4117.7/4317.7 - Employment Status Report)

(cf. 4118 - Dismissal/Suspension/Disciplinary Action) (cf. 4119.11/4219.11/4319.11 - Sexual Harassment) (cf. 4218 - Dismissal/Suspension/Disciplinary Action)

Record-Keeping

The Superintendent or designee shall maintain, for a period of seven years: (34 CFR 106.45)

1. A record of all reported cases and Title IX investigations of sexual harassment, any determinations of responsibility, any audio or audiovisual recording and transcript if applicable, any disciplinary sanctions imposed, any remedies provided to the complainant, and any appeal or informal resolution and the results therefrom.
2. (F) School-wide Dress Code Relating to Gang-Related Apparel (EC 35183)

Policy 5132.16: Student Dress Guidelines

The Governing Board believes that appropriate dress and grooming contribute to a productive learning environment. The Board expects students to give proper attention to personal cleanliness and to wear clothes that are suitable for the school activities in which they participate. Students' clothing must not present a health or safety hazard or a distraction which would interfere with the educational process.

Students and parents/guardians shall be informed about dress and grooming standards at the beginning of the school year and whenever these standards are revised. A student who violates these standards shall be subject to appropriate disciplinary action.

Gang-Related Apparel

The principal, staff and parents/guardians at a school may establish a reasonable dress code that prohibits students from wearing gang-related apparel when there is evidence of a gang presence that disrupts or threatens to disrupt the school's activities. Such a dress code may be included as part of the school safety plan and must be presented to the Board for approval. The Board shall approve the plan upon determining that it is necessary to protect the health and safety of the school's students.

Uniforms

The Board recognizes that, in order to promote student safety and discourage peer rivalry and/or gang activity, the principal, staff and parent/guardian at a school site may wish to establish a reasonable dress code, which may include voluntary school uniforms.

Dress codes, which include voluntary school uniforms, may be included as part of the school safety plan submitted as required.

The Superintendent or designee shall establish procedures that schools, parents and guardians will follow if they decide to participate with the voluntary school uniform policy. Students shall not be penalized academically, otherwise discriminated against or denied attendance to school if their parents/guardian decide not to participate.

The Governing Board feels that there is nothing inherently wrong with dress or color of dress, but when student's dress serves to intimidate or impede the rights of other students it will be determined that dress is in violation of this policy. A student may not remain at school dressed in a manner which (1) creates a safety hazard for said student or for other students at school, and/or (2) when the dress constitutes a serious and unnecessary distraction to the learning process or tends to disrupt campus order

When the site administrator/designee determines that a student's attire is in violation of this policy, the student will be required to modify his/her clothing and/or apparel in such a manner that it no longer violates this policy. If necessary, the student may be taken or sent home with parental permission to modify unacceptable dress and return to school. Refusal to take steps as described in this policy shall be cause for disciplinary action against the student. Any such disciplinary action shall be handled pursuant to existing student disciplinary policy

Parents/guardians have primary responsibility to see that students are properly attired for school. School district personnel have the responsibility for maintaining proper and appropriate conditions conducive to learning. Hence, the following guidelines will be implemented in all district schools.

1. Shoes will be worn at all times. A substantial sole is required and enclosed toe and heel footwear are highly encouraged.
2. Extremely brief garments that are distracting to the educational environment are not appropriate. Clothing shall be sufficient to conceal undergarments at all times.
3. Clothing or accessories shall be free of writing, pictures or any other insignia which are crude, violent, obscene or sexually suggestive or which advocate racial, ethnic or religious prejudice or the use of tobacco, drugs or alcohol.
4. Earrings, jewelry, or accessories which present a safety hazard to the wearer or others are not suitable for school wear.
5. Only prescription sunglasses may be worn in class. Other types of sunglasses may be worn on campus outside of class.
6. Identified gang attire such as bandannas, haircuts or hair rollers, or any gang paraphernalia are prohibited.

Students are allowed to wear sun protective clothing, including hats, while outdoors during the school day. Each school site will develop a policy indicating the type of sun protective hats that are permitted.

No grade of a student participating in a physical education class shall be adversely affected if the student does not wear standardized physical education apparel because of circumstances beyond the student's control. (Education Code 49066) All clothing worn during physical education shall meet reasonable safety standards.

The purpose of adopting these Student Dress Guidelines is not to infringe on any individual student's rights to freedom of expression, but rather to encourage students to dress appropriately and come to school properly prepared for participating in the educational process.

Gang-Related Apparel

Because gang-related symbols are constantly changing, definitions of gang-related apparel shall be reviewed as needed and updated as necessary.

Uniforms

In schools where a majority of parents respond and indicate on a survey that they desire to establish a voluntary school-wide uniform dress code, the principal, staff and the parents/guardians of the individual school site shall:

1. Jointly select the specific uniform to be worn. (Education Code 35183)
2. Describe the uniform parts and identify local vendors who sell those pieces of clothing. A description of the implementation of the voluntary uniform dress code will be submitted to the superintendent's designee including:
 - a. The process for parent notification
 - b. Positive procedures that will be used to encourage students to participate with the voluntary uniform dress code
3. A description of the uniform and a list of costs for each competitively priced item of clothing as provided by a variety of vendors will be sent to parents.
4. Parents will be notified that this is a voluntary uniform dress code and that students not participating shall not be penalized academically, otherwise discriminated against or denied attendance to school if their parents/guardians so decide.

Parent Notification

The principal shall give parents/guardian at least six months notice before a school site implements a voluntary school uniform dress code. (Education Code 35183)

(G) Procedure for Safe Ingress and Egress of Pupils, Parents, and Staff to and from School (EC 35294.2)

Kimberly Elementary has four entrances open for students arrival and dismissal. All gates are opened and manned by a school employee. Once the day begins all gates are locked. During school hours Kimberly Elementary is a single entry school. All school personal and volunteers raptor in at the beginning of the day or upon their arrival.

(H) A Safe and Orderly School Environment Conducive to Learning (EC 35294.2)

Component:

Physical Environment

The Schools' Location and Physical Environment

Kimberly Elementary School is located in the Redlands area of San Bernardino County that has an average crime rate and average poverty level. The school is located in a residential neighborhood. Kimberly Crest, a historical site and Prospect Park are less then a mile away. Present safety hazards include street and parking lot traffic.

Description of School Grounds

The school site encompasses appr. 9 acres. The grounds are grass, concrete and asphalt and includes basketball and volleyball courts, baseball diamonds and a lined track. There are several wings and/or clusters of classrooms including 21 classrooms 13 re-locatable classrooms. Other ancillary structures include a multi-purpose room and school office.

During the school day, staff members and administrators shall provide campus supervision. Identified problem areas receive increased supervision to reduce discipline, crime, or other school safety concerns. Kimberly has five campus monitors for recess and lunch supervision.

It shall be the practice of Kimberly Elementary School to remove all graffiti from school property before pupils arrive to begin their school day. Other acts of vandalism are promptly addressed.

Maintenance of School Buildings/Classrooms

The school's physical facility is well maintained and generally looks neat and clean. The school was last painted during the summer of 2020 and renovated during the modernization project of the 2003-04 school year. District personnel periodically examine the school's physical facility and help eliminate obstacles to school safety. Additionally, health and fire department inspectors contribute to school safety. All areas pasted the most recent fire safety check for the 2024-2025 school year.

When attention is needed, the school staff submits a work order which puts the item in the queue to be addressed by district maintenance.

Internal Security Procedures

Kimberly Elementary School has established procedures in the following areas: California Safe School Assessment (CSSA) reporting procedures, suspension and expulsion procedures, inventory system, and bullying prevention measures through PBIS and supported through Behavior Expectations. All students are required to carry a hall pass issued by a staff member with date/time/destination. When the student reaches the destination, the staff member will write the return time.

Kimberly Elementary School crime statistics reflect a total of 0 crimes reported during the 2023-24 school year.

Keeping reportable crimes at a minimum requires constant vigilance. The following strategies will be utilized in achieving this goal Maintaining a satisfactory level of supervision, providing counseling resources when necessary, and utilizing effective disciplinary strategies.

Kimberly Elementary School maintains a copy of the district's sexual harassment policy in the main office/principal's office and the policy is available on request. The District's Sexual Harassment Policy contains dissemination plans, applicable definitions, reporting requirements, investigation procedures, enforcement regulations, and information related to suspension and/or expulsion for sexual harassment of or by pupils. Additionally, a notice summarizing this sexual harassment policy appears in the Parent & Student Handbook. The parent student handbook is distributed at the beginning of each school year to all parents and pupils.

To ensure the safety of pupils and staff, all visitors to the campus, except pupils of the school and staff members, shall register immediately upon entering any school building or grounds when school is in session. All District employees, and visitors must wear appropriate identification badges while on campus conducting business.

Kimberly is a PBIS school and has created PBIS expectations. Kimberly's expectations are Respectful, Responsible, and Safe. Students, staff, and families are aware and trained on these expectations. Discipline procedures shall focus a positive approach that help students learn and grow. The school's discipline plan begins at the classroom level. Teachers use our PBIS Tiered support model that consist of minor and major acts. As a PBIS school Kimberly has put positive reinforcement into place to promote positive behaviors and corrections. Kimberly uses a progressive discipline model embedded with Tier 3 supports. When discipline is needed Ed Code is followed and referenced.

Pupil conduct standards and consequences for Kimberly Elementary School are specifically described in this Comprehensive Schools Safety Plan including: (a) the adopted school PBIS expectations, (b) District Disciplinary Guidelines, and (c) the adopted school-wide dress code.

Pupils may be suspended, transferred to another school, or recommended for expulsion or for certain acts. For specific student violations, a mandatory expulsion recommendation shall be submitted by the administration of Kimberly Elementary School.

Site administrators contribute to a positive school climate, promote positive pupil behavior, and help reduce inappropriate conduct. The principal/designee uses available district and other appropriate records to inform teachers of each pupil identified under E.C. 49079.

Law enforcement is contacted and consulted to help maintain and to promote a safe and orderly school environment. Kimberly Elementary School employees comply with all legal mandates, regulations, and reporting requirements for all instances of suspected child abuse.

If appropriate, additional internal security procedures affecting the integrity of the school facility include: newly installed electronic locking systems, updated locking mechanisms and peep holes in all classrooms, doors kept locked during school hours, new front office doors, regularly scheduled emergency drills, and revisions to our lockdown procedures.

Community involvement is encouraged to help increase school safety.

All classrooms and common spaces have a See Something/Hear Something/Sense Something/Say Something poster on the wall. These posters list local law enforcement phone numbers as well as an anonymous report line called Sprigeo. Anyone can report bullying or safety threats of any kind. Sprigeo then sends an email to the school administrator for attention. The phone number for Sprigeo is 909.703.8736.

Inventory System - Engraved ID, Security Storage

Most school-site equipment has an ID tag or a bar cod sticker adhered to its surface. These items are inventoried annually and there is an established accountability system. Office and classroom supplies are secured.

(I) School Discipline Rules and Consequences (EC 35291 and EC 35291.5)

Kimberly Elementary School Student Conduct Code

Procedures to Ensure a Safe and Orderly Environment

Rules and Procedures on School Discipline

Philosophy of Discipline

- Behavior expectations and the consequences for not meeting expectations must be clearly communicated to all students and their parents (in writing as well as verbally).
- The severity of consequences for violating behavior expectations increases with each incident of inappropriate behavior.
- The consequences for violating behavior expectations should be severe enough to discourage students from making poor behavior decisions.
- Expectations and consequences should permit students an opportunity to eliminate inappropriate behavior.

Additionally, the school staff recognizes that the middle school years are a transition time from adolescence to young adulthood. As a part of this transition, the student is given greater opportunities to be responsible and demonstrate independence and good judgment. The structure of our behavior expectations (in the classroom as well as school wide) is meant to encourage students to be responsible. The first step in many instances of inappropriate behavior (those considered to be "minor") is a simple warning ("Your behavior is unacceptable. Please stop such behavior"). It is only when a student ignores such warnings and continues to choose to act irresponsibly (like a child rather than an emerging adult) that we involve parents and implement consequences.

Elements of a Good Discipline Program

1. The program is focused upon making the entire campus, especially the classroom, a safe, supportive and orderly environment for learning for students and staff.
2. Classroom authority is retained by the classroom teacher. (Administration's role is to support, not to replace.)
3. Rules and procedures are clearly understood by staff and students.
4. All staff members will acknowledge and take appropriate action on any minor or major infraction of the school rules.
5. Rules and procedures comply with State Law and District policies.
6. The program recognizes the responsibilities and the rights of students and staff.
7. Program is structured to keep students in class and engaged in the educational process.
8. Rules are enforced:
 - A. by all staff members at all times.
 - B. strictly, but not rigidly (beware of "automatics").
 - C. in substantial part by adult modeling.
 - D. using techniques that promote the growth of positive self-esteem.
 - E. as close to the source as is possible.
 - F. by keeping parents informed.
9. The discipline program is understood, endorsed, and supported by staff, parents, and students.

PRINCIPAL'S STATEMENT TO STAFF

Expectations in Developing & Maintaining Discipline

As Principal of our school, I will expect;

Each teacher to follow our school PBIS Expectation of being Responsible, Respectful, and Safe. PBIS posters and folders will be placed in classroom for students and substitute teachers to access.

You can expect;

Administrators to assist and support you in every reasonable way in developing, implementing, and refining our school PBIS Expectations.

I will expect

That when you refer a student for discipline:

1. The student has been made fully aware of classroom and school rules and knows what rules he/she has violated.
2. Teachers within a village will discuss any continuing behavior problems and schedule a team conference with the student and parents when appropriate.
3. That information will be provided on the referral regarding previous actions you have taken regarding this specific issue.
4. You have exhausted the interventions at your disposal (i.e., you have done everything you can do) and you have followed the guidelines established by the administration and staff on what constitutes an appropriate behavior referral.
5. The behavior was so serious or so blatant as to make immediate removal from the classroom necessary.
6. The written referral will be explicit in stating the offense(s).
7. You will send the student out of class with a referral only if his/her continued presence in the class would disrupt or prevent teaching and/or learning.
8. If necessary, the referral will be delivered to the office at a time convenient to the staff member so that the issue may be handled most efficiently, causing a minimum of lost class time.

You can expect

1. Each administrator to support your position in every reasonable way.
2. A response time on your referral of one, or at most, two days.
3. The availability of an administrator to discuss unresolved referrals after school on any given day.
4. That the administrator will exercise independent judgment regarding disposition of referrals.

I will expect

1. That each teacher will go to the doorway of his/her classroom after each class period as often as possible and assume control of student behavior in the corridor.
2. That each staff member will hold students accountable for their behavior on the school grounds at all times.

You can expect

1. Administrator support, investigation, and follow-through as indicated.
2. A response to referrals from incidents outside the classroom to be the same as to those within.

WHAT TO DO WHEN PROBLEMS APPEAR

Both behavioral and academic problems are present in some of our students. Teachers often ask for guidelines for dealing with these problems. Here they are:

1. Talk to the administrator assigned to your grade level.
2. Call parents at first sign of concern. Inform the parents of your observations, ask for their ideas, assistance, and support in serving the student. Keep a log of your calls.
3. If possible, talk privately to the student about your concerns.
4. Behavior concerns—look through students' CUM file. Any official suspensions will be in file, also look for teacher comments on report cards. Look for patterns of behavior. We use In-House Suspension whenever possible, as it is preferable to having students at home unattended—and it saves the district money. Serious infractions (fighting, threats, etc.) do result in official suspension. Unresponsive students can be moved to other schools or expelled.
5. Referrals—please remember if you write a student referral, you are required to call the parents. You are writing the referral and can answer the parents' questions firsthand. Administrators will also call parents, but we can only give secondhand information on the incident.
6. Academic Concerns—again, look through student CUM. This will contain test scores, report cards, and a student history. You may want to ask the grade level administrator to schedule a Student Study Team (SST). This will involve a meeting with the student, parents, administrators, students' teachers, and perhaps the psychologist

Conduct Code Procedures

(K) Hate Crime Reporting Procedures and Policies

Students, parents, staff, and community members can report through Sprigeo or adult on campus. It is an on-line reporting site that is monitored by the District and Kimberly Elementary. Determining the type of emergency will assist the administrator in making the appropriate decisions to keep the campus safe. There are See Something, Hear Something, Sense Something, Say Something signs posted in all areas and classrooms throughout campus.

Step Two: Identify the Level of Emergency

Determining the size and immediacy of the emergency will determine the level. The site leader will determine if it is a classroom only; building only, area only (i.e. playground), whole school, neighborhood, or city-wide emergency.

Step Three: Determine the Immediate Response Action

With safety of students, staff and visitors at the forefront, site administrators/commander will determine immediate response based on site protocols. Please reference sections about specific emergencies.

Step Four: Communicate the Appropriate Response Action

Administrator will communicate to the necessary emergency responders via Raptor/phone. Administrator will utilize a variety of communication tools to notify staff and emergency participants such as: Bell systems, phone intercom system, emails. In addition, the administrator will communicate with the District Office via emergency radio. Lastly, a community communication plan will be created to notify families of incident, pick-up procedures, or next steps through one or several methods: Parent Square, postings on website and all social media accounts.

Types of Emergencies & Specific Procedures

Earthquake

In the case of an Earthquake staff and students will secure themselves under their desks/tables in their classrooms. They will stay in this position until an all clear signal/bell lets them know to head safely out to the field. At that point all staff will take roll and turn in their emergency attendance sheet to account for all students assigned to them.

