(Public Contract Code 20111.6)

The district shall award each contract to the lowest responsible bidder, except in the following circumstances:

1. When the contract is for the procurement and/or maintenance of electronic data processing systems and supporting software, in which case the Board may contract with any one of the three lowest responsible bidders (Public Contract Code 20118.1)
2. When the contract is for any transportation service which involves an expenditure of more than \$10,000 and which will be made with any person or corporation other than a common carrier, municipally owned transit system, or a parent/guardian of a student who is to be transported, in which case the Board may contract with other than the lowest bidder (Education Code 39802)
3. When the contract is one for which the Board has established goals and requirements relating to participation of disabled veteran or small business enterprises in accordance with Public Contract Code 2000-2002, in which case the Board may contract with the lowest responsible bidder who submits a responsive bid and complies or makes a good faith effort to comply with the goals and requirements (Public Contract Code 2000-2002)

6. When procuring an alternative design-build contract for a public works project in excess of \$5,000,000 in accordance with Education Code 17250.62, in which case the Board may award the contract to either the low bid or the best value, taking into consideration, at a minimum design cost, general conditions, overhead, and profit as a component of the project price; technical design and construction expertise; and life-cycle costs (Education Code 17250.61, 17250.62)

Protests by Bidders

If the bidder believes that the award is not in compliance with law, Board policy, or the bid specification, the bidder may protest the award. A protest must be filed in writing with the Superintendent or designee within five working days after receipt of notification of the proposed contract award and shall include all documents supporting or justifying the protest. A bidder's failure to file the protested documents in a timely manner shall constitute a waiver of the right to protest the award of the contract.

The Superintendent or designee shall review the documents submitted with the bidder's claims and render a decision in writing within 30 working days. The Superintendent or designee may also convene a meeting with the bidder in order to attempt to resolve the problem.

The bidder may appeal the Superintendent or designee's decision to the Board. The Superintendent or designee shall provide notice to the bidder of the date and time for Board consideration of the protest at least three business days before the Board meeting. The Board's decision shall be final.

Limitation on Use of Sole Sourcing

In any contract for the construction, alteration, or repair of school facilities, the Superintendent or designee shall ensure that the bid specification: (Public Contract Code 3002, 3400)

1. Does not directly or indirectly limit bidding to any one specific concern
2. Does not call for a designated material, product, thing, or service by a specific brand or trade name, unless the specification is followed by the words "or equal," so that bidders may furnish any equal material, product, thing, or service

In any such case, the bid specification shall provide a time period, before and/or after the award of the contract, for the contractor to submit data substantiating the request for substituting the designated material, product, thing, or service. If no such time period is specified, the contractor may submit the data within 35 days after the award of the contract.

When the bid is for a roof project, a material, product, thing, or service is considered "equal" to that designated if it is equal in quality, durability, design, and appearance; will perform the intended function equally well; and conforms substantially to the detailed requirements in the bid specification. (Public Contract Code 3002)

However, the Superintendent or designee may designate a specific material, product, thing, or service by brand or trade name, also known as sole sourcing, if the Board has made a finding, described in the invitation for bids or request for proposals (RFP), that a particular material, product, thing, or service is designated for any of the following purposes: (Public Contract Code 3400)

1. To conduct a field test or experiment to determine its suitability for future use
2. To match others in use on a particular public improvement that has been completed or is in the course of completion
3. To obtain a necessary item that is only available from one source
4. To respond to the Board's declaration of an emergency, as long as the declaration has been approved by four-fifths of the Board when issuing the invitation for bid or RFP

Bids Not Required

Without advertising for bids and upon a determination that it is in the best interest of the district, the Board may "piggyback" by authorizing another public corporation or agency, by contract, lease, requisition, or purchase order, to lease data-processing equipment or to purchase materials, supplies, equipment, automotive vehicles, tractors, and other personal property for the district in the manner that the other public corporation or agency is authorized to make the leases or purchases from a vendor. Alternatively, if the public corporation or agency has an existing contract with a vendor for the lease or purchase of personal property, the district may authorize the lease or purchase of personal property directly from the vendor and make payments under the same terms that are available to the public corporation or agency under the contract. (Public Contract Code 20118)

Without advertising for bids, the Board may enter into an energy service contract and any related facility ground lease, when it determines that the terms of the contract and lease are in the best interest of the district and meet the cost effectiveness requirements specified in Government Code 4217.12. The Board's determination shall be made at a regularly scheduled public hearing of which notice is given to the public at least two weeks in advance and shall be based on a cost and saving comparison finding specified in Government Code 4217.12. (Government Code 4217.12)

Supplementary textbooks, library books, educational films, audiovisual materials, test materials, workbooks, instructional computer software packages, or periodicals may be purchased in any amount without taking estimates or advertising for bids. (Public Contract Code 20118.3)

Perishable foodstuffs and seasonal commodities needed in the operations of cafeterias may be purchased through bid or on the open market. (Education Code 38083)

Bids shall not be required for day labor under circumstances specified in Public Contract Code 20114. Day labor shall include the use of maintenance personnel employed on a permanent or temporary basis. (Public Contract Code 20114)

In an emergency when any repairs, alterations, work, or improvement to any school facility is necessary to permit the continuance of existing school classes or to avoid danger to life or property, the Board may, by unanimous vote and with the approval of the County Superintendent of Schools, contract for labor and materials or supplies without advertising for or inviting bids or may authorize the use of day labor or force account for the emergency purpose. (Public Contract Code 1102, 20113)

The district may purchase any surplus property from the federal government or any of its agencies in any quantity needed for the operation of its schools without taking estimates or advertising for bids. (Education Code 17602)