5.8 Earthquake

Earthquakes generally occur without warning and may cause minor to serious ground shaking, damage to buildings, and injuries. It is important to note that even a mild tremor can create a potentially hazardous situation and the following procedures should be implemented in response to all earthquakes regardless of magnitude.

Procedure

Note: Keep calm and remain where you are. Assess the situation, and then act. Remember, most injuries or deaths are the direct cause of falling or flying debris.

1. Upon the first indication of an earthquake, teachers should direct students to DUCK AND COVER as described in Section 4.0.
2. Move away from windows and overhead hazards to avoid glass and falling objects.

3. When the shaking stops, the School Administrator will initiate the EVACUATE BUILDING action as described in Section 4.0. Staff and students will evacuate the buildings using prescribed routes or other safe routes to the Assembly Area.
4. In the event of an evacuation, Teachers will bring their student roster and take attendance at the Assembly Area to account for students. Teachers will notify the Assembly Area Team of missing students.
5. The School Administrator will direct the Security/Utilities Team to post guards a safe distance away from building entrances to prevent access.
6. The Security/Utilities Team will notify school personnel of fallen electrical wires and instruct them to avoid touching the fallen wires.
7. The First Aid/Medical Team will check for injuries and provide appropriate first aid.
8. The School Administrator will direct the Security/Utilities Team to notify the appropriate utility company of damages (e.g., gas, power, water, or sewer).
9. If the area appears safe, the Search and Rescue Team will make an initial inspection of school buildings to identify any injured or trapped students or staff.
10. The School Administrator will contact the Local District Superintendent to determine additional actions that may be necessary. In turn, the actions will be communicated to the District's Office of Communications.
11. The School Administrator will contact the Local District Facilities Director to ensure buildings are safe for re-occupancy. When safe to do so, the Fire Suppression and HazMat Team will conduct an inspection of school buildings. The Fire Suppression and HazMat Team will maintain a log of their findings, by building, and provide a periodic report to the Incident Commander.
12. Any affected areas will not be reopened until the Local District Facilities provides clearance and the School Administrator gives authorization to do so.
13. The School Administrator will initiate an OFF-SITE EVACUATION, as described in Section 4.0, if warranted by changes in conditions at the school.

In the event an earthquake occurs during non- school hours:

1. The School Administrator and the Plant Manager will assess damages to determine any necessary corrective actions. The School Administrator may direct the Fire Suppression and HazMat Team to participate in the assessment.
2. The School Administrator should confer with the Local District Superintendent on identified damages to determine if the school should be closed.
3. If the school must be closed, the School Administrator will activate Parent Alert System and School Personnel Alert System as referenced in Section 5.0.

Fire in Surrounding Area

5.10 Fire In Surrounding Area

This procedure addresses the situation where a fire is discovered in an area adjoining the school. The initiated response actions should take into consideration the location and size of the fire, its proximity to the school and the likelihood that the fire may affect the school.

Procedure

Blood Borne Pathogen Incident Reporting Form and Exposure Control Plan

Policy 5141.22: Infectious Diseases

The Governing Board desires to protect students from risks posed by exposure to infectious diseases while providing an appropriate education for all students.

The Superintendent or designee shall determine whether to admit a student with an infectious disease, and shall exclude students only in accordance with law. In making this determination, he/she shall consult the student's parents/guardians, the student's physician and/or the county health department, in accordance with law and consistent with confidentiality provisions. Because bloodborne pathogens such as hepatitis B virus, hepatitis C virus and human immunodeficiency virus (HIV) are not casually transmitted, the sole presence of bloodborne pathogens is not sufficient reason to exclude students from attending school.

cf. 5112.2 - Exclusions from Attendance)
(cf. 5141.26 - Tuberculosis Testing)
(cf. 5141.3 - Health Examinations)
(cf. 6158 - Independent Study)
(cf. 6159 - Individualized Education Program)
(cf. 6183 - Home/Hospital Instruction)

Parents/guardians are encouraged to inform the Superintendent or designee if their child has an infectious disease so that school staff may work cooperatively with the student's parents/guardians to minimize the child's exposure to other diseases in the school setting. The Superintendent or designee shall ensure that student confidentiality rights are strictly observed in accordance with law. No district employee shall release medical information, including knowledge of a bloodborne pathogen infection, without written consent from the parent/guardian or adult student. Such information shall be shared only with those persons specifically named in the written permission.

(cf. 5125 - Student Records)
(cf. 5022 - Student and Family Privacy Rights)

The Board requires students and staff to routinely observe universal precautions to prevent exposure to bloodborne pathogens and to prevent the spread of all infectious disease.

(cf. 4119.43/4219.43/4319.43 - Universal Precautions)
(cf. 5141.23 - Infectious Disease Prevention)

The Superintendent or designee shall ensure that the district's health education program provides information about the nature of bloodborne pathogens and their transmission.

- b. Immediately washing hands and other skin surfaces after removal of gloves and/or contact with blood

4.2. Schools will be provided with appropriate protective equipment including disposable waterproof gloves (natural rubber latex, neoprene, nitrile, or vinyl), tongs or pliers and proper sharps containers.

4.4. Blankets can be cleaned as needed by forwarding them, in a clearly labeled plastic bag, to the Assistant Supervisor Operations at the Facilities Office.

5. Universal Precautions

5.1. Universal Precautions to prevent transmission of blood-borne disease will be followed. Universal Precautions is the term for infection control measures endorsed by the Canadian Centre for Occupational Health and Safety for workers who might come into contact with blood and other body fluids. In summary they include:

- a. Wash hands for 30 seconds after contact with blood and other body fluids contaminated with blood.
- b. Wear disposable latex gloves when you encounter blood, body fluids, or when cleaning cuts, scrapes or wounds. Wash your hands as soon as you remove your gloves. Dispose gloves in a plastic bag.
- c. Use disposable absorbent material like paper towels to stop bleeding.
- d. Discard bloodstained material in a sealed plastic bag and deposit in the garbage. Label as containing blood-tainted material.

Mops or brushes used for cleaning should be soaked in a bleach solution for 20 minutes.

(Note: The custodial department will provide each school with the product for dissolving in water to provide the bleach solution.)

6. Identification of Risks of Occupational Exposure

6.1. In accordance with the Occupational Health and Safety Regulations (section 6.35), the district's Health & Safety Coordinator will develop and maintain a list of positions and/or tasks and procedures where there is a potential for occupational exposure to a blood borne pathogen.

6.2. Employees who have, or may have, occupational exposure to the hepatitis B virus, will upon request, receive a hepatitis B vaccination (section 6.39, OH&S Regs).

6.3. Employees who may have been exposed to a blood borne pathogen in an exposure incident will be advised to immediately seek medical attention

Blood Borne Pathogen Incident Reporting Form and Exposure Control Plan67

Blood Borne Pathogens - Safety Practices68

Comprehensive School Safety Plan Purpose

Effective January 1, 2019, Assembly Bill 1747 (Rodriguez), School Safety Plans, became law. This bill requires that during the writing and development of the comprehensive school safety plan (CSSP), the school site council or safety committee consult with a fire department and other first responder entities in addition to currently required entities. It requires the CSSP and any updates made to the plan to be shared with the law enforcement agency, the fire department, and the other first responder entities.

The California Education Code (sections 32280-32288) outlines the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school.

In 2004, the Legislature and Governor recast and renumbered the Comprehensive School Safety Plan provisions in SB 719 and AB 115. It is the intent of the Legislature in enacting the provisions to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process, that include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses.

The historical requirement of the Comprehensive School Safety Plan was presented in Senate Bill 187, which was approved by the Governor and chaptered in 1997. This legislation contained a sunset clause that stated that this legislation would remain in effect only until January 1, 2000. Senate Bill 334 was approved and chaptered in 1999 and perpetuated this legislation under the requirement of the initial legislation.

Comprehensive School Safety Plans are required under SB 719 & AB 115 and contains the following elements:

Assessment of school crime committed on school campuses and at school-related functions

- Child abuse reporting procedures
- Disaster procedures
- Suspension and expulsion policies
- Procedures to notify teachers of dangerous pupils
- Discrimination and harassment policies
- School wide dress code policies
- Procedures for safe ingress and egress
- Policies enacted to maintain a safe and orderly environment
- Rules and procedures on school discipline
- Hate crime reporting procedures

The Comprehensive School Safety Plan will be reviewed and updated by March 1st every year. In July of every year, the school will report on the status of its school safety plan including a description of its key elements in the annual school accountability report card.

A copy of the Comprehensive School Safety Plan is available for review at Kingsbury Elementary School Office.

Safety Plan Vision

Kingsbury Elementary School will provide a safe, orderly, and secure environment conducive to learning. Kingsbury Elementary School will also: a) create a school in which pupils will attend regularly and be safe from both physical and social-psychological harm b) work collaboratively with the district office and school board to identify, establish and use strategies and programs to comply with school safety laws c) develop a plan to work cooperatively and collaboratively with parents, pupils, teachers, administrators, counselors and community agencies, including law enforcement, to provide a safe and orderly school and neighborhood d) develop an academic program that will focus on high expectations of pupil performance and behavior in all aspects of the school experience; e) work collaboratively with other elementary, middle and high schools to assist in a smooth transition from one school level to another; f) solicit the participation, views, and advice of teachers, parents, school administrators, and community members and use this information to promote the safety of our pupils, staff and community.

Within 36 hours of making the telephone report, the mandated reporter shall complete and mail to the local child protective agency a written report which includes a completed Department of Justice form (DOJ SS 8572).

Mandated reports may obtain copies of the above form either from the district or local child protective agency.

Instructions are included on the form, and reporters may ask the site administrator for help in completing and mailing it; however, the mandated reporter is personally responsible for ensuring that the written report is correctly filed.

Employees reporting child abuse to a child protective agency are encouraged, but not required, to notify the site administrator or designee as soon as possible after the initial verbal report by telephone. When so notified, the site administrator shall inform the Superintendent or designee.

Administrators so notified shall provide the mandated reporter any assistance necessary to ensure that reporting procedures are carried out in accordance with law and district regulations. At the mandated reporter's request, the principal may assist in completing and filing the form.

If the mandated reporter does not disclose his/her identity to a district administrator, he/she shall at least provide or mail a copy of the written report to the site administrator and the district without his/her signature or name.

Legal Responsibility and Liability

Mandated reporters have absolute immunity. School employees required to report are not civilly or criminally liable for filing a required or authorized report of known or suspected child abuse.

A mandated reporter who fails to report an instance of child abuse, which he/she knows to exist or reasonably should know to exist, is guilty of a misdemeanor and is punishable by confinement in jail for a term not to exceed six months or by a fine of not more than \$1,000 or both. The mandated reporter may also be held civilly liable for damages for any injury to the child after a failure to report

When two or more persons who are required to report have joint knowledge of suspected instance of child abuse, and when they so agree, the telephone report may be made by either of them and a single report made and signed by that person.

However, if any person who knows or should know that the person designated failed to make the report, that person then has a duty to make the report.

The duty to report child abuse is an individual duty and no supervisor or administrator may impede or inhibit such reporting duties. Furthermore, no person making such a report shall be subject to any sanction.

Victim Interview

Upon request, a child protective agency representative may upon request interview a suspected victim of child abuse during school hours, on school premises, concerning a report of suspected child abuse that occurred within the child's home. The child shall be given the choice of being interviewed in private or in the presence of any adult school employee or volunteer aide selected by the child. (Penal Code 11174.3)

A staff member or volunteer aide selected by a child may decline to be present at the interview. If the selected person accepts, the principal or designee shall inform him/her, before the interview takes place, of the following legal requirements:

1. The purpose of the selected person's presence at the interview is to lend support to the child and enable him/her to be as comfortable as possible.
2. The selected person shall not participate in the interview.
3. The selected person shall not discuss the facts or circumstances of the case with the child.
4. The selected person is subject to the confidentiality requirements of the Child Abuse and Reporting Act, a violation of which is punishable as specified by Penal Code 11167.5.
5. If a staff member agrees to be present, the interview shall be held at a time during school hours when it does not involve an expense to the school. (Penal Code 11174.3)

Release of Child to Peace Officer or Child Protective Services Agent

When a child is released to a peace officer or child protective agency and taken into custody as a victim of suspected child abuse, the Superintendent and/or principal shall not notify the parent/guardian as required in other instances of removal of a child from school, but rather shall provide the protective agency with the address and telephone number of the child's parent/guardian. It is the responsibility of the peace officer or agent to notify the parent/guardian of the situation. (Education Code 48906)

Peace officer and child protective services agents will be asked to sign an appropriate release or acceptance of responsibility form.

(cf. 5145.11 - Questioning and Apprehension)

When School Employees are Accused of Child Abuse

Regardless of who child abusers may be, the major responsibilities of mandated reports are to 1) identify incidents of suspected child abuse, and 2) comply with laws requiring the reporting of suspected abuse to proper authorities. Determining whether or not the suspected abuse actually occurred is not the responsibility of the school employee. Such determination and follow-up investigation will be made by a child protective agency.

Pending outcome of an investigation by a child protective agency and before formal charges are filed, the employee may be subject to reassignment or a paid leave of absence.

Upon filing formal charges or upon conviction, the district may take disciplinary action in accordance with law, district policies, regulations and/or collective bargaining agreements. The Superintendent or designee shall seek legal counsel in connection with either the suspension or dismissal of the employee.

(B) Disaster Procedures (EC 35295-35297; GC 8607 and 3100)

Disaster Plan (See Appendix C-F)

Each classroom, office, library and room on campus has a posting of the emergency procedures near the exit door. Emergency procedures are also posted in each classroom notebook which is reviewed at the beginning of the school year for updates. Fire Drills are practiced each month of the school year. Earthquake drills are practiced four times a year and Lock Down drills are practiced yearly.

The Standardized Emergency Management System (SEMS) provides the model for all levels of emergency operations—local, regional and statewide. During a disaster the SEMS serves as an "incident command system" (ICS) with a Site Command post to coordinate leaders in each of six areas—food/water distribution, utilities, first aid, search and rescue, sanitation, and student supervision—through a definite chain of command. The ICS is set up in an Emergency Operations Center, where the leaders of each unit can be present at a single site in order to quickly facilitate communication and coordinate the response. The NSLA disaster preparedness plan shall be available to staff, students and the public in the Mentone office. Mentone's principal is authorized and directed to implement plans as described herein; or take such other action as may, in their judgment, be necessary to save lives and mitigate the effects of disasters. A principal may implement one or more of these emergency actions in coping with a disaster. Maintenance personnel are assigned as liaisons between Incident Command and the school in the event phones are inoperative. The District has furnished Mentone with Site Emergency Radios in the case that standard communications are cutoff. During an emergency, children may only be released to the parent, guardian, designee of parent, or other adult legally responsible for their care. There shall be NO EXCEPTIONS to this policy. The dismissal of children from the school shall be governed by emergency procedures. However, this procedure does not preclude the exercise of professional judgment by an administrator when the circumstances of the situation indicate dismissal to be in the best interest of the child.

Public Agency Use of School Buildings for Emergency Shelters

Public agencies, such as the American Red Cross, may use school buildings, grounds, and equipment for mass care and welfare shelters during disasters or other emergencies affecting the public health and welfare. The District or County office shall cooperate with the public agency in furnishing and maintaining the services as the District or County Office may deem necessary to meet the needs of the community.

(C) School Suspension, Expulsion and Mandatory Expulsion Guidelines

Policy 5144.1: Suspension And Expulsion/Due Process

Suspension and Expulsion

The Governing Board recognizes that maintaining an environment which promotes learning and protects the health, safety, and welfare of all students may require the suspension or expulsion of a student from regular classroom instruction. District policies and school site rules shall clearly identify district behavior standards

(cf. 5144 - Discipline)

Except in cases where suspension for a first time offense is warranted in accordance with law, suspension shall be imposed only when other means of correction fail to bring about proper conduct. (Education Code 48900.5)

Expulsion is an action taken by the Board for severe or prolonged breaches of discipline by a student. Except for single acts of a grave nature, expulsion is usually used only when there is a history of misconduct, when other forms of discipline, including suspension, have failed to bring about proper conduct, or when the student's presence causes a continuing danger to other students. (Education Code 48915)

The grounds for suspension and expulsion and the procedures for considering, recommending and/or implementing suspension and expulsion shall be specified in Administrative Regulation.

Each principal shall annually inform all students and parents/guardians of the school's discipline rules and procedures and of the availability of all district policies and regulations dealing with student discipline, suspension and expulsion. (Education Code 35291, 35291.5)

(cf. 5145.6 - Parental Notifications)

Suspended or expelled students shall be excluded from all school-related extracurricular activities during the suspension or expulsion.

cf. 6145 - Extracurricular and Cocurricular Activities)

Zero Tolerance

The Board supports a zero tolerance approach to serious offenses in accordance with state and federal law. This approach makes the removal of potentially dangerous students from the classroom a top priority and ensures the standardized treatment of all students. Staff shall immediately report to the Superintendent/ designee any incidence of offenses specified in law, Board policy, and administrative regulation as cause for suspension or expulsion.

Student Due Process

The Board shall provide for the fair treatment of students facing suspension and expulsion by affording them their due process rights under the law. The administration and staff shall comply with procedures for notices and appeals as specified in regulation. Procedures governing student due process shall conform in all aspects to provisions in law. (Education Codes 48911, 48915 and 48915.5)

Whenever a student is suspended, school officials may (but are not required to) meet with the parent/guardian to discuss the causes and duration of the suspension, the school policy involved, and any other pertinent matters. (Education Code 48914)

cf. 5119 - Students Expelled from Other Districts

(cf. 5144.2 - Suspension and Expulsion/Due Process - Individuals with Exceptional Needs)

Rights of Complaining Witness

An expulsion hearing involving allegations of sexual assault or sexual battery may be postponed for one school day in order to accommodate the special physical, mental or emotional needs of a student who is the complaining witness. (Education Code 48918.5)

Whenever the Superintendent or designee recommends an expulsion hearing that addresses allegations of sexual assault or sexual battery, he/she shall give the complaining witness a copy of the district's suspension and expulsion policy and regulation and shall advise the witness of his/her right to: (Educational Code 48918.5)

1. Receive five days' notice of his/her scheduled testimony at the hearing
2. Have up to two adult support persons of his/her choosing present in the hearing at the time he/she testifies
3. Have a closed hearing during the time he/she testifies

Whenever any allegation of sexual assault or sexual battery is made, the Superintendent or designee shall immediately advise complaining witnesses and accused students to refrain from personal or telephone contact with each other during the time when an expulsion process is pending. (Education Code 48918.5)

On-Campus Suspension Program

The Board recognizes that students who are suspended from school frequently have no supervision or guidance during the school hours when they are off campus. The Board believes that in many cases, instead of sending the student off campus, it would be better to address the student's misconduct by keeping the student at school and providing him/her with supervision that is separated from the regular classroom.

The Superintendent or designee shall examine alternatives to off-campus suspension and may establish a suspension program which involves progressive discipline during the school day on campus; using conferences between staff, parents/guardians and students; detention; student study teams or other assessment-related teams; and/or referral to school support services staff.

Required Parental Attendance

The Board believes that parental involvement plays an important role in the resolution of classroom behavior problems. The Board expects that teachers will communicate with parents/guardians when behavior problems arise

Whenever a student is suspended from a class because he/she committed an obscene act, engaged in habitual profanity or vulgarity, disrupted school activities or otherwise willfully defied valid staff authority, the teacher of the class from which the student was suspended may require the student's parent/guardian to attend a portion of a school day in that class. After completing the classroom visit and before leaving school premises, the parent/guardian also shall meet with the principal or designee. (Education Code 48900.1)

The Board encourages teachers, before requiring parental attendance, to make reasonable efforts to have the parent/guardian visit the class voluntarily. The teacher also may consider informing the parent/guardian about available resources which may provide help in the development of parenting skills. Teachers should reserve the option of required parental attendance for cases in which they have determined that it is the best strategy to promote positive interaction between the student and the parent/guardian and to improve classroom behavior.

Parental attendance may be required on the day the student returns to class or within one week thereafter. The principal or designee shall contact any parents/guardians who do not respond to the request to attend school. The Board recognizes that parental compliance with this policy may be delayed, modified or prevented by serious illness/injury/disability, absence from town, or inability to get certain release time from work.

The teacher shall apply this policy uniformly to all students within the classroom. This policy shall apply only to a parent/guardian who actually lives with the student. (Education Code 48900.1)

District regulations and school-site rules for student discipline shall include procedures for implementing parental attendance requirements.

Parents/guardians shall be notified of this policy before it is implemented and at the beginning of each subsequent school year. (Education Code 48900.1, 35291, 48980)

Decision Not to Enforce Expulsion Order

In cases where expulsion is mandatory pursuant to Education Code 48915(c), the enforcement of an expulsion order shall not be suspended by the Board. In all other cases of expulsion, the order for expulsion may be suspended by the Board, on a case-by-case basis, pursuant to the requirements of law.

Suspension from Class by a Teacher/Parental Attendance

A teacher may suspend any student from the teacher's class for any of the acts listed under "Grounds for Suspension and Expulsion" above for the day of the suspension and the day following. (Education Code 48910)

Suspension from class means the removal of a student from class by a teacher for the day of the suspension and the next day. A teacher may suspend a student from class and may also refer a student for consideration of suspension from school for any act listed in "Grounds for Suspension and Expulsion" above. (Education Code 48910)

When suspending a student from his/her class, the teacher shall immediately report this action to the principal and send the student to the principal for appropriate action. The student shall be appropriately supervised during the class periods from which he/she has been suspended.

As soon as possible, the teacher shall ask the student's parent/guardian to attend a parent-teacher conference regarding the suspension. A counselor or psychologist should attend the conference if it is practicable, and a school administrator may attend if either the parent/guardian or teacher so request.

A suspended student shall not be returned to class during the period of suspension without the approval of the teacher of the class and the principal. (Education Code 48910)

A student suspended from class shall not be placed in another regular class during the period of suspension. However, if a student is assigned to more than one class per day, he/she may be placed in any other regular classes except those held at the same time as the class from which the student was suspended. (Education Code 48910)

The teacher of any class from which a student is suspended may require the suspended student to complete any assignments and tests missed during the suspension. (Education Code 48913)

When a teacher requires a parent/guardian to attend school in accordance with Board Policy, the principal shall send the parent/guardian a written notice that the parent/guardian's attendance is required pursuant to law. (Education Code 48900.1)

1. This notice shall also tell the parent/guardian when his/her presence is expected and by what means he/she may arrange any necessary change.
2. The notice shall describe the protections afforded to the parent/guardian as an employee by Labor Code 230.7.
3. The notice shall state that if the parent/guardian does not have a means of transportation to school, he/she may ride the school bus with the student.

The teacher shall remind the parent/guardian to meet with the principal or designee after completing the classroom visit and before leaving school premises.

Suspension By Superintendent, Principal Or Principal's Designee

A Superintendent, principal, or principal's designee may suspend a student from a school for any of the acts listed under "Grounds for Suspension and Expulsion" above for not more than five consecutive school days unless the suspension is extended pending expulsion. (Education Code 48911)

The Superintendent or designee shall immediately suspend any student found at school or at a school activity to be: (Education Code 48915)

1. Possessing, as verified by a district employee, or selling or otherwise furnishing a firearm, unless the student had obtained prior written permission to possess the item from a certificated school employee, with the principal or designee's concurrence.
2. Brandishing a knife, as defined in Education Code 48915(g), at another person.
3. Unlawfully selling a controlled substance listed in Health and Safety Code 11053-11058.
4. Committing or attempting to commit a sexual assault or committing a sexual battery as defined in item 414 under "Grounds for Suspension and Expulsion" above.
5. Possession of an explosive as defined in 18 USC 921.

Suspension may be imposed upon a first offense if the Superintendent, principal or designee determines the student violated items (i) - (v) listed in "Grounds For Suspension and Expulsion" above or if the student's presence causes a danger to persons or property or threatens to disrupt the instructional process. (Education Code 48900.5)

A student may be suspended from school for not more than 20 school days in any school year, unless for purposes of adjustment a student enrolls in or is transferred to another regular school, an opportunity school, or continuation school or class, in which case suspension shall not exceed 30 days in any school year. However, this restriction on the number of days of suspension does not apply when the suspension is extended pending an expulsion. (Education Code 48903 and 48912)

Suspension Procedures

1. Informal Conference: Suspension shall be preceded by an informal conference conducted by the principal or designee or the Superintendent or designee between the student, and whenever practicable, the teacher, supervisor or school employee who referred the student to the principal. At the conference, the student shall be informed of the reason for the disciplinary action and the evidence against him/her and shall be given the opportunity to present his/her version and evidence in support of his/her defense. (Education Code 48911(b))

This conference may be omitted if the principal, designee or the Superintendent or designee determines that an emergency situation exists. An "emergency situation" involves a clear and present danger to the lives, safety or health of students or school personnel. If the pre-suspension conference is not held, both the parent/guardian and student shall be notified of the student's right to return to school for the purpose of a conference. The conference shall be held within two school days, unless the student waives his/her right to it or is physically unable to attend for any reason. In such case, the conference will be held as soon as the student is physically able to return to school. (Education Code 48911(c))

2. Administrative Actions: All requests for student suspension are to be processed by the principal or designee of the school in which the student is enrolled at the time of the misbehavior

A school employee shall report the suspension, including the name of the student and the cause for the suspension, to the Superintendent or designee, who in turn will inform the Board.

3. Notice to Parents/Guardians: At the time of the suspension, a school employee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension. (Education Code 48911)

This notice shall state the specific offense committed by the student. (Education Code 48900.8)

In addition, the notice may also state the date and time when the student may return to school.

Should school officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may also add that state law requires the parent/guardian to respond to such request without delay.

4. Parent/Guardian Conference: Whenever a student is suspended, school officials may meet with the parent/guardian to discuss the causes and duration of the suspension, the school policy involved, and any other pertinent matters. (Education Code 48914)

While the parent/guardian is required to respond without delay to a request for a conference about a student's behavior, no penalties may be imposed on the student for the failure of the parent/guardian to attend such conference. The student may not be denied readmission solely because the parent/guardian failed to attend. (Education Code 48911)

5. Extension of Suspension: If the expulsion of a suspended student is being considered by the Board, the Superintendent or designee may, in writing, extend the suspension until such time as the Board has made a decision. (Education Code 48911(g))

Any extension of the original period of suspension shall be preceded by notice of such extension with an offer to hold a conference concerning the extension, giving the student an opportunity to be heard. This conference may be held in conjunction with a meeting requested by the student or parent/guardian to challenge the original suspension. Extension of the suspension may be made only if the Superintendent or designee determines, following a meeting in which the student and the student's parent/guardian were invited to participate, that the student's presence at the school or at an alternative school would endanger persons or property or threaten to disrupt the instructional process. (Education Code 48911(g))

Suspension by the Board

The Board may suspend a student for any of the acts listed in "Grounds for Suspension and Expulsion" above and within the limits specified in "Suspension by Superintendent, Principal or Principal's Designee" above. (Education Code 48912)

The Board may suspend a student enrolled in a continuation school or class for a period not longer than the remainder of the semester if any of the acts listed in "Grounds for Suspension and Expulsion" occurred. (cf. 9321 -Closed Session Purposes and Agendas)

The Board shall provide the student with written notice of the closed session by registered or certified mail. Upon receiving this notice the student may request a public meeting, and this request shall be granted if made in writing (within 48 hours after receipt of the Board's notice). However, any discussion that conflicts with any other student's right to privacy shall be in closed session. (Education Codes 48912)

The decision of the Board to expel must be supported by substantial evidence that the student committed any of the above acts listed under "Grounds for Suspension and Expulsion" above. Findings of fact shall be based solely on the evidence at the hearing.

In the hearing on the admissibility of this evidence, the complaining witness shall be entitled to be represented by a parent/guardian, legal counsel or other support person. (Education Code 48918(a))

Alternative Hearing: Hearing Officer or Administrative Panel

Instead of conducting an expulsion hearing itself, the Board may contract with the county hearing officer or with the Office of Administrative Hearings of the State of California for a hearing officer. Alternatively, the Board may appoint an impartial administrative panel composed of three or more certificated personnel, none of whom shall be members of the Board or on the staff of the school in which the student is enrolled. (Education Code 48918(d))

A hearing conducted by the hearing officer or administrative panel shall conform to the same procedures as apply to a hearing conducted by the Board as specified in "Conduct of Expulsion Hearing" above.

The hearing officer or administrative panel shall, within three school days after the hearing, determine whether to recommend expulsion of the student to the Board. If expulsion is not recommended, the student shall be immediately reinstated. (See "Reinstatement" below.) The Superintendent or designee shall place the student in a classroom instructional program, any other instructional program, a rehabilitation program, or any combination of these programs after consulting with district staff, including the student's teachers and with the student's parent/guardian. (Education Code 48918(e))

(Education Code 48918(f))

The hearing officer or administrative panel may recommend that the Board suspend the expulsion for a period of one year. (See "Suspension of Expulsion" below.)

The Board shall make its decision about the student's expulsion within 40 school days after the date of the student's removal from school unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

Stipulated Expulsions

It is the policy of the Redlands Unified School District that, where approved by the Superintendent or designee, parents/guardians may agree to the expulsion of their pupil by stipulation without necessity of a hearing. This process will expedite the pupil's school placement and may expedite the rehabilitation process.

A stipulated expulsion must be purely voluntary. No district administrator or staff member may coerce a pupil, parent or guardian into entering into such a stipulation. Parents/guardians will be given three calendar days to decide on a stipulated expulsion agreement.

If the parent/guardian requests a stipulated expulsion, the Superintendent or designee will promulgate the stipulated agreement. If at any time the parent/guardian decides not to pursue a stipulated agreement, the expulsion proceedings and timelines, extended by the length of the period for consideration of the stipulation, will be reinstated. The stipulated agreement will be presented to the Board for final consideration.

The stipulated agreement will include the terms and conditions of the expulsion order, including alternative placement and a rehabilitation plan to be completed before the student can be re-admitted to the district.

Final Action by the Board

Whether the expulsion hearing is conducted in closed or public session by the Board, a hearing officer, or an administrative panel, the final action to expel must be taken by the Board at a public meeting. (Education Code 489180)) The Board shall maintain a record of each expulsion, including its cause. Expulsion records shall be non- privileged, disclosable public records.

(cf. 9321.1 - Closed Session Actions and Reports)

If the Board conducts the hearing and reaches a decision not to expel, this decision shall be final and the student shall be reinstated immediately.

Upon ordering the expulsion, the Board shall set a date when the student shall be reviewed for readmission to a school within the district. For a student expelled for an act listed under "Mandatory Recommendation and Mandatory Expulsion" above, this date shall be one year from the date the expulsion occurred, except that the Board may set an earlier date on a case-by-case basis. For a student expelled for other acts, this date shall be no later than the last day of the semester following the semester in which the expulsion occurred. (Education Code 48916)

At the time of the expulsion order, the Board shall recommend a plan for the student's rehabilitation, which may include: (Education Code 48916)

1. Periodic review as well as assessment of the student at the time of review for readmission.
2. Recommendations for improved academic performance, tutoring, special education assessments, job training, counseling, employment, community service and other rehabilitative programs.
3. Such other recommendations as the Board approves.

With parental consent, students who have been expelled for reasons relating to controlled substances or alcohol may be required to enroll in a county-sponsored drug rehabilitation program before returning to school. (Education Code 48916.5)

Upon expulsion, a copy of readmission procedures will be made available to the student and his/her parent/guardian.

Written Notice to Expel

The Superintendent or designee shall send written notice of the decision to expel to the student or parent/guardian. The notice shall include the following:

1. The specific offense committed by the student for any of the causes for suspension or expulsion listed in Education Code 48900(a)-(o), Education Code 48900.2-48900.4 and Education Code 48915(c). (Education Code 48900.8)

2. The fact that a description of readmission procedures will be made available to the student and his/her parent/guardian. (Education Code 48916)

3. Notice of the right to appeal such expulsion to the County Board of Education. (Education Code 48918)

4. Notice of the alternative educational placement to be provided to the student during the time of expulsion. (Education Code 48918)

5. The notice also shall inform the student or parent/guardian of his/her obligation to inform any new district in which the student seeks to enroll of the student's status with the expelling district, pursuant to Education Code 48915.1. (Education Code 48918)

Suspension of Expulsion

The Board, upon voting to expel a student, may suspend the enforcement of the expulsion order for not more than one calendar year. When deciding whether to suspend an expulsion, the Board shall take into account the following criteria:

1. The student's previous behavior.
2. The seriousness of the misconduct.
3. The student's attitude toward the misconduct and his/her willingness to follow a rehabilitation program.

The suspension of the enforcement of an expulsion shall be governed by the following: (Education Code 48917)

1. The Board may, as a condition of the suspension of enforcement, assign the student to a school, class or program appropriate for the student's rehabilitation. This rehabilitation program may provide for the involvement of the student's parent/guardian in the student's education. However, a parent/guardian's refusal to participate in the rehabilitation program shall not be considered in the Board's determination as to whether the student has satisfactorily completed the rehabilitation program.
2. During the period when enforcement of the expulsion order is suspended, the student shall be on probationary status.
3. The suspension of expulsion order may be revoked by the Board if the student commits any of the acts listed under "Grounds for Suspension and Expulsion" above or violates any of the district's rules and regulations governing student conduct.
4. When suspension of expulsion order is revoked, a student may be expelled under the terms of the original expulsion order
5. Upon satisfactory completion of the rehabilitation assignment, the Board shall reinstate the student in a district school. Upon reinstatement, the Board may order the expungement of any or all records of the expulsion proceedings.
6. Suspension of an expulsion order shall not affect the time period and requirements for the filing of an appeal of the expulsion order with the County Board of Education.
7. The Superintendent or designee shall send written notice of any decision to suspend the enforcement of an expulsion order during a period of probation to the student or parent/guardian. The notice shall also inform the parent/guardian of the right to appeal the expulsion to the County Board of Education. (Education Code 48918(i))

Right to Appeal

The student or parent/guardian is entitled to file an appeal of the Board's decision to the County Board of Education.

The appeal must be filed within 30 days of the Board's decision to expel, even if the expulsion action is suspended and the student is placed on probation. (Education Code 48919)

Post-Expulsion Placements

The Board shall refer expelled students to a program of study that is: (Education Code 48915, 48915.01)

1. Appropriately prepared to accommodate students who exhibit discipline problems.
2. Not provided at a comprehensive middle, junior or senior high school or at any elementary school, unless the program is offered at a community day school established at such a site.
3. Not housed at the school site attended by the student at the time of suspension.

(cf. 6185 - Community Day School)

When the placement described above is not available, and when the County Superintendent of Schools so certifies, students expelled for acts described in items #6 through # 13 and # 17 through # 19 under "Grounds for Suspension and Expulsion" above may be instead referred to a program of study that is provided at another comprehensive middle, junior, or senior high school, or at an elementary school.

The program for a student expelled from any of grades K-6 shall not be combined or merged with programs offered to students in any of grades 7-12. (Education Code 48916.1)

The Superintendent or designee shall place the student in any classroom program, other instructional program, rehabilitation program, or any combination of such programs following consultation with district personnel, including the teacher involved, and with the student's parent/guardian. (Education Code 48918(e))

An expulsion order shall remain in effect until the Board may order the readmission of the student.

Readmission procedures shall be as follows:

1. A written request for review of expulsion action and request for readmission shall be submitted by the parent/guardian to the Superintendent or designee.
2. The Superintendent or designee will hold a conference with the parent/guardian and the student.
3. At the conference the conditions for readmission will be reviewed. The Superintendent or designee shall verify that the rehabilitation plan has been met.
4. School regulations will be reviewed and the student and parent/guardian will be asked to indicate in writing their willingness to comply with these regulations.
5. The Superintendent or designee will transmit the request for readmission to the Board, along with his/her recommendation. The Board shall consider the request in closed session if the information would be disclosed in violation of Education Code 49073-49079. If a written request for open session is received from the parent/guardian or adult student, it will be honored.
6. The Superintendent or designee will notify the student or parent/guardian, by registered mail, of the district's decision regarding readmission.
7. The Board may deny readmission only if it finds that the student has not satisfied the conditions of the rehabilitation plan or that the student continues to pose a danger to campus safety or to other district students or employees. (Education Code 48916)
8. If the Board denies the readmission of a student, the Board shall determine either to continue the student's placement in the alternative educational program initially selected or to place the student in another program that serves expelled students, including placement in a county community school. (Education Code 48916)

9. The Board shall provide written notice to the expelled student and parent/guardian describing the reasons for denying readmittance into the regular program. This notice shall indicate the Board's determination of the educational program which the Board has chosen. The student shall enroll in that program unless the parent/guardian chooses to enroll the student in another school district. (Education Code 48916)

Maintenance of Records

The Board will maintain a record of each expulsion, including the specific cause of the expulsion. A student in grades 4 through 12 is also subject to suspension or recommendation for expulsion when it is determined that he/she:
17. Committed sexual harassment as defined in Education Code 212.5. (Education Code 48900.2)
Pursuant to Education Code 48900.2 the conduct constitutes harassment when considered from the perspective of a reasonable person of the same gender as the victim to be sufficiently severe or pervasive as to have a negative impact upon the victim's academic performance or to create an intimidating, hostile or offensive educational environment.
(cf. 5145.7 - Sexual Harassment)
18. Caused, attempted to cause, threatened to cause, or participated in an act of hate violence as defined in Education Code 233. (Education Code 48900.3)
(cf. 5145.9 - Hate-Motivated Behavior)
Education Code 233 defines "hate violence" as any act punishable under Penal Code 422.6, 442.7 or 422.75. Such acts include injuring or intimidating another person, interfering with the exercise of a person's civil rights, or damaging a person's property because of the person's race, color, religion, ancestry, national origin, disability, gender or sexual orientation.

19. Intentionally harassed, threatened or intimidated a student or group of students to the extent of having the actual and reasonably expected effect of materially disrupting class work, creating substantial disorder, and invading student rights by creating an intimidating or hostile educational environment. (Education Code 48900.4)
(cf. 5145.3 - Nondiscrimination/Harassment)

A student may be suspended or expelled for any of the acts listed above if the act is related to school activity or school attendance occurring at any district school under the jurisdiction of the Superintendent or principal or within any other school district, including but not limited to the following circumstances: (Education Code 48900)

1. While on school grounds.
2. While going to or coming from school.
3. During the lunch period, whether on or off the school campus.
4. During, going to, or coming from a school-sponsored activity.

The Superintendent or principal may use his/her discretion to provide alternative to suspension or expulsion for a student subject to discipline under this administrative regulation, including, but not limited to, counseling and an anger management program.
(Education Code 48900(r))

Alternatives to suspension or expulsion will be used with students who are truant, tardy, or otherwise absent from assigned school activities.

(cf. 5113 - Absences and Excuses)
(cf. 5113.1 - Truancy)

Removal from Class by a Teacher/Parental Attendance

A teacher may suspend any student from his/her class for the remainder of the day and the following day for any act listed in "Grounds for Suspension and Expulsion" above. (Education Code 48910)

A teacher also may refer a student to the principal or designee for consideration of suspension from school. (Education Code 48910)

When removing a student from his/her class, the teacher shall immediately report this action to the principal and send the student to the principal for appropriate action. The student shall be appropriately supervised during the class periods from which he/she has been removed.

As soon as possible, the teacher shall ask the student's parent/guardian to attend a parent-teacher conference regarding the removal. A counselor or psychologist should attend the conference if it is practicable, and a school administrator may attend if either the parent/guardian or teacher so requests.

A student removed from class shall not be returned to class during the period of removal without the approval of the teacher of the class and the principal. (Education Code 48910)

A student removed from class shall not be placed in another regular class during the period of removal. However, if a student is assigned to more than one class per day, he/she may be placed in any other regular classes except those held at the same time as the class from which the student was removed. (Education Code 48910)

The teacher of any class from which a student is removed may require the student to complete any assignments and tests missed during the removal. (Education Code 48913)

Pursuant to Board policy, a teacher may provide that the parent/guardian of a student whom the teacher has removed attend a portion of a school day in his/her child's classroom. When a teacher makes this request, the principal shall send the parent/guardian a written notice that the parent/guardian's attendance is requested pursuant to law. (Education Code 48900.1)

This notice shall also:

1. Inform the parent/guardian when his/her presence is expected and by what means he/she may arrange an alternate date.
2. Describe the legal protections afforded to the parent/guardian as an employee under Labor Code 230.7.
3. State that if the parent/guardian does not have a means of transportation to school, he/she may ride the school bus with the student.

4. Ask the parent/guardian to meet with the principal after the visit and before leaving school, as required by Education Code 48900.1.

Suspension by Superintendent, Principal or Principal's Designee

The Superintendent, principal or principal's designee may suspend a student from a school for not more than five consecutive school days unless the suspension is extended pending expulsion. (Education Code 48911)

The Superintendent or designee shall immediately suspend any student found at school or at a school activity to be: (Education Code 48915)

1. Possessing, as verified by a district employee, or selling or otherwise furnishing a firearm, unless the student had obtained prior written permission to possess the item from a certificated school employee, with the principal or designee's concurrence.
2. Brandishing a knife, as defined in Education Code 48915(g), at another person.
3. Unlawfully selling a controlled substance listed in Health and Safety Code 11053-11058.
4. Committing or attempting to commit a sexual assault or committing a sexual battery as defined in item #14 under "Grounds for Suspension and Expulsion".
5. Possession of an explosive as defined in 18 USC 921.

Suspension also may be imposed upon a first offense if the Superintendent, principal or designee determines the student violated items #1-5 listed in "Grounds for Suspension and Expulsion" above or if the student's presence causes a danger to persons or property or threatens to disrupt the instructional process. (Education Code 48900.5)

A student may be suspended from school for not more than 20 school days in any school year, unless for purposes of adjustment a student enrolls in or is transferred to another regular school, an opportunity school, or continuation school or class, in which case suspension shall not exceed 30 days in any school year. However, this restriction on the number of days of suspension does not apply when the suspension is extended pending an expulsion. (Education Code 48903, 48912)

The Superintendent or designee may count suspensions that occur while a student is enrolled in another school district toward the maximum number of days for which a student may be suspended in any school year. (Education Code 48903)

Suspensions shall be initiated according to the following procedures:

1. Informal Conference: Suspension shall be preceded by an informal conference conducted by the principal, designee or the Superintendent with the student and whenever practicable, the teacher, supervisor or school employee who referred the student to the principal. At the conference, the student shall be informed of the reason for the disciplinary action and the evidence against him/her; the student shall be given the opportunity to present his/her version and evidence in support of his/her defense. (Education Code 48911(b))

This conference may be omitted if the principal, designee or the Superintendent determines that an emergency situation exists. An "emergency situation" involves a clear and present danger to the lives, safety or health of students or school personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student's right to return to school for the purpose of a conference. The conference shall be held within two school days, unless the student waives his/her right to it or is physically unable to attend for any reason. In such case, the conference will be held as soon as the student is physically able to return to school. (Education Code 48911(c))

2. Administrative Actions: All requests for student suspension are to be processed by the principal or designee of the school in which the student is enrolled at the time of the misbehavior. A school employee shall report the suspension, including the name of the student and the cause for the suspension, to the Superintendent or designee.

3. Notice to Parents/Guardians: At the time of the suspension, a school employee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension. (Education Code 48911)

This notice shall state the specific offense committed by the student. (Education Code 48900.8).

In addition, the notice may also state the date and time when the student may return to school. If school officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may add that state law requires the parent/guardian to respond to such requests without delay.

4. Parent/Guardian Conference: Whenever a student is suspended, school officials may meet with the parent/guardian to discuss the causes and duration of the suspension, the school policy involved, and any other pertinent matters. (Education Code 48914)

While the parent/guardian is required to respond without delay to a request for a conference about a student's behavior, no penalties may be imposed on the student for the failure of the parent/guardian to attend such conference. The student may not be denied readmission solely because the parent/guardian failed to attend. (Education Code 48911)

5. Extension of Suspension: If the Board is considering the expulsion of a suspended student from any school or the suspension of a student for the balance of the semester from continuation school, the Superintendent or designee may, in writing, extend the suspension until such time as the Board has made a decision. (Education Code 48911(g))

Any extension of the original period of suspension shall be preceded by notice of such extension with an offer to hold a conference concerning the extension, giving the student an opportunity to be heard. This conference may be held in conjunction with a meeting requested by the student or parent/guardian to challenge the original suspension. Extension of the suspension may be made only if the Superintendent or designee determines, following a meeting in which the student and the student's parent/guardian were invited to participate, that the student's presence at the school or at an alternative school would endanger persons or property or threaten to disrupt the instructional process. (Education Code 48911)

Suspension by the Board

The Board may suspend a student for any of the acts listed in "Grounds for Suspension and Expulsion" above and within the limits specified in "Suspension by Superintendent, Principal or Principal's Designee" above. (Education Code 48912)

The Board may suspend a student enrolled in a continuation school or class for a period not longer than the remainder of the semester if any of the acts listed in "Grounds for Suspension and Expulsion" occurred. The suspension shall meet the requirements of Education Code 48915. (Education Code 48912.5)

When the Board is considering a suspension, disciplinary action, or any other action (except expulsion) against any student, it shall hold closed sessions if a public hearing would lead to disclosure of information violating a student's right privacy under Education Code 49073-49079.

(cf. 9321 - Closed Session Purposes and Agendas)

The Board shall provide the student and his/her parent/guardian with written notice of the closed session by or certified mail. Upon receiving this notice, the student or parent/guardian may request a public meeting, and this request shall be granted if made in writing within 48 hours after receipt of the Board's notice. However, any discussion that conflicts with any other student's right to privacy still shall be held in closed session. (Education Codes 35146, 48912)

On-Campus Suspension Program

Students for whom an expulsion action has not been initiated and who pose no imminent danger or threat to the school may be assigned to a separate, supervised suspension classroom for the entire period of suspension. The following conditions shall apply: (Education Code 48911.1)

1. The supervised suspension classroom shall be staffed in accordance with law.
2. The student shall have access to appropriate counseling services.
3. The supervised suspension classroom shall promote completion of schoolwork and tests missed by the student during the suspension.
4. Each student shall be responsible for contacting his/her teacher(s) to receive assignments to be completed in the supervised suspension classroom. The teacher shall provide all assignments and tests that the student will miss while suspended. If no such work is assigned, the person supervising the suspension classroom shall assign schoolwork.

At the time a student is assigned to a supervised suspension classroom, the principal or designee shall notify the student's parent/guardian in person or by telephone. When the assignment is for longer than one class period, this notification shall be made in writing. (Education Code 48911.1)

Authority to Expel

A student may be expelled only by the Board. The Board shall expel, as required by law, any student found to have committed certain offenses listed below under “Mandatory Recommendation and Mandatory Expulsion.”

The Board also may order a student expelled for any of the acts listed under “Grounds for Suspension and Expulsion” upon recommendation by the principal, Superintendent, hearing officer or administrative panel, based on finding either or both of the following: (Education Code 48915 (b) and (e))

1. That other means of correction are not feasible or have repeatedly failed to bring about proper conduct.
2. That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others.

Mandatory Recommendation for Expulsion

Unless the principal, Superintendent or designee finds that expulsion is inappropriate due to particular circumstances, the principal, Superintendent or designee shall recommend a student’s expulsion for any of the following acts: (Education Code 48915 (a))

1. Causing serious physical injury to another person, except in self-defense.
2. Possession of any knife as defined in Education Code 48915(g), explosive or other dangerous object of no reasonable use to the student.
3. Unlawful possession of any controlled substance, as listed in the Health and Safety Code 11053-11058, except for the first offense for the possession of not more than one ounce of marijuana, other than concentrated cannabis.
4. Robbery or extortion.
5. Assault or battery, as defined in Penal Code 240 and 242, upon any school employee.

Mandatory Recommendation and Mandatory Expulsion

Note: The Attorney General has determined, in 80 Ops.Cal. Atty. Gen. 347 (1997), that a district may not adopt a zero tolerance policy mandating expulsion of a student for a first offense of possession of a controlled substance or alcohol.

The principal, Superintendent or designee shall recommend that the Board expel any student found at school or at a school activity to be: (Education Code 48915(c))

1. Possessing, as verified by a district employee, or selling or otherwise furnishing a firearm, unless the student had obtained prior written permission to possess the item from a certificated school employee, with the principal or designee’s concurrence.
2. Brandishing a knife as defined in Education Code 48915(g) at another person.
3. Unlawfully selling a controlled substance listed in Health and Safety Code 11053-11058
4. Committing or attempting to commit a sexual assault or committing a sexual battery as defined in item #14 under “Grounds for Suspension and Expulsion” above.
5. Possessing an explosive as defined in 18 USC 921.

Upon finding that the student committed any of the above acts, the Board shall expel the student. (Education Code 48915)

The initial recommendation for consideration of expulsion is that of the school principal or the Superintendent. Designees may not make this type of recommendation.

The recommendation for consideration of expulsion shall be submitted to the Director, Office of Student Services, who will review the material and recommend:

1. Reassignment to appropriate regular education program.
2. Refer student to Alternative Program; i.e., Community School, Independent Study, Continuation or Opportunity School, or other district programs.
3. Refer the matter to the Discipline Review Panel for further consideration.

When a case is referred to the discipline Review Panel, the panel shall question school personnel who have information on the incident and the behavior record of the student charged and weighs the evidence presented.

The panel shall, in the case of an expulsion consideration, weigh information presented to determine:

- a. Is the evidence sufficient to support consideration by the expulsion panel?

- b. Has the district, through the schools involved, considered or utilized alternatives to expulsion when possible?
- c. Have due process procedures been adhered to?

The recommendation shall be either to proceed with the expulsion or to utilize an existing practical alternative in lieu of expulsion.

If the district (school) has not adhered to due process requirements, the student shall be returned to school immediately.

If the Discipline Review Panel meets to consider a matter other than an expulsion, it shall provide its best judgment as to an effective alternative program or plan to action.

The recommendation of the Discipline Review Panel shall be forwarded to the Director, Office of Student Services, who shall then review the facts, concur, veto or modify the recommendation.

4. That an expulsion panel be convened.

At the time a recommendation for expulsion is submitted, a hearing shall be scheduled by the Superintendent or designee to determine whether the suspension shall be extended. If the decision is to extend the suspension, the period of time shall be until the Board has rendered a decision or until the expulsion process is otherwise terminated.

The extension of suspension shall be based upon determination by the Superintendent or designee that the presence of the student at the school or in an alternative school placement would cause a danger to persons or property or a threat of disrupting the instructional process. This extension shall be imposed only after the student and the parent/guardian have been given the opportunity to be present at a hearing conducted by the Superintendent or designee. At this time, the student and parent/guardian shall be given the opportunity to be heard and present any information that might bear upon the decision.

Materials which support the decision of the person recommending the expulsion shall be prepared and submitted to the Office of Student Services. The departments of Attendance, Guidance, Special Education and/or Health may be requested to assist in the preparation of this material.

Student's Right to Expulsion Hearing

The student is entitled to a hearing to determine whether the student should be expelled. The hearing shall be held within 30 school days after the principal or Superintendent or designee determines that one of the acts listed under "Grounds for Suspension and Expulsion" has occurred. (Education Code 48918 (a))

The student is entitled to one postponement of an expulsion hearing for a period of not more than 30 calendar days. The request for postponement shall be in writing. Any subsequent postponement may be granted at the Board's discretion. (Education Code 48918(a))

If the Board finds it impractical during the school year to comply with these time requirements for conducting an expulsion hearing, the Superintendent or designee may, for good cause, extend the time period by an additional five school days. Reasons for the extension shall be included as a part of the record when the expulsion hearing is held. (Education Code 48918(a))

If the Board finds it impractical to comply with the time requirements of the expulsion hearing due to summer recess of Board meetings of more than two weeks, the days during the recess shall not be counted as school days. The days not counted during the recess may not exceed 20 school days as defined in Education Code 48925. Unless the student requests in writing that the expulsion hearing be postponed, the hearing shall be held no later than 20 calendar days prior to the first day of the next school year. (Education Code 48918(a))

Once the hearing starts, all matters shall be pursued with reasonable diligence and concluded without unnecessary delay. (Education Code 48918(a))

Waiver of Hearing (Default Proceedings)

If the parent/guardian agrees that their son/daughter behaved essentially in the manner stated in the principals letter recommending expulsion and that such behavior constitutes a violation of the California Education Code, Section 48900, 48900.2, 48900.3, 48900.4, 48900.7 and/or 48915 a suspendable/expellable offense, the parent/guardian may request to waive the Administrative Hearing Panel.

When the parent/guardian agrees to waive the Administrative Hearing Panel, they also waive all notification and timelines related to the expulsion hearing process, along with their rights to appeal the determination of the Board.

The signed affidavit and findings of fact will be submitted to the Board for their approval. The Board has the discretionary power to accept, reject, or modify all recommendations.

Rights of Complaining Witness

An expulsion hearing involving allegations of sexual assault or sexual battery may be postponed for one school day in order to accommodate the special physical, mental or emotional needs of a student who is the complaining witness. (Education Code 48918.5)

Whenever the Superintendent or designee recommends an expulsion hearing that addresses allegations of sexual assault or sexual battery, he/she shall give the complaining witness a copy of the district's suspension and expulsion policy and regulation and shall advise the witness of his/her right to all the following: (Education Code 48918.5)

1. Receive five days' notice of his/her scheduled testimony at the hearing.
2. Have up to two adult support persons of his/her choosing present in the hearing at the time he/she testifies.
3. Have a closed hearing during the time he/she testifies.

Whenever any allegation of sexual assault or sexual battery is made, the Superintendent or designee shall immediately advise complaining witnesses and accused students to refrain from personal or telephone contact with each other during the time when an expulsion process is pending. (Education Code 48918.5)

Written Notice of the Expulsion Hearing (Education Code 48918(b))

Written notice of the hearing shall be forwarded to the student and the student's parent/guardian at least 10 calendar days before the date of the hearing. The notice shall include: (Education Code 48900.8, 48918 (b))

1. The date and place of the hearing.
2. A statement of the specific facts, charges and offense upon which the proposed expulsion is based.
3. A copy of district disciplinary rules which relate to the alleged violation.
4. Notification of the student's or parent/guardian's obligation, pursuant to Education Code 48915.1, to provide information about the student's status in the district to any other district in which the student seeks enrollment. This obligation applies when a student is expelled for acts other than those described in Education Code 48915 (a) or (c).
(cf. 5119 - Students Expelled from other Districts)

5. The opportunity for the student or the student's parent/guardian to appear in person and/or be represented by legal counsel or by a non-attorney advisor.

Legal counsel means an attorney or lawyer who is admitted to the practice of law in California and is an active member of the State Bar of California.

Non-attorney advisor means an individual who is not an attorney or lawyer, but who is familiar with the facts of the case, and has been selected by the student or student's parent/guardian to provide assistance at the hearing.

6. The right to inspect and obtain copies of all documents to be used at the hearing.
7. The opportunity to confront and question all witnesses who testify at the hearing.
8. The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf, including witnesses.

Conduct of Expulsion Hearing

1. Closed Session: Notwithstanding the provisions of Government Code 54953 and Education Code 35145, the Board shall conduct a hearing to consider the expulsion of the student in a session closed to the public unless the student requests in writing at least five days prior to the hearing that the hearing be a public meeting. If such request is made, the meeting shall be public, unless another student's privacy rights would be violated.

Whether the expulsion hearing is held in closed or public session, the Board may meet in closed session to determine if the student should be expelled. If the Board admits any other person to the closed session, the parent/guardian, the student, and the counsel of the student, shall also be allowed to attend the closed session. (Education Code 48918(c))

If a hearing that involves a charge of sexual assault or sexual battery is to be conducted in public, a complaining witness shall have the right to have his/her testimony heard in closed session when testifying in public would threaten serious psychological harm to the witness and when there are no alternative procedures to avoid the threatened harm, including but not limited to videotaped deposition or contemporaneous examination in another place communicated to the hearing room by closed-circuit television. (Education Code 48918(c))

2. Record of Hearing: A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate written and complete transcription of the proceedings can be made. (Education Code 48918(g))

3. Subpoenas: Before commencing a student expulsion hearing, the Board may issue subpoenas, at the request of either the student or the Superintendent or designee, for the personal appearance at the hearing of any person who actually witnessed the action that gave rise to the recommendation for expulsion. After the hearing has commenced, the Board or the hearing officer or administrative panel may issue such subpoenas at the request of the student or the County Superintendent of Schools or designee. All subpoenas shall be issued in accordance with the Code of Civil Procedure 1985-1985.2 and enforced in accordance with Government Code 11455.20, formerly 11525. (Education Code 48918(i))

Any objection raised by the student or the Superintendent or designee to the issuance of subpoenas may be considered by the Board in closed session, or in open session if so requested by the student, before the meeting. The Board's decision in response to such an objection shall be final and binding. (Education Code 48918(i))

If the Board determines, or if the hearing officer or administrative panel finds and submits to the Board, that a witness would be subject to unreasonable risk of harm by testifying at the hearing, a subpoena shall not be issued to compel the personal attendance of that witness at the hearing. However, that witness may be compelled to testify by means of a sworn declaration as described in item #4 below. (Education Code 48918(i))

4. Presentation of Evidence: While technical rules of evidence do not apply to expulsion hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. The decision of the Board to expel must be supported by substantial evidence that the student committed any of the acts listed in "Grounds for Suspension and Expulsion" above.

Findings of fact shall be based solely on the evidence at the hearing. While no evidence shall be based solely on hearsay, sworn declarations may be admitted as testimony from witnesses whose disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm. (Education Code 48918 (f) and (h))

In cases where a search of a student's person or property has occurred, evidence describing the reasonableness of the search shall be included in the hearing record.

5. Testimony by Complaining Witnesses: The following procedures shall be observed when hearings involve allegations of sexual assault or sexual battery by a student: (Education Code 48918)

- a. Any complaining witness shall be given five days' notice before being called to testify.
- b. Any complaining witness shall be entitled to have up to two adult support persons, including but not limited to a parent/guardian or legal counsel, present during his/her testimony.
- c. Before a complaining witness testifies, support persons shall be admonished that the hearing is confidential.
- d. The person presiding over the hearing may remove a support person whom he/she finds is disrupting the hearing.
- e. If one or both support persons are also witnesses, the hearing shall be conducted according to Penal Code 868.5.

f. Evidence of specific instances of prior sexual conduct of a complaining witness shall be presumed inadmissible and shall not be heard unless the person conducting the hearing determines that extraordinary circumstances require the evidence to be heard. Before such a determination is made, the complaining witness shall be given notice and an opportunity to oppose the introduction of this evidence. In the hearing on the admissibility of this evidence, the complaining witness shall be entitled to be represented by a parent/guardian, legal counsel or other support person. Reputation or opinion evidence regarding the sexual behavior of a complaining witness shall not be admissible for any purpose.

g. In order to facilitate a free and accurate statement of the experiences of the complaining witness and to prevent discouragement of complaints, the district shall provide a nonthreatening environment.

(1) The district shall provide a room separate from the hearing room for the use of the complaining witness before and during breaks in testimony.

(2) At the discretion of the person conducting the hearing, the complaining witness shall be allowed reasonable periods of relief from examination and cross-examination during which he/she may leave the hearing room.

(3) The person conducting the hearing may:

(a) Arrange the seating within the hearing room so as to facilitate a less intimidating environment for the complaining witness.

(b) Limit the time for taking the testimony of a complaining witness to the hours he/she is normally in school, if there is no good cause to take the testimony during other hours.

(c) Permit one of the support persons to accompany the complaining witness to the witness stand.

6. Decision Within 10 Days: The Board's decision on whether to expel a student shall be made within 10 school days after the conclusion of the hearing, unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

7. Decision Within 40 Days: If the Board does not meet on a weekly basis, its decision on whether to expel a student shall be made within 40 school days after the student is removed from his/her school of attendance, unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

Alternative Expulsion Hearing: Hearing Officer or Administrative Panel

Instead of conducting an expulsion hearing itself, the Board may contract with the county hearing officer or with the Office of Administrative Hearings of the State of California for a hearing officer. Alternatively, the Board may appoint an impartial administrative panel composed of three or more certificated personnel, none of whom shall be members of the Board or on the staff of the school in which the student is enrolled. (Education Code 48918(d))

A hearing conducted by the hearing officer or administrative panel shall conform to the same procedures as apply to a hearing conducted by the Board as specified in "Conduct of Expulsion Hearing."

The hearing officer or administrative panel shall, within three school days after the hearing, determine whether to recommend expulsion of the student to the Board. If expulsion is not recommended, the student shall be immediately reinstated. (See "Reinstatement.") The Superintendent or designee shall place the student in a classroom instructional program, any other instructional program, a rehabilitation program, or any combination of these programs after consulting with district staff, including the student's teachers, and with the student's parent/guardian. (Education Code 48918(e))

If expulsion is recommended, findings of fact in support of the recommendation shall be prepared and submitted to the Board. All findings of fact and recommendations shall be based solely on the evidence presented at the hearing. The Board may accept the recommendation based either upon a review of the findings of fact and recommendations submitted or upon the results of any supplementary hearing the Board may order. (Education Code 48918(f))

In accordance with Board policy, the hearing officer or administrative panel may recommend that the Board suspend the enforcement of the expulsion for a period of one year. (See "Decision Not to Enforce Expulsion Order" below.)

The Board shall make its decision about the student's expulsion within 40 school days after the date of the student's removal from school unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

The Discipline Review Panel

The Discipline Review Panel will consist of elementary educators when a review is being made of an elementary student and of secondary educators when a review is being made of secondary student.

1. The Discipline Review Panel shall hear the following types of disciplinary cases:

a. Requests for expulsion from site principals or the Superintendent.

b. School site administrative requests for assistance (non-expulsion situations).

2. Each discipline review panel shall consist of three certificated persons plus a chairperson and shall consist of elementary educators when a review is being made of an elementary student and of secondary educators when a review is being made of a secondary student. A panelist may not serve on any panel involving a student who is currently attending the school in which he/she is assigned. A representative from Student Services shall be a nonvoting member of each panel.

A chairperson and assistant chairperson, to serve when the chairperson is unable to serve, shall be appointed by the Superintendent or designee and shall serve at his/her pleasure. Neither shall be a member of the Student Services staff.

A pool of panelists shall be established which shall be composed of personnel who have served or are currently serving as members of administrative expulsion panels. The committee chairman shall select members to serve on individual panels.

The meetings of the discipline review panel are open to school district personnel only.

The duties of the Discipline Review Panel are as follows:

1. The chairperson shall call a meeting of the panel as soon as possible, but no later than 10 school days after the receipt of notice of a pending case.
2. A recommendation must be forwarded to the Director, Office of Student Services, within three days of the review hearing.
3. In the event a member of the committee cannot be present at a meeting, the Director, Office of Student Services, will appoint an alternate from the pool to attend.

Final Action by the Board

Whether the expulsion hearing is conducted in closed or public session by the Board, a hearing officer, or an administrative panel, the final action to expel shall be taken by the Board at a public meeting. (Education Code 48918(j))

(cf. 9321.1 - Closed Session Actions and Reports)

If the Board conducts the hearing and reaches a decision not to expel, this decision shall be final and the student shall be reinstated immediately.

Upon ordering an expulsion, the Board shall set a date when the student shall be reviewed for readmission to a school within the district. For a student expelled for an act listed under "Mandatory Recommendation and Mandatory Expulsion" above, this date shall be one year from the date the expulsion occurred, except that the Board may set an earlier date on a case-by-case basis. For a student expelled for other acts, this date shall be no later than the last day of the semester following the semester in which the expulsion occurred. (Education Code 48916)

At the time of the expulsion order, the Board shall recommend a plan for the student's rehabilitation, which may include: (Education Code 48916)

1. Periodic review as well as assessment of the student at the time of review for readmission.
2. Recommendations for improved academic performance, tutoring, special education assessments, job training, counseling, employment, community service and other rehabilitative programs.

With parental consent, students who have been expelled for reasons relating to controlled substances or alcohol may be required to enroll in a county-sponsored drug rehabilitation program before returning to school. (Education Code 48916.5)

Written Notice to Expel

The Superintendent or designee shall send written notice of the decision to expel the student or parent/guardian. This notice shall include the following:

1. The specific offense committed by the student for any of the causes for suspension or expulsion listed in Education Code 48900 (a)-(o), Education Code 48900.2-48900.4, Education Code 48915 (c) and (Education Code 48900.8).
2. The fact that a description of readmission procedures will be made available to the student and his/her parent/guardian. (Education Code 48916)
3. Notice of the right to appeal the expulsion to the County Governing Board. (Education Code 48918)
4. Notice of the alternative educational placements to be provided to the student during the time of expulsion. (Education Code 48918)

5. Notice of the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with the expelling district, pursuant to Education Code 48915.1 (Education Code 48918).

Decision Not to Enforce Expulsion Order

In accordance with Board policy, when deciding whether to suspend the enforcement of an expulsion, the Board shall take into account the following criteria:

1. The student's pattern of behavior.
2. The seriousness of the misconduct.
3. The student's attitude toward the misconduct and his/her willingness to follow a rehabilitation program.

The suspension of the enforcement of an expulsion shall be governed by the following: (Education Code 48917)

1. The Board may, as a condition of the suspension of enforcement, assign the student to a school, class or program appropriate for the student's rehabilitation. This rehabilitation program may provide for the involvement of the student's parent/guardian in the student's education. However, a parent/guardian's refusal to participate in the rehabilitation program shall not be considered in the Board's determination as to whether the student has satisfactorily completed the rehabilitation program.
2. During the period when enforcement of the expulsion order is suspended, the student shall be on probationary status.
3. The suspension of the enforcement of an expulsion order may be revoked by the Board if the student commits any of the acts listed under "Grounds for Suspension and Expulsion" above or violates any of the district's rules and regulations governing student conduct.
4. When the suspension of the enforcement of an expulsion order is revoked, a student may be expelled under the terms of the original expulsion order.
5. Upon satisfactory completion of the rehabilitation assignment, the Board shall reinstate the student in a district school. Upon reinstatement, the Board may order the expunging of any or all records of the expulsion proceedings.
6. Suspension of the enforcement of an expulsion order shall not affect the time period and requirements for the filing of an appeal of the expulsion order with County Board of Education.
7. The Superintendent or designee shall send written notice of any decision to suspend the enforcement of an expulsion order during a period of probation to the student or parent/guardian. The notice shall also inform the parent/guardian of the right to appeal the expulsion to the County Board of Education. (Education Code 48918 (j))

Right to Appeal

The student or parent/guardian is entitled to file an appeal of the Board's decision to the County Board of Education. The appeal must be filed within 30 days of the Board's decision to expel, even if the expulsion action is suspended and the student is placed on probation. (Education Code 48919)

Post-Expulsion Placements

The Board shall refer expelled students to a program of study that is: (Education Code 48915, 48915.01)

1. Appropriately prepared to accommodate students who exhibit discipline problems.
2. Not provided at a comprehensive middle, junior or senior high school or at any elementary school, unless the program is offered at a community day school established at such a site.
3. Not housed at the school site attended by the student at the time of suspension.

(cf. 6185 - Community Day School)

When the placement described above is not available, and when the County Superintendent of Schools so certifies, students expelled for acts described in items #6 through #13 and #17 through #19 under "Grounds for Suspension and Expulsion" may be instead referred to a program of study that is provided at another comprehensive middle, junior, or senior high school, or at an elementary school. (Education Code 48915)

The program for a student expelled from any of grades K-6 shall not be combined or merged with programs offered to students in any of grades 7-12. (Education Code 48916.1)

Readmission After Expulsion

Readmission procedures shall be as follows:

1. On the date set by the Board when it ordered the expulsion, the district shall consider readmission of the student. (Education Code 48916)

2. The Superintendent or designee shall hold a conference with the parent/guardian and the student. At the conference the student's rehabilitation plan shall be reviewed and the Superintendent or designee shall verify that the provisions of this plan have been met. School regulations shall be reviewed and the student and parent/guardian shall be asked to indicate in writing their willingness to comply with these regulations.
3. The Superintendent or designee shall transmit to the Board his/her recommendation regarding readmission. The Board shall consider this recommendation in closed session if information would be disclosed in violation of Education Code 49073-49079. If a written request for open session is received from the parent/guardian or adult student, it shall be honored.
4. If the readmission is granted, the Superintendent or designee shall notify the student and parent/guardian, by registered mail, of the Board's decision regarding readmission.
5. The Board may deny readmission only if it finds that the student has not satisfied the conditions of the rehabilitation plan or that the student continues to pose a danger to campus safety or to other district students or employees. (Education Code 48916)
6. If the Board denies the readmission of a student, the Board shall determine either to continue the student's placement in the alternative educational program initially selected or to place the student in another program that serves expelled students, including placement in a county community school. (Education Code 48916)
7. The Board shall provide written notice to the expelled student and parent/guardian describing the reasons for denying readmittance into the regular program. This notice shall indicate the Board's determination of the educational program which the Board has chosen. The student shall enroll in that program unless the parent/guardian chooses to enroll the student in another school district. (Education Code 48916)

Maintenance of Records

The Board shall maintain a record of each expulsion, including the specific cause of the expulsion. The expulsion record shall be maintained in the student's mandatory interim record and sent to any school in which the student subsequently enrolls, within five days of a written request by the admitting school. (Education Code 48900.8, 48918(k))

The Superintendent or designee shall, within five working days, honor any other district's request for information about an expulsion from this district. (Education Code 48915.1)

(cf. 5119 - Students Expelled from Other Districts)

(cf. 5125 - Student Records)

Notifications to Law Enforcement Authorities

Prior to the suspension or expulsion of any student, the principal or designee shall notify appropriate city or county law enforcement authorities of any student acts of assault which may have violated Penal Code 245. (Education Code 48902)

The principal or designee also shall notify appropriate city or county law enforcement authorities of any student acts which may involve the possession or sale of narcotics or of a controlled substance or possession of weapons or firearms in violation of Penal Code 626.9 and 626.10. (Education Code 48902)

Within one school day after a student's suspension or expulsion, the principal or designee shall notify appropriate city or county law enforcement authorities, by telephone or other appropriate means, of any student acts which may violate Education Code 48900(c) or (d), relating to the possession, use, offering or sale of controlled substances, alcohol, or intoxicants of any kind. (Education Code 48902)

Ouome Data

The Superintendent or designee shall maintain the following data and report such data annually to the California Department of Education, using forms supplied by the California Department of Education: (Education Code 48900.8, 48916.1)

1. The number of students recommended for expulsion.
2. The grounds for each recommended expulsion.
3. Whether the student was subsequently expelled.
4. Whether the expulsion order was suspended.
5. The type of referral made after the expulsion.
6. The disposition of the student after the end of the expulsion period.

(D) Procedures to Notify Teachers of Dangerous Pupils (EC 49079)

Whenever a student is identified as violent or dangerous per E.C. 49079 the teacher will be informed by the principal. The teacher shall keep this information in confidence and must not further disseminate it. However, if the teacher believes that the student is improperly placed (or is an immediate danger) these opinions (and related observations) should be shared with the principal immediately. The District office also has a responsibility to insure that all appropriate actions are taken to identify, notify and support necessary interventions with regard to violent or dangerous pupils. Student Services Department notifies Principals at the beginning of each school year of students who were suspended in the prior year. Principals, in turn, notify the current teacher.

(E) Sexual Harassment Policies (EC 212.6 [b])

Policy 4119.11: Sex Discrimination and Sex-Based Harassment

The Governing Board is committed to providing a safe work environment that is free of harassment and intimidation. The Board prohibits sexual harassment against district employees by anyone, in any manner, and prohibits retaliatory action or behavior against any persons who complains, testifies, or otherwise participates in the complaint process established pursuant to this policy and accompanying administrative regulation. This policy shall apply to all district employees, interns, volunteers, contractors, job applicants, and other persons with an employment relationship with the district.

(cf. 0410 - Nondiscrimination in District Programs and Activities) (cf. 4030 - Nondiscrimination in Employment)

Sexual harassment includes, but is not limited to, harassment that is based on the sex, gender, gender identity, gender expression, or sexual orientation of the victim and harassment based on pregnancy, childbirth, or related medical conditions.

The Superintendent or designee shall take all actions necessary to ensure the prevention, investigation, and correction of sexual harassment, including but not limited to:

1. Providing training to all staff in accordance with law and administrative regulation.
2. Publicizing and disseminating the district's sexual harassment policy to staff.
3. Ensuring prompt, thorough, equitable, and fair investigation of complaints
4. Taking timely and appropriate corrective/remedial actions which may require interim separation of the complainant and the alleged harasser and subsequent monitoring of developments.

The Superintendent or designee shall periodically evaluate the effectiveness of the district's strategies to prevent and address harassment. Such evaluation may involve conducting regular anonymous employee surveys to assess whether harassment is occurring or is perceived to be tolerated, partnering with researchers or other agencies with the needed expertise to evaluate the district's prevention strategies, and using any other effective tool for receiving feedback on systems and/or processes. As necessary, changes shall be made to the harassment policy, complaint procedures, or training.

Sexual Harassment Reports and Complaints

Any district employee who feels that he/she has been sexually harassed in the performance of their district responsibilities or who has knowledge of any incident of sexual harassment by or against another employee shall immediately report the incident to his/her supervisor, the principal, other district administrator, or the district's Title IX Coordinator. However, an employee may bypass his/her supervisor in filing a complaint if the supervisor is the subject of the complaint. A supervisor, principal, or district administrator who receives a harassment complaint shall promptly notify the Title IX Coordinator.

Once notified, the Title IX Coordinator shall ensure the complaint or allegation is addressed through AR 4119.12/4219.12/4319.12 – Title IX Sexual Harassment Complaint Procedures or AR 4030- Nondiscrimination in Employment, as applicable. Because a complaint or allegation that is dismissed or denied under the Title IX complaint procedure may still be subject to consideration under state law, the Title IX Coordinator shall ensure that any implementation of AR 4119.12/4219.12/4319.12 concurrently meets the requirements of AR 4030.

Notwithstanding the above, BP/AR 4119.12/4219.12/4319.12 and 4030 shall under no circumstances be used to resolve complaints brought by, on behalf of, or against students. All complaints brought by, on behalf of, or against students that allege “sexual harassment” as that term is defined in the federal regulations implementing Title IX of the Education Amendments of 1972 (see 34 C.F.R. § 106, et seq.) shall be investigated and resolved under BP/AR 5145.71. All complaints brought by, on behalf of, or against students that do not meet the definition of “sexual harassment” as set forth in the Title IX implementing regulations shall be investigated and resolved under BP/AR 1312.3.

(cf. 4119.12/4219.12/4319.12 - Title IX Sexual Harassment Complaints)

The Title IX Coordinator shall offer supportive measures to the complainant and respondent, as deemed appropriate under the circumstances.

Upon investigation of a sexual harassment complaint, any district employee who engages, or participates in sexual harassment, or who aids, abets, incites, compels, or coerces another to commit sexual harassment in violation of this policy is subject to disciplinary action, up to and including dismissal, in accordance with law and the applicable collective bargaining agreement.

(cf. 4117.7/4317.7 - Employment Status Reports) (cf. 4118 - Dismissal/Suspension/Disciplinary Action) (cf. 4218 -

Dismissal/Suspension/Disciplinary Action)

Regulation 4119.12: Title IX Sex Discrimination and Sex-Based Harassment Complaint Procedures

The complaint procedures described in this administrative regulation shall be used to address any complaint governed by Title IX of the Education Amendments of 1972 alleging that a district employee, while in an education program or activity in which a district school exercises substantial control over the context and respondent, was subjected to one or more of the following forms of sexual harassment: (34 CFR 106.30, 106.44)

1. A district employee conditioning the provision of a district aid, benefit, or service on a person's participation in unwelcome sexual conduct
2. Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the district's education program or activity
3. Sexual assault, dating violence, domestic violence, or stalking as defined in 20 USC 1092 or 34 USC 12291 (cf. 4119.11/4219.11/4319.11 - Sexual Harassment)

All other sexual harassment complaints or allegations shall be investigated and resolved in accordance with AR 4030

- Nondiscrimination in Employment. The determination of whether the allegations meet the definition of sexual harassment under Title IX shall be made by the district's Title IX Coordinator.

(cf. 4030 - Nondiscrimination in Employment)

Because the complainant has a right to pursue a complaint under AR 4030 for any allegation that is dismissed or denied under the Title IX complaint procedure, the Title IX Coordinator shall ensure that all requirements and timelines for AR 4030 are concurrently met while implementing the Title IX procedure.

Reporting Allegations/Filing a Formal Complaint

An employee who is the alleged victim of sexual harassment may submit a report of sexual harassment to the district's Title IX Coordinator using the contact information listed in AR 4119.11/4219.11/4319.11 - Sexual Harassment or to the employee's direct supervisor or other district administrator, who shall forward the report to the Title IX Coordinator within one day of receiving the report. Upon receiving such a report, the Title IX Coordinator shall inform the complainant of the right to file a formal complaint and the process for filing a formal complaint.

A formal complaint, with the complainant's physical or digital signature, may be filed with the Title IX Coordinator in person, by mail, by email, or by any other method authorized by the district. (34 CFR 106.30)

Even if the alleged victim chooses not to file a formal complaint, the Title IX Coordinator shall file a formal complaint in situations when a safety threat exists. In addition, the Title IX Coordinator may file a formal complaint in other situations as permitted under the Title IX regulations, including as part of the district's obligation to not be deliberately indifferent to known allegations of sexual harassment. In such cases, the Title IX Coordinator shall provide the alleged victim notices as required by the Title IX regulations at specific points in the complaint process.

The Title IX Coordinator, investigator, decision-maker, or a facilitator of an informal resolution process shall not have a conflict of interest or bias for or against complainants or respondents generally or an individual complainant or respondent. Such persons shall receive training in accordance with 34 CFR 106.45. (34 CFR 106.45)

Supportive Measures

Upon receipt of a report of Title IX sexual harassment, the Title IX Coordinator shall promptly contact the complainant to discuss the availability of supportive measures and shall consider the complainant's wishes with respect to the supportive measures implemented. Supportive measures shall be offered as appropriate, as reasonably available, and without charge to the complainant or the respondent before or after the filing of a formal complaint or where no formal complaint has been filed. Such measures shall be nondisciplinary, nonpunitive, and not unreasonably burden the other party, including measures designed to protect the safety of all parties or the district's educational environment or to deter sexual harassment. Supportive measures may include, but are not limited to, counseling, extensions of deadlines, modifications of work schedules, mutual restrictions on contact, changes in work locations, leaves of absence, increased security, and monitoring of certain areas of the campus. (34 CFR 106.30, 106.44)

The district shall maintain as confidential any supportive measures provided to the complainant or respondent, to the extent that maintaining such confidentiality would not impair the district's ability to provide the supportive measures. (34 CFR 106.30)

Emergency Removal

If a district employee is the respondent, the employee may be placed on administrative leave during the pendency of the formal complaint process. (34 CFR 106.44)

If the respondent is a student, the district may, on an emergency basis, remove the student from the district's education program or activity, provided that the district conducts an individualized safety and risk analysis, determines that removal is justified due to an immediate threat to the physical health or safety of any student or other individual arising from the allegations, and provides the student with notice and an opportunity to challenge the decision immediately following the removal. This authority to remove a student does not modify a student's rights under the Individuals with Disabilities Education Act or Section 504 of the Rehabilitation Act of 1973. (34 CFR 106.44)

Dismissal of Complaint

The Title IX Coordinator shall dismiss a formal complaint if the alleged conduct would not constitute sexual harassment as defined in

34 CFR 106.30 even if proved. The Title IX Coordinator shall also dismiss any complaint in which the alleged conduct did not occur in the district's education program or activity or did not occur against a person in the United States, and may dismiss a formal complaint if the complainant notifies the district in writing that the complainant would like to withdraw the complaint or any allegations in the complaint, the respondent is no longer employed by the district, or sufficient circumstances prevent the district from gathering evidence sufficient to reach a determination with regard to the complaint. (34 CFR 106.45)

Upon dismissal, the Title IX Coordinator shall promptly send written notice of the dismissal and the reasons for the dismissal simultaneously to the parties and shall inform them of their right to appeal the dismissal of a formal complaint or any allegation in the complaint in accordance with the appeal procedures described in the section "Appeals" below. (34 CFR 106.45)

If a complaint is dismissed, the conduct may still be addressed pursuant to AR 4030 - Nondiscrimination in Employment as applicable.

Informal Resolution Process

When a formal complaint of sexual harassment is filed, the district may offer an informal resolution process, such as mediation, at any time prior to reaching a determination regarding responsibility. The district shall not require a party to participate in the informal resolution process or to waive the right to an investigation and adjudication of a formal complaint. (34 CFR 106.45)

The district may facilitate an informal resolution process provided that the district: (34 CFR 106.45)

1. Provides the parties with written notice disclosing the allegations, the requirements of the informal resolution process, the right to withdraw from the informal process and resume the formal complaint process, and any consequences resulting from participating in the informal resolution process, including that records will be maintained or could be shared.
2. Obtains the parties' voluntary, written consent to the informal resolution process

Written Notice

If a formal complaint is filed, the Title IX Coordinator shall provide the known parties with written notice of the following: (34 CFR 106.45)

1. The district's complaint process, including any informal resolution process
2. The allegations potentially constituting sexual harassment with sufficient details known at the time, including the identity of parties involved in the incident if known, the conduct allegedly constituting sexual harassment, and the date and location of the alleged incident if known. Such notice shall be provided with sufficient time for the parties to prepare a response before any initial interview. If, during the course of the investigation, new Title IX allegations arise about the complainant or respondent that are not included in the initial notice, the Title IX Coordinator shall provide notice of the additional allegations to the parties.
3. A statement that the respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility is made at the conclusion of the complaint process
4. The opportunity for the parties to have an advisor of their choice who may be, but is not required to be, an attorney, and the ability to inspect and review evidence
5. The prohibition against knowingly making false statements or knowingly submitting false information during the complaint process

The above notice shall also include the name of the investigator, facilitator of an informal process, and decision-maker and shall inform the parties that, if at any time a party has concerns regarding conflict of interest or bias regarding any of these persons, the party should immediately notify the Title IX Coordinator.

Investigation Procedures

During the investigation process, the district's designated investigator shall: (34 CFR 106.45)

1. Provide an equal opportunity for the parties to present witnesses, including fact and expert witnesses, and other inculpatory and

exculpatory evidence

2. Not restrict the ability of either party to discuss the allegations under investigation or to gather and present relevant evidence
3. Provide the parties with the same opportunities to have others present during any grievance proceeding, including the opportunity to be accompanied to any related meeting or proceeding by the advisor of their choice, who may be, but is not required to be, an attorney
4. Not limit the choice or presence of an advisor for either the complainant or respondent in any meeting or grievance proceeding, although the district may establish restrictions regarding the extent to which the advisor may participate in the proceedings as long as the restrictions apply equally to both parties
5. Provide, to a party whose participation is invited or expected, written notice of the date, time, location, participants, and purpose of all investigative interviews or other meetings, with sufficient time for the party to prepare to participate
6. Send in an electronic format or hard copy to both parties and their advisors, if any, the evidence obtained as part of the investigation that is directly related to the allegations raised in the complaint, and provide the parties at least 10 days to submit a written response for the investigator to consider prior to the completion of the investigative report
7. Objectively evaluate all relevant evidence, including both inculpatory and exculpatory evidence, and determine credibility in a manner that is not based on a person's status as a complainant, respondent, or witness
8. Create an investigative report that fairly summarizes relevant evidence and, at least 10 days prior to the determination of responsibility, send to the parties and their advisors, if any, the investigative report in an electronic format or a hard copy, for their review and written response

Questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant, unless such questions and evidence are offered to prove that someone other than the respondent committed the conduct alleged by the complainant or if the questions and evidence concern specific incidents of the complainant's prior sexual behavior with respect to the respondent and are offered to prove consent. (34 CFR 106.45)

Privacy rights of all parties to the complaint shall be maintained in accordance with applicable state and federal laws.

If the complaint is against an employee, rights conferred under an applicable collective bargaining agreement shall be applied to the extent they do not conflict with the Title IX requirements.

Written Decision

The Superintendent shall designate an employee as the decision-maker to determine responsibility for the alleged conduct, who shall not be the Title IX Coordinator or a person involved in the investigation of the matter. (34 CFR 106.45)

After the investigative report has been sent to the parties but before reaching a determination regarding responsibility, the decision-maker shall afford each party the opportunity to submit written, relevant questions that the party wants asked of any party or witness, provide each party with the answers, and allow for additional, limited follow-up questions from each party.

The decision-maker shall issue, and simultaneously provide to both parties, a written decision as to whether the respondent is responsible for the alleged conduct. (34 CFR 106.45)

The written decision shall be issued within 60 calendar days of the receipt of the complaint.

The timeline may be temporarily extended for good cause with written notice to the complainant and respondent of the extension and the reasons for the action. (34 CFR 106.45)

In making this determination, the decision-maker shall use the "preponderance of the evidence" standard for all formal complaints of sexual harassment. (34 CFR 106.45)

The written decision shall include the following: (34 CFR 106.45)

1. Identification of the allegations potentially constituting sexual harassment as defined in 34 CFR 106.30

2. A description of the procedural steps taken from receipt of the formal complaint through the written decision, including any notifications to the parties, interviews with parties and witnesses, site visits, methods used to gather other evidence, and hearings held if the district includes hearings as part of the grievance process
3. Findings of fact supporting the determination
4. Conclusions regarding the application of the district's code of conduct or policies to the facts
5. A statement of, and rationale for, the result as to each allegation, including a decision regarding responsibility, any disciplinary sanctions the district imposes on the respondent, and whether remedies designed to restore or preserve equal access to the district's educational program or activity will be provided by the district to the complainant
6. The district's procedures and permissible bases for the complainant and respondent to appeal

Appeals

Either party may appeal the district's decision or dismissal of a formal complaint or any allegation in the complaint, if the party believes that a procedural irregularity affected the outcome, new evidence is available that could affect the outcome, or a conflict of interest or bias by the Title IX Coordinator, investigator(s), or decision-maker(s) affected the outcome. If an appeal is filed, the district shall: (34 CFR 106.45)

1. Notify the other party in writing when an appeal is filed and implement appeal procedures equally for both parties
2. Ensure that the decision-maker(s) for the appeal is trained in accordance with 34 CFR 106.45 and is not the same decision-maker(s) who reached the determination regarding responsibility or dismissal, the investigator(s), or the Title IX Coordinator
3. Give both parties a reasonable, equal opportunity to submit a written statement in support of, or challenging, the outcome
4. Issue a written decision describing the result of the appeal and the rationale for the result
5. Provide the written decision simultaneously to both parties

An appeal must be filed in writing within 10 calendar days of receiving the notice of the decision or dismissal, stating the grounds for the appeal and including any relevant documentation in support of the appeal. Appeals submitted after this deadline are not timely and shall not be considered.

A written decision shall be provided to the parties within 20 calendar days from the receipt of the appeal.

Either party has the right to file a complaint with the U.S. Department of Education's Office for Civil Rights within 180 days of the date of the most recently alleged misconduct.

The complainant shall be advised of any civil law remedies, including, but not limited to, injunctions, restraining orders, or other remedies or orders that may be available under state or federal antidiscrimination laws, if applicable.

Remedies

When a determination of responsibility for sexual harassment has been made against the respondent, the district shall provide remedies to the complainant. Such remedies may include the same individualized services described above in the section "Supportive Measures," but need not be nondisciplinary or nonpunitive and need not avoid burdening the respondent. (34 CFR 106.45)

Disciplinary Actions

The district shall not impose any disciplinary sanctions or other actions against a respondent, other than supportive measures as described above in the section "Supportive Measures," until the complaint procedure has been completed and a determination of responsibility has been made. (34 CFR 106.44)

When an employee is found to have committed sexual harassment or retaliation, the district shall take appropriate disciplinary action, up to and including dismissal, in accordance with applicable law and collective bargaining agreement.

(cf. 4117.7/4317.7 - Employment Status Report)

(cf. 4118 - Dismissal/Suspension/Disciplinary Action) (cf. 4119.11/4219.11/4319.11 - Sexual Harassment) (cf. 4218 - Dismissal/Suspension/Disciplinary Action)

Record-Keeping

The Superintendent or designee shall maintain, for a period of seven years: (34 CFR 106.45)

1. A record of all reported cases and Title IX investigations of sexual harassment, any determinations of responsibility, any audio or audiovisual recording and transcript if applicable, any disciplinary sanctions imposed, any remedies provided to the complainant, and any appeal or informal resolution and the results therefrom.
2. A record of any actions, including supportive measures, taken in response to a report or formal complaint of sexual harassment, including the district's basis for its conclusion that its response was not deliberately indifferent, the measures taken that were designed to restore or preserve equal access to the education program or activity, and, if no supportive measures were provided to the complainant, the reasons that such a response was not unreasonable in light of the known circumstances.
3. All materials used to train the Title IX Coordinator, investigator(s), decision-maker(s), and any person who facilitates an informal resolution process. The district shall make such training materials publicly available on its web site, or if the district does not maintain a web site, available upon request by members of the public.

(F) School-wide Dress Code Relating to Gang-Related Apparel (EC 35183)

Policy 5132.16: Student Dress Guidelines

The Governing Board believes that appropriate dress and grooming contribute to a productive learning environment. The Board expects students to give proper attention to personal cleanliness and to wear clothes that are suitable for the school activities in which they participate. Students' clothing must not present a health or safety hazard or a distraction which would interfere with the educational process.

Students and parents/guardians shall be informed about dress and grooming standards at the beginning of the school year and whenever these standards are revised. A student who violates these standards shall be subject to appropriate disciplinary action.

Gang-Related Apparel

The principal, staff and parents/guardians at a school may establish a reasonable dress code that prohibits students from wearing gang-related apparel when there is evidence of a gang presence that disrupts or threatens to disrupt the school's activities. Such a dress code may be included as part of the school safety plan and must be presented to the Board for approval. The Board shall approve the plan upon determining that it is necessary to protect the health and safety of the school's students.

Uniforms

The Board recognizes that, in order to promote student safety and discourage peer rivalry and/or gang activity, the principal, staff and parent/guardian at a school site may wish to establish a reasonable dress code, which may include voluntary school uniforms.

Dress codes, which include voluntary school uniforms, may be included as part of the school safety plan submitted as required.

The Superintendent or designee shall establish procedures that schools, parents and guardians will follow if they decide to participate with the voluntary school uniform policy. Students shall not be penalized academically, otherwise discriminated against or denied attendance to school if their parents/guardian decide not to participate.

The Governing Board feels that there is nothing inherently wrong with dress or color of dress, but when student's dress serves to intimidate or impede the rights of other students it will be determined that dress is in violation of this policy. A student may not remain at school dressed in a manner which (1) creates a safety hazard for said student or for other students at school, and/or (2) when the dress constitutes a serious and unnecessary distraction to the learning process or tends to disrupt campus order

When the site administrator/designee determines that a student's attire is in violation of this policy, the student will be required to modify his/her clothing and/or apparel in such a manner that it no longer violates this policy. If necessary, the student may be taken or sent home with parental permission to modify unacceptable dress and return to school. Refusal to take steps as described in this policy shall be cause for disciplinary action against the student. Any such disciplinary action shall be handled pursuant to existing student disciplinary policy

Parents/guardians have primary responsibility to see that students are properly attired for school. School district personnel have the responsibility for maintaining proper and appropriate conditions conducive to learning. Hence, the following guidelines will be implemented in all district schools.

1. Shoes will be worn at all times. A substantial sole is required and enclosed toe and heel footwear are highly encouraged.
2. Extremely brief garments that are distracting to the educational environment are not appropriate. Clothing shall be sufficient to conceal undergarments at all times.
3. Clothing or accessories shall be free of writing, pictures or any other insignia which are crude, violent, obscene or sexually suggestive or which advocate racial, ethnic or religious prejudice or the use of tobacco, drugs or alcohol.
4. Earrings, jewelry, or accessories which present a safety hazard to the wearer or others are not suitable for school wear.
5. Only prescription sunglasses may be worn in class. Other types of sunglasses may be worn on campus outside of class.
6. Identified gang attire such as bandannas, haircuts or hair rollers, or any gang paraphernalia are prohibited.

Students are allowed to wear sun protective clothing, including hats, while outdoors during the school day. Each school site will develop a policy indicating the type of sun protective hats that are permitted.

No grade of a student participating in a physical education class shall be adversely affected if the student does not wear standardized physical education apparel because of circumstances beyond the student's control. (Education Code 49066) All clothing worn during physical education shall meet reasonable safety standards.

The purpose of adopting these Student Dress Guidelines is not to infringe on any individual student's rights to freedom of expression, but rather to encourage students to dress appropriately and come to school properly prepared for participating in the educational process.

Gang-Related Apparel

Because gang-related symbols are constantly changing, definitions of gang-related apparel shall be reviewed as needed and updated as necessary.

Uniforms

In schools where a majority of parents respond and indicate on a survey that they desire to establish a voluntary school-wide uniform dress code, the principal, staff and the parents/guardians of the individual school site shall:

1. Jointly select the specific uniform to be worn. (Education Code 35183)
2. Describe the uniform parts and identify local vendors who sell those pieces of clothing. A description of the implementation of the voluntary uniform dress code will be submitted to the superintendent's designee including:
 - a. The process for parent notification
 - b. Positive procedures that will be used to encourage students to participate with the voluntary uniform dress code
3. A description of the uniform and a list of costs for each competitively priced item of clothing as provided by a variety of vendors will be sent to parents.
4. Parents will be notified that this is a voluntary uniform dress code and that students not participating shall not be penalized academically, otherwise discriminated against or denied attendance to school if their parents/guardians so decide.

Parent Notification

The principal shall give parents/guardian at least six months notice before a school site implements a voluntary school uniform dress code. (Education Code 35183)

(G) Procedure for Safe Ingress and Egress of Pupils, Parents, and Staff to and from School (EC 35294.2)

Closed campus: All doors which provide access to classrooms and other rooms, except the main office, remain locked. All visitors to the campus must come through the office to sign in through the Raptor System and obtain a visitor's badge which they must wear for the duration of the time they are on campus. All perimeter gates are locked during school hours.

Leaving early: Students must stay on campus from the time of arrival in the morning until school ends. Students may leave campus during school hours if parents, guardians, or persons designated by parents or guardians come to pick them up from school. A prior written request from a parent or guardian must be submitted if someone other than the parent or someone on the emergency card is going to pick up a child. Persons picking up students during the school day must sign the student out in the front office. They must be at least 18 years of age and provide a valid ID. Under no circumstances should a student leave campus without permission.

Late arrivals: If a student is late in the morning, they must report to the office for a late slip and then quickly go to class.

Volunteers: Kingsbury appreciates our volunteers. School volunteers are required to fill out a volunteer application. Upon clearance you may begin volunteering at Kingsbury . Volunteers are required to check in with school personnel at each visit.

Component:

Physical Environment

The Schools' Location and Physical Environment

Kingsbury Elementary School is located in the Redlands area of San Bernardino County that has an average crime rate and 11% poverty level. The immediate area round the school includes southwest Redlands. Present safety hazards include none..

Description of School Grounds

The school site encompasses 12.4 acres. The grounds are grass, concrete and asphalt and includes basketball and volleyball courts, baseball diamonds and a lined track. There are several wings and/or clusters of classrooms including 24 classrooms 6 re-locatable classrooms. Other ancillary structures include the multipurpose room and office.

During the school day, staff members and administrators shall provide campus supervision. Identified problem areas receive increased supervision to reduce discipline, crime, or other school safety concerns.

It shall be the practice of Kingsbury Elementary School to remove all graffiti from school property before pupils arrive to begin their school day. Other acts of vandalism are promptly addressed.

Maintenance of School Buildings/Classrooms

The school's physical facility is well maintained and generally looks neat and clean. The school was most recently painted August 2017 (exterior) renovated during the 2004 year. District personnel periodically examine the school's physical facility and help eliminate obstacles to school safety. Additionally, health and fire department inspectors contribute to school safety.

Last fire inspector safety was July 2022.

Internal Security Procedures

Kingsbury Elementary School has established procedures in the following areas: California Safe School Assessment (CSSA) reporting procedures, suspension and expulsion procedures, inventory system, and District established discipline guidelines and the school follows PBIS philosophies.

Kingsbury Elementary School crime statistics reflect a total of 0 crimes reported during the 2022-2023 School Year.

Keeping reportable crimes at a minimum requires constant vigilance. The following strategies will be utilized in achieving this goal : video surveillance and maintaining a partnership with the community and Redlands Police.

Kingsbury Elementary School maintains a copy of the district's sexual harassment policy in the main office/principal's office and the policy is available on request. The District's Sexual Harassment Policy contains dissemination plans, applicable definitions, reporting requirements, investigation procedures, enforcement regulations, and information related to suspension and/or expulsion for sexual harassment of or by pupils. Additionally, a notice summarizing this sexual harassment policy appears in the Parent & Student Handbook. The parent student handbook is distributed at the beginning of each school year to all parents and pupils.

To ensure the safety of pupils and staff, all visitors to the campus, except pupils of the school and staff members, shall register immediately upon entering any school building or grounds when school is in session. District employees, not assigned to Kingsbury Elementary School shall wear appropriate identification badges while on campus conducting business.

Discipline procedures shall focus on finding the cause of problems and working with all concerned to reach the proper, lawful solutions. The school's discipline plan begins at the classroom level. Teachers shall use a visible classroom management plan to communicate classroom rules, promote positive pupil conduct, and reduce unacceptable conduct. Appropriate consequences are administered based on the seriousness of the pupil's misbehavior.

Pupil conduct standards and consequences for Kingsbury Elementary School are specifically described in this Comprehensive Schools Safety Plan including: (a) the adopted school discipline rules and procedures, (b) District Disciplinary Guidelines, and (c) the adopted school-wide dress code.

Pupils may be suspended, transferred to another school, or recommended for expulsion or for certain acts. For specific student violations, a mandatory expulsion recommendation shall be submitted by the administration of Kingsbury Elementary School.

Site administrators contribute to a positive school climate, promote positive pupil behavior, and help reduce inappropriate conduct. The principal/designee uses available district and other appropriate records to inform teachers of each pupil identified under E.C. 49079.

Law enforcement is contacted and consulted to help maintain and to promote a safe and orderly school environment. Kingsbury Elementary School employees comply with all legal mandates, regulations, and reporting requirements for all instances of suspected child abuse.

If appropriate, additional internal security procedures affecting the integrity of the school facility include: video surveillance system, increased campus monitor hours, full time counselor and assistant principal. All classrooms have See Something, Say Something posters with phone numbers of all agencies that keep students safe. All rooms of the school have daily safety checks by either the principal, or assistant principal. Further, all staff are trained on the District's boundary policies and the Adult/Student Boundaries Pamphlet issued by the District, and available on the District's website. Finally, everyone that comes on to the grounds must sign in through our Raptor program; identification is scanned and the person is run through an instant sex offender/background check.

Community involvement is encouraged to help increase school safety.

Kingsbury currently has partnerships with Redlands High School, Smiley Library, Inland Empire Therapy Dogs, Rotary Club, and the Rochford Foundation.

Inventory System - Engraved ID, Security Storage

Most school-site equipment has a metal ID tag or a bar cod sticker adhered to its surface. These items are inventoried annually and there is an established accountability system. Office and classroom supplies are secured.

(I) School Discipline Rules and Consequences (EC 35291 and EC 35291.5)

Kingsbury Elementary School in the 2024-2025 school year Student Conduct Code

Procedures to Ensure a Safe and Orderly Environment

Rules and Procedures on School Discipline

Philosophy of Discipline

- Behavior expectations and the consequences for not meeting expectations must be clearly communicated to all students and their parents (in writing as well as verbally).
- The severity of consequences for violating behavior expectations increases with each incident of inappropriate behavior.
- The consequences for violating behavior expectations should be severe enough to discourage students from making poor behavior decisions.
- Expectations and consequences should permit students an opportunity to eliminate inappropriate behavior.

Additionally, the school staff recognizes that the middle school years are a transition time from adolescence to young adulthood. As a part of this transition, the student is given greater opportunities to be responsible and demonstrate independence and good judgment. The structure of our behavior expectations (in the classroom as well as school wide) is meant to encourage students to be responsible. The first step in many instances of inappropriate behavior (those considered to be "minor") is a simple warning ("Your behavior is unacceptable. Please stop such behavior"). It is only when a student ignores such warnings and continues to choose to act irresponsibly (like a child rather than an emerging adult) that we involve parents and implement consequences.

Elements of a Good Discipline Program

1. The program is focused upon making the entire campus, especially the classroom, a safe, supportive and orderly environment for learning for students and staff.
2. Classroom authority is retained by the classroom teacher. (Administration's role is to support, not to replace.)
3. Rules and procedures are clearly understood by staff and students.
4. All staff members will acknowledge and take appropriate action on any minor or major infraction of the school rules.
5. Rules and procedures comply with State Law and District policies.
6. The program recognizes the responsibilities and the rights of students and staff.
7. Program is structured to keep students in class and engaged in the educational process.
8. Rules are enforced:
 - A. by all staff members at all times.
 - B. strictly, but not rigidly (beware of "automatics").
 - C. in substantial part by adult modeling.
 - D. using techniques that promote the growth of positive self-esteem.
 - E. as close to the source as is possible.
 - F. by keeping parents informed.
9. The discipline program is understood, endorsed, and supported by staff, parents, and students.

PRINCIPAL'S STATEMENT TO EDMS STAFF

Expectations in Developing & Maintaining Discipline

As Principal of our school, I will expect;

Each teacher to have a defined system of classroom management. A written description of this system, including representative examples of the progressive interventions you intend to employ, will be approved and filed by me. Whenever possible and appropriate, teachers are encouraged to use standards and systems that are consistent with other village/departments members.

You can expect

Each administrator to assist and support you in every reasonable way in developing, implementing, and refining that system as needed.

I will expect

That when you refer a student for discipline:

1. The student has been made fully aware of classroom and school rules and knows what rules he/she has violated.
2. Teachers within a village will discuss any continuing behavior problems and schedule a team conference with the student and parents when appropriate.
3. That information will be provided on the referral regarding previous actions you have taken regarding this specific issue.
4. You have exhausted the interventions at your disposal (i.e., you have done everything you can do) and you have followed the guidelines established by the administration and staff on what constitutes an appropriate behavior referral.
5. The behavior was so serious or so blatant as to make immediate removal from the classroom necessary.
6. The written referral will be explicit in stating the offense(s).
7. You will send the student out of class with a referral only if his/her continued presence in the class would disrupt or prevent teaching and/or learning.
8. If necessary, the referral will be delivered to the office at a time convenient to the staff member so that the issue may be handled most efficiently, causing a minimum of lost class time.

You can expect

1. Each administrator to support your position in every reasonable way.
2. A response time on your referral of one, or at most, two days.

3. The availability of an administrator to discuss unresolved referrals after school on any given day.
4. That the administrator will exercise independent judgment regarding disposition of referrals.

I will expect

1. That each teacher will go to the doorway of his/her classroom after each class period as often as possible and assume control of student behavior in the corridor.
2. That each staff member will hold students accountable for their behavior on the school grounds at all times.

You can expect

1. Administrator support, investigation, and follow-through as indicated.
2. A response to referrals from incidents outside the classroom to be the same as to those within.

Renee Kanoti
Principal

WHAT TO DO WHEN PROBLEMS APPEAR

Both behavioral and academic problems are present in some of our students. Teachers often ask for guidelines for dealing with these problems. Here they are:

1. Talk to the administrator assigned to your grade level.
2. Call parents at first sign of concern. Inform the parents of your observations, ask for their ideas, assistance, and support in serving the student. Keep a log of your calls.
3. If possible, talk privately to the student about your concerns.
4. Behavior concerns—look through students' CUM file. Any official suspensions will be in file, also look for teacher comments on report cards. Look for patterns of behavior. We use In-House Suspension whenever possible, as it is preferable to having students at home unattended—and it saves the district money. Serious infractions (fighting, threats, etc.) do result in official suspension. Unresponsive students can be moved to other schools or expelled.
5. Referrals—please remember if you write a student referral, you are required to call the parents. You are writing the referral and can answer the parents' questions firsthand. Administrators will also call parents, but we can only give secondhand information on the incident.
6. Academic Concerns—again, look through student CUM. This will contain test scores, report cards, and a student history. You may want to ask the grade level administrator to schedule a Student Study Team (SST). This will involve a meeting with the student, parents, administrators, students' teachers, and perhaps the psychologist

Conduct Code Procedures

PBIS/Restorative Practices

Kingsbury Elementary participates in Positive Behavioral Interventions and Supports (PBIS), which is a way for schools to encourage and teach good behavior. PBIS is an approach that schools can use to improve school safety and promote positive behavior. It's also a way for schools to decide how to respond to a child who misbehaves. Restorative Practices are focused on relationships with the goal of building strong connections that promote positive behavior and positive classroom climate. Both PBIS and Restorative Practices seek to improve school and classroom climate, increase student achievement, build social and emotional capacity, keep students in school, and improve teacher classroom management. Restorative Practices are intended to provide tools for creating positive behavioral outcomes.

More detailed expectations can be found in Kingsbury's Parent and Student Handbook

3 LEVELS OF STUDENT SAFETY IN A CRISIS

Safe & Secure Mode is a security procedure used to reduce student and staff movement outside school buildings. This may be due to medical emergency, area disturbance, etc. It is designed to allow for school to carry forward but have the ability to move to Lockdown quickly if needed. During the Safe & Secure mode, there is heightened vigilance on campus by all school staff. Generally, recesses and outdoor activities are reduced. Parents/guardians can have access to their student(s) and may check them out of school if they see fit to do so.

Teachers should continue teaching as normal

Allow students restroom use with clear administrator/ teacher direction

Increased available staff presence during passing periods and student dismissal

Lunch/activities in more secure area, unless site admin decides otherwise

Standard inclement weather schedule/routine in place, unless site administrator/designee decides otherwise

Perimeter gates, where applicable, will be locked and monitored by available staff, allowing for central access points

PE classes will be moved off all fields into more secure locations (e.g., gym, class, & MPR)

Lock Down is called when a law enforcement event is happening in the vicinity of a school. The law enforcement agency generally, but not always, contacts the school/district to encourage the school site to Lock Down as a precautionary measure. All

Administrators are expected to place their school in Lock Down in this scenario.

Take a look outside your classroom and gather up any stray students in the hallways

Ensure that your door is locked

If windows are open, close them

Project a calm demeanor to help students remain calm. Reassure students that they are safe

Do not allow anyone to leave the classroom

Frequently check your emails for possible updates from your site administrators

If students are out on the playground or athletic fields, quickly move them to a secure classroom, locker room, or multi-purpose room

Critical Alert is called when a significant, threatening event is happening on campus or adjacent to campus that creates a potential danger to students and staff. While this may be communicated to the school by law enforcement, it may also be determined by school officials on the scene. Critical Alert assumes that everyone is prepared for a potential significant threat/event on campus.

Implement all items from Lock Down list above

Turn off or reduce lighting, so it will appear that the room is vacant

Keep all students sitting on the floor, away from the door or windows

Do not look out the windows

Cover window on the door (if one exists)

Advise the students that there is a serious situation, but you don't know what it is. Project a calm demeanor to help students remain calm. Reassure students that they are safe

Ensure that everyone in the room turns the ringer off on their cell phones

Do not allow students to talk on their cell phones (keep room as quiet as possible)

Do not call the office. They are in the midst of a problem and will not be able to answer all the calls which may tie up the phone system

Quietly take roll and make a list of missing students and any extra students that are in your room. Email this list to your administrators and school site secretaries

Do not evacuate students until you are told to, even if the fire bells go off. If, in fact, there is a need for a fire evacuation, you will be notified via the PA system, email, or phone call

Comprehensive School Safety Plan 35 of 47 9/14/23

Do not open the door, even if someone knocks and claims to be a staff member (Administrator/custodian will have a master key)

If students are out on the PE field, do not return them to the locker room. Move them to a safe place (the farthest part of the campus)

Procedures for Preventing Acts of Bullying and Cyber-bullying

RUSD Board Regulation 5144.1(17)

Bullying means any severe or pervasive physical or verbal act or conduct, including communications made in writing or by means of an electronic act, directed toward one or more students that has or can reasonably be predicted to have the effect of placing a reasonable student in fear of harm to self or property; cause the student to experience a substantially detrimental effect on physical or mental health; or cause the student to experience substantial interferences with academic performance or ability to participate in or benefit from the services, activities, or privileges provided by a school. (Education Code 48900(r))

Safety Plan Review, Evaluation and Amendment Procedures

A Safety Committee is created each school year. The purpose of the committee is to review the Safety Plan and procedures on a continual basis. The committee meets a minimum of three times per year and is made up of school staff and parent/community members. The Safety Committee recommendations are brought to the attention of the staff and presented to School Site Council for approval.

Emergency Response Guidelines

Step One: Identify the Type of Emergency

Determining the type of emergency will assist the commander/administrator in making the appropriate decisions to keep the campus safe. The response to a fire is drastically different than responding to an active shooter. The type of emergency may lead to evacuation, shelter-in-place, or lockdown as well as which agency to contact.

Step Two: Identify the Level of Emergency

Determining the size and immediacy of the emergency will determine the level. The site leader will determine if it is a classroom only, building only, area only (i.e. playground), whole school, neighborhood, or city-wide emergency.

Step Three: Determine the Immediate Response Action

With safety of students, staff and visitors at the forefront, site administrators/commander will determine immediate response based on site protocols. Please reference sections about specific emergencies.

Step Four: Communicate the Appropriate Response Action

Administrators/Commander will communicate to the necessary emergency responders via phone. Administrators/Commander will utilize a variety of communication tools to notify staff and emergency participants such as: Bell system, phone intercom system, emails. In addition, the Administrator/Commander will communicate with the District Office via emergency radio. Lastly, a community communication plan will be created to notify families of incident, pick-up procedures, or next steps through one or several methods: Parent Square, postings on website and all social media accounts.

Types of Emergencies & Specific Procedures

Earthquake

Earthquake A. INSIDE SCHOOL BUILDING: 1. The teacher, or staff member in authority, will implement action, DUCK COVER AND HOLD. Stay inside building until the shaking stops. 2. Try to avoid glass and falling objects, areas where there are large panels of glass and/or heavy suspended light fixtures. 3. Do not use telephones. 4. Implement action, "LEAVE BUILDING", when instructed to do so, after the earthquake is over and tremors have subsided. Special consideration should be given to exit routes as some exits have heavy roof structures over the doorways. Go to an open area away from trees, power poles, etc. 5. Avoid touching electrical wires and metal objects such as chain link fences. 6. Render first aid if necessary. 7. Take roll and report missing students to principal. 8. The principal/designee is to establish a command post, assess damage, activate search team and activate the incident command system. 9. Activate a buddy system; determine needs of neighboring schools. 10. Principal to request assistance through school district radio. 11. Notify the District Emergency Operations Center of any breaks in utility lines. 12. The superintendent/designee will determine the advisability of closing the school, based on the report of the principal. B. IF OUTSIDE: 1. Move away from buildings, playground equipment, utility poles, signs, trees, metal fences, exposed wires and wet areas. 2. The safest place is in the open. Stay there until the earthquake is over. 3. Follow procedures 5 through 12 under "Inside School Building." C. WALKING TO AND FROM SCHOOL: 1. The safest place is in the open. Stay there. 2. Move away from buildings, utility poles, signs, trees, metal fences and exposed wires. 3. DO NOT RUN! Do "DROP -TAKE COVER." 4. After an earthquake, if on your way TO school, continue to school. 5. After an earthquake, if on your way FROM school, continue home. D. ON SCHOOL BUS: 1. If possible, the bus driver will pull to the side of the road away from any buildings, poles, and large trees issue command "DROP — TAKE COVER." 2. Turn off ignition and set brakes. 3. Wait until the earthquake is over. 4. If possible, contact dispatch office by district radio for instructions. E. HANDICAPPED STUDENTS: 1. Students with handicap conditions may need special assistance and instruction regarding falling debris. Additional drills may be needed to make certain the procedures are mastered. 2. Each handicapped student's needs should be assessed in relation to the possibility of a disaster and his/her preparedness.

Fire in Surrounding Area

Fire in Surrounding Area INITIAL RESPONSE: 1. If necessary, sound the school alarm and evacuate building. 2. Notify the fire department by dialing 911. 3. Assemble at the pre-designated areas at safe distance from the fire/fire-fighting equipment. 4. Assist disabled persons during the evacuation. 5. Render first aid as necessary. 6. Check all bathrooms and training rooms for staff and students. 7. If it is possible for adults to fight small fires (no bigger than a desk) without endangering life and/or causing injury, do so. 8. Close, but do not lock all doors leading to the fire area to isolate the area and prevent the spread of the fire. 9. Keep access roads open for emergency vehicles. 10. Teachers should take roll and report missing students to the office. No one should leave the area until instructed to do so. 11. Notify the Superintendent. 12. The principal will recommend to the Superintendent whether further action such as the EVACUATION OF SCHOOL should be implemented. 13. Notify utility companies of a break or suspected break in their lines. 14. After a serious fire, fire department officials and maintenance personnel should determine whether the building is safe before student and staff return.

Fire on School Grounds

Fire on School Grounds INITIAL RESPONSE: 1. Sound the school alarm and evacuate building. 2. Notify the fire department by dialing 911. 3. Assemble at the pre-designated areas at safe distance from the fire/fire-fighting equipment. 4. Assist disabled during the evacuation. 5. Render first aid as necessary. 6. Check all bathrooms and training rooms for staff and students. 7. If it is possible for adults to fight small fires (no bigger than a desk) without endangering life and/or causing injury, do so. 8. Close, but do not lock all doors leading to the fire area to isolate the area and prevent the spread of the fire. 9. Keep access roads open for emergency vehicles. 10. Teachers should take roll and report missing students to the office. No one should leave the area until instructed to do so. 11. Notify the Superintendent. 12. The principal will recommend to the superintendent whether further action such as the EVACUATION OF SCHOOL should be implemented. 13. Notify utility companies of a break or suspected break in their lines. 14. After a serious fire, fire department officials and maintenance personnel should determine whether the building is safe before student and staff return.

Pandemic

Blood Borne Pathogen Incident Reporting Form and Exposure Control Plan

Policy 5141.22: Infectious Diseases

The Governing Board desires to protect students from risks posed by exposure to infectious diseases while providing an appropriate education for all students.

The Superintendent or designee shall determine whether to admit a student with an infectious disease, and shall exclude students only in accordance with law. In making this determination, he/she shall consult the student's parents/guardians, the student's physician and/or the county health department, in accordance with law and consistent with confidentiality provisions. Because bloodborne pathogens such as hepatitis B virus, hepatitis C virus and human immunodeficiency virus (HIV) are not casually transmitted, the sole presence of bloodborne pathogens is not sufficient reason to exclude students from attending school.

cf. 5112.2 - Exclusions from Attendance)
(cf. 5141.26 - Tuberculosis Testing)
(cf. 5141.3 - Health Examinations)
(cf. 6158 - Independent Study)
(cf. 6159 -Individualized Education Program)
(cf. 6183 - Home/Hospital Instruction)

Parents/guardians are encouraged to inform the Superintendent or designee if their child has an infectious disease so that school staff may work cooperatively with the student's parents/guardians to minimize the child's exposure to other diseases in the school setting. The Superintendent or designee shall ensure that student confidentiality rights are strictly observed in accordance with law. No district employee shall release medical information, including knowledge of a bloodborne pathogen infection, without written consent from the parent/guardian or adult student. Such information shall be shared only with those persons specifically named in the written permission.

(cf. 5125 - Student Records)
(cf. 5022 -Student and Family Privacy Rights)

The Board requires students and staff to routinely observe universal precautions to prevent exposure to bloodborne pathogens and to prevent the spread of all infectious disease.

(cf. 4119.43/4219.43/4319.43 - Universal Precautions)
(cf. 5141.23 - Infectious Disease Prevention)

The Superintendent or designee shall ensure that the district's health education program provides information about the nature of bloodborne pathogens and their transmission.

Blood Borne Pathogens - Safety Practices

Procedures and Regulations

1. General

1.1 While recognizing that both students and employees diagnosed with an infectious blood borne disease are entitled to a confidential relationship between themselves, the medical community and/or other agencies, the Board of School Trustees encourages these individuals to meet with the School Principal and/or Superintendent of Schools to discuss their disease and immediate and future needs.

1.2 Assessment

2. Students:

2.1. The Superintendent (or designate) will be informed, by the school principal as soon as is known, of any student infected with an infectious blood borne disease.

2.2. A Risk Assessment will be conducted using a team approach including the personal physician, public health personnel, the parent or guardian, and school district personnel as appropriate and will make recommendations about the type of educational and care setting based on the following:

- a. Behavior, neurological development and physical condition of the child;
- b. Type of interaction expected with others.
- c. What the potential is for exposure
- d. Areas for potential for exposure
- e. How exposure may happen
- f. Who needs to know?
- g. What will happen if there is a risk of exposure?

2.3. The team will consider the risk to others in the workplace, whether or not the individual is healthy enough to continue to attend school, and what precautions should be taken to ensure the safety and health of others.

a. The identity of infected students will remain confidential and restricted to those who need to know or are required to be informed.

2.4. Decisions on attendance at school are dependent on the circumstances of each individual case. Regular evaluation of the appropriateness of attendance will be conducted.

2.5. The Board will be notified immediately when the team considers the health condition of a student to be a danger to the immediate health and welfare of a school, its students or employees of the Board.

a. Upon being notified of the team's concern, the Board will refer the matter to the Medical Health Officer in accordance with the procedures outlined in the School Act.

3. Employees

3.1. The Superintendent will be informed, by district staff as soon as is known, of any employee infected with an infectious blood borne disease.

3.2. Employees with an infectious blood borne disease, who are able to carry out the essential duties of their jobs in a satisfactory manner without posing a health or safety risk to themselves or others, will be entitled to continue their work.

3.3. Decisions regarding potential health or safety hazards will be made on a case-by-case basis in consultation with the employee, the personal physician and district personnel as appropriate.

3.4. The identity of infected employees will remain confidential and restricted to those who need to know or are required to be informed.

3.5. The Board will be notified immediately if the Superintendent considers the health condition of an employee to be a danger to the immediate health and welfare of a school, its students or other employees of the Board.

a. Upon being notified of the Superintendent's concern, the Board will refer the matter to the Medical Health Officer in accordance with the procedures outlined in the School Act.

4. Hygienic Safety Practices

4.1. All employees will follow "Universal Infection Control Precautions" by assuming that blood and other body fluids from all individuals are potentially infectious. These precautions include:

- a. Routinely using gloves when anticipating contact with blood
- b. Immediately washing hands and other skin surfaces after removal of gloves and/or contact with blood

4.2. Schools will be provided with appropriate protective equipment including disposable waterproof gloves (natural rubber latex, neoprene, nitrile, or vinyl), tongs or pliers and proper sharps containers.

4.3. Schools' medical room mattresses will be either vinyl-coated beds or cloth mattress with a protective vinyl (plastic) covering so that they can be cleaned as needed with a bleach solution.

4.4. Blankets can be cleaned as needed by forwarding them, in a clearly labeled plastic bag, to the Assistant Supervisor Operations at the Facilities Office.

5. Universal Precautions

5.1. Universal Precautions to prevent transmission of blood-borne disease will be followed. Universal Precautions is the term for infection control measures endorsed by the Canadian Centre for Occupational Health and Safety for workers who might come into contact with blood and other body fluids. In summary they include:

- a. Wash hands for 30 seconds after contact with blood and other body fluids contaminated with blood.
- b. Wear disposable latex gloves when you encounter blood, body fluids, or when cleaning cuts, scrapes or wounds. Wash your hands as soon as you remove your gloves. Dispose gloves in a plastic bag.
- c. Use disposable absorbent material like paper towels to stop bleeding.
- d. Discard bloodstained material in a sealed plastic bag and deposit in the garbage. Label as containing blood-tainted material.
- e. Cover cuts or scrapes with a bandage until healed.
- f. Immediately protect staff and students from coming in contact with blood-soiled surfaces. The area must be disinfected with a fresh solution of one part bleach and nine-parts water (10% bleach solution).

Mops or brushes used for cleaning should be soaked in a bleach solution for 20 minutes.

(Note: The custodial department will provide each school with the product for dissolving in water to provide the bleach solution.)

6. Identification of Risks of Occupational Exposure
